on the lookout for brass and hunting knives. No I on the war path. It's just young friend of mine in the Corps and some friends me to help them find articles of defense and offer to pay for the but I know there are here at home will be glad to them. Whether as donation, bring them to the office and I will see they are sent to the Marines on the request. Perhaps I quote this fighting Maquest: Mr. Wells: You have helping young men in the serving myself; but there is request I would like to A few of my friends and are VERY MUCH in need of knives and brass. We will pay well for and I promise you they will be good use. My class for 8 or 10 weeks. When showed up good here. The Texans and myself went through Parris Island, were with the best 25 138 men. I am proud of being spirit Texans show. Pfc. John Keith Wells, USMC, Quantico, Va.

### New Regulations On Replacements Of Ration Books

#### Up to Individual to Do Everything to Prevent Books From Being Lost

New uniform regulations governing replacement of War Ration Books One and Two were issued today by the Office of Price Administration with a warning that it is up to the individual to do everything in his power to prevent the books from being lost or mutilated. The new regulations also apply in cases where ration books are being wrongfully held by persons other than their rightful owners and to the replacement of coupon sheets which are used for rationing some commodities such as fuel oil. Under the new regulation, the person desiring to replace a ration book or coupon sheet must apply to his local War Price Board on Form R-315. In case of a mutilated book, the board shall determine whether it is willfully mutilated. If not, a replacement (so marked) may be issued and the old book destroyed. In case of a lost or stolen book, the form must be made in duplicate and the local board must forward the second copy to the enforcement section of the state or district office. It also may require the applicant to report his case to the police. Ten days after the first application is filed the applicant may return to the board. The board, then may examine the facts and, if satisfied may issue the replacement. If it appears necessary, the board may require the applicant to appear at a hearing before issuing the replacement. If the board finds that the book was lost or stolen through negligence on the part of the owner it may hold up issuance of the new book for as long as sixty days. Books issued as replacement books, less the stamps which were used and those which expired before the time of replacement. In cases where an applicant is wrongfully withholding his ration book or books from him, the board will hold a hearing at which the alleged wrongful holder will be required to appear, bringing the applicant's book. If the board finds that the ration book is unjustifiably withheld, it will order the book surrendered to the applicant. If the wrongful holder fails to appear at the hearing or to surrender the book, the board will issue a new ration book to the applicant and report the wrongful holder's action to the State or District office. This action was taken in Proclamation Regulation No. 12 effective March 29.

### EASTER SERVICE PLANS ADVANCED

Plans are being furthered each week for the Sunrise Easter Service to be held April 25 in the amphitheater at the city park. T. E. Noel and D. L. C. Kinard were in Childrens Tuesday and secured the services of Mr. Howard Gee of the USO to bring a group of Childrens singers to participate in the group singing. They also contacted a soloist to sing "The Holy City" and Pvt. Charles Jacob, who is to play a reveille and several other numbers preceding the program.

### Funeral of Father Is at Stephenville

Mr. and Mrs. Guy Wright and children of Clarendon and Mr. and Mrs. Claud Johnson were called to Stephenville Tuesday to attend the funeral of Mrs. Wright's and Mrs. Johnson's father, Mr. E. S. Howell. Mrs. Johnson had just returned from Stephenville where she had visited her father who had been ill for several months.

### Little Damage Done In Fire at Potts

The fire department answered a call Monday afternoon at the Tommie M. Potts home where very little damage was done. The fire was in the lot back of his house and about 200 bundles of feed and about 25 feet of picket fence was destroyed.

### Cattle Feeding Is Being Discussed

There are to be five more meetings at the Salisbury school house where milk production is being discussed, with Dr. L. M. Hicks as leader. These meetings are each Monday and Wednesday nights at 8:30. Last night, the discussion on feed was started. More stress is being placed on the feeding of cattle than on any other thing except diseases in this milk production course. There has been good attendance at each meeting and everyone who is interested is invited to attend these last five discussions.

### 49,382 Bales Of Cotton Ginned

Increased by 1,677 bales over last year, the official total bales of cotton ginned in Hall County for 1942 is 49,382, as released to C. Lee Rushing, special representative of the census bureau. This figure is prior to March 1 and compares with the number of 47,705 of last year. The past two years have shown a marked increase as compared with the following tabulation: 1942, 49,382; 1941, 47,705; 1940, 26,084; 1939, 13,998; 1938, 27,643; 1937, 49,857. Ginnings for other counties for this year in this area are: Collingsworth 31,176; Cottle 31,192; Childress 29,905; and Hardeman 25,842.

