

TIME FOR COLLEGE GIRL'S WARDROBE

Sundry Accessories Add Finishing Touches. The Tam is Appearing Again.

Although not an admitted fact, deep down in every college girl's heart, hidden away and carefully concealed, is the longing and desire for a complete, good-looking wardrobe to begin her college career, or to continue it with all the dignity of a senior. There are so many little things that she needs. Those rather petty somethings that count so very much. Indeed, it presents quite a problem—but I'm sure it's a delightful problem—the solution of which occupies many happy moments.

One Attractive Solution is illustrated here. There are always so many teas at school that one can't think of the days spent acquiring higher knowledge without unconsciously forming a mental picture of young effervescent

Satin and Georgette Combination

creatures bubbling over with joy, exchanging confidences over the tea cups. Of course these gala occasions call for a soft, pretty dress that is youthfully simple and still stately enough for the affected grandeur of the meagre repast. And here is a frock to wear. It is developed in blue-green satin and very dark yellow-green Georgette for the trim. The entire effect is charming, but only the fair freshness of youth could attempt and wear successfully these beautiful yet trying colors.

But then here is the lecture time to be considered. Serge frocks, especially the new slip-on variety, are quite desirable for classroom wear. This style of dress fills the requirements of looking trim and neat, and yet carries a world of elegance with it. But one soon tires of the continuous wear of three or four dresses, and then the little things we spoke of before offer themselves as he contributions subject to change.

Importance of Cuffs and Collars

What a refreshing touch a change of collar and cuffs gives a dress! Just imagine a sheer organdie of apricot color and, scalloped in the palest of turquoise blue. Doesn't it sound like a dream. And that's just what it is. It would just add the right touch of color on a dark blue frock, which would be undoubtedly trimmings. Pique and poplin are also used for these distinguished marks of correct costume.

The fall season is contributing a most belauding collection of stunning hats. And, what's more, the styles are so wide and varied that every woman will be able to wear the hat that suits her own individual type and still be sanctioned by fashion. For hopeless, indeed, is the girl who wears something just because it is the style. A careful study of assets and failings should first receive attention.

The Evolution of the Tam

The tam is appearing again. It seems one season cannot be ushered in without the escort of some version of this coquettish ever-appealing hat. Surely, the college girl needs one. An imported model shown in one of the shops is developed in a bright plaid woolen material. Doesn't tobogganing, and skating, and ice hockey seem more fascinating if this attractive tam could be your identification card in the crowd? Louise is showing one in black satin with an all-over design of soutache braiding in beige color. This would be more appropriate for mid-season and fall wear.

Simple Phase of One-Piece Dress

The one-piece dress is here to

stay. The one illustrated is developed in serge and satin. The new kimona sleeves are low and baggy

Smart-Afternoon Street Dress

under the arms. The surplice closing neck is collarless, although it may be trimmed with a large shawl-collar if desirable. Note the long skirt: all frocks are predicted to be at least ankle-length for street, and long trains are being shown for evening. To be appreciated, however, what is more alluring than long, narrow skirts, with the additional trains for evening?

W. S. S.

PRICE FOR GINNING OF COTTON IS FIXED

FOOD ADMINISTRATION ESTABLISHES RATES WHICH MUST BE CHARGED.

Effective July 22, and until further notice, the United States Food Administration designates and determines under special rule 8 the following to be the fair and just charge for ginning cotton:

The price of 30 cents per 100 pounds of seed cotton, plus cost to the ginner of bagging and ties, is hereby determined as the just and fair charge for the service of ginning picked dry cotton.

The price of 40 cents per 100 pounds of seed cotton, plus cost to the ginner of bagging and ties, is hereby determined as the just and fair charge for the service of ginning snapped or pulled cotton.

The price of 50 cents per 100 pounds of seed cotton plus cost to the ginner of bagging and ties is hereby determined as the just and fair charge for the service of ginning premature, unopened "bolle" cotton.

It has been found impracticable to determine the just and fair charge for the service of ginning long staple cotton, sea island cotton and such other cotton as may require special care, time or readjustment of machinery. However, the charge made for this service must be justifiable in comparison with the standard charge of 30 cents for the ginning of 100 pounds of picked dry cotton.

To Keep Correct Record. Ginters are to keep a correct record showing the name and address of each party for whom they gin cotton, the amount of cotton ginned in each case, and the actual charge made for such service. They must be in position at all times to furnish detailed information to the United States Food Administration.

It is necessary that ginters perform this service in such a way that the seed cotton shall be cleaned and the lint removed from the seed in an efficient manner. Such foreign substances as are removed from the seed cotton shall not be returned to the seed, but the seed shall be kept in a clean condition. Ginters are not permitted to mix any foreign material with the cotton seed during the time that it is under their control or in their possession.

