### WHY BUY CHRISTMAS SEALS?

**T**UBERCULOSIS at one time ranked first among the causes of deaths in the United States. However, since the National Tuberculosis Association was formed, in 1904, the death rate from tuberculosis has declined to seventh place. This shows what can be done through persistent education, adequate hospitalization and competent diagnosis.

This work is financed through the sale of Christmas Seals. Sales made during the 1937 season go toward financing anti-tuberculosis work in 1938. The Seals you buy now will help to cut the tuberculosis death rate even more during the year ahead.

Every purchaser will be doing his small share toward making human existence a little safer and happier. That alone is enough to prompt every member of a well-ordered and health-conscious society to buy Christmas Seals.

### A CITY NEEDS TEAMPLAY

**A** FOOTBALL TEAM isn't the only organization that needs teamplay... a town needs it as well. The grid machine that wins consistently has at least one hard driving back who, through the hearty cooperation of his teammates who block and open the way for him, can accomplish every play he attempts.

Like the football star, the most adept civic leader is useless without the needed teamplay of merchants and citizens. When the town fails to give their leader cooperation in executing a civic endeavor the town as a whole is the loser. The leader may still be a "star player" and yet his team rank low in the percentage column.

It takes more than a leader to win a game; it takes an entire team of loyal, win-minded individuals. You may not be the star on every occasion, but your consistent teamplay will make Memphis a winning city... you've got to give a little and take a little.

### FUTURE CAMPAIGN ISSUES

**T**HE MOUNTING COSTS of government operations will be one of the chief issues in next year's campaign, according to Gov. James V. Allred. Others he mentions are old age assistance, and whether financial aid should be limited to the needy; general taxation, the general sales tax, unicameral Legislature, liquor sales by drink, enforcement of laws, especially those designed to stop labor violence.

Many of the issues are conflicting of themselves. With the public crying for cuts in the costs of government and in the same breath asking for additional relief measures, the campaign promises of the aspirants are going to be more than amusing.

State Press, in The Dallas News, doesn't like buffaloes. The trouble with the verbose Editor-in-Chief of that metropolis paper is that he has lost contact with the simpler things of life. He needs about two months of bill paying on a weekly to re-acquaint him with the importance of the buffalo, to say nothing of the American Eagle.

Memphis citizens who wish to do a noble Christmas deed will be given an opportunity Friday night when the Memphis Rotary Club presents Miss Lowena Moore, blind violin artist, in a benefit concert. The local artist will be assisted by Rotary artists of Quanah, Childress and Amarillo. Proceeds will go to Miss Moore.

### Paragraphs From Panhandle Press

Culled From The Democrat Exchanges

For the past two or three years the various communities of the Panhandle have been excelling other parts of Texas in the matter of laying homage and tribute at the feet of the pioneers of this section. Every effort has been made to convey to the "old timers" the esteem and reverence of this day and age for their courage, hardihood and achievements in the rough frontier days, which has made possible the civilization we now enjoy... But The News is of the opinion that beginning in 1938 we should shift the emphasis a bit, and without forgetting our revered Pioneers, turn our attention to a bit of constructive pioneering—if we may call it that—calculated to pick this country up out of the doldrums and fog which beclouds the economic and business horizon, and make an advance as notable as did our "old timers" some fifty years ago... Let's quit looking backward. Let's employ all the in-

spiration we can draw from the brave old days in this section, in driving forward to a new and better day for the Panhandle, for Texas, for America.—The Clarendon News.

Elzie Jones says he has never been able to see how a fellow who buys on credit here at home can have a Merry Christmas with presents that he bought from a mail-order house for cash.—Paducah Post.

Some things I've not forgotten: Licking the ice cream dasher... Slipping off to the dug-out without washing my hands and eating big handfuls of kraut and mince-meat from ten-gallon jars stored away for winter use... Scraping the last of the cake batter from the sides of the crock... Making candy when my mother left home... Telling scary tales to my little sister to hear her cry... Pinching babies' noses,

also lifting their eyelids if they were asleep... Stealing peaches from a dear old lady and getting caught... Yet lived the average monotonous life of any gal forty years ago.—The Scribbler in Childress County News.

### Fans Disgusted

The unusual number of protests filed this season have disgusted fans with the matter of filing protests after some team has won a championship. The Gainesville coach best expressed what the fans' correct attitude should be. He said: "We play our football games on the gridiron. If we protest a team it will be before we play them, and never after they have won a championship."—Wellington Leader.

### These Modern Times

What has become of the old-fashioned Muleshoe citizens who, if they couldn't earn enough to get along on, got along on what they earned... With all the automobiles in Muleshoe nowadays, about the only thing that will scare a horse is to accidentally see another horse... W. M. Gason says one reason he likes fish so well is because his wife can't give him the neck or wings.—Muleshoe Journal.