### Memphis District FFA Holds Annual Meet Saturday

#### Leadership Contests Purpose Of Meet in FFA High School Department

The annual meeting of the Memphis District FFA will be held here Saturday, April 3 at 10 o'clock at the high school in the FFA Department for the purpose of the district leadership contest. There will be three contests held, namely news writing, public speaking and farm demonstration. Miss Travis and Mrs. McCool will judge the news writing contest. Miss Boggs and Mrs. Pitcock will be the judges in the public speaking and the farm demonstration will be judged by Charles Williams and Cecil Lockhart. Representatives for these contests are chosen from each school department to participate in these contests. Schools represented will be Turkey, Clarendon, Estelline, Lakeview, Clarendon and Memphis. Expected to attend this meeting are O. T. Ryan of the Area office at Lubbock, T. L. Leach, assistant professor of Vocational Education of Lubbock, and W. A. King, district supervisor of Rural War Production program, Lubbock.

### Town and Farm In Wartime

(Weekly News Digest prepared by the Rural Press Section, OWI News Bureau)

No Restrictions on Food In Lockers  
Food in frozen food lockers may be used by farmers and other consumers without rationing restrictions. The total amount of perishable food stored in lockers in private homes, on farms, and in commercial plants is considered too small to justify the inconvenience it would cause all consumers either to have this food declared, or to place any legal restrictions on its use.

Farm Machinery  
The Government freeze on the last item of farm machinery needed for food crop production has now been lifted. Distribution of new machinery is expected to be issued to manufacturers before April 15. Approximately 75 percent of all types of rationed farm machinery, taken by OPA March 18, 1943, at the country shipper and other distributor levels. The amendment became effective March 25 and is expected to help curb the potato black market.

Restrictions on Seed Potatoes  
Seed potatoes cannot be sold by retail stores for any purpose other than planting. OPA has announced. OPA has also ruled that seed potatoes must be tagged as such in sales at retail and can not be sold by retailers in quantities of less than 50 pounds. Similar steps were taken by OPA March 18, 1943, at the country shipper and other distributor levels. The amendment became effective March 25 and is expected to help curb the potato black market.

### Hall County Exceeds Red Cross Quota

The recent Red Cross drive shows that Hall Countians are all out for Victory as the amount of \$6,538.81 has been turned in to the leaders. The quota for this county is \$5,100.00.

### George M. Springer Funeral Services At Lakeview Monday

#### Resident of Hall County For Past 36 Years Dies Here Sunday Morning

Death claimed one of Hall County's pioneer residents when George M. Springer passed away Sunday morning, March 28, at 7:40 at the age of 74 years. Funeral services were held from the First Methodist Church at Lakeview Monday, March 29 at 3 o'clock, conducted by Rev. C. C. Hardaway assisted by Rev. E. L. Yeats. Interment was in Lakeview Cemetery by King's Mortuary. Pall bearers were Tommie M. Potts, B. E. Davenport, H. L. Davenport, J. G. Henders, Henry Moore, Morris Robertson. George Madison Springer was born May 30, 1868 in Missouri. He moved to Texas at the age of 7 and settled with his family near Waxahachie. He was married to Miss Rowena May Reed in 1888 at Italy and they moved to Hall County June 17, 1907. Mrs. Springer preceded him in death on November 16, 1941. Mr. and Mrs. Springer ran a rooming house in Memphis for several years, but a few years ago they moved to their farm near Lakeview. He united with the Methodist Church about 25 years ago and remained a faithful member until his death. Mr. Springer was well known throughout this section of the country for his fair dealings and his neighborliness. Surviving are two sons and 3 daughters, Floyd Springer of Memphis, Ross Springer, Lakeview, Mrs. G. S. Armstrong, Dimmitt, Mrs. Myrtis Woodall, Wichita Falls, Mrs. A. M. Canady, Overton; ten grandchildren and five great-grandchildren.

### Rotarians, Anns Entertained by Bob Clark of Shamrock

#### Annual Affair Goes Over Big Without Speeches Or And Set Program

Magician Bob Clark of Shamrock entertained and mystified Rotarians, Anns and guests Tuesday night in the dining room of the First Christian Church. Clark has a repertoire of sleight-of-hand and tricks of magic that places him in the class of big entertainers. While having to use a crippled hand, his tricks went over big with the audience. The magician furnished all the program, other than introduction of Anns and guests and some congregational singing. The regular Tuesday luncheon was postponed to that evening in order to have the Anns present. The dinner was prepared and served by the ladies of the First Christian Church.

### Former Memphis Girl Dies Tuesday

Miss Onetta Hollis died Tuesday afternoon at the home of her parents, Mr. and Mrs. O. C. Hollis in Edinburg. The funeral service will be in Edinburg on Thursday afternoon at 4:15. The cause of the death was not learned here. Miss Hollis formerly lived here with her parents and was employed as a head of the Hidalgo County Ration Board. Deceased is survived by her parents and one sister, Mrs. L. F. Jones of Altus, Okla.

