## 170 Hall County Teachers Attend State Association Meeting Held At Amarillo

170 school teachers representing 34 schools over Hall County attended the annual meeting of the Texas State Teachers Association held at Amarillo November 26-28, inclusive, according to Mrs. Roy L. Guthrie, county superintendent. This is approximately 98 percent of the teachers in the county and others attending were detained by one or other unpreventable things, she said.

The general theme of the meetings was the relation of business to education, Mrs. Guthrie said. The topic of how to make the schools more business like in their teachings and yet give the culture heretofore taught attracted considerable discussion.

## PROSPECTS ARE GOOD TO HAVE NEW SYSTEM

### Definite Action To Be Taken By City Council At Once

Committees will start work this week for the purpose of securing customers for the municipally owned gas distribution system which the city expects to begin the installation of within a short time, it was learned this week. No definite contract has been let, as yet, for the delivery of gas to the city gates, but the prospects are good for a contract to be signed in the very near future.

## TAXES ARE HELD TO BE TOO HIGH

### Cost Of Government And Its Burdens May Reach Peak As To Become Confiscatory

(Editor's Note: The following article, written by Judge A. S. Moss, president of the Hall County Tax Council, is a revealing commentary on tax burdens as they exist today.)

The rapidly advancing cost of Government, national, state, county and local, has impressed itself upon at least the thinking people of our country, and they are beginning to realize that unless something can be done to check and diminish this cost, that the burdens of Government, imposed on property, will become, if they are not already becoming, confiscatory.

No reduction has been given by the company now serving the city of Memphis with gas and those cities which have passed ordinances reducing gas rates have met with little success along this line. The utility companies in all of these cases have posted bonds and appealed to the Railroad Commission and have continued to charge the same rates that were in force before the passing of the ordinances, it was stated.

The city council of Memphis in compliance with the wishes of the people, as expressed at the polls in the recent election, has now decided to take definite action and to contract at once for gas to be delivered to the city and to proceed to sell their bonds and install a distribution system as soon as the contract is let.

The City Council has made definite steps towards securing a contract which will enable the city to sell gas to their customers, both domestic, commercial and industrial users, at a much lower rate than they are now paying.

Committees to Work  
Committees will begin work at once asking the people to sign agreements to use the gas sold by the city for a period of five years at a rate for domestic purposes not exceeding \$1.00 per month minimum for the first 1,000 cubic feet and not to exceed 50 cents per thousand cubic feet thereafter. This is the maximum rate to be charged and can, at the discretion of the City Council, be sold at a lesser rate. The Council, in asking the citizens of Memphis to sign these agreements believes that it is doing the best possible thing for its citizens and it believes the citizens of Memphis will back up and patronize their own enterprise.

## PHOTOS FRAMED FOR CO. SCHOOLS

### Pictures Donated To County Schools; Framed By Clubs, Parent-Teacher Groups

Some 71 pictures of George Washington and of the Capitol at Texas which are to be presented to the 34 schools over the county have been framed by Mrs. Roy L. Guthrie, county superintendent. The pictures of Washington were donated by Congressman Marvin Jones while those of the Capitol were given by Mrs. Frank Seery whose daughter, Edna, painted them before her death, according to Mrs. Guthrie. Mrs. Seery now lives at Austin, and she is complying with her daughter's death wish.

There are 37 of Stewart's bust portraits of Washington and 34 of the Capitol. The pictures are reproductions of the original oil paintings on canvas, Mrs. Guthrie said. The portrait of Washington is 20x24 inches while the one of the Capitol is 18x22 inches.

Several of the school room mothers of Memphis and Estelline donated money to defray the expenses of framing one of the pictures for their rooms, Mrs. Guthrie said.

A wedding, impressive in its simplicity, was solemnized Saturday morning at nine o'clock at the First Methodist church, when Miss Martha DeBerry became the bride of Mr. Ollie Lee.

The church presented a beautiful appearance for the occasion. The altar was banked with ferns, amilax and gold chrysanthemums, in the center of which flamed yellow cathedral tapers that reflected a soft glow over the setting. Mrs. J. C. Hennen presided at the organ.

