## Meat Rationing Holds Spotlight As Point Values Are Named

Point values that consumers will pay beginning next Monday morning, March 29, for meats, cheeses, fats and oils, and canned fish under the new and larger wartime food rationing program were released Wednesday by the OPA.

Examination of the "official table of consumer point values" which ever seller of the newly rationed foods will be required to display in his store, discloses that meats-fats rations are relatively more liberal than the rations of processed foods.

- (bone in) brisket, neck, heel or round and shank—when boneless. Beef livers and tongues. Veal shoulder chops and veal rump and sirloin roasts (bone in), leg and shoulder roasts of veal (bone in), boneless breast and neck of veal; ground veal in patties, veal sweetbreads and tongues. Leg and shoulder of lamb and lamb sirloin roasts (bone in) boneless neck of lamb, lamb patties and lamb tongues. Pork bellies, fresh and cured only; pork shoulder (shank half-bone in); pork tongues. Ready-to-eat spareribs. Meat spreads in tin and glass containers and pork tongues in tin and glass containers. Salad and cooking oils (1 pt. Five Points Per Pound)

Blue Ration Stamps Blue stamps D, E, and F in War Ration Book Two, totaling 48 points, will be good from March 25 through April 30. Stamps A, B and C, will be valid only through March 31. Consequently, between March 25 and March 31, blue stamps A through F may be used to buy rationed canned foods.

L. J. McBee, cook 3rd class, station-kingston, Wash., was assigned to Waples-Platt-holesale house here before being transferred to Bremerton station, Kingston, his brother, Delbert, is in the 1st AS at San Diego. Sons, Bill and Mrs. Charlie McBee are in Memphis.

V. G. Byars, Jr., son of Mr. and Mrs. V. G. Byars of Lakeview, volunteered August, 1941. First stationed at Houston, trained at New Orleans for past three months, then in Connecticut, and now is back in Houston.

- Eight Points Per Pound—Porterhouse (T-bone) steak sirloin steak, round steak and flank steak. Standing rib roast, 7 in cut. Veal loin chops, veal cutlets and calf liver. Loin lamb chops, boneless lamb shoulder. Center cut pork chops and roasts, fresh or cured sliced ham, boneless picnics, and boneless butts. Ready-to-eat tongues and boneless picnics. Bacon, rind off, by the piece or sliced. Semi-dry sausage (such as soft salami, thuringer and mortadella) Butters. Cheeses—cheddar (American) swiss, brick, limburger, edam smoked, etc. Seven Points Per Pound Standing rib roasts and steaks (10 in. cuts), boneless chuck or shoulder. Veal rib chops and veal sirloin. Lamb rib, leg and shoulder chops. Pork loin end and shoulder chops and steak, whole or half pork loins, whole or half hams (fresh or smoked), and boston butts (bone in). Bouillon cubes, beef extract and all other meat extracts and concentrates. Bacon, rind on, by the slab or piece. Pork sausage, weiners, bologna, and liver sausage.

The weekly allotment of 16 points per person, represented by red stamps in War Ration Book Two, compares with an average weekly allotment of 12 points of processed foods. Almost all popular meat cuts have point values of eight points a pound and less. Butter is assigned a value of eight points a pound and a similar value is given to all of the rationed cheeses. All canned fish is valued at seven points a pound. A list of the principal items on the official consumer point table in terms of points per pound follows:

Plenty of metal closures and rubber jar rings will be available for American housewives who will be doing an increased amount of canning this year. The War Production Board has removed all quota restrictions on the manufacturing of certain types of metal lids used to seal jars. Prohibition of the use of zinc is continued.

Deferment Appeals Handled Locally All appeals involving claims for occupational deferment are now handled by the Selective Service Board of Appeals in the area of the worker's employment. Formerly these appeals were handled in the area in which the worker was registered.

## EASTER SUNRISE SERVICE PLANS NOW UNDERWAY

Those in charge of the Sunrise Easter Service this year are finding it much easier to work up the program due to the success of last year's service and the deep appreciation felt by the people for the service. The Rotary Club is again sponsoring the service.

## Atalantean Club Has Book Review At Dickey Home

The Atalantean Club met Wednesday, March 17 at the home of Mrs. W. C. Dickey. The book "Westward the Course" by Paul McGuire, was reviewed.

A brief business session preceded the program. A donation of \$10.00 was made to the local Red Cross.

Mrs. D. J. Morgensen was leader for the discussion on "The New World of Oceania" which was a journey of exploration taken by Mr. McGuire since 1939. The book went to press only two days after the attack on Pearl Harbor. Mr. McGuire is a citizen of Australia and the world. A critic, lecturer and political economist. It would be difficult to find a guide so entertaining, so well informed, for the "re-discovery" of the new world to the west," as Mr. McGuire, Mrs. Morgensen stated.

A timely book that "Westward the Course" cannot be imagined for it is packed with information and challenging.

Mrs. J. A. Odom and Mrs. W. R. Kimberlin assisted in the review. "Patterns in the Pacific: Hawaii, The Cannibal Isles, New Zealand and Australia" were discussed by Mrs. Morgensen. Mrs. Odom discussed "The Netherlands, India, Batavia, Java, Australia's past in the war and future." Mrs. Kimberlin continued the review with discussion on "The Centre of the World, Dominions of the Sunset, Sumatra and British Malaya."