The charge for ginning shall be the same whether or not the cotton or the cotton seed is purchased by the ginner.

Must Gin Rapidly. Ginters are to gin as rapidly as possible consistent with good work, all dry seed cotton tendered them, and upon demand they are to return to the owner the cotton and cotton seed ginned by them. If cotton seed is purchased by the ginner, he must be guided by rule No. 5 and circular No. 40.

Ginters are to keep a careful record, showing the name and address of each party from whom they purchase cotton seed, together with the quantity and price paid for same.

Ginters are requested to take notice that the above announcement makes again effective circular No. 41, dated June 22, 1918, except that the above ruling becomes effective July 22, 1918, instead of July 1.

"In issuing these instructions," states Administrator Peden, "we realize that there may be counties in which the prices made effective may be too high or too low, but it will be impossible to arrive at a fixed price that will be fairly applicable to every county, therefore we have decided to fix the prices as above given and in those counties where it can be shown that these prices are not fairly applicable to the business a hearing will be given to determine a fair price for that particular county."

DESOLATION SITS HEAVILY ON THE WESTERN PLAINS

Silent Caravans Move Out of Drouth Areas of Texas, Leaving Parched Land Possessions Behind.

Three years of drouth has placed a crown of thorns on the men, women and children of West Texas and without money, some without the very necessities of life, without food for their animals who are drawing them toward greener fields and richer harvests, the caravans of desolation are dragging their way into the cities of Fort Worth and Waco, and men who held high their heads in title and ownership are offering themselves "for sale" that they may sustain their women and children sheltered from the flaming sun by tarpaulins which have not felt the moisture of the skies for so long that the youngest of the caravan never saw rain.

"Heartrending" is the word that has come to Food Administrator Peden from the drouth area. Last year the farmers and the cattlemen braved it out. Surely nature, herself, could not be so cruel as to inflict upon them another year a scourge of intense heat and shriveling up of the plains; but this year there is nothing left to challenge a ravage of nature as relentless as the great guns in their devastating of the northern plains of France.

The situation is without the province of man and dollars. Rain has forgotten the plains, no clouds break the intensity of the blue, no refreshment comes in dew, no relief advances in a kindly mist or fog. All that can be done is to help the men and the women and the children as they come into Eastern Texas.

The Silent Exodus.

E. B. Spiller, secretary of the Cattle Raisers' Association of Texas, reported that Fort Worth is crowded with wagons of "expatriates of the plains," and the same intelligence comes from Waco. On one day alone 125 families passed through Brownwood, and on another day 119 families passed through Goldthwaite.

On August 17 Administrator Peden wired to Governor Hobby on the situation:

"Drouth conditions now prevailing in Western Texas most serious in history of the country. Oldest inhabitants have no recollection of anything approaching it. Ten counties in the Brownwood district will not make an average of 500 bales of cotton per county as against normal production of 15,000 bales. Thousands of farmers and farm hands necessarily seeking other employment, and an average of 250 farmers a day are leaving the district.

"There is no grain crop. If we can get rains in the next 90 days, with proper State and Federal aid, farmers would be able to plant wheat and oats, but they must have this aid."

Similar conditions to that in the Brownwood section are reported to Administrator Peden from the district administrators at San Angelo and Amarillo, and a recitation of these conditions has been wired to Governor Hobby by the three administrators of Brownwood, San Angelo and Amarillo.

Trying to Help Them.

Administrator Peden is deeply concerned over the situation and has placed the facts before H. W. Lewis, chief of the United States employment service for Texas, at San Antonio, as well as directed letters to his county administrators urging that they give the extent of personal relief needed; also that wherever these unhappy families can be placed so as to gain a livelihood that immediate report be made.

PENALIZATIONS BY FEDERAL FOOD ADMINISTRATION FOR TEXAS.

Revocation of the license of the Union Grain Company, Fort Worth, for failure to make adjustment on four cars of corn handled for Kemper Mill Elevator Company.

Taylor & Thomas, bakery, Fort Worth, discontinuance of the baking of products other than bread and rolls for a period of thirty days.

Herzje Steam Bakery, San Antonio, discontinuance of baking of other products than bread and rolls until October 1.

Model Bakery, San Marcos, closing of bakery shop for two days.

Barker Baking Company, San Antonio, discontinuance of the baking products other than bread and rolls until October 1, and allotment of flour be fixed at 200 pounds a week.

George H. Ward, baker, San Marcos, place of business closed for two days through failure to use prescribed amount of substitutes.

W. C. Neuse, baker, Kyle, Texas, discontinuance of baking operations for period of one week for failure to use prescribed amount of substitutes.

City Bakery (Frank Kaline, proprietor), San Marcos, place of business closed for one day.

Manhattan Cafe, San Antonio, doors closed voluntarily for two days.

