

# The Memphis Democrat

VOLUME XVIII

MEMPHIS, (Hall County) TEXAS, THURSDAY, NOVEMBER 26, 1925.

NUMBER 22.

HERE AND THERE

Tucker of Estelline was in Monday and stated to Here that cotton was coming pretty regular. The cotton cut the cotton crop across almost in half. He also noted a great change in Memphis coming to the county, thirty days ago. At that time the court was a little frame building on the side of the square. Now a beautiful building as one can see.

Montgomery: "I can see a improvement in the Democrat week. It is full of good news and that is what it takes for a good local county paper. Day when we get the Democrat I take it, and the other members of the family read the others reluctantly."

The supper will be given by the community on Saturday night, for the purpose of raising money to procure lights for the building. Everybody invited to eat and make it a success.

E. N. Nix came in this week and the Democrat sent to her in Philadelphia. She replied "I am proud of the Democrat as ashamed for those Philadelphians to see it."

Her car of pipe for the gas received in the city this week. The manager of the unloading that about five miles of a day will be laid when work under way.

Gable, eight miles southeast of Memphis: "The hail this fall did damage my crops, but the last did considerable damage. Send Democrat."

Murphy, of Newlin: "Crops and gathering progressing. I want the Democrat, for we without it."

Notes on the Football Special of the boys in high spirits and molesting no one and going nicely.

Phones and skull caps distributed on the train.

of town girls wearing the cyclone arm bands for anklets.

Football star being petted ten pretty girls and a teacher (pretty too).

her injured football player availed quickly after a nice young lady sat beside him and his hand. Previous to this thought he was going to die.

Impudent merchant who seemed carried over the condition of the player. The player calls it "a"

young men of our city, hold a contest in the last coach peach, which was quite dark, being a cast iron cookie as for the winners. A Cyclone of his lady won first honors, and to receive the prize as the protested his eligibility.

Amarillo queens at the train the Memphis boys au revoir, giving them their names and addresses and also swiping the boys neck-

## MEMPHIS CYCLONE DEFEATED BY AMARILLO SANDSTORM THANKSGIVING 32 TO 14

The Memphis Cyclone went down before the Amarillo Golden Sandstorm, in the Thanksgiving day grid tilt at Bivins' Stadium in Amarillo, before a crowd of 2500 spectators, 500 of which were from Memphis, thus losing the Class A district title by a score of 32 to 14. This was one of the most sensational gridiron battles of several seasons in the Panhandle. Memphis scored first in the early part of the first quarter when Hubert Dennis, star Cyclone back, tore off 30 yards through the Sandstorm's brilliant defense, in a sensational broken field run, and kicked from placement. Amarillo received the kick off and plunged the Cyclone line for three first downs to striking distance and Bassett hit the line for seven yards to go over. Dowler kicked wide. The quarter ended after a few plays with the ball on Amarillo's 12 yard line and the score 7 to 6 for Memphis.

Cohen went over in two tries after Dennis had gained 6 yards off tackle. Dennis kicked goal. After receiving, Amarillo carried the ball to Memphis' 5 yard line by a series of line plunges and Dowler went across for a touch-down but kicked wide from placement. Amarillo came to Memphis' 35 yard line when Clark intercepted a pass. Clark fumbled on next play but Honey recovered for Amarillo. Oakes fumbled and Henderson recovered for Memphis on his own 25 yard line. The quarter ended with the count 14 to 12 in favor of Memphis.

The third quarter proved disastrous for the Cyclone, when they allowed two touchdowns to cross their goal. They received the kick and returned a 35 yard punt after three attempts at line netted but 4 yards. Clark of Amarillo made 18 through the Memphis line. Four first downs at the line put Amarillo on the 5 yard line. Bassett went over in two tries, and Dowler kicked his first goal of the day. Cohen was seriously injured in this play, tearing two ribs loose from his spine and was taken to the hospital, but was able to return to Memphis on the train. Leslie Foxhall went in at left end and Hammond shifted to right half. Dowler crossed the Memphis goal again after the Sandstorm had carried the ball the length of the field through the Cyclone line.

Memphis opened a sensational aerial attack in the fourth quarter after Amarillo had again carried the ball back of the Memphis goal. This forward passing demonstration proved a ground gainer and netted 103 yards but was held by the Amarillo defense in the critical moments when a successful pass would have meant a touchdown. Amarillo had the ball in midfield when the pistol fired ending the game with the score 32 to 14 for Amarillo.

The Amarillo News lists Dennis and Cohen as the outstanding players and Dennis as "by far the star of the game." "Twice did the fans see the Cyclone carry the ball over the goal line in dazzling plays of Dennis and Cohen, each time placing Memphis in the lead. Also did they see Dowler's toe fail while Dennis' golden toe was perfect. The fans were given the most thrilling gridiron game of several seasons."

Score by quarters—  
Memphis— 7 7 0 0—14  
Amarillo 6 6 14 6—32  
Touchdowns. Amarillo—Bassett, 5; Dowler 2. Memphis—Dennis, 1; Cohen, 1.  
Substitutes. Amarillo None; Memphis, L. Foxhall for Cohen.  
Referee, Lockhart, Canyon; umpire Burton, Clarendon, head line-man, Woodard, Plainview.

### MRS. LULA MORRISON DIES SUDDENLY MONDAY

Mrs. Lula A. Morrison, wife of P. E. Morrison, living in the Indian Creek community, died very suddenly Wednesday evening about six o'clock. Mrs. Morrison was 48 years two months and seven days of age and leaves a husband and several children to mourn her untimely death.

