## WAR, WILL WRITE NOTES

From Carranza Conciliatory. Governments Will Exchange Notes. War Averted.

Washington, July 5.—The crisis between the United States and Mexico finally came to an end today as a friendly and conciliatory note from the de facto government was received by Secretary Lansing and promptly communicated to President Wilson.

The official statement of the attitude of the Carranza government must be the President's action but there is no doubt in the minds of officials here that the way has been opened for an amicable adjustment of the dispute between the two governments to the effect of war.

Secretary Lansing himself would not comment. He gave the impression, however, that General Carranza's suggestion that there is no question between the governments which cannot be readily adjusted by friendly negotiations meets with quick sympathy here. Secretaries are known to share President Wilson's desire that hostilities be avoided if there is any possibility of safeguarding American borders without a clash with the Carranza government.

## BUSINESS MEN IN CAVALRY TRAINING CAMP

The citizen soldiers now in training at the camp at Leon Springs, in Kerr county, include many business men from the cities, the mayor of Dallas is among the number.

## WHITE SOX VS. CLARENDON

Memphis Boys Win Both Games at Clarendon. Take Two Games From Turkey Boys.

The Memphis White Sox continue an almost uninterrupted series of victories. Of the twenty-two games played since the organization of the above named team nineteen have been won.

The two games at Clarendon were comparatively close the score for the first being 4 to 1 and 4 to 2 for the second.

Johnson's batting was a feature of these games and Lee's pitching a feature of the first, in which only one hit was recorded.

The first game at Turkey was won by a score of 13 to 3; but the second was not so easy. Eleven innings were required to decide this game the score being 4 to 3.

The boys left yesterday morning in cars for Canyon City expecting to play there yesterday afternoon but were delayed at Claude by a breakdown. Games will be played there today and tomorrow and, probably, with Amarillo Saturday.

The Canyon City team is said to be a fast one.

### Knights Templar Celebrate

The Memphis commandery Knight Templar the Fourth of July by conferring the order upon three candidates.

Numerous visitors from surrounding towns were present, among them being the following: Dr. W. R. Orr and R. H. Coker, sr., of Wellington; Dr. P. L. Vardy, Cross Handle and Rev. G. H. Bryant, of Estelline; Dr. A. L. Janson, J. R. Nelson and G. W. Helm, of Newlin; J. H. Fry, J. H. Young and J. E. Kelly.

### Fishing Notice

Those desiring to fish with hook and line in my lakes can now get permits at the Tomlinson Drug Store. No fishing without permits. Charge 50 cents each or \$1.00 for a family, each day or part thereof.

S. A. Bryant.

### Official Call for Meeting

On instructions from President O. Y. Williams I hereby issue call for annual meeting of the Colorado-to-Gulf Highway Association to convene at Raton, N. M., on August 3rd, 4th, and 5th, 1916.

At this meeting officers are to be elected for the ensuing year and such other matters will be considered as may properly come before the convention.

Each County on the line is entitled to one vote and it is important that every county should be represented.

Respectfully,  
A. W. READ, General Secretary and Treasurer.

### Quarterly Conference Sunday

Rev. A. W. Hall, Presiding Elder of Clarendon District, will preach at the Methodist church Sunday, July 9th, 1916. You are cordially invited to hear him.

### New Bridges for Collingsworth

The Collingsworth county commissioner's court met Monday of this week, and let the contract for the erection of two new bridges to Austin Brothers, of Dallas.

The bridges will be built across Salt creek and Deep creek on the Wellington-Memphis road and will cost \$2,450. The contract calls for the completion of the bridges by the 1st of August.—Leader.