Wolf Bakery Company, San Antonio, license suspended for 30 days.

Frank Keyton, baker, Waco, license suspended for 30 days.

Imperial Bakery, Taylor, closed for a period of one week.

Bell Bakery Company, El Paso, discontinuance of baking products other than bread and rolls for a period of sixty days.

The U. S. Food Administration has revoked the license of J. H. Brooks, Jacksonville, Texas, as a wholesaler and jobber of poultry and eggs, a commission merchant of fresh fruits and vegetables, and a retailer of peanuts.

The U. S. Food Administration has revoked the license of the Industrial Transportation Company, headquarters at Waco, Texas, capitalized at \$25,000,000, and organized to distribute foodstuffs.

THOMAS WATSON OPENS CAMPAIGN FOR CONGRESS

Crawfordville, Ga., Aug. 25.—Opening his campaign for congress in the Tenth Georgia district here Saturday, Thomas E. Watson declared that he would not go to Washington to oppose and harass the President. He said that as issues the conscription and espionage laws were now in the past and that they should be obeyed. As an after the war issue; he declared his opposition to a big standing army as "menacing civil liberty."

Universal Military Training

(A resolution addressed to the National League of Teachers' Associations to Newton D. Baker secretary of war.)

The National League of Teachers' Associations, representing 20,000 teachers in convention at Pittsburgh, desires to express its warm approval of your courage and statesmanship in refusing to be stamped into indorsement and adoption of a permanent system of universal military training and service at this time. The American people are in this war, as Lloyd George has said of the English people, to put an end to that monstrous evil everywhere, and it is hardening to feel that under the leadership which we now enjoy we are in no danger of losing the chief end of the war before the war is well begun. We are well aware that your moderate and sensible position has cost you some newspaper abuse, but we believe that your course is well understood and is silently approved by the great American people.

The possibility of overseas service, with rumors of dates, etc., has kept Camp Cody, N. M. on the qui vive. The whipping into line of the drafted men, the great work being done by the personnel office and development battalion, the large number of athletic contests and last, but far from least, the successful war roll campaign at the various "Y" buildings has kept things lively at camp.

For Indigestion, Constipation or Bloatingness

Just try one 50-cent bottle of LAX-FOS WITH PEPSIN. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Paris Medicine Co., manufacturers of Laxative Bromo Quinine and Grove's Tasteless Chill Tonic.

With the establishment during July of fair prices for mill feeds which licensed mills and dealers can not exceed without penalty, the mill feed market became practically as stable as that of wheat. Each invoice of the mill must have printed on it the fair price; consequently, it is easy for any representative of the Food Administration or buyer to know whether the mill has overcharged.

Prices of coarse grain feeds, hominy, rye, barley, feeds, and so forth will depend, as heretofore, largely on the market values of the grain from which they are made, but in these feeds also foresight in securing the winter supply is advised.

The differential on lard substitutes sold in wooden tubs containing 60 to 80 pounds was reduced recently by the Food Administration from 1/2 to 1/4 cent over tierce basis; the differential on butter tubs containing 50 to 55 pounds was reduced from 1/4 to 1/8 cent over tierce basis.

Revised regulations on the cheese industry provide that the maximum margins previously fixed for American and Cheddar cheese have not been changed. The principal addition to the rules is the inclusion of such foreign types of cheese as Swiss, Brick, Limburger and Munster, and the establishment of maximum margins with respect thereto, which, however, are not necessarily considered reasonable.

On August 2, in a wire to all Federal Food Administrators from the United States Food Administration, it was stated that the voluntary six-pound wheat flour ration should be continued until further notice for all except farmers who receive more from the milling or exchange of their own wheat. The six-pound rule may be eliminated later at the same time as the fifty-fifty rule is changed. For the present, there is no change in the bakery rules, including that restricting service in public eating places to

two ounces of bread and rolls, and ounces of quick breads.

On August 1 it was suggested by Federal Food Administrators that public eating places be no longer required to observe wheatless Mondays and Wednesdays and one wheatless day each day.

Cracker bakers were notified on August 6, 1918, that they would henceforth receive sugar certificates for sugar requirements for jollies, and preserves on sugar statement formerly; in other words, their allotment, whether used in cakes or preserves, is now based on 70 per cent of their former consumption.

USE OF LIGHTWEIGHT BEEF MAY EASE SITUATION

As a patriotic contribution to a hard-pressed, drouth-stricken men of Texas, A. C. Williams, assistant secretary of the Cattle Raisers' Association of Texas, has issued a statement in which he urges all private consumers and owners of public eating places to use only lightweight beef on their tables. In this respect he is joined by E. A. Peden, State Food Administrator.