### Training Program Plans Complete

Plans are complete for the qualifying examinations to be given on Friday morning at 9 o'clock, April 2, in Room 2 at High School, for the Army Specialized Training Program and the Navy College Training program, according to W. C. Davis and Buren Carr, who are in charge. For the Navy, high school graduates and seniors who will be graduated by July 1, are eligible to take the test if they are between 17 and 20. Those who pass the aptitude test on April 2, and later a physical examination will go before a selection board. Successful candidates will be enrolled in class V-12. The Army plan does not send successful applicants directly to college, as does the Navy program. It guarantees only that the result of the preliminary test on April 2 will be considered, along with the candidates' showing during 13 weeks of basic training as a soldier. High school graduates between 17 and 22, and high school seniors between 17 and 20 are eligible.

### Lakeview Boy Gets Honors at NTSTC

H. F. Cunningham, Jr., of Lakeview, senior student at North Texas State Teachers College, is among 15 per cent of the student body named on the "Dean's List" according to announcement from NTSTC. Qualification for the Dean's List requires a "B" average or above on work done by juniors and seniors the last semester in school. A student whose name appears on the list is given special privileges on class absences. Cunningham is a member of the Pi Omega Pi and Grammaton honorary societies. He is working toward a bachelor of science degree in business education.

### Hedley Minister Speaks to Lions

The Lions Club had as their guest speaker, Rev. Bob Jenkins of the First Baptist Church of Hedley at their meeting Wednesday at the Methodist Church. Rev. Jenkins gave an interesting address on "What People Talk About." Rev. S. F. Martin introduced the speaker. A quartet composed of Gene Barnett, Dr. M. McNeely, Buren Carr and Edwin Gilliam, accompanied by Mrs. M. McNeely, gave several numbers.

### COMPANY OF 61 MEN ORGANIZED

#### State Official of Texas Defense Guard Inspects And Accepts Company

Sixty-one men were inducted into the Texas Defense Guard Wednesday night at the high school gymnasium, when Major Thomas W. Gahagan, instructor-inspector was here to inspect the company for State recognition. This company will be known as Company D, 41st Battalion, Texas Defense Guard, with headquarters at Childress.

#### Visiting officers here for the induction were Captain Hughes of Childress, Lt. Higley, Childress, Lt. Brown of Childress and Chaplain Bridges of Floydada.

There will be two regular weekly meetings of the Defense Guard, Tuesday and Friday nights. The meeting Friday night will be at the high school — but it is likely that most of the drilling will be at the football stadium. The armory, where all equipment is kept, will be in the vault in the sheriff's office. The unit is not completely organized yet and all officers and non-commissioned officers will be announced next week. Listed are the men who were inducted: Joe A. Adcock, Little G. Bernard, James J. Bice, Barney Blocker, Jack L. Boone, Earl E. Briscoe, Roy B. Brock, Louis R. Browning, Adron M. Burkhalter, Willie H. Butler, William E. Clark, Jr., J. T. Crawford, Coy L. Davis, Robert L. ### Memphis Praised By Army Officer

Memphis has long been known as "the friendly city." Lately an Army officer came in contact with some of the citizens and it made such an impression on him he placed it in writing. The letter is reprinted below:

Albuquerque, N. M. March 27, 1943  
Deputy Sheriff, Memphis, Texas.  
It is seldom that an Army man, in the course of his daily sundry duties, has the opportunity of contacting and enjoying an association with the civilian population. Our usual tasks keep us restricted to our specific camps to a great extent. However, on Wednesday, March 17, I had the pleasure of passing through your town with a complement of 17 men on convoy. I, with gratitude, wish to thank sincerely the management of the Memphis Hotel, the citizens in general, and —ourselves, for the cooperation, courtesy and consideration extended to myself and my men. Each was high in his praise of your collectively friendly treatment. My thanks should, I think, be more widespread than to just yourself. May I request that you post this letter in some conspicuous place so that all who pass by may read it. Hoping to see you all again in the not too distant future, I remain sincerely,

## Cressie Faye Davis Marries March 15 In Roswell, N. M.

Miss Cressie Faye Davis, Phoenix Arizona, and Sgt. Doyle J. Nester of Wolf Penn, West Va. were married at high noon Monday, March 15.

The ceremony was read in Roswell, N. M., in the presence of a few friends in the home of Mr. and Mrs. Allen E. Johnson by Mr. Johnson, minister of the Church of Christ.

Mrs. Paul Heaston of Phoenix was matron of honor. She wore a sheer aqua street length dress. Sergeant Dot- of Roswell was best man.

The bride wore an aqua wool sport coat. Her hat and gloves were white and her bag and shoes were soldier tan.

Mrs. Nester is the daughter of Mr. and Mrs. W. M. Davis of Memphis and a graduate of Wellington high school. For the past two years she has lived in Phoenix with her sister, Mrs. J. D. Rotawell. She was formerly employed at a department store until recently when she began work at the Goodyear Aircraft plant.

Sergeant Nester is the son of Mr. and Mrs. N. J. Nester of West Penn. He is a graduate of West Penn high school and for the past 14 months has been in the Army Air Forces. He was formerly stationed at Luke Field, Ariz., and transferred to Roswell Air Base last June.

