

ELDORADO SUCCESS

Schleicher's Leading And Most Widely Distributed Newspaper

VOL. XXXVI

Eldorado, Schleicher County, Texas, Friday, May 29, 1936

No. 22

On The DIVIDE

When the legislature passed the drivers' license law last fall, sponsors of the law agreed to certain very liberal amendments, under which practically everybody in Texas who had been unving a motor car was issued a license. It was recognized that to overcome bitter opposition from some rural legislators the law would have to be extremely liberal in its provisions at the outset. The next regular session—if there is no special session meanwhile—doubtless will see the beginning of a tightening-up process out of which eventually will come a real license law that will bar incompetents from the highways and cut down the terrific toll of death and injuries in motor accidents. An illustration of the need for stricter restrictions is the case of a drunken University of Texas student, convicted of murder without malice, and given a five-year suspended sentence after killing a pedestrian with his car. Under the present law he does not lose his license but may return to the highways, and perhaps kill others, while exercising his legal right to drive a motor car in Texas.

Schools Get Funds

Rural schools particularly benefited when Dr. L. A. Woods, superintendent of education, released warrants totaling over \$3,000,000 and representing a \$2 per capita apportionment. A favorable opinion by Attorney General Bill McCraw, holding that the state board of education may pay more than the statutory \$17.50 per capita, enabled the board to authorize an additional \$1 out of anticipated surplus funds in the school fund. The \$2 paid this year total \$15, out of a total authorized \$18.50. Another payment is anticipated around July 20.

State Deficit

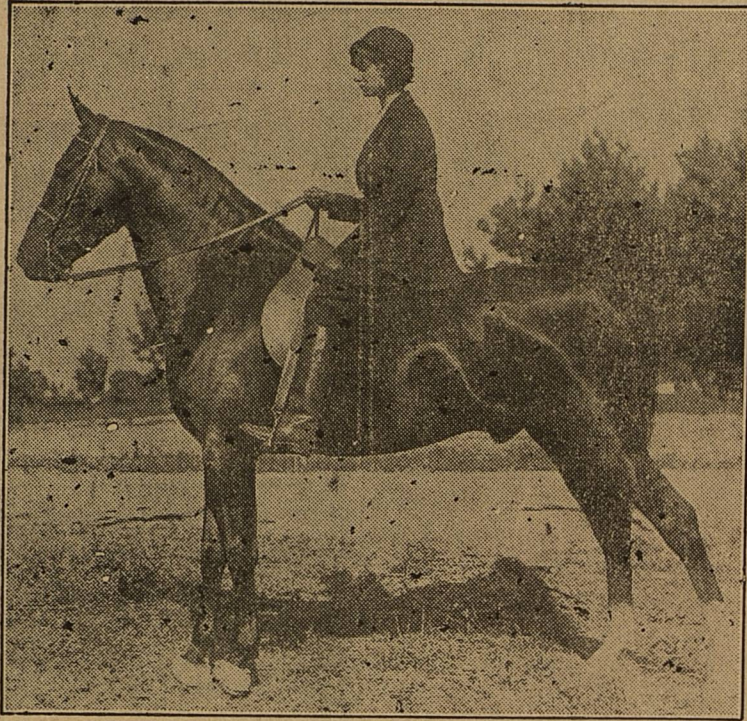

The deficit in the general revenue fund of the state is estimated by the state's budget sharks at around \$7,000,000 at present with indications it may reach \$10,000,000 by the end of the year. The fund would be on a cash basis, but for certain extraordinary expenditures authorized by the legislature this year, several of them non-recurring items. The \$3,000,000 Centennial appropriation is one. About \$4,000,000 has been diverted for interest and sinking fund payment on the state's 'bread bonds'. The state put up \$20,000,000 for relief and got about \$80,000,000 from the federal government thereby.

Political Barbecue

John Snyder of Amarillo, reputed the best barbecue artist in Texas, who once went to Washington to prepare a barbecue for the National Press club, is at Alford, Wise-co, this week barbecuing 12 West Texas beeves for the huge barbecue and picnic on May 30 that will be the scene of the opening of Col. O. E. Thompson's campaign for reelection to the Texas railroad commission. Six thousand guests from all over Texas are expected. Bands from Wichita Falls, Memphis and Amarillo will entertain the folks.

Born to Mr. and Mrs. Rueben Dickens, May 22, a girl. It has been named Carol Lynn and weighed seven pounds.

She's Richest Girl in Texas

Mildred Yaunt, 15 is reputedly the richest girl in Texas though a \$15,000,000 fortune would be hers by her father, Miles Yaunt, Beaumont oil magnate. An accomplished horse woman, Miss Yaunt will exhibit several of her finest mounts at the Texas Centennial Exposition \$25,000,000 World's Fair of the Southwest, which opens in Dallas June 6.