The National Food Administration, at the urgent request of the association, has lifted the restrictions as applied to lightweight beef, and it is now served three times daily, wanted. By the term lightweight is meant cattle dressing 435 pounds under.

Because of the continued dry weather and the imminence of a feed shortage during the winter the cattlemen have recently been forced to place on the market large shipments of heifers and cows and lightweight steers. Unless the public rallies to their support and consumes this kind of meat, it is explained that the men's market will be demoralized, resulting in great financial loss.

Only steers dressing over 435 pounds are accepted on government meat contracts, hence the use of lightweight beef in no sense affects the soldier's supply, Mr. Williams explained. The beef is just as choice and wholesome as the heavy stuff.

The official order in this connection issued by State Food Administrator Peden follows:

"Owing to the fact that Texas is a beef-producing State, and that there are many undersized cattle now being killed which are not being exported, the following plan for meat conservation should be used by public eating places, in place of the meat program outlined in bulletin H. R. 28, dated July 3:

"All restrictions as to the use of lightweight beef, dressing 435 pounds and under are hereby removed, effective August 10. Public eating places may serve lightweight beef at a meal and in any amount desired.

"All public eating places are requested to use only lightweight beef, in those hotels and restaurants that the heavy weight beef must be governed by the National beef program."

—no other soft drink like Bevo

Bevo

A BEVERAGE

A beverage with positive virtues. Better than just non-intoxicating—it's good for you. More than wholesome—it's a nutritive beverage. More than being refreshing—it's pure, free from bacteria. You will like Bevo for its goodness—it will repay you by its nutritive wholesomeness. Serve your guests with Bevo—then ask them what it is. They will make a guess, but they will be wrong.

Get Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars, steamships, and other places where refreshing beverages are sold. Guard against substitutes. Have the bottle opened in front of you, first seeing that the seal is unbroken and the crown top bears the Fox.

You Can't Volunteer

---Except in the Cavalry

Volunteer enlistments in all branches of the Army and in the Navy and Marines have been stopped by an order from the War Department pending the passage of the new draft law.

The State Guards both in the Infantry and Cavalry continue to enlist men to fill their quotas but will probably not be able to do so after they are Federalized. If you wish to go as a volunteer the cavalry offers, perhaps, the last chance.

If interested see the officers of the local troop.

**BACKING UP OR
BACKING OFF?**

By the way, Mr. Business Man, are you backing up those home boys who are in the service or are you backing off from them?

Is your place of business a War Savings Stamp Sales Agency? Do you keep W.S.S. on hand all the time? Do you try to sell these bonds for the Government?

Can you look the fathers and mothers of these boys squarely in the eyes and say you are doing everything you can to help? There are a good many stars in the windows in your town. Some of them are going to be turned to gold by a Hun bullet. Does that make any difference to you?

If you are interested in your county, if you care for those boys, then keep War Savings Stamps in your store and sell them. Tell your clerks to politely suggest the purchase of a War Savings Stamp to their customers.

Try it. You'll see those bonds being sold if you get behind them and try to sell them.

**SWAT THE KAISER
BUY W.S.S.**

**PAY THAT W. S. S.

Memphis, 25 Texas

I understand that a rumor has gained currency that I have sold my tailor shop; such rumor is false, and without foundation in fact. I am still in business and have moved to the Span building next door to Pool's. I will be pleased to serve you in the past.

King, The Tailor

**BIG BUSINESS HIT
BY FOOD EXPERT**

"Hindering the Big Job" for Private Profits, Says Dr. Wiley.

Declaring that "We should include all commodities in the price-fixing scheme," Dr. Harvey W. Wiley, the best known food expert of the United States, gives emphatic indorsement of the position of the organized farmers, in the current issue of Good Housekeeping. Those who oppose general price fixing, he says, are "Hindering the Big Job."

"As an illustration of how not to do things in accordance with this formula," says Dr. Wiley, "I may call attention to the fact that congress authorized the fixing of the price of wheat, but did not authorize the fixing of the price of flour or bread. Nor did it authorize the fixing of the price of anything the farmer employs in cultivating his crop."

"Thus, as the president says, the farmer justly complains of an artificial price fixing which limits his income and does not in any way protect him against the greed of those who have things to sell to him. He feels that he is entitled to this protection. He also feels that the consumer of the bread made from his wheat is entitled to protection."

Dr. Wiley says that on his way to the office recently he stopped at one of the best retail grocery stores in Washington to ask the price of a five-pound package of whole-wheat flour. It was 50 cents, or 19 cents a pound. The farmer got 17 cents at the most for the wheat needed to make it, leaving a margin of 33 cents. "I pay at a mill near my farm 10 cents a bushel for grinding wheat. For grinding five pounds of wheat the charge would be not quite one cent, which leaves 32 cents for the container, the cost of transportation and the profit of dealers."