Mrs. C. L. Sloan, Jr., sang, "I Love You Truly," as the pre-nuptial solo. The bridal party entered to the strains of Lohengrin by Wagner. Miss Ruby McCanne, maid of honor, entered alone, wearing a black crepe suit with blouse of pink and gold, and a fox fur, with hat and accessories to match. She carried a bouquet of sweet peas and fern.

Miss DeBerry, entering with her brother, Claude W. DeBerry, who gave her to be married, wore a becoming suit of brown rough woolen material with baby fur collar and a blouse of angel satin, with hat and accessories to harmonize. Her handkerchief was hand made and trimmed with lace from her mother's wedding dress. She carried a bouquet of sunburst roses. Mr. Lee entered with his best man, Jess Rosenwasser. George DeBerry, brother of the bride, Horace Tarver and Omer Johnson acted as ushers.

The impressive ring ceremony was used by Rev. J. M. Fuller, pastor of the First Methodist church. During the ceremony, Mrs. Hennen played softly, "Believe Me If All Those Endearing Young Charms." Mendelssohn's Wedding March was used for the recessional.

Immediately following the ceremony Mr. and Mrs. Lee left for a

## HIGH SCHOOL BASKETBALL SQUAD HAS INITIAL PRACTICE MONDAY

Fourteen aspirants for the Memphis High School basketball team were issued suits Monday afternoon when Coach Nolan Walter held the first practice of the year. Equipment was issued at three o'clock and the squad went to the gymnasium where they had a light workout.

Those to whom suits were issued are: A. R. Evans, Captain Cecil Stargel, John Smith, Roy Childress, V. L. McGlocklin, O. B. Smith, Ronald Melton, Spencer Crump, Gordon Walker, Jack Norman, Laurel Davis, Clifford Stewart, Bud Mabry and Jack Davis.

Coach Walter is expecting several other additions to the squad before the opening of the season. A traveling squad of eight boys will be maintained throughout the year, Coach Walter stated. It is expected that several long trips will be made during the season.

**To Play Friday**  
 The cagers will open their season with a practice game next Friday afternoon playing a team from Salisbury.

J. W. West, regular from last year's squad, is expected to report for practice in a few days. Lois and William Shields are to report. "I am expecting to have one of the best basketball teams Memphis High School has had in a considerable while," Coach Walter stated. "We have excellent material and with a little work, we will be ready for the long grind."

touchdown. He was also outstanding in the games with Simmons, Rice, and Arkansas. Dennis has also won three trophies given by a Fort Worth jewelry store for being the most notable player in three games.

Red Oliver, "Hoot's" comp, was also an outstanding player in the tussle. He has a suit of red hair, weights about 185 pounds and is all muscle and bones with lots of "innards." He, as did Spearman, contributed many yards to the Frogs' yardage gained. Johnnie Vaught is, no doubt, one of the best guards in the conference and will appear on many of the all-southwestern conference line-ups. He and Captain Neely of S. M. U. were instrumental in stopping many plays through their side of the line. "Grass" Hinton, Frog quarter, kept S. M. U. at bay with his quick and accurate punts; two of them sailing over Mason's head.

## Captain-Elect

Charles Flanery, fast thinking and fast running quarterback of the Memphis High School Football Squad, was named captain of the 1932 Cyclone at a meeting of the grid players held last week. ## FLANERY NAMED 1932 CAPTAIN OF CYCLONE

### Recognition By Team Members Is Tribute To His Grid Play

Charles Flanery was named captain of the Cyclone Football Team at a meeting held Tuesday morning of last week. Flanery will play his last year during the 1932 season. His form and style of play has been improving constantly during the two years he has come out for the squad.

In the 1930 race, Flanery shared honors with Albert Pearson at the quarterback position. He demonstrated those qualities early in his grid career that make for leadership on the gridiron and he has called some of the best games this year of any quarterback wearing Cyclone colors.

