FINAL PLANS MADE FOR PROGRAM TO BE HELD AT ESTELLINE SCHOOL

Final plans were made this week for the "Our-School-in-Action" program to be held in Estelline Friday.

Highlighting the program will be a speech on the 12-grade school system by Dr. L. A. Woods, state school superintendent, who will explain how the new plan works.

Purpose of the day's activities will be to give patrons an opportunity to observe the school in action, J. W. D. Chappell, principal, has announced.

Students will be placed entirely in charge of the day's program, and will also have charge of the night program preceding the address by Dr. Woods.

Visitors will be allowed to go into class rooms as the classes are in progress. Other rooms will be open for inspection during the day, and various exhibits will be made, it was explained.

A number of other deputy superintendents are expected to attend, Mr. Chappell said. The deputy superintendent at Childress, Anthony Hunt, has been invited, as have County Superintendent Tops Gilreath and members of the county school board, Theodore Swift, Hulien Clifton, J. O. Adams, J. W. Burk, and J. E. Eudy.

Wood from nation's forests is needed to house Uncle Sam's new draft army in barracks.

WASHINGTON.—United States farm woodlands are now producing about two billion cubic feet of wood a year, but improved management could multiply this by three. That's the assertion made at a recent annual meeting of the Society of American Foresters in Washington. General range of woodland at the convention covered the points of forest conservation, forest cultivation, the proper way to cut trees and the enormous use of wood in the national defense program. Field Marshal Hermann Goering, it was pointed out, places second on the list of Germany's war necessities. The United States still has an advantage over Germany in lumber supply, despite U. S. wastefulness and German conservation. This country has about five acres of forest per capita to Germany's one acre per capita.

In the present defense program the United States needs huge quantities of wood for the erection of army cantonments for its drafted army, for the building of pontoons and for containers for the shipment of explosives. In addition, wood is required for the charcoal in gas masks and plywood for the manufacture of trainer planes. Lacking vital resources, Germany has invented ways of making them from wood, which the United States could emulate if the necessity arose. It has long been known that German chemists extract from wood a useful motor fuel. As the crop of beet root has not been sufficient for the sugar needs of Germany, a method has been invented whereby they get edible sugars from wood. There have been many jokes about German wooden suits, but the fact is that from cellulose

procured from wood clever chemists have created synthetic wool and cotton. R. D. GARVER, director of the United States Forest Service's survey, estimates that full development of American forest lands could provide work for an additional 2,000,000 men a year. He says that back in 1936 American forest resources gave directly or indirectly about 4,000,000 year-long jobs. He urgently warns against cutting timber unwisely, says more forest growth is a real necessity if all present and future requirements are to be met. In old countries like Germany and France there are still extensive forests because under conservation laws when matured trees were cut, young trees had to be planted, so as to keep up the acreage and even increase it.

Standard For Good Food Is Adopted By State Workers

Texas Nutrition Group To Make Diet Schedule Available Soon in State

Members of the Texas State Nutrition Committee have adopted a new Texas Food Standard which will soon be available for popular distribution from the Extension Service of Texas A. and M. College and other sources. The standard sets forth in simple terms for lay people what constitutes a good daily diet. This nutritional guide was prepared by a sub-committee headed by Jennie Camp, extension specialist in home production planning, and it will be used by all Texas educational institutions and governmental agencies working in the field of nutrition. Other members of the sub-committee were Mattie Trickey of the Farm Security Administration, Ruth Huey of the State Department of Vocational Education, and Elizabeth McGuire of the State Department of Health, with

Church services were held at the Baptist Church Sunday, with the pastor, Rev. L. J. Crawford, in charge. The large number of flu cases in the community has taken a heavy toll in the Sunday School and church attendance here. Midweek Bible study will be held this week at the Methodist Church.
Grocery Store Moved
The grocery store operated by O. F. Cheves has moved into new quarters— from the Townsend building to the building formerly owned by J. D. Bice. The building has been remodeled with new shelves and counters, and will be Dr. Jessie Whitacre of the Agricultural Experiment Station as consultant. Use of movies and radio programs in a nutrition education program was also discussed at the committee's third meeting, which was held in Fort Worth recently. The idea is to make people want to eat the right food, to help them grow or buy it efficiently, and to help them prepare it properly after it has been obtained.