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Theford's

Black-Draught

Mrs. W. F. Pickie, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. . . . We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 25c a package. E-75

Every resource of the United States and its people should be devoted to the winning of this war. We should hit the Hun with all our strength. To win the war we have got to keep our soldiers in a high state of efficiency and keep our people at home, and our farms and mines and factories in a high state of efficiency. We are not keeping ourselves in the highest state of efficiency when we are using money and goods and labor and transportation for non-essential things, for luxuries, and extravagances.

During the last week 600 enlisted men in the Southern Military Department have been selected to attend the three central officers' training camps most of them going to Camp Pike, Ark. Several were sent to the school for machine gun officers at Camp Hancock, Ga., while 150 have been sent to the field artillery officers' training camp at Camp Taylor, Kansas. All of these men had been examined by a special examining board, and they will take a three months' course in intensive training which will qualify them for second lieutenantcies.

Parole Prisoners For War Work

Cleveland, Ohio, Aug. 27.—A resolution calling upon the Governors of all States, Judges and other authorities to parole inmates of penal institutions, where practicable, so they may work on farms, in mines and in other essential war industries and that they may be used at road work was adopted today by the American Institute of Criminal Law and Criminology in tenth annual session here.

—Pay the Red Cross—

43,000 Barrels of Whiskey Burn.

Owensboro, Ky., August 24.—Fire starting tonight at seven o'clock at the plant of the Green River Distilling Company here by 10:30 tonight had destroyed the entire plant, 43,000 barrels of whiskey and entailed a loss well in excess of \$3,000,000. The whisky alone was valued at \$2,840,000 and the loss to the United States government in taxes is approximately \$6,750,000.

LET YOUR UNCLE DO IT

Let Uncle Sam do the spending now; you spend later. Buy War Savings Stamps and save.

The ability of Texans to save is the measure of their patriotism and their desire to win the war and bring their boys back home. Pay your W.S.S. Pledge. Stick to the job and stick on more Savings Stamps.

Every dollar lent to the Government saves the lives of Texas boys in France. Dig deep into your savings and invest to the hilt in these victory bonds.

One War Savings Stamp will feed a Texas soldier or sailor for a week. It will buy enough gasoline to run one of our boy's aeroplanes for an hour. Dollar mark your W.S.S. Pledge.

Instead of spending your money for things you don't have to purchase, let Uncle Sam send it over the top with Pershing and the Lone Star State fighters. Hit the bill over here and the boys and your War Savings Stamps will hit the line over there.

"A Better Place to Trade"

HOW PRICES ON FOOD STUFFS ARE STABILIZED IN TEXAS

What is a Federal Price Reporter? A man or woman appointed by Administrator Feden to check prices as charged by retail merchants for licensed commodities of foodstuffs.

What is their duty? To check the stores in their respective communities not less than once a week on forms sent out by the Price Section of the Federal Food Administration for Texas.

How many are there in Texas? The list for August shows 200 names, but it is growing daily. Appointments are based on population and the plan is to have one reporter for each town of 1500 or over, two for each town of 5000 or over, three for each town of 7500 or over, four for each town of 10,000 or over, and so on adding one Price Reporter for each 2500 additional population.

How are the Price Report blanks checked? Every retail store should be covered by the Price Reporters at least once a week, and as near a check made upon every community as possible. When the reports are received by the Price Section at State headquarters for the Federal Food Administration for Texas, the lists are checked against the Price Interpreting Committee fair price lists for the district in which they originate, and where there is evidence of excess profits the County Administrator is notified of the name of the offender, the date of the offense, and the person making the check. An adjustment is then up to the County Food Administrator.

How are the Price Reporters coordinated with the Price Interpreting Committees? Whenever possible the County Food Administrators should link the Price Reporting Committees with the Price Interpreting Committees. The two departments should work in close harmony and Price Reporters should thoroughly familiarize themselves with the interpretations of the Price Interpreting Committees, noting carefully the changes from week to week, and understanding the economic factors which enter into these changes. To not so UNDERSTAND is to miss completely the viewpoint and to render the work insufficient.

Are Price Reporters volunteers? Yes—just as the Food Administration is essentially a volunteer work. There is no higher following today than that of Service to the Nation in one field or another, and men and women who are designated as Price Reporters should accept their appointments in the same spirit as the man entering the army under the Selective Draft reports for duty and remains "on the job" until the war is won.

Is the Price Reporter put to any personal expense? No. He is supplied with all the necessary forms and each week a supply of envelopes addressed to the Price Section is mailed out. The supply may be increased or diminished according to the needs of the Price Reporters.

What has been the result of the work of the Price Reporters in Texas? The result has been that the work of the Price Interpreting Committees in stabilizing prices on licensed food commodities has been sustained in a large degree and merchants who failed to observe the Fair Price Lists have come to understand that such failure will no longer be countenanced. Furthermore, the plan as working in Texas has been so effectual that it is fast spreading to other States.

