NO. 26

On The DIVIDE

TO NORTH CAROLINA

Editor Aaron Edgar, County Judge C. S. McKinney and Geo. Blanton, left Friday afternoon for a visit to Judge McKinney's old home in North Carolina. It has been 10 years since the judge has seen his father, and he has a grand son, he has never seen.

We are sure he will enjoy the visit immensely.

George Blanton who has been visiting here with Mr. McKinney returned home and the editor just went along sight seeing and to see that the judge returned. It is the first visit of Mr. Edgar to the tar-heel state and several interesting things are in store for him.

DIMINISHING WORK WEEK

The United States News has made a survey of "America's Diminishing Work Week." Its moral, if any, seems to be that evolution of industry and invention is the principal agent responsible for shortening the number of hours the average worker must put in at his desk or machine during each seven days.

During the last century, the work week has been almost cut in half. In 1822, the average worker put in six 12-hour days, for a total of 72 hours a week. In that year, the first organized revolt against a long week was felt. A machinists' union in Philadelphia passed a resolution demanding a 10-hour day and a 60 hour week.

This resolution got nowhere, and a long lifetime was to pass before the 60-hour week became standard in major industry—1890. And in that year, the A. F. of L. went on record in favor of the 48-hour week. As in the past, many years passed before this objective was reached. In 1924, the work week averaged 53 1-2 hours. By 1919, it had dropped to 50 1-2 hours. In 1929 at the height of the boom, it was 49 hours.

Depression naturally shortened the work week, as the "work sharing" plan, whereby employes worked part time in order that others might also have jobs, came into effect in many large industries. Then came the NRA, which established a 40-hour work week for the bulk of industries. Then came the NRA, which established a 40-hour work week for the bulk of industries. Today, in 1937, the 40-hour week has been generally maintained, even though the NRA is no more. And in a considerable number of industries, the 35-hour week has been put into effect for all or part of employes.

As the News points out, a number of factors are responsible for the declining working week. Perhaps the most important of these factors is science and invention. Technological progress, which simply means better and more varied machinery, enables workers to produce as much or more in a short week than they previously produced in a long week. Thus, they can

Revival To Open At Fundamentalist Church On July 11

Through an error it was stated last week that the revival meeting will begin at the Fundamentalist Baptist church on the second Sunday in August. This revival is scheduled to begin on Sunday, July 11th.

Dr. R. E. White of San Antonio, an interesting preacher and an evangelist of wide reputation, will be in charge of the revival services. Raymond C. Wilson of San Angelo, pastor of the local church, will also be here to assist in the services.

The song services will be in charge of John Sparks. Mr. Sparks is a well known evangelistic singer and a splendid choir is expected under his leadership.

The entire public is extended a cordial invitation to attend each and every service of this revival.

Mias Amigas Club Members In Eldorado Thursday And Friday

Thursday of this week was the first day of the two day meeting and get-together of the members of the Mias Amigas Club which meets annually in Eldorado. This day was designated as "Smith Day," honoring Mr. J. B. Smith, superintendent of the E. H. S. when the first class was graduated.

The reunion opened at 9:30 Thursday morning at the home of Mrs. Will (Lummie Pelt) Whitten and the hours spent informally as old friends exchanged news of the past year's events.

Luncheon was served down town at the West Texas Cafe and the afternoon devoted to a business session. The program Thursday night was directed by "Professor" Smith.

Today (Friday) was designated as "Pioneer Mothers' Day" honoring Mrs. W. M. Whitfield, who taught a class in the union Sunday school, in those years and earlier when the men and women of today were "just kids." Luncheon Friday was served in the home of Mrs. Ed Hill (Mrs. Josephine Murchison), who is honorary president of the club. Several pioneer mothers are to be guests at the luncheon today.

Church Of Christ To Have Revival

The Church of Christ is to have a series of Gospel Sermons delivered at their church by Evangelist J. F. Lilly of Bunker, Texas, beginning Saturday night, June 26th at 8:30.

All services are to be in the open air and the public is cordially invited to attend these services.

ELDORADO RANCHMAN IN CAR ACCIDENT

J. C. Meador was in a car accident in San Angelo Wednesday afternoon according to reports reaching Eldorado. Meador was accompanied by Jack Craig. Louis Kleamer, 66 of Fredericksburg, was badly injured in the accident but was given little chance to live.

Meador was arrested.

H. W. "Hub" Finley Former County Judge Dies Suddenly

Herbert Wallace Finley, 66 years of age, died at his ranch home 9 miles southwest of Eldorado, Tuesday afternoon at 2:30 having been ill only a short while.

Mr. Finley was born August 6, 1871 at Rock Hill, South Carolina and came to Schleicher county in 1902 from Cleburne, Texas. Mrs. Finley his beloved wife and companion died in 1923. He was the father of nine children, all of whom survive except the oldest son, Bertram, who died in 1917.

After coming to Schleicher County Mr. Finley became interested in politics and was elected Tax Assessor of this county for several consecutive terms. He was appointed County Judge by the Commissioners Court and later elected to the office for another term.

No one was better known in Schleicher County than was Mr. Finley, known by his friends as "Hub".

Seven of the eight children who survive were present for funeral services. Jim Hogg Finley a son, of Cut Bank Montana, is expected to arrive here Saturday. The other four sons are H. T. Finley, San Angelo; Joe, Pete and Pat Finley of Eldorado; and three daughters Fay, Eddie Mae, and Anna Pearl Finley all of Eldorado.

Rev. N. P. Wilkinson, pastor of the local Presbyterian Church conducted the funeral services, the remains being interred in the Eldorado Cemetery beside those of his wife.

Father is gone, the kindness he has shown, the good he has done will enrich his happiness in that better land. Let's think of him as a kind loving father, faithful to family and friends. Gone but not forgotten.