Famous Character Known Here
Monday's edition of several large daily newspapers carried the account of the death of Mrs. Mickey McCormick of Old Tascosa. She was well known by several residents here, and especially by Mr. and Mrs. W. S. Pigford, during the time Mr. Pigford was section foreman at Magenta. Mrs. Pigford stated that the famous Mrs. McCormick, who was once a dance hall belle, would not allow her picture to be made during the 12 years she knew her. She had, however, a large picture made during her girlhood which was very beautiful. Mrs. Pigford fixed her Christmas dinner and carried it to her in her secluded adobe hut in Old Tascosa for 12 years. Her husband, the late Mickey McCormick, and Reese Barton, who died at the age of 100 on the Smith Ranch in 1932, were old-time friends. Each wore a watch chain broken in half that was significant of some sort of

pact which each kept until his death.
Mrs. Mattie Winn Dies at Huckabay
Mrs. Mattie Winn, 90, died at the home of her daughter at Huckabay, Erath County, last Monday, January 6. Mrs. Winn was the grandmother of Mrs. Lewis Hamilton of Flomot, George Gresham of Carey, Ivan Gresham of Munday, Earl (Bud) Gresham of Paducah, and Mrs. Hurston Kromer of Flomot. Mrs. Kromer attended the funeral services. Interment was at Huckabay. Mrs. Winn had visited her grandchildren several years ago.
P.-T. A. Program
The Newlin P.-T. A. will have the following program at the Newlin auditorium Thursday night: Call to order by president, community singing, prayer, business session, talk by C. H. "BELIEVE ME--I Wouldn't Travel On Any Other Kind But Firestone Tires"

THAT'S WHAT WE HEAR EVERY DAY FROM OUR CUSTOMERS—BOTH LOCAL AND TRANSIENT.

Every day more people are changing over to Firestones! And every day we hear, both from our local customers and from transient customers, that Firestones are better than any other tire, give longer service and actually cost less. Proving ground tests are fine—and Firestone makes all kinds of Proving Ground tests, too—but the real test of a tire is what the people who use it think about it. That's why Firestones are so popular on the road—they give real service where real service is needed.

Why don't you come by today and let us give you our real low prices on a complete change-over to Firestones? War conditions will force the price of rubber up—and naturally the price of tires will go up. You'll need new tires sometime during 1941—so get them now and save real money, while there's still time. Don't delay—do it now!

Top Farmers Get Share of Prize Steer This Year

Firestone Purchases Prize Animal From 18-Year-Old College Girl of Illinois
One hundred twenty outstanding farmers of the nation will receive certificates for shares of the most-prized stock sold during the month—the 1940 International Grand Champion Steer—Leonard K. Firestone, purchaser of the champion for the Firestone Tire & Rubber Co., has just announced. This statement has been issued by E. E. Cudd, local Firestone dealer. Certificates are being mailed to these 120 members of the Champion Farmer's Association of America who celebrated their second reunion during the week of the International Livestock Exposition in Chicago as guests of the Firestone Company, recently. The champion steer, Sargo, was bought from 18-year-old Evelyn Esay, 4-H Club girl of McCarroll, Ill., by Firestone for \$3,498, or \$3.30 per pound. Miss Esay, a junior college freshman, after selling Sargo to Firestone shared honors with Governor John W. Bricker of Ohio, as the distinguished guest at the banquet that concluded the second reunion of the Champion Farmer's Association. This group of champions represents practically every phase of agricultural enterprise. It was organized as the CFAA in New York City last year when host to the group was again the Firestone Company during the two-day program. John W. Hendricks of Iowa, president for the 1939-40 term was reelected for the 1940-41 term.

Is Child Spoiled? Here's Reason Why

There are two ways to spoil a child, according to Dosca Hale, specialist in parent education and child development for the Texas A. and M. College Extension Service. First, over-protection and over-indulgence will spoil a child and make it difficult for him to adjust himself to the world around him. In addition, the child who receives little or no affection can be as badly spoiled as one who receives too much attention. With the national defense program of the United States opening up large numbers of jobs of varied types almost daily, the Civil Service Commission is asking for applications, Glynn Thompson, local secretary of the board of examiners, has announced.