NO RE-SALE OF EGGS WITHIN THE TRADE

The United States Food Administration recognizes the following classes of dealers in fresh eggs: (1) Original packers and shippers, (2) Commission merchants and wholesalers, (3) Jobbers and suppliers of hotels and institutions, (4) Retailers. All trading in fresh eggs must contribute toward moving the eggs in a direct line to the consumer. Sales between dealers in any one of the classes mentioned are prohibited except as follows:

Sales between wholesalers in different cities will for the present be permitted where necessary to supply the reasonable requirements of the buyer's business, provided there is an actual shipment of the goods, and provided the movement between cities is in the direction of normal flow movement from producer to consumer. In addition thereto not more than two sales of any lot of fresh eggs between dealers in Class 2 may be made without obtaining the consent of the Local Federal Food Administrator if such sales are necessary to supply the reasonable requirements of the buyer's business, but more than two sales between dealers in Class 2 shall not be made without the written consent of the Local Federal Food Administrator. One sale, and only one, between dealers in the same class other than Class 2 may be made without obtaining the consent of the Local Federal Food Administrator if such sale is necessary to supply the reasonable requirements of the buyer's business, but more than one such sale shall not be made without the written consent of the Local Federal Food Administrator.

In no case shall a dealer sell fresh eggs to any dealer in a class further removed from the consumer than the class in which the seller is included. For example, a wholesaler shall not sell to a wholesaler, or a jobber to a wholesaler.

Any licensee ignoring the above rules may expect to have his license suspended.

TO HANDLE COTTON SEED FIVE ZONES ARE FORMED

SCHEDULE OF BASIC YIELDS ARE GIVEN.

Effective August 1, in order to better handle cotton seed and its products, the State of Texas has been divided into five zones by Administrator Feden, as follows:

Zone 1 includes all counties east of Fannin, Hunt, Rains, Van Zandt, Henderson, Anderson, Houston, Trinity, Polk, Liberty and Chambers counties.

Zone 2 includes all counties south of Liberty, Montgomery, Grimes and Washington counties and east of Fayette, Lavaca, Jackson and Calhoun counties.

Zone 3 is bounded on the east by zone 1 and on the south by zone 2, on the west by the eastern line of Fayette, Lee, Williamson, Burnet, Lampasas, Mills and Comanche counties, and bounded on the north by the southern lines of Erath, Somerville, Johnson, Ellis and Henderson counties.

Zone 4 is bounded on the east by zone 1 and on the south by zone 3 and on the west by the eastern lines of Comanche, Eastland, Stephens, Throckmorton, Knox, Notley, Briscoe and Armstrong counties.

Zone 5 includes all counties west of zones 4, 3 and 2.

Basic yields, effective August 1, are as follows:

Yield of 540 pounds of hulls and 145 pounds of lint for all zones. Oil yields, 29, 38, 37, 38 and 35 gallons for zones 1, 2, 3, 4 and 5, respectively. Cake yields, 820, 830, 840, 850 and 900 pounds for zones 1, 2, 3, 4 and 5, respectively. The point of origin determines the zone.

Notice has been sent to all cotton seed crushers of the zone plan, and in addition Washington instructs that all mills are to buy seed at market price. Seed dealers are to pay back to farmers all excess profits allowed in circular No. 40. Violators of circular 40 or other rules should be summoned for hearing immediately.

What is a Federal Price Reporter? A man or woman appointed by Administrator Feden to check prices as charged by retail merchants for licensed commodities of foodstuffs.

What is their duty? To check the stores in their respective communities not less than once a week on forms sent out by the Price Section of the Federal Food Administration for Texas.

How many are there in Texas? The list for August shows 200 names, but it is growing daily. Appointments are based on population and the plan is to have one reporter for each town of 1500 or over, two for each town of 5000 or over, three for each town of 7500 or over, four for each town of 10,000 or over, and so on adding one Price Reporter for each 2500 additional population.

How are the Price Report blanks checked? Every retail store should be covered by the Price Reporters at least once a week, and as near a check made upon every community as possible. When the reports are received by the Price Section at State headquarters for the Federal Food Administration for Texas, the lists are checked against the Price Interpreting Committee fair price lists for the district in which they originate, and where there is evidence of excess profits the County Administrator is notified of the name of the offender, the date of the offense, and the person making the check. An adjustment is then up to the County Food Administrator.

How are the Price Reporters coordinated with the Price Interpreting Committees? Whenever possible the County Food Administrators should link the Price Reporting Committees with the Price Interpreting Committees. The two departments should work in close harmony and Price Reporters should thoroughly familiarize themselves with the interpretations of the Price Interpreting Committees, noting carefully the changes from week to week, and understanding the economic factors which enter into these changes. To not so UNDERSTAND is to miss completely the viewpoint and to render the work insufficient.

