

## STRICT RATIONING OF CANNED, PACKAGED FOODS EFFECTIVE MARCH 1

### Incentive Payments Offered Farmers for Reduction of Food

Production of food crops will mean thousands of dollars to Texas under the incentive program.

To obtain greater production vital to the war effort, the government is offering to Texas farmers as compensation for increased production of such crops as peanuts, grain sorghum and cotton.

### Cotton Total For Season Is 47,522 Bales

A total of 47,522 bales of cotton were ginned in Hall County prior to January 16, according to the Bureau of Census survey, as reported by J. Lee Rushing, special agent.

This represents 95 per cent or more of the 1943 crop, ginners and cotton men state. A few bales are still being brought to gins daily and the possibility exists that the final total for the season may exceed 50,000 bales.

Last year at this time the bale total was 42,677, which was increased to 47,444 for the season, according to the final report made by Rushing early in March. However, it is certain a larger proportion of the current crop has been gathered at this time than was the case last year.

### Funeral Services For Mrs. Tippett Conducted Friday

Resident of County for 22 Years Expires at Her Home After Illness of One Week

Last rites in memory of Mrs. Alice Emma Tippett, 64 years old, were conducted from the First Baptist Church Friday afternoon at 3:30 o'clock by Rev. Sid F. Martin, pastor. Burial was in the Mt. Bethel Cemetery near Gary, Panola County.

Pall bearers for the services here were Charles McBee, Jim Webster, Eldred Childress, Lafayette Pounds, Ed McMurry and Robert Duncan.

Mrs. Tippett died at her home, 811 South 6th Street, Thursday morning, January 28, at 11 o'clock, following a brief illness. She suffered a stroke of paralysis a week prior to her death.

She was born in Panola County, near Timpson, on January 6, 1879. (Continued on page five)

### Letters May Reach Prisoners of Japs

Persons in Hall County desiring to communicate with Americans known to be held by the Japanese as prisoners of war may now send short letters to prisoners through the American Red Cross.

Letters should be typewritten or printed in block capitals and kept to the shortest possible length, says E. N. Higgins, home service chairman of the Hall County chapter. These specifications were made by the Japanese and sent to the American Red Cross through the International Red Cross Committee in Geneva.

Information on how to address mail to prisoners is sent to the next of kin by the government with official notification of capture. Instructions also may be obtained from the Hall County Red Cross chapter or the Memphis post office.

### Book Review to Be Sponsored by Club

"The White Cliffs of Dover," by Alice Duer Miller, will be reviewed by Mrs. T. M. Harrison, under the auspices of the 1913 Study Club, at the First Methodist Church Tuesday evening, February 16, at 8 o'clock, it is announced.

The review will be given in a setting of organ music and the program will include incidental music of an appropriate character, according to the announcement.

### SECOND DRIVE OF RED CROSS OPENS MARCH 1

Chairman Reveals County's Quota for War Relief \$5,100

Ground work is now being laid for the second War Relief Campaign of the American Red Cross, according to E. E. Roberts, general chairman of the Hall County Chapter. The drive will be formally opened March 1, it is announced, and locally will be directed by Tommie M. Potts, chairman, O. V. Alexander and Floyd Springer, members of the drive committee.

Hall County's quota is \$5,100 for the campaign, which is designed to raise \$125,000,000 nationally. These funds will be used exclusively for war relief, and a part of the county quota will be retained for local war work, including the operation of the Red Cross production rooms and other necessary work in connection with members of the armed forces and their families.

The sum assigned to Hall County people is in line with quotas given other counties in this section, the county chairman stated. "Hall County raised the quota for the first War Relief Drive in fine shape and this money has been used effectively," he said, adding that he is confident the people will do their share in the coming campaign.

The money raised throughout the nation in the first campaign lasted 14 months and the good work accomplished with the funds is incalculable, Roberts declared.

Between now and the opening of the drive, the committee mentioned above will work out a countywide organization, with chairmen to direct in each community. Anyone who wishes to make a contribution before the drive opens may do so by contacting any member of the committee, or mailing the donation to Tommie M. Potts, chairman.

### Flames Destroy Davis Farm Home

The farm home of Tracy Davis, north of Lesley, was destroyed by fire last Sunday, along with all the household effects, clothing, keepsakes, etc.

Mr. Davis was planning to move to Memphis and his son was to move to the farm. While the son was working over the house Sunday, the house caught fire and everything went up in smoke.

"The move was made too quick and too disastously. We had lived so long at the place that it had become home to us, we lost a lot of things that no amount of money can replace, which we treasured very highly," Davis said.

### Infant's Funeral Held This Morning

Funeral rites for the infant son of Mr. and Mrs. Arthur H. House of Memphis were conducted at Fairview Cemetery this morning at 10:30 o'clock by Rev. Pete Love pastor of the Assembly of God Church. Interment was under the direction of King's Mortuary.

The baby died Wednesday about noon in a local hospital, after only 12 hours of life. He had not been named. Survivors, besides the parents, are grandparents, Mr. and Mrs. A. C. Miller of Memphis.

### Max King Aide to Shrine Potentate

Max King of Memphis has been appointed by Potentate Bill Gilstrap of Amarillo as his aide to represent Khiva Temple in Hall County for the year 1943.

Noble King says that Khiva Temple has planned a very active year. More emphasis than ever will be placed on treatment of crippled children.

**GETS RAISE** — Promotion of Robert L. Moss from the rank of corporal to that of sergeant has been announced by the commanding officer of the Air Depot Training Station at Will Rogers Field, Okla. Sergeant Moss, formerly a resident of Memphis, has been in the Army since March 15, 1942. He is a member of a service group and at present is on duty as a clerk.

