On The DIVIDE

WHAT IS A REVIVAL OF RELIGION?

A revival has to do with those who are followers of Christ and then it affects those who are not professed Christians.

A revival is a time of returning, a time of reaping and a time of rejoicing.

When God sends a revival to a church or a community, the Christians who have been doing things which are not right, will quit those things and return to the godly living. They will return to a definite prayer life. Also they will return to the main task of a Christian which is soul winning.

A revival is also a time reaping of the harvest that is already ripe and ready, the results of faithful service. We have the promise of God that "We shall reap if we faint not."

Then a revival is a time of rejoicing. "He that goeth forth and weeping, bearing precious seeds shall doubtless come again, rejoicing, bringing his sheaves with him."

PRINTING THE NEWS

When to print a disagreeable story and when to leave one out of the paper is one of the most troublesome problems of a small-town editor. In the case of a person who is unfaithful to a public trust, or one who is guilty of serious crime, it is not difficult to decide, because the public interest, as well as the public's right to have the news, demands that it be printed.

There are some cases, however, in which the offense is entirely of a personal nature, and in which publishing the story would bring sorrow and embarrassment to innocent persons without serving any beneficial purpose. In these the making of a proper decision is often not easy. If the story is printed, relatives and friends of the person concerned will feel that it is unnecessary; if it is suppressed, the scandal-mongers will be disappointed, and many will insinuate that the editor was "bought off."

These same scandal-mongers would howl the loudest, however, if their own shady actions were held up to public gaze.

So it's hard to please everybody and no editor of sense tries to please everybody. He must let his own judgement and his own conscience be his guide.

If he errs on the side of kindness and sympathy for the unfortunate, his error will be forgiven by the more enlightened readers of his newspaper.

SHE MAY COME BACK

Mr. and Mrs. C. C. Robason are making plans for moving to May, Texas, this week to make their home. Mrs. Robason, formerly Mrs. J. M. Evans, has resided in Eldorado for the past seventeen years, and she says she has reserved the privilege of coming back to Eldorado to live any time she wants to.

Many are busy going somewhere for the purpose of coming back.

The pastor is calling a meeting of the junior boys and girls at the Baptist church next Monday afternoon at four o'clock. It is hoped that a large crowd of these boys and girls will come for the purpose of starting a junior choir or booster band.

"The booster band can have a big part in the revival which begins next Wednesday night," Rev. Aly said. "Let all the boys and girls come."

Rev. Bagley To Conduct Singing In Baptist Revival

Rev. J. E. Bagley, pastor of the first Baptist Church at Charlotte, Texas, will arrive in Eldorado next Wednesday to have charge of the singing in the Baptist revival, which begins Wednesday, August 11th, according to an announcement made by Rev. C. T. Aly, pastor.

"Bro. Bagley is not only a good singer and preacher, but a great soul winner," Rev. Aly said. "He is a man who hates sin and loves men. He can meet people and show them their need of Christ as Savior and Lord. He has been spoken of as one of the most effective men of prayer of any preacher in Texas."

"When you hear him sing, you will want to sing with him. He loves congregational singing. Let everyone who will come and join in with this good man in presenting the gospel in song."

Services will be held at 11 a. m. and at 8 p. m. during the revival. The public is invited to attend each and every service.

Local People Attend Missionary Meeting At Mertzson

Several people, representing the First Methodist Church of Eldorado, attended the zone meeting of the Women's Missionary Society held at Mertzson last Tuesday. An interesting program on "World Peace" was rendered. A very elaborate barbecue dinner was served at the park at noon.

Mrs. Nathan Johnson of Bronte led the morning worship, and as special music Miss Mae Rene Grief and Mrs. Tom Gregg of the First Church of San Angelo presented "How Long Will Thou Forget Me" by Pfluger. Mrs. Williams gave the chairman's message.

Mrs. Earl Hoggard of Robert Lee reviewed "Kill or Cure" by Muriel Lester, and Mrs. Allen Roe assisted by Mrs. W. W. Rabl. Mrs. A. P. Moncrief, Mrs. R. L. Ash, and Mrs. Paul Medley of the Trinity Church led a panel discussion of "The Big Five"—farmer, laborer, churches, schools and women.

After a luncheon served by the Mertzson W. M. S., the Rev. W. W. Lipps of Sterling City led the worship. "In the Cross" was the title of the song presented by Mrs. Joe Thorp, Mrs. Otis Deal, and Mrs. Roderick Mitchel of Mertzson.

Mrs. Theodore Herring of the First Church talked on "The Church and World Peace," and "Peace Yesterday and Today" was Miss Del Chapman's topic. Miss Chapman is also of the First Church. Mrs. Williams conducted the dedication service.

