SUFFRAGE TO PROPOSE AMENDMENT

Woman to Direct Publicity National Organization Texas Campaign.

Worth, Feb. 25.—The National Association Opposed to Woman Suffrage will take an active part in the campaign to prevent the amendment to the constitution of Texas permitting women to vote, according to the statement of Darden of this city who was appointed publicity director for that organization. The National Association Opposed to Woman Suffrage is an organization with a membership of over five hundred thousand from twenty six different states and the Union who believe that the American home will suffer if women have the right of suffrage to vote. Darden stated yesterday

that the home is the contribution which women have made or ever will make to the world and it is the duty of the association to protect the sacred institution from the burdens which are being thrust upon it. She believes that the mother of the nation is our greatest asset and that she is the angel of our welfare and that the affairs of government should not be taken out of her hands. Women who are active in the affairs of the association are characterized by their high character and their high sense of duty for all that is best in the womanhood of America. Among them are William Howard Taft, Mrs. Cleveland, Mrs. Elihu Root, Nicholas Longworth, James W. Wadsworth Jr., and others. These women are qualified by natural endowments and environments and deal with the subject of woman suffrage. Around their homes glows the fires of patriotism, their homes are permeated with the atmosphere of leadership and their lives are the fountains of wisdom and understanding of the world in which we live. No class of women can speak with more knowledge, sympathy and experience than they. The membership of the association is composed of women who do not step down to the level of man; women who are (continued on last page)

MINERAL RIGHTS AT CHILDRSS

Underwood had filed on the mineral rights of the B. T. Jones, W. L. Dickson, J. A. J. H. Crister home sec. county. These sections are under the laws of the state it is claimed the mineral is reserved by the state. It has been patented and buyers claim that the mineral no longer belongs to the land. It would mean litigation in the present legislature passing a bill to give the mineral to the state. Crister and Reid sections of the townsite. The corner under the LaGrange. This throws two of the city property under Mr. Underwood.—Childress.

STRICTLY IN EFFORT STOP BOOZE TRAFFIC

Arrest have been made in four hours by Department officials in their campaign to stop shipping of liquor into Texas. The Department of justice has agents every avenue into this State. Investigations have developed that many persons have employed negroes to carry liquor into Texas for

PRESIDENT WILL FIGHT FOR LEAGUE

Nations Chief Says It Would Be an "Indulgence" to Accept Challenge of Critics

Boston, Mas., Feb 24—President Wilson will fight at home as he has fought abroad for a league of nations. Returning from France he had been on American not more than three hours today before he threw down the gauntlet to those who distrust the proposed concert of Government based, he said, on the American ideals which had won the war for justice and humanity. An America confining to her own territories her conception and purpose to make her men free, he said, would have to keep her honor "for those narrow, selfish, provincial purposes which seem so dear to some minds that have no sweep beyond their narrowest horizon."

Before a responsive audience that filled the largest auditorium in the city President pictured the Old World fighting with a stubborn despair and expecting in the end nothing better for the people than they had known for centuries. He pictured the American Nation entering the list with a new purpose—the freedom of mankind. The Old World had caught the vision and any treaty of peace dawn otherwise than in the new spirit would be nothing more he asserted, than a "modern scrap of paper" and the present peace unless guaranteed by the united forces of the civilized world would not stand a generation.

OIL LEASING BILL BACK TO CONFERENCE

Conservationist and Farmers Oppose Attempt to Serve Big Business Interests.

Washington, Feb. 22.—The oil leasing bill was sent back to conference Saturday night, when a point of order against it was sustained in the Senate. The point was raised by Senator La Follett, who contended that the conference had inserted new matter in the bill by including Alaskan coal lands in the leasing provision.

The bill has been found by conservationists of the Pinchot school and by farmers. They claimed it deprived the public of its rights in coal, and other mineral lands and opened them to control by big business interests.

Naval Bill Reported

Washington, Feb. 25.—The Senate Naval Committee today, without a record vote, ordered the \$720,000,000 naval appropriation bill favorably reported to the Senate.

Republican members reserved the right to oppose the provision empowering the President to suspend the program in his discretion. There was no opposition to the expansion feature, but the provision for suspension was adopted on a strict party vote of 8 to 6.