Members present were Mesdames Neeley, Kimberlin, Wilcox, Hightower, Whaley, Brooms, Estes, Morris, Webster, Phelan, Odom, Morgensen and Dickey.

## Women Work—Civilian Defense Auxiliary Notes

By INEZ BAKER

The West Texas WAAC, a small publication published weekly in the interest of WAAC recruiting, has made its appearance. It is published in Lubbock headquarters West Texas Recruiting and Induction Center.

An open letter from Lt. Col. Marvin B. Durette, commanding officer of this district says "It is with the deepest appreciation and admiration that I write this letter to our loyal county chairmen, sub-station workers and the hundreds of other fine Texans who are devoting their time and energy to the Women's Army Auxiliary corps.

Certainly, these are busy days what with the thousand-and-odd demands a wartime nation make on our time. My appreciation becomes even more profound, when I realize that despite these other demands on your daily schedule you are spending more and more time each day, telling the story of the WAAC'S to our fine West Texas women. From every part of West Texas—from Perryton to El Paso, from Sweetwater to Farwell—reports coming in now indicate that the WAAC enlistments are rising, and in many counties, promise to meet and exceed quotas set for the three months period ending April 1."

But Hall county has not met its quota! Hall County women are just as patriotic as any other county's women but they have not yet realized the necessity of a woman's army. In the WAAC or the WAVES there is an opportunity for you that you never had before for advancement. For many of you there will be a larger salary than you have ever commanded before, but above all you will be helping to win the war. If your husband is in the service there is no safer place for you than in one of these organizations and you will be speeding the day for his return to normal life. You will replace men who are doing clerical work for active duty. Men who will go and help your husband fight. Capt. Eddie Rickenbacker says it will take millions of women as well as men to win this war. Do you want to wait to be drafted? Or would you prefer to enlist now and choose your field of service?

We are so happy about the work women are doing in the Red Cross drive. The committee is deeply gratified and very much

## Women Work—Civilian Defense Auxiliary Notes

surprised at the amount being turned in by the woman's committee. Just because it is something being done by women we are going to give you the returns next week when the drive is concluded.

Surgical dressings work is going forward at a good pace. 7,200 4x8's and 36,000 4x4's have been shipped out. Another large quota has been assigned and the women are responding to the call for workers.

Another class in Home nursing will be opened soon. Call Mrs. L. W. Stanford and tell her you will take the course.

### TWO DESSERTS FROM ONE JAR OF BERRIES

This is one of the hardest seasons of the year for desserts, a woman told me the other day. She lives in a small mid-western community. The nearest store carries none of the fresh fruits and vegetables available in the markets of larger towns. She said she still had a stock of canned berries and fruits on hand—but her family was getting tired of them. She has eggs and milk for custards. But they get tired of custards and bread puddings, too. Did I have any suggestions she wanted to know?

**FOR A CHANGE FROM SAUCE**

Yes, I did have some suggestions. I thought of the Alaska Berry Cake I gave in my radio program recently. Surely her family would find this a pleasant variation from fruit sauce. And then our Simple Fruit Parfait is a delightful Sunday dinner dessert that can be made with the juice left over from the berry cake.

#### ALASKA BERRY CAKE

Sift together  
2 cups sifted all purpose flour  
1/2 tsp. salt  
3 tsp. baking powder

Cut in 4 tbsp. shortening—the way you cut shortening into biscuits or pie crust

Mix in 1 well-beaten egg and 1/2 cup milk  
Pat dough into greased deep 8-inch square pan  
Arrange over top, 2 cups well-drained canned berries  
Sprinkle with cinnamon (if desired)

Four over it a mixture of—  
1 egg, beaten  
1/4 tsp. salt  
1/2 cup sugar  
1 tsp. cornstarch  
1/2 tsp. vanilla

Dot with 2 tbsp. butter (or margarine)  
Bake 35 to 40 minutes—in a moderate oven, 350° F.

You'll find that this berry cake will be a delicious finish to an oven dinner.

**The Left-Over Berry Juice Makes Another Dessert**

Whether we've pledged ourselves to clean our plates and starve the garbage can or not, we simply cannot see all the luscious juice drained from those berries thrown away. So here's a dessert you'll have occasion to serve often—whenever there's a pint of left-over fruit juice.

#### SIMPLE FRUIT PARFAIT

2 cups fruit juice (from canned fruit, such as raspberry, plum, etc.—or a combination such as plum and grape juice)

2 tbsp. cornstarch  
Sugar or syrup to taste  
Few drops lemon juice

#### Whipped Cream

Heat the fruit juice. Mix the cornstarch with a little cold water and stir into the hot juice. Cook a few minutes until it thickens. Add sugar. The amount will depend on the sweetness of the fruit juice. Add lemon juice if the juice seems too sweet. Chill thoroughly and serve in parfait glasses, alternating the thickened fruit juice with sweetened whipped cream. Top the last spoonful of whipped cream with a few of the berries—or with a red cherry—or bit of bright fruit—even bright jelly will do.

#### To Whip Plain Cream

To 1 cup fresh cream add 1/4 tsp. cream of tartar—or 1/2 tsp. lemon juice. Be sure to have your deep bowl for the cream and your beater well chilled. Whip with a steady motion, increasing the speed as the cream begins to thicken.

## NOT JUST A BOLT OF YARD GOODS...

it's lovely dresses... smart pajamas... new clothes for the kids.