They Feed Uncle Sam— Going Hungry Themselves

Things are looking up for Farmer Marvin R. Jeppesen and his two young helpers since a federal loan enabled them to buy the house and 54 acres of land they formerly rented.

WASHINGTON.—A third of the 6,000,000 farmers whose job it is to feed Uncle Sam are never very sure they can feed themselves.

Everyone knows the United States has a farm problem, although most would have difficulty defining it, or getting much agreement on their definitions. But to those 2,000,000 lowest-income farmers and their families, all is simplicity. Their stomachs tell them nothing but facts. The big capital-letter Problem, so them, is how to live.

Uncle Sam knows some of the facts too. His last census showed, for example, that these agricultural casualties are scattered throughout the country. Their reward for feeding the rest of us ranges from \$200 to \$500 a year.

Even back in "prosperous" 1929 they were earning less than \$600 a year, including their operating expense and the value of everything they raised on the farm for their own sustenance.

At least 4,000,000 farm residents, the national resources committee says, are trying to exist on an income of \$1 a week. The lightest zephyr of a dust storm, a drought, a bad crop, can

blow these farmers off the land. Uncle Sam is doing something about it. He calls it "conserving soil resources and human resources" because, as he says, "poor land makes poor people, poor people make poor land."

Utah, for example, is a state with 30,000 farmers, most of them small land holders. Probably half these farmers have been aided at one time or another by loans, guidance in farm and home management, and various other government services.

One in every seven has taken part in the basic rural rehabilitation program, which makes loans for essential tools, equipment, feed, seed and livestock.

Under the Bankhead-Jones farm tenant act, landless renters, sharecroppers, and farm laborers are able to buy farms of their own.

Ninety-five per cent of all the oil wells in North Texas are now on the pump. The daily average output is 4.6 barrels per day.

There are 5,500 oil companies and independent operators operating in Texas, and 530 gas companies and operators.

Girl in Scotland Writes Memphian; Tells Highlights of Life 'Over There'

Miss Dorothy Jean Sheehan of Memphis is corresponding with Miss Rina Hunter of Edinburgh, Scotland, and recently received a letter from the Scottish girl.

The letter, written November 5, contains a number of items which will probably be of interest to Hall Countians. Portions of the letter are as follows:

"I'm terribly sorry I took so long to write you, but I don't seem to have much time... We had the sire niast night from 7 p. m. until 10 p. m., and did I, or did I not, call Mr. Hitler names. He's a so and so.

"I've just put off the wireless and a man has just been giving us a commentary about the election. He's explained a lot to us and I am really interested and yet I don't know why. (The election she writes of here is the U. S. presidential election.)

"I wish I was in America just now. Boy! It must be exciting. I wonder who'll get it. Actually, I've tried to puzzle out (if I was an American and allowed to vote) who I would vote for but it's hard 'cause I don't know much about them except what I read in the papers.

"It would maybe be all right having Willie but then if he is elected he is going to change from Roosevelt's way of the government interfering with the population, and he is going to leave the people to their own affairs.

"I've tried to express it but it is kind of muddled. Is this correct? If this is so, it would be fine, but look how everything is in a turmoil. War may come any time. Which of them is your father and mother voting for? Please tell me 'cause I would really like to know what different views you have in America.

"We are having air raids practically every night, but we are getting used to it now. We had a long one last night, three hours less five minutes. I was terribly angry because I was just going for a swim at 7:15 p. m. It was my chum's birthday and she had got a new bathing costume. We were ready to go when I thought I heard the warble, and sure enough it was.

"Well, we hoped it would end soon and we waited hopefully for the 'all clear.' But no! It didn't sound until 10 o'clock exactly. We heard gunfire so we are hoping that they brought the pigs down and that they didn't bother to save them. Really, Dot, I suppose you think it awful to say that kind of thing. Well! I used to think the same but after seeing some of their work. Wow! It makes my blood boil.

