Memphis was chosen as the 1938 convention city for the Northwest Texas Methodist Conference, which closed its 1937 meeting in Quanah Sunday, with the reading of the appointments of ministers for the next year by Bishop Hiram A. Boaz.

### ROLL CALL OF RED CROSS IS LOW OF GOAL

Drive Extended For Another Week By Committees

Although the annual Red Cross roll call drive is supposed to end Thanksgiving, Hall County is far short of its quota of \$600, according to roll call chairman Zeb A. Moore. Unless citizens begin subscribing more liberally, he stated, the drive here would not net as much as last year, despite improved conditions and a larger quota.

Donations will be accepted all during next week. Mr. Moore again wishes to urge the people whom the solicitors have not seen to join the movement by turning in their donations to him, the community chairman, The Democrat office, or to any authorized solicitor.

"Other cities have shown substantial increases in membership, and it is hoped that Memphis' membership will show a like increase. Hall County has never before fallen down on the membership drive, and I am sure when the people learn that the quota has not been reached in this drive they will respond without further urging," Moore said.

Although the other communities in the county have not yet reported to Mr. Moore, he said he expected the drive had been successful throughout the rest of the county.

Donations may be turned in to O. V. Alexander, Memphis; Fred Hemphill, Newlin; T. A. Power, Estelline; J. W. Lowe, Weatherly; Miss Lola With, Parnell; C. L. Ayers, Eli; Edgar Foster, Plaska; Rev. R. G. Brister, Lakeview; M. D. Kennard, Lesley; J. W. D. Chappell, Brice; and Charlie Russell, Turkey, or to The Memphis Democrat.

### Bounteous 1937 Harvest Gives America Cause for Most Sincere Thanksgiving

BUMPER crops load America's 1937 Thanksgiving table.

"The harvests of our fields have been abundant. . . . President Roosevelt declared in his annual proclamation, voicing the thanks of a grateful nation, for Nature's generous gifts. For the 1937 harvest brings to a close a long period of drought and scarcity, of low prices and depression.

Past are trying years of fruitless toil, when dust storms swept western fields, when seemingly endless heat and rainless days scorched crops, when grasshoppers descended upon verdant acres, leaving them desolate.

Today agriculture points to an all-time record cotton crop of 18,243,000 bales; to a two and a half billion bushel corn crop, largest since 1932, and to a wheat yield of 886,895,000 bushels; greatest since 1931. Tobacco growers set a six-year record with a crop of 1,485,148,000 pounds.

Bounteous yields of other grains, vegetables and fruits complete the great 1937 harvest.

THREE centuries ago the Pilgrim Fathers knelt to give thanks for the fruit of their labors, in a new land. They had overcome the hardships of the first year in a wild country. They had made friends with neighboring savages. Peace and plenty, won through their own tireless efforts, was their reward.

In happiness and contentment they feasted, sharing their products with savage friends, confident of greater harvests in the future, yet grateful for any yield, however small.

The First Thanksgiving

THANKSGIVING, 1937, presents a striking parallel to that first holiday feast. As the Pilgrims weathered ocean storms, present-day Americans have weathered financial crises, and the promise of greater prosperity for farmer, for laborer, for business man is near.

Many are the hardships ahead, and many are the problems to be solved, but the initial victory has been won. The lessons of the past will be remembered.

Control of bumper crops is a baffling puzzle confronting the

President and Congress. Agriculture has learned that huge surpluses make lower prices, that glutted markets are as profitless as barren fields.

Labor and capital point to greater achievements through a just distribution of profits, better working conditions and cooperative efforts. Business strives to reach normality.

In the same spirit of gratitude America today repeats the words of the courageous pioneers: "For these and all Thy gifts, let us return thanks!"

# Health Is Primary Reason For Having Thanksgiving Day

A primary reason for the institution of Thanksgiving Day was health. The Pilgrims, the few of them left after that terrible first year of death and disease, wanted to publicly thank God for all his mercies. And so was born the tradition of Thanksgiving, says the State Health Officer.

Americans have come a long way since that time in the matter of health. Today few people think of Thanksgiving in connection with the health they enjoy. They are so accustomed to good health that they hardly give it a thought—until illness strikes.

The Texas State Department of Health, city and county health organizations have labored for years to secure the measure of health protection that the public now enjoys. Their thanks are to medical science for the strides it has made in preventive medicine, enabling thousands of lives to be saved annually.