### Funeral Services For Chas. Gilpin Conducted Friday

### Shotgun Death of Memphis Cotton Buyer Accidental, Verdict Given in Inquest

Funeral services for Charles Edward Gilpin, Jr., 34 years old were conducted at the residence, 1212 Dover St., Friday afternoon at 1:30 o'clock by Rev. E. L. Yeats, pastor.

Pall bearers were Bill Howard Leslie Foxhall, Gene Chamberlain, Carl Harrison, Ralph Howe and W. R. Antle of Vernon.

The body was taken overland to Ennis in a King's Mortuary funeral car and was interred beside the grave of his mother.

Mr. Gilpin was found dead at his home Thursday, January 28, about noon. He had returned the previous night from a visit in Dallas. Near the body was a 16-gauge shotgun, the charge form which struck him above the heart. He had apparently been dead since about 9 o'clock.

The verdict of a coroner's inquest conducted Thursday afternoon by Justice of the Peace Joe A. Merrick was "death from gunshot wound, accidentally inflicted."

Mr. Gilpin was a cotton buyer and had been a resident of Memphis about 11 years.

He is survived by his wife and one small step-daughter; his father, Charles Edward Gilpin, Sr., of Dallas; two sisters and one brother.

### Masons Will Meet Next Friday Night

A meeting of Memphis Lodge No. 729 will be held Friday night, it is announced by Lloyd Phillips, worshipful master. Both second and third degrees will be conferred.

All local and visiting Masons are urged to attend.

### BOY SCOUT WEEK WILL BE OBSERVED THROUGHOUT NATION FEBRUARY 6-12

Although no formal programs or other observance of Boy Scout Week, February 6 to 12, are planned locally, Scouts of the Memphis troop are well aware of the significance of the 33rd anniversary of the movement and dedicate themselves anew to the principles and precepts of Scoutcraft, Scoutmaster Jack Boone declared today.

"Toughen up! Buckle down! And carry on to Victory!" is the theme chosen for Boy Scout week, bringing home to Boy Scout throughout America the importance of preparing themselves mentally and morally and stepping up their efficiency in performing tasks which help to win the war.

The 33rd birthday of the Boy Scouts of America, officially designated at February 8, provides the rallying point for a drive to make every Scout a stronger, healthier, better citizen and, potentially, a better soldier should the war last long enough for him to serve.

Many boys now Boy Scouts will be in the armed forces before the (Continued on page five)

### MURDER CHARGE TO BE STUDIED BY GRAND JURY

Light Docket for Term of District Court February 15

The most important case to come up for the consideration of the grand jury of the 100th District Court, convening in Memphis Monday, January 15, will be that of Charley Warden, charged with murder and assault with intent to murder in connection with the shotgun death of his wife, Mrs. Nora V. Warden, and wounding of his daughter, Mary V. Warden. Mrs. Warden was instantly killed by two charges of birdshot fired from shotgun on January 4 at her farm home in the Buffalo Flat community. Mary Warden was seriously injured by shot striking her in the shoulder and arm.

Otherwise the docket for the court term is exceptionally light. Mrs. Isabell Cypert, district court clerk, said today.

The list of 16 names from which the grand jury will be chosen is announced as follows:

W. B. McQueen, R. E. Cooper, O. V. Alexander, R. N. Motherhead, Sam L. Smith, C. A. Hightower, E. W. Bell, Sr., H. C. Crawford, Alga Turner, W. C. Bray, Byron Baldwin, W. M. Cofer, A. Bailey, W. E. Wellman, B. E. Davenport and J. L. Barpes.

### Visiting Minister Urges Federation Christian Groups

Rev. Dennis of Brownfield Preaches at Local Church And Talks to Rotary Club

J. D. Dennis, minister of the Christian Church at Brownwood, preached at the First Christian Church of Memphis last Sunday.

Tuesday, he was guest speaker at Rotary Luncheon, and discussed the federation of all the church organizations of America in order that a united effort may be made during the post-war period.

"The churches of America should be in position to have a part in the peace council if Christianity is to wield an influence in the years to come," Dennis said. "We have the UNITED STATES, the UNITED NATIONS, and we should have UNITED churches of Christ."

Under the federation all church (Continued on page five)

### Blame Fixed in Train Collision

The Interstate Commerce Commission reported on January 28 at Washington, D. C., that a collision between the Fort Worth & Denver Railway passenger and freight trains near Carey on November 28 resulted because the freight train crew "forgot" the schedule of the passenger train.

Three persons were killed and 63 injured in the collision. The motor engine and lone coach of the passenger train were destroyed by fire.

**INSTRUCTOR** — Joe Wm. Hayes is drilling sailor recruits for life on the seas as instructor at Camp Bradford, Norfolk, Va. Son of W. C. Hayes of Memphis, he ranks as chief petty officer and has been in the Navy since March, 1942. He recently visited here with his father and sister, Agnes Hayes.

### Coffee Allowance For Next Period Reduced by OPA

Stamp No. 25 Good for One Pound February 8, But Must Be Stretched Over 6 Weeks

The Office of Price Administration Wednesday reduced the next coffee ration from one pound every six weeks to one pound every five weeks.

Stamp No. 25, the next coffee stamp in war ration book No. 1 becomes valid on February 8, and will be good for the purchase of one pound of coffee through midnight, March 21.

Stamp No. 28, valid since January 4, expires at midnight, February 7.

OPA said reduced coffee inventories in the hands of wholesalers and retailers made necessary the reduction in the next ration.

The agency said an increase in military requirements for shipping and the need of maintaining imports in strategic war materials were in part responsible for the reduced inventories for the next ration period.