"On the news reel we saw more of the indiscriminate bombing on London and Oh! Oh! Oh! They're heartless beasts to say the least of it. It lets us see what we are fighting against. You see, for instance, we saw a tenebion that had been bombed and you know how they 'Demolition Squad' get then we saw a woman and a tiny wee girl on stretchers.

"About 3 months ago, we had bombs dropped in the next street. There were two dropped in Abercorn Park and two dropped in Argyle Place. Luckily they had faulty fuses and none went off. Weren't we lucky?

"It was funny to think of Halloween (I don't think you have it) this year because there were no ice cakes or fantastic faces lighting up shop windows or boys and girls going about in disguise. Halloween is the night when all the witches come out at midnight and if you are caught they are

Belle of Tascosa Dies at Channing

Mrs. Mickey (Frenchy) McCormick, 88, known to a number of old-timers in Hall County, died Sunday morning in the home of Mrs. Lona Blackwell in Channing. Funeral services were held Monday morning in the Catholic Church at Channing, with J. C. Daly, pastor of the St. Anthony's Catholic Church at Dalhart, conducting the rites.

Burial was in Casa Romero Cemetery at Old Tascosa, across the Canadian River from the famous Boot Hill Cemetery, where were buried a large number of the notorious killers of the early days.

Mrs. McCormick was buried beside the grave of her husband, Mickey McCormick, who married her when she was a dance hall belle. McCormick was a lively stable owner and also was noted for his gambling.

Mrs. McCormick lived alone in Old Tascosa, although the once popular place was deserted, until about two years ago. She still called the deserted place her home. Her husband died in 1908.

Wichita Falls Man Says Hoyt's Compound Reached Source of Trouble, Ended Acid Indigestion, Constipation, Kidney Misery

"For years I suffered with acid indigestion, constipation, kidney misery and their attendant evils," says Mr. L. E. Wilson, of 808 1-2

MR. L. E. WILSON

Ohio ave., Wichita Falls, Texas. "After meals I had attacks of gas, bloating and belching. It felt like I had a solid lump in my stomach. My bowels were irregular, and weak kidneys disturbed my sleep. There were constant pains in my back, hips, and legs. "Hoyt's Compound reached the source of my trouble, and now I have no more gas or bloating, my bowels are regular and I seldom have to get up at night. My muscular aches and pains are gone."

Hoyt's Compound is recommended and sold by Tarver's Drug Store, and by leading druggists everywhere.

ISOLATION, AID, OR WAR?

THE STATEMENT of William Allen White, chairman of the committee designed to keep the U. S. out of war by aiding the Allies, to the effect that his committee and the no-foreign-war committee should work together was quite fitting.

Mr. White stated that the two committees should cooperate and let Congress decide the steps to be taken in the European war.

Mr. White didn't say so, but when it comes to the point, Congress has the right and will decide anyhow whether the U. S. is to join actively, either directly or indirectly, in the war.

The citizens of the U. S. elect the Congressmen, both the senators and representatives—elect them to represent the people in determining the policies and activities of this government.

It is only natural that the citizens should tell their representatives what to do. But it is hardly logical to believe that a fight between two committees will help much in aiding the representatives in deciding which is the better course to pursue in any matter.

There are three courses of action which Congress can take. First is complete isolation, and it is extremely doubtful that this course will be taken. In this world, civilized as it is today, isolation is impossible, no matter what some may say.

The second course is aiding one side or the other by either selling them or giving them supplies. It's a cinch that the U. S. is not going to aid the Axis powers—thus leaving the only alternative in this second course as aid to the British.

The third course is active participation in the war—participation including not only the use of U. S. supplies, but also the use of U. S. manpower. This course is unlikely, as almost all commentators agree, to come about within the next few months, and probably not within the next year.

Take your pick of the courses, advise your Congressman of your views—and then let him go ahead and do what he wants to anyhow. And if he doesn't do as you like, remember it when election time rolls around again—that's where democracy comes in.

TIME FOR CRIME?

DURING THE PAST few weeks, there have been an increased number of small thefts, burglaries, and robberies.

Not only in Memphis have these small crimes been occurring, but seemingly throughout this entire area. Memphis has had its share, and officers here have been on the alert to catch a large percentage of the guilty persons.

The fact that the small crimes have been occurring throughout this area gives one reason to believe that there must be some explanation.

