WINNING ESSAY ON "ADVANTAGES OF COW, HOG, HEN TYPE OF FARMING"

This is the second in the series of essays on "The Advantages of Cow, Hog, Hen Type of Farming" to be published. Bobby Joe Wynn of Parnell is a winner of one of the prizes and is the writer of this essay, which follows:

We have many failures in this part of the country. Most all people have a great herd of cows, several hogs and quite a bunch of chickens. Although if we didn't make any maize or cotton seed, we would have to buy them and thus make the cost higher.

The chickens are rather expensive while they are young but if you will keep a close record of them you will find that they will pay for themselves and many times over. When we do make a good crop we should put away our grain and seed for future failures.

I sincerely hope this letter is read the way it is meant to be read and can assure you if you think I deserve any kind of prize I will do my very best with it and thank a million for giving me an opportunity of entering in this contest, for even if I win nothing, I have enjoyed it very much.

Zady Belle Walker Visiting Parents

WAAC Auxiliary Zady Belle Walker is here this week visiting her parents, Mr. and Mrs. E. E. Walker. She is stationed at Camp Pickett, Va., in the Army Directory Service, connected with the Post Office.

Auxiliary Walker says that her job is to see that the soldiers' addresses are kept up to date and that their mail is forwarded in case they are moved. In Camp Pickett, the WAACs work hours are from 8 until 5. They get up at 6 and have drill for one hour before breakfast. Their barracks are inspected daily. Once or twice a week in the evening classes are held in chemical warfare and other phases of the work.

"The girls work hard but we enjoy it and I believe that we get along with each other better than any group of girls. The most important time of the day is mail call—that is—it's the most important time to us," stated Miss Walker.

This week-end, seven of the eight children of Mr. and Mrs. Walker will be in Memphis. House guests this week are: Mrs. R. E. Vaughn and daughter, Ann, and son, Don Walker, Mrs. Chesty Walker and daughters, Penny and Betsy of Phillips, Miss Mary Catherine Walker of Borger and Miss Peggy George Walker of Canyon, Mrs. Ned Pilcher and Emmett Lee Walker of Memphis.

Mr. and Mrs. B. Baldwin and son James, and Mrs. A. Baldwin left Sunday for Dallas where they will attend the graduation of their son Jack from Baylor dental college. James will go from there to Waco where he will attend Baylor University.

Stamps 15 and 16 Good for Ten Pounds of Sugar

These Stamps May Be Taken To Grocery Store for Purchase of Ten Pounds Sugar

In order to clarify the sugar rationing program of the OPA announcement was made today by Howard Gholson, district director, Lubbock, concerning the use of stamps from War Ration books. Small families who need only ten pounds of sugar for canning may take Stamps No. 15 and 16 from their War Ration Book I directly to their grocery stores, he said. The director pointed out that these stamps will be honored unless the Ration Book shows that sugar has already been obtained through the local board and both amounts will exceed 25 pounds. Otherwise, the Stamps 15 and 16 which became usable on May 24 will be good through October, 1943.

Consumers who require more than ten pounds of sugar per person for canning should go directly to their local ration board for the full amount, the OPA director said. However, Gholson pointed out, extra sugar for both canning fruits and making jellies and jams must not exceed 25 pounds per person during the specified period.

The regular current ration of five pounds of sugar for a period of 1-2 months for table use per person will continue and is not to be confused with the canning ration, he said. Stamp No. 12 will be of no value after May 31 and Stamp No. 13 will become valid and be good for five pounds through August 15, he said.

Mrs. A. M. Padgett Dies in Levelland

Mrs. A. M. Padgett, 61, passed away at her home in Levelland Wednesday, May 26, following a long illness. Funeral services were conducted there Friday.

Mrs. Padgett was born in Georgia and was a resident of Hall County for 25 years. She moved away from here in 1937.

Surviving here are her husband and one son, C. E. Padgett, and four grandchildren. One son and two daughters preceded her in death.

Relatives of Mrs. Padgett living in Memphis are Marshall, Clifford and Marvin Padgett, Mrs. Lillie White, Mrs. Hugh Murphy and Mrs. W. M. Padgett.

Disappointments are inevitable if you have ambition or hope.

Frank Ray Webster Wounded in Action

Mrs. D. P. Webster received a telegram Tuesday from the War Department in Washington stating that her son, Pvt. Frank Ray Webster, was slightly wounded in action in North Africa May 14. Webster entered the army in August, 1942 and was shipped across before the end of the year. Mrs. Webster received a letter from him dated May 11 and he was feeling fine at that time.