Just to stress the point of how little we know about our own natural resources right here in West Texas, we might cite the recent case of an oil company seismograph crew in core testing some land a mile and a half east of the Midway filling station... At a core test depth of 45 feet a three-foot strata of coal was struck; which indicates the near presence of pitchblende and petroleum in some of its hydrocarbonous forms.—Leon Guinn in Scurry County Times.

#### Labor Board Decisions Influence Union Support of Wage-Hour Bill!

**W**ASHINGTON — Paradox of the wage-hour legislation pending in Congress is the opposition of one faction of organized labor and the half-hearted support of another of the measure designed to benefit the working man. Led by President William Green, the American Federation of Labor is actively fighting the bill, feeling perhaps that the new law would benefit the rival Committee for Industrial Organization more than the A. F. of L. a feeling based upon activities of the National Labor Relations Board, inaugurated by the Wagner Act.

Decisions of the NLRB explain why Green, who led the lobby for the enactment of the act creating the board, and later campaigning for the first wages-hours bill, has changed his tactics. The A. F. of L. claims the NLRB has favored the C. I. O. in ruling on collective bargaining disputes and Green is unwilling to trust administration of the new legislation to a similar group.

**L**UKEWARM indorsement of the measure by C. I. O.'s John Lewis may be influenced by the fear that the bill, by benefitting low-paid and unorganized workers, might make union organization more difficult. But Lewis has been subjected to pressure from clothing and textile workers' unions, who demand minimum wages and restricted hours, and regulation of sweat-shops and low-wage competition.

Building and metal trades unions of the A. F. of L. have lobbied against the wage-hour bill, in the apparent belief that higher wages for unskilled workmen may impede pay increases for skilled craftsmen.

**A**LMOST unnoticed in the fracas has been the NLRB decision on two phases of the A. F. of L.-C. I. O. fight, and the first

split in the board, favoring by a 2-1 vote a fundamental principle of the Federation.

In one case the NLRB held that craft unions may be permitted to separate from industrial unions, even in predominantly industrial production plants, and in the other declared that a company may not restrict its workers to membership in an A. F. of L. union.

Over C. I. O. protests the board ruled that employees of the Allis-Chalmers company may vote separately on whether they wish to be represented by Federation craft unions or by the C. I. O.'s United Automobile Workers. The U. A. W. representation would cover the entire plant, while the Federation groups would be concerned only with the members of the International Brotherhood of Electrical Workers and the Brotherhood of Firemen and Oilers, both controlling majorities in their respective crafts.

In the other case in question, the board has ruled against the A. F. of L. as the "favored" union in the Consolidated Edison and affiliated companies of New York. The company was ordered not to put into effect contracts with the International Brotherhood of Electrical Workers giving that union sole collective bargaining rights, and was forbidden to urge workers to join that group or to restrain employees from affiliation with the C. I. O. United Radio and Electrical Workers of America.

Green declared the decision "outrages the provisions of the Wagner Act," while Consolidated Edison's Chairman Floyd E. Carlisle promised to observe the terms of the contracts until they were invalidated—if ever—by a Federal court.

Coloring the whole attitude of organized labor toward government boards, these decisions may profoundly influence the outcome of labor legislation under consideration in Congress.

### The Story of the Nativity

The International Uniform Sunday School Lesson for Dec. 19. Text: Luke 2:8-20.

**N**EVER old, although it has been retold for centuries, is the story of the birth of the Babe of Bethlehem, of the shepherds watching their flocks and the glory that shone upon them as the angel announced the glad tidings.

It is a story for children, a story that has above all others emphasized to the world the value of the child and the romance of the newborn Babe.

But it is much more than a story to tell and to teach to children. It is a story for adults, and for those of all ages. It is the story of the birth of a Savior, of the coming into the world of one who revealed divinity in human form, and who brought into the realm of human words and action all that is highest.

It is in Jesus of Nazareth that God and man meet. Human life has revealed nothing higher or better than the life that came into the world with the birth of the Babe in the manger in Bethlehem. The world is not given so much today to speculations concerning Him as it once was. We do not know and we cannot understand our own souls; and much less can we understand the mysteries of this divine being in human form.

**T**HERE is nothing in His age or environment to account for Him. He comes as the gift of God to man.

He came to tell men of another world of divine relationships of love and kindness; a world of different values where

men were not seeking ends, but where they were living with a sense of purpose of all. It was a world to be realized only as we love one another and their enemies.

But this love, so far as the world of human life of selfishness and brought into this world relationships with men the things that He inspired other men the same way.

We do not know concerning these shepherds the lowly men when He had grown to make His companions, friends, the apostles, teaching to the world founders of His church.

Surely, we must think shepherds as men of sort, humble people who were not occupied with life after wealth and lived healthy, simple fields with their flocks had much time to study the wonders of the starry heavens.