Funeral services will be held at the Seventh Street Church of Christ, Saturday morning, November 28, at 11 o'clock conducted by Eld. Robert K. Price of Clarendon.

Interment will be at Fairview Cemetery. The Democrat joins their many friends in extending their deepest sympathy to the sorrowing family in their bereavement.

Mrs. J. R. Figh and baby departed Tuesday morning for a visit with relatives at Ennis, Texas.

## Slaton Defeated by Cyclone Friday by Score of 35 to 0

The Memphis High School Cyclone became Class B champion of districts Nos. 1 and 2 Friday by completely overwhelming the Slaton Tigers in a hard-fought game by a score of 35 to 0. The Tigers failed to live up to their reputation and proved easy prey for the Memphis squad. The Slaton line could not hold the terrific plunges of the Cyclone backs and in the early part of the second quarter Memphis marched down the field by a series of line bucks to cross the visitors' goal.

The second counter was the result of two passes for 30 yards and a brilliant 38-yard run by Henderson, Cyclone captain. After several minutes of play in the third quarter, Slaton punted to Dennis, who returned 20 yards and after two end runs for about 20 yards Dennis got away for 15 yards around left end for a touchdown. In the fourth quarter Dennis attempted to drop kick and the ball blocked by Slaton, caused a free for all fumble. Hammond recovered for Memphis, carrying the ball to the Slaton 1-yard line. Cohen went over in two plays at the line. Lemons made the final tally after a pass to Hammond had put the ball on the six yard line, when he went through center for the necessary yardage.

At no time was the Cyclone goal in danger and Slaton seemed helpless against the brilliant aerial attack of the Memphis team. Time after time Slaton lost opportunities to make gains by fumbles.

The game was much more interesting and sensational than the score indicates and was witnessed by over a thousand fans.

The only brilliant plays executed by the Tigers was the work of Brown, Slaton halfback. His superior tackling twice saved touchdowns against the visitors and a 55-yard broken field run in the third quarter was a feat not before executed against the Cyclone.

Slaton and Canyon teams protested the eligibility of several Memphis players but Roy B. Henderson, Interscholastic League director of athletics, ruled them all eligible after information and affidavits had been personally delivered to him by Supt. S. C. Miles of the Memphis High school.

### BUREAU OF CHILD HYGIENE OFFERS INSTRUCTIONS TO MOTHERS FREE OF CHARGE

The bureau of child hygiene of the state board of health invites every expectant mother in the state to write for its series of prenatal letters that are sent free of charge to every woman who desires information as to the right mode of living during this critical period. These letters cover rest, diet, exercise, give two food laxative recipes, general care of health, and preparation and care after confinement. It is not intended that these letters take the place of a physician, but to give information along minor details, and to help those expectant mothers who find it impossible to be under constant supervision of their family physician.

The bureau of child hygiene also offers free of charge to those requesting them, pattern for maternity dress and baby's layette. Direct all letters to your state board of health at Austin, Texas.

### Foxhall Makes Donation to The Fire Department

The Memphis Volunteer Fire Department, received a substantial gift from F. N. Foxhall, manager of the Memphis Cotton Oil Co., this week, as a token of appreciation for their valiant services rendered last week when the company lost two large seed houses together with several hundred thousand dollars worth of seed, by fire. Had it not been for the good work of the fire department the entire plant would have been destroyed. The boys are very grateful to Mr. Foxhall and say they can use the money very nicely.

MISS BESSIE LARCHER

Miss Bessie Larcher is the organizer and manager of the concert company bearing her name which will appear on our Lyceum course. As a reader of plays, she occupies a high place in the dramatic world. She also plays the clarinet, drums and traps, and her's is no small part of the company's program, though of course she is ably supported by Miss Beatrice Smith, pianist and accordionist, and Miss Ellen Foster violinist.

### HALL COUNTY FARMER MAKES GOOD SHOWING

L. F. Mock, living on the Joe Grundy place, north of Plaska, is one of the entrants in the Dallas News cotton-raising contest. At the beginning of the season Mr. Mock staked off five acres in his field and has worked that acreage with his other crops. Mr. Mock had some misfortune in being in the wake of one of the disastrous hail storms which visited Hall county this year. When the hail adjuster visited his place an agreed settlement was made on a 50 per cent basis. Despite that fact Mr. Mock has gathered six bales from this five acres and says that he will have another large bale with possibly a small remnant. The bales that have been gathered to date are as follows:

1670 pounds of seed yielding 511 pound bale of cotton, 1900 pounds yielding 525 pound bale, 1570 pounds yielding 520 pound bale, 1560 pounds yielding 545 pound bale, 1270 pounds yielding 450 pound bale. This has already produced 9590 pounds of seed cotton or 3121 pounds of lint cotton, making an average of one and one-fifth bales to the acre with more to come. Mr. Mock has 40 acres adjoining, that will do as well as this most any year and if the destructive hail had not visited this spot of cotton, it is safely figured that it would have made easily two bales per acre. There are many, many acres in Hall county just as productive, if properly worked.

### Burns Received Friday Fatal to Childress Infant

Friday morning before noon James Sidney, 2 year old son of C. Keith, of Childress was fatally burned when playing near a kettle of boiling water. The fire had been built in the yard and a number of children were about it. Mrs. Keith stepped in the house and the while gone, the baby fell backward into the fire. Children endeavored to smother the flames on the baby's clothing but a brother of Keith ran to the rescue and tore the dress off the child.

The baby was rushed to the hospital immediately, after the mother had poured linsed oil on the burns. The burns which were dressed immediately, covered about one-fourth of the body on the left side, back and stomach.

