NUMBER 4

PRESIDENT "IRISH REPUBLIC" SPEAKS

Says That "Self-Determination" Nations Basis of Fourteen Peace Points.

Chicago, Ill., July 12.—A fifteen minute demonstration greeted Eamonn de Valera, President of the "Irish Republic," when he rose to speak at a luncheon given in his honor today. He was borne on the shoulders of guests at the speaker's table, and carried around the room as he waved an Irish flag in one hand and an American flag in the other.

The principle of "self-determination" of peoples to select their own Government, he said, was the basis of no fewer than ten of the fourteen points which "your President put forward as America's aims in the war, and the grounds on which America would make peace."

So, he said, the Irish people had seized the opportunity of the recent elections to prove in a peaceful manner that they desired an independent republic.

"The word 'secession' as applied to our movement for independence, is a misapplication of the term, for there have been no previous voluntary union or partnership," he said.

"Our only demand of England is that her forces of occupation be removed in order that the Government set up by the Irish people, the de jure Government of which I have the honor to be the chief executive, may function as the people desire."

ROUTE IS SELECTED FOR PUBLIC ROAD TO ANTELOPE FLAT

Messrs Ray, Smiley and Braley of Antelope Flat, in Briscoe county were here this week and met with representatives of the Hall County Commissioner's Court.

A route for the proposed road to Antelope Flat was agreed upon. The proposed road will intersect the Turkey road one mile beyond Ox-Bow bridge and follow the ridge between Red river and Little Red meeting the Briscoe road at the county line, twelve miles west.

This will give the Flat an outlet to Memphis and to Turkey.

POPE RESOLUTION IS VOTED OUT OF ORDER BY HOUSE.

Austin, July 14.—The Pope resolution asking the resignation of Walter J. Crawford from the Board of Regents of the State Normal Schools was held out of order by a vote of 79 to 33 in the Texas House today because of the resignation of Walter J. Crawford from the Board of Regents of the State Normal Schools.

Governor Hobby notified the House that he has accepted the resignation of Walter J. Crawford from the Board of Regents of the State Normal School.

BORAH DEMANDS WILSON REVEAL SHANTUNG PLEA

Washington.—Under a resolution introduced today by Senator Borah, Republican, of Idaho, President Wilson would be asked to send to the senate a copy of a letter declared to have been written by Gen. Tasker H. Bliss on behalf of himself, Secretary Lansing and Henry White, protesting against the decision of the peace conference regarding Shantung.

CAPT. HERBERT S. HILBURN DISCHARGED FROM ARMY

Capt. Herbert S. Hilburn, editor of the Plainview Herald and formerly of the Three Hundred and Fifty-ninth Infantry, Ninetieth Division, was discharged at Camp Bowie last week and has returned to Plainview.

Captain Hilburn was awarded the Distinguished Service Cross for conspicuous bravery in action.

FATS AND LEANS ARE TO FIGHT FOR BASEBALL CHAMPIONSHIP

Enthusiastic Fans Championing Each Side Anxious for Test of Strength. Proposed Game to Be Played One Day Next Week, Probably On Friday. Proceeds to Go to Band

Considerable enthusiasm has been aroused among local fans over a proposed test game of ball between the "Fats" and the "Leans," the game to be a "benefit" for the Memphis Band.

Challenges have been issued and accepted and some tall boasting is being done by the adherents of each team.

The proposed game will be played one day next week, probably next Friday and a temporary line up for each team has been prepared.

The personal of the teams, subject to possible changes, is given as follows:

FATS:	
R. D. Gillenwater	First Base
Dave Fitzgerald	Second Base
Geo. Thompson	Third Base
D. E. Turner	Right Field
N. R. Stroud	Center Field
Dr. Tomlinson	Left Field
Jess Gardner	Catcher
R. L. Slaton	Pitcher
LEANS:	
Max Temple	First Base
C. R. Lemons	Second Base

BIRMINGHAM LEGION FORBIDS MEMBERS TO HEAR REED.

Birmingham, Ala., July 13.—The local post of the American Legion today unanimously adopted resolutions declaring no member would hear the scheduled address of Senator James A. Reed of Missouri in opposition to the League of Nations here tomorrow night. The resolution asked all persons believing in "100 per cent Americanism" to refrain from attending the meeting. A copy of the resolutions was delivered to the Senator at the local hotel by a committee from the post.

PRESIDENT VETOES REPEAL OF DAYLIGHT LAW

Washington, July 12.—The daylight saving law was rescued from repeal today by President Wilson's veto of the agricultural appropriation bill.

Buy War Savings Stamps

A big rain, that seems to be general, fell here last night and is continuing today. This will assure the maturity of the early feed and of Indian corn. Damage to small grain may result in some locations.

Jot Montgomery...Third Base
M. E. McNally...Right Field
F. B. Erwin...Center Field
J. L. Carlton...Left Field
H. E. Deaver...Pitcher
Bob Thompson...Catcher

It is understood that the rivalry between the pitchers is particularly keen. The pitcher for the Fats is said to have given out an interview intimating that one of the pitchers for the Leans knows little or nothing of the technique of the game, which brought the reply from the party criticized to the effect that the Fats' pitcher really had no place in a ball club, that the Bon-head Club is the organization for which he is equipped for membership and that he anticipates no trouble at all winning the game because of the lack of "head-work" on the other side.

That the growing interest will reach a white heat, and insure a large and enthusiastic crowd, by the day set for the game is evident. Each side, it is said, has organized "rooters" who are being carefully coached for the occasion.

CHARGE BOLSHIEVISM AGAINST UNIVERSITY TO BE INVESTIGATED

Austin.—An investigation of reports that Bolshevism, Socialism and similar doctrines are being taught at the University of Texas, is demanded in a concurrent resolution offered in the Texas senate by Senators Gibson of Fannin and Johnston of Harris, and adopted. The probe is to be made by the board of regents.