Two 4-H Club Boys Of Schleibner Co. Receive Gold Stars

Two Schleicher County 4-H Club boys are included in the rosters of the state's outstanding rural youths who will be awarded gold stars at the Farmers Short Course at College Station July 20-24.

The prize winning boys are Edgar Sauer and Gene Koy, who have made outstanding records in club work in all the principal stock shows of Texas.

Schleicher County is proud of the record of these boys and we are behind them 100 percent.

GIRL SCOUTS TAKE TRIP

Motoring to Christoval on Friday and returning Saturday afternoon were a number of Scout officials and citizens accompanying the local group of girl Scouts.

Miss Annie Herbert, one of the sponsors and Miss Mangum, a lieutenant, were accompanied by Mr. and Mrs. L. M. Hoover, Mrs. Joab Campbell, Miss John Alexander and Mrs. Will Steward.

Fourteen Girl Scouts made the trip. Neva Jo, Billie B. and Winnie Jane Steward, Dorothy Jane Burk Joy Sample, Venita Davis, Helen Thompson, Hazel Ruth Rogers, Beula Williams, Lois Carr, Mary Hoover, Mary Long, Nora Davis, Janice Baker and Katherine Moore, spending the night in the "Kool-Breeze Cottage" in El Monte Park. A Scout swimming test was given. Helen Thompson, Mary Hoover, and Beula Williams successfully passing the requirements.

The group was accompanied by M. C. Laird, an Eagle Scout, who is also a recognized life saver.

Cooking over the camp fire, boating and swimming constituted the favorite sports.

ANNOUNCEMENT

The summer session of the Eldorado Public school will begin June 8, for a term of six weeks. Weldon Bynum will teach.

SAYING IT WITH FLOWERS

Among the brick-bats thrown at the new tax bill there should be one bouquet: The act fell short of raising the money.

L. U. Spellman Will Deliver Sermon at M. E. Church Sun.

Rev. L. U. Spellman, presiding elder of the San Angelo district of the Methodist Church, will preach at the First Methodist Church here Sunday.

Immediately after the sermon quarterly conference will be held. The month of June will be a busy month for Rev. Mr. Spellman, as he is beginning his quarterly conference tour.

Sunday evening he will be in Sonora and on Saturday night, June 6, in Ozona. Sunday morning, June 7 he will be in Big Lake at McCamey in the afternoon and at Rankin Sunday night.

June 8 he will be in Kerrville for a business meeting and remain there for a few days before going to Junction for services June 14. He will also speak at the pastor's school to be held at Southern Methodist University, Dallas, June 11-16.

Returning to San Angelo he will go to Moon's Chapel in Sterling County, June 28 and in the evening will be at Mertzon. The Young People's Assembly at Kerrville will get his attention June 30.

NOTICE TO COTTON FARMERS

The date set several weeks ago for all cotton worksheets to be signed and in the mails, has been extended until June 10 according to C. Snell, County agent. Snell asks us to call your attention to this, and urge those who have not completed their worksheets to get them signed before June 10. "In order to prevent all the work piling up during the last few days it will be appreciated if you will get this matter attended to at your earliest convenience," Snell said.

SHEEP SHEARING IS HALTED BY WEATHER

Some shearing crews in this section have been getting a holiday due to the rain which has been falling for the past week. Some are planning to begin shearing today if the weather permits.

Summer Session of Eldorado Schools Begin June 5th

The regular summer session of the Eldorado Public Schools is to be begun Monday, June 8. Any student desiring to do make-up work may enroll. The session will last six weeks, and will end Friday, July 17. Students will be permitted to earn, or make up, only two half credits during the term of six weeks. Those desiring to make up three half credits must attend eight weeks.

The summer session of school will be conducted exactly as the regular session with the single exception that the summer session is not free. Students will be required to do the same high standard of work, in quantity and quality, as is maintained during the regular session of schools.

All teaching is to be done in the old school building, the exact rooms to be determined later. The teacher selected to have charge of the work is Mr. Weldon Bynum, coach and teacher of history and Spanish during the regular session of schools.

CUT-OFF DATE FOR EMERGENCY CROP LOAN

May 31 has been set as the final date for receiving emergency crop loan applications in Texas, according to an announcement this week from the Farm Credit Administration.

Loans from the 1936 emergency crop loan funds are being made only to farmers who cannot obtain credit from other sources. Applications are being received by the local emergency crop and feed loan committees, and disbursements made through the regional emergency crop and feed loan offices located at Dallas.