Are Price Reporters volunteers? Yes—just as the Food Administration is essentially a volunteer work. There is no higher following today than that of Service to the Nation in one field or another, and men and women who are designated as Price Reporters should accept their appointments in the same spirit as the man entering the army under the Selective Draft reports for duty and remains "on the job" until the war is won.

Is the Price Reporter put to any personal expense? No. He is supplied with all the necessary forms and each week a supply of envelopes addressed to the Price Section is mailed out. The supply may be increased or diminished according to the needs of the Price Reporters.

What has been the result of the work of the Price Reporters in Texas? The result has been that the work of the Price Interpreting Committees in stabilizing prices on licensed food commodities has been sustained in a large degree and merchants who failed to observe the Fair Price Lists have come to understand that such failure will no longer be countenanced. Furthermore, the plan as working in Texas has been so effectual that it is fast spreading to other States.

WHAT MR. LORD SAYS

Is Surely of Interest to Democrat Readers.

Memphis people are always interested in the statements of Memphis residents. And this is particularly true when a man so well known as Mr. Lord speaks. Those in Memphis who suffer from backache and headache and other kidney ills will make no mistake by following Mr. Lord's example.

J. H. Lord, stationary engineer, Fifteenth St., Memphis, says: "I suffered from pains in my back and the kidneys secretions were too frequent in passage. It only took a few boxes of Doan's Kidney Pills procured at Hart's Drug Store to cure me and I haven't had any trouble since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lord had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Piles Cured in 6 to 14 Days

Your druggist will refund money if FAZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. Try—best application given. Large and Small. 5c.

Grove's Tasteless Chill Tonic

destroys the malarial germs which are transmitted to the blood by the Malaria Mosquito. Price 60c.

No Worms in a Healthy Child

All children troubled with worms have an un healthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

OH! MY BACK!

The Expression of Many a Kidney Sufferer in Memphis.

A stubborn headache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Memphis proof:

J. W. McIntush, S. Sixth St., Memphis, says: "I have used Doan's Kidney Pills off and on for a number of years with excellent results. My back was so weak and lame sometimes, I could hardly lace my shoes in the morning. I felt tired out, languid and had dizzy spells. Doan's Kidney Pills, procured at Tomlinson's Drug Store relieved me in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McIntush had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

22 Million Families in the United States

4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.

Corn Meal Biscuits

1/2 cup scalded milk	1/2 teaspoon salt
1 cup corn meal	1 cup white flour
2 tablespoons shortening	4 teaspoons Dr. Price's Baking Powder

Save 1/2 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.

New Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free.

**LOUISIANA SECONDS AND THIRDS
 MADE AVAILABLE TO HOMES**

When the sugar ration to the people of Texas was reduced from 18,900,000 pounds in July to 13,230,000-pounds in August there was some perplexity in the minds of the Food Administration whether the August allotment would supply much sugar to care for preserving. After careful analysis it was found that approximately 2,000,000 pounds might be diverted to householders for preserving purposes, provided the allotment of two pounds per month to the person were adhered to.

At the meeting of the District Administrators for Texas on that at least a telegram was read from the National Administration registering his information of 10,000,000 pounds of Louisiana seconds and thirds, which, as a whole, was unable to absorb and 2,300,000, deteriorating by reason of military.

The question was phrased of the District Administrators among the Texas might handle this surplus and the decision was secured on a percentage over 10 above the straight white sugar allotment called for in the certificates, the sections of Texas where fruit is raised might be able to absorb a considerable portion. The districts most interested were the Ninth, or Paris district; the Second, or Lufkin district, and the Twelfth, or Navasota district.

Wednesday, August 14, Administrator Peden completed an arrangement with the approval of the United States Food Administration which allows of a 25 per cent increase on sugar as provided in statement E to retail grocers, conditional that the increase covers Louisiana seconds and thirds. The same privilege is extended to users of sugar on statement A, or the non-essentials.

Notice was immediately sent to the officials of the North and South Texas wholesale grocers associations so that the trade might be informed; also the District and County Administrators. Haste is necessary in the distribution of the seconds and thirds coming to Texas, as the preserving season ends on September 15.

**PUBLIC SHOULD GET
 CHEAPER MEAT NOW**

HOUSEWIVES ADVISED TO DEMAND BEEF DRESSING BELOW 475 POUNDS.

Such Beef Can Be Sold for Less Than Heavier Cuts—Wholesome, of Good Quality and Government Inspected.

Housewives who have been accustomed to purchase beef from heavier weight carcasses should now be able to buy at much lower prices than the average which has ruled during the past year if they observe the Food Administration's request to demand meat from cattle which dress below 475 pounds per head.

