MEMPHIS, TEXAS, THURSDAY JUNE 12, 1919.

NUMBER 51

INSTITUTION AND BY LAWS OF H. C. S. AND S. LEGION

Hall County Soldiers and Sailors Organization Ready for Work

For the purpose of preserving comradeship, ideals and loyalty of the boys who were in the service of the United States during the World War, and for the purpose of social and community service in our Home County.

We establish the hereinafter named organization and adopt the following constitution and by-laws:

1. The name of this organization shall be: Hall County Soldiers and Sailors American Legion, Texas Chapter No. 1.

2. Membership in this Legion shall consist of two classes.—1. Active. Active membership shall be composed of persons of either sex who have an honorable discharge from the United States service, an S. C. D., or may yet be in the service undischarged, and members of the Texas National Guard and in Federal Service on Nov. 11, 1918.

3. The Officers of this organization shall be:

1. Post Commander.
2. Vice-Commander.
3. Post Adjutant and finance officer.
4. Four assistant adjutants, to be selected one from each company's precinct of Hall county.

4. Post Historian.

5. Post Chaplain.

6. Organization assistant.

The above named officers shall constitute the executive force of organization.

7. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

8. Post Historian.

9. Post Chaplain.

10. Organization assistant.

The above named officers shall constitute the executive force of organization.

11. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

12. Post Historian.

13. Post Chaplain.

14. Organization assistant.

The above named officers shall constitute the executive force of organization.

15. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

16. Post Historian.

17. Post Chaplain.

18. Organization assistant.

The above named officers shall constitute the executive force of organization.

19. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

20. Post Historian.

21. Post Chaplain.

22. Organization assistant.

The above named officers shall constitute the executive force of organization.

23. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

24. Post Historian.

25. Post Chaplain.

26. Organization assistant.

The above named officers shall constitute the executive force of organization.

27. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

28. Post Historian.

29. Post Chaplain.

30. Organization assistant.

The above named officers shall constitute the executive force of organization.

31. The officers shall be selected by nomination and vote of the members at its annual meeting and shall hold office for one year or until their successors shall be elected. In the event of vacancy an officer the executive force shall fill on last page)

32. Post Historian.

33. Post Chaplain.

34. Organization assistant.

PENNSYLVANIA LABOR FOR POLITICAL ACTION

State Federation of Labor Votes for Independent Political Action by Organization

If our controlled press really had an ear for really big news all the country would know what the Pennsylvania State Federation of Labor did at its annual convention at Harrisburg. It voted with tremendous cheering that organized labor, having nothing to hope from Republican or Democratic machines, must turn to independent political action.

It re-elected James H. Maurer as president. Maurer has been a staunch opponent, in season and out, of militarism. He has been framed-up many times and his name was on the infamous Stevenson blacklist. Organized labor there has thus proved itself unimpaired by the fake "loyalist" campaign, and it has returned a fearless, able and therefore much hated leader.

The convention also denounced the allied and American policy in Russia, demanded the release of political leaders here, and urged the recognition of the Irish republic.

All this took place in the home state of the biggest boss in American politics today—Boss Penrose—whose presence has long disgraced our national capitol. I took place in the conservative East and not in the woolly West, where organized farmers are said to have started a lot of mischief. No wonder the controlled press, with full service at the Harrisburg convention, found the news of it unfit to print.

PROTESTS AGAINST RAMSEY'S STATEMENT

Says Advice Issued to Farmers by Ramsey Helped Bear the Cotton Market

Texarkana, Texas.—On May 30 Judge W. F. Ramsey, chairman of the Federal Reserve Bank of Dallas, gave to the press a statement advising the South to sell cotton. Now lint cotton is not within 50 per cent of its value compared with the manufacturers' price on the finished product. It has been only a little while since Judge Ramsey issued a statement that the cotton acreage had been reduced 20 per cent. Since then the cotton States have suffered with unprecedented rain and the coldest weather ever experienced at this time of year in this section. Coupled with the shortage of labor the cotton yield will certainly be materially injured. The advice to sell now, coming from so high authority, has been construed as the choicest bear dope. From the date of this statement to the close of the market today (Wednesday), cotton has declined \$7.50 per bale. I respectfully file my protest against this statement coming from a Government official, as unfair and hurtful to the interests of the producers and those who are holding cotton now.

N. A. SHAW,
Chairman of Farmers' League of Texas

ENROLLMENT OF NURSES SOUGHT BY RED CROSS

"Resources of the American Red Cross are being heavily taxed since the signing of the armistice to carry on relief work which must be done," says the last issue of the Red Cross Bulletin issued from National Headquarters, Washington, D. C.

In order to help meet the needs at home and overseas, the American Red Cross Department of Nursing is launching a campaign for the enrollment of nurses in the Red Cross nursing service. According to the April report, ten new assignments were made in Indiana and Kentucky.

TAKING NO CHANCES!

By investing your money in War Savings Stamps, you are taking no chances. The Government guarantees their constant increase in value and that you can always get what you have invested, with accrued compound interest, on ten days' written notice to the postmaster. But if you hold them to maturity they are worth the most. 1919 U. S. S. matures in 1924. Save! Have you bought your Thrift Stamp today?

CABELL SAYS NO NEED FOR CAVALRY

Commander Southern Department Says No Apparent Need for Increasing Border Forces

Washington June 9.—Major General Cabell, commanding the Southern Department and the Mexican border, in a special report to the War Department today advises against any increase in forces at this time. The forces now under his command, General Cabell said, were sufficient to handle any contingency that could be foreseen.