### February War Bond Quota Is \$36,100

People of Hall County will be expected to purchase War Bonds and Stamps to the extent of \$36,100 during the month of February. This quota has been assigned by the Treasury Department, according to word received by C. T. Johnson, retail chairman of the Hall County War Savings Committee, from Frank Scofield, state War Bond administrator.

"I feel the citizens of your county will be interested in knowing the figure assigned to their county for the month of February and I am sure they will put forth every effort to over-subscribe this assigned quota," Scofield said in his letter.

### Tell and Hedley Win Cage Tourney

The Tell boys' and the Hedley girls' teams were first place winners in the annual Hedley invitation basketball tournament held last week-end, with ten teams participating. Schools represented were Lelia Lake, Northfield, Tell Lakeview, Clarendon, Goodnight and Hedley. The Army also entered a team.

An all-tournament boys' team was selected, consisting of the following plays: Hitt and LaFon, Lelia Lake; Brown, Goodnight; Smith and Nimmo, Tell; Gibson and Bownds, Lakeview; Plunk and Johnson, Hedley; Crawford Clarendon. No girls' team was chosen.

### RETAIL STOCKS WILL BE FROZEN ON FEBRUARY 20

Consumers to Get War Ration Book 2 Beginning Feb. 22

Public sale of canned fruits and vegetables will stop throughout the nation at midnight February 20 and will resume on a tightly rationed basis March 1.

These official dates for starting the drastic innovation in grocery shopping were announced Tuesday night by the Office of Price Administration at Washington. The order also applies to all frozen fruits and vegetables, dried fruits — (but not dried vegetables) — canned soups and canned baby foods.

Canned goods rationing has been under way for several months because of the quantities needed by armed forces and lend-lease operations. Many stores have for weeks limited customers to one or two cans of this or that.

The new ration system will be even more complicated than the controversial rationing of gasoline, oil and other products.

Canned goods rationing will, in fact, involve a dual currency system. Starting March 1, every time the housewife goes to the store for canned goods she will have to pay not only the usual money price, but also a value in coupon points.

For March, the first ration period, she will have 48 points for every member of the family to spend on rationed goods. She will have to budget herself on canned goods according to her family's likes and dislikes.

For instance, a medium can of peas may require 10 points while a can of spinach may only cost five points, and so on. She will be able to buy any kind of canned goods she chooses, as long as she stays within the family's point budget — and also has the money to pay for the cans, as usual.

The eight days between February 20 and March 1 will be used for two purposes.

Grocers will stock their stores, mark point values, on either cans or counters, train employees in the rationing method and make other preparations.

The public will use the period to line up at schools to get new ration books. This registration, to be handled by 1,500,000 volunteer clerks, will begin February 22 and run for six days.

Sometime during those eight days, also, OPA will announce what the point values of different cans, frozen packages, or dried fruit packs will be worth during March (values may change from month to month). To announce these values beforehand, officials said, might tempt the public to hoard those types of foods which will cost the most points.

### Joe Ground Hog Is Baffled by Weather Vagaries

If Joe Ground Hog, that weather-wise little marmot, wasn't bewildered by the weather of Tuesday, the day he is supposed to wake up and look around, the human inhabitants of the Memphis area certainly were.

The weather man apparently got his signals mixed, or else decided to pass out some samples of the various kinds of weather in store for folks in these parts.

Early morning of ground hog day was decidedly wintry, the sky overcast with leaden, low-hanging clouds. Early afternoon brought a typically brisk April shower lasting about five minutes. Later in the afternoon the skies cleared and sunshine of the May variety prevailed.

Anyway, if Joe Ground Hog stayed out long enough, he got a good look at his shadow, which is supposed to mean six weeks more of bad weather. But if Joe knows anything about Panhandle weather, he is indeed a wise little animal.

Hawaiian Islands January 13, 1943. I am the youngest boy in the camp here. There is one who is 22 and one 23 and the rest are from 32 to 45 years old.

R. W. Duke, son of Mr. and Mrs. W. T. Duke, writes from Hawaii, where he is stationed in the Naval Barracks at Pearl Harbor.

Dear Folks: We arrived O. K. and had a pretty nice trip over. Caps and Stud both had a good case of sea sickness, but it didn't bother me.

Impressions of a landlubber crossing the ocean for the first time and of a Yank landing in Africa are described in a letter from Sgt. Cecil W. Galloway to his mother, Mrs. E. J. Galloway, Route 1, Memphis.

Dear Mother: Since you received my last letter quite a few things have happened that have been quite interesting. Guess you can readily see by my address that I have left the States.

Pvt. Joel Adcock, son of Mr. and Mrs. J. A. Adcock of Memphis, has landed on an island in the South Pacific and is much impressed with the strange tropical vegetation.

Visited the nearest native city yesterday afternoon and found it to be about the same as our own in the way of buildings, commodities and general structure.

The boat ride across the Atlantic was also interesting and quite a novel experience, but of which I hope there will only be one more—the return trip.

Had quite a silly feeling one morning on deck during exercises. Just as I was taking a deep breath during the breathing exercise, they fired one of the guns on the ship.

**METHODIST NEWS NOTES**

E. L. YEATS, Pastor  
The first Friday in Lent—March 12—is being generally observed throughout the Christian world as the "World Day of Prayer."

The theme of special prayer and addresses this year is "Father, I pray that they may all be one." The first observance of this day dates back to 1887 in the United States. Since that time it has spread to more than fifty of the major countries and nations of every continent. In the United States its observance is principally promoted by the United Council of Church Women, 156 Fifth Avenue, New York, N. Y.

and was married to D. E. Tippett in 1896. She had been a resident of Hall County for more than 30 years. A member of the Baptist Church since girlhood, she became affiliated with the local church August 18, 1914, and was a loyal and active member until the time of her death.