Delegates Return From Firemen's School at A. & M.

Ed McCreary Attended Firemen's Instructors Course, Clayton Basic Course

Ed McCreary and Thomas Clayton returned Friday from Bryan where they attended the Firemen's School at College Station last week. These men were selected as delegates and the city saves three per cent on the insurance rates if the men successfully pass the basic training course.

Clayton attended the basic training course in which a general course in fire fighting is taught. McCreary was in the Firemen's Instructor's Course, in which the explanation of fire truck apparatus is given, how and when to use it. He will instruct the local members of the Fire Department in the use of the equipment.

Both delegates expressed their appreciation on the way the school was offered this year. Accidents and illustrations were given and each man was required to explain the workings and drills of fire fighting.

Several negroes left Wednesday for Lubbock for their physical examinations. Included in the group were Henry Junior Jordan, Lawrence Spraglin, Elantray Buckler, General Stonewall Jackson, George Ware, Cleveland Fair, James B. Scott, Connie Hosea, Jessie Johnson, James Phillips Tyler, James Allen Jackson.

Dogs Should be Kept Up Says Chief of Police

Dogs Must be Vaccinated and Tagged or They Will Be Killed, Warns McCreary

There are many complaints about dogs running loose on the streets and in other people's yards, according to Ed McCreary, chief of police. There is a city ordinance prohibiting dogs on the street.

"Dogs on the street should be vaccinated and tagged. When the dog is vaccinated, the doctor will furnish a tag and if he doesn't, I will if you will show me a receipt from your doctor. For your own protection, the dog should be vaccinated, and if it is on the street without a tag, I'll be forced to kill it," stated McCreary.

"Dogs are bothering gardens and yards in Memphis and should be kept up. In other words, if you want to keep your dog, you should keep it up," continued McCreary.

May Bond Sales Are Half Quota

According to C. T. Johnson, county chairman of War Bonds and Stamps, the quota for Hall County for the month of May was \$46,000 and reports indicate that a little over one-half of this amount has been sold.

Partial reports show that \$23,155 was sold during May in bonds and stamps. This amount is the sale in the Memphis banks and post office. Reports from Lakeview and Turkey were not available, but indications are that the sales were small.

"It has been mighty slow since the Second War Loan Drive in April but we must not let down," stated Johnson.

Cotton and Gardens Damaged by Rains and Strong Winds

The farmers have been very busy the past week after the heavy rains washed out quite a lot of the cotton that was just coming up.

During the past few days, the hot strong winds and blowing sand have damaged the crops and victory gardens, but the farmers are stirring the soil to keep the cotton from being covered up with the sand.

CLAUDE'S COMMENTS

By J. C. W.

HAPPY BIRTHDAY— May 31—Mrs. L. O. McCoy. June 2—W. C. Davis. June 3—Margaret Bourland. June 6—Mrs. Ellis Veteto, Maurine Thompson.

CONGRATULATIONS— Mr. and Mrs. H. H. Newman on their 40th wedding anniversary, May 31.

The Democrat Staff Poet and his daughter were on the Amarillo radio last Sunday morning, and both went over in a big way, for many nice compliments were received concerning the program. Lowery Johnson and his daughter, Ruth, are both real radio entertainers.

Lewis Nordyke, who conducts the Exchange Editor program over KGNC, writes, "We have heard some mighty swell remarks about Sunday's show. Ruthie's song was especially well received. Folks who rarely say anything to me about the program have commented at length on the quality of the girl's voice."

THE DEMOCRAT STAFF POET You know I don't know where I got all my toughness from unless it was from my Grandpa. He was a man that never was happy unless he was settin' on a spool of barbed wire. When he was a rounding up his critters, he never would use a rope—he loved it was sissy. He always used a grapevine for a ketch rope. He always thought he was a wastin' time usin' a gun or axe to kill hogs. He just picked 'em up and wrung their heads off like one would a chicken. I've got a little verse today in memory of him.

Old Granddad was a tooter, Or so the neighbors thought. They accused him of everything But he was never caught. He started chewing tobacco At the tender age of ten. And had his jaws retrained When they started wearing thin. At a hundred and forty-five He fell down in a well. He'd a likely been with us today If he hadn't fell.