**Can Think on Feet**  
 Charlie can think on his feet and think fast. He executes his plays without any trace of nervousness. He has proven adept as a broken field runner and has been one of the most feared men on the Cyclone squad during the 1930 and 1931 seasons.

**Has Proper Spirit**  
 Although Charlie has the proper spirit for a quarterback—a spirit that permits him to laugh at the opposition and worry them down in a good natured way, at the same time, he is modest on the field and off. He knows and understands his team-mates and his popularity has gained largely by a give and take disposition, a willingness to cooperate and a desire for the team to win rather than to achieve individual glory for himself.

Charlie is unquestionably the logical player to lead the Cyclone another year. That he will do the job well is a settled conviction on the part of this writer.

WEST TEXAS IS HONORED

BY a record vote, Dr. J. A. Hill, president of the West Texas State Teachers College at Canyon, was elected president of the Texas State Teachers Association by that body last week. The honor is deserved by the West Texas educator, and is a signal recognition of the whole of West Texas as well.

We believe Dr. Hill will prove to be one of the most capable executives the teachers of the state have had since the Association was formed. He is broadminded and far sighted in educational matters. He believes that the primary function of schools in education—the training of our young men and young women to take places of responsibility and leadership when their class room studies shall have been satisfactorily mastered and completed.

On the other hand, Dr. Hill is liberal in his views regarding the extra-curricular activities. He believes in sports; he favors college organizations that go to make life colorful and attractive to the undergraduate. He is a champion of those who are called upon to work their own way through college.

Dr. Hill's wide acquaintanceship with the leading educators, not only of Texas and the Southwest, but of the nation at large, will be a boon to his administration. This is one time, at least, when it appears that the right man has been chosen for the big job of President of the State Teachers Association, and the teaching profession of the state is to be complimented upon the selection.

THE SEASON CLOSURES

FOOTBALL season is practically over. Of course, there will be a few post-season and inter-sectional games yet to come up on the calendar, but insofar as the football-minded public is concerned, as well as the bulk of the players, Thanksgiving Day and last Saturday wrote "Finis" to this colorful chapter in the life of the year 1931.

For the most part, the gridirons over the country are deserted. Where hundreds and thousands trod, there is now only caked mud. Turn paper flies from the goal posts. The lines marking off the fields have been practically obliterated. Desolation has descended where a short time ago warriors battled for victory or defeat; people shouted; hands played. No more gorgeous spectacle than this game has ever crossed the minds of the American public—and they are willing to consign this emptiness, this desolation to the elements until another year brings the game back in its full-vigor and flower.

THE BAPTIST PASTOR LEAVES

IT was with a feeling of genuine regret that hundreds of people have spoken words of farewell with Rev. E. T. Miller, who concluded his more than five years of service with the First Baptist church here at the services last Sunday night. During the time he has lived in Memphis, Rev. Miller has been prominently identified with the affairs of the community. He has held membership in the local Masonic bodies and the Rotary club. He served as president of the United Charities of Memphis and was recently elected as the outstanding citizen of this community and presented with The Democrat's cup for having attained that distinction.

Rev. Miller occupies a high place of responsibility and authority in the councils of the Baptist church in Texas. He has served on several important committees and has been active in promoting the work of this denomination throughout West Texas. He goes to the pastorate of the First Baptist church at Corsicana, one of the strongest Baptist churches in the state. This advance is a merited promotion for the churchman and his many friends, while hating to see him leave Memphis, are proud that he has been called to a larger field of usefulness and service.

In leaving Memphis, Rev. Miller has expressed himself feelingly as leaving one of the best cities in the state. He said that he had no feelings except of kindness and gratitude to Memphis and its people. When he takes up his pastoral duties in Corsicana, Memphis may be assured that the minister will not forget, when occasion permits, to spread abroad that this city is a good place in which to live.

A NEW COURSE OF STUDY

MRS. Roy L. Guthrie and the rural school teachers of Hall County are to be congratulated in working out a course of study designed to be of incalculable value to teachers and students alike in the future. Much of the credit for this work should go to Mrs. Guthrie. She has shored long and tirelessly in order to make this course a reality, and her efforts, coupled with those of her assistants, will ever remain a right spot in the school annals of Hall County.