The child's condition was not considered serious until critical symptoms developed late Saturday afternoon and death resulted Sunday morning.—Childress Post.

Miss Hortense Eddins and Mrs. Emma Simms of Estelline were callers at the Democrat office Friday.

### TWO BLOCKS IN BUSINESS SECTION AT LAKEVIEW BURN TO GROUND TUESDAY NIGHT

### 300 Memphis Fans Ride Special Train to Amarillo Thurs.

The Denver Road, through its representative, Mr. Land, granted a one fare round trip excursion rate to Amarillo Thursday for the Thanksgiving Memphis-Amarillo football game and ran a special train of seven coaches from Childress to Amarillo. The train left Memphis at 9:30 and arrived at Amarillo shortly after noon, and left Amarillo at 8 p. m. on the return trip. Many people took advantage of the special rates and are indeed very grateful to the railroad for their courtesies.

Upon arriving in Clarendon, the Memphis band gave those people a taste of real band music. Part of the pep squad alighted and gave in part, a demonstration of their ability as noise makers.

At Amarillo, the American Legion drum corps greeted the Memphis boosters at the station and led the parade through the business section of Amarillo, followed by the band, the two pep squads and then the fans. Cheers greeted the marchers on every hand.

Approximately 300 Memphis fans went on the train and equally as many in automobiles and were in the line of march. It was a great day and everyone was full of enthusiasm for the Cyclone even after their defeat.

### T. E. WHALEY DIES AT HOME OF HIS BROTHER NOV. 26

T. E. Whaley died Thursday morning at nine o'clock at the home of his brother, J. A. Whaley in this city, after a lingering illness of several months. The body was shipped to Saint Jo, Texas Thursday night, where interment was made at eleven o'clock Friday. Quite a large number of relatives from several places were in attendance at the death bed including the wife and several children. There were about twenty accompanied the remains from Memphis, including several friends of the family and relatives.

The Democrat extends heartfelt sympathy to the bereaved family in their sad hour.

### ORCHESTRA HAS ACCIDENT NEAR HERE SATURDAY

The W. T. S. T. C. Orchestra, which gave a concert here last Saturday night, and one that was highly enjoyed turned over in a big bus, in which they were riding, when within two miles of Memphis. The accident caused a delay of about thirty minutes in their concert. Fourteen members were in the bus and all escaped injury.

### HOWELL STODDARD

A surprise wedding culminated a short romance, last Monday afternoon when Mr. Clyde Howell and Miss Mary Stoddard, both of this city quietly slipped to Justice R. N. Gillis' office and were happily married. Both of these young people are well known to a large circle of friends who will join the Democrat in wishing them a long and happy married life. Mr. Howell informs the Democrat that they will remain in Memphis until about January 1, when they will remove to Lubbock where he will accept a position with an oil company.

### HALL COUNTY IS MECCA FOR IMMIGRANTS

The past few weeks have seen many immigrant cars stopping at Memphis and unloading at this point, and moving into the various parts of Hall county. These immigrants are coming from all parts of Texas and adjoining states. Some three or four cars have been unloaded here the past week. The manner of cutting up the large farms and ranches into smalls enable these newcomers to get a start in Hall county that will ultimately make them real homeowners, thereby making them become interested in every community movement and thus more satisfied and substantial citizens.

Our neighboring city, Lakeview 12 miles west of us, was again visited by a disastrous fire which occurred Tuesday night and claimed one of the principal business blocks of that thriving little city. According to information received from that city, it is believed the blaze started in the Roby Moore Garage and spread so quickly that the entire block was wiped out with the exception of one small building on the south side of the entire town.

Lakeview has no water supply and only a bucket brigade could be mustered with which to combat the flames. It was the good work of these men that kept the flames from spreading to other parts of the business section and wiping out the entire town.

The Moore Garage, Gosdin Drug Store, W. E. Gatling mercantile store and postoffice, Fred Lusk Cafe and Robertson Barber Shop and Cypert Barber Shop. It is said the fixtures and stock at the postoffice were saved and a few hundred dollars of merchandise of the Gatlin company, and several hundred dollars of the drug stock of Goslin Drug Co., was also saved.

The loss was estimated at between \$40,000 and \$50,000, only a small portion of which was covered by insurance, due to the high rate necessitated by the lack of adequate protection against fire.

This is the third disastrous fire in Lakeview since its existence, it being completely destroyed a few years ago.

### TWO DRY GOODS STORES CHANGE THEIR LOCATION

This week Cross Dry Goods Co., has been moving merchandise from the old stand at the northeast corner of the square to the new Masonic Building at the southwest corner of the square which has almost been completed. This will be one of the real up-town stores of Memphis.

A Baldwin will move his stock from of dry goods Monday from the middle of the block of the east side of the square to the corner vacated by the Cross Dry Goods Co. This store, being fifty foot front building, will enable Baldwin to better display his immense stock in a more satisfactory manner and will be an added improvement to his business.

### Cultivate The Body As Well as Mind Says Newman

"The sound nutrition of the individual and the community is the foundation of public health," said Sir George Newman, Chief Medical Officer, Ministry of Health and board of education of Great Britain.

The American National Red Cross through its highly developed and scientific Nutrition Program is educating old and young in the things to eat and the things not to eat.

Malnutrition is not confined to cities, since statistics concerning the physical defects of school defects of school children show a greater degree of malnutrition among country children examined than among city children. Nor is malnutrition due to poverty alone. Lack of information and indifference are dominant factors. Marked cases of malnutrition are found among the rich as well as among the poor. In the schools, where attention has been given to the subject, it has been found that from 15 to 50 per cent of the children, rich and poor alike, are suffering from malnutrition. At the same time medical inspection has shown that a large percentage of the children have physical defects needing attention, many of these being due to faulty nutrition.