School Pupils To Aid in Producing Needed Foods

Under the direction of W. B. Hooser, county agent, school children working with 4-H Clubs of the county have signed up to produce a certain amount of milk, meats, vegetables, eggs and butter above normal amounts raised by their parents. Students who are cooperating will derive enough from the sale or home consumption of the foods to feed or clothe one member of the armed forces for one year.

"Food that is produced by these students may be sold or it may be canned and used for home consumption. It doesn't matter which is done, because if it is used at home, it will release the food for the commercial canning food for men of our armed forces, or it may be sold, thereby putting it on the market for those who cannot raise their own. A large per cent of the boys and girls who are in this drive and who are selling products are putting the money into War Bonds and Stamps," stated Hooser.

There are 729 young people in Hall County who have signed up to produce one of the items. Below is a list of the students and the kind of demonstration they are making:

AMERICAN HERO

Hyman Epstein knew that after wounding a man the Japs would be watching his fire, using the injured soldier for bait and medical aides like himself came into range. Yet again and again he under sniper fire to rescue wounded comrades until at last the Japs said "That kid was the best," his commander said of determined Hyman Epstein. Are you buying War Bonds as determined?

Three Japs killed with one bullet was the score of Marine Pfc. Noble while defending a small village somewhere in the South Pacific. Noble and the trio as they approached Indian file and then bagged two more before the little men's rifle put him out of commission and he was hospitalized. Our boys are making the best use of the ammunition they help buy when you invest in War Bonds. Help pass them more of it.

Sgt. Weldon Massey, who is here in England, writes the following letter to his Mrs. Pearl Massey Memphis.

May 21, 1943

Somewhere in England

say a lot but can say I will trip and have seen all your country. All flowers are in bloom and it is about 11 o'clock at night as far I like it here very fine and enjoying food is good. We have to pay money and sure have to tell the kids hello and buy bonds - and will write them soon.

Love, your son.

Weldon.

is a letter from W. Padgett to his Mrs. C. L. Padgett, stationed at Langley.

Langley Field, May 27, 1943.

and your most welcome day. Boy, I was glad to always look forward to those cheery letters. It is my morale. Just keep and there will be one in the arm.

by now, Mom, that you need that I went on sick don't get excited or there's nothing severe with me. It's just that you know the one all the time. I am not but I thought maybe could do me some good. I told me to come Saturday I think they will give enough exam. Maybe they me.

family:

few lines to let all of where I am. I am deep part of England. I am I received three letters States today. I wrote one ago, but they have in going out. There is worry about. I am en- best of health.

had a swell trip over never got the least bit were sure glad to min.

is here is much better I thought sure have to live in tents,

but we live in barracks. They are different from ours. We have plenty of water. Hot water is not as plentiful as back in the States, but we will get by just fine.

One of the things that impressed me most was the country. It was beautiful. A fellow can hardly tell they are at war. It is very common to see the women doing all kinds of work. They seem to be very happy about the whole thing. The homes are very old. They have roofs made of straw. We saw some very pretty homes in Scotland. The farmers are at work. They have no tractors. It seems funny for a fellow to be working one horse.

The English people are different from ours. They never seem to hurry about anything. They really are swell to us. They want to stop and talk when we have work to do. They really love their country. I don't blame them. It is really beautiful. I am looking forward to a visit to London. It probably will be several days before I get a chance to go. I have not been to town since we left Pueblo. I sure did want to visit New York City.

The English don't have too many cars. The trains are very old. I really got a kick out of riding them. They seem to get the job done and that is what counts.

The days here are really long. The sun comes up at six and goes down about 11. A fellow doesn't get much sleep. There are six hours difference between here and New York.

Our conditions here are about the same as they were in the States. We have food from over there. We get plenty to eat. I sure don't like powdered eggs. They are like gold ever here. We don't get any real milk. They sure have pretty dairy cattle, but it takes all they produce for their own men.

Be sure to notice my APO is 634. My address sure changes often. I wish I had time to write to Boyce and everyone at home, but time won't permit. It sure takes a lot of work to get the mail ready to go out.

We sure are having fun with the English money. We had to turn our American money in. It has no value over here. They value their money in pounds. It takes one pound to make four dollars of our money.

Well, it is time to close for now. Don't worry about me as I will take very good care of myself. I will write every other day.

We don't think Germany can last much longer.

Love,

Glenn

I'M IN THIS WAR TOO!