This course of study is designed for a seven months term of school. Here before, teachers and students were often baffled in working at courses and deriving the most from them, this factor has been removed by careful planning and preparation. The school forces of Hall County will know exactly where they are at every period of a school year, which will bring about more satisfactory work and will give to the county schools an added prestige that would have been lacking had not this course of study been evolved.

THE MEMPHIS (TEXAS) DEPARTMENT HITS OK MISS T. R.

According to N. W. Durham, W. F. D., the largest civic improvement in years that have past and to come is in the 600 block on Main Street. You could never guess what the improvement is, so I'll have to break the glad tidings. N. W. is getting just like J. Y. Snow, our constable, and is wearing loud suspenders. He has a pair of dark black ones that just match his pretty wavy dark hair. N. W. is as proud of his suspenders as a baby is a new rattle and wants to show them to every one who enters the store.

Possibly some of you are wondering what the W. F. D. title N. W. has after his name is for. It simply is symbolic of his rank in the business world. The title means World's Famous Dispenser, and that is just what N. W. professes to be. He says he is the most famous dispenser of sodas in the world and is possibly the fastest on the face of this green earth—or should we say gray earth. He is not like the re-

And come to think of it, the flying Mustangs didn't put their aerial attack over on T. C. U. The ball was just too slick to throw and Gilbert just couldn't get it to throw to Mason. Although both teams threatened to score several times, the field was too wet to get the necessary speed and punch to put the ball over. But even if the game was a scoreless tie, S. M. U. emerged with the Southwestern Conference victory in their hands. Duval Brumley still maintains that his Ponies have the best team in the conference and haven't been defeated yet—all of which is very true.

But it is beyond me to figure where Hinton and Oliver get so much publicity in all the sports columns. They didn't show up so good in the game and besides that, I think Hubert Dennis, in the short time he was on the gridiron, exhibited better football than either of the renowned players. He made two plays, one of which was possibly one of the most spectacular plays of the game. It

Turning to high school sports, the Memphis Cyclone closed their grid season with a victory over the Wellington Skyrockets, who, last year, won over the locals. But the time has now come to look back on the grid season and look towards the basketball prospects. Coach Walter said the other day that he had the best prospects for a winning team that he had ever had. He has several men back from last year and one or two others who have had good experience. One of the outstanding players will probably be Clifford

Apart from Jesus, no character in the Bible has been more talked about than has the Prodigal Son. And, for the most part, he has been pictured as a sorry figure. But was he altogether bad? Can anything good be said in behalf of this "bad boy" of the New Testament? During the evening service, at 7:15, the Prodigal is going to have his day in court—in this church. He will be defended by the minister, who will speak on the subject, "In Defense of the Prodigal." Drop in and hear this.

**Taxes Are Held—**

if we should confine the Government in doing those things that are strictly governmental in their nature.

Governments are instituted to protect the citizenship, and to see that each is given a square show, but not help and assistance. This tendency towards paternalism has multiplied the cost in increasing amounts. We must get back as far as can be done to local government and individual responsibility. The multiplied responsibilities of Governments, when looked after, must be paid for and this means increased taxes. Again, the people must study how and in what manner their money is being paid out in the running of the Government, local, state and school. These should be supported, but more money should not be expended than is necessary to properly look after and care for the responsibilities placed upon them. Our present Budget Law will assist the people in looking after these matters, if they will wake up to their responsibilities, make a thorough study of these matters and be on hand to serve when the occasion demands. All taxpaying people should unite themselves with the Tax Council

citizens should be students of government if they desire long to be free.

**Citizens Urged To Start Decorating**

The suggestion has been made—and it seems to The Democrat to be a good one—that citizens of Memphis cooperate in making the city have a real Christmas appearance. Quana, Clarendon and many other nearby towns, as well as practically all cities of any size in the state, have already put up their Christmas decorations. Merchants may be of material assistance in decorating their windows in holiday colors and some may desire to put in special lighting effects. It is understood that a move is contemplated for several civic organizations placing Christmas trees at vantage points around the square.