Mrs. Tippett was loved for her neighborly qualities. She missed no opportunity of doing a kindness and was always ready to help in case of sickness or trouble.

Surviving are her husband and one daughter, Mrs. L. E. Hilmyer of Shreveport, La.; two sisters, Mrs. D. Witcher of Henderson and Mrs. Odée Walling of Pomona Calif.; four brothers, Monroe Pike of Henderson, Emmet Pike of Shreveport, La., Hardie Pike of Colorado, Texas, C. C. conflict ends. The theme of Boy Scout Week emphasizes Scout activities, such as camping and hiking, which develop stamina and self-reliance. Emphasis is given such aspects as stalking, tracking observation, signaling, compass and map work and others which teach the Scout to take care of himself in the wilderness or under primitive conditions.

Toughening moral fibre is as important to Scouting as developing healthier bodies and alert minds. Provision is made for this through special dedication to the task of developing character strong enough to meet the severe tests of war days.

The "Buckle Down!" part of the wartime theme initiated during Boy Scout Week is directed toward all-out participation in community service activities which contribute to Victory, such as salvage projects, Civilian Defense and Emergency service, selling War Bonds and Stamps, dispatch bearer service, food production and conservation, which includes fire prevention, tree planting and preventing soil erosion.

**Retail Stocks—**  
(Continued from page 1)

Point values will vary according to the sizes of cans or packages, and also according to the relative scarcity of the particular types of fruit or vegetables. These variations will be somewhat similar to the variations in money prices. Large cans will cost more points than small cans. Peas and corn will cost more points than tomatoes.

The first duty of householders will be to take an inventory of their pantries Sunday morning, February 21. OPA suggested householders lay out on a table all the foods which will be on the March 1 ration list. From this lay out they should take away without counting any cans containing less than eight ounces—these are mostly small size baby foods. Then they should take away five cans for every person in the family, regardless of age. The number of cans or packages left over is the number which will have to be reported when some representative of the family goes to get the family's new ration books.

This pantry counter will pay no attention to any home canned goods, nor to unrationed articles, such as jellies and olives and potato salad.

The rationing clerk will want one other piece of information—the amount of coffee the family had on hand last November 28, when coffee rationing started. Those who last November 28 had more than one pound of coffee for every adult in the family will have some coffee stamps removed from their sugar-coffee ration books.

Similarly, those families which had any cans or packages left over in their count of the pantry shelves February 21—in other words, had more than five cans per person—will have one eight-point stamp removed from ration book No. 2 for each of these excess cans. This deduction, officials said, will discourage hoarding, but at the same time will provide a means of allowing persons in isolated areas to stock up and still be charged coupons for their stocks, so that they will not have any advantage over other housekeepers.

Retail stores will have to take inventories of their stocks of rationed merchandise as of the beginning date of rationing and also March 31, and thus be able to report to OPA on their first month of operation under the system and also to provide a basis for an authorization of how much inventory each store will be allowed to carry.

Restaurants, hotels, hospitals and other institutional users of canned goods will apply for special rations during the first ten days of March. Tentatively, OPA will not require the public to use their coupons when eating at such places, however.

**RATIONING At-a-Glance**

**RATION BOOKS**  
War Ration Book No. 1—Used for sugar and coffee, will be required to obtain Book No. 2.  
War Ration Book No. 2—To be issued soon, will provide for rationing on a "point system."  
Mileage Ration Books—Books A, B and C used for passenger car gasoline; E and R books for non-highway uses; D, for motorcycles; T for trucks and commercial vehicles.

**Rationed Food Commodities**  
Sugar—Stamp No. 11 in Book No. 1 good for 3 pounds until midnight March 15, 1943.  
Coffee—Stamp No. 28 in Book No. 1 (for those 15 or older on the date the book was issued) good for 1 pound until midnight Feb. 7, 1943.  
Meat—Voluntary share-the-meat program sets limit at 2 1-2 pounds per person per week. Meat will be rationed under the "point system" after Book No. 2 is distributed.

**Mileage Rationing**  
Gasoline—Value of each coupon in A, B and C books is 4 gallons. Second 8 coupons in A book are good until midnight March 21, 1943. Those who think they are eligible for supplemental rations should see their local ration board.

**Tire Inspection**—All A book holders must have first official tire inspections by March 31, 1943. Subsequent inspections for A book holders will be once every six months. B and C book holders and owners of bulk coupons for fleets must have first official tire inspection by February 28, 1943. Subsequent inspections for B book holders will be once every four months. Subsequent inspections for C book holders will be once in every three months. T ration book holders must have first official tire inspections by Feb. 28, 1943. Subsequent inspections for T book holders will be once every 60 days, or every 5,000 miles, whichever comes first.

**Tires**—If official tire inspector recommends a tire replacement or recap, apply to local ration board for tire or recap ration certificate. Tires and recaps will be rationed to all on the basis of tire inspections and county quotas available, with most essential mileage to come first.

### SCOUTS ARE SERVING

IN 1918, the Boy Scout movement in America was only eight years old. Next week—which will be Boy Scout Week—it will be 33. The important difference to the Nation at war is apparent when one realizes that in Uncle Sam's great army, 25 per cent of the selectees are former Boy Scouts. The percentage is still higher in the enlisted brackets—and more than two-thirds of the professional military leaders who attended West Point or Annapolis were Scouts in their boyhood years.

The Boy Scouts of America is not a military organization. The ideals for which it stands are the antithesis of militarism. But Scout training produces men—men of character and decency, men who cooperate for the common good, men who have known freedom in the fields and on the waters. Discipline and devotion are not new to them, and initiative is at the core of their being.