Since that first Thanksgiving, the mode of transmission of many diseases has been discovered and the known preventives of diseases become common knowledge. Yellow fever, plague, and cholera have almost ceased to exist. Smallpox, diphtheria, and typhoid fever can be eliminated as a cause of death if a person takes advantage of the typhoid immunization. Malaria and other diseases can be controlled if the public demand for their control, as a part of every day activities of the gov-

ernment, be insistent enough. During the past half century the expectation of life has increased about fifteen years. This means that a baby born in 1937 can be expected to live fifteen years longer than if he had been born fifty years ago. "We have much more to be thankful for, in the matter of health, than did our Pilgrim forefathers, so let us in our individual Thanksgiving be reminded of the strides preventive medicine is making in improving health conditions in Texas," the Health Officer said.

# America Is Loser In International Farm Goods Trade

WASHINGTON, Nov. 23.—The value of American agricultural products sold abroad was less than the competitive farm products brought into this country, according to the Bureau of Agricultural Economics. The Bureau reported that during the 1937 fiscal year American farmers, for probably the first time in history, came out on the short end of international trading in agricultural products. The products sold abroad were valued at \$733,000,000, while competitive products brought into this country were valued at \$868,000,000. Agriculture Department economists attribute the decline to the cumulative influence of short crops in recent drought years. American purchases of foreign

non-competitive as well as competitive farm products during the last fiscal year, the bureau said, totaled \$2,894,000,000 compared with total sales of \$733,000,000. All purchases abroad in 1936 totaled \$2,208,000,000. Goods falling in the competitive class were listed as corn, wheat, cotton, tobacco, sugar, wool, meats, feeds, oils, and flaxseed. Noncompetitive products were chiefly rubber, silk, coffee, bananas, and tea.

## Thanks to Electric Servants

Thanksgiving is now a Woman's Holiday too!

If our service to you during this last year has been instrumental in providing more leisure, more pleasure, and greater happiness, then this Thanksgiving Day is occasion for us to give sincere thanks. Like many of you, we have "grown up" right here in West Texas. This is our twenty-sixth Thanksgiving. So we can remember when the turkey season meant a holiday for every one except Mother. The Thanksgiving dinner was a long, tedious task for her... many hours in the kitchen before a hot, odorous stove. And there were scads of dishes to wash when it was over. This burden on her is no longer necessary, we're happy to recall. The trend toward the all-electric kitchen means complete emancipation for women. Out of this freedom is born the Neoelectress—a modern home maker alert to this new electric age. The vista of a more glamorous future than pots and pans has become a reality, whether it be Thanksgiving or just another day. If you have not yet electrified your kitchen, we suggest that you investigate the economy of Electric Servants ere another holiday rolls around. They have made Thanksgiving a vastly happier day for many of your neighbors... and we are glad!

## WAGES vs. CONSTRUCTION WORK

THE GREATEST NUMBER of unemployed in the State of Texas, according to a recent estimate, are in the skilled and semi-skilled occupations relating directly and indirectly to the building and allied trades. Texas, along with other states in the Union, must direct its economic revival through a revival of construction.

Construction in the residential and commercial fields, industrial and public utilities' programs, lower interest rates and removal of many restrictions on business, together with prevailing inequitable corporation taxes, will soon result in a complete revival of economic conditions in Texas.

This, however, brings up the question of the labor leaders, who say that construction is at a standstill chiefly because of a wage problem. The less construction, the higher wages . . . and the higher wages, the less construction! The less construction work the higher wages must be in order for skilled labor to balance budgets through the unemployed periods, and the higher building wages are the less construction America can afford.

Better market prices for raw materials might be a solution. Such an increase in the producers buying power would give industries opportunity to pay employees higher wages, and they in turn could pay the cost of high construction wage.

America is losing its taste for turkey, or is it? Figures show that the United States has twice the population but only half the number of turkeys it had in 1890.

Whiskers on women and eggs with green yolks may be produced through scientific treatment, a chemist says. What about balanced budgets?

## CLEANING UP HIGHWAYS

THE HIGHWAY COMMISSION of Texas has ordered the removal of state highway number signs on roads bearing Federal highway designation. This effort is being made to reduce the number of signs and avoid confusing the millions of motorists who travel Texas highways annually.

Highway engineers have already started the work, which is being done by the maintenance crews, and will remove all state markers save warning signs. Like other actions, there are two sides to the discussion. So many highway markers along state and Federal roadways did make it confusing for out of state motorists, but on the other hand we Texans could point to them with pride and explain that the Texas system of highways is one of the most efficient in the United States.

State highway number signs on roads not Federal highways are not being disturbed. The result of the commission's work will be found in a more understandable system of markings for motorists not so well schooled in Texas' marking methods.

## FLOWERS FOR THE LIVING

THIS NEWSPAPER believes that a whole bouquet of flowers would be none too much for the ever alert Carroll Smyers, secretary of the Memphis Chamber of Commerce.