A number of Christmas trees will be available for purposes of decoration and there is no reason why Memphis should not fall in line with other towns in creating a holiday spirit.

**THE MEMPHIS Democrat To See "Five Star Final" At Palace**

The staff of The Democrat will be the guests of Hollis Boren, manager of the Palace Theatre at the showing of "Five Star Final," next Tuesday night. The picture is one of the really big newspaper features of the year and is one of the biggest movie attractions ever brought to Memphis.

"Five Star Final" is the first National screen version of the sensational newspaper play of the same name which recently took Broadway by storm. Edward G. Robinson is the star. Mr. Robinson who was lately the gunning-go-getter of "Little Caesar" and the gambling fool of "Smart Money" is seen in this picture as the ruthless managing editor of a tabloid scandal sheet—which thrives on the slogan: "The worse the news, the better we like it."

"Five Star Final" deals especially with the ways in which the unscrupulous staff of the "Gazette" ruins the reputation of the Townsends. Michael Townsend had married Nancy Voorhees twenty years before, fully aware of the fact that in self defense she had killed a man. Their daughter Jenny has never known the secret and is about to marry Phillip Weeks, son of a well-to-do family.

The news breaks in the "Gazette" just before the wedding. The mother commits suicide—and a chain of events follows—so tragic that even the heartless managing editor loses his assumed brutality. But the story must be seen. No words can adequately describe it.

Louis Weitzenkorn, well known journalist and playwright, wrote "Five Star Final," which won phenomenal success on the Broadway stage. The screen play is the work of Byron Morgan. Mr. Boren announces that there will be no advance in price for this super-special attraction, which shows at the Palace Theatre Monday and Tuesday of next week.

**BY MRS. T. J. SPRY**

The vital factors of a comfortable farm life are food, fuel and shelter, and if these are present in quantity and quality beyond the necessities for mere existence, the standard of living and happiness of the family increases.

**Best to Rotate Crops**

In years past we have learned that the growing of one crop to the exclusion of all others tends to impoverish a community, because it necessitates the sending of money out of the community

for many necessities which could and should be produced at home. There are many reasons for having a garden on a cotton farm for in many country communities it is not always possible to secure vegetables. By raising a garden one does not have to pay the cost of production, transportation and marketing that is necessary for vegetables grown away from home. Even of greater importance than money value of products of the garden is the satisfaction of having a bountiful supply of vegetables close at hand at a moment's notice.

**Vegetables Essential**

Vegetables furnish a large part of the essential salts which are absolutely necessary to the welfare of the human system. The value of vegetables in the diet is a great deal more than a mere food or money value.

It has often been said that a garden could not be successfully produced in Hall County but from my report, of my 72x75 garden,

is quite the contrary. When the garden contest was started I selected a small sub-irrigated plot not too far from the house, so that it might get more attention, yet far enough away that I would not have to fence it from the chickens.

**Makes Canning Budget**

After a careful study of the food needs for my family, a canning budget was made. From this I was able to plan for a better selection of seeds, and plants. We made a study of different seed to determine if one variety was more adapted to this county than another. This has been of untold benefit to me as it has aided me in getting the most from the plot I had for a garden. Crop rotation in the garden has been a great help to produce more from a small plot.

The following vegetables were planted in my garden: carrots, salsify, swiss chard, spinach, kale, kohlrabi. Some of these have proven to be worth a place in all my future gardens; some we are not so sure that we like but then it does add variety.

**Realizes Good Profit**

From the garden I used \$44.20 worth of fresh vegetables, and canned 262 quarts valued at

\$102.60; and dried 125 pounds of peas and 50 pounds of beans together valued at \$8.60 worth with income from the garden \$177.27. The total cost including labor was \$20.70, and a profit of \$156.57 was realized.