NOT just a bolt of Yard Goods, it's much more than that! It's the hundreds of useful and pretty things into which the clever fingers of women can transform. In a sense, this simple bolt of Yard Goods symbolizes a great American business—the J. C. Penney Company.

Yard Goods were a main part of the stock in trade of Mrs. J. C. Penney's first little store, opened 41 years ago in Mead, Wyoming.

Mr. Penney didn't think much of it at first. "It's a lot of trouble for a few dollars' worth of goods," he thought. But he was wrong. It's a business that has grown into a vast enterprise. Today Penney's stores are in 20 states, and the goods they sell are the most popular and the most practical in the country. They are the goods that women want, the goods that men want, the goods that children want. They are the goods that make life easier and more comfortable for everyone.

**THE PENNEY IDEA GREW—TODAY PENNEY STORES DOT THE MAP!**

Kemmerer took to that first Penney store! So did Moscow, Idaho later on. And Salt Lake City, Utah. And San Antonio, Texas. And today there are over 1600 Penney stores in all 48 states.

For every hundred dollars worth of sheets, or blankets, or shoes, or yard goods the Penney store sells in Peoria, Illinois or Scranton, Pennsylvania, or Savannah, Georgia, it pays back honest and substantial savings.

For every hundred dresses, or shirts, or overalls it sells in Waltham, Massachusetts, or Stockton, California, or Toledo, Ohio, it pays back dividends in local values, saving, rent and taxes.

Today Penney's stores are helping to ease the household budgets of millions of Americans. Today Penney's 41 year old store is a success through good management, through good service, through good value. It is still the Penney way.

## County Men in the Armed Forces

democrat is in receipt of letter following from E. Jenkins, Jr., who was in Hawaii:

Well, I received an old line from an old boy to let you know I enjoy The Memphis Democrat for some time now I am looking forward to see you again for the old home town.

Imagine that there is a man can tell you about some of the other things already told. But there are a lot of things over here, and they say, is pleasant year. At the present time cold at night, but during the day time.

I have been feeling rather bum lately, taking treatment for malaria now, and hope will be feeling better soon.

I told you in former letters why I didn't write much in the past four months while I was in Guadalcanal. I didn't get a chance to get any paper or anything. I had to wear the same clothes so long I thought they would rot.

Things got pretty hot some times. I was shot at with everything from a 25-cal. rifle to a 6-inch field piece, and bombed at besides. If one weren't religious minded before he saw action; he

soon was when action started. All in all it wasn't as bad as I expected. We laughed a lot at the way guys dived into holes when they heard a shell coming, and I was one of them. Of course we didn't laugh while it was going on. We were lucky most of the time, and not one was hit. I could tell you a lot of things but you probably wouldn't care to hear about them.

I'd like to see all of you.

JIM.

The following is a letter from Sgt. M. W. Paschall Jr. to his parents, Mr. and Mrs. M. W. Paschall.

Feb. 10, 1943

Dear Folks:

How's everybody and things at home? I'm getting along O. K. I'm back at a rest camp now though. When I got back to camp, I found that I had 12 letters and also received the Christmas box. I also got one from Carrie and Shorty, and one from Marie and Irene. The things really came in handy and I'm making use of them.

Well, your guess is about right, we've been giving them hell. I up on the front line (censored) the first time and about (censored) days the next time. The first time the Germans bombed us (censored) time in one day. They will hit once in a while but not very often. One day we saw some planes coming. We thought they were Germans but they were American planes. Boy, they sure look good flying through the air.

You ask me what I did on Xmas day, well, I was after Hitler. Only (censored) we have to worry about what the Germans got, that is (censored).

I got a Democrat that was dated Nov. 26, I was sure glad to get it too.

Sgt. M. W. Paschall

The roving reporter of The Democrat is heard from again. This Sea Bee runs across other Hall County boys occasionally, but will not give any inkling of where he is stationed.

Dear Mr. Wells:

Received your very nice letter of Jan. 11 several days ago, but have just neglected to write. It is pleasing to know that Hall County is doing so good, and hope that 1943 will be still better.

The Democrat is rolling in here now almost every mail which keeps me up with the news of home. I read them then pass them on to Frank Gable, another Hall County boy.

You made some very good guesses as to my whereabouts but missed. Try again sometime. Thanks a lot for your compliment on my letters, and for the addresses of other Democrat boys in service.

It all seems like a dream to me now because the visit was so short but Frank Morrison walked into my tent here last Wednesday. It was really a surprise and a very happy one. We talked over his trip and experiences and also mine. He stayed only two hours and then had to go back to his ship. The ship pulled out the next day but I don't know where it went. Tell Mr. and Mrs. W. B. Morrison that their son is OK and in good health. His only ailment was being sunburned.

It seems that I might get to see a lot of hometown boys down here. A small world, eh? The sun is getting hot now and I must close with best of luck to you and others.

Curtis Harrell.

BOYS IN SERVICE—

The following is a letter from Sgt. Charlie W. Carter stationed in North Africa, to his father, C. W. Carter.

North Africa, Feb. 26, 1943

Dear Daddy:

Will answer your most welcome letters this evening which I received this morn.

How are you getting along by now? Just fine I hope. I'm still doing OK myself. Doing a little better now than I was though, being as I've gotten quite a lot of mail these last two days. It is sure good to get mail over here.

In one of your letters you said you were having some pretty cold weather there. I guess spring will soon be there and every thing will be in full bloom. I would like to be there this spring. The flowers are in bloom here now and the grass is sure green.