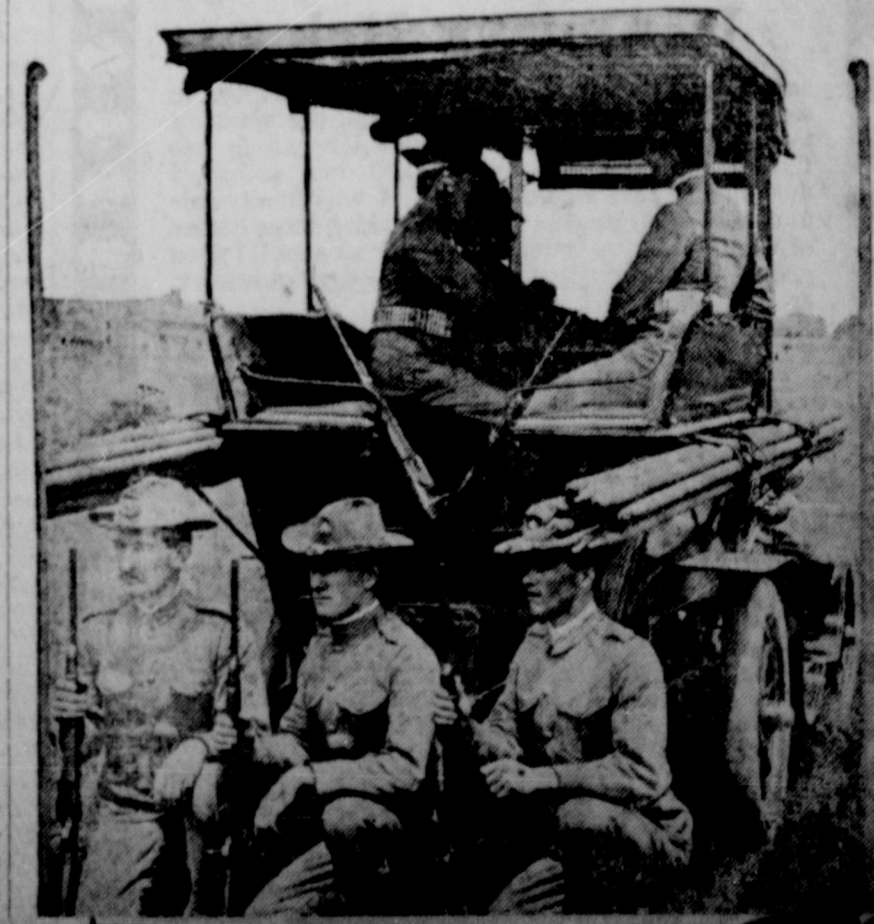

The Harrison-Clover Hardware Co are moving into the Craven Building formerly occupied by I. N. McCrary this week. This firm now has one of the best lighted and most commodious business houses in town. The new brick warehouse, added to the building is just being completed.

John Wilson, an employe of the Austin Bridge Company, was here this week arranging for the work of building the bridges on Deep creek and Salt creek, on the Memphis-Wellington road.

### Governor Ferguson at Amarillo

Amarillo, July 4.—Amarillo celebrated the Fourth of July with Governor Ferguson as the chief speaker of the day. He left out any discussion of the submission and statewide prohibition question. He took up in a straightforward manner the outstanding measures passed during his administration. Point by point he met all objections and criticisms. Ferguson leaders gathered from every plain town to hear the speech. In the introduction, J. D. Crudgington, representative from this county, said that he considered Governor Ferguson had met a most difficult situation and had given Texas the finest two years' business administration that the state had ever had.

County Surveyor S. S. Sullivan, of Childress, was here this week doing some surveying on the Browder ranch east of here.

### A Quiet Fourth

Memphis enjoyed a decidedly quiet Fourth this year. Many people from here and the surrounding country went to Clarendon and Amarillo, leaving the town almost deserted. Most of the business houses were closed and the day seemed more like Sunday than Independence Day.

### The "L. D." Y. P. at Mrs. Delaney's

Friday afternoon, June 30, 1916, the "Lillie Delaney" Young People met in regular business meeting at the home of Mrs. Delaney. After the devotional services and the reports of the officers, the new business was brought up, that the "L. D." Y. P. were invited to visit the Quana Young People's Society and render a program. The question of a camping trip on Rocking Chair Ranch for the girls was also discussed and plans were made for both trips with great enthusiasm.

The girls were then free to enjoy a social hour, during which we were served with delicious cream and cake. As the evening was drawing to a close we realized the time had arrived for saying good-bye to our hostess and co-workers until next time—so we parted.

### Riddle Withdraws

Dallas, July 4.—Declaring that his remaining in the race might complicate the success of some of the measures in which he is interested, George W. Riddle of this city announces his withdrawal as a candidate for United States senator.

### Davis-Hickey Debate

The debate held here yesterday between John Davis, candidate for the democratic nomination for United States senate and Thomas A. Hickey, editor of the Rebel and socialist nominee for the same office attracted a fair sized audience.

The discussion was held from the steps on the east side of the court house, the audience occupying the lawn.

Mr. Davis devoted the major part of his opening address to a statement of his candidacy and the discussion of his platform and a minor part to discussing socialism.

A sand-storm that came up soon after Mr. Hickey began his address drove away a portion of the crowd and interfered with the speaker.

The discussion was decidedly mild, and, doubtless, somewhat disappointing to some of the hearers who had expected something different.

Miss Mildred Johnson of Childress visited friends here Friday.

### Burglar Gets Jewelry.

A burglar entered the residence of Dr. W. C. Dickey last night, while the family were temporarily away from home, and stole several pieces of jewelry.

All pieces engraved with initials were left by the thief.

A liberal reward has been offered by Dr. Dickey for either the recovery of the jewelry or the conviction of the thief.

Access was gained to the house by cutting a screen.