MAKE TOUR OF SOUTH

On April 7th, Mr. and Mrs. C. M. McWhorter left Eldorado on a visit to relatives and for recreation and educational research.

Their first stop was in Cass Co Texas, where Mr. McWhorter's brothers reside. Then to Hot Springs where they enjoyed the health resort and baths, then to Shreveport La. and to Vicksburg, Miss. There they visited the National Military Park, made famous by Civil War history, in the great battle of Vicksburg.

They went down the Mississippi Delta to Natches where they visited the Noted and beautiful Anti-Bellum homes. From Natches to Baton Rouge and spent a few days, saw the new capital.

From there to New Orleans and spent one day and night busily seeing historic spots of the great water front. From New Orleans they followed the route of Evangeline's search for Gabriel as described in Longfellow's beautiful poem viewing the monument erected to her; exemplifying the devotion loyalty and love of heroic women. Seemed a fitting climax to the trip by the way of Beaumont and Houston they returned home on May 20.

Automobile construction in this country reached last week the highest point since 1929 which year established the all time high for this industry.

Stamp pads at The Success.

Wool Market Active Shearing Delayed

The wool markets in Texas have been very active the past week at prices reported to range from 27c to 33 1-2c for twelve months wool and from 30c to 32c on choice eight month's. Estimates place the amount of wool sold in the movement of the past ten days at from 4,000,000 pounds to 5,000,000 lbs.

In Schleicher County shearing and delivery of wool have been delayed by rains and it is estimated that less than one-third of the local clip has been shorn. To date the local warehouse has received approximately 360,000 pounds with an estimated 1,000,000 lbs. to come yet. Five cars of contracted wools moved this week carrying a tonnage of about 150,000 pounds, and one car of wool was sold at prices from 31 1-2c to 33c.

4-H Club Girls Raising Money For Short Course Trip

Two of the 22 4-H Club girls of Schleicher County will be awarded a trip to the Short Course at College Station July 20-24. The awards will be made during June when the bedroom and garden demonstrations will be scored.

The girl receiving the best score in either of these will make the trip. Those winning second and third places will also be awarded prizes.

To pay the expenses of the winners of this trip, the girls are planning to give each person who will donate a dime, a ticket to participate in a drawing, in which the prize will be a cake. A cake will be placed at each of two grocery stores (Self-Serve and the Red & White) to be given away Saturday of this week. The girls will be selling the tickets this week.

ELDORADOIANS WILL RETURN HOME SAT.

We received today a card from Rev. N. P. Wilkinson stating that he would be back in Eldorado Saturday and the services would be held at the Presbyterian church Sunday morning and evening as usual.

Rev. Mr and Mrs. Wilkinson, accompanied by Mr. and Mrs. Tom Jones are attending the General Assembly of the Presbyterian Church in Augusta Ga. Rev. Mr. Wilkinson and Mr. Jones represented the Brownwood Presbytery at the assembly.

A ROSICRUCIAN STUNT

Some scientist reports turning platinum into gold. Roosevelt beat that record three years ago when he turned gold into paper.

The New York City fire department consists of 6,802 uniformed men and 236 engines. Included in the organization are five chaplains.

If Al Smith walks out on the Democratic party in November a lot of people will be inclined to think that Al is merely evening up old scores on the party for walking out on him in 1928.

RIGHT OF-WAY FOR EDWARDS-SUTTON ROAD IS SECURED

Right-of-way for the construction of the new Rocksprings-Sonora highway has been secured over the entire route from Rocksprings to Junction of the new road with Highway 30. Signing of deeds and passing of the requisite resolutions by the Edwards county commissioners' court was completed last week securing unto the county the strip of Wheat estate over which there had been some delay.

Under the agreement, the county is to provide good fences along the right-of-way, drill water well on the cut-off portion of the ranch, construct a cement tank from 25,000 to 40,000 gallons capacity, provide gates and other conveniences not costing over \$300. Furthermore, the present Sonora - Rocksprings road right-of-way is to be deeded fully over to the Wheat estate.

The new road has been completely surveyed and has been fenced and grubbed over a considerable portion of its length. The highway department has agreed to begin construction as soon as possible after getting all of the right-of-way in.

MAGNUS TO TEST AT 5,903 FEET

Whitten Shut Down With Broken Shaft

Caving hole and exhausting of the fuel oil supply Wednesday delayed a scheduled swabbing test at 5,903 feet of Magnus Oil Co. No. 1 Judkins & Spencer, Schleicher county wildcat seeking Ordovician production. Cardinal and Rowan & Nichols No. 1 J. A. Whitten, also in Schleicher, was shut down at 4,702 feet in lime on account of a broken shaft in the motor and may not resume for 10 days.

