G. W. Melear, At 81, Has Never Worn Any Glasses Or Made Use Of Walking Cane

Eighty-one years old, in the best of health, has never used a pair of glasses or a walking cane! That is the unusual record of G. W. Melear, who celebrated his eighty-first birthday Saturday of last week. Mr. Melear spent the day quietly at his room in the Pounds Hotel.

Mr. Melear was born in Georgia in 1850. He lived on a farm with his parents and when nineteen years old, the Georgia property was sold and the family moved to Alabama. Here, his father died, but the family remained there for a number of years.

In 1884, Mr. Melear went to Georgia, where he was married at the home of his sister. Going back to Alabama with his bride, he resided there until the Indian Territory, now Oklahoma, was opened up to settlement, when he moved here.

In 1896, the family moved to Fannin county to make their home. Mrs. Melear was in poor health and the family tried first one place and then another in an effort to benefit her. She died in 1912.

Twenty years ago, Mr. Melear and his family moved to the Lodge community. Here they resided before coming to Memphis. Mr. Melear has kept pace with the times, although he does not view the mad rush of progress as younger men do. In his mind, he holds to cherished memories of yesteryears.

BOWNS ATTENDS MEET OF TAX COLLECTORS

The annual convention of tax collectors was held at the Herring Hotel, in Amarillo, Tuesday, Wednesday and Thursday of last week. Holt Bownds attended from this city. Some 100 were present at the three day meeting. Sessions were presided over by Roy Law of Cameron, Texas, tax collector for Milaha county.

The chief topic of discussion was the various bills passed by the legislature recently, having to do with the collection of taxes.

One Minute Interviews With People You Know

W. D. ORR: "That fishing trip Russell Clark and I took to Childress Lake surely was a success. I caught a fourteen pound bass, and believe me, it sure was a whopper. What was that I said? Wait a minute, I made a technical error. I meant to say a fourteen inch bass. Just a slight mistake on my part."

F. V. CLARK: "The cigarette tax is causing considerable comment. The manufacturers have raised the tax on us already, but the state tax has not become effective, as yet. The manufacturers have boosted the price nine-tenths of a cent on each package. By the time the state tax goes into effect, cigarettes will likely sell for 18 cents the package or two for 35 cents."

J. C. WELLS: "The other day I received a shipment of white linen pants and before noon, every pair of the pants was sold. Even after the supply was exhausted, I had calls for them. If we only knew what the people wanted, business would be better."

COL. C. T. MATKIN: "This highway paving project is fine if it were not for the sand pile in front of my office. Every time the wind blows, I get a glorious shower of sand all over my office. Why, they even tried to move the ground my office is on the other day to make a railroad crossing with. What will I do, I ask you?"

T. J. DUNBAR: "You know, a man doesn't even get a chance to tell his fish story when Joe Merrick, Bill Coursey and Wesley Mangum are around. The other day I went over to the city hall and they were all over there telling fish stories. They all told theirs and it was my time. I started and about that time the telephone rang. They all jumped up and left in the fire truck saying something about North Fifth street, and left me in the middle of my fish story, after I had patiently listened to theirs. I didn't do a thing but get in my car and go to the fire. When I got there, I got all three of them in my car and made them listen to my story. Is there no justice among fishermen?"

Sign a new Declaration Of Independence

On July 4th we celebrate an example of the unparalleled courage of our fore-fathers, conceived in the surge of a great upheaval, amidst times more trying than we probably shall ever know.

The present period of readjustment offers a propitious opportunity to the farmers of this community for a new declaration of independence—dependence from the domination of one crop culture by the adoption of a live-at-home policy.

**Farmers Wage War
On Grasshoppers**

According to County Agent
Thomas many Hall County farm-
ers have started to poisoning
grasshoppers to offset possible
serious damage later in the sea-
son. So far, only slight damage
has been done by the insects
around the edges of the fields,
however, should the hoppers con-
tinue to increase, entire fields may
be destroyed a little later.

