# ELDORADO SUCCESS

Schleicher's Leading And Most Widely Distributed Newspaper

VOL. XXXVI

Eldorado, Schleicher County, Texas, Friday, May 22, 1936

No. 21

## NEWS OF THE WEEK

### Italy Mops Up Ethiopia

Addis Abba, Ethiopia—De-creting death penalty for the possession of arms, the Italian Military authorities are making whole sale arrest. Gathered in groups of 40 or 50, armed natives, many of them ignorant of the new decree, are led to military posts to face the firing squad.

### Curfew In Palestine

Jerusalem—Following continued rioting between Arabs and Jews, culminating in the death of three of the latter, Sir Arthur Greville Wauchope, British High Commissioner of Palestine, has forbidden all residents of the city to leave their homes after 8 o'clock in the evening.

### Thankful For Something

Memphis, Tenn.—“Thank God for a civilized country,” was the comment of Dave Sweatman, 71, who arrived here from Tulsa, Okla., having plodded the 435 miles between the shafts of a farm wagon bearing his wife and three small children.

### Saving Banks' Dilemma

Atlantic City, N. J.—Representing 14,000,000 depositors of ten billion dollars, the National Association of Mutual Savings Banks passed resolutions condemning the current practice of corporations in taking advantage of cheap money by refunding their 5, 6, or 7 per cent obligations with 3 and 4 percent issues. Glutted with money, the banks find few profitable investment outlets for it.

### New Coaching record

New York City—Determined to break the New York Atlantic City record for a coach-in-four, established by Paul Sorg, tobacco millionaire, 26 years ago, Mrs. Florence Dibble, Boston sports woman, toiled her coach over the 118 miles in 9 hours 45 minutes elapsed time. Sorg's record was 12 hours 18 minutes. The latter used sixty horses in relays; Mrs. Dibble used only sixteen, sending each relieved relay on ahead in motor vans.

### Highlights In Capital

Washington, D. C.—The President signed the War Department Supply Bill of \$572,450,000, largest in peacetime history. The Senate passed and sent to the house a measure changing the name of the Department of the Interior to the Department of Conservation; also approved and sent to the white House the \$410,000,000 Rural Electrification Bill. Secretary of Commerce Roper urged industry to cooperate with the Government by increasing employment.

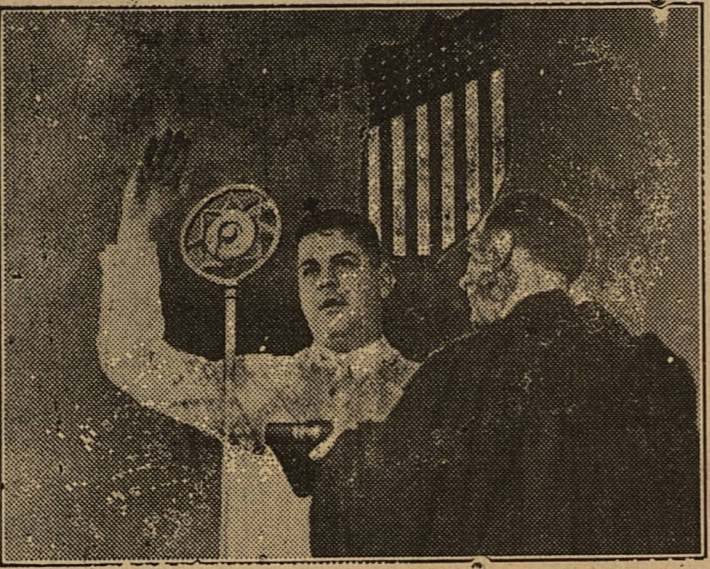

### Baseball Applies Penalties

St. Louis, Mo.—Frank Frisch, manager of the Cardinals, decided to pep up his team by fining inept players. A Cardinal with one or none out, who failed to drive in a run from third was to be assessed \$5. Frisch was the first fine payer; with bases filled he hit into a double play, fined himself \$10. Walter O. Briggs, wealthy owner of the Detroit Tigers, had to withdraw his offer of \$50,000 to his team if they won the National League. Officials feared dissatisfaction among other teams.

### Warrior's Last Wish

Vilna, Poland—The dying wish of Marshal Joseph Pilsudski Poland's dictator, that his heart be buried with his mother's, was fulfilled in the Church of St. Theresa, while 100,000 reverent Poles massed outside. Encased in (See No. 1 Another Page)

## Louisiana Inaugurates A New Governor

Richard Webster Leche, supporter of the late Huey P. Long, becomes Louisiana's 46th governor in ceremonies before the sky-scraper capitol of the Creole State. Justice Archie T. Higgins, of the State Supreme Court administers oath of office.

## LADIES NIGHT IS PLANNED BY LIONS

Plans are underway by the Lions club for a Ladies' Night banquet program to be held soon. Preparations are being made by a committee composed of C. E. Knight, John F. Isaacs and H. B. Rees.

Installation services for the newly elected officers will be a part of the entertainment. The officers named by a nominating committee recently include Judge J. A. Whitten, President; Don McCormick, vice-president; L. M. Hoover, secretary-treasurer; C. Snell, Lion tamer and A. J. Quinn tail twister.

J. C. Smith was recommended for a place on the directorship for a period of one year, and C. E. Knight and E. C. Hill for two year terms.

## Reynolds Students To Present Program

An evening's entertainment, part of the final exercises of the Reynolds school will be held at the School auditorium in Eldorado Saturday night May 23. Reynolds' comedians will be presented in "Aunt Jerushy On The War Path." The program begins at 8:30 o'clock.

The leading characters are: Aunt Jerushy Fish, Oveeda Faught. Hiram Fish, Pat Joiner. Sufficiency Fish, Bob Faught. Sid Popkins, Aleetha Faught. Barker, Wallace Joiner. Reno De Beeno, Mrs. F. Gardner.

An hour of whirlwind fun and robust laughter await those who attend. Admission will be 25c and 15c.

## MISS MOLLIE TURNER PRESENTS STUDENTS IN MUSIC RECITAL

Miss Mollie Turner will present a group of her music pupils in a recital Friday evening May 29. The program will begin at 8:15 at the High School auditorium. The public is invited.

## DR. J. L. MOORE REFINISHING HOME

Dr. J. L. Moore is having the interior of his office and home redecorated. The floors have been refinished and the walls repapered. He is also refurnishing his home with new furniture.

## Camp Allison Barbecue On The Llano River

Sonora, May 22—Just as regularly as election year rolls around there's a Camp Allison Barbecue, on the Llano river, scheduled.

"Daddy" of the affair, a 2-day one announced for June 9 and 10 this year, is Alfred Schwiening, Sutton county ranchman and Sonora city commissioner. He doesn't know just how long he's sponsored these "celebrations" but it has been so long that it can be truthfully referred to as "an old Stockman's Paradise custom."

Barbecue is served free the second day—June 10 this year. There's a platform dance each night and the second night it lasts... well, until the dancers cry "enough."

Camping is allowed along the shady Llano and many come early the first day and camp out the two days.

Governor Alfred, Joe G. Montague of Fort Stockton, district judge, and Coke Stevenson of Junction, speaker of the house of representatives, have been invited by Mr. Schwiening. Candidates for office are given time to "orate" and they take advantage of the throng that is always there to mingle with their constituents and tell them of their political ambitions.

There'll be a big time on the Llano June 9 and 10 and Mr. Schwiening is hard at work advertising that fact not only in Sutton county but in all towns of this section. Everyone's invited, and if past "performances" are an indication, there will be quite a few "make" the Camp Allison Barbecue, 31 miles east of Sonora, this year.

## HORACE REES AND FAMILY MOVED INTO FRY HOME

Horace Rees and family moved here from Big Sake this week. They have rented the Fry Home in the west part of town.

Mr. Rees has been here for several weeks, having purchased the Red & White Grocery store from Hamilton Brothers of Sonora. Mrs. Rees remained at Big Lake, their former home, until the close of the school year, in order that one of their two young sons might finish his year's school work there.

Miss Louise O'Harrow is visiting her sister, Mrs. Myrtle Williams this week.

## Eldorado Scouts Go To Camp Louis Farr

Local Scout officials and members of the Eldorado Boy Scout Troop 18 will leave this afternoon for Camp Louis Farr to take an active part in the annual Camporal events of Concho Valley Council.

More than 400 Boy Scouts of the Concho Valley have registered for the gathering, the largest in the history of Camp Louis Farr.

The San Angelo Lions Club, sponsors, will furnish all committees of judges and officials for the event as well as securing equipment and supplies for the big barbecue to be served Saturday noon by Fire Chief John Parker. Awards will go to the winning troops in the form of banners certificates and camp fees.