One official pointed out that the reason for the frequent occurrences is due to the release of a number of prisoners. Several years ago, a large number of men were sent to prison for similar offenses. According to the officer's point of view, a large number of these former prisoners are getting out of the penitentiaries and beginning again where they left off.

Another explanation offered is that, with the added money being spent by the federal government on programs such as national defense, criminals feel they get their part of the extra money. To do this they are going back to their old trades, rather than hob-knobbing around or living through the facilities of relief offered by the federal government.

Regardless of the cause, these crimes seem to be on the increase, and officers are working almost unceasingly to check them. Cooperation of all citizens is, of course, necessary, and everyone should be on the alert to aid in checking further spread of crime.

If the first supposition is correct—that the release of criminals from prison is causing more crimes—then it seems that these men would realize that crime does not pay. But things that "should be" and things that "are," do not always coincide.

Press Paragraphs

CULLED FROM THE DEMOCRAT'S EXCHANGES

Traitor
The Quannah Tribune-Chief: A war cannot be won without sacrifice of some sort. The man who wants to utilize his country's difficulties to profiteer is at heart a traitor, whether he be rich or poor.

Hitch-Hikers
The McLean News: Hitch-hikers will never harm anyone—if they are never picked up. Motorists take fearful chances in picking up hitch-hikers, unless they are known to them. It only takes one unfortunate experience with a stranger to cause a lifetime of regret.

Days, Not Years
The Moore County News: Our service men have days in which to master what foreign airmen have been studying for years.

Better Prepared
The Claude News: Rev. J. F. Michael, who had prepared his sermons very carefully, and had written it on many pages, arrived at the church and discovered that he had left his notes at home. He began his sermon something like this: "As I have forgotten my notes for my sermon this morning, I will rely on the Lord for guidance. Tonight I will come better prepared."

Fear
The Ochiltree County Herald: The gnawing fear of poverty, fear of illness, fear of old age, and fear of death should be driven out of one's life.

Stop Him?
The Miami Chief: Many people might be surprised to know that Germany had more war planes manufactured two years ago than both England and the United States can produce by the end of

the year 1941. Still some people howl about the preparedness program which is underway in America, and that this country is headed for war. Hitler is on the march and it remains for some nation to stop him, if not England, then in all probability the good old U.S.A.

The Fighting Irish
The Canyon News: Personally we have no sympathy for Ireland. The Irish must know that it is only by the security of her location back of England that she has been free from invasion by Hitler. Yet, she has refused to take her stand with England in fighting back the war mad Hitler. When the Irish get mad they are fighters, and perhaps the bombs dropped by Hitler on this neutral nation will awaken the Irish to the necessity of action.

Modern Cupid
The Shamrock Texan: Chivalry is not dead. This gallant spark flames anew every so often and Monday it was burning brightly in the bosom of an unknown man who played Cupid, figuratively speaking, to a couple from Clinton, Okla.

En route to Shamrock to be married, Eugene D. Rea and bride-to-be Velma Estell LaBeth, collided with a car on the slick highway, damaging their automobile but injuring neither. Mr. X, driver of the other car, discovered the two were planning to ring the wedding bells and gallantly drove them into Shamrock where Justice of the Peace B. B. Walker tied the knot. Mr. X was not the least upset over his slightly damaged automobile, believing, possibly, that a few dented fenders are to be overlooked when young love is at stake.

Taxes
The Amarillo Times: What the country wants is for its congress to buckle down to the task of getting in more tax money, and getting it quickly, and at the same time to eliminate all waste, and effect what domestic economies that are possible.

The sooner we have an all-out tax and economy program, the better we will like it.

Better Because of It
The Foard County News: Some one is authority for the statement that problems and difficulties make men strong. If the statement is true there should come out of the depression a lot of strong men. The problems and difficulty of making a business go, or a farm go during times like the present is enough to try the faith and resources of any man. Those who survive the depression are going to be stronger and better business men and farmers than they have been in the past because of the lessons they have learned, the problems they have solved, and the difficulties they have overcome.