The report was in answer to a specific query from the War Department regarding the recommendation of Governor Hobby of Texas that the First and Second Brigades of Texas National Cavalry be called into service to reinforce the border guard.

Strike Affects Local Office

The local telegraph office, Western Union, was closed here yesterday, the local operator Mr. Palmer going out with the strikers. A non-union operator from Dallas came in yesterday evening and took charge of the office this morning.

GOVERNMENT FOR HOME OWNERSHIP IS PROPOSED

Washington, D. C.—What shall Uncle Sam do for the returned soldiers? Shall the distribution of new farms or of homesteads be made only to returned soldiers and sailors, or to all citizens ready to cultivate them?

These two questions are being threshed out before the house committee on public lands. No agreement is yet in sight.

Secretary of the Interior Lane wants congress to appropriate several hundred million dollars to be used in wholesale reclamation of outcrop, arid and swamp lands in big tracts, and for the making of well-equipped farms, in community groups, from these reclaimed lands. He would have the soldiers and sailors take the farms under contract to purchase them by payments distributed over 30 years.

ADMITS SITUATION NOT "CRITICAL"

Says He Only Intended to Tender Services of Cavalry If Needed for Border

Austin, Texas, June 8.—Governor W. P. Hobby said last night that he has no information that indicates that an additional force is needed on the Texas border, and that his telegram to the War Department was not a request that the National Guard be called into Federal service, but it was an offer of the cavalry units in case they are needed. He continued that he made the offer because the cavalry brigades have received Federal recognition, because he thought that as a result of demobilization of the army and the number of men in the foreign service, the two brigades might be needed later on the border.

Red Cross Is Beneficiary

The American Red Cross was named beneficiary in the will of Thomas Frazier, a colored soldier of Morgan City, La., who died February 16, 1919, in General Hospital No. 8, Otisville, N. Y., of wounds received overseas. His insurance policy is for \$5,000.

ATTENTION MEMBERS OF H. C. S. AND S. LEGION

Members of the Hall County Soldiers and Sailors Legion are asked to carefully read the proposed constitution and By-Laws printed in this week's paper and to confer with the assistant adjutant in their respective precincts about it. It is also urged that each member pay the dues of \$1.00 for the year. This money should be handed to the following adjutants:

Fred H. Power, Esteline, for the boys in that precinct. Tom Hodges, Turkey, for the boys in that precinct. Lawrence Ward, Lakeview, for the boys in that precinct. Elbert Kittinger, Memphis, for the boys in that precinct.

It is earnestly desired to get in these membership fees at once so that we can remit our dues to the State and National Legion and secure a Charter for our county which will line us up with all the other organizations in the United States. It is planned to hold some meetings in the different precincts as soon as they can be arranged.

ELBERT D. KITTINGER,
Post Commander.

Friday at the Princess, Mitchell Lewis in "Children of Banishment" and "The Man of Might," episode No. 5.

PEACE TERMS MAY BE MODIFIED

Changes More Liberal Than So Far Proposed May Result From Present Conference

Paris.—Although called by another name and not officially admitted, the fact remains that there will be substantial revisions of the German treaty, and several points on which the Tuotons laid emphasis will approach a form calculated to make them more acceptable to the defeated enemy and more workable.

Much uncertainty was removed when the big four, after a long session without adopting a definite policy in the matter, agreed that changes in the original terms will be made.

Action is imminent on the German request that Germany be admitted to the League of Nations. It is improbable that she will be accepted in full membership at once, but in return for her compliance with the terms for a skeleton army it is certain that a compensating measure of security will be assured to her. This is by far the most important decision yet reached.

While it is fair to say that distinct progress has been made in respect to the German counter-proposals, and equally true that immediate danger of a serious crisis is greatly reduced, it should be borne in mind that arguments in the matter have not been closed and that the issues are still grave between the pro and anti-revolutionists.

J. V. Leak came in Friday from Munster.

PROBE OF TREATY "LEAK" IS STARTED

New York Bankers Are to Be Questioned by Investigators. Copy of Treaty Secured

Washington, June 9.—Investigation of how copies of the peace treaty got into the hands of certain persons in New York was begun today by the Senate Foreign Relations Committee and before it was fairly under way a copy of the document was presented to the Senate by Senator Borah, Republican, and ordered printed in the Congressional Record. It was a copy brought to the United States by a Chicago newspaper man, probably one of those now on sale in the Scandinavian countries.

The investigation opened with the subpoena of several prominent New York financiers, among them J. P. Morgan, H. P. Davison and Thomas F. LaMont, all of the Morgan banking house; Jacob Schiff and Frank A. Vanderlip, former president of National City Bank.

The Idaho Senator said he was convinced the international bankers of New York were interested "for private reasons" in the adoption of the League of Nations covenant. He added that in his belief the calling of the men named would show why and how they were interested.

R. L. Slaton visited Hereford last week.

"TRUE DEMOCRATS" TO FORM ORGANIZATION

Fort Worth, Texas, June 10.—A call has been issued to "the members and those who desire to affiliate with a true Democratic party in Texas" to meet at Fort Worth Aug. 14 and at San Antonio Aug. 21.

The meeting, it is said, is to organize the party on a "living basis, formulate a set of principles and exchange political views. Committees also will be appointed. The call is signed by C. Y. Roberto of Robert Lee, A. M. White of Ricardo, W. B. Riley of Harraid and nineteen others known as the State organization committee.