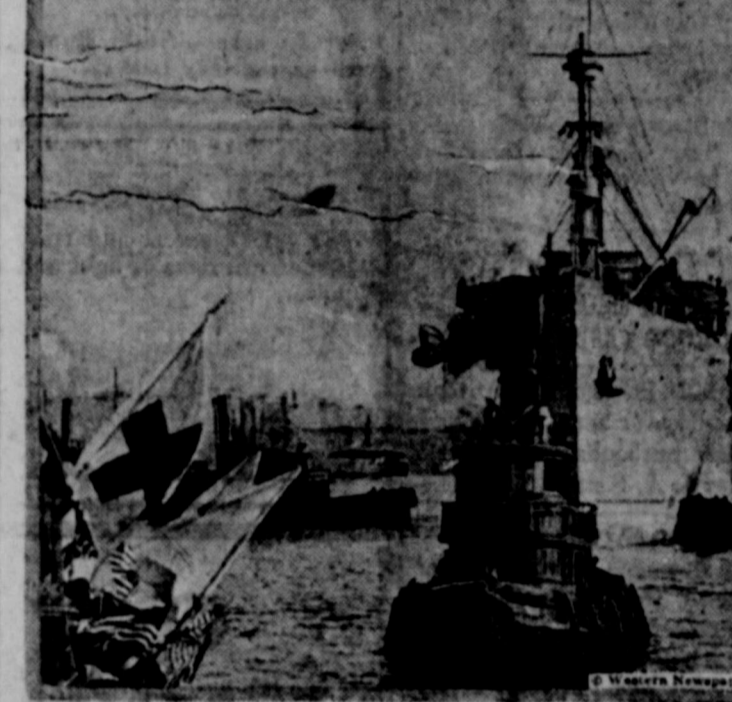

TIME FIXED FOR FEDERAL COURT AT AMARILLO

Washington, Feb. 24.—The House today passed the Culbertson-Jones bill fixing the time for convening the fall term of the Amarillo Division of the Federal Court in the Northern District of Texas at the second Monday in September.

Prepare for Drouth

Washington, Feb. 24.—Residents of Washington are making the most of the few remaining hours in which to prepare for a long dry spell which will follow the signature by President Wilson of the revenue bill, one of the provisions of which will make the capital dry.

GEORGE WASHINGTON AT HOME AGAIN

MEXICAN QUESTIONS ARE LEFT TO U. S.

No Plans Made to Bring Mexican Problems Before Conference

Paris, Feb. 24.—That Mexican problems already have been the subject of formal discussions between the delegates of the peace conference and that Great Britain and France have indicated willingness to leave to the United States adjustments of all Mexican questions in which their nationals are interested, is revealed by the announcement in Paris newspapers of the formation of an international committee of bankers to protect holders of Mexican securities.

SELF-DETERMINATION FOR IRELAND ASKED

Introduces Resolution at Convention of Irish Race in America Held in Philadelphia

Philadelphia, Pa., 23.—A Resolution presented by Cardinal Gibbons urging the peace conference to apply to Ireland the doctrine of national self-determination and a declaration of principals demanding that if any league of nations be created, all features which may infringe on the traditional American policy, including the Monroe Doctrine, shall be eliminated, were adopted unanimously today at the closing session of the convention of the Irish race in America.

The declaration—a state of war exist between England and Ireland "which in the interest of the peace of the world, the peace congress can not ignore."

In the support of the movement to bring freedom to Ireland the convention pledged to raise before Justice Daniel F. Cohlan of chairman of the convention completed the calling of a list of States and cities more than 1,250,000 had been pledged to the cause.

STATE BOND ISSUE FOR GOOD ROADS PROPOSED

Austin, Texas.—Good roads on a state-wide scale will have its hearing in the House Tuesday morning. The joint resolution by C. O. Laney of Dallas is set for a special order then. It proposed a continual amendment, which would permit the Legislature to issue as much as \$75,000,000 road bonds against the State automobile license fees.

ELECTRA FIELD TO BE TRIED FOR OIL

Electra, Feb. 24.—Clay Oliver and associates, owners of extensive holdings north of Electra, have made a location on the Wiggins track about three miles northeast of Electra and timbers are being placed on the ground for a deep test.

Leasing in this vicinity is very active and Electra is putting on an appearance similar to her boom days.

E. Christensen came in a few days ago from Matador; he informs us that he will move his family here and again engage in the shoe-making business. Mr. Christensen lived here many years and has made boots for most of the old-time cowboys in this art of the Panhandle.

The Old Dixie Theatre has been leased by Memphis parties and will be opened for business tomorrow night under the name of the "Majestic." An advertisement telling of the first attraction will be found in another column.