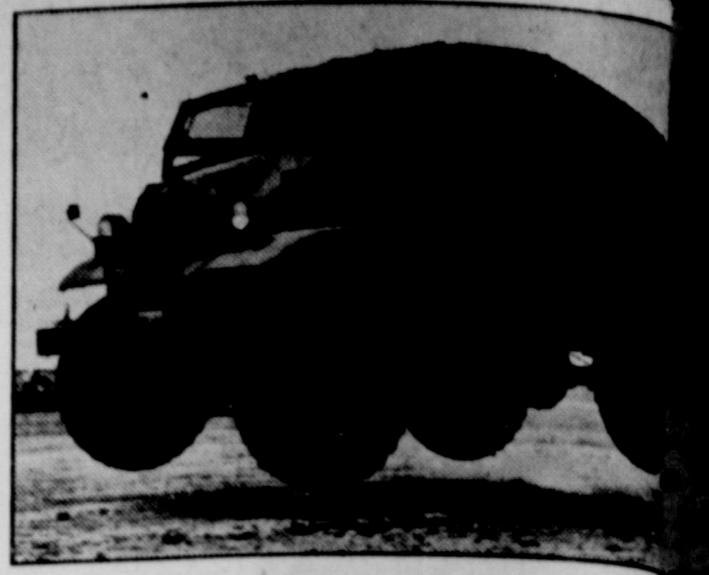

For Youth
The Tulia Herald: The airplane opens a great field that appeals to young men and women. The elements of adventure and thrill makes of the air an especially appealing activity for youth. Flying is a young man's job.

Two Kinds
Carl Roewe in the Turkey Enterprise: There are two kinds of people in the world, the kind that get up and go, and the kind that just plain get up.

Tragic
Gertie Haskett (who has said she is proud of being an old maid) in the Childress County News: "Seven million men in this country are too poor for matrimony," announced one sociologist. Yes sir, and most of them are already married.

Pome
The Apostle in the Donley County Leader: There was a little girl And she had a little curl Plastered in the middle of her forehead. And when she was good She did as she should. And when she was bad she was horrid.

Many Men Miss Opportunity

The International Uniform Sunday School Lesson for Jan. 19
Text: Luke 14:15-24
HOW many persons are inclined to long for the opportunity to do great things, or to have privileges which are not theirs! Yet many live in the presence of great opportunity without being aware of it, and through their slackness and lack of regard for duty they constantly miss out on the means of high attainments.
Jesus put this into the form of a story which we call "The Parable of the Great Supper." A fellow guest where Jesus had been entertained, in his enthusiasm, had said, "Blessed is he that shall eat bread in the Kingdom of God." Yet all the privileges and the glories of the Kingdom of Heaven were offered to those who sat at meat with Jesus, and it was this that inspired His story.

There is something effective. A certain man made a great supper and invited many guests, but when he sent his servants to tell them to come, that everything was ready, they all with one consent began to make excuses. The excuses were as timely as all excuses to grasp opportunity usually are.
One man had bought a field which he said he must go and see. Common sense would have dictated that he should have gone to see the field before he bought it. Another, who had

SELF-CONFIDENCE

The one thing lacking in most people is confidence. Those who have reached their goal in life or those who are out on their own may build up confidence in themselves but this accomplishment is difficult for high school students.

Service Begun at School Cafeteria

The Lakeview cafeteria opened Tuesday, January 7, under the supervision of Mrs. Melton. Helpers are Mr. Vaughn, Mrs. Scoggins, Mrs. Barclay, and Mrs. Stafford. This lunch room has been very successful. Each child pays 5 cents daily, and the money is used for groceries and cooking utensils.

Home economics girls are to make curtains, tea towels, and pot holders. The interior work is to be in red and white. The children are very proud of this accomplishment. Three hundred children are to be served when plans are completed.

Senior Personalities

BILLIE FRANCES GOWDY
Age 17. Date of birth, September 24, 1923.
Place of birth, Lakeview.
Physical description—Eyes, blue; hair, blonde; height 5 feet 2 inches; weight 116.
Favorite foods—Salads.
Chief ambition—Home demonstrator.

Billie Frances is one of the outstanding seniors this year. She has been a member of the pep squad for three years, a member of the FHT club for four years, serving as treasurer this year, and has played basketball for two years.