Scouts who have had their applications for awards approved by troop boards of review will be advanced in their Scout work.

A feature of program tonight will be the huge campfire with all Scouts and leaders participating. Each unit will put on a stunt. The general public is invited to visit the camp and attend the ceremonies this evening.

Scout officials stated that in case of inclement weather ample facilities for caring of the entire group were available in the spacious building.

A camp store will be operated for the convenience of the scouts and all foods for their evening and morning meal will be available at cost. They will prepare these two meals in their camps over open fires.

## 4-H Club Boys Given Banquet By Lions Club

Schleicher County's 4-H Club boys and prominent ranchers over the county were honor guests of the Eldorado Lions Club at a 4-H club banquet held at the West Texas Cafe, Friday night.

W. I. Marschall, county agent of Tom Green county was the principal speaker of the evening. He discussed club work and commended C. Snell Schleicher county agent, and the club members for their records.

More than 200 ribbons won by Schleicher County 4-H Club boys were on display. These ribbons were won at district and state livestock shows.

The 21 club boys this year had a remarkable record, winning the major prizes at the San Angelo, Fort Worth and the Houston shows. At the Fort Worth meet the group won 15 of 20 prizes, including the first, second, third, fourth and fifth in order, Singles, lot of five, lot of 15 and the carload lot were won by the club in all three shows. Sales on more than 100 animals totaled approximately \$2,200 which included \$907 in prize monies.

The club roster includes: Cecil Moore, outstanding member a few years back; Gene Koy, Geo. Williams, Jr., Joe Alexander, R. J. Alexander, Glenn Green, Odel Green, Luther Kent, Edgar Sauer, older members; and Carl Yancy, Robert Williams, Curtis Yancy, Garland Williams, Felix Susen, Forest Yancy, Samuel Smith, Harold Susen, Jack Jones, Billie Green, William Sauer and Patton Enoch, all first year men.

## ELDORADO SCHOOLS CLOSED LAST FRIDAY

On Friday, May 15, the Eldorado Public Schools officially closed the 1935-36 school year. On Wednesday evening May 13, Seventh Grade Commencement exercises were held for Grammar School graduates. The class presented the play "The Sheltering Tree" by Charles George, sponsored by the two seventh grade room teachers, Mrs. Mary D. Adrian and Miss Grace Hide.

The following evening, May 14, the high school commencement exercises were held, with Dr. Haldeen Braddy of Sul Ross State Teachers College making the address. Twenty-eight high school seniors received their diplomas.

The graduates of the schools in the Eldorado Independent School District, for each school having graduates, was as follows:

### Eldorado High School

R. J. Alexander, Louise Boyer, Inez Bruton, Marguerite Chick, Ruth Currie, Marshall Davis, Jetty Grace DeLong, Oveeda Faught, Bernice Fish, Delores Fish, Doris Fish, Mary Jess Koy, John Luedecke, Mozelle Luedecke, William McWhorter, Cecil Moore, L. D. Mund, Orville Murr, Margaret Powers, Marjorie Parks, Charles Ratliff, Milton Spurgers, Felix Susen, Harold Susen, Clayton Trotter, Janette Wakefield, Mildren Willis.

### Eldorado Grammar School

Joe Alexander, Fred Bruton, Wilma Burrus, Ellis Chriesmann, Wallace Cozzens, Hazel Doyle, Nell Edmiston, Billie Galbreath, Lula Mae Green, Mary Heffley, Clavin Henderson, James Henderson, Joe Ed Hill, Norma L. Hodges, Lyndon Isaacs, C. F. Jones, Rosalyn Jones, Joe Karr, Lula Mae Kerr, Sam Long, Gardner McCormick, Millie McCravy, Robert McWhorter, Willard Newlin, Bobbies Oliver, Fern Parks, Thomas Parson, Joe Reynolds, Billie Louise Spurgers, Frank Stanford, Earnest Sweatt, Roy Marshall Wall, Eloise Watson, George Whitley, Betty Jo Whitten, Helen Williams, Robert Williams Beatrice Wright.

### Reynolds School

Ruby Nell Holland, Roy Reynolds.

### Alexander School

Darlene Casey, LeDelle Casey.

(See No. 2, Last Page)

### VISIT TEXAS TECH

Mr. J. B. Christian and Mrs. E. W. Brooks are spending this week end in Lubbock visiting Joe Muller Christian, who is a Senior in Texas Technological College. They will also attend the Texas Tech Cotton Carnival, which will be held today.

Joe Muller was assistant manager of the Cotton Carnival last year, and this year he is the manager.

This year, Joe Muller is Vice-President of the Tech Chapter of Phi Psi Fraternity, which is a Textile organization and is the largest Honorary Fraternity in the United States.

He is taking the Textile Engineering Course with Engineer Option.

He is a member of the Student Executive Committee.

He made half of his expenses last year and practically all this year as Campus Mail carrier and by working for his room and board.

## The Ratliff Store Trade Expansion Sale

The Ratliff store was closed Thursday preparing for the opening this morning at 9:00 o'clock of their big Trade Expansion sale.

The store has been decorated with sales slogans and prices. Large signs give one the impression that Eldorado has gone city. And according to the sales manager The Ratliff Store will put on a real sale at which Schleicher County citizens will have an opportunity to avail themselves of some of the greatest bargains of the year regardless of whether they go to the largest cities or buy at home from the merchants who help pay for our schools churches newspaper, and other civic necessities.

In fact Eldorado merchants are here to serve you if you will let them. About the most unpatriotic thing that a Schleicher County citizen can do is to fail to buy at home when the things that he is in need of are available here and can be purchased as cheap and in many instances cheaper than elsewhere.

Some have the idea that a mail order catalogue will solve the economical problems of the people, when the truth of the matter is, buying from distant places has about made the local market place and community center a thing of the past. Your own welfare is at stake. Think these things over seriously and compare the quality, as well as the prices of merchandise offered in this sale. Turn to the double-page advertisement in this issue and look over some of the bargains offered.

Mr. Ratliff returned this week from San Antonio where he bought a large stock of new goods for this sale, among which is a complete array of men's clothing. The store is overstocked and you will find what you need. Go in and look for yourself.

## Sheriffs Of West Texas Meet At S. A.

War will be waged on the motorized cattle rustlers by the West Texas Sheriff's Protective Association, formed at a meeting of more than 30 law enforcement officers of West Texas Tuesday.

O. E. Conner, Sheriff of Schleicher County attended the meeting. Miss Frances Van Court, daughter of Sheriff Frank Van Court, Tom Green County Sheriff, will be in charge of a clearing house in San Angelo through which sheriffs and Texas Rangers, Department of Public safety patrolmen, Livestock inspectors and others will keep in touch with each other on livestock thefts. Bulletins will be issued to officers on all theft reports.

The bulletins have already been mailed out this week and will be given a 30 day trial. The sheriffs will be billed at the end of the month for actual cost of its operation.

The association is urging ranch men to firebrand their animals rather than paint brand. Firebranding makes identification easier and will lesson theft, officials say.

Mrs. M. M. Reynolds and daughters, Lottie and Gertrude went to San Angelo Monday.

**WHAT WE THINK**

I think this country needs to send a commission to England to study the operation of English courts and the administration of English justice.

They tell us that the place to go for advice is to men who have been successful in their business, that they can tell us what to do. Why can't the fellow who has had bad luck and been unsuccessful do just as good a job by telling us what to do?

The Townsend Old Age Pension plan has struck a snag. I have felt for some time that some thing was going to happen to this organization. It has had too much smooth sailing.

I note the new telescope lens recently cast at Corning, New York, will, when polished and mounted in the telescope enable an astronomer to see three times as far as any telescope now being used. I think the first use of the new telescope should be to find out, if it can see far enough, to locate prosperity.

One thing I think added to the number of unemployed in this country is that there isn't any place these days for the livery stable loafer to go.

Nothing commends a doctor to a man, looking for an excuse to take a drink, so much as having the doctor tell him he should drink a little for his stomach's sake.

I do not believe there will be any gossips in heaven. A place wouldn't be heaven with a lot of old gossips in it. If anything would make hell more hellish it would be a lot of old gossips running around.

Some of the sourest and most intolerant old people I know today forty years ago were the gayest, liveliest, most free thinking and acting people in the younger set of their day, and some of those who were almost narrow minded and intolerant an young people have turned out to be pretty fair minded, and broad minded persons.

A friend of mine confided in me that he never gets to read the paper at home. During the meals some one else has it. They all have all day to read it but must read it at that particular time. The same thing is true with any new book or magazine. The only thing I can read at my house without having to wait for it he said, is the Bible.