Colin Kelly was a Scout. So were John James Powers, John Bulkeley and "Butch" O'Hare. Scouting's roll of honor lists countless more. "Be Prepared!" was their motto, when they were Scouts. We honor them, and their example, when we share with today's Boy Scouts another birthday of their organization. May it live long and wax mightily, for the good of us all!

Excerpts from the Official OEM Bulletin

### Ration Banking Begins

Some 3,000 commercial banks in Texas, Oklahoma, Louisiana, Missouri, Kansas and Arkansas undertook a new war job last week, when OPA's national plan for ration banking went into operation in the Southwest OPA region. Ration banking is designed to take a great burden off the shoulders of local war price and ration boards and to simplify the handling of ration stamps for retailers and wholesalers of sugar and coffee. Coffee roasters, primary distributors of sugar, wholesalers of coffee and sugar, retailers of coffee and sugar who own more than one store, and retailers whose gross food sales in December, 1942, were \$5000 or over, are required to open ration bank accounts. Other food retailers may open accounts for their own convenience.

### Theft of Ration Stamp is Federal Offense

Prompted by reports from the north and east of thefts of food and gasoline ration books, OPA enforcement officials in the Southwest region office at Dallas warned that theft of or possession of stolen ration stamps or paper is a federal offense. Such an offense is punishable by 10 years in a federal penitentiary or a \$10,000 fine, or both.

### Region War Labor Board Organizes

Under a decentralization program announced recently by WLB a regional War Labor Board will be set up shortly at Dallas, with Floyd McGown, WLB regional director, as chairman. Organization of a disputes section, as part of the regional board, already is under way. Under the decentralization program, WLB will have two chief functions, to settle disputes where U. S. conciliators have failed to obtain an agreement, and to make final decisions on wage stabilization questions. The region WLB office has been functioning as a wage stabilization agency for two months.

### OPA Urges Capacity Loading

Warning that ODT regulations require capacity loading of trucks by all over-the-road carriers, Jno. C. Massenburg, regional manager ODT motor transport division urged operators to make every effort to cut out waste mileage, such as empty trips. ODT joint information offices have already been set up by the carriers themselves in Dallas, Fort Worth, San Antonio, Houston, Lubbock, Amarillo, Muskogee, Okla. and New Orleans, La. Common carriers register empty or partially loaded trucks in the joint information offices and report property awaiting shipment for which transportation is desired. Where information offices have not been set up, carriers must inquire among other carriers before continuing a trip with an empty or partially loaded truck.

THESE AUSTRALIANS, photographed in 100 yards of Japanese positions in New Guinea, are coming out of the lines for a rest. Australian and U. S. troops have driven the Japs out of most of New Guinea. Their next job may be to protect Timor or New Britain, strategic islands northwest of Australia.

### On the Home Front . . . .

## HOW POINT RATIONING WILL WORK

With time drawing near for beginning of point rationing, the government is anxious that Americans on the Home Front not only understand the mechanics of the program, but also understand the reasons behind the plan. Consumers can make or break the program, depending on their attitude toward the idea of share-and-share-alike.

Here are the golden rules of food rationing:

1. Share your food with fighters protecting your home.
2. Don't hoard anything. Accept rationing cheerfully—help make it work.
3. Learn to use your ration book right. Use the 8 and 5 point stamps in settlement when possible, reserving the 1 and 2 point stamps for low-point articles. Your storekeeper cannot give you "change" in stamps.
4. Use your point stamps wisely—don't run short of stamps by buying "high point" foods where "low point" foods will do. Buy only what you need.
5. Plan your family's diet carefully—plan menus ahead for a week or month—see that everyone gets enough nourishment.
6. Eat fresh fruits and vegetables instead of canned, bottled or frozen. Use the more plentiful non-rationed foods whenever you can.
7. Lighten congestion in the stores—shorten the waiting line at the cash register by shopping early in the day and early in the week.
8. Don't complain if your favorite food is all gone. Select your next best choice and enjoy it. This is war.
9. Plant a Victory garden—all you can care for.
10. Do all the home canning possible, according to your family's needs.

Our fighters must go into battle well-fed and strong. We must share our food with those who are fighting and dying for us. Food must be set aside for future offensives and as an invasion weapon ready to go with our troops. What we are doing without now may mean victory on some battle front.

It is true that Americans at home will have less than they would like to have of the "fighting foods" that must be shipped to the fighters—canned foods, meats, milk, eggs, fats, and oil. But we should not worry about the impact of rationing. We will get enough to eat. But we will have less variety and choice in our foods—particularly less of the processed fighting foods that can be canned, dried and concentrated for easy shipment of the war fronts.

Food has gone to war. American soldiers in North Africa cannot fight and win on a diet of figs and dates. Fish and chips cannot give English factory workers the strength they need to make bombs for German factories. The liberated peoples will not be able to take part in an Allied victory on black bread and water. Hitler has made the conquered people his servants by taking their food from them. We can make them a liberated and fighting people by giving food to them.

The form in which foods will reach the civilian consumer this

SELECTED FROM THE DEMOCRAT'S EXCHANGES

#### Big News Break

The press and radio scored again by keeping a secret of the President's trip to Africa. The pathetic part, however, was that they almost killed the newsbreak by being too anxious. Had it been possible for the press and radio to have kept entirely quiet, the news would have been more breath-taking and better received. As it was, the services were so eager that they played up the break until many people actually thought the announcement would be that Germany had asked for peace, or that Turkey was entering the war with the United Nations.

Many citizens couldn't help feeling just a bit let down, for the average man and woman didn't get the real significance of the meeting.