Mixture Recommended
The mixture being recommend-
ed and used is as follows: 25
pounds wheat bran; 1 pound white
arsenic; 1 ounce amyl acetate or
6 lemons or oranges; 2 quarts
cheap sorghum molasses; and 4
quarts of water. Sow or place in
very small piles around the edges
of the fields where the hoppers
are eating on the crops. It is
recommended by the U. S. Depart-
ment of Agriculture that the bait
be distributed in the late after-
noon. The above is a slow poison
and the full effects do not become
apparent for 24 hours or more af-
ter distribution.

HIT OR MISS
a column by
T. R.

The newest addition to the staff
of The Democrat has become col-
umn-minded. That is, I think I
have. This effort, from week to
week, will prove or disprove the
statement. Column writing re-
quires considerable concentration
and labor. I know. It is costing
me even more than that to write
this.

I am wondering how Arthur
Brisbane and O. O. McIntyre felt
when they determined in their
own minds to become columnists,
regardless of cost. Now, happily,
the cost is on the other side. Their
columns have come to mean some-
thing to the reading public, and
naturally, their syndicates have to
pay a fat sum for the privilege
of including them on their rosters
of celebrities.

It is entirely likely that in fu-

I'll wire for my reservations, and you'll pardon my hurry, I'm sure, as I've got to drop by the bank and deposit a hundred million dollars to my account from my aluminum interests. Texan Is Boosted As Head Of Lions

Delegates from 244 Texas Lions Clubs will attend the Lions International Convention in Toronto, Canada, July 14-17 in support of Julien C. Hyer of Fort Worth for International President of the Association. Mr. Hyer has served the International Association as First Vice President during the past year.

To Have Special Train

Texas Lions have completed arrangements for a special train to take them to the International Convention in Toronto. The train, according to present arrangements, will be made up at Dallas at 6:30 p. m. July 11. Unit cars will be spotted throughout Texas. Included with the special train for Toronto will be a car of Texas products and produce for distribution on the opening night of the convention. The opening night of the convention has been set aside by the International committee as "Texas Night." Elaborate preparations have been made for "Texas Night" including the appearance of internationally known entertainers such as Romanelli's orchestra.

Outstanding Record

The election of officers of the association will be held on the last day of the convention. Julien Hyer by his outstanding record of service to the organization, to his own club, his district and state, and by order of succession in the international offices, is the logical successor to Earle W. Hootches of New York City for the office of president.

Texas claims to be the state of birth of Lionism since the first Lions club ever organized was the Lions club of San Antonio. Dallas entertained the first International convention of Lions clubs and

also gave the young association one of its first international presidents, Mr. L. H. Lewis, now of San Antonio.

It was sixteen years ago, two years before the founding of the International Association of Lions Clubs that the first Lions club at San Antonio came into existence. In the succeeding two years other Lions Clubs were formed, and a national organization of the association in June of 1917, the first convention of Lions International was held at Dallas in the same year. Lionism not only found its birth in Texas, but has shown a consistent growth—until at the present time there are 244 clubs in the state—more than twice the number of clubs of the other service organizations combined. There are now approximately 2,500 Lions Clubs in the United States and Canada with a membership only slightly less than 100,000.

Mr. and Mrs. H. B. Bryan of Lubbock came Wednesday for a visit with relatives here. They will go from here to De Kalb for a visit with his parents, Mr. and Mrs. H. B. Bryan, Sr.

LOCAL PEOPLE ARE GOING TO GUNNISON TO FISH

It seems that many Memphis citizens are making Gunnison, Colorado, their vacation point this summer. A number are leaving every day to spend their vacation there on account of the fishing facilities offered. Approximately 10 people have left the city already and report the fishing at this particular point is exceptionally good.

A party composed of Mr. and Mrs. Frosty Rymer, Mr. and Mrs. Landrum Stanford, and Mr. and Mrs. R. V. West and children, left Thursday for Gunnison to spend their vacation fishing.

Dracula Will Be Shown At Palace

"Dracula," heralded as one of Universal's best pictures of this year, will be shown at the Palace Theatre Monday and Tuesday, July 6 and 7, according to an announcement by Hollis L. Boren, this week. The cast which is headed by Bela Lugosi, David Manners, and Helen Chandler, includes Dwight Frye, Edward Van Sloan, and others. It is directed by Tod Browning.

It is a mystery story and a very good one, according to those who have seen it. There will be no advance in prices.