I guess you all have gotten some of my letters by now from over here. There is nothing more I can tell you about this country than I have already told you in the other letters, other than to say that I still see things that I did not expect to see in Africa.

One of the boys in the Company who can talk to these natives here heard two women talking one day and one of them said that she thought the Americans were almost civilized people. I sure got a laugh out of it when I heard it.

I've seen lots of country and lots of things since being over here but I sure don't care anything about going through it again; but I wouldn't take anything for it even if I don't care too much for it. All in all everything isn't so bad though. I can't write it just like I mean it. I guess you can get what I mean.

We were living in barracks for awhile but we're not in them now. We are still in good living conditions though.

Daddy, I wish you all would send me the Memphis Democrat. Boy, when we got over here

## AMERICAN HEROES

Thirty-four days were spent on the open sea in a rubber boat by three U. S. Navy men, Harold F. Dixon, Gene Aldrich, and Anthony Pastula. After enduring torturous days under the blazing sun, and freezing nights, these American heroes were finally rescued. In effect, they were kept afloat by a WAR BOND.

We need lots of these rubber boats, so buy as many War Bonds as you can. You've done your bit; now do your best!

U. S. Treasury Dept.

and put our radio up the first morning we heard that announcer at XEPN blabbing for about an hour trying to get someone to buy one of those rings for \$1.98. I thought we could get away from him after coming over here but that was almost the first thing we got when turning the radio on.

Well, guess I had better close for this time. Answer soon.

Love,

Charlie

## HARRELL CHAPEL

By MRS. LOUIS RICHARDS

Rev. L. Self filled his regular appointment Sunday and Sunday night.

Mrs. M. J. Teel, who has been ill for the past three months, is reported not to be improving. Her daughter of Oklahoma has been with her for the past two weeks.

Mr. and Mrs. C. E. McCauley spent the week-end with his son and family of Borger.

Those visiting in the home of Mr. and Mrs. O. D. Phillips Sunday were Mr. and Mrs. A. O. Phillips of Eu, Mr. and Mrs. Vernon Phillips of Fairview, Mr. and Mrs. Dude Helm of Parnell, Mr. and Mrs. R. B. Phillips of Fairview, Mr. and Mrs. Roy Widener of Estelina, Mr. and Mrs. Orval Phillips and Rev. Self and family.

## Acid in your Garage Arrest ACID!

THE ENEMY'S forced you to rationing. Now he'd make your engine the victim of vicious acid. The mere stopping of your engine always leaves it stuffed with vile fumes and dilute acids—the ever-present products of combustion. And there they stay.

Formerly these sources of corrosion were kept mostly cleared out, because you drove frequently and fast. But now in saving coupons and tires you may not soon see your car again, and you don't make those long speedy runs that maintained normal engine heat a good while, to help drive acids off. That's why harmful leftovers in the cylinders nowadays are serious. But you can combat their dirty work by keeping your engine internally OIL-PLATED.

How? Just change to Conoco N<sup>th</sup> motor oil this spring. It's made under U. S. Patent No. 1,944,941, covering an added modern synthetic in Conoco N<sup>th</sup>, whose proved purpose is to give inner engine parts their preservative layer of OIL-PLATING. And like the more familiar platings that arrest the attacks of mere water, this OIL-PLATING powerfully tends to arrest acid action...inner corrosion of precious parts that often can't be promptly replaced today. Yet you pay only an everyday price for Conoco N<sup>th</sup>. Change for spring at Your Mileage Merchant's Conoco station.

Sgt. Buford Bevers came last week for a visit at Lakeview with his father, A. S. Bevers. He has been in the O'Reilly hospital at Springfield, Mo., for the past few months due to an automobile accident. He has been in the U. S. Army for approximately 12 years.

A former resident of Memphis, Lloyd Edward Whittington, now a gunner's mate, third class, in the Navy, was commended last November for bravery and devotion to duty, while serving as a member of an armed guard gun crew on a merchant ship in the South Atlantic. Born here on Jan. 2, 1922, he is the son of Eric H. and Jessie Whittington of Natalia. While they lived here, Mr. Whittington was bookkeeper at Farmers Union Supply Company.

Pvt. Hugh L. Davenport, Jr. son of Mrs. Elvia Davenport of Chickview and H. L. Davenport of Lakeview, is now at Oklahoma Baptist University at Shawnee for a course of Army Air Force instruction lasting approximately five months prior to his appointment as an Aviation Cadet in the Army Air Forces.

Joseph P. Johnson Jr., son of Katie S. Johnson, has recently been promoted to the rank of Corporal in the Army Air Corps at Watercross, Ga., where he is now stationed. Cpl. Johnson was employed by the Farmers Union Gin of Memphis before he enlisted in the Army in January 1942.

J. C. McClure of Midland and John Clark of Lubbock, both formerly of Memphis, were recently called into active service of the Army Air Forces, and have reported to Santa Ana, Calif., for training as aviation cadets. McClure is the son of Mr. and Mrs. J. C. McClure of Memphis and Clark is the son of Mr. and Mrs. Fred Clark of Lubbock.

Frank Morrison, seaman first class of the Sea-Bees, U. S. Navy, Construction crew, recently landed in the Southwest Pacific, according to word received by his parents, Mr. and Mrs. W. E. Morrison.