Yes, indeed! I'm mighty proud to be furnishing some of the 57,360,000,000 eggs Uncle Sam's asked for in '43. It takes five of us hens to lay enough eggs for just one soldier's yearly supply, and you can bet we're all laying to beat the Axis.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all work ends.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. And endorsed the country over. Incess on Doan's. Sold at all drug stores.

HALL COUNTY CITIZEN PLACES SERVICE ABOVE SELF

There are men who work for glory and fame. There are men who work to obtain much of this world's goods. There are men who work in order to get the praise of their fellow man. And there are a few men who work, not for glory, not for money, not for praise, but for the sake of doing a service for mankind.

In the last category The Democrat submits the name of a fellow-townsmen as being the person who should have much honor and praise from every citizen of Hall County. A man who has done much for the Hall County boys in the armed forces of their country, and their families here at home, and thereby upholding the morale of both the soldiers and their loved ones. A man, if you please, who is continually working at the job without pay or remuneration, and is spending a lot of his own money and time without any hope of reward other than that he gets a lot of pleasure in doing for others.

He is none other than E. N. Hudgins of Hall County, who for nearly 26 years has served as Home Service Chairman of the American Red Cross. Hundreds of soldiers and many hundreds of their relatives have been served through the efforts of Mr. Hudgins. Our hats are off to this self-sacrificing and valuable citizen.

YOU DON'T JUDGE AN ORANGE BY THE COLOR OF ITS SKIN

(Boatswain Mate Lester Campbell)

Now before starting, we want to make it plain that we do not like Japs any better than you do, but there sometimes is a disadvantage in carrying that dislike a little too far.

This writer was on a train the other day, a train which had four Japanese, two men and two women, as passengers. A soldier got on the train, and in a loud voice proclaimed the Japs (yes, those four Japs who were present) as "yellow." He went out of his way to try to pick a fight with the four.

Well, maybe they were "yellow." Maybe he did want to fight with them. Maybe he could have lashed the daylight out of them. Maybe he could have lashed the daylight out of the two men, with the two women thrown in for good measure. In such a case, those Japs would never have liked America any more. The soldier didn't stop to consider that the Japs would have been in a Japanese encampment if the F. B. I. hadn't found them to be good citizens. And if the Japs began hating America, they could, and probably would harm this country more than the bodily injuries the lone soldier could have harmed them.

Then another thing. Maybe the soldier would have got the daylight lashed out of him. Then he, and other Americans along with him, would have looked silly. If the F. B. I. with their years of experience and record for thoroughness, investigates and thinks a Jap is a good American citizen, then that Jap should be just as welcome as the thousands of Germans (the full-blooded kind) that we have in this country. And personally this writer has some very good friends who are full-blooded Germans.

SELECTED FROM THE DEMOCRAT'S EXCHANGE

New Citizens
Quarah citizens have opened their arms to receive a number of new families. The citizens have gone to unlimited trouble to provide living quarters for all comers. There has been no appreciable advance in rents when compared with those in neighboring towns, even those where a ceiling has been placed by the government. The new citizens are a very desirable element and are receiving treatment from the town that they deserve. Those who are in the service have been given freedom of the country club and all are recipients of numerous gestures from townsmen which should make their stay in our midst most pleasant.—Quarah Tribune-Chief.

It is remarkable how people can manage when they have it to do. Many a tire and tube that were hopelessly no account a few months ago are back in service and doing a pretty good job of it.

And the later re-capping jobs are doing wonders for tires that have good carcasses. Many a car, many a trailer are still going because the owner uses ingenuity to save time waiting for the rationing board to get quotas for the kind of tires that would be used were times normal.—Floyd County Heeperian.