### Many Memphians at Clarendon.

A big crowd of Memphis visitors attended the Fourth of July celebration at Clarendon Tuesday. Many went up on the train and it is estimated that at least 150 cars, carrying some 750 people made the trip during the day.

Several cars from Estelline, Newlin and Childress also came through here on their way to Clarendon.

### Farmer Kills Self

Last Sunday Undertaker Chas. B. Cook was called to Wellington to embalm the body of a Mr. Green, who lived near that place. The man's death occurred Sunday morning and was caused by a gunshot wound, supposed to have been accidentally received while crossing through a wire fence.

It is said that on Sunday morning Mr. Green started down into his farm to look at his crops and took his target rifle along for the purpose of killing rabbits. This was the last known of him until his dead body was found hanging to the wire.

When the mother got uneasy at her husband's prolonged absence she told one of the children to climb to an elevated place and look for its father. This it did and reported that he was seen at the wire fence. Later, another look disclosed him still at the same place, and the mother getting uneasy went down and found his dead body.

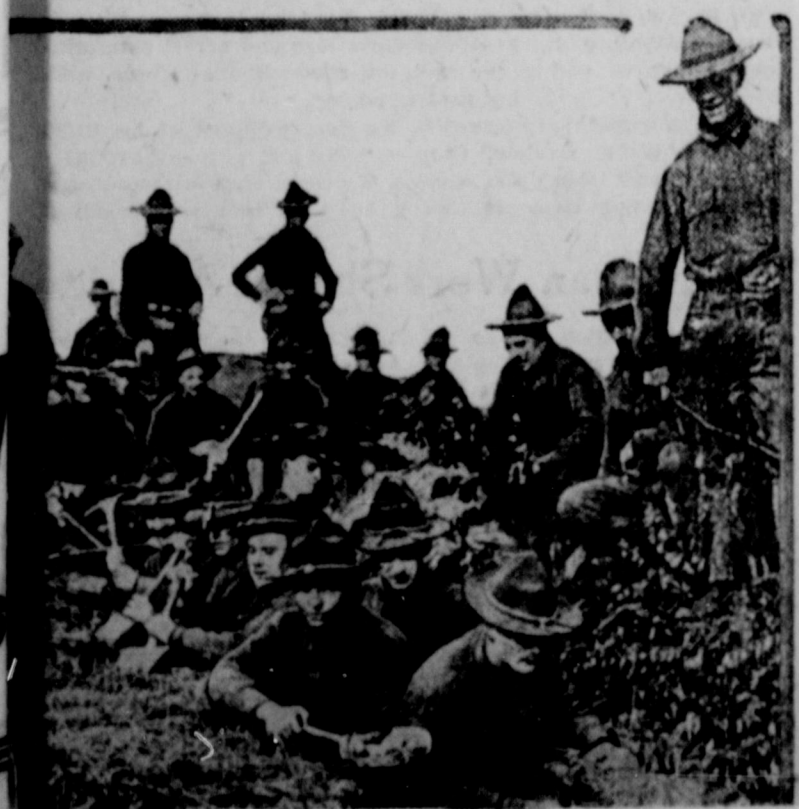

The bullet entered the back of his head and came out at the front, but just how it could have been fired will probably remain a mystery.—Childress Post.

### Special Election Notice

Pursuant to an order issued by the Commissioner's Court of Hall County Texas, at its June term 1916 notice is hereby given that a Special Election will be held on the 22nd day of July A. D. 1916, at the usual voting places in the several Election Precincts in Hall County, Texas, for the following purpose, viz: to determine whether there shall be annually levied, assessed and collected an additional road tax of and at the rate of fifteen cents on the one hundred dollars valuation of all taxable property within said county.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

**Horney Hands**

The entire stock in hand of some two or three political aspirants for high office in Texas seems to be that they spent the early years of their lives engaged in hard, manual labor. But they must remember that there are not offices enough to go around, and there are about 97 per cent of us who not only labored in our youth, but are still digging away, and they've got to show the voters of this great Commonwealth of her qualifications than that of corn-scarred hands if they want the proper hoist.—Hamilton Record.

The Amarillo News announced last Saturday that James E. Ferguson "candidate for United States senator," would address the voters at that place on Tuesday. The News is probably about two years ahead of time with this announcement.

Much has been said about the present high taxes by certain orators and writers who oppose Governor Ferguson for a second term to these he offers the following challenge:

"These critics of what I did or did not do are invited to name, to put a finger on even one item in the appropriations bill that, if in my place, they would have been disapproved and vetoed. Let them name just one measure or item they would not have stood for—commencing with what I did for education, for the asylums, for the just debts of the State, down to the end of the list. I await their verdict."

Printing is Shop Work.