Pvt. Sam Hammons graduated from the Air Forces Technical School at Sheppard Field on Tuesday, March 2. He has been in the post hospital for the past three weeks where he underwent an operation Friday, March 12.

LEGISLATURE

By GRADY HAZELWOOD

Perhaps the hardest working new member of the House of Representatives is the well known showman, Harley Sadler. Harley lives in Sweetwater and he is getting a great kick out of the Legislature. Incidentally, he is stealing the show in so far as West Texas is concerned by being the author of the House Re-Districting bill...

The original bill would have given Potter county one representative exclusively and would also have placed the county in a floatorial district with the result that ordinarily Potter County would have had two representatives. Harley is amending his bill which will change this situation as to Potter County, and will place Carson and Armstrong Counties in Representative Favor's district along with the counties of Gray and Wheeler.

Donley and Collingsworth counties will be cut off from Favor's present district and placed with Hall, Childress and Motley Counties for a new district. Representative Richard Craig will lose Dallam and Hartley Counties which will be placed in a new district with Deaf Smith, Farmer, Castro, Randall and Oldham. The Constitution command the Legislature to re-district but the trouble is East Texas vs. West Texas. However, at the session of the Legislature the House Bill passed the House and there is a strong possibility that this is the year for the House Re-Districting bill to become effective.

The Senate sub-committee appointed on Old Age Pension bill is working laboriously and the grapevine is that the Department of Public Welfare has been taking a real "panning."

Interesting bills pending in the Texas Legislature: A bill to prohibit the trailing of crippled deer with more than one dog—making it unlawful to handle bull frogs in a certain manner—to prohibit the blind from driving automobiles—to remove a penny tax on mattresses, or as Senator Winfield remarked at the hearing—"A bill to remove the cent from mattresses."—Yes, Texas is large and interesting State because such bills have been introduced at the instance of certain groups of people.

Locals and Personals

Mrs. H. R. Hazlett was a Childress visitor Sunday.

A. Anisman left Sunday for a business trip to Dallas.

Mr. and Mrs. John Adamson of Turkey were business visitors here Friday.

Mr. and Mrs. Tom Salem and Mrs. L. J. Campbell were visitors in Claude Sunday.

Women's Auxiliary

Never in history have American women been offered such a chance to serve their country as they may now do as a member of the WAVES, SPARS or Marine Corps Women's Reserve. Frank Knox, secretary of the Navy, has pointed out. This is total war—a war in which every woman, as well as every man must play a part, Knox added.

The men in the Navy, Coast Guard and Marines are in for one reason alone—to fight! They're in to man the ships, fly the planes, smash the Nazis and the Japs.

But to keep them fighting, there are important service jobs that must be carried on at home, man-size, full-time jobs which the women of America can fill—jobs which if filled by women will release the men to fight.

These three women's reserve groups are organizations whose job it is to replace sailors, coast guardsmen and Marines in office jobs. As members of each of these groups, these women will wear the same uniforms and win the same ratings, as well as earn the same pay as America's finest fighting men.

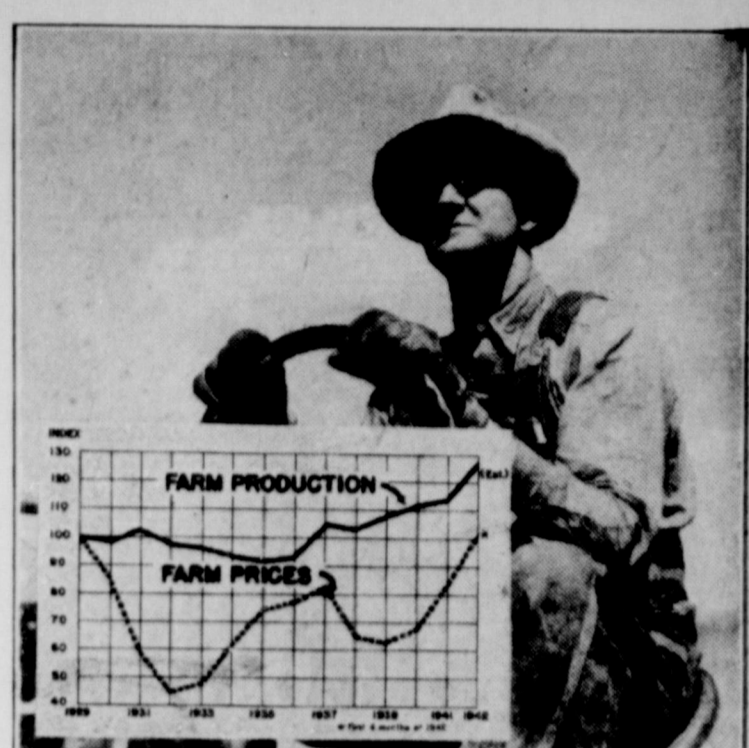

Mrs. Carl Eddy returned Sunday night from Vernon where she visited with her parents, Mr. and Mrs. John Freeman.

T. J. Thompson has sold his residence property on South 7th street to Landrum Stanford.

Mr. and Mrs. Gene Hughes who have been making their home in Amarillo, moved here this week.

Mr. and Mrs. H. H. Lindsey and daughters, Mary Helen and Betty, visited Sunday in Eldorado, Okla., with his mother, Mrs. G. R. Lindsey, and his sister, Mrs. O. P. Cavener and family.