**Beside help from the extension agent, I have used following bulletins: "Tomatoes," "Diseases and Insect Garden Vegetables," "Special Bordeaux Mixtures," "Gardening."**

**Experiences Difficulties**

From my garden I have learned that I would not have had difficulties in my gardening as insects, and hot and dry summer days, but I have been working, and canning from cause while I did I realized benefit that I was deriving, selecting seeds, plants, crop rotation, canning, using surplus battling insects, the county demonstration agent was a help.

I have the following in my garden now: carrots, turnips, tarragon, kale, kohlrabi, beet, onion, radishes, lettuce, chard, salsify and spinach.

### Antiques, Relics Are Numerous In Alaska Home; Visitors See Antiques

Antiques and relics are numerous in the home of Mr. and Mrs. Gidden of Plaska, according to visitors in their home on the tour of the homes of the Pantry contest winners recently. Mrs. Gidden's home was among the winners and she arranged the antiques to be shown by the visitors. The walls of the room in which the antiques were displayed were shown. One of the antiques was a picture depicting a farm scene, and from old window curtains it has been in the family for many years. Another of the antiques was an elaborate piece of furniture, a table with a top of cuts which resemble hexagons and squares, and to the way in which it was made it was a masterpiece. It was made by Mrs. Gidden's father, who was 65 years ago. The table was made and quilted. Gidden's mother many years ago.

**Letters Shown**  
In the room was a table with letters written in the past and mailed before the war. Some of the letters dated as early as 1835. One was a heavy silk shawl, and Mr. Gidden's grandmother was more than 100 years ago on it. The stitching and the design of the shawl were the finest ever viewed. Possibly the shawl was made in the room and made dress worn by Mrs. Gidden's mother 80 years ago. The picture of Mr. Gidden wearing the dress was shown.

**Gift from Scotland**  
A cedar chest which was brought from Scotland more than 100 years ago stood near the door. An item of great interest was a brown celluloid ring from an overcoat button of the Civil War. Mr. Orr while he was held during the Civil War. It was quite a large group including Sunday School children, old family Bibles, old prayer books in the home of them were over 100 years old. Among the reliques were those of Mrs. Gidden's grandparents, the oldest were born in 1814.

**Many Trinkets**  
A little trinket, a cleverly made gyp rock by Mrs. Gidden's brother, W. N. Orr, was shown. Rabbits, a chest and a miniature were among the antiques.

There were some 60 or 70 people in the display, and the visiting people of Memphis, Lakeview and other places spent much time studying the interesting stories concerning the antiques.

### Will Broadcast

Carveth Wells, distinguished British explorer and engineer, will begin a series of broadcasts for the Continental Oil Company over the National Broadcasting Company network Sunday, December 6, at 10:30 a. m., Central Standard time with what promises to be its outstanding series of radio entertainments.

The weekly programs, numbering twenty-six, and titled "Exploring America with Conoco and Carveth Wells," feature that distinguished British explorer and engineer, member of the Explorers' Club and Fellow of the Royal Geographic Society. Wells has already built an international reputation as a radio character by relating his experiences in Africa, the Polar regions, and other strange out-of-the-beaten-path corners of the world.

But in the Conoco program Wells will tell, for the benefit of American audiences, the thrilling stories of the wonderland that is our own country.

"I have explored from the air, under the sea, the surface of the earth, and many great caverns in the earth," said Wells, "but I have come to the conclusion that if I were to start my travels all over again, I would see America first. Right here in the United States are to be found some of the most wonderful things in the world and it has always amazed me to find so few Americans who have taken the trouble to explore their own country."

Taking the various American wonder places by state, Wells will conduct personal tours by radio, describing in his typical vivid, colorful style the marvels that await the American seeing his own country. His opening program will deal with Southern Arizona. His talks are replete with facts and fancies that are little known, never published, and which make his sparkling comments second only in interest to an actual visit to the regions described.

The Wells programs will be broadcast every Sunday at 10:30 a. m., Central Standard time, over the following N. B. C. stations: WENR, Chicago; WOC, Davenport; WHO, Des Moines; WDAF, Kansas City; KVOO, Tulsa; WKY, Oklahoma City; WBAP, Fort Worth; WOAI, San Antonio; KOA, Denver; KSL, Salt Lake.