In the less than two months that he has served as secretary of the organization he has done much to reorganize a civic unit that was suffering slow death. It was his efficient cooperation with the American Legion that helped make the Armistice celebration a success. On his toes for the welfare of Memphis he has already invited the victor of 3-B and the proposed victor of 4-B football districts to meet in Memphis for their bi-district game. This feature alone will attract approximately 5,000 to this city, should the invitations be accepted. His cooperation with the local Methodist church was an aid in securing the conference convention for 1938.

Besides a number of stand-out accomplishments, Mr. Smyers has done a thousand smaller services for Memphis. This gentleman needs the cooperation of every business firm and individual, not just the usual few, if he is to continue his wholehearted alertness.

A man registered yesterday that he was partially unemployed . . . under the next column which asked "How many hours did you work last week," he wrote "95."  
Another wrote that he had worked 152 weeks last year . . . and another stated he was born in 1937 . . . but the most peculiar part of it all is that many of those who fill out the cards think they are putting in bids for some sort of government job.—Childress Index.

**Fault of Vital Statistics?**  
Nearly every year the Texas high school football season is marred by the belated discovery that players who are ineligible on account of age have been participating in conference games. ## WASHINGTON LETTER

### Farm Problem Puzzles Congress, Drafting New Crop Control Bill

BY SPECIAL CORRESPONDENT

WASHINGTON.—Before the 75th Congress adjourns and congressmen go home to mend their political nets for the 1938 elections, assuredly there will be new farm legislation embodying what is said to be the best of the old, and even better new features.

The new streamlined farm program, it is estimated, will cost anywhere from \$600,000,000 to a billion dollars a year.

For this sizable outlay of federal money, farmers are fairly sure to have the present "soil conservation" program continued. This would include payments to farmers for the transfer of crop land from "soil depleting crops" to "soil building crops," and production quotas for cotton, wheat, corn, tobacco and rice.

The old AAA voluntary adjustment programs probably will be revived with benefit payments for farmer co-operation which is given a new name: "production goals."

**SECRETARY of Agriculture** Henry A. Wallace has long sponsored an "ever normal granary" and it is likely he will see provision made for his system in the new farm law.

Under such a system producers of cotton, wheat, corn, rice and tobacco would store up enough of their crop in good years to see them through lean years, and for promises to reduce their acreage they would receive commodity loans.

A device for maintaining "parity price" for the farmer under the old AAA probably will be adapted in the new law and described as a "parity income" policy. Thus when it is not economically safe to boost commodity prices to "parity" levels, there will be provision for making benefit payments to bring farmer income into line with the ratio between farmer and non-farmer incomes from 1909 to 1914.

Processing taxes on cotton and wheat undoubtedly will be revived, for Roosevelt insists that the increased cost of the new farm program over and above \$500,000,000 a year which finances the current program, must come out of new revenue.

Secretary Wallace is of the opinion that new processing taxes are the answer. But the House Agriculture Committee has turned this problem over to the Ways and Means Committee which will probably not be in sympathy with administration recommendations on this point. A majority of its members are known to be opposed to processing taxes.

**SECRETARY WALLACE** will run into a lot of opposition in Congress to his "ever normal granary" plan, which he defends by saying some form of compulsory control could be imposed to keep reserves of surpluses from growing to unhealthy abundance.

Others, including Chairman Marvin Jones of the House Agriculture Committee, contend that our farmers will suffer in the export markets if control is compulsory, and that voluntary control as under the old AAA is sufficient to our needs.

Those involved in reconciling the differences of farmer groups, those interested in farmer purchasing power, and blocs for and against the administration farm plan in Congress, do not seem to give a thought to the fate of proposed farm legislation if it is referred to the Supreme Court.

If many of the features which Congress is being encouraged to incorporate into the new farm bill find their way into the final draft, then the Supreme Court must completely reverse itself to declare the law constitutional.

Southern Democratic leaders in Congress will use the farm bill fight as a lever in their attempt to pry party leadership from Roosevelt.

## Jots in Jest

ONE of the principal objections to another war is the flood of patriotic songs that would immediately deluge the country.

Schoolboys used to hold ambitions to grow up and become doctors or lawyers. Now they hope to get on WPA lists.

Chiming telephone bells have been invented but the ring will sound just as bad as ever for those 2 a. m. "wrong number" calls.

The "last word" in modern homes—still belongs to the lady of the house.

This one: "Balance the budget." Then you will likely come to the conclusion that "gossip" seeps into every crevice of human habitation, and is just as easily swallowed by the multitude.—Donley County Leader.

Success and its usual encumbrance of wealth sometimes tie offensive bells about the neck of an otherwise un-noticed idiot. Her life was a dew-jeweled web, spun from the gossamer bodkins of dreams to glisten in the early sunlight of youth until a stone broken from the ledge of reality crashed through the unfenced paradise.—Douglas Meador in Matador Tribune.

## Christians Promised Rest

The International Uniform Sunday School Lesson for Dec. 5. Text: Matthew 11:28-30; Hebrews 4:1-11.