George D. Clark Here Last Week To Explain Social Security Benefits To Local Employers

Social Security was the subject of discussion in numerous interviews in Eldorado, Thursday, June 17, by George D. Clark, representative from the Social Security Board at Austin. Mr. Clark spent Thursday in Eldorado helping people who were in any way confused over the program. He particularly discussed the old age benefits program.

The old-age benefits program applies to establishments with only one employee the same as to large firms, Clark said.

Benefits are based on wages received, and beginning next July each employer will be required to make a simple report to the Bureau of Internal Revenue on every person who has worked will show name, address, account number, wages paid, date of payment, and period of service covered. From the employers' reports on wages paid, the employees' wages will be posted to their Social Security accounts and their monthly benefits, when they reach age 65 and retire will be paid on the basis of the wages credited.

In view of these informational returns, the first of which will be made in July (and quarterly

Lions Club To Have Annual Banquet Next Wednesday

The Lions Club of Eldorado will hold its annual banquet June 30th at 8:30 p. m. at the Hotel Eldo. All Lions are expected to bring their wives or some lady.

Lion C. E. Knight will act as Master of Ceremonies and J. A. Whitten, the retiring Lion President will install the new officers. A program of music and fun is being prepared by the committee.

Lion Ed Blanton and some of the Lions Cowboy Band of San Angelo are expected to be present.

Each member of the club is urged to be in attendance and enjoy the occasion.

Representatives To Austin In Interest Of Water System

At a meeting Monday night of the City Council, Mayor A. T. Wright and J. L. Ratliff were elected by the Council to go to Austin next Tuesday to meet the owners of the Eldorado water works, and try to close a deal whereby the City will own the water works. If a deal can be closed at a satisfactory price to both parties, the work on the new system can proceed much faster than to build a new system altogether.

Rev. C. P. Aly Called To Church Here

Rev. C. P. Aly, of Burni, Texas, has been officially called to the Pastorate of the First Baptist Church here.

Rev. Aly was here Sunday and preached for the local church. At this time it is not known whether he will accept the call or not.

Local Wool House Shows Increased Wool Tonnage This Year

Handles 400,000 Pounds More Than In 1936; Shearing Just About Over

This week brought to a close the shearing of the 1937 spring clip of wool in Eldorado section and wools of local ranchmen are either stored in the warehouse or are on board steamers destined for the mills who contracted them earlier in the season.

Records of wool company reveal a substantial increase in tonnage again this season, exceeding 1936 by over 400,000 pounds, or an increase approximately 30 per cent over last year, and 300 per cent over 1932, the first year of operation.

Wools of the 1937 clip contracted thru the warehouse amounted to 1,292,377 pounds at an average price of 35 1-2 cents per pound. Of contracted wools, less than 90,000 pounds remain to be shipped.

Free wools (uncontracted) received by the firm amount to 554,624 pounds of which approximately 65,000 pounds have been sold at prices ranging from 35 cents to 40 1-2 cents per pound. Warehouse has on hand unsold and uncontracted 487,626 pounds which are being held for prices above the current quotations.

Tonnage handled for this season up to and including June 16th, 1937 is as follows:

Contract wools received and shipped 1,205,896 pounds, Contract wools not yet shipped 86,481 pounds; Total wool contracted 1,292,377 pounds

Free wools on hand 487,626 pounds; Free wools previously sold and shipped 66,998 pounds; Total uncontracted wool 554,624 pounds.

Spring mohair, 46,922 pounds
Total Spring Tonnage 1,893,923 pounds.

WINK BASEBALL NINE TO PLAY SONORA-OZONA SATURDAY & SUNDAY

A strong baseball team from Wink will play the Sonora-Ozona, Permain Basin first half winners at Sonora Saturday afternoon, and at Ozona Sunday afternoon, announced Dutch Olenburg.

Wink is a member of the Texas-New Mexico, Class D League and is giving the other members of that circuit a tussle for honors. The Ozoras have already won the first half of the Permain Basin league and will no doubt give the Wink boys a battle for one or both of the games.

Odessa's withdrawal from the Texas-New Mexico league, left only five members and that leaves an open date on the week ends for some of the teams, giving them a chance to branch out and try their hitting power against teams in other leagues.

Both these games promise to be real ball games as both these teams are very strong and offer good pitching and plenty power at the bat.

Mack Jones was in from Rudd Monday, greeting friends and buying supplies.

Angelo Cyclist Best Performer

Blonde Charley Pinkert, Albuquerque, N. M. won the Southwestern T. T. Motorcycle the championship Sunday afternoon before some 3,700 fans on a wet and slippery Fair Grounds track.

Pinkert was pushed at the finish by Billy Finger, Wichita Falls, over the 10 mile hazardous track. Led Myres, the national champion, finished third.

Bob Enloe, 1936 champion, went out of the race early with a broken oil line.

Pinkert was riding an 80-cubic Harley Davidson. He qualified for the championship race with a first place win in the 10 miles for 80 motors in a time of 16; 54.3. After the final event was thrown open to all contestants winning a race event, Finger, winner of the consolation five mile race was eligible to enter and he took second in the finals. Led Myres the third man to cross the checkered flag, won his way into the final event with a third place in the 80 open.

The San Angelo Motorcycle club won the award for the nearest club for the second straight year.

Birch Was Outstanding

Cecil Birch, San Angelo, was the outstanding individual performer in the field events with 15 points to his credit. He picked up 10 by winning first place in the balloon bursting contest and five with a second place win in the Potato race. He also gave an exhibition blindfold broad jump astride an iron donkey.

Bernard Carr of Eldorado, was second high with 13 points, winning third in the Wheelbarrow race and first in the Potato race.

Economical Results From Goat Dipping

A total of 1,087 goats were dipped in wettable sulphur on the Johnnie Webster Ranch Friday, June 18th, for goat lice. The second dipping of these goats will be held Wednesday, June 30th at the same place.