SECRECY CAUSE OF FAILURE TO MAKE JUST PEACE PACT

Expert on Russian Affairs Gives President His Reasons for Resigning from Mission

W. C. Bullitt, expert on Russian affairs with the American Peace mission, and eight other members have resigned in protest against the peace terms. Mr. Bullitt's letter of resignation read as follows: Woodrow Wilson, President of the United States:

Sir: I have submitted to the secretary of state my resignation as assistant in the department of state and attache to the American commission to negotiate peace. I am one of the millions who trusted implicitly in your leadership and believed you would take nothing less than "a permanent peace based on unselfish, unbiased justice." But the government has consented now to deliver the suffering peoples of the world to new oppressions, subjections and dismemberments—a new century of war.

I can convince myself no longer that effective labor for a "new world order" is possible as a servant of this government. Russia, the "acid test of good will" for me, as for you, has not ever been understood. Unjust decisions regarding Shantung, Tyrol, Thrace, Hungary, East Prussia, Danzig and the Saar valley, and abandonment of the principal of freedom of the seas, make new international conflicts certain.

It is my conviction the present league of nations will be powerless to prevent these wars, and the United States will be involved in them by obligations undertaken through the covenant of the league and in a special understanding with France. Therefore, the duty of the government of the United States to its own people and to mankind is to refuse to sign this unjust treaty; refuse to guarantee its settlements by entering the league of nations, and refuse to entangle the United States further by an understanding with France. That you persistently opposed (Continued on last page)

HALL COUNTY BOY IS BEST BATTER IN TEXAS LEAGUE

Fort Worth, Texas, June 7.—Averages of the Texas League, just issued from the office of J. Walter Morris, president of the Texas League, show that Sammy Hale of San Antonio is the leading regular batter of the circuit. His figure of .370 is surpassed only by that of Lindy Hiatt, the veteran Houston flinger, whose average is .385. Jewel Ens of Dallas comes next with .363.

Hale was reared at Esteline, where his family still reside, and formerly played with the Esteline team. He also played with the Memphis team during one season. Hale plays third-base with the Bonchos and his percentage as a batsman is also high.

DEEP LAKE WELL IS WAITING FOR MATERIAL

Work on the Home People's test well at Deep Lake is being delayed by failure to receive a shipment of casing that has been lost in transit.

The shipment is being traced and it is hoped that the work of drilling may be resumed within a few days.

The work on this well has progressed very slowly so far and rapid work is predicted by those in charge if materials needed can be secured without further delays.

UNION ASKS FREEDOM FOR MOONEY AND DEBS

Denver, June 11.—The convention of the Brotherhood of Locomotive Firemen and Engineers yesterday adopted resolutions urging that Eugene V. Debs and T. J. Mooney, now in prison, be freed. It was announced today.

BROTHER HAD NOTICED

Need Not Have Worried Over Visible Bad Effect of Movies on Little Son.

For all, it's hard to figure out the effect of the movies on the mind. It happened that mother had gone to a concert and it was up to father to entertain little son, age seven. Father likes the movies—some of them—so he thought he would serve the purpose. Of course you can not tell much about a picture by the name or by the pictures in front either for that matter. Father likes pictures of westerns and he thought the horses and cowboys might please brother. So he saw the poster of a cowboy, they went.

It wasn't a very good sort of picture to them, for it presented a ruthless outlaw and his gang of robbers, seen a wagon train of gold seekers cross the desert he not only tried to give them water, but drove off to perish of thirst on the desert. And there also was a dance scene in the West. Father had some misgivings as to his choice of movie and wondered whether, at its end, his son would elect to be the cowboy, had handit or the vice-crowned owner of the dance hall and gambling hall. He said nothing but anxiously awaited the verdict.

When "The End" came, brother whispered: "Daddy, do you know who the cowboy looks like?"

"No, brother. Who?"

"Our milkman," was the reply.

AT RIGHT POINT OF VIEW

Autocrat, When He Cooled Down, Was Able to See Where Traffic Policeman Was Correct.

The autocrat was waiting for the corner traffic man to give the signal to make the turn at the corner. When he thought he had been there long enough he began tooting his horn impatiently. The traffic man kept on taking care of traffic. The autocrat became more impatient with his horn.

"You won't help matters that way, my friend," said the traffic man, as he waved him on.

"Aw, take me to jail, but don't hawl me out!" exclaimed the driver.

The policeman motioned him over toward the curb. "I could take your suggestion, but I won't. You are angry now, but when you cool off you will understand that the corner man has many problems to contend with," said the policeman. "We do not usually make explanations, but I am doing so in this case, because I think you should realize that you are in the wrong."

The autocrat drove on, mumbling. A few days later he stopped in the same place. "Say," he said to the policeman, "I made a fool out of myself the other day. I had no right to be angry. My fellows have enough vexations without some one who goes across your path once a day adding to them by their remarks."

The policeman smiled and waved on. That autocrat today probably did fight for the corner man if necessary.—Indianapolis News.

Only One Hog Had Dollar.

A fat hog at the Omaha stock yards fetched up a dollar when "Snuff" Smith, an employee of a commission company, kicked it in the head. The hog was trying to run past him when he wanted it to go the other way. He kicked it. It coughed, uttered a moment and then a dollar.

Stocks. At men throughout the rest of the day had a lot of fun about the incident. The commission company claimed the dollar. Smith claimed it. The owner of the hog claimed it, and as a result Smith spent it for cigars for the crowd.

A lot of the employees in the yards began to kick hogs right and left in the hope of shaking out another dollar. One employee said he had kicked 612 hogs during the day and hadn't got even a fifty.