PROFESSED leaders and masters of the world have made glittering offers to their followers, but only Jesus has promised rest to the heavy laden.

Monarchs and military leaders have offered men glory, and they have found the response of millions who would suffer and die for an intrepid and attractive leader.

Masters and demagogues of finance have offered the allurements of wealth; and they, too, have found a response from the masses who too trustfully have yielded themselves to be shorn of what they had.

Others have offered ease and pleasure, or have dangled allurements of adventure before humanity.

But here is Jesus who stands before the world and says, "Come unto me, all ye that labor and are heavy laden, and I will give you rest."

How unique He is, and how accurately He discerns the deepest need in human life! For man cannot exist in life, and cannot go on, without rest. It is the one thing that all men need whether they seek it or not, and that they find ultimately in the grave if they do not find it as a heritage of life.

The conditions of the world, no less than this elemental need, emphasize what Jesus has to offer. We live, in an age of unrest. Our modern life, particu-

larly, is jumpy and in purpose, but we make that jumping terrible. The least think of it rests in the deepest need do without it. Jesus is equally sort of rest that apathy, or of irresponsibility, and learning, through that removes man of greed and violence. # Hall County Grid Teams Drop Season's Final Games

## Wellington's Invasion of the Stadium; Local Gridders 4-0 Clash to District Champs

Approximately 1500 football fans braved the last Friday evening to see an inspired and unrelenting team of Skyrockets from Wellington down a stubborn team 44-0. Almost 400 of the estimated 1000 from a Wellington special train, virtually packed the Cyclone Stadium, a few minutes before the game.

The Collingsworth County team gave them unrelenting opposition in the district 3-B crown and the right to meet in the district 4-B, which is now in a tie between Floyd and Spur. Defeat at the hands of Floyd Saturday would knock Spur out of the race.

Wellington in possession of the ball. A series of passes and punts netted the Skyrockets four first downs and placed the ball on the 2 yard line. After three attempts, Williams plunged over for the second score. A line play failed to add the extra points. Wellington kicked off to the 30 before he was downed by an avalanche of Skyrockets.

Three line plays, featuring Lindsey and Pounds, gave the Cyclone a first down on the 41 yard line. On the next play Austin intercepted a Cyclone pass and was brought down on the 51. Moore, on a sweeping end run, was brought down on the 15 and Bailey picked up five through the center of the line. A pass from Moore over the goal line to Austin was good for six points and Holton booted the pigskin through the uprights to make the score 19-0. The half ended with Wellington again in possession of the ball, after Memphis had been forced to kick.

**Score Four More Times**  
The Skyrockets returned in the third quarter to score four times, in spite of a fighting Cyclone squad. A pass from Bailey to Farrish was good for 35 yards and a score. Holton again booted the extra point. Wellington kicked off to Memphis who failed to make it a first down in four attempts. Wellington started another march through the use of passes and spinners, to the 20 yard line. A pass from Moore to Moulton in the end zone accounted for the fifth touchdown. Pounds blocked the try for extra point. The quarter ended with the score 32-0.

The last period opened with Memphis in possession of the ball. A pass over center from Pounds to Hagemeier was good for 5 yards. Lindsey kicked on the 37 where Wellington took the ball and passed for 15 yards. Line plays made it another first down on the 17. The scoring pass this time was from Moore to Austin, standing behind the goal line. The kick was wide and the score stood at 38-0. Evans took the Skyrockets' kick-off and returned it to the 34; line plays and end runs by Foster and Lindsey gave the Cyclone a first down on the 47. After Lindsey and Hagemeier failed to register another first down Lindsey kicked 35 yards to the 20 yard line. Bailey picked

## Presenting All-America Team of 1937; Colorado Star Gets Quarterback Post

BY IRVING DIX

THE 1937 football season is practically at an end, with nothing much more than a few New Year's Day "bowl" games left to occupy gridiron fans' attention, but no football season ever drew to a close without its All-America.

And because there's absolutely no reason at all why we should be different, we present herewith, after a poll of coaches and critics the nation over, our All-America of 1937.

Seven seniors and four juniors compose our first team, with two or three eager and very good sophomores just missing out.

Starting with the ends we have John Wyszocki of Villanova, a 185-pound junior, and Andy Bershak, North Carolina senior of the same weight. Both are excellent pass receivers while Wyszocki also showed deadly accuracy as a place-kicker this year.

Joe Beinos, 200-pound Notre Dame junior and Ed Franco Fordham; senior rate the tackle posts. Franco tips the scales at 210 pounds and has been a regular for three years in the Rams forward wall.

No one could ask for better guards than Vard Stockton, California senior, and Joe Routh, Texas A & M husky, who also winds up his gridiron career this season. Both boys hover around 190 pounds and pack a lot of "meat."