The resolution set forth that reports are current that these doctrines are being taught in the university, but it did not make any specific charges.

MEXICAN LABORERS BEING BROUGHT HERE

Mexican laborers for railroad gangs are now being brought from San Antonio. At present there is a shortage of Mexican labor. The railroad employment agents have been forced to recruit their track gangs from San Antonio.

Editor J. C. Thomas and family accompanied by Mr. J. A. Thomas and family of San Angelo, came through here Saturday on their way to Colorado, where they will spend their vacation.

HAND GRENADE SOUVENIR BANKS

Hand Grenade War Banks May Be Secured by Boys, Girls and Women of Memphis

Hand grenades, just like those hurled into the Hun lines by the American soldiers, can be secured as war Souvenirs by the boys and girls, men and women of Memphis. These grenades have been made in to savings banks and are being distributed locally by the First National Bank.

When the Germans gave up, the United States had a large quantity of these grenades ready to send across. The War Department had no further need of these weapons of war so turned them over to the Savings Division of the Treasury Department and they have been transformed into weapons of peace.

It is a simple matter to obtain one of these grenade banks. The boy or girl obtains one from the local bank so that he or she can save. When enough money has been earned and saved to buy a \$5 War Savings Stamp, and it is purchased, the grenade becomes the property of the boy or girl. Adults may also obtain these grenade banks by saving and investing in at least three \$5.00 War Savings Stamps of the 1919 issue.

Only a limited number of these grenades could be obtained for Memphis. This will be the only opportunity to earn a real weapon of war as a souvenir. When these grenades are gone it will be impossible to secure any more. Those interested should arrange to day to get their grenades.

FRENCH FIRMLY PROSECUTE SPECULATORS IN FOODSTUFFS.

Paris, July 12.—Four men, convicted of illicit speculation in sugar, today were sentenced to from one to fifteen months' imprisonment and fined in the aggregate 100,000 francs by the Criminal Court at Marseilles.

The movement against exorbitant profits is assuming large proportions. A bill introduced in the Chamber of Deputies recently goes so far as to prescribe the death penalty for merchants taking excessive profits or attempting to accumulate large stocks of provisions.

BIG GAS POCKET STRUCK IN PALO DURO WELL

Palo Duro's Arnold No. 1 Sunday afternoon touched a pocket of gas which developed a pressure variously estimated at from 6,000,000 cubic feet to 15,000,000 feet. So strong was the flow that an 18 inch casing is said to have been cleaned of tools, a charge of mud and gravel flying thirty feet over the top of the derrick as soon as the pipe was clear. Mud and water continued for some minutes to shoot into a fine spray through the derrick. The pocket was touched at slightly less than 400 feet.

BURK PRODUCERS OBEY ORDER FOR SHUTDOWN

Wichita Falls, July 13.—Immediate and unanimous compliance was given the order of the Railroad Commission, shutting down production in the Northwest Burkburnett or Waggoner pool, for an investigation pending issuance of an order calling for a thirty-day absolute shut down until the pipe line and shipping congestion is relieved.

TRADE WITH GERMANY RESUMED BY ALLIES

Paris, July 12.—M. Clemenceau sent a note today to Baron von Lersner, head of the German peace delegation, officially notifying the Germans that having received official notification of the ratification of the peace treaty, the allied and associated Governments had given orders that the blockade of Germany be raised today.

COMMISSION SAYS PACKERS CONTROL FOOD SUPPLIES

Federal Board Report to President That Big Five Are Monopolizing Food Business.

Washington, July 11.—An approaching packer domination of all important foods in the United States and an international control of meat products with foreign companies seems a certainty unless fundamental action is taken to prevent it, the Federal Trade Commission declared today in part I of its report to President Wilson on the "extent and growth of power of the five packers in meat and other industries."

"A fair consideration of the course the five packers have followed and the position they have already reached," said the report "must lead to the conclusion that they threaten the freedom of the market of the country's food industries and of the by-products of the industries linked therewith. The meat packers control of other foods will not require long in developing."

MARRIED.

Mr. Wm. Blades and Miss Estella Wilder were married last night at 9:00 o'clock at the home of the groom's father, near town. Judge Hoffman officiating.

GOODNIGHT RANCH BRINGS \$60,000 ABOVE PRICE TO STATE

Austin, Texas, July 14.—Representative Lee Saterwhite is in receipt of a letter from Colonel Charles Goodnight advising that he has sold his Armstrong County ranch for \$160,000. Also that he will continue his research work in crossbreeding cattle that being part of the contract. The State was offered the ranch for \$100,000 for cattle experimental work, and certain members of the Legislature demurred at the price.

The ranch has a large herd of buffalo which have been crossed with cattle, producing a fine beef animal called cattalo. Mr. Goodnight also has produced a fine species of hog by crossing the Karakule sheep ram with Red Jersey sows.

Attorney Barton, of Wellington was here Monday in the interest of R. L. Templeton in the race for State Senator. Mr. Barton said that crop prospects in Collingsworth were fine and that Wellington was lively and business good.

TEMPLETON AHEAD IN HALL COUNTY

In the Senatorial election held Monday in this county the vote stood 85 to 121 in favor of R. H. Templeton. No election was held at Lodge.

But meagre returns have been reported from the 49 counties in the district, though to-day's papers report that Bledsoe, of Lubbock, claims the election. The returns received a very light vote.