I note that Dizzy Dean and Fred Astaire have both signed their contracts thought they said they wouldn't. Dizzy was the first one to refuse to sign unless he got a raise of \$25,000, but when Astaire came out and refused to sign a million dollar contract it made Dizzy look ridiculous and he probably said, "Heck, I'll sign it, what's \$25,000 between a good club manager and a good ball player."

I was talking to a business man the other day. "In business," he said, "you have to be nice to some people whose insides you loath. My ambition is to be so situated some day that I can tell

the people who are nasty to me just where and when they can get off. Nothing would give me more complete satisfaction.

It is said that it required the human race 4,000 years to discover a method of making silk synthetically, that is, chemically in the laboratory. 4000 years is a long time as measured by the lives of men, but it is but a brief span when measured by the full time that man has been upon the earth. By the same token the progress of mankind since Christ was upon earth has been slow considered only in the relation to the 2000 years that have elapsed but when considered in the light of the full time that man has been upon the earth the progress has been very swift.

There is a change taking place in the political thinking of people today. As a result of it people are never going back to the old ways in politics and government any more than they are going back to the horse and buggy and the log school house. The old parties may as well recognize the new situation and meet it, as such a thing should be met. No amount of pleading on the part of party leaders is going to get people back. The parties must come up to the people. The people will not go back to the parties. The old cure alls are going to be ruthlessly pushed aside in politics and government the same as old methods in industry have been discarded. It sounds harsh and cruel and ruthless but nothing is more harsh and cruel and ruthless than nature itself.

His mischief shall return upon his own head, and his violent dealing shall come down upon his own pate.—Psalm 7:16.

What is a horse worth? The question is prompted by an incident that occurred here recently. An itinerant horse buyer bought a horse for \$80. The next day another itinerant buyer came along and seeing the horse asked its price. He was told it was \$200. After some dickering the price finally agreed upon was \$172.50. A profit of \$92.50 was made. The horse was only in the position of the first buyer over night. Which price was the right price?

You may think you have a hard time of it but think of the dog that gets adopted into a family of vegetarians.

Most of us like to have a man say what he thinks if he doesn't say it about us.

Dairying, says the Dairymen's League News, is taking increasingly important place in agriculture. In recent years that industry has produced 20 to 25 per cent of all agricultural income; in 1934, dairying income was more than the total income from wheat and cotton.

Regardless of the nice speeches made to the contrary the world still continues to base the value of people on the amount of money they have. Unfortunately in too many instances it doesn't choose to inquire too closely into how they came into possession of their money.

The only explanation a reader of the paper can give for some

car drivers being in such a hurry is that they want to get there in time for the accident.

A neighboring editor gives as his opinion that the designation of the arrival of a new son or daughter as a "blessed event" is all right for the first three or four babies in the family.

We hope that when they get around to setting up the Townsend \$200 a month pension plan that the thing is pretty well worked out before it is started. We should dislike very much to get such a check for \$200 a month for two or three years and then have it cut down to a mere hundred or stopped all together.

The most inconsistent thing about this whole depression is to hear every other man you meet tell how the depression has cleaned him out and then drive down the street and notice that nine out of ten cars parked along the street are news ones of the latest models, costing in the neighbor of a thousand dollars each. It is a grand and glorious country indeed that can sell more automobiles than were ever sold in the history of the industry to a busted people.

There is a group of people who hold that the individual is not responsible for his acts, that the responsibility lies with the community. Supporters of this theory claim that environment is responsible for the individual and the community is responsible for the environment. There is a grain of truth in it but as a general thing the theory is a dangerous one. There are too many offenders looking for an excuse to blame some one for their short comings and perverseness.

Europe an diplomacy is being put to the test. The situation in Europe is ripe for a first class war. If the diplomats can avoid it, it will be a score for diplomacy.

**FAROLE BOARD SYSTEM**

That the eyes of the Nation are upon Texas' experiment with the voluntary Parole Board system inaugurated by Governor James V. Allred, has been evidenced by newspaper comment to that effect. The Little Rock, Arkansas, Democrat recently said, after a lengthy discussion of the plan, "Perhaps Arkansas can learn something from Texas."

A Council Bluffs, Iowa, paper reviewed at length the Texas Plan and compared it with the Iowa system of indeterminate.

A Walla Walla, Washington, newspaper said: "A novel expedition in handling paroles for prison inmates is now in operation in Texas. Clearly, such a system ought to have some definite advantages if conducted in the manner related. Much of our difficulty with the parole system is they have to go entirely on their own, against a world which is hesitant to give a chance to anyone who has worn a number."

Inquiries have been received from public officials all over the Union requesting information as to the Texas plan, Governor Allred revealed.

There are at the present time some 160 volunteer County Parole Boards supervising paroled convicts in Texas, the Governor further said. Complete organization of the State is expected at an early date.

**Lady Took Cardui**

**When Weak, Nervous**

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Sentiment changes: A few years back and the big corporations had a few defenders and no sympathizers. Since the proposal has been made to require the dis-

tribution of supluses by big corporations in the form of dividends or taxes, defenders of the corporations have sprung up all over the country like the soldiers from the dragon's teeth of mythology.

### Centennial Special Train Adv. Texas

Newspapermen who rode the Centennial Special Train on its thundering tour through the east and north enthusiastically praised Governor James V. Allred as the Ambassador of Goodwill for Texas.

One well known news writer said, "Jimmie Allred was the sparkplug of the trip. With 39 speeches, including radio speeches in every city and two or three in some, plus four radio talks over national hook-ups, he set a terrific pace. The Governor literally won friends for Texas by the hundreds of thousands. Whether they were tycoons of industry or the men on the streets, Jimmie sold them on Texas."

W. M. McIntosh, publisher of San Antonio Light, expressed his opinion that millions of people would visit Texas during the summer and fall.

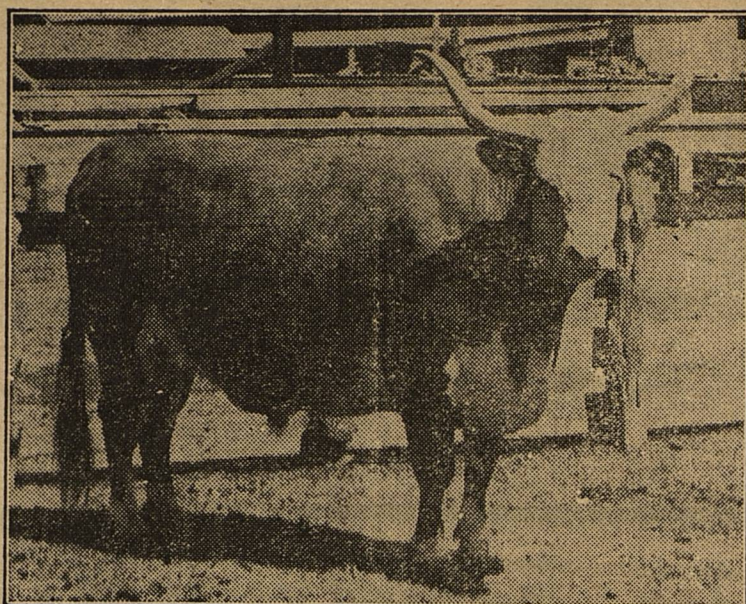

"Governor Allred rendered a real service to Texas by heading the delegate," he said, "Everywhere he went he made friends for himself and his state. I doubt if any national figure today was more photographed and interviewed in such a short space of time as was the Governor.

"In New York, a battery of 14 cameramen were almost constantly on hand to shoot his picture. The parade through the streets of New York was viewed by hundreds of thousands."

The publisher said the greetings were just as warm in Cleveland, Chicago, St. Louis, Kansas City.

"The people en mass are definitely interested in Texas as a result of this tour and millions are coming to visit us with many of

### Biggest Steer—3,100 Pounds of Beef

"Big Jim," once owned by the late Will Rogers, is the biggest steer in the world, weighing 3,100 pounds. Rogers raised Jim from a calf, then sold him and gave the proceeds to the Salvation Army. His present owners

will display him at the Texas Centennial Exposition, opening in Dallas June 6, and turn over the admission profits to the Salvation Army's Home for Boys and Girls at Lytton, Cal., long a favorite of Rogers.

them planning to become residents of this state," he added.

#### NO. 1 GETS NO. 1

The nation applauds the capture of its No. 1 outlaw by its No. 1 outlaw catcher. If there was any significance in the personal direction by J. Edgar Hoover of the capture of the man who has been sought the country over on charges of two famous kidnappings and the killing of a Missouri sheriff it was that he realized the importance of the quarry and the desirability of having the slips.

But Mr. Hoover did not dub Karpis Public Enemy No. 1. "Not to us," he said when he referred to that popular designation of the prisoner. It is all the day's work with the G-Men. They realize the capture is important but they will go right on looking for other pub-

lic enemies—Mahan, CampBell and others who have been linked to famous kidnaping cases.