Another Triumph for Woman Farmer.

Once again the adaptability and skill of women have confounded the critics—those incredulous critics, the farmers. They admit that in the recent efficiency tests at Maidstone, England, a very high standard has been reached. In the milking competition more than one-fourth gained over 90 marks. Two women thatchers, who had only been at the work for five weeks, secured the highest possible rating. The competitions were arranged by the Kent women's agricultural committee. Mrs. F. Herd, Maxwell, chairman of the organization, committee said there were 9,000 women registered as land women in Kent, also 300,400 members of the "women's land army."—Women's Century.

Tunnel Would Pay for Itself.

It has been proposed to construct a railway tunnel under the Fifth of North, Scotland, paralleling the famous bridge now spanning that body of water, and to pay for the tunnel by making it largely a coal mining proposition. Mining engineers point out that coal is now being mined on both sides of the fifth from the same seams and that much of this excavating is done under water. At this point the estuary is only about two miles wide and it is contended that a continuous passage could be made beneath it by properly co-ordinating the mining operations. In this way what would otherwise probably prove to be too costly an improvement could be made with profit.—Popular Mechanics.

WHAT ONE CLASS IS DOING

Ten per cent of the weekly collection of the Loyal Men's Class of the South Dallas Christian Sunday School is put into a sinking fund by investing it in War Savings Stamps. The accompanying picture of the Class was taken Easter Sunday in celebration of the winning of an attendance contest over every other class in the school.

The Class has an active War Savings Society and meets every other Tuesday night. The Class also pays a regular amount toward the support of a Home for Aged Persons and is active in all lines of church work.

What this Class has done, others can do. The Sunday School Class which is also a War Savings Society is laying up money which may be needed at any time and which can always be secured—with interest—on ten days' notice to the postmaster.

Have you bought your Thrift Stamp today?

DESERVES WELL OF THE NATION

(From Uplandtown, Pa. Times.)

Not the least of the many elements that have contributed to the winning of the war was the work of the Salvation Army on the battle front, says the New York Herald. It ranks in importance, in the courage and enthusiasm of its members and in the help rendered to our soldiers, with any of the great organizations of mercy that have shared with it the discomfort and danger of trench and field.

The origin of the Salvation Army was as lowly as that of Him whom it serves. Founded in England by General Booth, its pioneer corps of lads and lassies made their first appearance in New York forty years ago, and since then its halls have been planted in nearly every city and town in the country. The sophisticated element in the town greeted them with the same sneers and scoffing mirth with which it is our custom to encourage every sincere and worthy attempt to better us.

But those whom they came to help did not laugh, and from the moment of their first meeting down to the present day these faithful soldiers have gone about their duties in the worst quarters of the town unmolested. That first meeting was held in Harry Hill's dance-house in Houston street in the presence of an audience made up of fallen women, roughs, pugilists, thieves, derelicts and sightseers. Down on their knees went the lads and lassies and lifted their voices in prayer to the Most High, and such was their sincerity that the crowd listened in silence and later took up a collection of more than \$200 to speed them on their unselfish course.

When that which was beginning, then to style itself the "better element" stopped laughing it began to look upon the invasion with the cold eye of disapproval, declaring that the newcomers were "bringing religion down to a low level." They were indeed bringing it down and to levels where it had seldom been seen before. There was a religion that raised up those who fell, comforted and helped the sick-hearted and sought to beat down Satan under their feet. On the battle field they have employed the same methods by which they retrieved souls in New York slums. To the firing line they went with their hot coffee and doughnuts. And there was none to laugh at them there. Truly, the Salvation Army deserves well at the hands of the nation.

SALVATION ARMY RESPECTED

(From Pittsburgh, Pa. Post.)

The universal respect with which the Salvation Army workers in France are held, is attested by sailors aboard American transports carrying wounded American soldiers home on furloughs.

"I have talked with scores of American soldiers aboard the transport on which I am stationed," one said, "and I am amazed at their expressions of love and affection for the Salvation Army. One of these boys, who had lost an arm and leg at the Marne, told me that he owes his life to a lassie who gave him a glass of lemonade just as he was attacked with a fever. The surgeon told him that he could not have survived the double amputation had the fever not hit him."

"Another wounded boy told me he felt himself slipping into the great beyond when he heard a Salvation Army lassie whispering to him to have faith in God. He said that somehow this awakened within him a desire to live, and after she had given him some lemonade, he began to mend immediately. He told me that he always had been a rough guy, but that now he would be glad to speak a good word for the Salvation Army wherever he went. He's a hopeless invalid now, half of his lung having been shot away. Still I praise the Salvation Army which will widen its influence, then he will prove a valuable auxiliary."

SALVATION ARMY PROVIDED FOR THEM

(Dallas Times-Herald)

Huge preparations for making a happy Christmas for our boys overseas were made by the Salvationists. Shipped from the headquarters of the army were gigantic crates containing all manner of festive articles calculated to turn the four hundred huts of the Army in France into sparkling colorful holiday centers. For the huts in which the soldiers in the camps are entertained the army sent over only the Christmas tree trimmings.

"The boys will get their own trees," said Brigadier Wallis. "They may not be pine trees, but they can be depended on to get something to put the trimmings on."

For the sick boys in the hospitals the Army sent over a thousand little Christmas trees which fold up and pack neatly and are light enough to rest on the end of an invalid's cot without being a burden. The patriotic dolls go on the big trees in huts or hospitals will afterwards be distributed to the French children. They are dressed in white, trimmed with red, white and blue ribbons and wear the American flag proudly displayed over their heads.