BANISHED HARVESTER CO. ALLOWED TO COME BACK

Company Outlawed Twelve Years Ago As Trust to Come Back Under Recent Law

Austin, July 16.—After twelve years banishment, the International Harvester Company of America will be again permitted in Texas. This was made possible by a decree in the Fifty-Third District Court yesterday by Judge Calhoun. Special hearings were held in Dallas and in Chicago, the home of the Harvester company. The International Harvester was ousted in 1907, on the charge of violating the anti-trust law, and made application for readmission under the act of the Thirty-Sixth Legislature.

IMPORTANT DATE IN HAWAII

Modern History of Islands May Be Said to Have Begun on October 23, 1819.

The one hundredth anniversary of the departure of the first missionaries from the United States to the Sandwich Islands, as they were then known, will be celebrated at Honolulu, October 23. On that date in the year 1819, the brig Thaddeus, Captain Hunnewell, sailed from Boston for Hawaii. The vessel anchored at Kailua, Kona, Island of Hawaii, April 5, 1820, and the missionaries landed that day to begin their work of civilizing the natives and converting them to Christianity. Those who arrived in Hawaii on the Thaddeus were Asa Thurston and Hiram Bingham, ordained missionaries, with their wives; Daniel Chamberlain, Thomas Holmes, Samuel Whitney, Samuel Ruggies, Elisha Loomis and four Hawaiians—Homoli, Hopu and Kanui—who had received some education at Cornwall Institute, and George Hunnaha, son of Kamehameha, the king of the island of Kaula. The Hawaiians had been taken to the United States in trading vessels. Traders and whalers had been visiting Honolulu for some years before the arrival of the missionaries, but it is from the latter event that the modern history of Hawaii dates.

Wonderful Slet Machine.
 Most people are familiar with the machines which sell chocolate and chewing gum. An interesting development in this field is a large apparatus that dispenses bottled beverages, sandwiches and chewing gum. Its cooling chamber has space for the accommodation of 96 bottles, while a precooling compartment, in which bottles are chilled by immersion in the water that drains from the ice, has an equal capacity. In order to encourage patrons to return empty bottles to the machine a stick of gum is discharged when a bottle is placed in the receiver provided for it. A counterfeit detector rejects spurious coins. A complete record of all transactions is kept by a sales-registering mechanism. The only attention the machine requires is that involved in stocking and icing it.

Untactd Emergency Ration.
 A correspondent, writing from the front before the fighting came to an end, said that the emergency ration supplied to our soldiers still remained a mystery to them. Few indeed have even tasted this scientific life-saver of which the army boards are so proud. It looks like ground oatmeal; but it

is said to be the last word in concentrated calories and protein. It contains the juices and sustaining parts of all meats and vegetables known to man, with a little gluten thrown in. Most soldiers have not dared to taste it. A court martial threatens anyone who eats the emergency ration unnecessarily, and almost never, so they say, did any soldier find it necessary. Hot meals from rolling kitchens were virtually always to be had.—Youth's Companion.

Farm Products by Parcel Post.
 Wilmington, Del., is to receive farm products by parcel post truck service. The service between that city and Salisbury, Md., began recently, two large army trucks bearing eggs, butter, fish, oysters, crabs, berries and such direct from land or sea to the consumer. Stops are made at every town along the route which can claim a post office. Provision has also been made for acceptance of parcel post material for New York, transfers to be made at Chester; and through truck service from Wilmington to Philadelphia will be established.

Grim Jest Pathetic.
 Was Poe's tale "The Masque of the Red Death" prophetic? His story was that on the stroke of midnight a tall, red-gowned figure revealed itself amid revelers as Death by Plague. A counterpart from real life is reported from Cowestry, Wales. It is the report of a masquerade ball, at which one of the masked celebrators simulated Death, in a black robe and with hollow eye-sockets. There were 140 dancers at the ball. Of this number, 122 are now suffering from influenza. Twelve are already dead, including the death masker.

Good Pipes From Paper Material.
 "Pertinax," one of the most important of substitutes for metal, is a compressed paper material, which has been used in place of lead and copper for pipes for gas, oil and other purposes. From a British war trade report, it appears that these pipes can endure three or four times as great a pressure as lead, while their weight is only one-ninth as great, and they are water-tight, insoluble and unaffected by temperatures up to about 200 degrees Centigrade. The tensile strength of the material is 14,000 pounds per square inch, nearly equaling that of the best stamped, sawed-out and drilled, and as an electric insulator approaches porcelain in effectiveness.

Some Doubt About It.
 One of our good housekeepers knows she has no ear for music, but when she is hustling around her pots and pans and scrubbing and washing out tea towels she cannot constrain humming a bit just out of her cleaning-up joy. Now there is also a little neighbor boy who plays under her window. Once, while the process of scrubbing was going on above, the little fellow looked up to the window with a face all puckered and serious, as if some question had been troubling him for quite a while.

"Well, Toby, what's the matter?" inquired the housekeeper.

A long pause—then, "Please ma'am is you slinging?"—Indianapolis News.

Loaded Cigars.
 Around the hotels of San Francisco patrons are warned to be on the lookout for the old trick of the loaded cigar. Some inventive genius has put out one that contains fireworks and when it begins to shoot the air is filled with set pieces representing men on horseback, French trenches, and the retreat of the Huns. W. H. Hart, financier and investor of Helena, Mont., avers that these things are true and that he saw a parade of wonderful pictures when a friend slipped him one of the cigars in the lobby of the Palace last week. He says that cigar produced the entire battle of Chateau-Thierry before he could smother it.—Oregonian.

Incomprehensibility.
 "There's some misunderstanding about bolshevists."
 "They discuss their affairs largely in the most difficult language on earth; Russian, and illiterate Russian at that. Misunderstanding is inevitable."

The proposal to make Ireland a "dominion" seems to please every body in Great Britain except the Irish.

The Germans were, at first, stuck on the President's fourteen points; now they complain that they are stuck by them.