Sergeant and Mrs. Nester are at home at 505 South Richard, Roswell.

## Miss May Belle Carroll of Taylor and Ensign Jerrel B. Rapp of Estelline Wed

Mr. and Mrs. J. I. Barnes of Taylor announce the marriage of their daughter, Miss May Belle Carroll, to Ensign Jerrel B. Rapp of Estelline. The wedding was solemnized at the First Methodist Church of Corpus Christi on Saturday, March 27, with Dr. William H. Wallace Jr. officiating.

The bride has a B. A. degree from the SWTTC with additions from the University of Texas, Austin. The groom is a graduate of Texas A. & M. College. He recently received his commission as Ensign and wings in the U. S. Naval Air Corps at Corpus Christi.

Mrs. Rapp was the recipient of many courtesies including a dinner party in the Morocco Room of the Robert Driscoll Hotel at Corpus Christi. The announcement was made through the bride's sorority, Delta Delta chapter of Beta Sigma Phi.

The couple visited in the home of their parents, Mr. and Mrs. C. A. Rapp, after which they will report to Miami, Fla. There Ensign Rapp will take additional flying work for the United States Naval Reserve.

## Betty Crocker KITCHEN CLINIC

prepared for The Democrat by Betty Crocker Home Service Department

**THEY'LL LIKE THEIR VEGETABLES THIS WAY**

"It's hard enough trying to think up things to eat at this time of year without having rationing, too, to worry about," a woman complained as she wandered around a grocery store the other day.

"I know," a sympathetic neighbor answered. "It seems like my children get sick of the same old carrots and potatoes and things they've had all winter. They get peevish and just won't eat. And I try to fix things lasty too."

I wish I could report that the grocer's wife who overheard this conversation had been able to save the day with just the help these women needed. But she told me she felt just the way they did—that it's terribly hard to make vegetables interesting at this time of year before the fresh new garden vegetables are ready.

**New Ways With "Old Standbys"**

Of course, a new and attractive way to serve the carrots and potatoes and other year-around vegetables would help. So here are a few suggestions. We've tried them on the members of my staff and even those who claim they don't care much for vegetables ate them with genuine relish.

**Golden Potatoes**

A serving dish heaped with what looked like mashed potatoes—only they were the color of carrots. Someone wanted to know if they were mashed sweet potatoes. But they weren't. They were simply carrots and potatoes mashed together. One girl who doesn't like carrots remarked that "a dish like that takes the curse off the carrots." We've called the recipe "Spring Fancy" because it's a grand spring-fever chaser.

**SPRING FANCY**

Cook 2 cups silvered carrots (scraped only if necessary) and 2 cups silvered, peeled potatoes in boiling salted water in a covered pan until tender (about 10 minutes). Drain. Toss lightly with 4 tsp. margarine or butter, 1/2 tsp. pepper, and 1/2 cup minced parsley (if you can get it). The recipe serves 4.

**CHRYSANTHEMUM BEETS**

Instead of serving beets sliced in discs—try this for a change—pare the beets. Shred with a medium shredder. Add a small amount of boiling water. Cover tightly and cook 10 minutes. Season with butter or margarine, salt and pepper.

**VEGETABLE POTPOURRI**

Or try this flavorful and attractive combination of vegetables—Combine 3 cups coarsely cut cabbage, 2 cups sliced carrots, 1 cup chopped onion, 1 cup chopped celery, 1 1/2 tsp. salt, 1/4 cup salad oil and 1 cup boiling water. Cover and cook until tender, about 20 minutes. This serves 8.

**Other Vegetables Can Be Cooked The Same Way**

Use 2 cups vegetables, 2 tsp. salad oil, and enough boiling water to evaporate by time the vegetable is cooked. Add salt and pepper.

**COLORFUL COLE SLAW**

Combine 1/2 cup each—salad oil, vinegar and sugar. Mix well. Add enough of this dressing to moisten a mixture of 2 cups shredded cabbage, 1/2 cup grated carrots, 1/4 cup green pepper, cut in strips, 1 tsp. grated onion. Toss lightly. Salt to taste. Serves 6.

**CAULIFLOWER LEAVES**

Ask your grocer to leave the leaves on the cauliflower head. Save the leaves nearest the head. Trim off the lower part of the rib if it is tough. Cook in boiling salted water to cover 15 to 20 minutes. Drain and add butter, salt and pepper. Or chop and add to the white sauce.

## A MESSAGE FROM EDDIE RICKENBACKER

**EASTERN AIR LINES**  
INCORPORATED  
EASTERN AIR LINES BUILDING - 30 ROCKEFELLER PLAZA  
NEW YORK

As I have had the privilege of seeing and talking to our boys in the combat zones in the old world and throughout the Pacific, I am convinced that if our people on the home front knew what these boys are going through in the hell-holes of the world for us, they would not worry about taxes and war bonds.