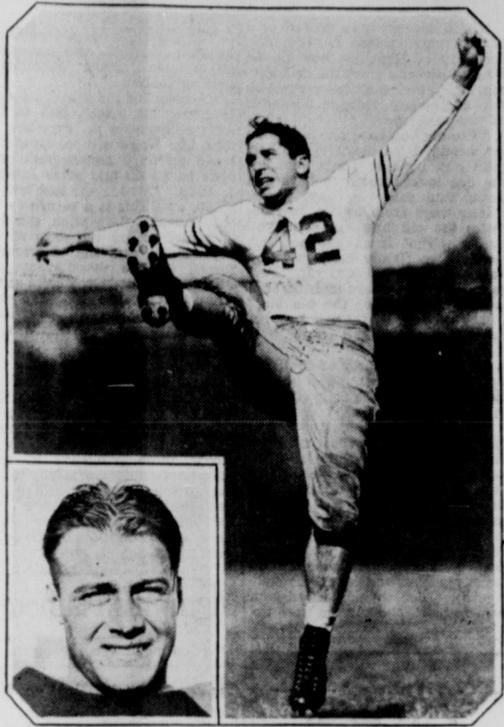

**BIG** Charley Brock, 210-pound Nebraska junior, wins the center berth, but only after the closest battle for a position our scouts observed all year. The Cornhusker pivot man had to beat off the challenge of such great snappers as Alex Wojciechowski of Fordham, last year's All-America, and Bob Herwig of California.

The backfield was comparatively easy to pick, even though the country was overrun with star ball-carriers.

No quarterback stood out like Byron (Whizzer) White of Colorado, 180-pound senior who is a triple-threat in every sense of the word.

Marshall Goldberg, Pitt's rambling junior, who probably is the hardest-running back in the nation, is given one halfback position and Yale's Clint Frank the other. The Eli captain was the sparkplug of Yale's attack all season.

Corby Davis, 200-pound senior from Indiana, led the Hoosiers to

Marshall Goldberg, above, Pittsburgh's great halfback, is an eastern standout on the All-America this year, with Vard Stockton, inset, California guard, considered one of the finest players from the west.

one of their most brilliant seasons in many a moon. A great line-smashing fullback, Davis also was a fine passer and blocker.

**OTHER** boys who deserve more than passing mention are: Ends: Frank Souchak, Pitt; Bill Jordan, Georgia Tech; Perry Schwartz, California; Ferd Dreher, Denver; Chuck Sweeney, Notre Dame.

Tackles: Tony Matisi, Pitt; Alex Kevorkian, Harvard; Pete Zagar, Stanford; Alex Schoenbaum, Ohio State; Fred Shirey, Nebraska.

Guards: Leroy Monsky, Alabama; Claude Evans, California; Joe Hays, Tennessee; Al Hoptowitz, Washington State; Ralph Siwell, Auburn.

## Estelline Drops 6-6 Tie To Spur On Penetrations

The Estelline Cubs, one of the four fine class-B football teams in Hall County, played the Spur Bulldogs to a 6-6 deadlock at Estelline Friday only to lose the contest on a pre-game penetration agreement. Spur entered the 20-yard zone twice while the Cubs penetrated the territory only once.

In dropping this important 4-B district game the Cubs completed their conference season with a record of four wins, one loss and two ties. Luck was against the Cubs in each of the tie games, with penetrations favoring Floyd and Spur.

The Hall County boys, completely outweighed and outnumbered in reserve strength, were by far the outstanding team on the Estelline field Friday. Coach Eugene Sunderman's well drilled and well disciplined grid machine clicked beautifully against a stubborn Bulldog running attack and soon drove the Dickens County boys to the airways.

Estelline scored early in the opening quarter when Adams, left half, took a short pass from Cook and wriggled loose around right end. They failed to convert and the score was 6-0. For the remainder of the first half the game was a tug-of-war with Estelline turning back the few serious scoring threats the visitors could make.

With the Cubs still in the lead by six points, the Bulldogs returned in the third quarter to open up with a pass attack that saw Bingham, full, snag a pass that placed the ball in scoring position. A line play by Hahn scored for the Dogs and a wide kick for extra point left the count tied 6-6.

Smart blocking, shoe-string tackling and trickery offensive playing on the part of Coach Sunderman's Cubs brought them far in this year's 4-B conference race. Their showing in games with schools much larger has been excellent in their district this year. According to football fans of this section, the Cubs could have held their own with many of the teams in District 3-B of which Memphis and Lakeview, in Hall County, are members.