MARK WILLIAMS
Age 18. Date of birth, October 3, 1922.
Place of birth, Sulphur Springs.
Physical description—eyes, blue; hair, blonde; height, 5 feet 6 inches; weight, 165.
Favorite food—Hot cakes.
Chief ambition—Coaching.

Mark is a very outstanding senior this year. He was vice president of his freshman class; president of his sophomore class; and treasurer of his junior class. He has belonged to the FFA club for two years, serving as watchdog on the football team for the past three years, as guard two years, and as quarterback this year.

FFA Yearbook Is Near Completion

The Lakeview FFA chapter is making its annual yearbook. Recently the chapter has rapidly increased speed of construction of their book. The editor of the yearbook is Hal Barfield.

The book is wood bound, and Lakeview, Chapter 521, and the FFA emblem, which are carved from wood, are embraced on the front. It is about 9 by 12 inches.

Barfield reported the book will be finished and in print by the middle of February. This book will follow the divisions of the year score card of the FFA chapter closely.

Shop Courses at Lakeview Started

The Lakeview FFA chapter will retain the title of \$600 worth of shop equipment at the end of this term. This equipment at present time belongs to the national defense shop.

There are four courses being offered—woodwork, metal work, mechanic, and electrical work.

There has been \$160 worth of work work tools received: 4 hand saws, 2 adjustable wrenches, 1 framing square, 3 Stanley Bailey Jack 15-inch planes, 4 Stanliad chisels, 1 keyhole saw, 2 carbondum stones.

One cutting pliers, 1 combination Staley square, 2 drawing knives, 1 half-round cabin file, 26 Irwin bits, 2 Dasco 4 and 6-inch, 1 Stanley square, 3-8 inch Stanley square, 1 Stanley hand saw set of Peckstone chisels, 36 tamper files, and 5 time tested paint brushes.

Tools for the other three courses will arrive here soon. This course started Thursday morning and about 36 members enrolled.

H. E. Girls Make Study of Knitting

The home economics girls met January 9. Barbara Blanks, Troy Lee Holcomb, and Jean Blanks had charge of the program on "The History of Knitting."

Vernice Spencer, Marian Evans, and Thelma Lee Holcomb had charge of teaching the girls how to knit. The girls who wished to learn to knit brought their knitting needles and thread. They were taught by other members of the club who could knit.

The girls are planning to knit sweaters, caps, scarfs, bags, and other accessories. The girls are learning to knit in case of a national crisis.

ALL-STARS DEFEAT MEMPHIS RAMBLERS

In a hotly contested game, the Lakeview All-Stars defeated the Memphis Ramblers in the Memphis gym by the score of 57 to 49.

The line-up for the Lakeview team was: Hatley and Walls, forwards; Moreman, center; Durrett, Hughes, and Gipson, alternated at guard. For Memphis the line-up was: Fletcher, Headstream, Cunningham, Watkins, and Barnett.

CAGERS WIN, LOSE

The grade school is breaking even with their games thus far. They have played two games with Deep Lake, one Friday night, January 3, with the score 14-3 in Lakeview's favor; and one Tuesday night, January 7, with the score 11-9 in Deep Lake's favor.

RIDING BACK TO THE JUNGLE

By CARL MILLER

The following article was written by Carl Miller, a former newspaperman and world traveler. The opinions expressed in the article are those of Mr. Miller and not to be construed as the opinions of this newspaper.

America is suffering with all the "isms and ologies" social and political calendar. We are incurably sick an overdose of paternal legislation and confiscatory on. America is joy riding back to the jungle in a tide of degeneracy. THERE'S REJOICING AT THE JOYCES!

In spite of the big reduction in electric rates in recent years, many folks say their bills have not been reduced. In many homes that is true because today people are using bigger lamp bulbs, they have radios, refrigerators, washing machines, and in many cases ranges and water heaters they didn't used to have. Their bills are about what they've always been, but today they get from twice to three or four times as much Electric Service for their money. For example, in 1928, \$5 bought about 20 kilowatt-hours but today it buys 100 kilowatt-hours, or five times as much for your money.

A DOLLAR BUYS Five TIMES AS MUCH Electric Service TODAY AS IN 1928