The need for well-chosen food does not pass with childhood and youth. The adult who has narrowed his choice of food to a few stereotyped articles, or who boasts that he can "eat anything" many not manifest any of the more definite symptoms of dietary disturbance, but nevertheless the bad results of an ill-chosen diet are bound to manifest themselves sooner or later in decreased resistance and in general inefficiencies. "There may be normal nutrition without health," said the late Dr. Emmett Holt, "but there cannot be health without normal nutrition."

### Vacation Time With Its Pleasures

By T. R. GARROTT

In the regions of Arizona, Colorado and New Mexico, many wonderful discoveries have divulged the secrets of the people who lived in these parts hundreds or maybe thousands of years ago. In proof of the fact that man existed during the era when the Mastadon, (3-toed horse) and Dinosaurs roamed over the land, there was discovered by Mr. Doheny, (who owns the oil in the Tea Pot Dome), in a deep canyon in Arizona, pictures engraved in solid stone wall, showing combats between men, mastodons and dinosaurs. Sulfate of iron covers the pictures where the rock has been and this mineral hardened and preserved the work, chiseled out and no living man knows when these people lived. This is the only place ever discovered in the whole world, where man is shown in battle with these monsters, whose bones are exhibited in our museums. Not very long ago a city, buried in volcanic ash and dirt, was discovered in a valley in Arizona. Bones of these inhabitants indicated that the men were very tall, many of them about seven feet high. These ruins are being uncovered and many strange sights are being revealed.

Cliff dwellers and cave dwellers, who lived on the high mesas and in almost inaccessible cliffs, have left many relics to show the nature of their life. Oil scouts and gold prospectors found a burial place. The bodies were still preserved, although hundreds of years old, because of the dryness of the atmosphere and burial chamber. Each body was found in tight clay cemented tombs, sitting with face to the East, hands secured under knees and head covered with a cowl made of finely woven grass and sandals on their feet, garlands of woven hair and feathers suspended about their neck. A clay vessel, containing "squaw corn" was found in each sealed grave. In one room among ashes and dust was found corn cobs about the size of a man's finger, the size of the cob shows how small the ear of corn was. One grave contained, perhaps, the remains of some warrior chief, as beside the body there rested two human heads, smoothly severed from the absent bodies.

The mysteries of a lost civilization are slowly being discovered and secrets buried for centuries are being exposed to the light of the sun and

### CAR OWNERS MUST HAVE LIGHTS TESTED

The attention of all owners of motor vehicles and motorcycles is called to the following provision of the Texas Automobile Headlight Law: "Section 16—Before any county tax collector shall issue a certificate of registration to the owner of a motor vehicle or motorcycle as now provided by law, he shall require the presentation of a certificate showing that the headlights of such motor vehicle or motorcycle have been tested and adjusted at some one of the county test stations referred to, and that said test and adjustment have been made within the 30 day period just preceding the date of application for registration."

Since headlamps must be adjusted within thirty days of the date of registration of the cars, approximately two months will be available for the pre-registration tests. Considering extreme cases, for example, if a car is registered on January 1, the owner will have had thirty days in which to have had the headlamps adjusted and if a registration is made on January 31, practically the whole month of January will have been available. In other words, the certificate of adjustment must not be over thirty days old at the time the car is registered. Of course, the motorists will have their headlamps adjusted about the time of registration.

Motorists are requested to begin registration at the earliest possible time and not wait until the latter part of January. Early registration will help the tax collector tremendously and will save time for the motorist. The regular registration period will begin in this county about December 1, 1925 and extend through January, 1926.

the critical gaze of scientific research.

In traveling through New Mexico the tourist passes close by buried "pueblos" which once housed thousands of happy, contented people, living the simple life of innocence, worshipping like the Athenians of Paul's day "the Unknown God" who revealed his power and love in the changing of seasons, brooding storms and fragrant flowers.

The visitor in Albuquerque is amazed at the primitive way in which fuel is sold and delivered to the homes. On the roads leading to town can be seen a pile of cut wood coming along with a donkey's ears waving in front and four little feet slowly moving below, while behind stalks a native with a sharp stick prodding the donkey. Sometimes there are five or six of these wood piles in charge of one driver. Certainly this man can claim to be making an "honest living without any competition." Why not?

The tourist camp park furnishes hot water in abundance so there is no need of a thermometer to gauge the bath. One motherly woman said when she bathed her children, if they turned red she knew the water was too hot and if the baby turned blue she knew it was too cold. In such case the baby had nothing to say.

The highways of New Mexico are links in the great Ocean to Ocean avenues of commerce and travel and the U. S. Government spends about an equal sum on these National arteries of communication as the state of New Mexico pays in Federal taxes.

The poverty of the people is being gradually relieved as in place of cattle and cotton, many oil wells furnish streams of liquid gold. Thousands of tourists contribute many dollars to daily circulation in exchange for eggs and milk and other home products. In August the country between Albuquerque and Vaughn was barren of green grass and many homes had been deserted on account of drouth. Only in places where water could be conserved, was there green stuff growing.

We drove 200 miles and stopped at Fort Sumner. The sight of mules, yes common work mules, indicated that once more we were getting into a farming country, where mules could be used to a profit. Here I saw the most luxuriant corn on our trip.