Turkey, also in this county, is a member of the 4-B district. Coach Sunderman, coaching his first year of high school football, opened the 1937 season with 10 lettermen, including a crew of veteran backs. His starting lineup most of the season and the one

used against Spur was: Hood and Adams, ends; H. Bourland and Ewen, tackles; Hinton and Stradlin, guards; Wise, center; Baccus, quarter; Leatherwood, full; Q. Adams and Cook, halves.

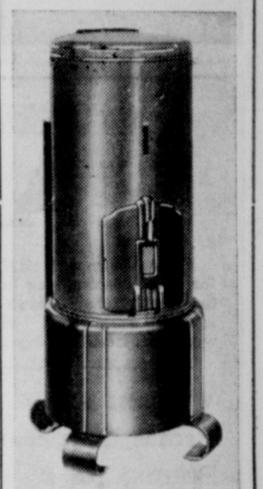

## TUG SANDERS VISITS HOME FOLK HERE

Thomas William (Tug) Sanders of Dallas came Friday night to attend the Memphis-Wellington football game, in which his brother, J. R. Sanders, played, and to visit with home folk until Sunday. Tug was a former star player on the Cyclone team while in high school here. He is a graduate of S. M. U. and was a star player on the S. M. U. team. He is now coach and teacher in the Seagoville school near Dallas.

Garold Wadzeck, football coach at Spur, and a number of members of the team attended the Memphis-Wellington game here Friday night. Mr. Wadzeck is a nephew of W. C. Chapman.

The civic interests to begin now the task of decorating the streets, places of business, and the homes in order to create a Christmas spirit in the hearts of all who visit here.

The publishers of The Democrat are elated over the way the read-

ers are renewing their subscriptions for another year.

One reader made a remark the other day that sounded good. He said, "The Democrat costs me less than 3 cents a week, and there are six in my family who get pleasure and profit from reading the paper. There is nothing else I know anything about that can be bought for ten times three cents that will give half the pleasure to all members of the family as does the home paper. Besides, I am kept posted about the farm program in Hall County, which is worth much to me. We also profit from reading the advertise-

ments, for they give us suggestions about merchandise that enable us to save money."

Rev. E. C. Cargill, Presbyterian pastor, stated Monday that it was the anniversary of his coming to Memphis. "I have learned to like Memphis very much, because of the many fine people who make their home here," he said.

The Democrat is in receipt of a letter from Clarence J. Billington, formerly of Memphis, now in the U. S. Veterans Hospital at Phoenix, Ariz., and enclosed a verse or two of rhyme. Here is a sample of the enclosure:

"The old bug has gone and done me wrong, I am down to the hospital and hope it won't be long; the doc looked me over here and there, and said 'my boy, you're a long ways from repair, just because the old bug has done you wrong. Tho' it caught up with me and we finally met, just you wait and see, I'll lick it yet. Perhaps it may take six months or a year, who cares for the old bug? I have no fear of the old bug because it has done me wrong."

J. C. Estlack, editor of the Donkey County Leaflet, published at Clarendon, made the following announcement last week:

"After January 1, 1938, the subscription rate in the first zone will be \$2 per year, and in other zones, \$2.50. Making this statement is the toughest assignment the writer has had in a long, long time. Back in the days when the depression brought the darkest days, we traded with a large number of accepting produce. We had 'egg days' and 'canned goods days' in order to help those who were handicapped for the time be-

ing. We scratched bottom raising money to pay bills that required cash. . . . The paper trust is hammering every newspaper in the nation. Our print paper comes from British Columbia, but we can't buy any made in the United States. . . . This announcement is being made so that the best friends a newspaper ever had may come under the wire at the old rate before the rate is advanced."

The Clarendon News, published by Sam Braswell, also announced an increase in the subscription rate as follows:

"Account of the heavy increases in newspaper prices, and in line with newspapers all over the nation, The News will set its annual trade territory subscription price back to \$2 on and after January 1, 1938. Outside the rate will be \$2.50. . . . This is a return to the old annual subscription schedule in effect before the days of the depression, and the increase is forced by the most spectacular advances in newspaper costs in the past twenty years. . . . The present rate of \$1.50 in the territory and \$2.00 outside will remain in effect until January 1."

The Democrat is receiving notices from other publishers that they are whittling down their exchanges in order to save newspaper. They are cutting off all exchanges except those published in their immediate sections of country. The handwriting is plain. Publishers must either advance their subscription prices (if too low) or be forced out of business by the newspaper trusts.

Coach Meyer will deliver his address under an assigned topic of "Touchdown," which should prove to be the outstanding feature of the entire evening. The coach of the T. C. U. Horned Frogs is said to be a very entertaining speaker and the program committee members consider themselves lucky in obtaining him for their first annual affair.