The least we can do is to accept the privilege of paying taxes and buying more and more war bonds to finance and win this war in the shortest possible time, thereby saving the lives of thousands upon thousands of the cream of our young manhood and additional billions of dollars for the cost of it.

## That Nagging Backache

**May Warn of Disordered Kidney Action**

Modern life with its hurry and worry, irregular habits, improper eating and drinking—in the risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-laxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

## Women Work—Auxiliary Notes Civilian Defense

Why do the women have to make so many surgical dressings? Because the commercial manufacturers do not have the facilities nor the labor to make war time quotas for the army. During the last four months of 1942 80 million dressings were turned over to the army. Ten million were sent to Russia, three million to Australia. Since the beginning of the war in 1939, approximately 90 million have been received at warehouses for Foreign War Relief. Figures are never interesting but they are convincing.

Aux. Della Coleman, daughter of Mr. and Mrs. J. P. Coleman of Quail, Texas, is one happy girl. "I gave myself the biggest break of my life when I joined the WAAC," she said. "Now ever since I joined they have been giving me the breaks. I've got everything I asked for. When I finished my basic training at Fort Des Moines, I asked for recruiting duty and got it. When I finished my special course in this, I asked to be sent to the Eighth Service Command, I just up and asked to be sent to Lubbock, since it is near my home—and if they didn't do just that! I feel like saying: 'All this and Heaven too!' Practically all of us in recruiting had our choice of where to go. Many didn't care about coming back to their home territory, but I sure did. I'm a Texan, and I wanted to get back here and tell all the girls in my part of the State what a grand thing the Woman's Army is and what a thrill they are knocking themselves out of by not belonging to it." Aux. Coleman reported to the Amarillo sub-station Monday, March 22, where she will assist in recruiting until further orders.

Corporal Ruby O'Neal is now stationed at Norfolk, Va., arriving there last week. She will tell us of her special duties there soon. Her brother, Lt. James O'Neal, who is covering himself with glory in North Africa, must have a warm feeling to know she is helping him to win the war.

Two hundred and two WAAC'S are now stationed in North Africa. Most of them are French and French speaking telephone operators.

### NEWS about boys in the Service

Sgt. Guthrie Bennett writes from the Hawaii Islands concerning renewing *The Democrat*. A few sentences from his letter are quoted here: "This is a beautiful place even under war-time restrictions. Haven't seen light at night for nine months. The last time I talked to Mother and Dad the radio was playing 'When the Lights go on Again all over the World,' and I thought it rather appropriate. I have a grand set-up and have been very lucky during all this. I see some of the Hall County boys every few days. Am expecting a visit from M. E. McNally soon. Have seen him several times since coming over here. I enjoy and spend a lot of my time on the beach at Wakiki as there is no off season for swimming over here. Have enjoyed very much seeing the sights at Pearl Harbor as well as Honolulu. Lot of interesting things that could be told but they will have to wait. Am on the sea so much, business and pleasure, that I don't have time to get home sick. I think this has been a short thirteen months and hope the next are the same way. Will say 'all pau' for now. The Wabaians are not bad either, a little dark but very cute. Best regards."

Three Pounds of Sheep, Wichita Falls, came a visit here with D. Saunders talked on from California of his family. He is now in the South and had arrived back in Memphis the son of Mr. R. Saunders and has U. S. Navy for the month.

W. Rasco of Fort Worth, came Saturday with his parents, Mr. G. Rasco. He has been an aviation cadet and is now at Randolph Field on 15 day furlough.

Goodnight came a visit here with his wife, W. H. Goodnight and at Luke Field.

Mrs. Gerald Rapp visited with Mr. and Mrs. Hall and Miss Charline Rapp recently returned in the U. S. Naval Air Corps Christi and is now at Miami, Fla., will be stationed.

Foxhall is visiting his father, F. N. Fox, at Ellington on Saturday, March 29.

Campbell, former of *The Democrat*, is promoted to a second class petty officer as a boat-swain's mate. He is stationed in Farragut, Idaho, and is now a company commander.