PRISON CONDITIONS SEVERELY CRITICISED

Use of Parole for Commercial Profit and Policy of Pardoning Are Commended

Austin, Texas Feb 24.—The subcommittee of the House Penitentiary Committee, which has just returned from an inspection of the State penal institutions, severely criticizes some of the conditions found and the paroling systems as in some instances. It also says the State paid exorbitant prices for some of the lands bought by previous Prison Commissions, and that better care should be taken of our certain places. Furthermore more than more men were placed in chains than during the preceding year, and that method of punishment should be used as little as possible.

Your Committee further finds that the parole system has been very much abused in this State. We heartily appreciate the spirit and purpose of the parole law, but do not believe that the unfortunate prisoners of this State should be paroled for the purposes of the commercial profit, as has been and is the practise of those who have been and who are paroling convicts at the present time. We find that one man has twenty-four able-bodied convicts on parole now. Your committee believes that the purpose of paroling these convicts could be none other than for profit. This we believe little less than criminal on the part of those engaged in same.

PRELIMINARY PEACE TREATY TO BE RUSHED

Draft of Treaty on Economic and Military Subjects to Be Ready When Wilson Returns.

Paris, Feb. 23.—Results of far-reaching character were obtained at the meeting of the council of the great powers today when resolutions were adopted requiring speeding up of all important branches of the work of the peace conference so as to permit the formulation of a preliminary peace treaty by the time President Wilson returns to Paris in the middle of March. To accomplish this the commissions dealing with the big question of reparations, economic and financial issues must report to the supreme council within the next two weeks or by March 8 at the latest. These reports, in turn, will form a basis for the drafting of the treaty.

An extensive program has been carefully matured within the last few days and it was brought to a culmination this afternoon when A. J. Balfour, British Foreign Secretary and Comel E. M. House of the American delegation called Premier Clemenceau in his sick-room shortly before the council convened. Each found the wounded statesman dressed and sitting up keenly alert concerning the work of the conference and fully agreed on the plan for rapid acceleration of work on all subjects.

NEW REVENUE TAX IS NOW IN FORCE

Income Tax Must Be Paid By March 15. Penalties for Non-Payment

Washington, D. C. Feb. 25.—Work in the collection of \$6,000,000,000 has been begun by the Bureau of Internal Revenue. This is the estimated yield of the new revenue bill. The income tax provisions of the act reach the pocket-book of every single person in the United States whose net income for 1918 was \$1,000 or more, and every married person whose net income was \$2,000 or more. Persons whose net income equalled or exceeded these amounts, according to their status, must file a return of income with the collector of internal revenue for the district in which they live on or before March 15.

For failure to file a return on time, a fine of not more than \$1,000 and an additional assessment of 25 per cent of the amount of the tax due.

For "willfully refusing" to make a return on time, a fine not exceeding \$10,000, or not exceeding one year's imprisonment, or both.

For making false or fraudulent return, a fine of not more than \$10,000 or imprisonment for one year, or both, together with an additional assessment of 50 per cent of the amount of tax evaded.

For failure to pay the tax on time, a fine of not more than \$1,000 and an additional assessment of 5 per cent of the amount of tax unpaid, plus 1 per cent interest for each full month during which it remains unpaid.

In addition to the \$1,000 and \$2,000 personal exemptions, taxpayers are allowed an exemption of \$200 for each person dependent upon them for chief support if such person is under eighteen years of age and incapable of self-support.

Revenue officers will visit every county in the United States to aid taxpayers in making out their returns. The date of their arrival and the location of their offices may be ascertained by inquiring at offices of collectors of internal revenue, post-offices and banks. Failure to see these officers, however, does not relieve the taxpayer of his obligation to file his return specified by law. In this case taxpayers must seek the Government, not the Government seek the taxpayer.

TENANT FARMERS THREATEN TO STRIKE

Buenos Aires, Feb. 23.—Argentina is threatened with a strike of tenant farmers throughout the Republic according to the newspapers. The farmers declare that they will not plant until rents are lower asserting that prices now paid for their products are too low to meet present rents.

Maize is selling at the granaries for 81c (gold) per 100 kilos (200 pounds). As it is unprofitable to reap at this price, the grain is left to rot in the fields.

The farmers argue that if the Government is able to loan \$200,000,000 to the allies it can loan a few million dollars to enable them to live through the present crisis.

The dead trees around the court house are being removed and replaced this week.

107,444 SOLDIERS DIED DURING THE WAR

Washington, Feb. 24.—Deaths during the war in the American Expeditionary Forces and among the troops in the United States from all causes the War Department today announced, numbered 107,444.

In the Expeditionary Forces the total was 72,951. Of these, 20,829 resulted from disease, 48,768 from injuries received in battle, and 3,354 from all other causes.
