Memphis CCC Camp Grows Own Wheat And Makes Its Own Flour For Biscuits

The Memphis CCC camp, company 1821, has the unique distinction of having grown, barvested, ground, and baked its own wheat. When Captain O. P. Houston assumed command of Company 1821 he planted a small patch of wheat to the west of the Officer's Quarters. In its earlier stages the wheat added a bright green spot to a rather barren area, and as the grain matured, Capt. Houston was often "kidded" about his wheat crop.

ALLIED FOR GOVERNOR (The Houston Press)

TWO YEARS AGO The Press was the first large newspaper in the state to announce its support of James V. Alfred for Governor after he had won his way to the second primary.

During his term we have praised some of the things he has done and criticized others. Whatever criticism we have had we have not lost our faith in his fundamental honesty and patriotism.

Therefore, we think he should be given a second

lineup against him this time is much the same as it was two years ago, and The Press can find no reason for joining hands with the forces it opposed then.

Governor Alfred faced a hostile Legislature when he took the oath. Considering that handicap he has done much.

He presented a tax program that in most details was fair and just. The Legislature turned it down to keep the pensions and possibly to relieve other tax burdens. It is far better than any of the "single-shot" tax plan of his opponents.

The State's financial condition is good and has improved under Mr. Alfred. We do not mean to say that a thorough revision of fiscal affairs is not needed. We repeat that it is but Governor Alfred is not responsible for our present antiquated system of finances. Texas is financially sound, however, and the Governor has done well in keeping it so.

His influence defeated the sales tax. His good offices obtained the passage of a driver's license law that had languished session after session in the Legislature. He approved the law setting up parole boards in each county to keep young men out of prison wherever possible. He set up a merit system of clemency for convicts.

He obtained the establishment of the State Safety Commission which welds all the law enforcing agencies of the State into one body and which, if properly operated, will mean increased efficiency.

He advocated old age pensions before the passage of the constitutional amendment and the law the Legislature passed is a good one and one of the most liberal in the nation.

He is still for state regulation of utilities and with a more friendly Legislature should obtain the passage of laws that will properly safeguard the people.

We do not wait until the second primary this year to endorse Governor Alfred because it appears there will be no second primary. The Governor is well beloved by his people. No one need be surprised if he wins him down on July 25. He should.

J. H. 'Jim' Vallance

FOR COUNTY JUDGE

Your county judge, as chairman of the Commissioner's Court, is, under the supervision of the court, indirectly charged with the management of your county's business, which is the largest financial institution in the county.

Saturday of this week you will help employ some one to serve in this capacity for another two years. When you come to cast your ballot for this purpose, if my services have been satisfactory and should you be willing for me to continue to serve you and can cast your ballot for me, I assure you it will be greatly appreciated.

3,000,000th Ford V-8 Driven to Southwest Exposition

The Centennial at Dallas, Texas, made a great "to-do" when the 3,000,000th Ford V-8, off the assembly line in less than a year after the 2,000,000th left last year for the Exposition at San Diego, California, in the upper photograph, taken in front of the Ford Exposition building, arrived at the Exposition at Dearborn, Michigan, a group of the Exposition's Rangerettes, the 3,000,000th V-8 after its trip from Dearborn, Michigan, Sheriff Smoot Schmidt, of Dallas County; the city manager of Dallas, Hal Mosley; Nathan Adams, chairman of the Centennial; Fred F. Florence, president of the Centennial; Mayor George Seargent, of Dallas; and smiling James Rooney, who drove the V-8 from

Dearborn, enlisting "3,000,000" license tags from the states he crossed. The good-looking young ladies at the right of the car are

Rangerettes, too. In the lower photograph, taken after the Ford had entered the Centennial grounds, are shown

Messrs. Ryan, Florence and Adams with Jimmy Rooney holding the scroll, making the car an "Ambassador of Goodwill."

cal battle clears away about Sunday morning, all will breathe a sigh of relief and swear "never again." This truce will prevail until the second primary approaches, then all will enter with gusto into another tongue-lashing, spittle-throwing and dirty name-calling campaign that will wake the natives. Such is the political life in the great State of Texas.