(to be continued)

**RESOLUTION OF RESPECT**

Whereas: It has pleased Almighty God to remove our esteemed friend and brother, Henry Vallance, from the walks of life, and whereas Red River Valley Lodge No. 903, I. O. O. F. has lost one of its most honored members, whose place cannot be easily filled, and whereas our community has lost one of its most useful and honored citizens, therefore be it resolved by the members of this lodge that we humbly submit to the will of our Grand Master above, and be it further resolved that we extend our tenderest sympathy to his bereaved family, in the loss of their devoted husband and father, and be it further resolved, that while we shall miss Bro. Vallance in the Councils of our Lodge, and as one who stood four-square for all that was noblest and best in our community life, we hope as True Oddfellows to meet him in the Councils of the Grand Lodge above. Be it further resolved that a copy of these resolutions be spread upon the minutes of this lodge, and that a copy be furnished to the family, and to the Memphis Democrat for publication. Respectfully submitted,

W. E. MURDOCK  
 E. T. MONTGOMERY  
 M. V. ROBERTSON

Diphtheria Prevalent in Some of the States

With 78 cases of diphtheria in the state during the month of October as reported by county and city health officers, and 103 cases of this disease reported for the first two weeks of November, the State Board of Health calls attention to the prevalence of this serious malady in several of the states at the present time, and urges the co-operation of school authorities with local health officers to prevent its spread in Texas.

In asking this co-operation, Dr. H. O. Sappington, state health officer, stated that diphtheria is especially a menace to school children in all communities where it develops, but that through co-operation of school authorities and local health authorities, any threatened epidemic can be easily controlled.

"Diphtheria," Dr. Sappington said, "is one of the diseases which we know most about, and though one of the most deadly of all diseases if not treated, it is curable in practically 100 per cent of cases when scientific attention is rendered early. It is also a preventable disease, and knowing as much as we do of its cause and treatment, there is no excuse for its existence."

"Some children," Dr. Sappington further stated, "are immune to diphtheria, and will not contract the disease when exposed. There is a simple test by which it can be ascertained whether a child is immune from this disease, and where a child is found susceptible, it can be given immunization without pain or danger that will probably protect it from this disease throughout its entire life."

"To insure a diphtheria proof populace, it is only necessary to immunize every child found susceptible to this malady. Especially is it necessary that children be immunized in communities where diphtheria occurs."

"Diphtheria, when contracted, generally yields readily to treatment when diphtheria antitoxin is administered in the first 24 or 36 hours."

RED CROSS AID TO VETS MOUNTING

Heavier Demands for War Service Laid to New Legislation Granting Wide Benefits.

ACTIVE FORCES AIDED ALSO

Duty to Ex-Service and Service Men First Responsibility of the Red Cross.

A marked increase in the service given by the American Red Cross to ex-service men, through Chapters, hospitals, Government and Red Cross offices during the past year, and which volume is expected to be maintained during most of the fiscal year ending June 30, 1926, is shown in the reports of the war service activities of the organization, just completed.

Service to the disabled and to men now in active service continued to be one of the primary obligations of the Red Cross. The increased activities in this regard were attributed largely to the legislation giving new benefits to ex-service men.

The keystone of the Red Cross service lies in the Home Service work of the chapters to veterans and men still in service. At the close of the fiscal year June 30, 1925, 1,591 Chapters were active in this work and had expended approximately \$2,227,000.

Included in their work was assistance to ex-service men in making out adjusted compensation papers, in the handling of claims reopened, or made possible under liberalized terms of the World War Veterans' Act of 1924; and in many other ways.

An unusual amount of legislation passed by Congress and State bodies has necessitated the issue of much new material in the past year. Legislation was passed during the year liberalizing conditions applying to hospitalization, compensation and other benefits under the Veterans' Bureau; this in turn has entailed reopening of many claims formerly disallowed, filing of many new ones, and many applications for hospitalization. The Claims Service at National Headquarters this year handled 17,500 in comparison with 13,018 cases the previous year.

Increased service to men in hospitals was noted, as well in the number of hospitals in which service was maintained by the organization. Due to new legislation an increase of over 6,000 patients were admitted for hospitalization, a new peak approximating that of March 1923. Since a large number of this group includes patients not eligible for compensation, the solution of their personal and family problems has involved careful study by the National Organization.

There are 20,000 disabled ex-service men in Government hospitals every day of the year, and their need has directly led to a revival of the best-known and perhaps most popular ac-

tivity the Red Cross sponsored in war—a new campaign for knitted "Red Cross sweaters." These articles are among the few not furnished by the Government.

For the men still on active duty in the Army, Navy and Marines, the Red Cross during the year maintained Field Directors at all important stations, camps, and hospitals of these armed forces of the country.

A monthly average of 26,921 service and ex-service men were aided by the Red Cross during the year.

The man in service, and the man who has served his country are among the primary responsibilities for which the American Red Cross is chartered by Congress. Nevertheless it has many other obligations and it is on this basis that an appeal will be made for a larger enrollment than ever during the Annual Roll Call, Armistice Day, November 11, to November 26.

JUNIOR RED CROSS AIDS PEACE BY BIG GROWTH

A new high level in peace time membership of the American Junior Red Cross is recorded for 1925—its rolls numbering 5,725,049 school girls and boys—a gain of 142,000.

This unique and powerful children's organization started as a war measure but today is one of the greatest influences for peace ever known. An increasing participation in local programs of service has fostered their own's growth. It is indicated that to a greater degree than ever pupils in the schools are performing individual and collective acts of service in a true Red Cross spirit.

The results of the Junior Red Cross program, included here, have been through co-operation of the Livingstone Service of the Red Cross, has led to a determination to make it a regular feature of both these branches.