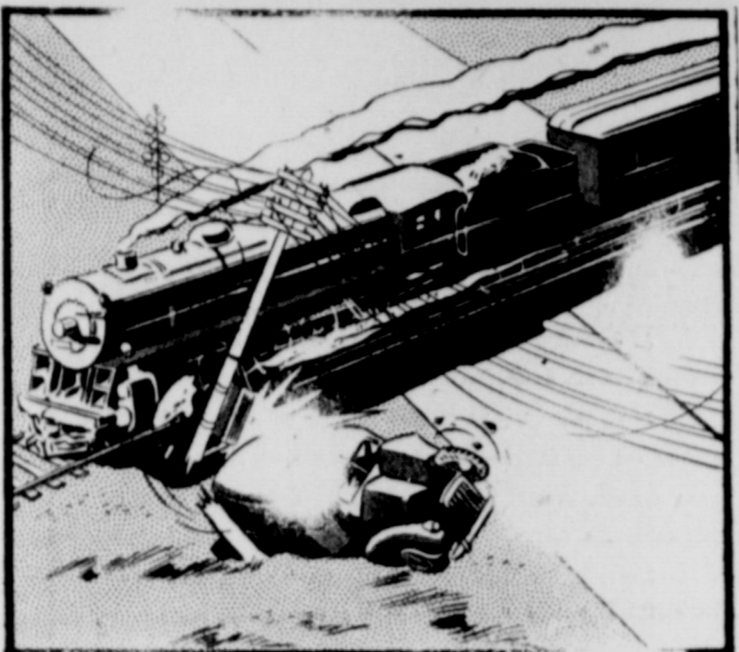

well, 1st. class Petty Officer U. S. Navy, came a visit here with his mother, Mrs. Alla, who is en route to San Francisco.

Spear visited here last week with Mrs. George Thompson recently graduated from training school in Virginia en route to San Francisco where he will be stationed.

### Fertility Increased By Minerals in Feed

Minerals combined with live stock feed often can help prevent some of the nutritional troubles which cattle suffer. But an even more important result has been obtained from the proper use of minerals in the ration. Demonstrations have shown that beef cattle fed mineral supplements produced about 30 per cent more calves than cattle which got none. The addition of minerals to the feed increases fertility. According to experiment about 80 per cent of the heifers which were fed bone meal calved, compared with about 60 per cent of the animals fed no added mineral. Both minerals available in bone meal which fed along with all other hand, green forage ordinarily contains the required amount of the minerals and the benefit of adding them might prove less profitable — not have visible results.

### Look! Listen! Live!

The engine was necessary to cut out Pullman car due to flat wheels. The National Safety Council is conducting a special campaign to stop these accidents, which every day delay 38 trains a total of 22 hours—a big blow to the nation's war transportation effort. Driver carelessness is the cause of almost all these accidents, according to the Council. To help win the war—to save yourself and others needless suffering—the Council asks you to be sure the track is clear before starting to cross.

Mr. and Mrs. Horace Sheaffer and Mr. and Mrs. Oren Waite were Childress visitors Friday. Mr. and Mrs. J. J. Hall visited in Memphis Sunday. They also visited Mr. and Mrs. Hugh Lambert and family Sunday afternoon. Mr. and Mrs. Odell Newbrough and family visited relatives at Clarendon Sunday. Y. Z. Taylor of New Mexico is visiting with his parents, Mr. and Mrs. H. M. Taylor. In Oakland, Calif. 200 women were sworn in to serve at policemen in case of emergency. If nothing else, they'll arrest attention.

### Helpful Hints On Poultry Raising

Hall County farmers have been asked to produce eleven per cent more eggs this year than they did in 1942. The increase is equal to about twenty-seven million dozen. They are asked to increase the amount of poultry meat also. Poultry meat, you know, is one commodity which is not rationed. To obtain more poultry meat it will be necessary to increase the number of chicks started, and also the number of fryers and roosters. To do the job successfully each producer should plan to start at least two groups of chicks. Arrange one to come off early, February or early March, and another as soon as the early group can be removed from the brooder house. It will be an advantage to raise straight run chicks this year. Cockerels could be fed out as heavy fryers and sold at a good price in the spring. Producers should buy the better grade of chicks from a reliable hatchery, preferably one which operates under the National Poultry Improvement program, or one conducting a comparable program. To avoid transportation difficulties buy chicks as near home as possible. Helpful hints to remember: Do not attempt to economize on feeding; feed a complete ration, especially the starter ration; Allow each laying hen three square feet of floor space; Allow at least one square foot for each two chicks in a brooder house, one square inch of feeder space per chick; And provide at least one quart of water for each twenty-five chicks.

### Home Gardeners Given Tips On Early Planting

Home gardeners are temporarily suspended between the reasons of frost-hazard and frost-free temperatures, says J. F. Rosborough of the A. & M. extension service. But that is no reason why they should allow the hoe, rake and fork to become rusty, he adds. They can begin right now planting vegetables which are reasonably resistant to frost. There are enough vegetables in that class to give gardeners a warm-up for the bigger job of planting when the danger of killing frosts is behind them. Potatoes, for example, should be put into the ground as soon as possible. Sweet corn, and second plantings of mustard greens and lettuce—leaf lettuce this time—should be planted in early April in warm weather. Black Seeded Simpson is a good leaf variety. The horticulturist cautions to get a variety of green corn adapted to Texas soils. The northern kind isn't suitable. Iowa, a deep yellow grain type, is perhaps the best. But Honey June, Sure Cropper Sugar and Truckers Favorite also gives good results. When the corn is 10 to 12 inches high thin it to a spacing of about two feet in the row. When danger of frost is past, it is time to start on with planting beans, butter beans, squash, cucumbers, okra, green peppers and tomatoes.