Vance Johnson, "Line Rider" for the Amarillo News, and John Ferkner, of the McCormick Advertising Agency of Amarillo, were Memphis visitors Tuesday. Both boys are Memphis products and making good in Amarillo. Both started newspaper work with The Memphis Democrat.

Speaking of Memphis products, four former Memphis Democrat employees are working on the Killgore Daily News. Recently a special edition of 264 pages was issued, and the Memphis boys were largely responsible for the mammoth edition—one of the largest special editions ever issued in Texas. Ted Read and Jerry Sinton handled practically all of the news matter appearing in the edition; Lyman Robbins secured most of the advertising that netted thousands of dollars to the publishers; M. G. Ray as foreman was responsible for the mechanical work of the outstanding issue.

These young fellows did a big job in great style, and deserve praise for their good work.

Memphis people are record breakers. So much so that even the weather has entered into record-breaking contests. Last Sunday the temperature reached the record-breaking height of 115—just two degrees higher than any previous reading. If July moisture would break the record this country would be in fine shape.

Right on top of the heat wave comes the announcement that

If You've Got RHEUMATISM PAINS I Offer You Real-Quick RELIEF or YOUR MONEY BACK

PEOPLE tell me that this is the most daring guarantee any medicine man ever made. I guarantee to return every cent you paid if you take my medicine and don't get relief from those agonizing muscular rheumatism, neuritic, gouty pains. I realize that some unscrupulous people may take unfair advantage of my sincere offer. But if you really suffer from pains of rheumatism, I am confident that I can bring you exactly the relief you are seeking. I take this unusual method to get you to try my Williams' R.U.X. Compound. This prescription of an ex-army doctor has successfully alleviated the pains of thousands of rheumatic sufferers. Now I want to help you—and to convince you of my sincerity and the real efficiency of R.U.X., I make this novel Money-Back Guarantee offer. I have appointed the owner of Tarver's Pharmacy at 501 Main street, to represent me. He has a big stock of Williams' R.U.X. Compound and you can get your first bottle there tonight. Take it 10 days. Unless you are absolutely satisfied that you are relieved of pains, return empty bottle and carter to store and get your money back without any argument. You can't lose!

however, that they believed the comptroller's estimate was low and that they hoped the tax would not be raised above the present 20 cents per \$100 valuation. The per capita apportionment for the current year was \$18.50. The vote to increase it to \$19 was 5 to 3. The ordinary apportionment rate is \$17.50. The board of education originally fixed \$17.50 as the apportionment for this year but made a supplementary appropriation of \$1 in June after it became apparent that there would be a surplus on Sept. 1.

It is said that the supplementary appropriation and the \$19 allotment for next year would in fact be almost the same as a \$20 apportionment for the coming year since the supplementary appropriation came too late to permit the schools to raise their teachers' salaries or extend their terms during the first year.

The program committee is endeavoring to get in touch with every person in this section who possesses old vehicles, oxen, spinning wheels, saddles, old automobiles, and other relics of bygone days. In the afternoon of the "big day," nationally known orators will speak, baseball games will be played, and band and other music will furnish diversion. The throngs will gather on the east side of the court house here, where plenty of shade will be available to all. The Memphis public address system will be rigged up for the convenience of the crowd.

The day of merry-making will last far into the night, with other prominent speakers and an "old fiddlers'" contest scheduled. An old-time square dance will be conducted as a feature of the night session, and it will keep its festivity going until midnight. The arrangement committee for the affair has planned a series of motorcycles to be made to towns and cities in Hill, Childress, Collingsworth, and Donley counties to extend invitations to attend and participate in the Centennial event.

The tentative date set for the affair is August 12, but the final decision is not to be made until Monday, when all committees meet in joint session.

ELECT L. D. Rees

OF HALL COUNTY FOR STATE REPRESENTATIVE A Vote For Him Is a Vote For Our Schools, And Is Also a Vote Against the Lobbyists Who Gather in Austin To Seek Special Favors From Legislators.

HE HAS TWO DEFINITE PROMISES

1st. He will not associate with the lobbyist, and will conduct himself in a manly manner off duty as well as on duty, as he has always done.