An outstanding feature of the Junior work this year was the participation for the first time of a Junior Red Cross worker in the disaster relief operations following the tornado in Missouri, Illinois, and Indiana. Schools in many more fortunate localities displayed a keen interest in sending toys and books for the use of the children in the disaster area.

The Junior Red Cross program has flourished not alone in settled communities, but has been extended to Indian schools, and to native Alaskan schools where many Eskimo children undertook Junior work. In addition, the international correspondence between schools is proving more and more popular. American schools are now corresponding with those in thirty-four countries.

THE FIRST COMMANDMENT:

—Thou Shalt have no other Gods before me. Exodus 20:3.

PRAYER—Most merciful God Thou art from everlasting to everlasting God. We would worship and serve Thee and Thee only.

Thanksgiving day has come and gone. The whole town observed the day in first one way and another. Many went to Amarillo to see what a Panhandle Sandstorm will do to a Cyclone, and found that the reason frequently given as to why there are no more Cyclones in the Panhandle is evidently true. Old-timers say that a cyclone would have a poor show in the Panhandle for one of the well-known sandstorms would come along and break it up. That is what happened Thursday. Then, many went hunting or visiting. The Democrat force joined in observing the day by not working.

The kiddies are hereby invited by The Democrat to write Santa Claus what you want him to bring you for Christmas. The Democrat will publish your letter and see that Santa gets it. Just a few more weeks now until Christmas and Santa will want to know what you want before he starts out on his trip to deliver the presents.

That Fellow who robbed the bank at Claude last Saturday, didn't get very far with the five thousand dollars. At least he has been apprehended, even though he was able to hide the money. Not much chance to get away with meanness these days with alert officers on the job, and with telegraph, telephone and radio at his command.

HOME BLAMED FOR LACK OF LAW RESPECT

The students received another grand treat last Friday at chapel period when Judge R. W. Hall spoke on "The Citizen and the Constitution." The talk was begun by a statement concerning the condition of the situation today and that the Americans were wandering away from the rich heritage of Law and Order. He continued that when he was a boy, about half a century ago, the people as a whole were not so immoral in general as they are now. Also that the Federal constitution should be ever upheld, it is our duty to do such. It was said that one should love his native land, whether he was born in that country or not.

The subject of loyalty was then mentioned by the speaker with emphasis, he said that if he was in Hell, he would be loyal to that place, and stick to the principles of that place, however no attempt should be made to get into such a place of this character. A short incident was related in regard to the relation of mothers and fathers, to boys and girls. The latter were on the street corners at rather late hours of the night. Upon inquiry as to their reason for being there, it was said that they were hunting their mothers and fathers. In other words the mothers and fathers of today are leading their children astray. He also stated that. He also said that 3 and 2 are not 5 because it is in the arithmetic but that it is in the arithmetic because it is already an evident fact.

The statement was reasserted that the nation was growing from better to worse. The boys do not play such important roles in this for the number of suicides is far greater for 15 year old girls than for 16 year old boys, in Chicago. When the speaker was a boy the children of this age would not have been at the table with a bib, so he said. Statistics were quoted in regard to the marriages, and in 1915 there were 1600 persons under 15 that married. The speaker's opinion of a boy between 12 and 15 years was given. It was said that there was nothing so absurd and reckless, unless it was a jay bird or a prairie dog, and that the Hebrew for it was "dog" and that at any rate we could put him down as nothing less than a fool. It may be added that four million dollars were stolen by the professional crooks in one year in

the city of Chicago. There were one half as many divorces in Los Angeles last year as there were marriages. Years ago there was a crime wave, but now there is a crime billow.

He stated that people declare that the world is getting better, but that he saw no reason for such a belief, and that a few platform orators, or medicine peddlers were giving numerous remedies for the "curing" of the world. He stated further that statesmen or the like were unable to solve our difficult problem but that it looks like it would take God, our creator and without His help, the nation would go to hell, where any nation would belong that will not look to Him for help. Mr. Hall said that there was not a law in the statutes of the United States that did not conform with the law given to Moses at Senia, that anyone that did not obey the laws of his land was going against the law of God. He further stated that we must be regenerated to be clean, giving the "Pig in the Parlor" as an example. The speaker asserted that America America was founded on the primary principles of the Bible and God, but had drifted away and needed restoring. He further declared that a creed was needed and that all of us with a worthy purpose had one, whether it was written or not. In conclusion he used a Biblical quotation and said that if we would uphold the cause of right now, at last Christ would receive us unto Himself saying, "Well done thou good and faithful servant."

Tell your friends what you think of the Memphis Democrat.

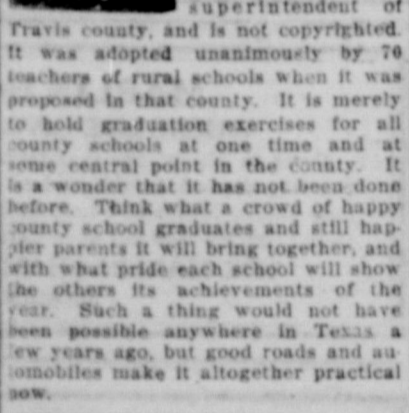

Thanksgiving day has come and gone. The whole town observed the day in first one way and another. Many went to Amarillo to see what a Panhandle Sandstorm will do to a Cyclone, and found that the reason frequently given as to why there are no more Cyclones in the Panhandle is evidently true. Old-timers say that a cyclone would have a poor show in the Panhandle for one of the well-known sandstorms would come along and break it up. That is what happened Thursday. Then, many went hunting or visiting. The Democrat force joined in observing the day by not working.