Some critics have begun to carp at the well deserved publicity the G men's success has brought them. Such an attitude probably is inevitable in a nation which gets victims and gives a maudlin sympathy to criminals. But the federal men have shown what real law enforcement is and it is a bit wholesome to have officers of the law instead of bandits and desperadoes made small-boy heroes. If we can keep on dramatizing law and order instead of banditry some of the incentive for youthful criminals will be lost.

Richard Bruno Hauptmann, an alien, cost this country in addition to the life of a child and his consequent misery, two million dollars.

### United States Civil Service Sent Notice

Washington, D. C., May 15—The United States Civil Service Commission has sent a notice to post offices, warning that misleading information is being given the public by representatives of some of the correspondence schools which sell "Civil Service" courses.

For a long time, the Commission has been receiving complaints from different parts of the country which indicate that opportunities for obtaining Federal employment have been greatly exaggerated.

It was made clear that no school has any connection whatever with the Civil Service Commission or with any other branch of the Government, and also that the Commission has no agents who solicit applications for civil service positions or who sell "Civil Service" courses.

No school can "guarantee" Government employment and none is given information regarding examinations, or any other information, which is not available to the general public. The Commission stated that it does not recommend any school, and explained that it is not necessary for anyone to take a course with a so-called civil service school in order to compete in a civil service examination.

A special point was made of the fact that information concerning examinations may be obtained at any time without cost from the Secretary of the Civil Service Board at any first or second class post office or from the Commission's office in Washington, D. C.

Classified ads get results.

At this distance it is difficult to understand the fight that is being made on Mayor Hoan of Milwaukee Wisconsin. Hoan has been mayor of Milwaukee for 20 years, having been elected to the position as a Socialist. Under this rule Milwaukee has been noted the country over for a number of things which are the aim and goal of many cities, but which to date have not been achieved by any city to the degree that Milwaukee enjoys them. They are; low per capita cost of government, low per capita bonded indebtedness, honest city elections, incorruptible police. Most any one of these achievements would be sufficient

to commend a man to the office of mayor of any city for the natural term of life.

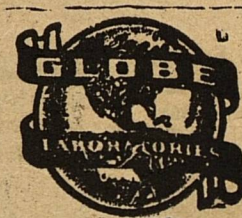

Secretary of War Dern expresses it this way: "There is too much human nature involved to make the problem a simple one. War will not be delegated to the limbo of outgrown evils until racial and national prejudices, greed and selfishness are replaced in human nature by international good will, a firm, dignified insistence upon justice and an enlightened recognition that the people of other nations are human beings like ourselves."

WHEELER GROCERY

## Young Explorer to Make Hazardous Trip

Within the next few weeks, Henry G. Slaughter, 28-year-old naturalist and explorer of Washington, D. C., will trundle a bicycle out onto the new Pan-American Highway and begin an expedition down the continental divide. He will attempt to complete the first overland journey in history from the United States to Panama.

This will be the second time that young Slaughter has attempted the hazardous trip. His first venture took place last winter, but was thwarted by the combined efforts of the Guatemalan rainy season and the Guatemalan government's "red tape".

Slaughter left Texas last December, equipped with tent, hammock, two revolvers, one rifle, ax, knife, machete (a murderous weapon used in this instance for cutting through underbrush), first aid material, snake antitoxin, cooking utensils, emergency water, concentrated food capable of sustaining him for six weeks in the event of an "Emergency landing". He also carries a Remington Portable typewriter strapped onto the handlebars of his bike. The latter item is used by Slaughter as he rides along open stretches of road. Many of the voluminous notes for a book he will publish were made in this manner.

After traversing the mountain passes and deserts of Mexico, City on December 21, hoping to continue on at once through the jungles of Central America. He reckoned without the officials of Guatemala, however. It seems they have a law that nobody can cross their country without a special visa. While they were deliberating upon this case, Slaughter lingered on for weeks in this Mexican Capital. To pass the time, he wheeled his bike up the 18,000-foot ice and snow capped peak of Mount Popocatepetl—a death-defying feat that had never been accomplished before. The young explorer says of this:

"It took me four days to find a guide who would go with me on such an expedition and it was certainly lucky for me that I didn't try it alone. Once in the ascent I slipped and the guide, without hesitation, threw himself across my body and dug in with his spikes to hold us and the bicycle I was pushing. If he had not acted promptly I guess I would have been in the same fix as the four people who tried to climb Ixtaccihuatl, a sister mountain, the other day before—dead in one of the gorges at the bottom of the mountain."

Slaughter eventually obtained permission to continue his journey but, by the time, the rainy season had set in and he was forced to abandon his plans. He returned to America on February 19th and immediately began to prepare for a second attempt.

This is Slaughter's fourth year of exploring. He travels by bicycle because it's the fastest way, also because parts of Central America would be impassable at present with any other vehicle. Being a naturalist as well as a writer, he not only obtains material for his books but also collects snakes, frogs and species of small mammals for the Smithsonian Institution.

While on his first trip he was unable to reach his ultimate destination, Slaughter feels that it provided him with much essential knowledge of the Central American countries and people that will assure him of future success.

**FOR SALE OR TRADE—Good Gas Cook Stove, practically new. Will sell cheap. Call at the Success office.**

## A Good Trick If You Can Do It

Henry G. Slaughter, 28-year-old explorer and writer, who is planning a second bicycle trip over the new Mexican highway, is shown here with his unique conveyance. On the Fremington portable fixed to the handle bars, Slaughter types notes of his journey as he rides along. This picture was taken in front of the U. S. Capital building on his return from his 3400 mile trip through Mexico, Central America, and Panama.

## Efficiency and Sleep

In the order of their importance, the vital requirements of life are air, water, sleep and food. We cannot live without air for more than a small fraction of an hour. We cannot live without water for more than a few days. Two weeks without sleep usually results in death from exhaustion. Without food, life becomes extinct within 15 to 60 days, depending upon the individual's health and weight at the beginning of the fast period. To be of normal quality and duration our vegetative existence (I mean an existence without consideration of brain function) depends upon the presence in satisfactory proportion of fresh air and water, adequate sleep and a proper dietary.

We will not discuss in detail the matter of air and breathing, for this is usually well taken care of by our instinctive demands. Suffice it to say that insofar as air is concerned, the ideal life is that spent in the open. Any mode of existence approaching out-of-door life is the most conducive to immunity against respiratory affections and to satisfactory longevity.

Normal health requires a normal intake of water, for be it remembered that our bodies consist more of water than of solids.

Since sleep is the time of day when Nature repairs the wear and tear of our waking hours,

everyone who values health and efficiency must give serious thought to the period of time spent in bed. The average person spends one-third of his mortal existence in his bedroom. Thus the average 60-year old man or woman has spent 20 years in bed. Isn't it strange that comparatively little thought is given this vital phenomenon.

Sleep may be defined as the state of periodic physiological unconsciousness. The quantity of sleep required by a person in good health depends upon many factors. Many rules have been promulgated with regard to how much sleep an adult should have. Let us examine some of them:

"Eight hours of sleep, eight hours for work, eight hours for play."

"Eight hours for sleep, eight hours for work, eight hours for prayer."

"Six hours for a man, seven for a woman, eight for a fool."

"Retire with the birds and wake up with them."

"Sleep until you feel you've had enough."

The factor strongly controlling the quantity of sleep is its depth. Was the sleep sound and did you arise feeling refreshed and

strong? Five hours sound sleep—a sleep in which you are "dead to the world"—is far more capable of restoration of body and mind to normal capacity for work than a ten hours' period of restlessness and tossing in bed with an occasional nightmare. Absolute rest presupposes a dreamless slumber, and the result obtained is a desire to arise and be up and doing,—an eagerness meet the day's tasks.

In 1928 I communicated with a number of prominent men and women in various walks of life, inquiring on their sleep habits. Among the many interesting letters received was one from Thomas A. Edison, written in his own hand with a lead pencil. It read as follows: "Up to the 60th year of life four hours of sleep daily sufficed; since then I require six hours. Sleep is a matter of habit; if the will is powerful the time can be diminished. Nature will then compensate by making the sleep more profound and dreamless." Another letter, from General W. W. Attenbury, read as follows: "I find seven or eight hours of sleep quite sufficient and have no difficulty in falling asleep. In order to sleep soundly and satisfactorily, you must take no work home with you at night and let nothing worry you."

It is generally agreed that sleep requirements depend upon the individual's age, inherited constitution, physical and mental development and health, vocation and avocation, habits, and even diet. The average man should take 7 to 8 hours of sleep, the average woman 8 to 9 hours.