2nd. At all times he will do the very best for the people of this district and State, and will always be present during all sessions of the Legislature.

Mr. Rees has an exceptional amount of determination and ability and will use all his influence for Good Legislation. He has acquired much knowledge of the State Legislature by studying it in high school and college, and taught it in the public schools four years.

AGAIN KEEP THE RECORD STRAIGHT Page 1757 of the House Journal of the 44th Legislature shows that Mr. Alexander voted for a measure for money to support our State colleges. NOW page 2735 of this same record shows that Mr. Alexander voted Against this same bill. Yet he continues to try to make you believe that he has always supported school legislation.

SCORES OF HALL COUNTY NEEDY FAMILIES AWAIT WPA PROGRAM

Scores of needy families over all of Hall County are anxiously awaiting word from Lubbock that will set the Works Progress Administration work relief program into action throughout this county and will start a trickle of money into the coffers of the indigent families.

Realizing that the many needy families of Memphis are in dire need of the work in order to secure the necessities of life, city councilmen and Mayor J. A. Whaley this week have been in almost constant contact with district WPA officials at Lubbock.

The district office is awaiting work orders from San Antonio, it is said. Declaring that "there is too much red tape to this business," Mayor Whaley stated that unless something is done shortly a delegation of Memphis and Hall County citizens will take up the matter with national officials.

Hall County and Hale County are the only two counties in this entire WPA district that have not received "go-ahead" signals, it is said. Three WPA representatives from Lubbock have visited Memphis this week, and they declared that they are looking for work orders for Hall County at any hour.

Work was to have started here on the gravelling of 100 blocks of city streets and on the school campus improvement almost two weeks ago, but because of technicalities the program is being delayed.

Every commissioner's precinct in the county has approved projects ready for work. Approximately 100 men in Memphis alone are depending on the WPA for their livelihood.

COUNTY CULVERT 1,349 FARMS AND RANCHES IN HALL COUNTY ARE RAISING CHICKENS

Installation Of Culvert On County Highway Gets Note By National Publication

Chickens over three months old on farms and ranches in Hall County totaled 83,828 on January 1, 1935, according to a special report of the 1935 Federal Farm Census released today by Director William L. Austin of the Bureau of the Census, Department of Commerce.

Chickens were reported on 1,349 farms and ranches or 88.7 per cent of the farms and ranches in Hall County. During the calendar year 1934, the production of chicken eggs amounted to 437,452 dozens and the number of chickens raised was 140,622.

Turkeys over three months of age totaled 848 on January 1, 1935, and were reported on 178 farms and ranches, the report showed.

Chickens over three months old on farms and ranches in Texas totaled 29,541,529 on January 1, 1935. Chickens were reported on 428,891, or 85 per cent of the state's farms and ranches. During the year 1934, the production of chicken eggs amounted to 196,783,192 dozens and the number of chickens raised was 27,747,228.

Fayette, Lavaca, and Williamson were the three leading counties in the number of chickens on hand, and in the production of eggs.

Turkeys over three months of age totaled 824,887 on January 1, 1935, and were reported on 114,004, or 22.8 per cent of the farms and ranches in the state.

MOSS CLOSES CAMPAIGN IN JUDGE'S RACE

Friends Of Memphis Attorney Predict He Will Lead

Judge A. S. Moss of Memphis will give his last campaign speech before the first Democratic Primary tonight (Friday) at Wellington, and will bring to a close a strenuous speaking campaign that has carried him into practically every community in Dallas, Collingsworth, Childress, and Hall counties in the interest of his candidacy for the Democratic nomination for District Judge of the 160th Judicial District of Texas.

"Judge Moss is practically assured of a position in the runoff election, and it would not surprise his friends throughout the four counties of this district to see the popular Hall County attorney win by a landslide in the Democratic Primary Saturday," Moss backers stated today.

"Judge Moss' many years of legal practice, his keen insight into the character of men, his brilliant mind, his honesty of purpose, his unquestioned integrity, and numerous other qualifications, not the least of which is the esteem in which he is held by his fellow men, enable him to make an unbiased plea in his behalf," his campaign workers stated.