Don't blame the press and radio, though. It was a whale of a secret and a secret is the hardest thing in the world to keep. Haven't you ever known something you shouldn't tell and kinda said to people, "Gee, I know something good, but I can't tell it yet." All in all the press and radio did a splendid job and should be highly recommended.—Dick Cooke in The Clarendon News.

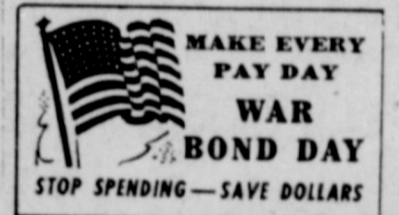

#### No Leaks

One of the biggest news stories ever printed, that of the Roosevelt-Churchill visit in Africa, was in possession of this country's newspapers by mid-morning of last Monday (January 25) about 36 hours before it was released for publication. About two weeks earlier newspapermen knew that the President had left Washington, the information being given out in such a way as to make it appear that he was on another trip of inspection of war industries. But they were not prepared for the advance announcement that came Monday. There may have been some leaks, here and there, but the news, when it was given to the public, was practically a 100 per cent surprise.

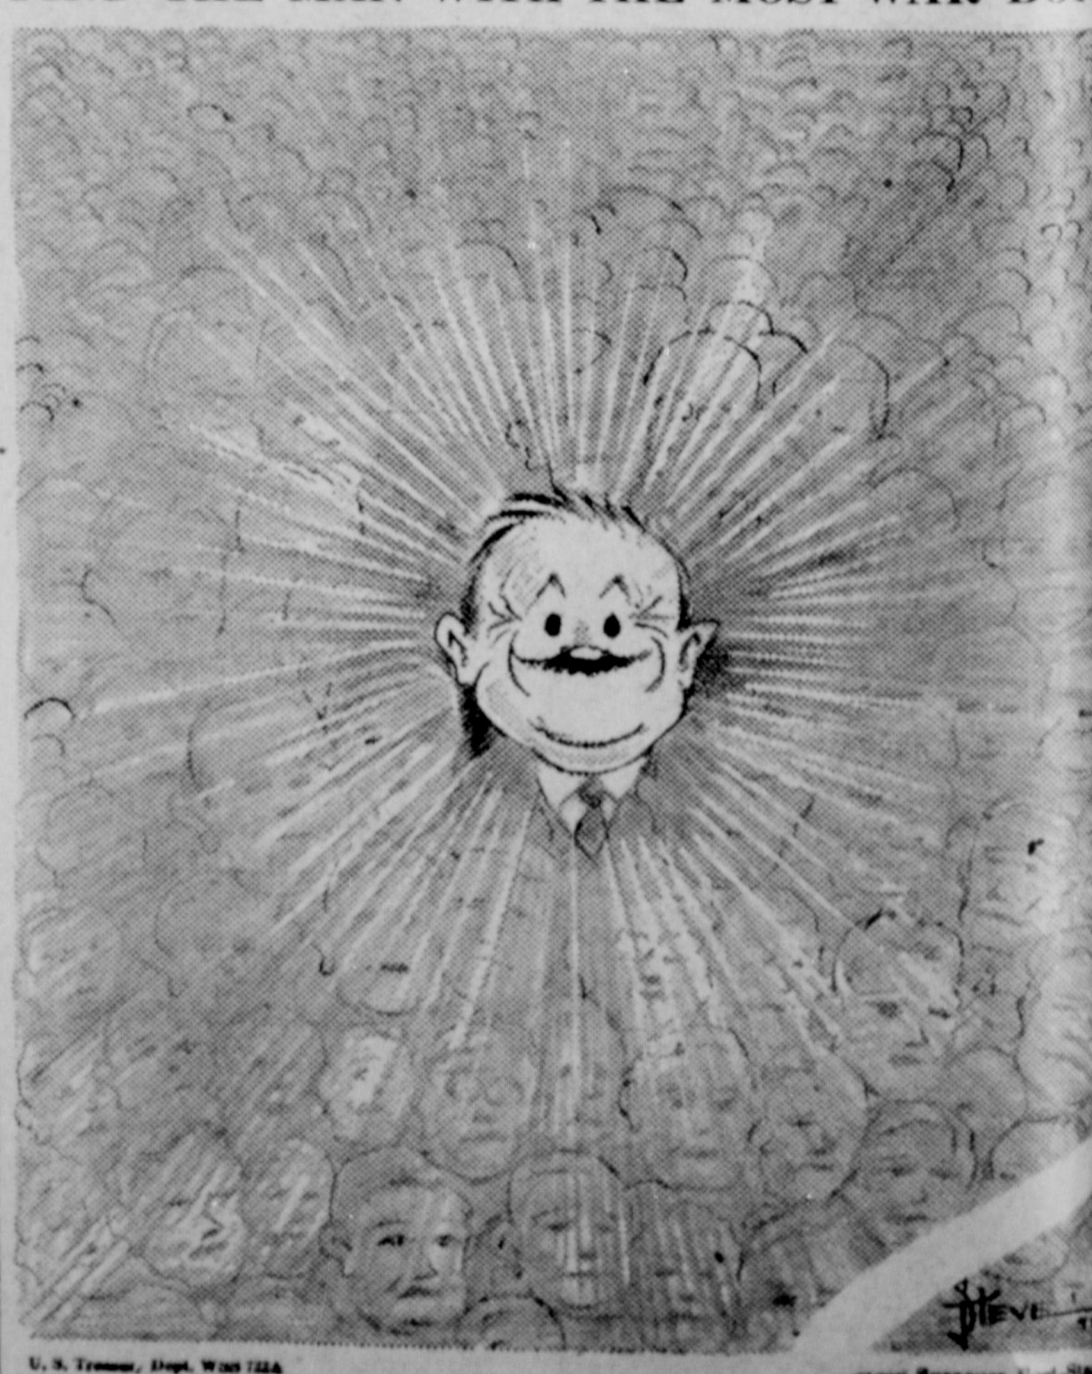

When it became known that an important announcement was to be made Tuesday night, there was a good deal of guessing. A favorite guess was that Italy had held peace talks and was suing for peace. That story will appear, in due time.—John Gould in The Wichita Falls Times.

point stamp for each can held in the family unit in excess of five cans per person will be made equally from all ration books in the family groups. Thus each book will retain at least one-half of its original points for each ration period, enabling the holder to provide food variety to meet dietary requirements.