There are persons who cannot sleep well if they eat or drink too close to bedtime. However, I have seen many insomniacs cured of their malady by the taking of a slice or two of bread and butter or toast with a glass of hot milk on retiring. In the event of poor sleep, this harmless remedy is well worth trying.

### For Bad Feeling Due to Constipation

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. Mrs. Ray Mullins, of Lefe, Ark., writes: "My husband and I both take Theoford's Black-Draught and find it splendid for constipation, biliousness, and the disagreeable, aching, tired feeling that comes from this condition." With reference to Syrup of Black-Draught, which this mother gives her children, she says: "They like the taste and it gave such good results."

**BLACK-DRAUGHT**

About the time we become convinced that the human race is becoming better we meet up with some narrow minded, prejudiced person who spoils our day for us and we wonder whether the improvement has made headway.

The school books in Germany are being changed and made to contain only those articles that tend to glorify war and he exploits of war.

STRAIN OF CITY LIFE TOP MUCH FOR SCREEN AND RADIO STARS

NEW RULINGS ANNOUNCED BY STATE COMMITTEE

College Station—Land owners having multiple tenants on a contiguous block of farms may fill out a master work sheet instead of separate work sheets for each farm, it was announced by the State Soil Conservation Committee.

They also pointed out that payments will be prorated among all tenants similar to the way old parity payments were distributed and the land owner will be held responsible for compliance.

Of great importance to Texas farmers, members of the State committee commented, is the new rule that two rows of corn or grain sorghum interplanted with one row of cowpeas will count as two thirds soil-depleting crops and one-third soil-conserving. The county committee will determine the percentage of land occupancy.

Sudan grass has been ruled a soil conserving crop regardless of use and can be harvested for hay or seed, used as a pasture, or left on the land.

The same is true of oats if followed by a summer legume after harvesting. The State Soil Conservation Committee assumed that crops will be grown and compliance will be sufficiently late to allow for this purpose.

THOUGHTS FOR SERIOUS MOMENTS

So long as we love, we serve. So long as we are loved by others I would almost say we are indispensable; and no man is useless while he has a friend.

To know what you prefer, instead of humbly saying "amen" to what the world tells you you ought to prefer, is to have kept your soul alive.

In the best books, great men talk to us, give us their precious thoughts and pour their souls into ours.

QUESTIONS ANSWERED FOR PENSION SEEKERS

Q. How many people are there in Texas past the age of 65 years?

A. Over 300,000.

Q. Definitely, if Texas gave each one of these \$30 a month, would the Federal Government pay half of it?

A. No.

Q. If each of the 300,000 received assistance, where would the money come from to pay the bill.

A. It could come only from the taxpayers of Texas.

Q. Could we pay everyone 65 years of age \$30 per month if we desired and were willing to do so without the millions that the Federal Government will contribute?

A. No, we could not because the Old Age Assistance Amendment to the Texas Constitution provides for payments not to exceed \$15 per month per person.

Q. Then \$15 per month would be all that we could pay if we gave everyone past 65 years of age assistance without the help of the Federal Government?

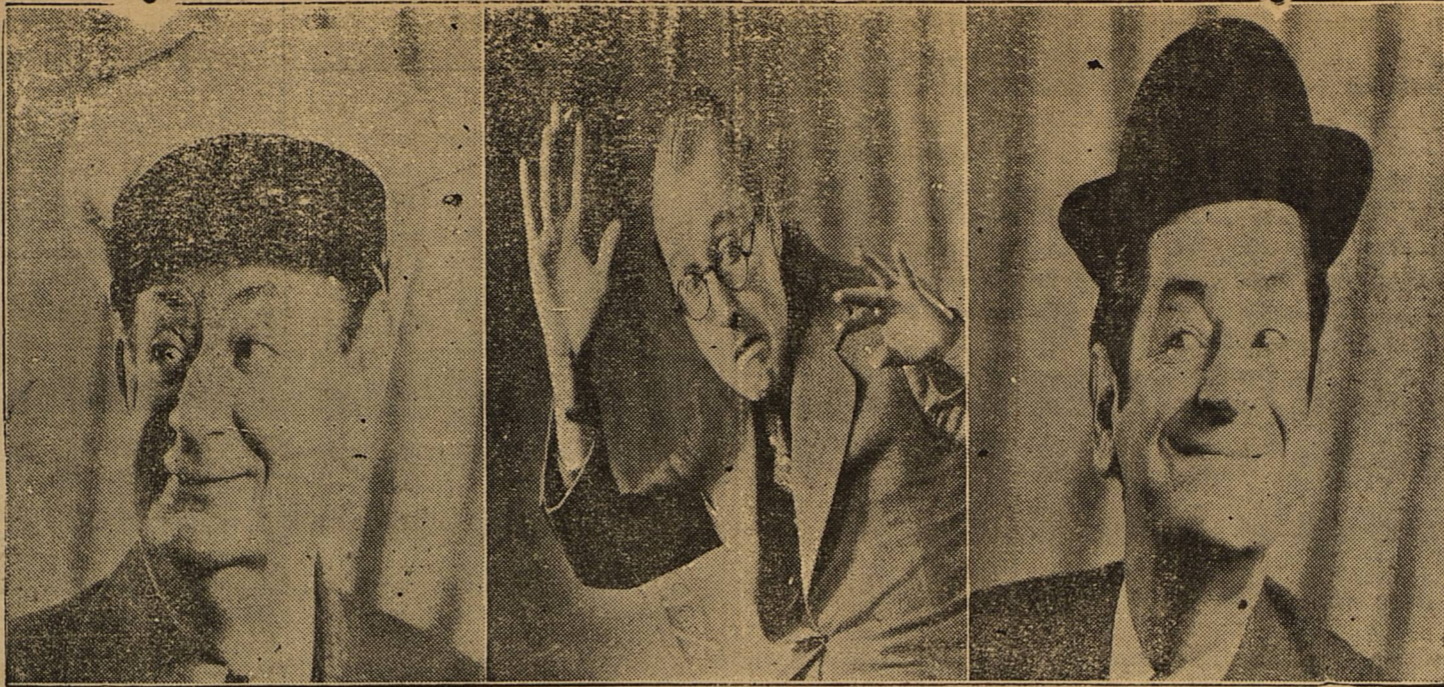

A. Yes.

FAVORITE WAY TO FIX COTTAGE CHEESE

"My family likes home made cottage cheese served most every way," says Mrs. Will Isaacs, co-operator in the Adams Home Demonstration Club, "But one of our favorite cottage cheese dishes is the following salad:

Crushed up fresh strawberries and mix with cheese, sweeten to desired taste. Serve on lettuce leaf, topped with whipped cream.

Miss Mamie Finch, Dallas, is spending the summer with her sister, Mrs. J. L. Moore.

EUGENE HOWARD

RAY KNIGHT

WILLIE HOWARD

Phony-Face, newest horror disease to attack city dwellers struck down three well-known stage and radio performers within an hour. Victims reading from left to right, were: Eugene Howard, Ray Knight, and Willie Howard. Always quick to take advantage of

a new twist, even if it be a twist of the face, the three stars rushed to record the result of their attack of cityitis before the camera. A sympathetic photographer, struggling to transfer facial systems to film, discovered that watching the birdie wouldn't do

the trick, but Laughing Glass would. The Howards and Knights were so elated with the photographic records of their attack reproduced above, that they sent out prints as warnings to friends of the new epidemic.

Now "Phony-Face" photos are a fad and dozens of fans are collecting pictures of their favorite actors and authors made by photographer John Joyce with Pittsburgh Craze Glass.

HANDLE PRESSURE COOKER WITH CARE ALWAYS

"Handle the pressure cooker with care, always being careful in putting the lid on and taking it off, or you might spring it and ruin it for holding pressure," said Miss Lora Farnsworth, county home demonstration agent in giving a demonstration on 'Use of the Pressure Cooker' and on 'Canning Leafy Vegetables', to the 4-H club girls at a meeting in her office May 19th.

In canning mustard greens and spinach, Miss Farnsworth washed them carefully through several waters, then steamed them until completely wilted; they were then packed boiling hot into No. 2 cans with one-half teaspoon salt to the can and enough liquid to cover the greens. They were sealed and processed at 15 pounds pressure for 55 minutes.

A demonstration was also given on staining and waxing furniture.

Refreshments were served to Mrs. Richard Cheatham and Miss Ruth Baker, club sponsors, and Bernice Davis Katherine Moore, Venita Davis, Mary Hoover, Imogene Laird, Ruth Bodine, Corene Luedecke, Katherine Bodine Dorothy Dell Bruton, Norma Lynn Hodges, Hazel Doyle, Ruth Davis, Nell Edmiston, club members and Mrs. E. N. Edmiston and Miss Lora Farnsworth.