It very often happens that merchants wait until they are using the last sheet of a piece of printing before they place an order for a new supply. Then they rush to a printer and want their work in a hurry, forgetting these simple facts:

That printing is shop work.

That it takes time to turn it out.

That there are nearly always other jobs in the shop ahead of him which have been promised at a certain time and which cannot very well be put aside.

That most printing, and especially that done on smooth, hard paper, should not be handled for at least twelve hours after the work is done in order to give the ink time to dry and prevent smearing.

That to expect the printing office to always be up on their work is absurd, since when we are without work for half a day, the profits for that time are gone. The merchant may be idle all the morning and in the afternoon sell enough goods to make an average day's profit. We cannot, for time is the main factor in our business, and time cannot be recalled. We must have work ahead

or run the risk of being idle and losing money.

And remember when you feel like saying you can get no service at the printing office, nine times in ten the fault is with you in that you fail to calculate the item of time. It requires time to do good printing, and that is the kind we wish to give you.—Motley County News.

College for West Texas

West Texas is demanding an agricultural and mechanical college and a splendid organization of citizen is behind the movement. Dr. P. C. Coleman of Colorado is president. Porter A. Whaley of Amarillo is vice-president, and Thomas F. Hodge of Sweetwater is secretary-treasurer. An executive committee is composed of A. W. Read of Memphis, J. A. Halley of Big Springs, Fred P. Woods of Abilene and Thomas F. Owen of San Angelo. A campaign of publicity has been inaugurated and this agricultural and mechanical college is asked as a measure of justice to West Texas.

Attention is directed to the main fact that there is a tremendous country in Texas about 400 miles long and 365 miles wide, populated by about one and one half million Texas people who are engaged in the occupation of farming which includes stock breeding and merchandising with a portion of professional people. All these people desire to see their children instructed in those things which are of practical value to them in their lives.

Absence of educational facilities in this territory is deplored by the promoters of this movement for a state college for West Texas. They say within all this vast territory inhabited by a great number of people there is absolutely no schools in which children may obtain instruction along the lines so valuable and beneficial to them. That statement they say should be all that is required to be said to emphasize the dire need for the establishment at once of this much needed institution.

Texas is nearly 1,000 miles across. It takes broad and traveled men to realize its immensity and to deal justly and in a broad way with all sections. The claim is made that much neglect and injustice suffered by the western part of the state at the hands of lawmakers of the central and eastern part of the state has been caused by the fact that citizens of those sections have not realized the immensity of this state or its value as a tax paying factor.

There is a way out of it; a way to obtain justice, a way to obtain wise legislation, a way to obtain laws which are not handicaps and servants of the people who are not blinded or narrowed.—Ft. Worth Record.

Stop That Wash

Millions of dollars are lost annually to Texas farmers through the washing away of the rich top soil by heavy rains. This loss can be prevented by a proper system of terraces. The construction of terraces is not difficult or expensive. County demonstration agents will teach farmers how to construct them. If interested in this subject, write to the Extension Service, College Station, Texas, for a copy of a new bulletin No. B-23, "Terracing in Texas" and call on your county demonstration agent for further help. This bulletin contains, also, direction for making homemade levels for terracing, and detailed plans of soil saving dams and other contrivances for filling gullies and stopping the waste of rich soil.

Save the Sweet Potato Crop.

If sweet Potatoes are sold at digging time the price will be low. If they are held until January, February or March the price will be much higher. A large percentage of potatoes held in old fashioned banks are unfit for market after a few months. The proper way to save sweet potatoes is to store them in potato curing houses. These houses are simple in construction and operation and are not very expensive. The Extension Service of the A. & M. College is prepared to furnish plans and specifications for such houses and will, in other ways, assist farmers in marketing their crop to advantage. If interested, write to Clarence Ousley, Director, College Station, Texas.

Miss Laura Menefee went to Clardon, Friday to attend the Fair.

TO THE VOTERS

Federal Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of \$100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employes, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employes for the settlement of the controversy is as follows:

- "Our conferences have demonstrated that we cannot harmonize our differences of opinion and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railways be disposed of by one or the other of the following methods:
- 1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its accumulated information bearing on railway conditions and its control of the revenue of the railways, is in a position to consider and protect the rights and equities of all the interests affected, and to provide additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or
- 2. By arbitration in accordance with the provisions of the Federal law" (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employes are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

- No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence.
- The rates the railroads may charge the public for transportation are now largely fixed by this Government board.
- Out of every dollar received by the railroads from the public nearly one-half is paid directly to the employes as wages; and the money to pay increased wages can come from no other source than the rates paid by the public.
- The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employes, the owners of the railroads, and the public.

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of \$100,000,000 a year to these employes, now highly paid and constituting only one-fifth of all the employes, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.