### What You Buy With WAR BONDS

The tradition of American cavalry threads back to Indian warfare days and although modern armies are largely motorized today, the cavalry still plays an important role. Sturdy, well trained horses and excellent equipment and trappings are necessary.

When men are in the saddle for hours, their saddles, saddle rolls and other equipment must be made to stand the wear. Complete with carbine and helmets, the equipment for the cavalryman runs into hundreds of dollars. You can help provide this with your War Bond purchases. If you have not done so, join the Payroll Savings Plan and put ten percent of your income into War Bonds. U. S. Treasury Department

### WE DID IT BEFORE! WE DID IT AGAIN!

**C**ONGRATULATIONS to the leaders of the Red Cross drive and to every person who made any sort of donation, in any community of the county.

Hall County is well over the top on its quota this time, and most communities had reached their quotas in just a few days after the drive started. A great many people must have said, "Yes, I'm giving Double."

The Red Cross endeavors to—and does—keep our fighting men reminded that home is not so far away. If and when any of our sons need help, no matter how small or big the need, the Red Cross is there to help.

So, again, let's congratulate the workers of this drive and remember that they are leaving their businesses and using their valuable time to do this good work.

### LIVE OUT OF YOUR OWN BACK YARD

**A**LMOST every family in this county can make an important contribution to the war effort by living out of its own back yard. It is a patriotic duty to do so; and by so doing, you will find a new zest for living, healthful exercise, reduced food bills and a new delight in eating the vegetables of your own choice.

Under the rationing program you can buy only 33 pounds of canned vegetables and fruit per person per year. Dieticians tell us that we need 1460 servings of fruit and vegetables yearly, and if 160 servings are made from 33 pounds of canned foods, then we will have to manage for the other 1300 servings. We won't be able to buy as much fresh fruit and vegetables as before so this is just another way of saying: Grow A Victory Garden in 1943.

To millions of Americans, living out of their own back yards is nothing new. They have been doing it for years. Millions of those who do so as a war duty will continue after victory because of the fun, health, fine food, and economy this new experience will provide them.

## Press Paragraphs

SELECTED FROM THE DEMOCRAT'S EXCHANGE

### A County's Spirit

This issue of the Tribune-Chief reflects the desire of the people in this section to do all they possibly can to further the war effort. This county is one of the leaders in the state in enlistments per capita and those left behind manifest the same spirit in doing everything in their power to win a war. It is this cooperation between neighbors and people that produces results. The sentiment of all the people is to do something and if their actions do not accomplish something worthwhile it will be because of not knowing or misdirection. This county has and will put any quota set for it if it will in any way aid those who are fighting for what we consider this right.—Quannah Tribune-Chief.

### Green Bugs

Crop observations and reports of farmers reveal that green bugs are quite prevalent in most all fields of wheat and barley in this community. For the most part, the weather has been so cold and dry that the insect has not been developing rapidly. Conflicting reports say that a good rain would help get rid of the bug, which is a natural parasite of the green bug, seems to be present in some fields, and is quite likely helping to keep the green bug under control. Until weather conditions change, the most that should be said about the green bug is that they are very definitely a potential danger to our 1943 grain crop.—Tulsa Herald.

If, and when, you are tempted to holler to the high heavens when you find that your doctor is taking an afternoon off just at the time you need his services most, just remember that it is probably the best thing for everyone concerned that doctors receive a few hours of relaxation. It's mighty few that they get under any circumstances but when their work doubles and triples and then some, it doesn't take them long to play out. I know two professional men who are making it a practice to take one afternoon per week off the job, not as a matter of choice but they realize that the pace they have been going can't be maintained unless there are regular periods of relaxation.—Dahhart Texas.

### 38-45 Years

This draft deferment business certainly has upset men of the 38-45 year bracket. They are trying to determine what vocation is essential, and whether or not they would be deferent if they were doing the job he knows and which men are rushing to their local boards, trying to get information it is with regret that the men

BUY WAR BONDS AND STAMPS

As I see it, the purchase of War Stamps and Bonds is necessary and not discretionary.

If we do not buy bonds, and lose the war, the Nazis, Fascists and Japs will come over and take all our money. If we win the war, we will have our money, our country and our institutions.

I disregard entirely the fine interest and good investment features of War Stamps and Bonds. Our safety, our country, our future peace constitute an interest of such magnitude that it cannot be expressed in dollars.