RIVERSIDE H. D. CLUB

Before assembling a salad all materials should be drained. Watery fruits or vegetables cause the salad dressing to become watery, said Mrs. Chas. J. Murr, pantry demonstrator to the Riverside Home Demonstration club at the home of Mrs. Jim Stockton, May 19th; while giving a salad demonstration.

Custom no longer demands that the salad garnishes be left.

The club will have its next meeting June 2 at the home of Mrs. W. H. Whitworth. The subject will be slip cutting.

A salad course was served to Mrs. J. H. Dunagan, Mrs. C. J. Murr, Mrs. W. H. Whitworth, Mrs. Frank Pullen, Mrs. Roy Harris, Mrs. T. W. Talbot, Mrs. Marvin Baker, Misses Margaret Stockton, Mary Evans, Pat Talbot and the hostess.

Mr. and Mrs. G. C. Crosby accompanied by Mrs. L. K. Turner, visited in Mason and Fredericksburg last week.

FISHING AT NASWORTHY

Mr. and Mrs. Babe Bridgeman, and two sons, Dr. and Mrs. J. L. Moore and young son spent last Saturday at Nasworthy Lake fishing.

COUNTRY WOMAN'S CLUB MET AT MRS. STANFORD

Salads made from raw fruits and raw vegetables have a very important place in the diet because of their vitamin and mineral content, also because of their laxative quality they are important. It is the cellulose and acid of fruits and vegetables which gives it the laxative quality, said Mrs. Gordie Alexander, pantry demonstrator for the Country Woman's Club Wednesday May 20 in the home of Mrs. Truett Stanford.

After explaining the food value of salads and their place in the diet Mrs. Alexander gave the demonstration of salad making. The Imperial, Tomato and cheese and a raw vegetable salad were demonstrated.

The next meeting will be with Mrs. Owens June 3.

Refreshments were served to Mrs. Claud Alexander, Mrs. B. E. Moore, Mrs. R. E. Cheatham, Mrs. A. E. Kent, Mrs. L. Kent, Mrs. Ward Parks, Mrs. Marion Wade, Mrs. Tom Alexander, Mrs. Herman Glenn, Mrs. Bill McSwain, Mrs. Marion Owens, Mrs. Truett Stanford, Mrs. Ray Alexander, and Mrs. Gordie Alexander.

ALPHA DELTA CLUB MET FRIDAY

The Alpha Delta Club met Friday, May 15, with Mrs. Seth Ramsey.

Mrs. Aubrey Baugh gave a very interesting review of Sigred Unset's "Kristin Lavransdatter."

The reports of officers for the year were given.

The officers for the coming year were installed with Mrs. Mabel Parker, installing officer; President, Mrs. Aubrey Baugh; first Vice President, Mrs. H. W. Wiedenmann; Second Vice-President, Mrs. D. C. Royster; Secretary, Mrs. Wiley Ratliff; Treasurer, Mrs. Geo. R. Long; Reporter, Mrs. J. C. Crosby; Historian, Mrs. J. L. Ratliff; Corresponding Secretary, Mrs. J. N. Davis; Parliamentarian, Mrs. W. O. Alexander.

The following answered to roll call: Mrs. W. O. Alexander, Mrs. Aubrey Baugh; Mrs. J. N. Davis; Mrs. D. E. DeLong, Mrs. Geo. R. Long, Mrs. Mabel Parker; Mrs. J. L. Ratliff, Mrs. Wiley Ratliff, Mrs. D. C. Royster, Mrs. H. W. Wiedenmann, Mrs. P. S. Connell, Mrs. L. L. Baker, Mrs. J. D. Ramsey, Mrs. W. T. Whitten; and Mrs. L. J. Moore.

Myer's School No. 4 closed Friday night with a very successful school term. The school is taught by Miss Thelma Shaver. There was an interesting program rendered.

GOOD VARIETY OF VEGETABLES

In spite of the unwelcomed garden guests (birds and hail), Miss Ouita Cheatham, 4-H Garden Demonstrator, has a good variety of vegetables coming on.

Miss Cheatham has taken over the family garden as a part of her club work, and has had a big share in planning and planting it. She will assist in the cultivation of it, keep account of the yield, and do much of the canning.

Vegetables which she has now coming on include beets, okra, squash, beans, cabbage, carrots, potatoes, radishes, lettuce, mustard, tomatoes, English peas and onions.

DISTRICT H. D. AGENT HERE

Miss Kate Adele Hill, District home demonstration agent of District 6 will be in Eldorado, Friday, May 22nd for a conference with Miss Lora Farnsworth, county home demonstration agent, and visit in the County.

REES GROCERY  
Eldorado's Complete Food Market

**1**  
(From Page One)  
urn, his heart was deposited in his mother's coffin, brought from his grave in Lithuania for the purpose.

**Olympics May Break Record**  
Berlin, Germany — Estimates indicate that 52 nations will send 5,500 competitors to the 1936 Olympics Games this August. In 1900 the Paris Games drew only 500; at Los Angeles four years ago 1,700 athletes competed. Frederick K. Rubien, secretary of the American Olympic Committee, calculates that it will cost \$325,000 to transport, train and board the full United States team. So far, only \$120,000 has been raised.

**Main Street Ducks Radio**  
New York City — Addressing nearly 500 members of the American Booksellers Association, Sinclair Lewis, novelist, upset all precedents by refusing to face the microphone. "I'll not be bound by the split second timing whereby I would be allowed exactly 12 minutes and 9 seconds between the program of the Lollipop Litters and the Ex-Lax Symphony Orchestra playing the classical masterpieces of Sousa and Irving Berlin."

**Pope Condemns Reds**  
Vatican City, Rome — Opening the World Catholic Press Exposition, 80-year-old Pius XI condemned the spread of red documents in Russia, Mexico, Spain, Uruguay, and Brazil, and reminded his audience of their duty to wage unremitting warfare against Communism.

**The Nightingale Loses Out**  
London, Eng. — Britons all over the world tuned in to hear the dulcet tones of a nightingale which was expected to trill before a hidden "mike" in Middlesex. What they heard was the robust "Moo" of a Guernsey, who played her unconscious and unscheduled part with such enthusiasm that the feeble notes of the bird were drowned out and radio technicians folded their tents and returned to town. Englishmen thrill to the seductive notes of the elusive night-singing nightingale; broadcasters yearly seek to capture its song.

**Speedy Justice**  
Washington, D. C. — "Kidnaping is definitely out of the way, for a while at least." and J. Edgar Hoover, Chief of the Government's G-men, pointed to the swift clean-up of the last "snatchers" rounded up. While Alvin Karpis awaits trial in St. Paul, Harry Campbell, kidnaper of St. Paul Banker Bremer, was sent to jail for life five days after his capture; Thomas H. Robinson, Jr., kidnaper of Mrs. B. V. Stoll, of Louisville, drew a life sentence two days after capture. Released from pursuit of Kidnappers, the Department of Justice men are now working on some big unsolved bank robberies and mail raids.

**Russia's Naval Reservations**  
London, Eng. — When Japan walked out on the recent conference of the United States, France and Great Britain were forced to agree among themselves as to future war fleets. Russia, always a mystery in naval armaments, was finally invited to sit in on the conferences. She did so with the reservation that her Far Eastern Fleet doesn't count; she will assume parity with Germany in European waters; but demands a free hand to deal with Japan in the Pacific.

**Methodists Plan Unity**  
Columbus, Ohio — At the 32nd Quadrennial General Conference of the Methodist Episcopal Church, a majority of the 600 delegates voted for the proposed unification with the Methodist Episcopal Church South and the Methodist Protestant Church, making it the largest Protestant denomination in the country, with 8,000,000 communicants. The Methodist Protestant Church votes on the plan

this week at High Point, N. C., but the Methodist Episcopal Church South will not consider unification until 1938. Full unity is not expected until 1940.

**REYNOLDS H. D. CLUB MEET WITH MRS. DICKENS**

"Regardless of the kind of cooking equipment selected, the mineral and vitamin content of the diet will be assured when some fruits and vegetables are served raw each day, some are 'quick cooked' and when all vegetable and fruit juices drawn out in the cooking are served in one way or another," said Miss Lora Farnsworth, county home demonstration agent, in giving a demonstration on Vegetable Cookery to the Reynolds Home Demonstration Club, May 20, at the home of Mrs. Raymond Dickens. In demonstrating the cooking of strong flavored vegetables, Miss Farnsworth explained that they contained sulphur compounds, and when cooked give off hydrogen sulphide which makes the strong odor. Slow cooking in small amount of water brings this on; so in order to prevent the bad taste and odor they should be cooked in a large amount of water in an uncovered vessel shortest possible time. The strong flavored vegetables, it was explained, include cabbage, cauliflower, Brussel sprouts, broccoli, mustard, and turnips.