It is of economic importance that the goats be kept free from lice, as the depreciation in value on account of lousy and tangled mohair runs at least from 5 to 15 percent. The loss in body weight of undipped animals during the development of the kid crop is considerable. The loss of kid hair, which has a higher commercial value than hair from the adult goats, is very heavy. Usually flocks of kids are slightly grossly infested with lice. It has been observed that about 50 percent of the kids in the average lousy flock are stunted in growth and handicapped in their struggle for life. Infested goats are constantly irritated by the lice. In heavy infestations the skin thickens and becomes rough, coarse, an doften scaly.

Species of Lice

In the United States there are at least five species of goat lice, all of which have been collected from Angora and milk goats. Two of these are blood suckers and are known as blue goat lice. The other three species have biting mouth parts and chew their food. The largest of the latter is known as the yellow or hairy goat louse. The other two species are the red goat lice.

ELDORADO SUCCESS
PUBLISHED EVERY FRIDAY
AT ELDORADO, TEXAS

C. S. McKINNEY OWNER
AARON EDGAR EDITOR

Entered as second class matter at the Post Office at Eldorado, Texas under the Act of March 3, 1897.

Subscription \$1.50 per year, in advance. Subscription will be discontinued promptly on expiration.

The Editor in leaving last week, ask the former Editor, A. T. Wright, to assist in getting out the Success while he was away. The former Editor happens to be the village Mayor. Since he has been the recipient of many complaints during the past few weeks in regard to the stock law, therefore the City officials have decided to put the law in action. If you don't like the law see how many agree with your idea by passing a petition to have it repealed.

If your neighbor does not keep a cow, it is evidence they do not want yours staked near them. Why irritate them by doing so. Don't you want your neighbors friendship.

One lady called the Mayor Tuesday about the neighbors cow eating up her peas and flowers, the neighbor apologized for "sookery" getting loose and destroying the ladies yard and left her regrets but that did not save the yard.

The City officials are having complaints from nearly every section of town on account of hog pens, chickens running at

large, cows being staked near yards and even getting loose. If you want chickens in town pen them up, if you stake your cow, be sure she is tied fast and not in the street or some ones yard.

After July 1 the City Officials will take drastic steps to enforce this law.

Vive-President Garner passed through Eldorado Friday, accompanied by his son, Tully and wife, whom they had been visiting in Amarillo. Unobserved, they passed through our city, but never the less, making history for Schleicher County, as this was the first time an official member of United States Cabinet ever passed this way. They passed through the early afternoon, and made no stop in the city.

Oat harvesting time is here, even our farmer friend W. F. Meador is harvesting his large oat crop this week.

Mrs. R. E. Foster of Shreveport, La., is visiting in the home of Mr. and Mrs. T. W. Johnson.

Mr. and Mrs. C. B. Reagan of Denton returned to their home Friday after a two weeks visit with Mr. and Mrs. Orville Berry.

Miss Mozelle Turney of Robert Lee is a visitor in the home of Mrs. Otis Buie this week.

Mrs. C. A. Spencer and nephew Elbert Stevens, were here from Kerrville the first of the week visiting relatives and looking after business.

Mr. and Mrs. Lynn Turney and daughter visited in Sonora Sunday.

SOCIAL SECURITY BENEFITS
(From Page One)

works what his number is, so the employer can use it in reporting the employee's wages. If there are any employees in Eldorado, Clark said, who do not have account numbers, they should get them immediately. All one needs to do is to go to the post office, fill out an application and the postmaster will get the number in a few days. After June 30, the post office will cease issuing account numbers. Then applications for numbers will have to be filed with the Social Security Board office at 104 old Federal Building, Austin and it will be a little more troublesome to get a number.

Claims

Benefits are now being paid in the following manner:

Any person who has worked in covered employment since the beginning of 1937, and who has become 65 years of age since January 1, 1937, is now entitled to a lump-sum payment in the amount of 3 1-2 per cent of the total wages he has received between January 1, and his 65th birthday. Also, in the case of any person who has worked in covered employment after December 31, 1936, and has died, the estate is entitled to a death payment in the amount of 3 1-2 per cent of the wages received between December 31, and the date of death. Some 4000 persons in Texas are now entitled to these lump-sum and death payments, but only about 100 claims have been filed. To file a claim for payment, one need only to write the Social Security Board at Austin and advise that the worker became 65 and wishes to claim his benefit, or that the worker died, and his widow, or his child, or his executor or administrator or the guardian or trustee of his state-wishes to file claim. Then, Clark said, his office will send the simple forms that are required to be filled in and returned to the Austin office of the Social Security Board, after which the claims will soon be on its way toward adjudication.

The minimum monthly benefit that will be paid is \$10, which goes to the beneficiary who has been paid only \$2,000 total wages, while the maximum monthly benefit will be \$85 per month. To qualify for a monthly benefit that will be paid is \$10, which goes to the beneficiary who has been paid only \$2,000 total wages, he must have received these wages in some part of 5 different calendar years, and he must cease working for wages in covered employment. Benefits are based on wages received, and are figured on the basis of 1-2 regularly, part-time, or temporarily, since January 1. The report per cent of the first \$3,000 wages received, or \$15 a month, plus 1-12 per cent per month on the next \$42,000, or \$35, plus 1-24 per cent per month on the next \$84,000 or \$35, making a total of \$85 per month maximum.

As an example, Clark said, a man now 60 years of age who works for \$50 a month for the next five years till he is 65 years old, will have received \$600 a year for five years, or a total of \$3,000. That man, when 65

years old, and when he retires, will receive a check each month for the rest of his life in the amount of \$15.

A man now 20 years old, who works till he is 65 at \$50 a month for the rest of his life in the amount of \$15.