"All three men in the race for District Judge are basing their race on qualifications alone, and in this regard we naturally feel that Judge Moss has the inside track," Atty. John O. Fitzjarrald, who has been actively engaged in furthering Moss' campaign, stated.

DOUGLASS SUPPORTER ATTACKS SMALL AS CORPORATION LAWYER

The candidacy of Curtis Douglas of Panhandle, who is seeking a seat in the Texas Senate which Clint C. Small now holds, was furthered in Memphis Saturday afternoon when Judge Newton P. Willis of Pampa addressed an audience of several hundred persons from the east steps of the county court house.

Judge Willis, whose father was the first district judge ever to serve in Memphis, having begun serving this district in 1881, nine years before Hall County was organized, condemned Senator Small for "being a corporation lawyer."

Judge Willis defended Douglas' private and professional record against charges made against Douglas by supporters of Senator Small.

Regarding the statement made by Small supporters that Former Governor Dan Moody demanded Douglas' resignation from office as district attorney at Berger several years ago, Judge Willis said: "I find that it is true that Douglas was asked to resign; I find further, however, that he did not resign. An election was held shortly afterward and Mr. Douglas was replaced."

"Senator Small's backers are saying that Douglas used to drink whiskey to excess. It is true that he did drink a good bit of whiskey in his youth, but Mr. Douglas is now a teetotaler," the Pampa attorney declared.

Judge Willis centered his attack on Small upon the Bible quotation that "No Servant Can Serve Two Masters." He elucidated by saying that Senator Small could not serve both the large oil corporations and the people of Texas.

CHURCHES

FIRST PRESBYTERIAN CHURCH

Many think that the day of miracles is over. They have evidently not considered well what the Bible has to say about the Christian. Dr. Charles L. Feinberg of the First Presbyterian Church will preach Sunday morning on the subject "The Miracle of a Christian." The sermon topic for Sunday evening will be "In Debt." For the past several weeks the Wednesday night prayer services have been occupied with a study of the Book of Jonah. Next Wednesday night (July 29th) the subject will be "The Book of Jonah and Israel." All are cordially invited to worship with us at these services: Services Sunday morning at 11:00 a. m.; Sunday evening at 8:00 p. m.; Wednesday evening at 8:00 p. m.

A week from this Sunday night (Aug. 2) Dr. Feinberg will give the story of his conversion from Orthodox Judaism to a vital faith in the living Christ. A fuller announcement will be found in next week's notice in this paper.

JUDGE A. S. MOSS

TO ACT AS CHAPLAIN

Hagos O. Luna, pastor of the First Christian Church, left Wednesday for Fort Sam, Houston, where he will spend two weeks. He is reserve army chaplain and goes to fill the place in the absence of the regular chaplain.

Mr. and Mrs. H. H. Lindsey and children, Mary Helen, Eugene, Bobby and Betty Sue, and Mr. and Mrs. C. C. Dodson and children, Paul, Curtis and Laverne, left Tuesday for a week's trip to the Centennial in Dallas and a few days stay in Corpus Christi.

ALLEN GRUNDY IS SPEAKER AT ROTARY LUNCH TUESDAY NOON

Allen C. Grundy told Rotarians Tuesday that the present-day court procedure should be retained and new rules established.

ALLEN C. GRUNDY

Several Rotarians were asked by Grundy to express their views on court procedure and their replies added interest to the discussion.

The tax question was also brought up. Mr. Grundy believes the ad valorem tax system is not a just tax, for many realty owners do not derive enough revenue to pay the tax on the property.

Closing his address by touching upon the methods of present day politicians, Mr. Grundy stated that there is something wrong with conditions that require state candidates, or their friends, to spend one hundred thousand dollars to get elected to an office that pays only a few thousand dollars at most.

Mrs. Rees Jones will arrive from Colorado today for a visit with Mrs. Claude Johnson.

wage of \$15 per month, and approximately 5,000 graduate students at average wages of \$20 and \$30 per month, Williams announced.