A SMEAR OF CONTAMINATION

What housewife has not shuddered at the thought of her home being overrun by roaches.

These vile pests may come into your home in a thousand ways. Once they have entered it requires persistence and care to eliminate them. All roaches secrete a nasty smelling semi-liquid that contaminates everything it comes in contact with; your food, your cooking utensils, your china, and everything kept in the kitchen cupboard and pantry.

You can keep these enemies of cleanliness out of your home by spraying one of the modern types of insect sprays developed and marketed by the large oil refining companies during the past three or four years, and regularly advertised in this paper.

Luella Crump returned home Friday from Amherst after visiting her aunt and uncle, Mr. and Mrs. E. B. Luce.

DIVE AT SWIMMING POOL

Tom Isom of Lodge was painfully injured at the Pastime Swimming pool Tuesday night. He made a dive off the 15 foot tower and did not make a shallow dive, striking the bottom of the pool with his head. Isom managed to swim about half way to the bank of the pool and then had to have assistance.

Two stitches were taken in a three inch gash by Dr. J. A. Odom. The injury was serious on account of neck muscles being sprained and the skin of the scalp being torn badly.

Mrs. T. M. Potts is reported very ill at the Memphis Hospital.

Mr. and Mrs. W. C. Milam and daughter, Margaret, left this Thursday for a vacation trip to Colorado.

*“Let’s buy what we need in clothes now.
Prices have never been so low.”*

Never has been a time when one could dress so well at such modest cost. Values are being offered now that we will look back upon with amazement—and perhaps a little chagrin that we did not take advantage of them when the opportunity was presented.

Building costs too are low, and construction work done now will multiply in value.

These opportunities will not last always!

Read the advertisements in this paper and buy—judiciously.

Memphis merchants are making sacrifices in many of the bargains offered—but it will help them—and you—to buy what you need.

SOMETHING FOR THE KIDDIES

THE summer months, more generally spoken of as the vacation period, more particularly in a family that boasts several youngsters, present a real problem for parents. Children who have been in school for the nine months period have very little to do since school is out. Mowing lawns, helping with the housework and doing all the little tasks incident to home life, fail to keep them busy. Even a week-end or a vacation spent away from home accentuates, rather than solves, the problem of enforced idleness.

The Democrat carried an announcement last week that Mrs. J. A. MacMillan was starting a weekly vacation play and story hour for children between the ages of five and thirteen. It is designed to have this hour available to all interested children, and it seems to us parents would do well to see that their children are enrolled. It will mean much to them in the matter of recreation and education. It is a move of which we approve heartily and we appreciate Mrs. MacMillan's readiness and willingness to do something really worth while for the kiddies of Memphis.

A PERMANENT GIRL SCOUT CAMP

A lasting benefit has accrued from the encampment of girl scouts at Wayside Park last week in that it has been decided to make the camp permanent. It is just as essential to provide facilities for girls as for boys. With this camp functioning from year to year, it will be something for girl scouts to look forward to and will enable them to plan their vacation with a period in camp included.

In time, it would be a fine thing if suitable camp houses were erected, with the citizenship of Memphis backing the movement. The camp this year was conducted at very little expense to the forty girls who attended, and as the camp grows and the enrollment becomes larger each summer, not only will the opportunities for recreation and education be broadened, but the expenses should show a decrease. We hope the time is not far distant when girls will be given an equal opportunity with boys to meet the possibilities of the future by an increased interest and attention paid to their interests and activities.

THE CONTENDER IS DEFEATED

CAL FARLEY put up a good battle, but not quite good enough to dethrone Jack Reynolds, holder of the world's welter crown in wrestling. Those who saw the fight say that the match was far from spectacular until the closing minutes. After putting Farley's shoulders to the mat, the Amarillo man did his utmost to make up to the cash customers for Reynold's feat, but was unsuccessful. Farley has a fine spirit, anyway, and we believe he is still in the running for the welter crown. Better luck next time, Cal.

THE DEBT HOLIDAY

THE war debt moratorium plan, as outlined by President Hoover, comes as an eleventh hour attempt to stem the tide of world-wide business depression. Regardless of the fact that it is being hailed by leaders of both the Democratic and Republican parties as a master feat, there is no use denying the fact that the move has its political significance. In other words, were it not for the fact that Hoover is trying to get the country in a good humor with him, we doubt seriously if the thought would have ever suggested itself to his mind.