A man now 20 years old, who works till he is 65 at \$50 a month will receive \$6,00 a year for 45 years. He will have received a total of \$27,000 in wages and his retirement benefits at the age of 65 will be 1-2 per cent of the first \$3,000 or \$15, plus 1-12 per cent on the next \$24,000 or \$20, making a total of \$35 a month that he will get for the remainder of his life each month. If that 20-year-old fifty dollar a month man should save and invest enough money to yield himself a \$35 a month retirement income, he would have to save and invest at 4 per cent the amount of \$10,500. He therefore might consider that his social security account is worth \$10,500. Some employees, Clark said, do not understand the value of their social security accounts. In fact, it is reported that some employees in Eldorado are refusing to apply for numbers. When they realize that these accounts are worth big money, they will not hesitate to get numbers. Also, the numbers are required by the law, Clark said, and therefore one cannot choose to remain out of the program. Neither can a person who is not within the scope of the program voluntarily elect to participate. If a person works in any kind of manufacturing or business establishment he is required to get a number and participate.

The Social Security Board office in the Old Federal Building at Austin, Clark said, is prepared to answer questions regarding the program.

Mr. and Mrs. J. W. Lawhon and children were visitors in Corpus Christi last week.

Scabies Eradication
Report Favorable

Mr. H. H. Cosper, Supervisor of Scabies Eradication Work, San Angelo, Texas has had employed, during the month of May, three State men and four county men who spent their entire time in an effort to eradicate scabies infection, and a total of approximately \$465.00, was expended by this Department in its regular Eradication Program.

There were one-hundred seventy six herds, and a total of 175,021 sheep or cattle inspected or dipped: There was not a head classed as exposed or infected.

The Livestock Sanitary Commission of Texas will continue the work in the San Angelo District in an effort to infection, and affording the necessary scabies certificates demanded by other states on live stock moving from Texas.

CITY SUED ON PITT
TOILET WARRANTS

The City officials were notified Monday of a suit brought by Mrs. B. M. Radford and of W. D. Collins, whereby Plaintiff are suing to force payment on City Warrants issued by the City in 1930, and which remains unpaid in part, the sum of \$6,200.00 including attorney fees.

The Suit is styled No. 574 and 573 on the dockets of this county and will come up in the District Court in September.

NOTICE TO FEDERAL
LAND BANK BORROWERS

Statements to borrowers who will have a regular installment to mature July 1st, 1937, on Federal Land Bank loans have not been sent out due to the fact that a bill is pending in Congress to continue temporarily a reduced rate on these loans. Under the present law the interest to be paid by Federal Land Bank borrowers for all interest payable on installment dates on and after July 1st, 1937, will be the contract rate of interest provided for in the note at the time the loan was made.

This is to notify each borrower who will have an installment due on July 1st, that the Bank will mail him a statement as soon as it is advised of the outcome of the pending legislation, and that he should be prepared to pay the installment at the contract rate, provided for in the note, in event Congress does not make provision for a reduction in the interest rate.

W. F. Meador, Secretary-Treasurer, Eldorado N. F. L. A.

Victor Pharr, of Ballinger, a former mechanic in our city, but now a gardner near Ballinger, is helping the Chevrolet Motor Co. out this week. Mr. Casey having accepted a position in Alpine.

Mr. and Mrs. John R. Jones visited the Pan-American Exposition in Dallas last week.

EMPLOYMENT AND PAY ROLLS IN TEXAS GAINS DURING MONTH OF MAY

Austin, Texas, June, 23.—Employment and pay rolls in Texas during May gained moderately over the preceding month and substantially over the corresponding month last year, according to the University of Texas Bureau of Business Research. Reports from 1,736 representative establishments show a total of 89,053 workers during May, an increase of 1.6 per cent over the month before and 10.0 per cent over the similar month last year. Weekly pay rolls for these firms totaled \$2,207,888, an increase of 2.8 per cent over the preceding month and 22.3 per cent over the corresponding month last year. Cities in which the increase in employment and pay rolls over May last year exceeded the average increase for the State were Amarillo, Corpus Christi, El Paso, Ft. Worth, Houston, Lubbock and Waco.

Industries with increases better than the State average were: Foundries-machine shops, millwork, clothing and textiles, cotton compresses, bakeries, flour

BITS O' PHILOSOPHY

Don't lose your head—the finder might not think enough of it to return it.

An illustrious ancestry is a poor apology for your own weakness.

Forward-looking men look backwards for the guide posts.

It is good sense to indulge occasionally in nonsense.

To lose money is the smallest loss in the category of misfortunes.

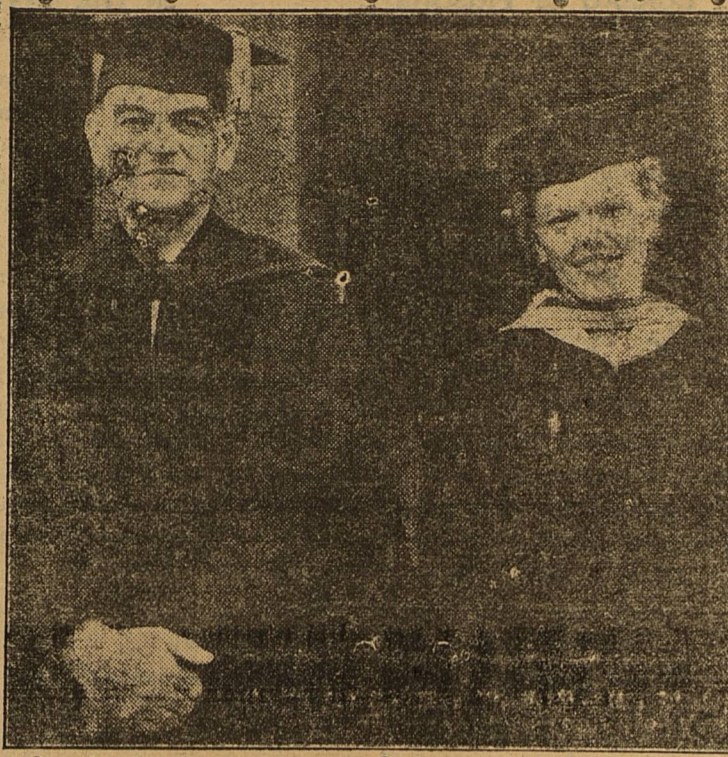

There are no little lies, for a lie does not have magnitude.

mills, meat packing and slaughtering, petroleum refining, business and personal service.