He's A Production Patriot

In hard times and good, in peace and war, American farmers are real production patriots, declares the U. S. Department of Agriculture. Prices haven't always been good during the past 12 years, but farmers have kept the nation's pantries full. Today farm prices are 2 percent above those of 1929—but farmers are producing more than 25 percent more than in 1929, an all-time record harvest.

War Workers Are Urged to Guard Their SS Rights

"Every time an American worker loses, destroys, or mutilates his social security account card, he is wasting as much money as it costs to provide 13 bullets to an American soldier," Dewey Reed, manager of the Amarillo Social Security Board field office said today. He asked that holders of social security cards safeguard them as a war-time conservation measure. Nearly 2,000,000 duplicate account cards were issued by the social security board in the last 12 months. They were issued to persons who had lost or destroyed the ones originally given them.

"Don't carry your card with you unless you must. Put it in a drawer, safe or other place where you keep valuable documents. Know where the card is. Before putting it away, place it in an envelope and mark it: 'My social security card.' Then you will be able to find it in a hurry, if necessary. If you change jobs frequently, and need to carry your card with you, don't just stuff it in a pocket. Try to protect it against loss, wear or mutilation. Never keep your card in your overall or shirt pockets. Many losses occur because the shirt or the overalls—together with the card—are tossed into the laundry tub." —Buy Bonds—Buy Bonds—Buy Bonds—

How American it is TO WANT THE BEST!

It's part of our American heritage... this right of every man to get the best he can through honest toil, skill, and planning.

High on his list of desires is a home of his own... large or small... luxurious or simple... each to his own taste.

A true American is mighty proud of his home; he gives it the very best care he can. Every man can afford the best when it comes to paint—MINNESOTA paint.

Under the MINNESOTA trademark there's a line that reads "Since 1870." That short phrase means a lot to American homeowners. Since 1870, the year MINNESOTA paint first appeared on the American scene, millions of gallons have gone out to beautify and protect millions of homes.

"SINCE 1870"—that is your assurance of Quality.

## Schicklegruber Started It!

PERHAPS readers of newspapers these days have not noticed the changes being made in the papers they read—changes that have been made necessary in order to conserve white print paper at the request of the government.

The Democrat, before war was declared, rarely ever published less than ten pages, and many times twelve and sixteen. Now, eight pages is the rule. In the course of a year this means quite a saving in white paper. And the reduction in the number of pages has not reduced the amount of news carried. In fact, by a squeezing process we are enabled to carry more news in condensed form.

The squeezing process referred to means cutting out unneeded wordage, reducing size of heads, omitting items that are not news and not pertinent to the war effort or community growth, names of memberships when such have frequently been printed and remain the same, and in various other ways.

Besides saving white paper, the reduction was necessary because of shortage of skilled workers in The Democrat office. Those who are left to do the work must cut corners wherever possible, else the paper you get may not be as full of news as you would like to have it.

Many government heads call upon us to give publicity to some phase of the war effort. Besides, the rationing project, and news of the boys in the service, both of interest to each individual, are given first place in the news. All this added to local news items gives the reader a lot more reading matter than formerly.

In order to enable a skeletonized office force (darn Hitler) to do the work, and at the same time give the readers a better paper, we are forced to adopt some rules.

Reports of happenings in the community should be turned in as soon as they happen—the earlier the better. Any such items turned in after Wednesday noon (unless it is spot or up-to-the-minute news) may not be used until the next week. It depends upon whether there is time to set it in type and space for same if it is published in the next day's paper. Several times lately, items turned in Wednesday afternoon had to be carried over to the next issue because the forms were closed except for spot news.

Advertisers are also asked to co-operate with us by getting their copy for ads in early in the week. Better set ads and better position in the paper is the result of getting ads in early. Sometimes, ads that could have been turned in earlier in the week, come in so late that poor position and makeup result, besides forcing us to leave out some good live news that go to make reader interest. The better the reader interest the more results advertisers may expect.

Frequently people wonder why an article (turned in late) is left out when dozens of other articles of less importance were published. The reason is simple. Four pages are run Wednesday afternoon. Ads and news items already in the office are run in the four pages, sometimes with just a few ads and a lot of articles that are not important—for the four-page run must be made. The last four pages (in case of an eight-page paper) are run Thursday afternoon. Items and ads turned in after Wednesday noon sometimes crowd the last four pages until some things have to be left out, and the result is a paper heavy with articles and light with ads on some pages, and vice versa on others.

Some people have the idea that we just say "presto, change" and a paper is issued, and think the whole process is done on press day. When the actual fact is a whole week's work is done on a paper. Each letter has to be typewritten, set in type, proof-read, corrected, forms made up and the paper printed. Each requires time and skilled work. It is a manufacturing process—not a case of reaching out and getting the package already made up and wrapped ready for delivery.

The publishers ask readers, news reporters, advertisers and all concerned to please co-operate with us, and all will be mutually benefitted. Spend an hour in the office with us some day and see for yourself why such co-operation is needed.

Thank you!