THE PASSING DAY

WILL H. MAYES Former Dean Department of Journalism University of Texas

Rural School Graduation Exercises.

Here is a suggestion that is worth more than this newspaper will pay for these articles in ten years. It is not my idea, but came to me from Mrs. George R. Felter, county school superintendent of Travis county, and is not copyrighted. It was adopted unanimously by 70 teachers of rural schools when it was proposed in that county. It is merely to hold graduation exercises for all county schools at one time and at some central point in the county. It is a wonder that it has not been done before. Think what a crowd of happy county school graduates and still happier parents it will bring together, and with what pride each school will show the others its achievements of the year. Such a thing would not have been possible anywhere in Texas a few years ago, but good roads and automobiles make it altogether practical now.

Portrait of Will H. Mayes, Former Dean of the Department of Journalism at the University of Texas.

Pageantry and Pica.

It is proposed to include in the exercises, which will continue all day, an impressive historical pageant, in which each school will have a part. Schools having bands will bring them along for single band and massed band concerts. There will be some speech-making, of course. There will be a big picnic dinner of fried chicken and homemade pies and such things. The children will be dressed in their best. They will proudly wear their school colors with the school names on arm-bands and hats. The delivery of diplomas will be impressive. Good-natured rivalry will exist between schools and the less ambitious will be stimulated to greater effort. It will be an event to inspire every child who sees it to strive for a coveted county school diploma and to make every parent eager to sacrifice, if need be, that the ambitions of their children may be gratified. There is plenty of time for this county to start such a movement.

The Headlight Law.

It is stated that in some counties sixty per cent of the car owners have complied with the headlight law while in others forty-eight per cent have ignored it. That observance of the law increases safety of night travel all agree, and it is, also easily seen that the driver of a car with lights properly adjusted is at a disadvantage when meeting a car with lights out of adjustment, and is then in greater danger than if he were violating the law instead of observing it. Public sentiment and public safety demand that this law be observed and that indifferent officers be invited to see that it is enforced. Observers of the law are entitled to the protection of the law. Public officials owe it to them.

Confidence in Officials Weakened.

Charges and counter-charges are made with such frequency in regard to State highway transactions these days that weekly papers can hardly keep pace with them even if they should try. The average man hardly knows what to think under such conditions, for he can not be sure that he knows the facts on which to reach a conclusion. The questions now being most closely studied are: Is the State, if which we are every one a part, paying too much for maintaining its highways, in which we are all interested? If it is paying too much, to whom is his money going, and why? What can be done to prevent the waste of public monies and to insure efficiency in public officials? Will grand jury investigations and court actions or legislative inquiries secure best results? Since the grand juries are already busy, the general feeling seems to be that before reaching any decisions ourselves we should wait to learn what horse bodies discover and decide to do. Then, if any further action seems necessary, Texans can "do a plenty." That is the conservative view of good citizenship.

Making the Streams Work.

Down Cotulla way they have worked out preliminary plans for spending \$7,300,000 to make the Nueces river get to work in the interest of the valley instead of allowing its waters to go to waste. It is the same old story, so much heard lately of conservation, irrigation and water power in the operation of manufacturing industries. This writer can't think hard in terms of millions, but he knows that it means that Texans are deciding that Texas hasn't been doing all that it should have done with Nature's gifts, and that they must be no longer wasted, but used.

Deserves the Compliments, But—

Although the Dallas News deserves all the compliments being paid it and reproduced in its columns, readers are beginning to wonder if it will get

through publishing the nice things said about it on the occasion of its fortieth anniversary before it has another birthday and has to start all over again.

What About the Quality?

Some of the largest cities of Texas are quarreling about the number of people the census bureau is crediting them with having, all of them claiming more than the bureau found in them. Why complain of a little thing like that? I know some towns of a thousand or so people that are far more delightful living places than any of the cities of the country, and there are hundreds of rural districts that are more inviting than the towns. Quantity of population and congestion are more often harmful than helpful.

Grounds for Delay

The tired Saturday night patron at the Elite luncheon in Hickburg had made up his mind to get some action. "Where's that coffee I ordered?" he thundered to the waiter.

"It'll be here in just a minute now," replied the waiter. "You see, it takes a little longer to make it on Saturday nights."

"Why is that?"

"Well, we put in fresh grounds on Sundays, and 'long toward Saturday they get kind o' weak."—Judge.

Things Seen by Here and There

A man without feet or legs driving a Ford car. Sounds unreasonable, but true.

A negro man, seven feet four inches tall, walking down the street. He stepped in a Ford car and had to double up like a jackknife.

Several hundred citizens talking about the Football game at Amarillo.

Sixteen negro cotton pickers unloading from one truck last Saturday afternoon.

A red headed woman and a white horse on the streets of Memphis. They were not together.

A negro man taking "French leave" from one of our clothing stores Saturday. He was overtaken by the manager and made to dig up for the Corduroys.

A member of a church, who said he went bird hunting last Sunday.

A man who had been chasing a "pole cat."

A bunch of the fire boys discussing what they were going to do with their bit of the donation made the fire department for the oil mill fire.

The following article in the Childress Index and the thought hit us that it would be a good undertaking for Memphis to pattern.

"The ordinance governing obstructions along the sidewalks in the business district went into effect Friday morning. The business firms who had been using the sidewalks for storage purposes got most of the things out of the way Thursday afternoon or night."