The flesh colored dolls, which also were for the soldiers' Christmas trees, although festive in form, are serious, hard working cakes of soap in reality, and after the holiday will take their places as sanitary aids to the kits of the infantrymen. As for the quacking ducks—well they will become the property of French children along with the patriotic dolls, although by that time they probably will be a little hoarse from too frequent exercise of the quack.

As yet the Salvation Army has seen no lessening of its service overseas and more women workers are constantly going over. Now that our forces are being rapidly shifted in France and England, so that large numbers of the men can be gradually sent home, there is more need than ever for the ministrations of the Salvation Army. The workers of the Army shift quarters as the troops are moved from one point to another, and when the military contingents make a new camp there are Salvation lassies ready to tender their much appreciated hospitality. Not only the famous doughnuts, but pies as well, and hot coffee, chocolate and other particularly cheering and palatable evidences of their never flagging interest in the welfare of the American soldier are distributed by the Army lassies at all points to which our troops are shifted.—New York Herald.

SOMETHING INFINITELY NOBLE.

(By Jim Dash, in Riverside, Cal. Press.)

Are you one of those who laugh at the Salvation Army? Then be ashamed!

Their religion may not be yours or mine; we may disapprove of the jazz music of tambourine and accordion; we may not like these mixed with our religion. But these peoples are getting results. They are literally working to beat the devil—and they're doing it pretty often, too. They get under people's skins.

"Over there" the outposts of the blue-clad Army are furnishing hot coffee and doughnuts to the boys on the fighting lines, and according to reports from the front the Allied soldiers are for them to a man. Over here they march along the streets and stop at any convenient corner, where they sing hymns and tell the old, old stories of the Bible. And the passers-by stop and listen and look—and laugh, some of them. But others drop coins into the tambourine which is passed among the crowd.

To me there is something pathetic and pitiful—and infinitely noble about these men and women of the Salvation Army. Some of them are old men with snow-white hair; some are thin, labor-worn women; and some are fresh cheeked young girls. Out of the face of each of them, though, shines that high and holy purpose which has been the motive power of every crusader since the time of the great Wayshower.

Don't laugh at them, folks, they're doing good, and doing it against the heavy odds of limited means. They're fighting an uphill fight. Let's help them!

FRATERNAL ORDERS STRONG FOR SAVING

Fraternal orders should take an active interest in the 1919 Savings Campaign in the opinion of Pat M. Neff of Waco, Grand Chancellor of the Texas Grand Lodge, Knights of Pythias. Another enthusiast over the Savings Campaign is J. W. Chancellor of Bowie, Grand Master of the Texas Grand Lodge, Independent Order of Odd Fellows.

"In the Savings Campaign," Mr. Neff said recently, "the Government has placed the stamp of its approval on the fraternal idea. War Savings Societies are not lodges, strictly speaking, but they are next thing to it. Many of the most successful Savings Societies are in the lodges and the Knights of Pythias are doing their share."

"Texas Odd Fellows had a number of strong War Savings Societies last year," Mr. Chancellor said, "and most of them made excellent records. Wherever possible, it would be a fine idea for the members of the lodge to form themselves into a Savings Society again this year. If they have not already done so."

Numerous lodges of various orders over the Eleventh Federal District not only have Savings Societies but are securing sinking funds by investing in War Savings Stamps. Lodges of the members of these lodges are also buying W.S.S. individually.

Has your lodge been a...

Scouts Decorated For Selling W.S.S.

JOYCE COX

Every Boy Scout in the Eleventh Federal War Savings District can wear a Treasury Achievement Button, an Ace Medal and have bronze, silver and gold palms on his medal ribbon, if he will do as much as Joyce Cox, a Boy Scout of Cameron, Texas. Joyce had sold almost \$6,000 worth of War Savings Stamps up to May 1, 1919.

The Achievement Button represents sales of War Savings Stamps to twenty-five individuals. The Ace Medal represents total W. S. S. sales of \$250. A bronze palm represents an additional \$100, a silver palm an additional \$1,000 and a gold palm an additional \$5,000 in War Savings Stamps sold. "I'd like to see every Boy Scout in the District wearing gold palms on his medal ribbon by the end of the year," said Frank M. Smith, Federal District Director of the War Loan Organization. "What one boy has done others can do. One of the best War Savings Societies in the District is in the Boy Scout Troop at Tallulah, La. There ought to be a Savings Society in every troop."

Have you bought your Thrift Stamp today?

FRATERNAL ORDERS STRONG FOR SAVING

Fraternal orders should take an active interest in the 1919 Savings Campaign in the opinion of Pat M. Neff of Waco, Grand Chancellor of the Texas Grand Lodge, Knights of Pythias. Another enthusiast over the Savings Campaign is J. W. Chancellor of Bowie, Grand Master of the Texas Grand Lodge, Independent Order of Odd Fellows.

"In the Savings Campaign," Mr. Neff said recently, "the Government has placed the stamp of its approval on the fraternal idea. War Savings Societies are not lodges, strictly speaking, but they are next thing to it. Many of the most successful Savings Societies are in the lodges and the Knights of Pythias are doing their share."

"Texas Odd Fellows had a number of strong War Savings Societies last year," Mr. Chancellor said, "and most of them made excellent records. Wherever possible, it would be a fine idea for the members of the lodge to form themselves into a Savings Society again this year. If they have not already done so."