The Sideliners Club, with a membership of more than eighty-five Memphis business men, is headed by J. Ray Martin and Harry Delaney, president and secretary respectively. It was organized early during the present football season as a booster club for Class-B football teams in Memphis and Hall County, and plans were made for the banquet several weeks ago with the hopes that it would be the first of many annual affairs.

during the recent cold weather was 18 degrees above zero. Those who have been bemoaning the zippy cold days here should feel themselves just a little luckier than the people farther north. One of the Democrat's exchanges in Falls City, Neb., reports the thermometer there to have dropped to 8 degrees, 10 degrees below the low reading here.

Several teachers throughout the county have stated intentions of attending the Texas State Teachers Association convention in Houston November 29th. Among them are J. W. D. Chappel, principal of the Brice school; W. S. Lyons, principal, and Miss Alice Baker of the Brice Bits School; W. C. Davis, H. J. Gore, Sam Cowan and Bowen Cox of Memphis. The Memphis schools and all the rural schools of the county have a 100 per cent membership in the teachers' organization, according to school officials.

We are still in need of a correspondent for Lakeview, since Rev. G. H. Gattis has moved to Hale Center. Won't some Lakeview person interested in his community and in giving it more

publicity please get in touch with The Democrat?

Positive signs that Memphis is growing larger and more prosperous: the large number of families moving here (real estate firms report calls for houses nearly every day), the new cars in town, the smoke from the busy chimneys which make the city resemble a miniature Pittsburgh, and civic improvements here.

Maybe this should have been included in indications of economic improvement. The county clerk reports he issued marriage licenses to more couples on Saturday of last week than he has issued in any one day in a long time.

Welcome home all Hall County college students returning for the Thanksgiving holidays from schools scattered throughout Texas, Oklahoma and Colorado.

**Farm Tenant Act Committee Chosen For Region Twelve**

AMARILLO, Nov. 24.—A four-state, nine-member advisory committee for the Farm Security Administration, to aid in administration of the Bankhead-Jones Farm Tenant Act, as it applies to the counties in Colorado, Kansas, Oklahoma, and Texas which are under the jurisdiction of Region Twelve of the Farm Security Administration, was announced here today by L. H. Hauter, regional director of this federal agency.

Hauter said the first duty of the committee, which will hold its initial meeting at an early date, was to select the counties in which loans will be made to tenant farmers to purchase land. It is probable that only one county will be selected in Colorado, Kansas, and Oklahoma and three in Texas for the first year. Funds allocated to the portions of these states embraced in Region Twelve, from the \$10,000,000 appropriation for the nation, are as follows: Colorado, \$21,498; Kansas, \$21,407; Oklahoma, \$4,562; and Texas, \$69,792.

Members named by Secretary of Agriculture Henry A. Wallace and released through Hauter are: John E. Hill, Amarillo; formerly a member agricultural committee of the State Planning Board and of the State Farm Debt Adjustment Committee; long identified with all movements to further the interests. Mr. Hill was named as chairman of the committee.

A. B. Crump, Wheeler; banker and large land-owner, well-versed on farm and ranch conditions.

C. L. Thomas, Pampa; large wheat farmer, director of Production Credit Association, and member of State Soil Conservation committee.

C. H. Day, Plainview; one tenant farmer, has made conspicuous success since moving to Plains in balanced farming program; has been very active in farm organization work.

Adolph Hansen, Granada, Colorado; expert farmer, specializing in sugar beet production, leader in beneficial agricultural programs and cooperative movements; active in American Farm Bureau.

Marshall Dean, Las Animas, Colorado; long-time operator of both a dry land and an irrigated farm, representative of diversified farming operations, dealing in livestock and grains as well as sugar beets.

George Drum, Sharon Springs, Kansas; member of Wallace county commissioners' court, weathered drought and depression through good management of farm; cooperation has been valuable in relief and rehabilitation work.

John Hiatt, Meade, Kansas; active in farm bureau and other farm activities; state experimental farm is located on his land; member of County Planning Board and Regional Farm Planning Committee.

Ed C. Morrison, Goodwell, Oklahoma; president of A. & M. College; outstanding in educational circles because of unusual program and vitally interested in all problems affecting Panhandle residents; college experimental farm used in very practical manner to aid agriculture; aggressive in all attempts to solve the problem of people in his area.

Hauter said the committeemen would serve voluntarily in aiding to make the administration of the program of loans "effective as available funds permit." Hauter also asked prospective applicants for farm tenant purchase loans to withhold their applications until the committee meets and selects the county in which the initial program will be administered.

Mr. and Mrs. John Armstrong and daughter Betty of Amarillo visited Sunday here with her brother, H. B. Bennett and family.

3B Title Goes To Wellington Squad

With a 44-0 victory over the Memphis Cyclone last Friday night at Cyclone Stadium, Wellington's conquering Skyrocks snatched the 3B championship for 1937. The brilliant Rockets went through the entire conference season with no losses and chalked up 388 points against 12 made by their opponents. The squad's next game will be against the winner of the 4B title.