## Press Paragraphs

SELECTED FROM THE DEMOCRAT'S EXCHANGE

For a good many years towns like Stephenville have been pained to read in the news columns about Mrs. ————being in some nearby city on a buying spree. That sort of news was distasteful in every way to the small city merchant. But, if our guess is correct we are soon going to have news items in this great moral and metropolitan week, about Mrs. ———— of Fort Worth spending the day in Stephenville shopping. By no means is that prediction far-fetched. To a certain degree it has already happened. Food is scarce, and he coming more so day by day. The city dweller—who in most cases originated in the country—knows and remembers well the large amounts of canned fruit and vegetables stored away in the rural districts. It may be that rural

cards will control this situation to some extent, however, it is doubtful. It looks like our day. Come on out, you city folks! there are plenty of people who will talk trade—and in some few instances it may be possible to make a few purchases — Stephenville Empire-Tribune.

Young Ones  
Those who attend the drill night of the Texas Defense Guard tell of the interest and work done by the teen agers who are too young for the selective service act. These youngsters take a real interest in the drill formations and they do it quicker and with more coordination than the older men. They enjoy the training and who knows but what this training will make their future much easier.—Quannah Tribune Chief

Dog Devotion  
Man's best friend is his dog. A year ago Mr. and Mrs. Chas. Weisenber—saw their dog, Mick, to a man about 20 miles in the country. Last Tuesday the dog

came back home. After showing such devotion to his original owners, the dog will no doubt have a permanent home with the Weisenbergs now.—Tulsa Herald.

Gardening will be a serious matter this year and a vital contribution to the all-out war effort which may mean the difference between going hungry to many. That gardeners will not tolerate deprecations from loose stock and chickens goes without saying, and chicks and stock owners should take notice and keep the chicks up and pay particular attention to their stake ropes.—McLear News.

There's a dog over at Pampa that owns, legally and rightfully, a ration book that will permit him to buy not more than 2 1-2 pounds of meat per week. His owner, Tommy Hammond, blind confectionery store operator, says "Frisky" actually needs a pound of meat per day. "Frisky" is a seeing eye dog.—Dalhart Texan.

Trying to arrange the scattered leaves of truth that have fallen since childhood, it is difficult to justify the gruff, tall man who used to sit on the iron park bench throughout the afternoons. He never worked and found constant fault with the world and its people. But to me he symbolized something of strange and unearthly power. He used to hold a small magnifying glass between his pipe and the sun, move it slowly until smoke swirled from the bowl.—Matador Tribune.

—One to the USO—  
Those numberless sparrow that have been flitting and chattering among the trees on our premises with such jubilation lately, were thrown into utter confusion and bewilderment last week when we had our tree-trimmed back almost to the trunks. This trimming of the trees was made necessary on our premises and on many others in town by reason of the great number of limbs that were broken by the unprecedented ice load that covered them and weighted them down during that freezing rain period in December.

The trees now are expected to put out new branches and new foliage and to be more beautiful in a year or two than they were before the storm, but the trimming certainly did ruin them as a "playground" for the birds. When the sparrows began to flock in to their roosting places Friday evening and found their homes utterly demolished they acted as if they were terribly disappointed and grieved and became almost frantic. The best they could do was to find lodging in the wilderness of brush made by the amputated branches — County News.

## New Short Term Credit Plan for Farmers Set Up

Program Operating Through War Boards Aimed at More Production of War Crops

A short term credit program is available to Texas farmers producing Food for Freedom this year.

The new loan program, which will operate through county USDA War Boards and the Regional Agricultural Credit Corporation, is to help farmers meet or surpass high production goals and at the same time insure them against loss in case of high risk crops which ordinarily would not be grown.

County USDA War Boards now are appointing local representatives for the RACC who will work with them in making loans to farmers on this year's warcrops.

"This is not a substitute for other sources of credit farmers already are using and was not intended to compete against other groups," the state USDA War Board said in explaining that the purpose of the special warcrop advance program was to provide additional credit for this year's program.

Producers who cooperate under the short term credit program will sign a special form of note that limits the obligation to repay to the value of the crops produced provided certain requirements are met.

Included are that farmer has used the money in the production of crops for which it was advanced; that he diligently applied the principles of good farming to the production of the crops; that he harvested the crops to the extent of his ability; and that he has applied the full proceeds of such crops to repayment of the advance.

Crops on which special advances may be made include soybeans for beans, peanuts to be harvested, potatoes where the farm goal is 3 acres or more, sweet potatoes on farms with goals determined, American-Egyptian cotton, hem dry beans, dry peas (excluding wrinkled varieties) and castor beans.

Vegetables for processing or sale fresh which are included under the program are tomatoes snap beans, lima beans, peas and carrots; while cabbage, sweet corn and table beets must be grown for processing only.

In addition to short term ad-

## Inspection Record Must Accompany Tire Application

C. L. Sloan, chairman of the Hall County War Price Fixing Board, announced today that all persons applying for tires must accompany their application with their tire inspection record before the board is allowed to pass on them.

After the board has granted applications, those granted certificates may be from the members of the board, which consists of Franz of Turkey, Del E. Lakeview and Bill Kesner, Memphis.

If the application is rejected, the applicant must be notified by mail to the applicant.

**Kidneys Must Work Well -**  
**For You To Feel Well**  
 24 hours every day, 7 days every  
 week, never stopping, the kidneys filter  
 waste matter from the blood.  
 If more people were aware of how the  
 kidneys must constantly remove sur-  
 plus fluid, excess acids and other waste  
 matter that cannot stay in the blood  
 without injury to health, there would  
 be better understanding of why the  
 whole system is upset when kidneys fail  
 to function properly.  
 Burning, scanty or too frequent urina-  
 tion sometimes warns that something  
 is wrong. You may suffer nagging back-  
 ache, headaches, dizziness, rheumatic  
 pains, getting up at night, swelling.  
 Why not try Doan's Pills? You will  
 be using a medicine recommended the  
 country over. Doan's stimulate the func-  
 tion of the kidneys and help them to  
 flush out poisonous waste from the  
 blood. They contain nothing harmful.