From April 16 through May 15, twenty-seven establishments reported general wage-rate increases, averaging 9.2 per cent and affecting 4,773 workers out of a total employed of 5,454. From January 1 through May 15, 122 establishments employing 23,869 workers reported general wage-rate increases averaging 8.5 per cent, affecting 22,023 workers.

Since January 1 only two establishments have reported wage rate decreases, with a total of only 11 employees affected.

Daughter Receives Degree from Father

Miss Louise Hubbard proudly receives her bachelor of arts degree from the hands of her father, Dr. L. H. Hubbard, president of Texas State College for Women at Denton. When she walked down the aisle with the 282 members of her graduating class, Louise caused a slight break in the formal ceremony because she "wanted to get that sheepskin from Dad."

THE FOURTH BRANCH OF GOVERNMENT

In a recent address, Bernard F. Weadock, managing director of the Edison Electric Institute, discussed the "Fourth Branch of Government."

Under the Constitution, we have three branches of government, each with delegated duties and powers—the Executive, the Legislative and the Judicial. The fourth branch has no name—but it might aptly be termed the Bureaucratic branch. It consists of a long list of quasi-judicial bureaus and commissions which have not only been empowered to administer properly passed laws, but in many instances exert a law-making function of their own.

The American Bar Association states that there are about 1,300 separate instances of transfer to enact laws from Congress to Administrative agencies, and that there are 73 Federal tribunals, exercising judicial power in 267 classes of cases. This fourth branch of government exerts its authority over great industries and affects the lives and livelihood of millions of citizens—yet it is hidden, and many citizens have never heard of it.

National Youth Administration youths working on a campus improvement work project at the University of Houston ran survey lines for drainage on 22 acres of land and cleared and landscaped 14 additional acres, during the last 15 day period, W. O. Alexander, district supervisor reported to J. C. Kellam, State NYA Director.

Terrace lines have been run on 28,175 acres of farm land in Hale county by rural youths working on a National Youth Administration soil conservation work project under the supervision of the county agent, A. V. Bullock, District Supervisor, has reported to J. C. Kellam, State Director.

Miss Sarah Lee Slaughter of San Angelo was the guest of Miss Kathleen Crosby this week.

The growth of this power-seizing bureaucracy is one of the most dangerous developments of the times. In the interest of democracy, of liberty, of true Constitutional government, the fourth branch of government must be bridled and controlled.

CIVIL SERVICE EXAMS ANNOUNCED

The United States Civil Service Commission has announced open competitive examinations as follows:

Senior steel plate engraver (picture and vignette), \$21.12 a day (\$3.96 an hour for overtime); script and letter engraver, \$15.39 a day (\$2.89 an hour for overtime); steel plate engraver (picture and vignette), \$41.71 a day (\$2.19 an hour for overtime); plate printer (established piece rates); Bureau of Engraving and Printing.

Associate plant pathological inspector (plant disease control), \$3,200 a year, assistant plant pathological inspector (plant disease control), \$2,600 a year, Bureau of Entomology and Plant Quarantine.

Principal experiment station administration \$5,600 a year, Office of Experiment Stations, Department of Agriculture.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.

Bud Hall of Christoval was a business visitor in Eldorado Tuesday.

At the Houston public library, 54 National Youth Administration workers have mended and shelved 5,577 books, filed 100 pictures, lettered and cleaned 290 volumes, catalogued 100 books, and assisted in redecorating the interior of the library during the last 15 day period.

Thirty boys and four girls in Bell county are now being employed by the National Youth Administration at the Blackland Experiment Farm near Temple. These youths work in two shifts, the boys in building rock masonry structures and hot beds, and the girls on office tasks.

At the Exposition Grounds at Fort Worth, National Youth Administration youths have planted 11,337 shrubs and 762 trees, repaired 335,000 square feet of shrub and flower beds, cut and laid 118 cubic yards of stone, and sodded 2,500 square feet of the park area, in addition to draining the creek, C. P. Little, Jr., district supervisor, has reported to J. C. Kellam, State Director.

Sixty-six National Youth Administration boys in Bowie county working under the supervision of the State Highway Department constructed 50 ditch re-tards, cultivated 1,000 trees and shrubs, and repaired slopes on 5 miles of State highways during the last 15 day period.

The number of people employed by 1,600 industrial firms in Texas during the first four months of 1937 showed an increase of 9 per cent over the same period last year, with the weekly payroll 15 per cent larger, according to the All-South Development Council.

Jerry Foley of Uvalde, Texas is visiting in the home of Mr. and Mrs. A. T. Wright and Mr. and Mrs. L. T. Barber this week.

Texas' seven state teachers' colleges have benefited to the extent of nearly \$2,000,000 from the federal P. W. A. and W. P. A. building programs. The amounts granted the colleges for new dormitories, stadia and other projects are as follows: San Houston State Teachers College, Huntsville, \$167,929; Southwest Texas, San Marcos, \$500,000; North Texas, Denton, \$383,260; West Texas, Canyon, \$411,052; East Texas, Commerce, \$122,500; Sul Ross, Alpine, \$240,000; Stephen F. Austin, Nacogdoches, \$123,281.