Some of the members came in the morning and worked on foundation patterns, completing two patterns during the day.

Those who attended the meeting in the afternoon were Mrs. Orville James, Mrs. Otto Sauer, Mrs. Raymond Dickens, Mrs. George Dickens, Mrs. J. W. Davis, Mrs. W. E. Bruton, Mrs. Fulton Gardner, Mrs. E. W. Craig, Misses Clarice Ashmore, Leola Sauer, Lora Farnsworth and Mrs. Lola Sparks.

**MRS. MARY E. CHEATHAM BURIED AT COLEMAN THUR.**

Funeral services were held Thursday, May 14, for Mrs. Mary Elizabeth Cheatham, 82, mother of Hop Cheatham. The Rev. Mr. Kirkpatrick conducted the services.

Mrs. Cheatham was born Nov. 17, 1853, in Tennessee, and for the past 12 years had lived at Whon.

Surviving are her husband, M. R. Cheatham; three sons, Hop Cheatham of Eldorado, Dr. A. B. Cheatham, Millersview, Dr. C. W. Cheatham, Ballinger, and two daughters, Mrs. Bob Johnson, Rockwood; and Mrs. Tom Bradley, Fife.

Pallbearers were Bob Stewart, Jim Stewart, N. J. Buttry, Pless Maness, Tom Cooper, and Dick Black.

**TYPEWRITER RIBBONS at the Success Office.**

**BERT PAGE GAS WELL BLOWS OUT**

Blowing out of John M. Cooper's No. 1 Bert Page, wildcat gasser 9 1/2 miles southwest of here, and the resumption of drilling by Magnus Oil Co. No. 1 Judkins & Spencer and cardinal and Rowan & Nichols No. 1 J. A. Whitten were developments of the oil activities in this section this week.

Cooper No. 1 Page blew the gate off the bleeder at 7 o'clock Tuesday morning after building up 2,000 pounds pressure while shut in overnight. Its roar was heard at Eldorado. Part of the derick floor was ripped up. Rudolph Grosenbacher, in charge of the lease, was injured slightly when he leaped from the derick floor opposite the section that was damaged.

The gas soon subsided. No. 1 Page has been opened at intervals to relieve the pressure. In December it gauged 13,800,000 cubic feet of gas daily at a plugged back depth of 5,535 feet. Several barrels of high gravity oil is obtained from the gas daily and is sold to ranchmen and farmers for use in trucks and tractors.

Mangus No. 1 Judkins & Spencer, 14 1/2 miles east of here, drilled plugs from 7 inch outside diameter seamless pipe cemented at 5,535 feet and began making new hole at 5,676 feet in lime. It is circulating clear water. Eleven pound rotary mud was used before the casing was run. The test, seeking Ordovician production, is in the center of the southeast corner of section 4, certificate 127, W. W. Russell original grantee.

Cardinal and Rowan & Nichols No. 1 J. A. Whitten, four miles northeast of Eldorado, resumed drilling late Monday at 4,222 feet in lime and shale after overhauling the engine. It is 660 feet from the north line and 1980 feet from the west line of section 35-LL-TCRR.

**FRUITS AND VEGETABLES HAVE IMPORTANT PLACE**

Salads made from raw fruits and vegetables have a very important place in the diet because of their vitamin and mineral content. Also because of their laxative quality they are important. It is the cellulose and acid of the fruit and vegetables which give it the laxative quality.

The Imperial salad, the Tomato and cheese salad and a raw vegetable salad was demonstrated by Mrs. Gordie Alexander, pantry demonstrator for the Country Woman's Demonstration Club.

The next meeting will be with Mrs. Marion Owens June 3.

**Pay Your Subscription**

**Adams News**

Alvin Holstein who was taken into Eldorado last Monday with pneumonia is greatly improved.

The Adam school closed last Friday without the annual picnic-barbecue as every one in the neighborhood was too busy.

Mrs. C. E. Poer and daughter Miss Minnie Belle visited Mr. and Mrs. W. F. Wilson over the week end.

Rev. F. G. Clark, accompanied Rev. Connell on his regular appointment Sunday afternoon to Adams.

A good rain fell over part of our neighborhood Monday afternoon.

**SAFETY SLOGANS**

A man can observe every known rule of health and yet meet an untimely death in an accident because of lack of care.

Not all automobile accidents are the fault of the driver. There are many careless pedestrians.

A Chicago judge offers to cut a reckless driver's fine in half if he will spend a day at the city morgue and hospital and visit each accident victim.

And here is another party who no longer makes a his with me: The young sprig, either sex, who comes back to the town of his birth, looks bored and says, "how in the heck can you stand to drag along in this old hole?"

A fat man has no fun at a lap supper. He has to hold his plate with one hand, and it takes more than the other one to serve his

mouth. Do you remember the old-fashion man who used to shave all his face but his chin?

**Why Advertise in The Eldorado Success**

READ THESE FACTS

**Circulation**

Coverage of 90 per cent of the homes in the city every week, assures the business men who use the Success of complete coverage of Schleicher County with their message. Advertising in the Success give the merchants of Eldorado more value for their money than any other medium of advertising.

**Appeal**

The Success carries more columns of local news than all dailies combined - and the people like to read news about themselves. The Success must be read—subscribers pay for it. Your ad placed next to this news is bound to be read.

**Community Service**

The Success performs a definite service to the community that is performed by no other medium. It publishes local, religious, civic and social news and makes possible their success. It informs the people of local laws, regulations etc., that govern their daily lives. Readers appreciate this service—advertising revenue pays for it. Make the people appreciate you. Mr. Merchant, by supporting this community service.

**Rate**

Consistent advertising in the Success will bring you more local business for your advertising dollar than any other medium. But, remember, you are talking to a parade, not a mass meeting.

## ROOSEVELT'S THOUGHTS "UNTHUNK"

I do not believe it is possible to amend our Constitution so that it will be lawful to carry on under the plan of the relief and correction promulgated by Mr. Roosevelt without destroying its fundamentals.

Each one of his plans should be analyzed separately. The object should be clearly distinguished from the method employed. Most of the difficulties will be found in the methods. If the object is worthy and sound, a simpler, more economical method should be pointed out.

The three separate branches of our government must be preserved as provided in the Constitution or we are lost. Our separate states are so diversified in industry and needs that it is impossible to treat their problems thru the federal government. Each state should make its own survey of its needs, from its own plan and remedy, issue its own bonds for financing. The federal government might take these state bonds until such time as they are paid off or a market made for their purchase.

### Social Betterment vs. Business

Social betterment should wait until business is nearer a normal level. No doctor tries to reform a sick patient even through the illness is due to excessive drinking or eating.

The fundamental mistake made by Roosevelt is that all his plans are made up of unthunk thoughts. Young and inexperienced engineers have prepared the plans and Congress has been coerced into passing them as laws without mature deliberation.

I believe a tariff high enough to keep out all farm products should be enforced. Our foreign market will take, for some time at least, only what the foreigner cannot get cheaper elsewhere.

The farmer uses very little that is imported and with improvement in marketing his product, his income can be much improved.

Business should be let alone and fear should be removed from the mind of the business man. The doctor does not kick his patient in the stomach when he is trying to get him into shape to earn money so he can support the family, even though the patient has been lazy, drunken or improvident.

The legitimate and necessary expenses of running the federal government should be reduced to the lowest possible limit and the budget should be balanced. Income taxes should be more fairly and equitably levied.

It is generally conceded that the old age pension plan will be a reality in this country within the next ten years. It is not generally conceded that it will be a large amount but it will be sufficient to rob old age of its terrors of dependence. This fear removed from the human heart is going to lift a tremendous load not only from the hearts of the old people but from the young people as well, who are faced with the responsibility of caring for the older people at a time when every added expense means sacrificing something needed.

Ruryard Kipling, the English poet, left an estate valued at \$712,240. He was rated as the best selling author in Britain. In 40 years his American royalties totaled \$1,750,000.

It is estimated that 20,000-000 persons attend circuses annually. The annual motion picture attendance is 80,000,000.

## Bluebonnet Suit

Eleanor Akers, Texas Centennial Exposition Rangerette, dons her customary chaps and 10-gallon hat to wear this bathing suit made of bluebonnets, the official state flower. The Exposition, a \$25,000,000 World's Fair, opens in Dallas June 6.

### FLY CONTROLLED BY PREVENTING BREEDING

Thousands of children and adults die every year from diseases carried by the fly. Typhoid fever, tuberculosis, summer complaint, cholera, intestinal diseases and frequently death follow closely in the trail of the common house fly.

The control of the fly menace comes at the top of the list of necessary public health measures which should be applied by every city and community in the State.