The entire series of programs also will be given an identical broadcast by transcription on these local stations: 10 a. m. (local time) Sundays—KGA, Spokane; KGR, Butte; KIDO, Boise; KTAR, Phoenix; KOB, Las Cruces; KFAB, Lincoln; WDAF, Amarillo; KGGM, Albuquerque and WCO, Minneapolis; 1 p. m. (local time) Sundays; KFBB, Great Falls; WBBZ, Ponca City; WRVA, Richmond; 2 p. m. (local time) Sundays; KTHS, Hot Springs; 7:30 to 8 p. m. (local time) Thursdays, WAAM, Newark.

John Deaver was a business visitor in Amarillo Wednesday. Mrs. F. N. Foxhall and her daughter, Mrs. John Deaver, returned Wednesday from a visit in Dallas.

### Some Facts That Ring True

You can't get around some facts. They stand out like an ugly face and are always noticeable. Take Quality, for instance. There is no substitute for Quality. Low Prices on Quality Merchandise. Low Prices are opposed to High Prices, and allow people to buy what they need at small expense. No Specials. Market Conditions alone govern our Prices. No special inducements; no special bait. No food for suckers. A reliable firm. Farmers Union Stores have that reputation, made possible by years of service to the public. A fair deal to all. We have no favorites. Every man looks alike to us, so long as he is honest.

Every week in this space we have a message, backed up by prices. Our messages go home because they are understood and appreciated. The entire Farmers Union organization stands behind everything we say. We thank you.

## More To Ducks Than Shooting; Delicious to Eat—When Cooked Right

"More to ducks than just shooting them," Dr. D. C. states. "If you want your ducks to be delicious, prepare them as follows: Pick, dip in warm water, soap with a thick pasty lather of good soap, rub the soap into the skin well, dip into a scalding water and wash clean. This removes the gummy coating from the surface. Next, singe lightly. Then the duck, rinse clean with cold water, throw a heavy coat of salt into the duck, then stuff tightly with equal parts of cooking apples and large onions chopped together and sew up both crop and fluff tightly, place in cold place for 24 hours. Then, after plucking, remove onions and apples, rinse with water, fill with a moist cornbread-sage dressing, sew up the crop and tuck into a hen roaster with two or three apples completely with the same kind of moist dressing, allow to cook and bake in medium hot oven until dressing is well browned and serve with giblet gravy and cranberry sauce if desired."

## Why We Come To Buffeted People, But A People Still Strong In Faith

A haze envelopes the land. We may note this at hand with the approach of winter. In the summer, the haze may be seen only in the cap or distant hills. The green verdure that clothes the valleys will almost give place to brown, the side of winter. At this season, the blue sky, the clear temperature here and there, the crisp and cold that close of the year and the supreme occasion of the yuletide season. Christmas the zenith of the year. At this time, the bearing gifts, expressions of adulation to Him of whose memory the day has been the supreme day. The crowning work of the year, the hard work of the year, the hard work of the year, the hard work of the year. The old year ebbed silently away. We must take stock of any year that has been ours. Material and spiritual that comprise life. Some one has wisely said that if we ever to have peace among the nations, the peace that comes of understanding, it must come of some relaxation and the not placing of too much emphasis upon material things among ourselves and the nations. In West Texas, the Yuletide will descend as it will in many places upon a buffeted people, though happily upon a people that hold to the faith that right makes might; upon a people who have borne patiently the burdens placed upon them by a disordered world. To most every one there is discernible a rift in the clouds, and the feel of the approach of better times. We are yet too close to the event to discern any lessons of good that may come out of the depression, but when seen at a distance and in better perspective, no doubt lessons of betterment may be seen. So we should face the rising sun of the forthcoming new year with the requisite courage to meet its tasks, thankful that the lines have fallen to us in pleasant places, the new and goodly land of West Texas. —F. V. C.