Some considered it probable that the Magnus test had entered the Ellenburger, lower Ordovician, but this was indefinite. Elevation is 2,209 feet, the location the center of the southeast quarter of section 4, certificate 127, W. W. Russell original grantee. A showing of oil and gas was encountered Thursday from 5,690 to 5,710 feet but salt water appeared when the fluid had been swabbed down 2,500 feet, having been stuck, it was believed, between 5,710 and 5,730 feet.

The main objective of Cardinal and Rowan & Nichols is to test the Horizou from which Phillips-Interstate No. J. A. Whitten, only 660 feet to the south and west, headed oil for three days in August 1929, bottomed at 4,295 feet but failed to produce. The test now drilling is 660 feet from the north line and 1,980 feet from the west line of section 35-LL-TORR.

WORK FOR ALL—OF SOME SORT

Nearly everyone is concerned about working for Uncle Sam. The poor are trying to get jobs with him, and the rich are trying to figure up some way to stop working for him.

ELDORADO SUCCESS

WHAT WE THINK

These Lifebouy soap advs. have disillusioned me. I have all ways supposed that man was the noble pursuer, that it was man who sought the fair maid and convinced her by sheer force of his ardor that she should leave home where she runs things with a high hand and take her chance in life with him. Every Lifebouy soap adv ends up with the fair maid calling up her girl friend and telling her how thankful she is for the suggestion about the right kind of soap, that the man of her dreams has proposed, she has won him, she has won him.

And now the coffee people have taken it up.

One of the things I have discovered is that no white shirt looks like much the second day.

I never learned as a boy to leave green apples alone because they gave me a stomach ache. I did not quit eating them until I outgrew my appetite for them.

I think most folks are like that with their faults and petty sins. They like to have others think they have conquered them, when if the truth were known, they have merely lost their appetite for them.

I have always been opposed to war and have consistently contended that being prepared for war and entering into preparations for war made the nation war minded and made the possibility of war greater, but all anyone has to do now is to point out the fate of Ethiopia.

Here was a Christian nation, a praying nation with a peace record of thousands of years behind it. It did not have a standing army, a gunboat, or an airplane in the whole empire, yet it has been cleaned out, and the rest of the world stood by and watched it done.

Here is a chance to prove that unpreparedness in the world today is equivalent to national suicide.

I will not preach unpreparedness again. The world isn't ready for it. Being unprepared today is too much like taking a Sunday School class on a picnic in an African jungle and quoting the golden text to the hungry lions.

I note by my daily that Germany's new zeppelin crossed the ocean in about 62 hours with a cargo capacity of over 70 tons.

There is another thing that cools my ardor for unpreparedness.

Scientists report that there are 700,000 kinds of insects in the world. These we presume do not count those who back out from the parking spaces without looking.

EDITORIAL

If the usual average is maintained, next Sunday will see 200 persons killed in automobile accidents on the public highways. Many more will be painfully injured and not a few rendered helpless for life.

One trouble with adjusting the farm product price situation is to be found in the fact that whenever you find one man pleased with the fact that he is receiving a good price for his farm products you will find another kicking because of the price he has to pay for butter, meat and bread. The only satisfactory way it seems is to arrange it so the producer can sell at a high price and the consumer can buy at a low price.

Be sure and register the baby with the register of vital statistics. Old age pensions will be in working order by the time he reaches that age and he will need proof of the date of birth.

A large drug firm in the middle west which advertises extensively secures from the manufacturer of each product advertised, an advertising fund. These are figured high enough to pay all costs of advertising of the firm and leave him a nice profit besides. An eastern firm showed a profit last year of \$9,000 from this source.

It is commonly thought that the introduction of machinery into industry has reduced the number of men employed.

When the linotype was invented forty years ago there were 123,000 men employed in the printing business. Today there are 541,761 employed in the printing business. Some might say that but for the linotype there would be several times this many employed. On the other hand the introduction of machinery into business has made it possible to produce printing much cheaper and has resulted in more of its being used than would be used if the slow methods were still employed.

A young man will do well to remember that few positions into which he can step right out of school amount to much. Such a man is too easily replaced to be secure for long.

As we get it from the news dispatches there is little danger of war in Europe in the near future because no one is prepared for a war. The European war chests are all empty.

The eastern floods have rendered 260,000 people homeless and have caused property damage amounting to \$5,000,000,000. In these two respects the flood probably surpassed in severity the one that made Mr. Noah famous.

We are just rather happy in the thought that we are not in business in Ethiopia depending on the League of Nations to protect us from the Italians.