Numerous lodges of various orders over the Eleventh Federal District not only have Savings Societies but are securing sinking funds by investing in War Savings Stamps. Lodges of the members of these lodges are also buying W.S.S. individually.

Why Buck Creek Is Best

(1) We are drilling a Deep test; guaranteeing a 3500 foot hole, and promising to go as much deeper as the indications for oil will warrant. We are the only company in the Panhandle guaranteeing such a deep test.

(2) We have bought and will own our own machinery, casing etc. A new heavy standard rig outfit complete; ours will be the heaviest, the biggest, and the best rig in North-West Texas. We are preparing to go to the bottom!

(3) We have sufficient capital to put down a deep test, and yet our capital is very small when you consider our large acreage, our new machinery, our deep test, and the many other advantages we are giving our stockholders.

(4) We have ten thousand acres surrounding our deep test, seven thousand acres of which is within a radius of three and one-half miles of our deep well. The remaining three thousand acres have been chosen in places where oil prospects are favorable.

(5) We shall endeavor to sell sufficient acreage and at the very highest prices obtainable in order that the entire capital stock may be replaced in the treasury and subject to the wishes of the stock-holders. In doing this we hope to eliminate every possible chance for loss.

(6) The Buck Creek Company is managed by experienced oil men, well versed in the ethics of sound business; men who have made a success of their own business and are well able to handle the affairs of others intrusted to them.

Mr. Williams our field manager, a driller of 20 years experience in the oil game, will have complete control of all drilling operations, and will always be on the job. At no time will the affairs of the Buck Creek be entrusted to strangers or inefficient help.

(7) We promise to every stock-holder a square-deal in every way. The smaller stock-holder is as much entitled to privileges and information as the richest man in the company, and will be so considered by the directors. We have promised and will give to our stock-holders all information consistent with sound business and the welfare of our company.

(9) We are going to make the Buck Creek one of the largest companies in the state. A \$10.00 share may in a short while be worth a small fortune. Remember should we unfortunately get a dry hole in our own deep test, we have (now) five other chances to make money. This is your golden opportunity, a chance to get in at the beginning of a sure-enough big oil company. We believe that we are going to make fortunes, that immense wealth is to be ours. Do you want to be one of the bunch? Better get your stock today, the opportunity will soon be gone. After June 21, our books will be closed to the public. Wire, phone or write

BUCK CREEK OIL COMPANY

Tinted Net As A Rival of Organdie

Colorful frocks, gay materials, sensational designs—everywhere everyone seems to be waiting for the summer weather to wear their cherished conceits of the latest fashion.

A Suggestion of a New Silhouette
Materials are a riot of color and design. Silks are no longer of a solid color. Flowered designs grace the fabrics and weird forms make exceptionally smart motifs on voils and Georgette. To relieve any possibility of an over-intense effect, a plain material is used in contrast with the figured.

Ruffled organdie is perhaps the fabric in the highest favor at present for summer dresses. Its dainty appearance and good wearing qualities are two of the reasons for its popularity. This may be obtained in different widths and in some instances the entire skirt is made of these tiny ruffles placed one over the other.

Net For Dresses
As a close rival of organdie, net has taken a stand. This rather quaint material is tinted in the same pastel shades as organdie. The style of frocks is much like the organdie ones, and the same mode of trimming is also used.

They are befrilled and frilled just every bit as dainty as organdie rivals and—soiree attire more exclusive. Cotton wears well and is quite easily altered. Linen developed in the simplest styles, usually in one-piece unise effect, is embroidered in a riot of bright color, for dresses of the very warm weather. Sometimes a binding of wool braid is used and tiny loops hang from it.

New Undergarments
The new shade that Paris so readily sanctioned as the latest and smartest for every garment from the unseen lingerie to the most low of trimming on the rock, has completely invaded the realm of lingerie. This color is citron, and is seen in crepe de Chine and linen.

Jade-green is also quite popular, but these are but novelties and not in the least wise for women of moderate allowance to invest in coarse laces are replacing Valenciennes to a large extent on fine French lingerie.

White Georgette Frocks
Beaded Georgette dresses still remain in the highest esteem of all these who are authorities on fashion. This one is developed in white Georgette and with the design worked in white opaque beads. The long, straight collar gives a vest effect which vest is slightly gathered and also beaded.

Taffeta Hats Are Chic
What a variety of things one may do with a taffeta hat! Some

are large and some are small, but each has a touch of individualism that marks it as a hat of distinction. One hat shown by one of the leading shops, has a brim of tiny leaves of taffeta, of the same color, while the crown is tied with a narrow ribbon.

Quite a sensational style was a large drooping hat of navy-blue taffeta with large circles and squares developed in red and green hemp and the motifs connected by strands of hemp. These hats are usually attractive when worn with a one-piece dress of will, serge or tricotine.

Organdie and Flowered Silk
Side drapery of organdie and a large shawl-collar of the same, tend to give the new silhouette effect to this frock of unique design, shown here. The sleeves are the latest "wing effect" and the wide girdle serves to give the tightened-in effect at the waist.

Georgette Blouse with Contrasting Skirt

The elaborate embroidery design on the skirt section of the Russian blouse of the other frock completely transforms it from a plain into an elaborate afternoon frock. Touches such as this do much toward giving variety and charm to the wardrobe.