Maybe the President is right in vetoing the repeal of the daylight saving law—daylight is probably about all anybody will be able to save under present conditions.

Walter Crawford, Hobby's campaign manager who collected the \$10,000 fee in the Blue Ridge farm case, has resigned as Normal Director. Now if the other officials who helped in the attempt to put over that disgraceful deal would follow the example it would please most Texas taxpayers.

Two hundred billion dollars is said to be the cost of the war to all nations concerned. Seems to us if the present generation had to pay all this, instead of shoving it mainly off onto the coming one, there would have been no war.—Quannah Tribune Chief.

And does it not seem reasonable to believe that if the people who have to do the fighting, and most of the present paying, were consulted in future there would probably never be another war? We believe there would not. Yet this idea seems not to have occurred to those who were supposed to be engaged in an effort to make a lasting and permanent peace for the world! The covenant of the Peace League contains no intimation that it might be wise, or right to allow these who must do the dying and the paying to pass upon these matters with which they are so much concerned. Give the people universal suffrage (counting the women as people) and submit the declarations of war to them and there will be little need to trouble about future wars.

Some of the proponents of the League of Nations have sought to quiet criticism in this country by claiming that Article Ten will not bind us to oppose Irish freedom; and thus controvert the principle of "self-determination of small nations," announced by President Wilson. That the British take a different view of the matter is evidenced by the following quotation from the London Spectator: "Under the covenant of the League of Nations America and the Allies guarantee the territorial integrity of the British Empire and therefore rule out Irish independence under the banner of Sinn Fein." Of course, this interpretation applies alike to all countries and nations now under British rule and to the 8,000,000 square miles of new territory which will have the same status under the Peace Treaty. It means that if Canada or Australia, either of which could now successfully assert its independence, should tire of British domination it would be our duty, as the English understand the League covenant, to assist in whipping them back. It means that the South African territory taken by robbery, must forever remain in the hands of the robbers. It means that a handful of 15,000,000 people in England shall have authority over one-third of the people of the world; and that

we shall guarantee its continuance in spite of the knowledge that such authority has been cruelly abused in the past. Suppose some such covenant had existed before our revolt against British misrule? Is it possible that Americans, whose forefathers shed their blood to throw off this tyrant; whose sons now lie in French graves, a pledge to world-freedom; are willing to subscribe to this atrocious agreement merely because it is disguised as a "peace" pact? If the people of the United States will read the covenant of the League of Nations and decide upon their own judgment, as they should instead of being swayed by party prejudice and their desire for peace the League treaty will never be ratified.

—W. S. S.

Less than a year ago Hoover was telling us about the great shortage of cattle in Europe. Six months ago the department of agriculture was sending out stories about the opportunities awaiting cattle raisers in the European trade. Farmers bit on the dope and have gotten stung. Now comes Acting Secretary Owsley of the department with a story that "Europe does not need beef from the United States so much as it needs our pork. The stocks of cattle in most of Europe have not suffered seriously in numbers during the war. Indeed, outside the areas actually overrun by the contending armies, cattle stocks have fairly held their own and in some cases even increased."

The bewildered farmer might well ask which one of these lies is the truth. Two facts at least stand out clearly. One is that the American farmer can not profitably market his cattle through the packing trust. The other is that he can put no dependence on statements of government officials playing the packers' game in rigging the markets. In the last two years the farmer who did just the opposite of what the department of agriculture advised with regard to markets has come out ahead. There is no mystery in the fail-

ure of our city people to buy beef as they used to. They haven't got the money to pay the packer prices, and the few profiteers can not eat much more than they used to.

Judging from Ireland's experience we might conclude that the different parts of the British empire are self-governing so long as they have no desire to govern themselves.

We would like to give our support to home rule for Ireland, but

since it is a positive fact that we haven't home rule for Texas, perhaps it would be very inconsistent for us to butt in.—Temple Mirror.

GOODNIGHT BAPTIST CHURCH DEDICATED

Dedication and Memorial Services
Will Be Held Next Sunday
Public Invited to Attend

The Goodnight Baptist Church
will hold Dedication services Sun-
day July 27th. They have well
equipped brick building which is
now out of debt and is to be
formally dedicated on this date.

Rev. W. H. McKenzie will
preach the dedication sermon at
11 a. m. The night service will
present a memorial program in
memory of Dr. R. C. Buckner
who opened the Panhandle De-
partment of Buckner Orphans
Home in the old Goodnight Col-
lege property. His death some
months ago was a great loss to the
Baptist Denomination. Rev. R. B.
Morgan of Memphis, Texas, will
preach the Memorial sermon.

There are now some twenty-five
orphan children in the home and
they will have part in the Mem-
orial program. All friends of the
Home in this section are cordially
invited. The day with its service
promises to be a memorable one
in the life and history of the town
of Goodnight.

MILLET YIELDS \$100 PER ACRE

Millet Proves Paying Crop—Nets
More Than Either Wheat or
Oats On Same Farms

Bill Kesterson, who lives in the
Newlin country, was here yester-
day with a load of millet seed
which he sold for \$99.00. Mr.
Kesterson said that this millet
crop would yield, in hay and seed,
more than \$100.00 per acre; and
that he would get a crop of sor-
ghum, which was sown with the
millet, off the same ground. He
said that the millet, would pay
better than either the wheat or
oats, both of which are good,
grown on the same farm. The
oats yielded 75 bushels and the
wheat over 20 bushels.