Announces For State Office

W. E. James of Austin, who has announced his candidacy for the office of State Superintendent of Public Instruction, makes these public instructions: "I promise that my administration will be professional rather than political, and I shall never at any time use the authority in me to unduly influence, over persuade, coerce, or intimidate even the humblest citizen in an effort to extend my tenure in office; and promise that no school district, teacher or school official shall ever be penalized by the State Department of Education by being deprived of state aid, classification or affiliation or any other benefits to which they are entitled from the state because of failure on the part of such teacher, school official or citizen of the school community to support my candidacy in this or any succeeding campaign for the office of State Superintendent of Public Instruction."

I'M THANKFUL

by I. G. THOMAS

Member CCC Camp, Memphis, Texas

I thank You God for all You've done  
For poor unworthy me;  
For all the many things of life,  
And all I cannot see.

I thank You for the joys of life,  
And all its sorrows mixed;  
For your wise plan of day by day;  
The way that things are fixed.

I do not know the why or how  
Or when that things shall be,  
But this I know, within my heart,  
Your love, it keepeth me.

Through days of care, of pain and want  
I live with this great thought;  
What ere I have of goods and friends,  
To me, through You were brought.

I thank You God, for all You've been  
When I've forgotten You,  
You've stood by me, and proved a friend  
Of worth, so staunch and true.

Please hear my thanks for everything,  
And teach my heart to say;  
Then may throughout the coming years  
My life with praises ring.

## ROTARIANS HAVE ANNS' DAY; ANNS TAKE CHARGE PROGRAM

Tuesday was Rotary Ann day at the Rotary Club luncheon, and the Anns had charge of the entire program from the sound of the gong until the close.

Mrs. Margaret Morgan acted as president in the absence of Mrs. W. C. Davis. Rotarians were told to keep their seats as the Anns would transact all the business of the club and furnish the program. Mrs. Orion W. Carter delivered the invocation, and the audience sang one song.

Mrs. R. S. Greene gave "Confessions of an Ann." One of her confessions was that Rotary days are really Anns' days since the Anns do not have to prepare lunch and can do as they like all day long. Following the confessions, Mrs. Greene then acted as program chairman and introduced Mrs. Sam Hardy who sang, "Somewhere

a Voice is Calling," accompanied by Mrs. Morgan.

Mrs. Carl Harrison was introduced as the speaker of the day, and her subject was "Latin America." The countries of South America, their peoples, principal sources of revenue, etc., were described in a concise manner, giving all present a clear conception of a continent that will some day be America's greatest customer.

Following Mrs. Harrison's address, a sextette sang a medley of Southern Melodies. The sextette was composed of Mrs. Mac Tarver, Mrs. Rabb Harrison, Mrs. Horace Tarver, Mrs. Orion W. Carter, Mrs. R. S. Greene, and Mrs. M. McNeely. They were accompanied by Mrs. Morgan.

The entire program was conducted by all Rotarians present to have been entirely pleasing and very beneficial.

## Answers to Your Questions About Social Security

Editor's Note: This is one of a series of questions and answers being published by this newspaper for the benefit of employers, workers, and others affected by the Social Security Act.

Question No. 1 Question: How soon are benefits payable under the old-age insurance provisions of the Social Security Act?

Answer: Lump-sum benefits are payable now to an employee if he has reached the age of 65 since December 31, 1936, and has worked in a covered occupation since that date. In case an employee has died since December 31, 1936, and has worked in a covered occupation after that date, the estate of such an individual is eligible to file claim for a lump-sum payment. In either case, the lump sum will amount to 3 1-2 per cent of wages paid to the worker in covered occupations since December 31, 1936.

Monthly benefits will be paid after January 1, 1942, to qualified individuals. Qualified individuals are those who have attained age 65 and who, since December 31, 1936, and before attaining age 65, have worked in covered occupations one day in each five different calendar years, and have received during such period at least a total of \$2,000. A person who reaches age 65 but does not become a "qualified" individual will receive a lump-sum payment equal to 3 1-2 per cent of wages paid to him in covered occupations after December 31, 1936, and before he attains age 65.

(Further inquiries should be directed to the office of the Social Security Board, 1012 Oliver-Eagle Building, Amarillo, Texas.)

## The DOCTOR says:

### WHAT ARE COLDS?

The common term "a cold" may mean any of a number of respiratory infections. Most colds seem to be simple matters to cure and they frequently excite little concern from the victim.

But colds are not a simple matter by any means. Disregard of their dangers may lead to the development of more serious disorders. The safe and sure prevention method both before and during a cold is to confer with a reputable physician. He is the man to protect your health.

When your doctor prescribes medicine for treatment, be sure to come here where you are assured of pure and potent drugs and efficient handling of your doctor's orders.