T. D. Riddle and family enjoyed a visit this week from his mother, Mrs. Childers of San Francisco, California and a brother, Buck Childers of Dallas, Texas. Also a Mr. and Mrs. A. P. Pierson of Oakland, California. They were en route from Dallas to California.

KNOW TEXAS

Denton, June 22.—As the summer wanderlust gains force and friend wife begins to make helpful vacation hints about "How lovely the Rivera must be! triumphant husband can gleefully reply, "But let's go see the Riviera of Texas—" a name often attached to the gulf coast region.

Truly Texas offers countless vacation opportunities. Not even native Texans have realized how varied the attractions of the Lone Star State are. Take, for instance, the gulf coast. By circling the "hug-the-coast" highway and investigating the coastal towns, one will find sights and diversions to satisfy the most exacting tastes.

Beginning in Houston, Texas largest city, history-lovers can browse around San Jacinto battlefield, and pleasure-seekers can lie themselves to Sylvan Beach. Or if the traveler is in need of more sea breeze, he can go from there straight down to Galveston where white sands, crisp breakers, fresh seafood, plentiful tourist accommodations, all kinds of fishing and varied entertainment are combined in one island resort.

Tarpon and other large salt water fishing is the ruling sport at the next coastwise stop, Freeport, which is also the center of the world's largest sulphur industry. For inspection near West Columbia, where the republic's first capitol was located, are several well-preserved southern plantations which are guaranteed to arouse dreamy pre-Civil War reflections.

Heading southwest through the old fishing village of Matagorda and the popular angling spots of Port Aransas and Port Lavaca, the highway comes finally to Corpus Christi. This year-round playground, besides being an important port, is the

EXAMS ANNOUNCED FOR BUREAU OF PRISONS

The United States Civil Service Commission has announced open competitive examinations for the positions of chief of probation and parole service, \$5,600 a year, supervisor of probation, \$4,600 a year, and assistant supervisor of probation, \$3,800 a year, in the Bureau of Prisons, Department of Justice.

Certain specified education and experience are required.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D. C.

National Youth Administration boys working on a land beautification project at Taylor are improving the softball field by re-sodding the diamond, leveling the entire field, and enclosing the grounds with cedar posts and shrubs.

MRS. BALLEW IS BRIDGE HOSTESS

Mrs. Lewis Ballew was hostess to the Eldorado Bridge Club in her home Thursday afternoon. Mrs. Ben Hext won high club prize, Mrs. J. C. Crosby, high cut, and Mrs. S. A. Ramsey high for guests.

Present were Mrs. Otis Bule, Mrs. A. P. Bailey, Mrs. J. C. Crosby, Mrs. Hext, Mrs. Nolan Kennedy, Mrs. Luke Thompson, and Mrs. Jerry Westmoreland, members; and Mrs. G. C. Crosby, Mrs. Ramsey, Mrs. C. C. McLaughlin, Mrs. Aubrey Baugh, Miss Margaret Combest of Paduch, a Mrs. Powell of San Antonio, and Mrs. V. G. Tisdale, guests.

home of the famous "tarpon rodeo." Boating is another pastime eagerly pursued there, and swimming enthusiasts crowd the long shore line from spring to autumn.

VACANCIES EXIST IN THE NAVY!

The Navy Recruiting Station, County Court House Building, San Antonio, Texas, is open daily from 8 A. M. to 4 P. M. to receive applications for first enlistments in the U. S. Navy.

Applicants are requested to report as early in the day as possible, as the mental and physical examinations takes from two to three hours to complete. Applicants must have parents or guardians consent, and will expedite the completion of their application if they will bring their birth certificate with them.

Qualifications to be met by applicants include:

Must be between the ages of 17 and 25.

Be able to furnish birth certificate.

Furnish three good character references.

Pass a rigid physical examination.

Make a satisfactory mark in the mental (intelligence) examinations.

Be a citizen of the United States.

Be un-married.

Ex-members of the Navy, Army, Marine Corps or coast Guard will not be eligible for enlistment unless they make application within three months from the date of discharge from last service by reason of expiration of enlistment.

All enlistments in the U. S. Navy are in the rating of Apprentice Seaman.

For further information call at or write to the above address.

STOCK NOTICE

On account of many complaints coming to City Officials, it has become necessary for the officials to enforce all stock and chicken laws. No loose stock and chickens, or hogs in pens, will be permitted to remain in the city limits.

Complaints will be filed against offenders after July 1st, 1937. A. T. Wright, Mayor

Mrs. Nolan Kennedy and son, Roddy, spent last week end at Christoval with relatives from Bronte, Texas.

Students working on part-time NYA campus improvement jobs at Decatur Junior College built four tennis courts, two volleyball courts, and several flower beds; hauled one and one-half million pounds of rock for construction of a stone wall around the athletic field; and supplied unskilled labor for the construction of a grandstand at the football field and for repair of the interior of the college building. H. T. Tinsley, Registrar of the College, has reported to J. C. Kellam, State NYA Director.

F. M. Lewis of Snyder, Texas, spent several days here last week, visiting with Mr. and Mrs. H. E. Lynn. Mr. Lewis is Mrs. Lynn's grandfather.

Miss Ebba Ann and George Stanley Finley of San Angelo visited on the Finley ranch this week near Eldorado.

Miss Lorent Howell of San Angelo visited in the home of Mr. and Mrs. H. E. Lynn last week.

Of the 486 faculty members serving the seven state teachers' colleges of Texas, 84 have Ph. D. Degrees, representing the highest level of achievement in the academic field.