On the radio the other evening we heard this one. A man had been in an accident and the surgeons found it necessary to remove his brain to do a little tinkering with it. While they were out of the room he escaped. Quite an extended search was made for him and he was finally found in Congress where he had been for a year.

England, who has an uncanny and efficient method of handling her courts and disposing of her lawbreakers after court decisions have been secured, must view with wonder the struggle made in this country to dispose of the Hauptmann case.

A good rule to follow if you would get the most happiness out of life is to magnify the good things that come your way and minimize the undesirable things.

We can't help it but we have always been more or less skeptical of the quality of love that a man who claims to practice it bestows upon his enemies.

The execution of Hauptmann has awakened again the discussion of whether or not capital punishment is ever justified.

Hauptmann's final letter to Governor Hoffman was dubbed by Walter Winchell as Hauptmann's confession. The same improper spelling that occurred in the ransom note also occurred in the letter to Governor Hoffman. Peculiarities were also noted in many details of the letter that were found in the ransom note. One thing that especially impressed Winchell was the spelling of the word "because." In both the ransom note and the letter to Governor Hoffman it was spelled "becauce."

The biggest problem before the race at the present time is soil conservation. We may correct all of our other troubles but if we permit our soil to waste away we must answer for it some day.

We note where an aviation engineer says that within ten years we will be traveling 500 miles an hour through the air. We wish it were possible now we'd like to board a plane and catch up with the good old days of the late twenties that we didn't appreciate to the degree, that we now realize we should have, when they were here.

It is never a safe plan to attempt to judge a man's value to a community by the size of his monument in the cemetery.

We note by our daily that the United States recently launched a boat large enough to carry one hundred airplanes. At last something that floats has been built that is big enough to carry all of those who came over in the Mayflower.

The cash system takes three-fourths of the worry out of modern business.

In the oil producing sections of the country oil is often transported hundreds of miles through pipelines. Gasoline, kerosene and fuel oil may be sent through the same pipe, each being kept separate from the other by a quantity of water. Pumping stations at intervals along the route keep the oil moving.

PRINTING THE NEWS

When to print a disagreeable story and when to leave one out of the paper is one of the most troublesome problems of a small-town editor. In the case of a person who is unfaithful to a public trust, or one who is not difficult to decide, because the public interest, as well as the public's rights to have the news, demand that it be printed.

There are some cases, however in which the offense is entirely of a personal nature, and in which publishing the story would bring sorrow and embarrassment to innocent persons without serving any beneficial purpose. In these the making of a proper decision is often not easy. If the story is printed, relatives and friends of the person concerned will feel that it is unnecessary; if it is suppressed the scandal-mongers will be disappointed, and many will insinuate that the editor was "bought off."

These same scandal-mongers would howl the loudest, however, if their own shady actions were held up to public gaze.

So it's hard to please everybody. He must let his own judgment and his own conscience be his guide.

If he errs on the side of kindness and sympathy for the unfortunate, his error will be forgiven and forgotten by the more enlightened readers of his newspaper.

Being on the consumer end of the line, the one thing concerning which we have never felt there could be an over production is fried chicken.

It is not so much the levying of taxes that is so irritating to business men, it is the manner in which the money is spent after it is raised. Few things stir up the careful business man who conducts his personal business economically and thriftily more than to have the tax gather slip in and take from him money that he has earned by diligent application and self denial and turn it over to a state or federal government that squanders it with reckless abandon and disregard.

The sales tax has risen from one state in 1929 to 23 states today. A total of \$300,000,000 is raised annually by this means. New York City's 2 per cent sales tax, levied to provide funds for relief brought in \$26,357,000 in 1935. Between January 1, 1933 and July 1, 1935, sales taxes were adopted by 21 states. With the exception of the gasoline tax, no single form of taxation was ever adopted by so many states in such a short space of time.

Merchandising Fear

By advice of its British agency, a Hollywood studio which has been active in the making of horror films is reported as excluding all shockers from its next year's production plans. It is explained that a growing severity of censorship in Great Britain threatens to make unmarketable their films filled with situations based upon fear. That an American producing company should take advice from its British distributors indicates that the Reins from English speaking countries outside the United States represent a considerable margin of profit. Canadian and Australian authorities of late have proved increasingly stern when these shockers have been submitted for approval.

There are people who urge that censorship of gooseflesh films indicates a needless concern for the sensibilities of the spectators—that they should enjoy these tales of vampires, ghosts, ghouls, where wolves and weird doings in laboratories as entertaining mysteries, nothing more than photographed trickeries. Unhappily it appears that for many adults and most children scenes of terror on the screen have undesirable consequences.