CITATION

STATE OF TEXAS
To the Sheriff or any Constable of Hall County—GREETING:

YOU ARE HEREBY COMMANDED, That by making publication of this Citation in some newspaper in the County of Hall once in each week for four consecutive weeks, previous to the return day hereof, you summon N. M. Rish who is non-resident of Texas to be and appear before the Justice Court of Precinct No. One, Hall County, Texas, at a regular term thereof, to be holden at my office in the City of Memphis on the first Saturday in July, A. D. 1919, at 10 o'clock a. m., it being the 5th day of July, A. D. 1919, then and there to answer the suit of J. O. Adams, filed in said Court on the 4th day of June A. D. 1919, and numbered 1156 on the docket of said Court, against N. M. Rish for the sum of Sixty-Eight Dollars and Forty cents (\$68.40), besides interest, costs and attorney's fees, instituted upon sworn account, for goods and merchandise furnished defendant by plaintiff at defendant's special instance and request, said account being due and unpaid; plaintiff sues for amount, interest, general and special relief.

Herein Fail Not, But have you before said Court this Writ with your return thereon, showing how you have executed the same, at the July Term, A. D. 1919.

Given Under My Hand Officially, At Memphis, Texas, this 4th day of June A. D. 1919.

A. C. HOFFMAN,
Justice of Peace, Precinct No. One, Hall County, Texas.

Destructive Hail In Wilbarger

Judge Nabers returned Sunday evening from Vernon, having spent the week-end with his family. He said that a hail storm covering a strip of territory two miles wide by about fifteen miles long did considerable damage to grain in Wilbarger county, between Tolbert and Pease river. Very little of the grain had been cut and the loss was great the grain being beaten down so that little if any can be saved.

Mr. Frank Kell, miller, of Wichita Falls, thinks the crop of wheat in Texas this year will be approximately 35,000,000 bushels and that the oat yield will go to forty or fifty million bushels.

TO PROBE PUBLICITY BUREAU Resolution for Inquire Into Propaganda Work Bureaus at Washington

Washington.—A resolution has been introduced in the house by Representative Mott of New York as follows:

"Resolved by the senate and house of representatives of the United States of America in congress assembled, that the joint committee on printing be and here by is, authorized and directed to conduct an investigation of the press or publicity bureaus of the various departments, bureaus, boards or commissions of the government, to ascertain the nature and cost of work done by each, what employees are used and whether or not their propagand work is authorized by law; and that the joint committee on printing be directed to report its findings to congress at as early a date as possible."

FRANK P. WALSH SAYS IRISH ARE MISTREATED

Within the last few months at least ten citizens have been killed in Ireland by soldiers or Constables under circumstances found by Corner's juries to have been willful murder. This charge is made in the report on observations made in Ireland by Frank P. Walsh, Michael J. Ryan and Edward F. Dunne, delegates of the Irish societies in the United States. The report, which was made public tonight, was sent to President Wilson along with the demand that the peace conference investigate the Irish question.

In discharging 800 women, the Brooklyn Rapid Transit Company said the new law prohibiting women from working after 10 p. m. and before 6 a. m. was the reason.

Robert Read was here from Hedley Monday.

What the Farmer Wants

Nothing more and nothing less than his due part of the wealth he creates.

In times past he had not been getting his part, just as labor in the industries has not been getting its part.

The big rewards have gone to those who traded rather than to those whose labor created wealth out of raw materials Mother Nature has stored up for her child ren.

Long and devious and hidden have been the ways of those who rob the farmer and the worker in the industries of the fruits of their toil. All the determination, all the tenacity of purpose, all the ingenuity of method he can command will have to be used to so reconstruct the economic and political world that the farmer may secure his due part of the wealth he creates for himself and his.

Let no man be mistaken into thinking that all he has to do is but make his wishes and determination known. Before—long before—he realizes his aim he will know that he is in a fight that will call forth every resource of money and brain he can command before it is won.—The Southland Farmer.

Young Couple Wed

Miss Bessie Bishop, daughter of Mr. and Mrs. A. W. Bishop of Childress, and Mr. George W. Moore of Memphis, were married Sunday afternoon, June 1st. The Rev. D. M. Gardner, pastor of the First Baptist church of Memphis, performed the ceremony. The bride formerly lived in Vernon, having recently moved to Childress with her parents. She is an accomplished young lady, having finished the High school of Vernon and was a graduate of the Paul Goetz Music School. The groom is a son of S. H. Moore of Paducah, Texas. He volunteered his service to the U. S. and was stationed at Carl Field about a year; he recently received his discharge. He is now book-keeper for the Cameron Lumber Company, of Memphis. Mr. and Mrs. Moore will live in Memphis.—Childress Index.

To Truck and Auto Drivers:

Secretary Morgan, of the Hall County Chamber of Commerce, asks that all drivers or owners of trucks or service cars engaged in transporting either freight or passengers to or from Memphis communicate with him, give routes and schedules. This information is desired by Eastern interests who are compiling classified lists showing mileage and tonnage of the service. Communicate with R. E. Morgan, Room 2, 1st Floor Court House, Memphis, Texas.

WARNS HUNGARY TO STOP ATTACKS ON CZECH FORCE

Paris, June 9.—Premier Clemenceau, president of the Peace Conference, has telegraphed the Hungarian Government that attacks by Hungarian troops on Czecho-Slovak forces must cease, a dispatch from Vienna today says.

In case of non-compliance, the Allied and associated governments have decided to use extreme measures to stop hostilities," the Premier's message adds.

Jack Grant, age one year, son of Mr. and Mrs. A. E. Stephens of Memphis died Monday afternoon in Childress and was buried Wednesday afternoon in the Childress cemetery, the Rev. George W. Shearer conducting the service at the home of Mrs. C. J. Hargrave, mother of Mrs. Stephens.—Childress Index.