Under point rationing, which is scheduled to get under way around the first of March, each consumer will be allowed 5 cans of the processed foods. Only cans of eight ounces and over will be counted. Home-canned foods will not be counted. Deduction of an eight-

### Aged Get Checks Averaging \$20.31

Old Age Assistance checks were mailed this month to 183,292 old people receiving an average check of \$20.31. The rolls made a net increase of 809 during December. Needy aged added to the rolls numbered 2,260. Those who were dropped from the rolls included 223 who were removed because of death and 528 removed because they were no longer in need or because they failed to meet other eligibility requirements. Payments will total \$3,722,438 from state and federal funds.

Proration cuts each recipient's check \$1 below his authorized grant. The average check would be \$21.31 if sufficient funds were available. The average grant, as well as the number on the rolls, continues to increase as cases are reinvestigated and grants are adjusted to increased costs of living. In December the average check received was \$20.06, twenty-five cents less than the current month.

Reorganization of the Aid to Dependent Children program made it possible to discontinue the \$10 cut formerly in effect in all grants and prevented the necessity of making another cut as the rolls increased. In September, a year after the beginning of the program, the \$1,500,000 annual state income for the assistance became inadequate to pay grants in full to all children on the rolls.

Aid to the Needy Blind is the only one of the three social security assistance programs which has not yet become subject to proration. However, for several months payments have been in excess of monthly income. January payments will total \$95,666, compared with the monthly maximum income of \$66,666. The difference is made possible by money accumulated in the fund during previous months when rolls were smaller. The number of blind recipients increased from 4,000 in December to 4,100 in January. Checks this month will average \$23.30, an increase of eleven cents over the December average.

### Junk Automobiles Urgently Needed By Steel Plants

#### Every 10 Jalopies Furnish Scrap Metal Necessary for Building One Medium Tank

Junked automobiles during 1942 furnished about half of the scrap metal leaving Texas for the steel mills, but the inventory of jalopies is now at low ebb of a 15 1/2-day supply, Thomas L. Mullican, Texas chief of the WPB scrap processors' section, said at Dallas this week.

From the high month of July when 37,132 tons of junked cars were shipped from Texas, the shipments of December declined to 11,800 tons.

In making scrap metal available to war plants for 1943, Mullican asked every car owner to classify his vehicle. It is either a transportation unit or junk. The definition which governs the scrapping of jalopies is this: "Any auto which is economically repaired and placed in service as a needed unit of transportation, must be immediately disposed of as scrap."

Mullican invited citizens and civic leaders as well as peace officers to survey every vacant lot, every farm, every garage and every road or lane where wreckable and abandoned autos can be found. "Every ten junked autos furnish the scrap necessary to build a medium tank," Mullican said, "and every citizen must assist the War Production Board in getting jalopies into the auto graveyards so they can be dismantled and shipped to the mills to provide material for war equipment."

Jalopies are worth the price of the secondary metals, less demolition, handling and transportation costs, which is from \$7.50 to \$15 each, Mullican said. Three-fourths of a ton of scrap metal can be reclaimed from every car and this metal is now being used to make tanks, guns, planes and ships.

### INTAKE, CERTIFICATION PROGRAM OF WELFARE DEPARTMENT TO END

The State Department of Public Welfare at Austin announced recently that the intake and certification program, which has functioned through cooperative agreements between the department and the commissioners courts of Texas, will be closed effective March 1, 1943. "The closing action results from the fact that the major functions of the program have now been eliminated by wartime changes," J. S. Murchison, executive director, explained.

The intake and certification division employs 255 junior field workers, 12 field work supervisors, and 10 clerical persons. In addition, the various counties are employing approximately 110 clerical workers. The employment of this staff will be terminated by the closing.

Murchison pointed out that the principal duties of the intake and certification division when set up had been the referring of applicants for Works Project Administration and Civilian Conservation Corps employment and the certifying of needy persons for food stamps and surplus commodities. CCC has been discontinued. WPA is being liquidated, the food stamp program is being abandoned and surplus commodities have decreased to such an extent that they contribute very little to the families remaining on the greatly reduced rolls, it was said. "The department is taking this action in the conviction that any sound welfare program must accomplish results commensurate with the administrative expense being incurred," Murchison stated.

Murchison expressed the opinion that the closing of the intake and certification program should not affect or change the present school lunch program which serves the school children of Texas. The State Department will continue to certify schools eligible to participate in the program.

Some food may continue to be available under the Federal food program in certain regions, but the Welfare Department will no longer certify families eligible to participate.

Employees in the intake and certification division of the Welfare Department have also investigated deferment claims for the Selective Service Boards when so requested by local boards, and distributed funds for counties cities, or private agencies in the smaller counties when so requested by local officials.

The number of needy families being aided through the distribu-

tion of food received from the Federal Government has dropped from month to month and most of the needy families now being aided are unemployable, sick or disabled cannot be properly cared for by the present food program, according to Murchison. "The burden of care for needy individuals and families who cannot qualify under one of the social security programs will have to fall upon local agencies," he said.