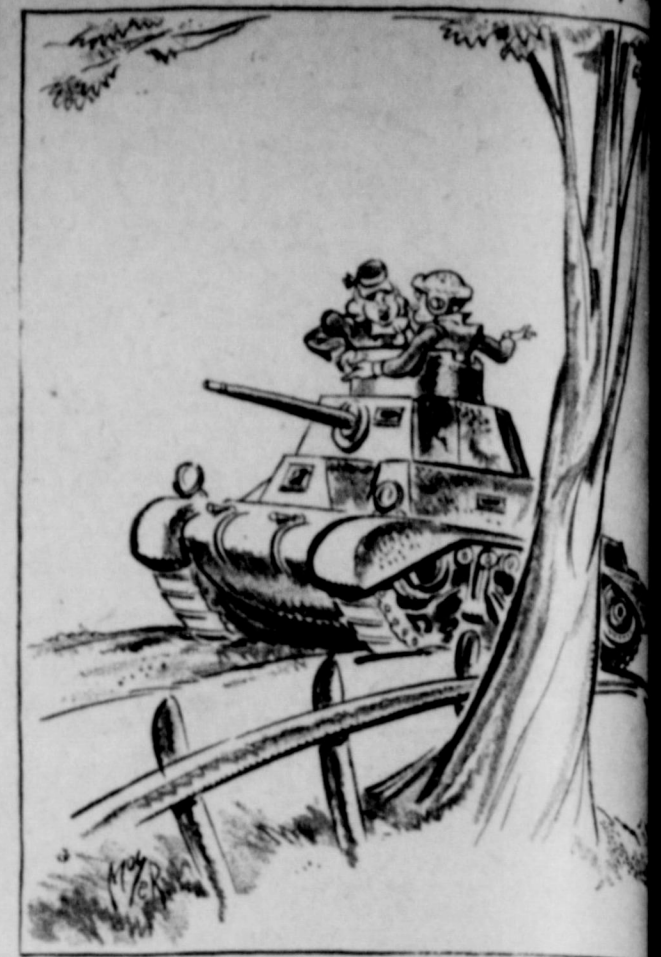

The quickest method of taking the morning exercise, is to step on the soap while climbing out of the bath tub. (Sometimes I get \$5 for a suggestion like this.)—Danley County Leader.

Perhaps the boy should have been scolded for leaving his bicycle on the highway, as he joined his comrades in play, except that men also leave many dangers on the highways which boys travel.—Matador Tribune.

Van Stewart's Ochiltree County Herald is a big value each week, but last week we opened the wrapper an ounce of sugar sifted out. If Mr. Stewart is going to make a practice of sweetening his paper, we would like to know in advance so we can save the sugar and not get it all over the office floor.—McLean News.

Town and Farm In Wartime

(Weekly News Digest prepared by the Rural Press Section, OWI News Bureau)

More Canned Goods for Civilians

Civilians will gain 30 million cases of canned fruits and vegetables as a result of reduced government requirements. The reductions are mainly for corn, peas, spinach, tomatoes, snap beans, fruit cocktail, sweet cherries, peaches, pineapple, and pineapple juice. Since the 1943 production is not known, current point values for these items will not be immediately affected.

Pay Off Farm Debt

Increased revenue from crops and livestock should be used to pay off farm debt, said Secretary of Agriculture Claude R. Wickard, recently. He emphasized that the payment of outstanding obligations, along with as large an investment as possible in war bonds, is a sound protection for the future.

Food for 3-Day Furlough

A service man on a leave or furlough of at least 3 days hereafter will be provided with a complete application form for obtain-

ing rationed food before he leaves camp. He will give the application to the person who provides his meals, who will submit it to the local board for food certificates within fifteen days after the furlough ends.

Further Cheese Rationing

To conserve supplies of milk, rationing will be extended to include all cheeses and cheese products, except cottage cheese, bakers, and pot cheese, the War Ration Food Administrator and OPA have announced. All hard cheeses and most cheese foods have been rationed since March 29. Early in June soft perishable cheeses such as cream cheese, camembert, brie, and blue cheese are to be added to the ration list.

Women Must Work

By December, 1943, one-third of the female population of working age—17.4 million women—will be required for the civilian labor force and the armed forces. At least two million women must be added to the labor force in 1943.

Sugar Supply for 1943

On the basis of prospective 1943 supplies of sugar, the current level of consumption in this country probably can be maintained, the War Food Administration has announced. The allocation of the prospective supply will be as follows: 1,153,000 tons for the armed forces, lend-lease and other exports, and 4,600,000 tons for

Lower Potato Prices 7 Percent

Consumers ceiling prices on potatoes have been decreased about 7 percent according to a recent OPA announcement. At the same time, the prices paid growers was increased 30 cents per hundredweight on the 1943 early crop.

Lumber for Farms

To relieve lumber shortages on farms for all repairs except those to farm dwellings, WFB has set aside a total of 500 million board feet of lumber for delivery on an AA-2 preference rating during June, July, August and September. Farmers who cannot obtain lumber with present ratings, should apply to the county farm rationing committee for certificates to purchase lumber for maintenance, repairs and new construction necessary to the food production program.