All Americans—businessmen, employees, employers, wage earners—should buy to the very limit. Overtime, bonuses, extra profits should all be put in War Stamps and War Bonds. It is not only patriotic, it is necessary.

are told that regulations are changed so often that whatsoever may be true today will not be true tomorrow. As cold weather has continued through the first three weeks of March there continues to be hope that some of the fruit of peaches, cherries, plums and similar trees are going to be saved. Reports say that part of the peach crop has been lost, some plums, but no cherries or grapes to date. Whether this is correct remains to be seen. But this would be a fine year for a fairly good crop for fruit to "hit" and be put into cans against next winter's needs. Doubtless not a bushel of fruit will be wasted and the same can be said of vegetables. Give the people one chance at saving enough food for their needs and

## V-Mail Letters Get First Consideration

With V-Mail stations now unctioing smoothly in widely scattered overseas areas, the Navy Department is launching a drive to promote the use of V-Mail to Naval personnel, according to an announcement by the public relations officer. Over 10,000,000 V-Mail letters have been safely delivered to date.

Because it is 65 times lighter than regular mail, V-Mail, photographed on microfilm and dispatched to its destination by air means a substantial saving of valuable plane space. One small strip of V-Mail film carries 1,600 letters and weighs only twelve ounces. A mail bag carrying the same amount of regular mail weighs 48 pounds or one sack of V-Mail will equal 65 sacks of ordinary mail. The saving in cargo space means more room for transporting fighting equipment, medical supplies and food.

"V-Mail has number one priority over all other types of personal mail," it was stated. However, space-saving, not speed, should be the first consideration of correspondents to Navy men in the field.

Even when sent to a locality where it cannot be microfilmed, V-Mail, in its self envelope, is lighter by 40 per cent than an equivalent amount of air mail and it still retains the highest priority of all personal mail.

The safety of V-Mail is guaranteed, because if a roll of V-Mail film is lost enroute to its destination, another roll can be reproduced and forwarded. V-Mail is private, as it goes through the photographing machine at tremendous speed and is read only by the censor, when necessary.

### LEGISLATIVE GRAPEVINE

By GRADY HAZELWOOD

The early life of Lieutenant Governor John Lee Smith, who was recently a Panhandle visitor should be an inspiration for any boy. Born of humble parents who homesteaded a small tract of land near Throckmorton, the present Lieutenant Governor lived from infancy to young manhood in a dugout. He was nearly 15 years old before he had an opportunity to attend public schools. Now a deep student of history, a profound admirer of such characters as Abraham Lincoln, Thomas Jefferson, Sam Houston and other early pioneers of Texas history the Lieutenant Governor charts his future upon the ideas and fundamental principles of these great men. After active foreign service in World War I he returned home and successfully ran for County Judge of Throckmorton County. He was elected to the state senate, and, while serving his first term, he ran for his present office and was elected. Now he serves as a very able presiding officer of the Senate for the State of Texas. He is Great Chancellor for the Knights of Pythians for the United States and Canada and on one occasion conferred the rituals upon President Franklin D. Roosevelt.

Passed last week by the House of Representatives were the banking code and the remission of delinquent taxes bills. Passed by the Senate was the Manford Labor bill, and a bill by the writer which would compel the appointment of a new executive director of the Old Age Assistance Commission within ten days from the effective date of the act. The bill passed by the vote of 24 to 0. Also set for special order for next Tuesday morning is a bill by the writer which would freeze dues and assessments charged by labor unions at pre-war levels; would outlaw strikes or work cessations and would make it a criminal offense for any representative of a labor union to make false representations concerning work or working conditions in order to induce prospective members to join.

With five members in the army, and needing 25 members present to suspend constitutional rules, it really places a great responsibility on the remaining 26 members to be continuously present. If more than one member is absent the whole senate is thrown out of gear.

Many a romance which began on a "bicycle built for two" has ended in a gasoline jitney with a front seat big enough for both, as well mama-in-law and the two kids.

### More Milk Needed For More Butter

A shortage of butter for civilians has cast its shadow of late. This was most noticeable because it came at the season's low production period and prevailing high demand.

The amount of butter which can be made depends upon the volume of milk produced. Hall County dairymen have been asked to produce two per cent more than they did in 1942. Some may be inquiring how they can do it, faced as they are with less labor than in normal times.

A small, well-fed herd may produce as much, or more, milk than a large one less well fed. Weeding out unprofitable cows returns larger profit on feed.

The cheapest feed for a dairy cow is good permanent pasture of the kind which enables her to get all she wants in about two hours of grazing. But as permanent pastures will not last the year 'round, temporary pastures should be provided for as a supplement. Sudan grass serves best in summer and early fall, and small grains, such as oats, barley or wheat for winter and early spring. Further, a cow needs some concentrated feed, along with pasture to provide milk-making elements not furnished by grass alone.

When pastures are lacking, silage is the best substitute. In addition to pasturage and silage a good dairy cow needs dry roughage, such as hay and dry roughage, of grain or grain sorghum, sweet sorghum or sudan grass. This is especially desirable in the early spring when the grass is sap- or watery. Dry roughage also should be kept before the cows when they are eating silage.

Good management calls for protection of cows from cold, and shade in warm weather. They also need abundant clean, cool water in summer and good clean warm water in winter.