Parents who have observed the bad effects on their children of films filled with representations of terror, torture and slaughter need no specialist's analysis to convince them that sharp limitations should be placed upon the merchandising of fear. They will be glad to hear of the restraint on the makers of horror films, even if it be exerted by such remote control as a British market warning to Hollywood. A hint often suffices to achieve a reform when the penalty for non-observance is loss of profits.

THIS WEEK IN HISTORY

- May 25—American Philosophical Society, oldest scientific organization in America was founded by Benjamin Franklin in Philadelphia, 1743; Women of Chicago organized dress reform movement, 1864.
- May 26—American Civil War ends, 1865; First colonial assembly in New Jersey met at Elizabethtown, 1668; Al Jolson, actor, born, 1886.
- May 27—Battle of Asisne, 1918; President Wilson dedicated the American University at Washington, 1914; Lafayette forced to evacuate Richmond, Virginia, 1781.
- May 28—First steamboat launched in Lake Erie the "Walk in the Water," 1818; American forces captures Cantigny, 1918; Noah Webster died, 1848.
- May 29—Wisconsin was admitted to the Union, 1848; Steamer Empress of Ireland collided with Collier in St. Lawrence river, 1000 lives lost, 1914; Patrick Henry, statesman, born, 1736.
- May 30—Peter the Great, Russia, born, 1672; Joan of Arc, the heroine of France, burned at stake by the English for sorcery, 1431; President Garfield delivered the address on the first Memorial day, Arlington National Cemetery, 1868.
- May 31—Flood at Johnstown, Pennsylvania, by bursting of a dam, destroyed 2,295 lives, 1889; Record for crossing Atlantic was lowered to thirteen days and eight hours by steamer Great Western, 1839.

Some day, perhaps, the country will have the truth about the Lindberg kidnaping case. A good many people feel that this hasn't been told yet. One of the remarkable things about the case is that an unknown carpenter was able to command the assistance that Huptmann was able to call to his aid.

THOUGHTS FOR SERIOUS MOMENTS

A man's task is always light if his heart is light.
 Laugh and the world laughs with you, weep and you weep alone.
 A man without a purpose is like a ship without a rudder.
 Virtue is the highest activity of the soul living for the highest object in a perfect life.
 My strength is as the strength of ten, because my heart is pure.

SAFETY SLOGANS

More lives were lost in the United States by auto accidents in the last five years than were killed or died of wounds in battle in the A. E. F. during the World War. Drive carefully.
 It requires an average of 152 feet to stop a car traveling at the rate of 50 miles an hour. Drive carefully.
 Tetanus or lockjaw is often caused by stepping on a nail. Such injuries should always be treated by a doctor. When tetanus sets in it is too late. If a doctor is not available encourage bleeding and work iodene to the bottom of the wound.
 There are 20,000 accidents each year caused by drivers dozing at the wheel. Don't drive while drowsy. It only takes a split second to cause a wreck.

Get Rid of Poisons Produced by Constipation

A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. . . Mr. J. P. Mahaffey, of Clinton, S. C., writes: "I have found that Black-Draught is very effective in the cleansing of the system. When affected by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught."

MEYER H. D. CLUB

"No item in the menu offers more variety than does the salad, said Mrs. E. N. Edmiston, Pantry demonstrator to the members of the Mayer Home Demonstration club at a regular meeting May 21.

"So great is the variety in salads that we may serve one salad as light side dish for luncheon or supper. The supper salad should always be light; a green salad with a simple dressing is preferable. At lunch or supper especially in the summer, the salad is frequently the main dish."

Two salads were made and served by the club members.

The club will meet with Mrs. E. N. Edmiston June 4, to make a mattress.

Seven members and one visitor attended the meeting.

4-H DEMONSTRATOR IMPROVES BEDROOM

Among the major improvements in her room, Miss Nell Edmiston, 4-H bedroom demonstrator, has added a study center; a built-in clothes closet; a built-in chest of drawers, and a dressing table.

The study center is made of an old desk which has been repaired and refinished with ivory enamel. The clothes closet is papered with a light colored paper, and is to have the floor, clothes rod, and shoe rack painted ivory. The chest of drawers contains three deep drawers with a cabinet above for hats, the bottom drawer will be used to keep her supply of bed linens in. The dressing table is made of orange crates, enameled ivory, and is draped with orchid material to blend in with the wall paper in her room.

SALES BOOKS FOR SALE at the Success Office.

SELF CULTURE CLUB FINISHES SUCCESSFUL YEAR

Mrs. A. J. Quinn was hostess to the Self Culture Club Thursday, May 21.