BRANCHING OUT

The vast oil industry of Texas is primarily dependent upon the widespread use of the automobile for its welfare, but not entirely. Its ramifications are many. There is kerosene for cooking and for lighting; there are the industrial lubricants, ranging from heavy greases to special oils so carefully refined you could use them in a salad dressing if you chose; there are numerous specialties for the home and car—from body polishes to window cleaners; there are fuel oils, diesel oils, spray oils for fruit trees—the list is endless. And almost daily, the engineers, the chemists, the whole army of the oil industry's technicians are adding to it. It's a far cry these days from the "coal oil" can with a potato on its spout.

The Humble Company keeps abreast of all the new developments. Its Baytown refinery is one of the largest, most up-to-date, in the world. But Humble technicians still leave no stone unturned in their day-to-day efforts to improve the products you buy under the Humble sign.

HUMBLE OIL & REFINING CO.

A Texas institution manned by Texans

CORP. HUMBLE O. & R. CO.

NOBODY'S BUSINESS

Austin.—When James V. Allred, then newly elected attorney general of Texas, filed penalty and ouster suits against 15 major oil companies and two associations, in 1932, charging they had violated the Texas anti-trust laws, he launched litigation that has become one of the most famous cases in Texas jurisprudence, and, incidentally, attracted attention to himself which eventually made him governor of the state.

Allred tried the case in district court in Travis-co, and lost it, the court holding the NRA had voided Texas anti-trust laws. The case was appealed by the state, and the court of civil appeals again decided in favor of the oil companies, but on different grounds, maintaining the state anti-trust laws were void because they excluded certain agricultural groups from the laws' operation. The state took an appeal to the supreme court of Texas.

A sweeping victory for the state came last week, when the highest court reversed the court of civil appeals, held the anti-trust laws valid, and sent the case back to district court for trial on its merits. The decision surprised oil company lawyers, including Dan Moody, ex-governor, and John Black of Austin, rated

as two of the state's ablest attorneys, as well as the attorney general, Bill McCraw, who prosecuted the appeal after he succeeded Allred. McCraw had so little confidence in winning that he had privately consulted legislators about enacting new anti-trust statutes, anticipating the existing laws would be held void by the supreme court.

The case now goes back to the lower court for trial and will have to drag its weary way through the appeals courts, probably to the U. S. supreme court, for final decision, taking from three to five years additional time. Allred originally asked for imposition of \$17,850,000 penalties, ouster from the state, and cancellation of the characters of the defendant companies and associations.

Tax Session In September

September is the month set by the governor for resumption of work by the legislature this week, as the anti-gambling session drew to a close with final passage of anti-dog racing and general anti-gambling laws. Another flare-up occurred in House and senate as criticism was voiced toward Allred for a message he sent up, urging the solons to legislate against organized, commercialized gambling, instead of petty personal vice. The September date will enable the governor to complete a survey of the state's tax needs, including those necessitat-

ed by the anticipated adoption of constitutional amendments in the August special election. There is a strong probability there will be two or more additional 30-day sessions, as many major legislative problems other than taxes, hang over from the regular session as a result of failure to pass bills, or of the vetoing of bills by Allred. These included among others pardon and parole legislation, soil conservation, the Big Bend park, oil leasing of school lands and many others.

New Texas Industry

Extensive development of a neglected Texas industry was forecast here this week by W. W. Halcom, ex-Texas editor, and more recently attached to the secretary of state's office. Halcom has joined forces with Jack Hale, Houston industrialist, who has chartered a company to "quick freeze" Texas fish, oysters and shrimp, which preserves their fresh flavor indefinitely, and permits shipment long distances in fresh condition. The plan is to stabilize the Texas coast's fishing industry by maintaining a constant market, absorbing surplus thru the preserving process in flush seasons, which would make fresh seafood available thruout the state all year. The process has been extensively used on the Atlantic and Pacific coasts to preserve seafood, fruits and vegetables indefinitely.

Politics

Three rumors regarding the forthcoming gubernatorial race in Texas were laid this week. First, Gov. Allred answered with an emphatic "No" a question by pressmen as to whether he would seek a third term; second, Chairman Robert Lee Bobbitt of the highway commission declared he was "not a candidate" in a public address, and third, Karl Crowley of Fort Worth, solicitor general of the post office department, told reporters he "had never heard of" rumors he might run for governor, as he stopped off here to lunch with Gov. Allred.

Clarence E. Farmer, radical Fort Worth legislator, who favors pensions for all over 65, has told friends he expects to run for governor on a liberalized pension platform. The lieutenant governor's race is beginning to shape up, with Senators John Reddith of Lufkin and Will Pace of Tyler and former Speaker Coke Stevenson of Junction regarded as certain candidates. No announcement has come from any of the rumored candidates for attorney general, altho Lieut. Gov. Walter Woodul continues busily indirectly campaigning with numerous speeches and other public appearances.

Pension Funds Short

Quiet trimming of the old age pension rolls thruout the state is under way, despite public announcements by pension officials that the pension fund is in good condition. There were approximately 130,000 pensioners getting checks last month; this figure was trimmed about 3000 to 127,000 for the current month.

On the basis of funds to be available for the remainder of the year, as shown by the statement of state treasurer, further substantial reductions will have to be made to meet payments. The pension administration is authorized, under the deliberation act, to purge the rolls of all who have the possibility of support from children, relatives or other sources, if necessary to meet payments. The pension question is going to be a live political issue in Texas for many years to come, according to every indication here. In political year, the rolls will expand; in off years, they will be trimmed, no matter how many officials denials may be issued.

NOTICE

The City Council of the City of Eldorado, Texas, will receive bids or offers of sale of land on which to erect a Water System for the City of Eldorado, at their regular meeting July 12, 1937.

DELEGATES TO SHORT COURSE ELECTED FOR HOME DEM. CLUB:

Schleicher County Home Dem Council met on Saturday, June 19, in the office of the C. H. D. A. The purpose of the meeting was to elect the voting delegates for the Short Course. This year there will be only three ladies from each county who will be officially allowed to vote. The elected delegates from each club in the county attended the Council meeting with their Council members. After the introductions were made, The Council proceeded to elect the delegates.