The most effective measure for control is to prevent breeding. Flies breed in filth, and about eight days are required to complete a life cycle. During her life time of several months, one house fly lays from 600 to 1000 eggs. Thus it can easily be seen that in a season which usually begins in the spring of the year, the descendants from one fly number countless thousands.

To eliminate flies the breeding places must be destroyed. Manure piles, garbage, and other organic filth furnish the requirements of warmth, moisture, and feed necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drink are prepared and served. Likewise they should be kept from access to privy vaults where they pick up the infections, which they later spread to humans by contact with the food and drink,

### SAVE WITH ICE

We have served Eldorado with ice through the winter months when business was not so good.

Let us serve you during the summer months too.

We Are Always at Your Service  
R. C. SPURGERS  
Phone 92

and by unwashed hands and utensils.

See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor will not molest your family. See that your grocer keeps meat, vegetables, and fruit screened from flies.

Organize health measures to destroy the breeding places, control the flies' access to your home and food, and establish standards of cleanliness in your community that will eliminate the fly.

It is a toss up with a world traveler whether to spend his vacation in the Ethiopian War zone or on the American highways where 36,400 persons were killed in automobile accidents last year. The odds if any, are in favor of the Ethiopian battle front but the roads in America are better than those of Ethiopia.

The human race has made perceptible progress in its attitude toward war. While there never was a time in the history of the world that all the principal powers were so well prepared for war there has never been a time when there was such a general widespread opposition to war. From the feeble efforts of a few peace societies and minor religious organizations the movement has grown to a well defined policy that finds a response in all nations and races of people. The tendency is wholesome. Out of it may come an effective peace sentiment. When the peace sentiment reaches the point where it holds the balance of power war will be on the way out. Two elements combine to outlaw war, influence of Christianity, and the economic force. Sometimes it appears that the race is more sensitive in the matter of financial

cost and expense than it is in the matter of violating the principles of Christianity. It is no time to quarrel over what force is the most potent. The disposition

should be to bid God speed to either both influences whichever one can get the job done best and soonest.

## COME IN AND SEE THE BEAUTIFUL NEW FRIGIDAIRE WITH THE "METER-MISER"

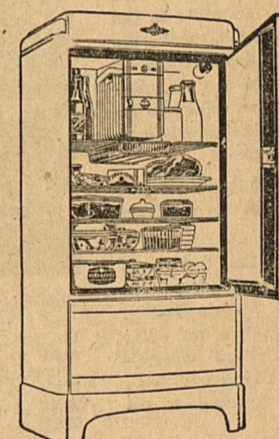

MEETS ALL 5 STANDARDS FOR REFRIGERATOR BUYING

1. LOWER OPERATING COST
2. SAFER FOOD PROTECTION
3. FASTER FREEZING — MORE ICE
4. MORE USABILITY
5. FIVE-YEAR PROTECTION PLAN

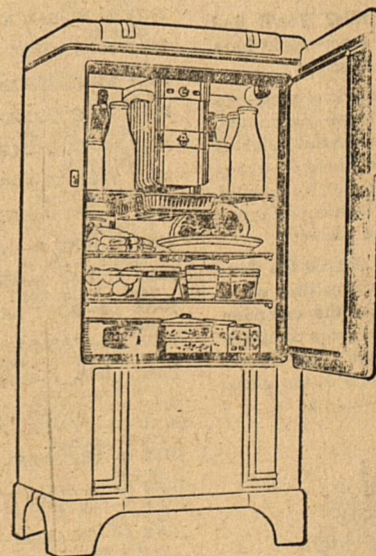

MEET THE "Meter-Miser"  
Quiet · Unseen · Trouble-free  
IT CUTS CURRENT COST  
The new Frigidaire's spectacular cold-making unit gives more cold for less cost, because of outstanding design with only three moving parts! Permanently oiled, precision built, completely sealed against moisture and dirt.

DRS Model

Master Model

Super Model

### A MODEL FOR EVERY SIZE HOME

Frigidaire is a most complete line of modern electric refrigerators. There is a model and size to suit the needs of every home from the smallest to the largest. Every one of the beautiful new Frigidaires meets the Five Standards that you will want in your refrigerator. Come in and see the proof demonstrations and let it reveal to you Frigidaire's usability. It has much more shelf space in front, Full Width Sliding Shelves, Portable Utility Shelf, Double Range Cold Control and scores of work-saving advantages. Come in and see how much you will get for your money and how easy it is to own a genuine Frigidaire.

### ASSURANCE OF SAFE FOOD PRESERVATION

Government Bulletins and health authorities agree that perishable foods must be kept below 50 degrees and above 32 degrees. Meats, milk and other costly foods keep only a short time unless chilled below 50 degrees. Frigidaire is equipped with a remarkable cold making mechanism—the Meter-Miser. Safety Zone temperatures are automatically maintained, even in hot Spring and Summer weather of 110 degrees and over. This is your assurance that Frigidaire will safely protect your food—and the health of your family.

On Guard!

Frigidaire builds this Food-Safety Indicator right into the cabinet—visible proof that foods are kept at Safety-Zone Temperature, below 50 degrees and above 32 degrees.

West Texas Utilities Company

ADAMS H. D. CLUB

"The addition of soda to vegetables to hasten their softening or to preserve the color causes destruction of vitamins," said Miss Lora Farnsworth, Schleicher Co. home demonstration agent to the Adams home demonstration club at a meeting at the home of Mrs. N. N. Reynolds, May 14, 1936.

In a demonstration on vegetables cookery Miss Farnsworth named the way of cooking vegetables in order of preference as best conserves the vitamins and mineral quality, namely, baking, steaming, boiling, and panning. The club voted to hold their

second meeting of the month at the school building and make it a community gathering. The next meeting will be held at school building Thursday, May 28.

Refreshments were served to Mrs. W. F. Wilson, Mrs. Wiley Ratliff, Mrs. Wolfe, Mrs. Will Isaacs, Mrs. O. E. Williams, Miss Bessie Reynolds, Miss Lottie Reynolds, Mrs. B. W. Montgomery, Mrs. Harrington, Miss Gertrude Reynolds, Mrs. Silas Burk, Mrs. Frank Reynolds, Miss Lora Farnsworth and Mrs. M. M. Reynolds.

BEDROOM WORK DISPLAYED

The Scheicher County Home Demonstration Council will pay part of the expenses of a delegate to the Associated Country Women of the World in Washington, D. C., on June 1 to 12, it was announced by Miss Lora Farnsworth, county home demonstration agent.

A bedroom improvement work display was recently shown by members of the different clubs over the county.

2

(From Page One) Honor Awards

It is the annual custom of the Eldorado Lions Club to award prizes to the pupil with the the highest average in the primary grades, the intermediate grades, and the high school.

Edna Luedicke, in the third grade won the award for the primary grades with an average for the first eight months of 94.0. Joe Ed Hill, in the seventh grade, won the award for the intermediate grades, with an average of 94.8. This average was the highest made in the entire Eldorado Independent School District for the current year. Genevieve Ramsey, freshman student, won the award for the high school with an average for the first five six-weeks terms of 92.9. Johnnie Fern Isaacs, junior student, was a close second with 92.7.

The awards given this year were Conklin fountain pens, with a retail value which ranks the pens as among the best obtainable. In them the winning students have prizes which will be both lasting and useful. Each pen was engraved with the name and average of the student.

The school appreciates this award given by the Eldorado Lions Club, which fittingly rewards scholarship, the principal measures of success in school.

Perfect Attendance Awards

A beautiful certificate, engraved in colors, was awarded this year to students with a perfect record of attendance during the year. In order to receive this certificate, the student must not have been either absent or tardy during the entire school year. Those receiving this certificate were:

- High School: Venita Morgan
- Grammar School: Second Grade: Bobby Oglesby, Paul Page. Third Grade: Luke Thompson, Jane Davis, Mary Virginia Griffin. Fifth Grade: Thelby Morgan, Earl Jeffery. Sixth Grade: Jocelyn Pruitt. Sixth B Grade: Charlene Chesney. Seventh B Grade: Eloise Watson.

Letter "E" Awards

For the first time, students lettering in activities other than football were recognized by the awarding of a certificate engraved with a gold "E", called the Letter "E" Award. This certificate was awarded to students who represented the school in the district meeting of the event for which they won a letter. It is hoped that this award may be continued, and that winners of letters in other school activities than football may be more nearly rewarded in proportion to the time required and training received. Winners of the Letter "E" Award will be published at a later date.

Newlin Boy Injured

Cecil Newlin was painfully injured Thursday when he received a smashed finger while attempting to close a box car door.

You don't always know just because you think you know.

AUXILIARY OFFICERS TRAINING SCHOOL