A business session followed by installation of officers for next year constituted the features of the meeting. Incoming officers are: Pres. Mrs. Bill McSwain, 1st Vice-Pres. Mrs. John Williams, 2nd Vice-Pres. Mrs. Palmer West, 3rd Vice-Pres. Mrs. Bill Davis, Sec. Mrs. L. M. Hoover, Treas. Dollie Edmiston, Press Reporter, Mrs. Rueben Dickens.

The club will begin the new year's work on the second Thursday in September with "Arm Chair Travels" as their study course, which includes a study of Southern Europe, and parts of the United States and Texas.

The hostess served the Angel food cake and ice cream to 13 members and officers at the conclusion of the meeting.

ELDORADO H. D. CLUB MEET

"The combining of various ingredients should be done immediately before serving," said Mrs. G. L. Ballew, Pantry Demonstrator of the Eldorado Demonstration Club at her home Friday, May 22.

Ingredients should be washed drained and kept in a cool place before using.

The next club meeting will be with Mrs. John Williams, June 12.

Due to the rain there were just a few present: Mrs. O. E. Conner, Mrs. R. R. Davis, Mrs. Palmer West, Mrs. W. N. Ramsey, Mrs. G. L. Ballew, Mrs. F. M. Bradley, Mrs. John Williams, club members; and Frances Ballew, Jean and "Dinky" Meador visitors.

Our Society Editor was out of town last week. Accompanied by her daughter, Mrs. Mary Adrain, she visited in Midland, Texas, at which point they were joined by Mr. and Mrs. J. G. Bird, and daughter and proceeded on a Carlsbad, N. M., and visited the noted Cavern there. A group of 397 persons went through the cavern on Tuesday May 19th, representing Canada and the District of Columbia and 23 states of the United States. This was a trip worth while.

Mr. Will Holland from San Angelo and a Mr. Roberts, associated with the oil industry, spent Tuesday night investigating Eldorado's local oil tests.

Mr. C. I. Dabney and granddaughter, Cleone visited in Balinger Thursday, Friday and Saturday. Mr. Dabney being a guest in the home of his daughter and Miss Cleone in the home of relatives and friends.

Mr. E. R. Havens of Brownwood filled the pulpit at the morning hour Sunday for Rev. Quinn, who is away on a revival meeting.

Try CARDUI For Functional Monthly Pains

Women from the teen age to the change of life have found Cardui genuinely helpful for the relief of functional monthly pains due to lack of just the right strength from the food they eat. Mrs. Crit Haynes, of Essex, Mo., writes: "I used Cardui when a girl for cramps and found it very beneficial. I have recently taken Cardui during the change of life. I was very nervous, had head and back pains and was in a generally run-down condition. Cardui has helped me greatly."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Mr. and Mrs. Herbert T. Finley have moved to San Angelo to reside.

John Alexander and Nell Campbell are home from Howard Payne College.

Mrs. Roy Howland is spending the week in Eldorado visiting relatives and friends. She expects Roy to join here for the week end.

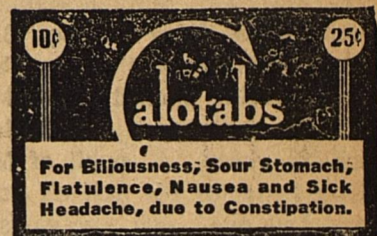

Mr. and Mrs. Walter Taylor from Gouldbusk visited Mrs. Taylor's mother, Mrs. William McDonald last week end.

DANCE EXTRAVAGANZA

Attending the "Dance Extravaganza" given by the pupils of Mrs. Elda C. Dougherty of San Angelo in the Municipal Auditorium, on Friday night, May 22nd were Mr. and Mrs. G. C. and J. C. Crosby, Mr. and Mrs. C. R. Keeney, Mr. and Mrs. J. G. Bird of Midland and Mrs. J. N. Davis and Mrs. Mary Adrain. Kathleen Crosby and Mary Rebecca Bird, were presented in three numbers each, having studied with Mrs. Dougherty the past year. Kathleen having been a pupil of Mrs. Dougherty for the past six years and had one year previous in Waco, she now does advanced work, giving a very beautiful rendition of her specialties. Rebecca is a beginner but deserves special mention.

Mrs. Dougherty's work is outstanding in its class, ranging from popular tap and acrobatic work to the rendition of the classics.

Its SILENCE Is The Key To All These Big Advantages

- No Moving Parts to wear.
- Lasting Efficiency
- Continued Low Operating Cost.
- Fullest Food Protection
- Savings That Pay For It

Because: ELECTROLUX THE SILENT REFRIGERATOR

Operates on a simpler more efficient refrigerating method — without machinery, without noise.

There's more to Electrolux's silence than just comfort. It offers constant proof that Electrolux operates without a single moving part. A tiny gas flame does all the work. Stop in and see the beautiful 1936 Electrolux models for yourself.