FATS VS. LEANS BASEBALL BATTLE TO BE FOUGHT TOMORROW EVENING

PEELING IS RUNNING HIGH AND SPECIAL POLICE MAY
BE APPOINTED BY THE MAYOR TO KEEP THE
PEACE. COUNTY OFFICERS WILL EN-
FORCE THE STATE LAW AGAINST
BETTING ON BALL GAMES

Memphis fans, especially the
backers of the "Fats" and
"Lean," are anticipating a treat
in the baseball battle between the
rines tomorrow evening at 6:00.
Boosters for both sides are con-
fident of winning and specially
coached rooters will enliven the
game. The county authorities
will however, see that the State
law against betting is enforced, so
that the "sports" will have to re-
strain their "enthusiasm" in that
direction. A big crowd is expect-
ed and a good purse for the band
will probably result.

OKUMA DEMANDS EQUALITY RACIALLY IN WORLD POWER

Yokohama.—Failure of the
peace conference at Paris to adopt
Japan's proposal of racial equality
was denounced by Marquis Oku-
ma, formerly Premier of Japan, in
an address he delivered recently
before the Japan Civilization So-
ciety.

"It is a blot on justice and hu-
manity that the whites, who con-
stitute less than one-third of the
world's population, assume the
control of the world, and I declare
that a justice and a humanity
which do not recognize racial
equality are scarcely worthy of
the name," he said. "Germany
has hitherto been a great influence
in the world, and this influence is
about to be replaced by Anglo-
American influence which will
produce a far-reaching effect on
the future peace of the world and
the weal of mankind."

WILL NOT BAN STORAGE OF BOOZE IN HOMES

Washington, July 21—A motion
to strike from the prohibition en-
forcement bill the provision per-
mitting storage of liquor in the
home for personal use was de-
feated in the House today 107 to 3.

The motion, by Representative
Raker, Democrat, California, was
opposed by Chairman Volstead of
the Judiciary Committee.

Voting for it were Baker, Blanton
of Texas and Upshaw, all Dem-
ocrats. The House previously had
defeated overwhelmingly an
amendment to limit home posses-
sion to \$50 worth of liquor.

FEDERAL GUARD ORDERED OUT IN CAPITAL RIOTS

Washington, July 21—The Fed-
eral Government intervened today
to prevent a recurrence of the at-
tacks made Saturday and Sunday
nights by soldiers, sailors and mar-
ines against negroes in retaliation
for assaults by negroes on white
women in this city. After a con-
ference between Secretary Bako
and the local governing authori-
ties, the Army provost Guard was
restored to duty.

The police authorities announ-
ced that 250 soldiers and marines
would aid the police in patrolling
the streets to-night.

WASHINTON CITIZENS RACE RIOTS ALARM

Washington, July 22.—Congress
was asked to take notice of the
race riots and crime wave in the
national capitol today, and Presi-
dent Wilson was asked to declare
martial law and police the city
with troops, in resolutions intro-
duced in the house by Representa-
tives Clark, Democrat, Florida,
and Vaile, Republican, Colorado,
respectively.

Soon after noon, the nearest of-
ficial estimate of last night's riot-
ing stood at five dead, ten expect-
ed to die, scores of lesser wound-
ed or injured, and the cases of 175
rioters docketed in the police
courts.

At the same time, Senator Har-
rison, Mississippi, Democrat, in-
troduced a resolution to separate
the whites and the blacks on the
street cars.

COWBOY KILLED 7 MEXICAN OUTLAWS

Former JA PUNCHER MAKES RECORD
WITH MEXICAN BANDITS FOR
MOVING TARGETS

Bob Carter, writing from Big
Bend, Texas, on July 6, gives the
following account of an exploit of
a former JA puncher:

"Hayes Bobbins, an old JA cow-
boy, who is well known in Arm-
strong county and at Clarendon,
took a New York oil man down
in the Big Bend country recently
to look at some oil leases near the
border. On their return trip seven
Mexicans held them up expect-
ing to rob the oil man. Hayes
stopped the car and the battle be-
gan, the oil man said. Hayes using
an automatic Colts and the Mexi-
cans using rifles. Hayes killed
six of them with the first six shots,
and had punctured the seventh
twice when the Rangers appeared
and captured. He died from he-
wounds in a few minutes. Hayes
was slightly wounded and the car
was damaged some from Mexican
bullets."—Claude News.

MINIMUM WAGE BILL IS PASSED BY CONGRESS

Washington, July 22.—By a
vote of 368 to 47 the house today

WHITE WOMEN ARE ATTACKED ON STREETS OF NATIONAL CAPITAL

Washington.—The sixth attack
by negroes on white women dur-
ing the last four weeks on the
streets of the nation's capital
was reported to the police. In this
case the assailants were frighten-
ed away, but in four other cases
the victims were robbed or in-
jured. Rewards totalling more
than \$2,000 raised by private sub-
scription are standing for the
arrest of the culprits.

As a result the nation's capital
is going through the novelty of a
man hunt with citizens taking
affairs into their own hands to
the extent of forming a vigilante
committee beside raising the reward.

LEGISLATURE IS ADJOURNED; PASS ALL MONEY BILLS.

Austin July 23.—After having
been in session for thirty days,
the third called session of the
Thirty-sixth Legislature adjourn-
ed sine die Tuesday. All appro-
piation bills were disposed of
and while the totals are not as
yet available, the money appropri-
ated for the next two fiscal years
will reach close to \$3,000,000
which is just about the estimated
revenue of the State.

Zeb Land was here yesterday from Buck Creek. He said that the boiler for the Buck Creek deep test well, near his place, was on the way to the well from Hedley and that everything was in readi- ness to begin drilling as soon as the boiler could be set up. He said crops were good, though late, and doing fine.

THE GOVERNOR'S DUTY TO TEXAS

Temple Newspaper Thanks Hobby
Demonstrated Unfitness In
Blue Ridge Farm Matter

An investigation of the Blue
Ridge option release shows that
Willie P. was at least recreant in
his duty to Texas by signing away
a profit of \$300,000 that the state
already had made. The committee
says that it was evident that there
was this amount of clear profit in
the land, even if there wasn't a
drop of oil on it.