Back of it all, as we view the matter, is political expediency. Hoover knew and knows that he must do something far-reaching, out of the ordinary to stand a chance of being re-elected President, even should the Republican party be foolish enough to nominate him. Probably at the suggestion of the real President, one Andrew Mellon, the happy thought dawned on Hoover that he might become a world savior over-night, cinch the Republican nomination and put up a bold front against the certain Democratic onslaught and very probable election of Franklin D. Roosevelt.

Regardless of the expediency of the plan or any other consideration, it goes without saying that it has its merits and will probably boost business, temporarily, at least. The upward trend of stocks, the advance in price of cotton and the generally more favorable business outlook must be taken as an omen of better times. Whether they will last over any considerable period is up to the Hoover cohorts, largely, and it stands to reason that they will want to make the results as lasting as possible due to the fact that 1932 is another political year.

CLARA'S HAIR CHANGES COLOR

THERE are few people in the United States who have not heard of Clara Bow, one of the sweethearts of modern cinema art. We have never thought that Clara was a great actress, but in her particular field, she loves and is the recipient of love in the most approved modern form. Until recently, she has had "flaming red hair," so publicity men tell us, and now her hair is yellow. She has changed the color of her hair for reasons best known to herself.

Clara is like most of the other motion picture celebrities. She is good front page copy, but if she gets involved in a few more scrapes, her career as an actress for the silver sheet is limited. Even notoriety becomes monotonous, if there is too much of it and the papers have been full of Bow now for half a year. It stands to reason that if the wild life she is supposed to lead is maintained, her hair will turn still another color—very likely white this time—and the little Brooklyn girl will do her last fadeout, inconspicuous and all but forgotten by the fans who have paid her tribute during the years of her stardom. This is real life and Clara Bow would do well to consider it before getting too much publicity of the wrong kind.

Better Understanding Has Developed Between Physicians And Druggists As Medicine And Pharmacy Advance

The drug business has evolved to some extent, but in its fundamentals, it remains largely unchanged. U. S. P. standards are revised every ten years with some additions and some deletions of remedies, but no very great changes come within a generation. Biologic or serum treatment has come largely to the fore in recent years, greatly strengthening the arm, particularly of preventative medicine.

The prescription department is the cornerstone of the drug business. The myriad bottles that grace the prescription department have enlarged to some extent, due to the discovery of new remedies, in particular, the legion of products known as the coal tar derivatives, as Phenacetin, Veronal, and others that relieve pain and reduce the bodily temperature.

Physicians' prescriptions are more legibly written and less obscure than formerly. Prescription departments are usually kept more clean and orderly. "Pharmacy is the handmaiden of Medicine." There has been no great change in the relation of doctor and druggist. The professions are mutually dependent. The surgeon and the druggist must be quelling in their work. Perhaps no avocations come more directly in touch with the ills that the human flesh is heir to, than do the physician and druggist and the practice of the good Samaritan is a part of the day's work. The altruistic work is unsurpassed.

The modern hospital clinic gives the physician today superior advantages over the early practitioner. But despite the X-Ray and other aids to diagnosis, the doctor must have the intuitive faculty and sixth sense if he is to have the success that should attend his efforts.

Broadly speaking, when times are good, the physician's income is fair. But on the whole, year in and year out, no other calling contributes more to charity than does the profession of Medicine. Occasionally, there comes the true disciple of Hippocrates. Locally, we had that man in the person of Dr. C. F. Wilson, of kindly memory. In diagnosis, he had the true instinct, the sixth sense, that could discern the most obscure trouble. Cool, erect, self-confident, he had all the attributes of the true physician. It has been said a man can always be replaced. Not always. Perhaps not in a generation or two will there recur in the community another C. F. Wilson who possessed the rare qualification of the good diagnostician, as also that of the successful master of the practice of medicine.

In an early day, there was no soda fountain in the drug store. It was the temperance successor of the saloon, and with its thirst-quenching beverages, its array of silver, marble and polished glass, it afforded today the drink without a headache. The drug and

prescription end comprise the major part of the business, but the fountain, especially during the hot season, affords healthful drinks, as also a pleasant rendezvous for friends.