The Food Administration states that the light-weight cattle are now moving rapidly to market, the producers in the Southwest endeavoring to dispose of them before they suffer from the effects of long continued drought.

Heavy steers are being sold in Eastern meat centers for \$26 to \$27 per 100 pounds; good steers, somewhat lighter in weight, at \$24 to \$25; medium weight steers at \$19 to \$21, and light weight steers at \$14 to \$18.

While prices are not uniform throughout the country, it will be found that this ratio will rule in practically every market. Meat markets which formerly cut \$26 beef can obviously give their patrons the benefit of such a wide difference in first cost. Selling light cuts bought at \$14 to \$18, there should be a material reduction in the selling price of meat bought.

The Food Administration believes that its request for consumption of light cattle will not only do much to relieve the producers who are affected by severe droughts, but should be followed by a general downward trend in retail purchasing prices, the demand turning to the cattle which are now in abundance and relieving the strain on the market for heavier beef, which is still badly needed for the military and for export to the civilian population of the allied countries. The market should naturally follow in its price reduction the difference in first cost, providing a reasonably low price to those who utilize the lightweight cattle. They are wholesome, of good quality, and before being marketed have passed government inspection.

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Theford's

Black-Draught

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. . . . We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 25c a package. E-75

DELCO-LIGHT
 Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year. That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes. It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances. It is also lighting rural stores, garages, churches, schools, army camps and railway stations.

Military Status of College Man

The military status of the college man in the ranks of the Students' Army Training Corps and his relation to the draft have been cleared up by a War Department decision. The student-soldier is enlisted already in the military service of the United States. Upon reaching draft age he becomes subject to registration whenever the President directs. He is then placed in class 5-D by his local board. The draft board will not include him in calls for induction as long as he remains in the S. A. T. C.

On the day the order number of the student-soldier is reached the fact is reported to the college president, to the commanding officer, and to the Adjutant General. A report upon the man's record as a student-soldier and as a scholar is put before the War Department's committee on education and special training with the recommendation that he be called at once to an officers' training camp, called to an Army camp, or permitted to complete college training by transfer to the Enlisted Corps.

What Is Prevention Worth?

Tradition has it that the value of prevention and combating disease is in the ratio of 16 to 1; in other words, "an ounce of prevention is worth a pound of cure." As a matter of fact, this estimate is too low; probably 160 to 1 would be much nearer the truth. In spite of this fact, however, preventive measures are not so well known or so effective that disease can always be prevented. If animals get sick call the local veterinarian or county agent at once. As a war emergency as well as good business practice, disease losses should be prevented as far as possible.

Plowing Land for Wheat

In most of the sections producing winter wheat early plowing results in increased yields. This is especially important when wheat follows wheat continuously, but also is true when wheat follows a green-manure crop, or corn or other tilled crop, or summer fallow. The wheat land should have at least two months to settle after plowing and before sowing so that, with the help of the rains it may become firm and compact beneath. The upper portion should then be well worked, just before sowing, until it is fine, mellow, and a fit place for sowing wheat.—Govt. News Letter.

The War Department has amended the order relative to women serving in the foreign service who have relatives also in foreign service, army or other war work, so that it does not apply to sisters. However, even sisters will have to return to the United States if she marries either an officer or private.

The Red Cross has just completed two more fine buildings near the base hospital at Camp Cody, N. M., and three extra good buildings have been authorized by the Southern Department of the Y. M. C. A. for the same camp.

L. M. Thompson and family came in Monday from Sulphur, Oklahoma, where they spent several days. Mr. Thompson says that there are practically no crops from Collingsworth county east.

You who are delinquent to the Second Red Cross War Fund are requested to make your payments at once and save the Red Cross further expense and trouble.

D. L. C. Kinard, Treas.

Private Henry H. McGilvery, Camp Pike, Ark., claiming to be a Seventh Day Adventist, was recently sentenced to five years imprisonment for refusing to clean a latrine on Saturday, claiming that the day was his Sabbath. In reviewing the case, Colonel Miller, Camp Commandant, held that such work was a military duty and must be performed on any day that it was necessary, regardless of one's religious beliefs on the matter of Sunday or Sabbath labor. The finding goes on to say that no more rights can be given a man claiming Saturday as his Sunday than to one who recognizes the usual Sunday.

The S of High-C Deal

wants his customers to have the safest and best oil that can be sold by a dealer. Veedol is unlike ordinary oil because it is made by the Fushion which gives Veedol its remarkable heat-resisting and wear-resisting. Veedol resists heat, does not evaporate quickly, and does not reduce your operating expense by decreasing sediment, one of the causes of friction and wear. Try it the next time you need motor oil.