The committee that made the
investigation was one appointed
by the governor's political friends.
His crowd is in the saddle; nobody
else has a chance down at Austin,
and it is certain that the report
was stretched to the breaking point
with the blanket of charity. Yet
read this quotation:

"We find from the facts that
when governor and two prison
commissioners signed purported
release they knew or should have
known that they were attempting
to waive the rights of the State
under a contract in which the
state had a profit of at least \$300-
000."

The report also says that Walter

PENITENTIARY PRISONERS STRIKE

Military Prisoners at Leavenworth
Ask for Shorter Hours, More
Food and Amnesty.

Leavenworth, Kan., July 22.—
Nearly two thousand military
prisoners in the disciplinary bar-
racks at the Federal prison here
went on strike today and have
repeatedly resisted attempts of
the guards to force them to work.
Just after noon Colonel Sedgwick
Rice, in command of the barracks,
received a committee of twelve
prisoners, who asked that the
men be given shorter hours and
more to eat.

The twelve prisoners who were
given a hearing before Colonel
Rice were largely foreign-born
radicals, prison officials said. They
were appointed at the secret meet-
ing held Saturday afternoon, and
gave their complaints in detail.

The men involved in the strike
are all military prisoners, many
of them sentenced in France.

The demands of the prisoners
that they be granted amnesty and
that their plea for freedom be re-
ferred direct to President Wilson
had not been granted tonight, it
was announced by Colonel Rice.

WORK BEGUN UPON NEW FORD GARAGE BUILDING

The work of placing material
upon the ground for the erection
of the garage building to be built
by Clarence Powell, and occupied
by him with the Ford Garage, was
begun this week.

The building, which will be sit-
uated on West Main Street, op-
posite the Democrat building, will
be 50x140 feet with glass and
ornamental brick front and ce-
ment floor. It is being erected
for permanent use as a garage and
will have all modern conveniences
for this use.

ARE YOUR KIDNEYS WELL?

Many Memphis People Know the Importance of Healthy Kidneys.

The kidneys filter the blood. They work night and day. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay.

If you have backache or urinary troubles.

If you are nervous, or worn out. Begin treating your kidneys at once.

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Memphis testimony.

Mrs. C. R. Lemons, S. Noel St., says: "Doan's Kidney Pills are all that is claimed for them. I have used Doan's off and on for some time when my back has ached and has become sore and lame. At such times my kidneys would become out of order. But a short use of Doan's Kidney Pills has always given me good results. I have also given this medicine to a younger member of our family with splendid benefit."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Lemons had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

No Filth—No Flies!

Filth and filth go together. No filth,
 no flies! About the only good thing
 you can say about the fly is that his
 presence should stimulate you to hunt
 up the place where he was born and
 destroy it so that it may breed no
 more of his kind.

Fly swatting may be a popular pas-
 time. It has been talked about much.
 So far, it has proved ineffective. The
 well-meaning person, applying the
 swatter at every opportunity, kills one
 fly at a time. The removal of the con-
 tents of a single manure box will swat
 millions of them at a blow.

Screens and swatters are a good
 thing, but a clean neighborhood is the
 best. Get busy!

How to Sterilize Milk.
 Drs. R. Kraus and B. Barbara of the
 city of Buenos Aires assert in the
 Muenchener Medizinische Wochen-
 schrift that water or milk can be ren-
 dered sterile simply and rapidly by
 shaking with animal charcoal and fil-
 tering. A three per cent addition of
 charcoal suffices for milk if it be al-
 lowed to stand for 15 minutes.

PERSONAL INVITATION
FROM FAIR OFFICIALS

J.M.O. SIMPSON, President
W. H. STRATTON, Secretary

After two years, during a part of
 which time the grounds and build-
 ings were patriotically turned over to
 "Uncle Sam" during the war, the
 gates of the State Fair of Texas will
 again open for the thirty-third ses-
 sion on Oct. 6th. This will be known
 as the "Victory Fair."

For many months our beloved
 State has been blessed with copious
 rains. These have transformed our
 fields into modern, variegated Gardens
 of Eden. Business is good. All con-
 ditions favor the most comprehensive
 representative and largely attended
 Fair we have ever held. We hope to
 bring two people here where only one
 was here before.

Golden grain from fertile fields, lu-
 scious fruits from fragrant orchards,
 succulent vegetables from well-kept
 gardens; lowing herds of fattened
 cattle; magnificent thoroughbred hor-
 ses, and all the other faithful, lowly
 friends of man; as well as riches from
 the marks of trade; modern creations
 of the inventive wizard's brain; the
 wonders of science; the beauties of
 art—in a word, our Twentieth Centu-
 ry "Texas civilization" will be typi-
 fied, visualized at the Victory Fair!

It takes time to prepare displays.
 Are you seeing that your county, your
 home town, will be properly repre-
 sented? Little display space is left.

In the spirit of fullest confidence,
 therefore, in the extent of our pre-
 parations, we most cordially invite
 the people of Texas, and of the entire
 Southwest, to accept this, our hearty
 invitation to be present Oct. 6th to
 19th, so that you may enjoy to the ut-
 most the benefits and pleasures that
 we have provided for you at the Vic-
 tory Fair.

DEATH OF A FAMOUS DUCK

Peggy of Rouen, N. J., Laid 325 Eggs
in a Single Year, and Was Easily
World's Champion.