Miss Lotti Reynolds, Miss Rutliff Baker, and Mrs. W. E. Bruton were the ladies who were selected to vote at the state meeting of the Texas H. D. Association. Mrs. Frank Pullen, of the Riverside club was selected as alternate. A school of instruction will be held by the Council at their next regular meeting, July 10th.

PRESBYTERIAN CHURCH

Services Sunday as follows:
 Sunday School at 10:00
 Morning Worship at 11:00
 Sermon Subject: "Surely Jesus Taught This." Some men are saying today that the dependable things to believe are the things we can be sure Jesus taught. This sermon points out such.
 Evening Worship at 8:30—
 Gospel sermon by the pastor.
 A cordial welcome awaits all worshippers.

N. P. Wilkinson.

Miss Mozelle Henderson and mother, Mrs. Martha E. Henderson of San Angelo, visited relatives and friends last week end and the first of this week in Eldorado and on the Tom R. Henderson ranch near Eldorado.

Goat Dipping—
(From Page One)
Sulphur

During recent years so much improvement has been made in the grinding of sulphur that it was thought advisable to carry on further investigations of its insecticidal value. The coarsely ground sulphurs of 80 to 100 mesh screen test did not give satisfactory results. Finely ground sulphur, i.e., 98 to 100 percent passing a 325-mesh screen gave excellent results and is recommended for goat louse control. Likewise flotation sulphur, prepared by the liquid purification process, when further purified of the traces of iron and arsenic sulphide left by its manufacture, gave equally good results and is likewise recommended.

Finely ground sulphur with a wetting material added can now be obtained on the market in powdered form known as "wetttable sulphur." This product is much more satisfactory for dipping purposes than those forms of sulphur which do not mix readily with water. Wetttable flotation sulphur is also on the market.

The recommended formula for effective control, using either of the above sulphurs, is:

Sulphur 10 pounds
 Trisodium phosphate 10 to 20 ounces, depending upon the hardness of the water used.
 Water 100 gallons.

In very soft water the trisodium phosphate may be left out. In strong alkaline waters containing sodium of magnesium the trisodium phosphate is indispensable.

Two dippings with a 11-day interval are recommended. It

Mrs. W. M. Bearce and Mrs. Orville Berry visited in Abilene Friday and Saturday.

CELEBRATE 50TH WEDDING ANNIVERSARY

2

(From Page One)

Sam Oglesby and family and Ford Oglesby and family, prominent ranchmen of this county attended the family re-union of Mr. and Mrs. Sam Oglesby Sr., at Mertzon, Tuesday June 22, it being the 50th wedding anniversary of the Senior Oglesby's.

There is probably no family in West Texas better known than the Oglesby's and all held in the highest esteem by their neighbors and friends. They have been among the pioneers of this section of Texas and still maintain that Western hospitality which has been noted for West Texas in the past.

The Success congratulates the Elder Oglesby's for the noble family of seven sons and a daughter, who are an asset to the communities in which they live.

J. T. Ratliff is a visitor in Dallas this week.

must be borne in mind, however, that no dip can be depended upon to eradicate lice from a flock of goats unless every goat in the flock is carefully and thoroughly dipped. For this reason, whenever dipping is undertaken, it is absolutely necessary that one pasture be cleared of all goats before dipping starts. The freshly dipped goats should be turned into this pasture and all other pastures should be searched regularly for strays until time for the second dipping. Following the second dipping the same precautions should be taken. All undipped goats found should be dipped as soon as possible. A single lousy goat or a stray that has passed through the fence line may, in 6 to 9 months, reinfest the entire flock. Reinfestation may also take place along the fence line. This is especially likely to happen during the goat-breeding season.

It can be seen that a county or statewide clean-up would be beset with difficulties, but it is believed that such an undertaking is worth while and is not beyond the possibility of success if sufficient diligence is exercised.

Dipping Vate

Animals suffering from heavy infestations of internal parasites or in very poor condition from other causes should not be dipped. Such animals should be isolated, put in strong condition, and treated for worms before being dipped, if losses are to be avoided.

Goat Scab and Sheep Lice

Preliminary experiments indicate that goat scab mites can be killed satisfactorily by following the foregoing directions. While systematic dipping of goats for louse control will likely control scab also, the use of sulphur for the control of sheep and goat scab is not recommended in lieu of lime-sulphur or nicotine sulphate dips at the present time.

work less and still maintain or increase their productive value. Even though their hours go down their usefulness and their wages go up.

The labor unions have also been a factor. They have won many concessions from management, and cut the working week without cutting wages.

Management has also done a great deal to make shorter hours possible. It has improved the technique of production in many ways, to the end that less employe motion be wasted, and that each worker produce more in his working time. It has often voluntarily reduced hours even as it has raised hourly rates of pay.

Finally, in recent years government has been a factor. A number of states, of which Oregon was the first, have specified the maximum hours per week which women in industry can work, and these statutes have been upheld in the courts as being necessary to the public health and well being. The Federal government has also stepped in, as happened with the NRA. A Federal law now in effect refuses government contracts to manufacturers whose employes work more than 40 hours a week.

The current drive for a 30-hour week, to be fixed and enforced by the government, is believed to have little chance of immediate success. Even some labor leaders are dubious of its merit, in the belief that it would retard reemployment. Past history would indicate that a still shorter work week will come in time—but as the result of progress and evolution, rather than political pressure.

Mrs. Ruth K. Johnson and friend Mr. Billie Blum of Austin visited Mrs. Johnson's sister Mrs. D. E. DeLong and family last week.

Mrs. O. R. Burden and son Jack, of Wichita Falls are visiting Mrs. Burden's parents Mr. and Mrs. Tom Johnson.