As in the past, local school authorities will have almost complete control of the student aid program in their institutions, designating not only the young people to be helped, but determining the type of work they shall do and the rates of pay, within specified limits, they shall receive.

During the last school year, a total of 18,605 Texas youths were able to remain in school through the work provided by funds supplied from the youth administration. In all, a total of \$1,791,163 was allotted the schools of the states for this purpose.

Included in the group receiving aid were 12,342 high school students receiving \$461,536; 6,197 college students, receiving \$692,395; and 66 college graduate students, receiving \$24,219.

work of President Roosevelt? "Roosevelt is the only man to occupy the White House who understands the need of the farmer," the speaker declared.

Congressman Jones launched a brief attack on the tariff system, and stated that the farmer should have some legislation to restore equalization. He told of the advantages to the farmers of the New Deal as a "fair deal."

"Under the old AAA, \$23,500,000 in new money was sent into this district, and \$1,377,000 in new money was sent to Hall County," Mr. Jones stated. Mr. Jones stated that he, as chairman of the Agriculture Committee, which is said to be the most powerful committee in Congress, was instrumental in passing the AAA as an emergency measure. All of the farm legislation passes through the Agriculture Committee, it was said.

For the past three years the Democratic accomplishments read like Republican platform promises, Jones said. "Now do we want to go back to the whens, the meanness, and the sleepless days of the old Hoover administration?" he asked.

In discussing the Soil Conservation and Domestic Allotment Act, the farm bill which is now in progress over the entire nation, the Panhandle Congressman declared that this is the first time in the history of the world that farmers are being paid to build up their soil. And it is important that the soil be re-built, he said. Greece and numerous other European and Asiatic countries at one time had fertile soil, but now the riches of their soil have been dissipated.

Mr. Jones stated that he is the only man from Texas ever to be elected chairman of the Committee on Agriculture. "It is fitting that Texas should have the chairmanship of this great committee. Texas is the only state in the nation that has ever produced over a billion dollars' worth of agricultural goods in a single year, and as the leading farm state we should lead in the farm legislation," Mr. Jones averred.

All farmers of this section were asked to stand together. Farm legislation is in its infancy, Jones said, and we hope in the future to work out a program suitable to everyone.

Concerning the old age pensions, Mr. Jones stated that he was in favor of a suitable old age pension. He also favors a means of helping the blind and crippled.

Mr. Jones, able and fluent speaker, never once mentioned his opponent, and closed his address by inviting everyone present to investigate his record and vote accordingly.

SHAMROCK MAN IN TALK HERE

Clayton Heare of Shamrock addressed a group of Memphis and Hall County citizens from the court house steps here Monday night, July 20, at 8:30 o'clock in the interest of Clint C. Small, candidate for re-election to the Texas Senate.

Mr. Heare, a forceful speaker, explained issues in the senatorial campaign and told of the "Punch and Judy" show conducted by Judge N. P. Willis of Pampa here last Saturday.

"When Judge Willis was criticizing an oil bill which Senator Small passed through the senate while speaking here Saturday, he asked if there was anyone in the audience who had been hurt by the bill. One man held up his hand, and he was none other than Henry Schaffer, millionaire oil man of Texas and Oklahoma who is said to be financing Douglas' campaign," Mr. Heare said.

One point that Mr. Heare brought out in his address concerned the charge brought by Douglas backers that Senator Small has been absent countless times when important legislation was up for action in the senate.

"Douglas' backers are saying that Mr. Small was absent from 200 to 400 roll calls during the last session of the legislature," Mr. Heare said. "That is hardly worth mentioning when the roll is called as high as 120 times a day, and most of the bills pertain to unimportant district legislation," the Shamrock man said.

World War veterans will be accepted for enlistment in CCC camps in this area at any time before July 31, according to F. N. Blevins of Childress, National Employment Service representative.

The veterans may be either relief clients or non-relief men. Papers for registration may be secured in Childress, or from Mr. Blevins when he visits Memphis Tuesday, July 28.

tribution contingent upon the continued cooperation of counties in employing approved case workers, it was explained. Applications for WPA employment or for surplus commodities will be filed and cleared through the same office.