The death of Peggy, the famous
 duck of Rouen, New Jersey, comes as
 a reminder to us that we would do
 well to follow the principles which
 guided the life of this excellent bird.
 Peggy was celebrated in two hemis-
 pheres as the champion egg-layer of
 the world, the New York Evening Post
 states. Peggy, in one year laid as
 many as 325 eggs. Yet, celebrated as
 she was, noted wherever eggs were laid
 or scrambled, head of her glorious pro-
 fession, what was her attitude after
 we entered the war? Did she rush into
 print, airing her opinion as to what
 the president ought to do? Not at all.
 Despite numerous tempting offers from
 fowl fashions and other magazines,
 she refrained from utterance and con-
 tinued contributing her daily drop to
 national victory. Even when the Ger-
 mans opened their recent peace drive
 Peggy did not turn hysterical and de-
 mand that they at once surrender all
 the Strasburg geese. She, still in si-
 lence, went on with her lay. It is re-
 lated of her that on the morning of her
 demise she quietly produced an egg,
 and, indicating her satisfaction with
 a feeble quack, keeled over and ex-
 pired.

... in Terre Haute.

The other day a primary teacher in
 the Terre Haute schools was teaching
 her youngsters about animals. She
 had told them about domestic animals
 and then gave examples of the cow
 and the pig. Then she turned to the
 children. "Can't some little boy name
 some wild animals?" she asked.

"John could. He rose with alacrity,
 'Bears and Indians!' he shouted."

Watermelon Time

Everybody's jolly here, I'll tell you what's the reason; Watermelon time is near A most delightful season.

The liquor question may not enter into the Mexican situation, as it does into almost every other matter being publicly discussed; but it is significant that the pressure for intervention seems to have grown with marked rapidity since July 1.

Hot.

O, take me somewhere, To land north of here, Where the icebergs float on the sea I'd rather be there, With the polar bear, Than sweltering here, as I be.

The House adopted a current resolution proposing to appropriate \$500 to hang a portrait of ex-Governor Jas. E. Ferguson in the capitol—News Item from Daily Paper.

Slightly amended, by striking out the words "a portrait," this resolution should have no trouble in passing in the Texas Senate.

Referring to an editorial expression in last week's paper regarding the control of the packers over the cattle industry a correspondent at Dalhart sends the following illustrating the results to shippers:

"On July 14, George Conrad, of Dalhart, shipped eighty-five head of yearlings to Kansas City—weight 203 pounds, which were sold for \$17 per cwt. On July 21, a lot of eighty-seven head from the same herd of cattle, averaging 12 pounds heavier sold for \$11.50; a difference of \$11 per head in one week." "Can shippers and growers continue to do business under such conditions?" asks the writer.

THE GOVERNORS' DUTY TO TEXAS

Crawford, campaign manager and personal friend of the governor worked to change "leases in a material way detrimental to the state," and the fee was designated to be "out of proportion to the amount of work done, except such influence as might have been thought to have been exercised, and such act deserves condemnation."

It is easy for political enemies to make charges, too often it has been the case in Texas that high minded, honorable officials have been slandered by those who wanted to shake the confidence of the people in them. We do not endorse campaigns of calumny; it is a serious thing to reflect upon the honor of a man. But W. P. Hobby is governor of Texas, the strong personal friend and supporter of W. P. Hobby is Lieutenant governor of Texas, the legislature of Texas made up of supporters of W. P. Hobby. A committee was appointed by these friends to investigate the Blue Ridge affair, and that committee, after hearing many witnesses and passing upon evidence, said that "we find facts that when the governor signed he knew that he was waiving the right of the state under a contract in which the state had a profit of at least \$300,000." The committee also found that an exorbitant sum of money had been paid to the governor's campaign manager to bring about the sign-

HOUSEFLY NESTS IN FILTH--HELP TO KILL HIM

The housefly is a foul and dangerous little pest. The female lays her eggs in manure, in human excrement or in the flesh of dead and rotting animals, never anywhere else. The eggs hatch into maggots and the maggots feed on the filth until they sprout wings and become flies. The flies swarm into our homes, bringing with them the germs of many diseases—especially typhoid, consumption and dysentery—which they deposit on our food.

Many of our homes were saddened last year by death resulting from diseases spread by flies. Therefore the housefly is our deadly enemy and we ought to kill him off as far as possible before warm weather comes. To do this effectually will require the co-operation of the whole community. Cleanliness, generally speaking, is the fly's greatest enemy, but if one man cleans up his place—removing all barnyard filth, keeping garbage cans covered, etc.—and his neighbors on either side do not follow suit, the one man will not be protected from flies and disease.

This war on flies is a job for the whole town, and it is a big one. It is suggested that our local authorities or some of our active citizens call a meeting and make plans at once to start the campaign for fly extermination. Let us enlist the aid of the health officers, the physicians, the merchants, the lawyers, the mechanics, the women and the boys and girls.

It will be necessary to have a number of committees to look after the many angles of the work and see that proper preventive measures are taken to remove the opportunities for flies to lay eggs and hatch them. Swatting the fly is ineffective—you only kill one fly at a swat. But if you begin earlier by spraying manure piles and the contents of outhouse vaults with kerosene or with chloride of lime, so that fly eggs will not hatch in these masses, you prevent the birth of millions of flies.

The state board of health will be glad to send us all kinds of information helpful in carrying on a fly war, if our local doctors have none on hand. After the campaign organization is formed, about the first thing to do is to get reliable information and put it in the hands of our people.

Who will make the first move to start the campaign?

Italy's Exports

Italian motor car exports showed a falling off for the first six months of 1918, compared with the corresponding period of the two preceding years. From January 1 to June 30, 1918, a total of 2,356 lorries and touring cars were exported, having a value of approximately £1,400,000, compared with 4,148 vehicles in 1917 and 2,731 in 1916. The number of touring cars exported during the first six months of 1918 was 728, this constituting a record, for the figures of the two preceding years were 244 and 569, respectively.

ing of the release.