It was to such hearts were pure and attuned to hear divine the messenger came that night in the Judean shepherds, though their flocks, journeying town that they might mother and her Babe.

They shared the new birth into the world, if we are weak, our hearts like theirs.

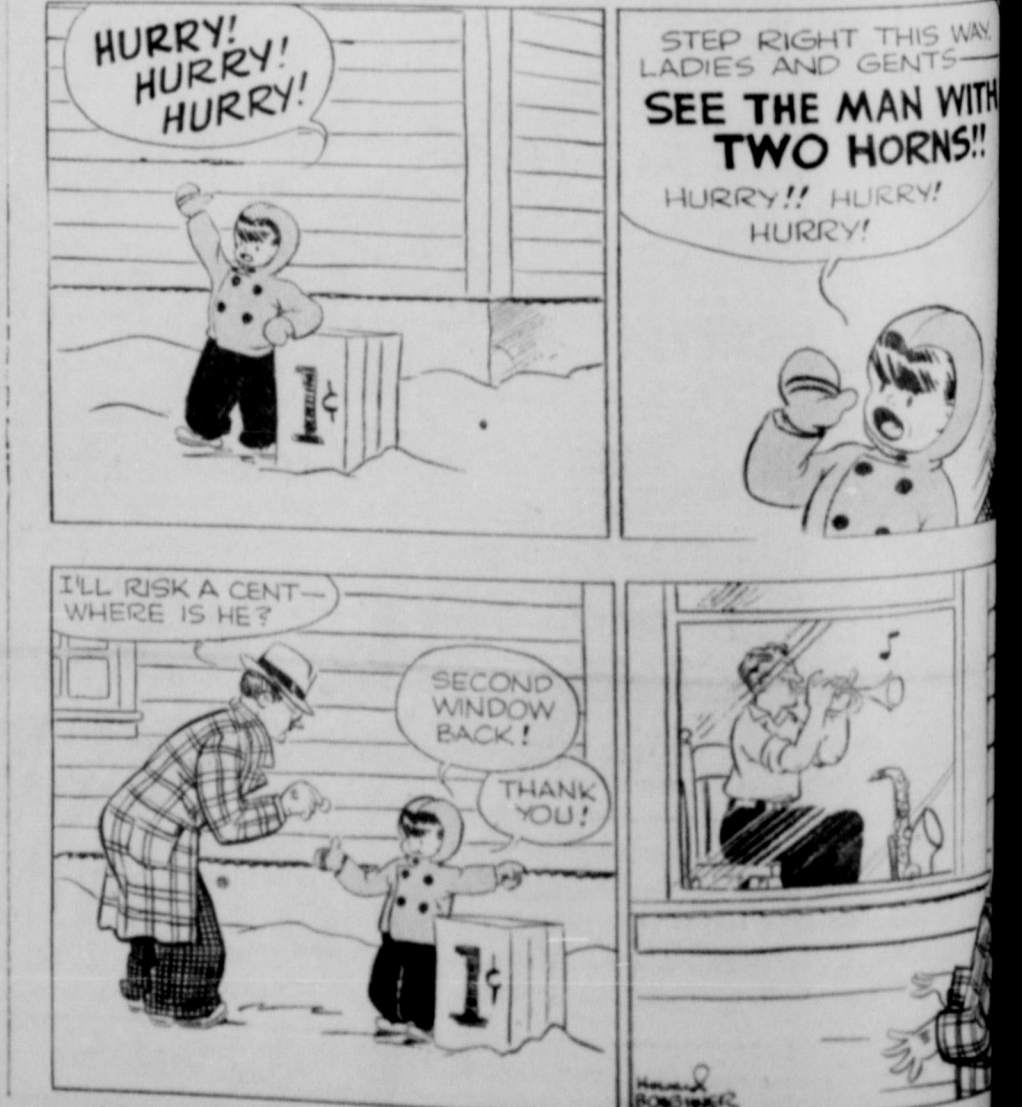

We cannot journey to them or see the Babe, know the beauty of and we may have the and comfort of His

# CHURCHES

**FIRST BAPTIST CHURCH**  
 Rev. J. Wm. Mason, Pastor  
 Dr. R. C. Campbell, our State Missions Secretary will be our guest speaker today for the morning, afternoon, and evening services. We are launching our 1938 budget at this time. We're not asking for any money to be given other than the usual offerings but we do want all to be prepared to make their pledges for the coming year.  
 Let us have a record attendance in Sunday school and B. T. U. to greet our state secretary. We are hoping that no one will disappoint us by staying home and not bringing a picnic dinner to the church for Sunday. We want this to be a red-letter day in the history of our church.

 No wonder St. Paul said: 'The greatest of these is love.' It is the swan-song of the great Apostle. Romance and poetry through all past ages have never