### Seed for Planting Sold Point Free If So Labeled

**Dried Beans, Peas and Lentils May Be Sold for Planting by Packaging**

Dried beans, peas and lentils may be sold for planting purpose point-free if processors will simply package and label such seeds. C. L. Sloan, chairman of the Hall County War Price and Rationing Board, announced today.

The following procedure will be followed in handling transfers of beans, lentils, and peas for planting purposes, until further amendment of the regulations, which is anticipated shortly, Mr. Sloan explained.

1. Processors will simply package and label all seed beans, lentils and peas, and will transfer them point-free. Likewise all such beans, lentils and peas treated with any substance rendering same unfit for human consumption will be so labeled, and transferred point-free.

2. Wholesalers will transfer all items meeting requirements of (1) above point-free. If point in inventory is depleted as a result of such transfer, they will apply to State and district offices for adjustment of their point inventory on OPA form R-315, stating quantities so transferred and names of transferees.

3. Retailers will transfer all items meeting requirements of (1) above point-free. If point in inventory is depleted as a result of such transfers, they will apply to the local board for certificates on OPA Form R0315 for all amount equal to points lost as a result of such transfers and stating that such products were transferred for planting purposes. OPA regulations will be met by attaching the following label to the package: "For seed only. Not for human consumption. Labeled and packaged in compliance with applicable federal and state seed laws." Label may be in form of tag, rubbered stamp or ink marking on package.

**CARD OF THANKS**

We wish to express our sincere appreciation and thanks to our friends and neighbors for the many kind deeds and the thoughtful words that were said during the illness and death of our father, M. M. Monzinger, of the Monzinger Family.

### Farmers Urged To Co-operate With County War Board

**Must Keep List of Sales And Purchases; Forms Issued by County Agent**

The Hall County USDA War Board met Monday in regard to the meat rationing program. The War Board is made up of all employees of the U. S. Dept. of Agriculture. The following were present: James B. Smith, AAA; B. A. Meyers, USES; J. M. Dickson, MPCA; Bob Land, FSA; Fred Porter, REA; Guy M. Cowfield, SCS; W. B. Hooser, ES.

Farmers and feeders of cattle are requested to lend assistance in stopping "black-market" operations in livestock and meats. Every farmer and seller must have a permit before he can sell any piece of meat. If he kills for his own use a permit is not required but if he sells all or a part of it, he must have a permit.

Hall County farmers who slaughter meat for sale are urged to obtain their slaughterer's permits before Thursday, April 1. The Hall County War Board will issue permits from the County agents office. Any one who buys and sells cattle, hogs, sheep and lambs, and keeps them for less than 30 days is considered a dealer and is required to obtain a permit from the County War Board. He also is required to keep a complete record of his livestock purchases and sales, including the date he bought the meat animals, their weights, and prices paid for them, to whom he sold them and the price he received. Farmers are not required to obtain permits but they are asked to keep records of their purchases and sales.

## VOLUNTARY RATIONING OF MEDICAL CARE

As more and more doctors join the armed forces, the of serving the civilian population with adequate medical becomes increasingly critical. The purpose of this is to point out several ways to conserve the time and energy of the greatly overburdened doctors whose responsibilities give medical care to those on the home front.

### Your Cooperation Will Assure Better Medical Care

How can you and your family get the most from the limited medical services that are available? Here are some suggestions for "voluntary rationing" that will assure medical care for all:

**Go to Your Doctor's Office If You Can**

Avoid asking your doctor to call at your home. Go to his office if possible. This will not only save his time, but will save you money as well.

**Phone for House Calls Before 8:30 A. M.**

When house calls are necessary, phone your doctor before 8:30 o'clock in the morning if possible. Then he can plan his house calls efficiently and avoid back-tracking, thereby saving his time, gasoline and tires.

**Be Patient! Doctors Are Very Busy**

Remember, your doctor has almost twice as many patients as before. Please be patient if the house calls are delayed or longer waits are necessary at his office, and don't waste his time with foolish questions either at his office or over the phone.

**It is Your Patriotic Duty to Protect Your Health in Wartime**

### Your Cooperation Will Assure Better Medical Care

How can you and your family get the most from the limited medical services that are available? Here are some suggestions for "voluntary rationing" that will assure medical care for all:

**Go to Your Doctor's Office If You Can**

Avoid asking your doctor to call at your home. Go to his office if possible. This will not only save his time, but will save you money as well.

**Phone for House Calls Before 8:30 A. M.**

When house calls are necessary, phone your doctor before 8:30 o'clock in the morning if possible. Then he can plan his house calls efficiently and avoid back-tracking, thereby saving his time, gasoline and tires.

**Be Patient! Doctors Are Very Busy**

Remember, your doctor has almost twice as many patients as before. Please be patient if the house calls are delayed or longer waits are necessary at his office, and don't waste his time with foolish questions either at his office or over the phone.

**It is Your Patriotic Duty to Protect Your Health in Wartime**

Watch your diet... Live sanely... get plenty of rest... drink lots of water... things necessary to protect your health... It takes a vigorous, healthy nation to win a war.