ELDORADO HDW. COMPANY

SECOND DRAGON'S WILL OPEN FT. WORTH SHOW

Fortworth May 29—With 90 midnight black horses and uniforms of the old Second Dragons that founded Fort Worth, a detachment of the Second Cavalry will come here from Fort Riley for the opening of the Fort Worth Frontier Centennial July 1. They will remain throughout the Show.

These troops will play a role in the Frontier Show almost identical to that which their ancestor troop played on the Texas frontier.

A stockade nearly a block long and two blocks wide will be erected. Troops will pitch their tents inside the stockade. Musical drills will be given daily by the troops as a free attraction at the Frontier Centennial. Roman riding and mouned wrestling and other cavalry sports will be conducted for this entertainment of Centennial visitors to Fort Worth.

While here the officers and troops will wear colorful uniforms of midnight blue coats with brass buttons while the buglers will wear crimson jackets.

Major Frank H. Barnhart, U. S. Army, cavalry, will command the picturesque detachment and has completed arrangements for their encampment at the Fort Worth Frontier Centennial.

Billy Rose, director general of the amusement attractions for the Frontier Centennial, is now in New York signing up the stars of stage, screen and radio and completing arrangements for the transportation of Jumbo to Fort Worth.

NATIONAL AFFAIRS

Congress is preparing to complete its labors and adjourn in time for the National conventions.

So far the Supreme Court has passed on the validity of ten of the so-called New Deal laws. It has declared eight of these laws invalid, has upheld two.

Efforts of the New Deal to extend government regulation and control of industry received another setback in the Supreme Court decision holding the Guffey Coal Act unconstitutional.

Politics is coming more and more into the news as the time approaches for the two national conventions.

Importance of commerce with other countries was emphasized at meetings held last week in the principal cities in observance of National Foreign Trade Week. America's loss in exports in the last three years compared with 1929 has been about equivalent to the amount the government has paid out for relief.

Carl Kerr arrived in Eldorado Monday night after visiting in Houston for some time.

TYPEWRITER RIBBONS at the Success Office.

THE SIX AMENDMENTS

Six constitutional amendments some of which are calculated to kick up considerable interest, will confront the Texas voters this fall.

Chief among them, the two most likely to develop a battle royal, are those proposing to increase certain official salaries and giving the voters their choice between the present plan of liquor control and the state monopoly plan.

The salary amendment takes in a good deal of the territory, since it covers a number of changes instead of the single one with which the voters are familiar from past experience—the salary of the governor. Texas pays her governor \$4,000 a year, and the amendment proposes \$12,000. Standing alone, the people might reverse themselves and approve the amendment; but they are asked to raise other salaries, too. The attorney general's pay would be lifted to \$12,000 instead of the present \$4,000, of which \$2,000 is constitutional and \$2,000 statutory. The comptroller, the treasurer and the land commissioner would be raised from \$2,500 to \$6,000, while the secretary of the state would be raised from \$2,000 to \$6,000.

The existing salaries are too low. They were set in 1876, 60 years ago. The compensation of the governor, especially, should be raised in keeping with the importance of the job and the dignity of a great state. We believe it was a mistake to include the other salary increases. They should have been proposed in a separate amendment from that affecting the governor, if possible, giving the people a chance to raise the governor's salary without any side issues attached.

The existing liquor control law is one-half of a compromise between the wets and the dries. The other half will be offered in the amendment next fall, giving the people their choice between state control of private liquor business and an outright state monopoly. There is going to be a lot of argument over that.

Country is lined up against city in one of the amendments, which proposes that representation in the lower house of the legislature be submitted to seven for any one county unless that county's population exceeds 700,000. This is a frank attempt to end the dominance of the larger cities.

Another would provide a pension of \$780 a year for school teachers after 20 years of service.

Still another would authorize the legislature to provide workmen's compensation for state employees. The sixth amendment would limit the governor's power of clemency, but setting up a board of pardon and paroles by whose recommendations the governor would be bound.

A different system of submitting the amendments to the voters will be followed this year, thanks to a legislature act of 1935. Instead of each county determining for itself the place to be occupied on the ballot by each amendment, the secretary of state will make a drawing to determine such position and the amendments will occupy the same position on each county ballot. Hereafter the voter will know what he is voting for; hitherto he has been confronted by a meaningless jumble of words. Amendments may be identified by number and position, instead of long-winded titles.

Why don't someone who is in authority suggest that all business establishments close their doors for about two days each week and let the government pay the overhead expenses. Something for nothing seems to be the order of the day.

Mr. and Mrs. Otis Burk of Perryton, Texas is visiting his father, A. J. Burk, this week.