THE BEST TEST

Is The Test of Time

Years ago Mrs. Chas. Oren of N. 8th St., Memphis told of good results from using Doan's Kidney Pills. Now Mrs. Oren confirms the statement—says there has been no return of the trouble. Can Memphis people ask for more convincing testimony?

"I am glad to recommend Doan's Kidney Pills for they have been a great help to me and I believe they will prove beneficial to any one troubled with their kidneys." "I can sincerely advise their use to anyone troubled in this way. I bought a box of this medicine at J. F. Tomlinson's Drug Store when suffering from an attack of kidney complaint and they have never failed to relieve me." (Statement given November 30, 1915.)

On April 17, 1919, Mrs. Oren said: "I have had no occasion to use a kidney remedy since I last recommended Doan's Kidney Pills. The cure Doan's made for me has been a lasting one and I praise this medicine just as highly today as I did when I first endorsed it."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Oren had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Nine members of the American peace party have resigned in protest against the peace terms worked out by the Paris conference. News reports declare that the sentiments of the nine are shared by the greater portion of the commission. One of these sums up the feeling in the declaration that "the treaty is a regular rivers and harbors bill." He is reminded of the way congress passes out the pork for very doubtful internal improvements every session as a means of evening up political scores and feeding the party machines.

"It is easy to make a Bolshevik. Take almost anyone when he is a baby—nourish him insufficiently—let him grow up in a dark, dirty and hideous tenement. Educate him as badly as possible—take him out of school at 13 or 14 and put him to work. Make his work hard, long, and poorly paid. See that he marries and tries to bring up a family on less than a living income. Throw him out of employment every now and then; and some day, when he is in a receptive mood, introduce him to Bolshevik doctrines."—Christian Herald.

SECRECY CAUSE OF FAILURE TO MAKE JUST PEACE PACT

most of the unjust settlements that you accepted them only under great pressure, is well known. Nevertheless, it is my conviction that if you had made your fight in open instead of behind closed doors you would have carried with you the public opinion of the world which was yours; you would have been able to resist the pressure and might have established the new international order based on broad universal principles of right and justice, of which you used to speak.

I am sorry you did not fight our fight to a finish and that you had so little faith in the millions of men like myself in every nation who had faith in you.

WILLIAM C. BULLITT

HOW TO KILL MELON LICE

Farmers For Preparing Emulsion To Destroy Plant Lice On Melon Vines.

Realizing that the time is near at hand when the melon louse will make his appearance it will be wise for all who are raising melons to prepare to combat the pests, as they are very destructive to the melon crop. Am giving below a preparation that will prevent this loss if properly applied. Cut this out and put it where you can get it when in need of this preparation:

Laundry Soap.....1 pound
Boiling Water.....1 gallon
Kerosene.....2 gallons

A low grade of kerosene, which is cheap, is as satisfactory as the high priced illuminating oil and if desired, fishoil soap (also called whale oilsoap) may be used for a substitute for ordinary laundry soap.

To prepare the emulsion shave one pound of laundry soap (or put soft soap) into one gallon of soft water (rain water) have the water boiling hot. As soon as the soap is dissolved remove the solution from the fire and add the two gallons of kerosene. At once agitate the material violently. Continue for at least five minutes. This is done best by use of a bucket spray pump, turning the hose or nozzle back into the bucket or tub so that the material is pumped constantly. In a few minutes a smooth creamy emulsion is formed without any free oil. This will get thicker as it cools, but if properly made no free oil will separate. This is the "stock solution" and will keep indefinitely if sealed from the air. (Do not try to make the emulsion by stirring with a paddle, or similar means, for this does not cause sufficient violent agitation to thoroughly emulsify the oil.)

For green leaf plants the following solution should be used:

For such as plant lice use the 5 to 6 per cent solution add to one gallon of stock solution 12 1-3 gallons of water.

This properly applied will keep the lice from destroying melon vines. Use spray pump with right angle nozzle so as to get to the under side of leaves. Apply on

bright sunny days when the wind is blowing, since considerable of the oil will evaporate quickly and thus reduce danger of injury to the plant.

L. M. THOMPSON,
County Demonstration Agent.

RED CROSS TO EMPLOY PUBLIC HEALTH NURSE

A meeting of the Executive Committee of the Red Cross was addressed last Saturday by Miss Cramer, field secretary, who suggested and advised that the Hall County Chapter employ a Public Health nurse. A motion to that effect was adopted by the committee.

The duties of this nurse will be to teach classes in home nursing and first aid training. The expenses will be paid by the chapter from its funds.

No greater safe-guard to public health can be had than a corps of well-trained nurses. The recent epidemic of Spanish influenza so impressed this necessity that little argument was needed to convince the committee of the wisdom of making provisions to that end.

PUBLICITY CHAIRMAN

The World's Greatest Jersey Cow

Sophie Agnes is the first Jersey Cow in the world to produce 1000 lbs. of butter fat in 1 year. During the time that she made this World's Record.

SCHUMACHER FEED

was a part of her ration. The fact that the owner of Sophie Agnes as well as the owners of 32 other World's Champions feed Schumacher Feed as the carbohydrate or maintenance part of their ration is a good indication that this popular feed will be the best for your cows—let us supply you.

P. F. CRAVER
Memphis, Texas

We Have It

Now is the time to use it. Spring is here and you will want to clean-up and paint-up.

Let us supply you.