Misunderstanding between the doctor and druggist has largely disappeared. They have learned the two professions are mutually dependent. Of course, the professions, as that of families, have their black sheep. But generally speaking, there is today mutual trust and respect between the doctor and druggist. The one in weighing and dispensing poisons and dealing with the compatibility of chemicals; the other in the art of diagnosis and the skill and precision with which he uses when necessary the knife. Both feel, upon occasion, the grave responsibility that is theirs.

With the increasing complexity of modern life, the doctor and druggist today regard their callings generally, if possible, with a larger sense of responsibility. Of Medicine and Pharmacy, we may say with Tennyson:

"Yet I doubt not through the ages
One increasing purpose runs,
And the thoughts of men are
widened with the process of the
suns."

"I have used Black-Draught . . . and have not found anything that could take its place. I take Black-Draught for biliousness. When I get bilious, I have a nervous headache and a nervous, trembling feeling that unfits me for my work. After I take a few doses of Black-Draught, I get all right. Tickets Are Ready For Olympic Games

LOS ANGELES, Calif.—Application forms for tickets to the games of the Xth Olympiad to be held in Los Angeles from July 30 to August 14, 1932, are now being issued, according to the Los Angeles Organizing Committee.

Several hundred thousand special booklets containing the complete program of events and ticket information are ready for distribution to applicants.

For over a year the local committee has been at work with the official Olympic groups throughout the world in arranging the 135 separate programs of events. The aim of the committee has been to provide a balanced program and a scale of prices within the reach of everyone, with special consideration to children.

Three types of tickets will be sold, the Olympic Stadium pass, a season ticket for several of the individual sports and a ticket for single programs.

Because of the historic character and educational value of the Olympic Games, greatly reduced prices on all season tickets will be granted to children under 16 years of age, providing they are purchased with adult tickets.

The Olympic Stadium pass, admitting to 27 programs of events, and designed to be kept as a souvenir and also admitting the holder to the same reserved seat in the Stadium during the 16 days the Games are in progress, will sell for \$22 to adults and for \$11 to children when they are purchased with one or more adult tickets.

Thus the average cost for each event in the stadium will be approximately 80 cents for adults and 40 cents for children under the Olympic Stadium pass plan.

A season ticket for boxing events to be held in Olympic Auditorium August 9-13, inclusive, will cost \$12 for adults and \$6 for children under 16 years and will admit the holder to all matches mornings, afternoons and evenings.

Cost of a season ticket to the wrestling bouts to be held in Olympic Auditorium, August 1-7, inclusive, will be \$9 for adults and \$4.50 for children, admitting at all hours day and night.

Grandstand seats for rowing events to be held August 9-13, inclusive, at Long Beach Marine Stadium will be \$14 for adults and \$7 for children.

A season pass to the Swimming Stadium, in which the swimming, diving and water polo events will be held from August 6-13, inclusive, will cost \$15 for adults and \$7.50 for children.

Adult season tickets for fencing in the State Armory from July 31 to August 13, inclusive, will cost \$10 and those for children \$5.

Tickets for single programs at the various stadiums, auditoriums and water courses will range from \$1 to \$3 in price.

Applications for Stadium passes and season tickets will be acknowledged with certificates and the tickets will be mailed after May 15, 1932. Applications for single events, however, will not be received until after March 15, 1932.

FROM THE PEOPLE

Newlin, June 29, 1931. To the Democrat:

I want to correct the mistake of last week's issue stating the car accident that happened on the 17th in the Gilpin community on the Skinner hill. The car was driven by Weldon Martin, son of Mr. and Mrs. Henry Martin. This boy was 16 years old and received a crushed skull over the right eye and a cut over the left eye and a bad gash on the leg just below the knee. He was carried to Childress to the Morgan Hospital and is doing fine. The other boy was Auba Harris, 9 year old son of Mr. and Mrs. A. W. Harris who live near the Gilpin school. This child received several gashes about the body and a slight skull fracture and several bruises about the head and body. He was carried to Memphis to Hyder's Hospital where he is resting nicely and hopes of his recovery are some better.