Now questions arise: Why did Governor Hobby waive the rights of the state he had been called to represent in the highest capacity? And why was his best friend and campaign manager chosen, at a price out of all reason, to have the state's interests bartered away for the benefit of a private individual?

We have no right to say; it is impossible to look down in the hearts of men, it is impossible to search their minds and say what is going on there. But when a legislative committee, made up of a fellow's friends, finds that he deliberately signed away \$300,000 that belonged to the state, when he knew that such was the case and that his friend aided in getting him to do it at a fee of \$10,000 it is time for him to recognize that he is incompetent to further serve a great commonwealth like ours and to get down and out.—Temple Mirror.

LOOK FOR GRAVE AND GOLD

Two Reasons Which Actuate Explorers Searching Among Santa Barbara Channel Islands.

Again the rugged and little-frequented Santa Barbara channel islands are being explored for the burial spot of Juan Cabrillo, the intrepid Spaniard who visited the California coast in the sixteenth century. The search centers in San Miguel island, the property of J. P. Moore, a wealthy resident of Florida.

Cabrillo died on one of the islands, it appears reasonably certain, and San Miguel is generally believed to be the isle where he met death. One legend has it that Cabrillo died of a fever, another that he met a violent death at the hands of a warrior from one of the Indian tribes then inhabiting the channel islands.

He is said to have been secretly buried at night in a cave, in a spot inaccessible except at low tide.

Not all the romance that is associated with San Miguel grows out of the supposed tragic death. For generations Californians have heard of the fabulous sums of gold hidden there by sea rovers.

Treasure is said to have been buried on the isle by Sir Francis Drake, after he had stripped Spanish hulk-laden ships. Drake, so the legend runs, left hurriedly and neither returned nor gave a key to the secret cache.

Several of the Spanish and Mexican outlaws that overran southern California in the Spanish regime, and even after the Americans came, are said to have made the islands their meeting place and to have buried there a fortune in gold and silver coin.

KIEV WELL WORTH A VISIT

Capital of the Ukraine Remarkable Combination of Old and New Cities.

Kiev contains about five hundred thousand inhabitants, and comprises four distinct districts, which may also be called separate towns. Podol, the commercial quarter, skirts the river Dnieper, and above it, on a steep declivity, is Lipki, the residential quarter, and an enchanting spot in summer, with its handsome villas embowered in dark, luxuriant foliage.

North of that is Kiev proper, which contains the university and the cathedral of St. Sophia, a building erected in the eleventh century, but so constantly repaired and added to that it is now a huge and towering structure with more than a dozen large golden domes.

Here also are the theaters, hotels and shops, which are quite as modern as those of Petrograd or Moscow. Petchersk, the fourth district, is well worth seeing, for it is honeycombed with caves and catacombs that in olden days were used as places of refuge and as monastic cells, and where, during holy festivals, one can scarcely move through the dense crowds of pilgrims, of whom three hundred thousand annually visit this ancient and revered monastery.

Warships May Carry Mail.

Removing their side armor, protective decks, barbettes and guns would change battle cruisers into fine mail liners with plenty of room for passengers. That is the proposal which has the approval of the Swedish minister of marine for application to the Swedish navy's two largest warships. The vessels so pacificated would have 2,000 tons dead-weight capacity with a displacement of 4,300 tons and a speed of 25 to 30 miles an hour. Sweden's navy numbers 69 war craft of all kinds, all of which are well designed and constructed, but rather small for actual war purposes. This appears to be the first serious indication of a possible peaceful use for naval units.—Popular Mechanics Magazine.

\$60,000.00 IN PREMIUMS FOR LIVE STOCK ALONE

PRESIDENT SIMPSON INCREASES APPROPRIATION TO THAT AMOUNT FOR VICTORY FAIR

President Simpson, of the State Fair of Texas, believes thoroughly in the live stock industry. He is doing everything he possibly can to encourage it.

To this end, at President Simpson's urgent request, the Board of Directors has appropriated the largest amount in its history, and the largest amount offered by any Fair anywhere, for live stock at the Victory Fair this fall. The amount is apportioned as follows:

For Beef Cattle: Herefords, \$15,000.00; Aberdeen-Angus, \$5,000.00; Shorthorns, \$15,000.00; Red Polled, \$12,500.00.

For Dairy Cattle: Jerseys, \$3,000.00; Holsteins, \$2,000.00; Gurnseys, \$500.00. In addition to this, the number of special premiums has been largely increased.

To increase Texas cattle productivity, these premiums have been offered. Already cattlemen from many sections of the country have entered their herds so that the cattle show at the Victory Fair will greatly surpass all former cattle shows.

FARM PRODUCTS WILL BE FEATURED AT VICTORY FAIR

A MAGNIFICENT AGRICULTURAL SHOW—\$10,000.00 IN PREMIUMS OFFERED.

The Victory Fair will have the most extensive agricultural show in America. Ten thousand dollars will be offered as premiums in this department. Of this amount \$5,000.00 will go to County exhibits and \$5,000.00 to individual farm exhibits. This is the largest amount ever offered by the State Fair Directors, and covers a wider range of the products of the farm, the orchard, the garden, and the ranch than ever before.

The wonders performed by the tractor, diversification, rotation of crops, soil study, adaptability of crops for certain localities, and many other vitally important subjects will

be explained and demonstrated at the Victory Fair, for the benefit of the man who handles the hoe, follows the plow or drives the truck. Advice are being received by Secretary Stratton that local contests are being held to select the choicest products for the State Fair. The irrigated districts, the dry sections, and all the other areas of Texas will have magnificent displays. It will be a veritable wonderland of agricultural and horticultural products in rainbow hues.