Detailed instructions on the closing of the program are being sent to the welfare field staff today and all county courts will receive official notice of the closing action within a few days, the department's announcement stated.

### That Nagging Backache

#### May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

## Every WOMAN Should Study The Art of VICTORY COOKING

WHAT is victory cooking? It's a smart, clever kind of cookery that goes hand in hand with point rationing and still keeps the family happy and properly nourished.

One method of victory cooking is broiling. Suppose that you plan on having a steak, chops, ground meat or liver for dinner tonight. By broiling it you will not only turn it out delicious and appetizing, but you will also retain its valuable vitamins so necessary to good health.

Take liver, for instance: To broil liver your broiler temperature should be at the maximum—550° F. Try the recipe given below and see what a delicious, appetizing food broiled liver can be.

And, as soon as possible, stop by our office and obtain your free copies of Home Volunteer nutrition and meal-planning booklets. They will help you with today's food problems.

## CIVILIAN DEFENSE AUXILIARY NOTES

By INEZ BAKER  
And who have we today? None other than Mrs. C. Z. Stidham, formerly of Memphis, who is now making parachute packs in Manchester, Conn. Mrs. Stidham has one son in the service and a grandson who will register this year. We quote a part of her personal letter to our reporter:

"Yes, I do defense work. One week I go to work at 3 p. m. and work until 11 p. m. The next week I go at 6:30 a. m. and work until 3 p. m. I know what it means to stand and hold to the rod on the bus, for they are so crowded seats are not to be had only once in a while.

"I am working on parachute packs. The material is spun and woven here and the parachutes are also made here. The army pack has 46 different operations. I can and do work at different times on four of these operations. We make three different type packs. The army, navy and marine. In my room there are 200 power machines and we have two shifts a day. It takes 500 girls to do this work.

"Two thousand girls are working at both the parachute and pack and they are begging for more. Any one can get work here who is an American citizen—if you can find a place to put your weary head.

"I was asked to see my operation on a special order while both the army and navy inspectors looked on. Of course I was nervous and proud, too, for my work was considered the best of any of the girls doing this operation. Every one is called girl, even me. I was given a pin with the letter 'E' on it by the navy and army secretaries of Washington, D. C., for my excellent work, which I am very proud to own. Last week the timekeeper came to me and said he had gone over my records and inspected all my work, and he wanted to sit beside me for one hour and time me. That a new price would be based on my time and speed. And that was nice for me too. My average per day is 840 times in 8 hours that I put my operation under my pressfoot, sew and remove my work, plus the times my bobbin runs out. Of course our bobbins are filled as we sew.

"I like the girls, or women, for they most all have boys in this war and they are nice to me. I like the work because I am kept busy all the time and it keeps me from thinking of myself.

"My health is much better than when I was there. Tell all my friends hello. So many of our old time folks have passed away, that Memphis will never be the same again. Write when you have the time and love to everybody.

Mrs. C. Z. Stidham.  
And a very welcome letter from our own Aux. Zady Belle Walker, daughter of Mr. and Mrs. E. E. Walker of Memphis.

Des Moines, Iowa  
January 30, 1943  
Dear Mrs. Baker:  
The army didn't give me time to write any first impressions, but I assure you they were confusing. Now after two weeks we feel like veterans. That's due to the fact that a new basic company has just moved in and we feel so superior.

We arrived in Des Moines on Wednesday, January 13, were met at the station by WAAC sergeants, and were transported to the processing center at the post. Then started the "fall out" and "fall in" that haunted even our dreams for days. We were issued uniforms, given aptitude tests, given necessary shots, and stumbled through drill practice. That's understandable when one realizes that a snow storm was raging and we were hampered by enlisted men's overcoats. These were issued to us while alterations were being done to ours. The hearty laughs we had at the peculiar sights were good for us.

We didn't have time to see much of Fort Des Moines for we

Saturday we were moved downtown to the Savery Hotel which became a WAAC training center. That was certainly a lucky break for us. We are the first basic group to be trained away from the post. Classes are held in a building four blocks away, and drill is held in the Coliseum only three blocks away. Hence we aren't out in the weather so much.

The Rangerettes are all in 1st Company, 2nd Regiment. However, the platoon grouping has separated. I have made friendships that I shall treasure always. Separations at the end of this basic training are really going to be hard to take. Don't get the idea that we're living a life of ease in the lap of luxury. But its such a proud feeling to wear the uniform of our country.

We are up at 6 a. m., and are very busy until lights go off at 9:30 p. m. I haven't seen a bed check yet, but I hear it takes place at 10:45. I'm always sound asleep. Our officers are wonderful individuals. They expect a lot from us and we have the feeling that we can't fail them. We paraded for the first time this morning. Jacques and I were in the 1st platoon which won in the 1st company. We were so happy, but in the finals 7th company won. But there'll be another Saturday.

I could write a book on what I have seen, heard and done, but time does not permit. Greetings to all my friends. I'd love letters. The address is: Aux. Zady Belle Walker, WAAC, Hotel Savery Bldg., Des Moines, Iowa.

Sincerely,  
Zady Belle.

And work must go on at home. We are happy to state that Red Cross production is going forward rapidly. The quota for sewed garments for the current year ending June 30, has been finished. Also the knitting quota. But extra calls are coming in. Twenty-five pounds of yarn is in the rooms and 50 pounds more on the way. This is to be used for helmets, gloves and watch caps, and they are rush orders. Do not feel that work is going to run out for extra, urgent calls are coming every day. Hospital articles are still badly needed.

Hall County women have done a fine job and turned out high class work. But we must continue to be careful and do the work in such a manner that it will measure up to the Red Cross standard. Also if any one has unfinished garments please hurry them in as headquarters is calling for them.