CARD OF THANKS
DIVORCE RECORDS HERE SHOW FEW MARRIAGES
We take this opportunity to thank our friends for their kindness and personal services, rendered us during the long illness of our wife and mother. And when the Lord saw fit to take our dearest loved one from our midst, you came with words of sympathy and helpfulness, which showed that in our deepest hour of sorrow, we were not alone in our great grief. You have proven that "a friend in need, is a friend indeed." We appreciate the cooperation on the part of the business men in closing their several places of work. It was indeed a soothing relief in our last sad hour with our dearest one, to have instead of harsh noises, profound peace and the sympathy of our neighbors and fellow workers. We would not forget to thank you for the beautiful floral offerings. Yours with gratitude, W. J. PAYNE and Family.

### Greatest Asset of Texas Is Her Children

PHEBE K. WARNER

What is the greatest asset in Texas today? Is it her soil, her mines, her oil and gas wells, her ranches, her crops and livestock, her climate, her sunny skies and star lit nights? Her railroads and highways, her fast drives, her canyons and plains and all her commerce added together?

It's none of these although one is great. Most of these have been here for a million or more. But nothing ever happened in Texas until just a few years ago. Nothing ever happened anywhere much until there came home there and a baby in it. What makes a country great is her children. A place to do something to live for. That is the secret of all national develop-

ment. The greatest asset in Texas today is her homes and her children. Without them there would be no Texas. There would be only 172 million acres of bare earth here that would be of financial value to anybody unless there were homes and children where to use it. Evidently that is what God made this beautiful earth for. Homes and Children. And it is a beautiful world. Texas is a beautiful world all by herself. Can you imagine anything that is needed for a home and a child that Texas does not have? We could build a wall around Texas and live if it were necessary. But it is a lot better for the rest of the world as well as our own to do it.

Who would suffer most if a thing were done? Texas or the rest of the world? Just think of the coats and shoes and clothes and hats and food that the world never receives if somebody builds a wall around Texas and shuts everything in Texas in.

What is it All About? Why all of this work and thought, food and clothing in Texas? The ultimate end of it all is to produce the greatest generation of future citizens the world has ever produced. And those citizens are already here. They have already been born. Nearly two million of them is Texas' share for the nation and in this share has surely gone over the top bringing up her quota. It is our children. One million three hundred and forty-five thousand of them are of school age this very day. The rest are the little tots not yet old enough to go to school. How many are ever going to school. How many are ever going off by ourselves and down in some quiet corner and to think out our duty as a citizen of this state to all the two million children in it? Do you think much of this kind of thinking has been done in the past hundred years? Somebody thought long years ago that all the children of the future here would not have been \$19,-

000,000 in our state treasury this year for the education of all these children. But those thinkers are gone. Who's thinking for all the Texas children right NOW? That \$19,000,000

Yes, that 19 million dollars will be divided quite democratically. But it is not nearly enough to do all that our children of this day need to have done. But there are a few folks thinking still of all the children of Texas. In fact, there are more thinking in Texas today than ever before. And more than a hundred thousand of these thinkers are thinking about all the children of the state. But there are over fifty thousand who have organized themselves into a great body of mothers, fathers and teachers for the special purpose of thinking and working together for the welfare of every child in Texas. And the representatives of these 50,000 thinking, fathers and mothers and teachers held a meeting last week over in El Paso for the sole purpose of thinking and planning together for the good of every child in Texas. I sometimes wonder how many of the other three million fathers and mothers and big brothers and sisters in Texas ever take time to do much thinking for all the children.

**Best Generation Ever**  
Now some folks think the children of today are the awfulest little scoundrels the world ever produced. That's a terrible slander on our grandparents and ourselves. For we are the parents of this generation of children and the Good Book says, "By their fruits ye shall know them." If the children of today are not the greatest generation of children the world has ever known, why aren't they? Here is a lot of room for argument. Perhaps as parents, we have forgotten our greatest mission in this world. The greatest responsibility that ever overtook any man was that of becoming a father. How many men appreciate the fact? The greatest responsibility of any woman in this state is that of being a mother. How many of us appreciate this fact? How many of us, both men and women, be honest now, have made the welfare of our children our first concern in life? How many of us have ever felt any responsibility for the welfare and education of our neighbors' children? How many of us take any interest in the education of our renters' children? Are we willing to be taxed for a good school for the children on our farms when we have the means to send our own children somewhere else to school? Which would mean the least taxation on your farm, or bank or bonds in the end, school taxes NOW or more tax for asylums and a new penitentiary and a lot of other hopeless institutions a little later on?

The children of all Texas is the greatest asset in our State. Upon them depends the future. That future is just a few years in the distance. Are we, the three million adult citizens of this state using Texas in the very best way possible to prepare our two million children to fill our places more efficiently or are too many of us using Texas to gratify our own selfish ambitions regardless of the inalienable birth-

rights of our native-born children to life, liberty, liberty and the pursuit of happiness? What does the standard of our homes and our schools say? Don't blame the children. Remember whose they are.

#### CARD OF THANKS

We, the members of the Memphis fire department, wish to thank Mr. Foxhall for the donation made for our services during the fire at the oil mill the past week. It is not our intention to have the public feel indebted to us in a financial way, but each and every one of us are indeed grateful for this offering.

#### CARD OF THANKS

To the kind friends and neighbors who so willingly assisted us during the sickness and death of our beloved mother and wife, we wish to express our heartfelt thanks and, although such devoted friendship cannot remove the sad memories that linger around our vacant chair, it brings into view the brightest side of humanity, and throws a pure light of an unselfish friendship into the darkened home. May God bless you, is our prayer.  
H. H. CROWDER and Children.