Eligibility for WPA employment or for receipt of surplus commodities is determined upon a basis of need, Johnson explained. Although it is no longer required that a job applicant can be a former relief client, present need must be definitely established.

Responsibility and authority of

those referred to WPA offices. "For the Texas Relief Commission to perform the service of intake and referral for WPA, and to continue sponsoring the distribution of surplus commodities, we must continue to receive the cooperation of the various counties and cities," Johnson stated. "We anticipate this cooperation, however, as our work consists of making surplus commodities available to the needy and of making WPA jobs a possibility for many of the unemployed workers."

Johnson pointed out that certification to WPA does not necessarily mean a job is awaiting the person certified as the quota assigned to Texas will permit the absorption of only a portion of

Swimming Hazards Should Be Heeded

AUSTIN, July 23.—In Texas, during 1935, there were 371 deaths from accidental drowning, according to records in the State Bureau of Vital Statistics. This is an increase of 54 over the number reported for the year 1934, and an increase of 85 over the number reported for 1933.

"While water sports are the greatest of all sports during the summer season, they present certain hazards which should be heeded," said Dr. John W. Brown, State Health Officer. "Accidental drowning would not occur if each individual respected the fact that water is not man's natural element, and governed his activities in the water by standards of safety.

"Certain precautions should be taken by all swimmers: Never swim alone—especially in deserted places where no rescue is available in case of an emergency."

Do not let young children go out in deep water even if they know how to swim, unless some older person proficient in life saving, is with them.

Do not go in bathing directly after eating. Wait two hours before taking the plunge.

Do not dive in unfamiliar places until you are sure of the depth of the water and the absence of rocks.

Do not overtax your strength—work up gradually to a long swim by strengthening the muscles first.

Do not swim when fatigued. Do not create a hazard for other swimmers by childish pranks and smart tricks.

"Accidental drownings, with few exceptions, occur through lack of proper safeguards or in places without adequate supervision. Take your swim in one of the approved sanitary swimming pools now available in most communities, and help reduce the deaths in Texas from drowning."

"The Last Frontier" Lives Again

Famed in story and song is the old frontier of Texas, and though it passes now across the horizon of history the stirring epoch it represents was recreated in all its glory when the Texas Frontier Centennial opened in Fort Worth Saturday, July 18. Pictured here is a solitary scene that might have been lifted from the pages of centuries ago, but in reality the broad expanse which Iron Shell surveys is the stage for "The Last Frontier," dramatic spectacle depicting the winning of the west. A far cry from the imperial domain of the Red Man years ago, even the reservation of this aged but stalwart Sioux chieftain is now near the center of the Centennial grounds.

Bill Bowerman left Wednesday for Miami, Fla., where he will try out for a position with the Government Weather Flight. Mrs. Bowerman will join him there should he be successful in the tryout.

Joe N. Colvin, Sheriff

I ask Re-Election on my record.

Have filed 75 Liquor charges but have had hard time getting results on account of present Liquor Law makes Selling only a Misdemeanor.

Have recovered 8 stolen automobiles and got convictions on 6, who are in the penitentiary now and more to try.

Got one Cattle Theft Conviction.

Handled 4 Murder cases.

Caught One Escaped Convict.

Recovered nearly \$2,000.00 worth of Farm Property including feed, cottonseed, harness, etc.

I do not drink Liquor in any form and am against it. We could do more against it if the citizens would help me instead of just criticizing.

Have tried to get them to sign complaints but to date I have not been able to get even one to do so.

I have no promises to make except to do the best I know how.

If you like my record and efforts I will appreciate your support.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief Of Pain

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are one of Nature's chief ways of taking the acids and waste out of the blood. If they don't pass 3 pints a day and so get rid of more than 3 pounds of waste matter your 15 miles of kidney tubes may need flushing.

If you have trouble with frequent bladder passages with scanty amount which often smart and burn, the 15 miles of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backaches, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait for serious trouble. Ask your druggist for Doan's Pills—which have been used successfully for over 40 years by millions of people. They give happy relief and will help flush out the 15 miles of kidney tubes. Get Doan's Pills.