Those attending from Eldorado were: Rev. and Mrs. J. W. Leggett, Mrs. Orville Berry, Miss Bessie McClary, Miss Tom Pearl Smith, Mrs. W. L. Gary, Mrs. J. E. Tisdale, Mrs. A. J. Atkins, Mrs. G. A. Neill, Mrs. O. E. Conner and Mrs. Reuben Dickens and children.

Mrs. L. T. Barber and son, Bobby, and Mrs. A. T. Wright spent Sunday in Sweetwater visiting with Mrs. Wright's sister, Mrs. A. V. Grimes and family.

Like The Old Days!

DAVE DELONG SEES BUFFALO LAST WEEK WHILE RIDING ON RANCH

It isn't an unusual experience for Dave DeLong to mount a horse and "ride the range." He's been doing this for many, many years. But the experience he had one day last week brought to his mind the scenes of "old days" in Schleicher county.

While riding the range one day last week, Dave rode up on a buffalo near one of his windmills. The buffalo was a bull about two years old. We imagine Dave had to rub his eyes a time or two to make sure that he saw what he saw! But, sure enough, there he was—just the picture of days of the Old West.

Mr. DeLong stated that there is a small herd of buffalo near Mertzson, and it is his opinion that this one wandered away from the herd.

Committee To Select Site For Water Works Appointed Monday

Two City Councilmen who are to make a selection of the site for Eldorado's municipally owned water system were appointed at the called meeting of the council last Monday night.

Ray Jones and Leslie Baker were appointed, and they are to make a report at the next meeting of the Council.

The City has several sites in view, and the committee is to contact the owners, get their prices for this land and decide which will be the most appropriate site for the new system. Plans are going forward toward building the system outright, since it seems that the City cannot get representatives of the Interstate Public Service Co. to agree on a "just price" for the present water system.

MRS. W. C. DOYLE HAS APPENDICITIS OPERATION

Mrs. W. C. Doyle was taken to a San Angelo hospital for appendicitis last Monday, and underwent an operation at about twelve o'clock Tuesday.

Reports from the hospital are that Mrs. Doyle is resting nicely, and her many friends in Eldorado wish her a speedy and complete recovery.

BROTHER OF LOCAL RESIDENT ON W. P. A. AS DISTRICT HEAD

Doyle T. Brooks, who was formerly connected with the Emergency Education Department under the W. P. A. at Abilene, has taken over the position of head of the entire district, with headquarters in San Angelo. Illness prevented Mr. Brooks taking over this job on June 15, and he has just recently assumed his duties.

Mr. Brooks is a brother of postmaster E. W. Brooks. He and Mrs. Brooks were visiting in the E. W. Brooks home here last Tuesday night.

Misses Lois and Fern Parks are visiting in Mertzson this week.

"Name-A-Housewife" Contest To Close On Saturday, Aug. 14

Dr. Charles Earle Funk, New York lexicographer and linguist, will judge entries in the West Texas Utilities Company's "name a-housewife" contest, N. R. Kennedy, local manager, announced this week.

Information came from the general office in Abilene that Dr. Funk had accepted an invitation to name the winners in the campaign to "secure a more appropriate name for the modern West Texas woman."

Possibility that the name "housewife" may be omitted from dictionaries of the future was viewed as a result of Dr. Funk's participation as judge in the contest. He is senior member of the publishing firm of Funk & Wagnalls Company, New York, and is associate editor of the famous Funk & Wagnalls New Standard Dictionary. He has been given wide recognition as American.

July Quiet Month

County Clerk Almost Fails To Disturb Marriage License Records

July was a quiet month with Johnnie Isaacs, county clerk, so far as the marriage license business was concerned. As the month passed on, day by day, it had begun to look like the marriage license records would not be disturbed.

Still other days passed, and no one came in to obtain a license. But on the 31st day of July, Johnnie hauled down the old books and issued a license to an Eldorado couple.

The license was issued to J. L. Ratliff, Jr., and Miss Roberta Milligan.

WILL CALICHE STREETS; APPOINT DEFENSE IN SUIT FILED AGAINST CITY

A called meeting of the City Council was held last Monday night for the purpose of discussing several things which the city is undertaking.

It was decided at this meeting to sponsor the W. P. A. project of placing caliche on the principal streets of Eldorado. About \$9,000 or more will be spent in this work, it is believed, with \$8,200 being furnished by the government under the Works Progress Administration.

W. P. A. workers will be placed on this project as soon as the present road project in the Reynolds community is completed.

Attorney Appointed

The Council appointed Joab Campbell as attorney to defend the city of Eldorado in a suit against the city which is brought jointly by Mrs. B. M. Radford and W. D. Collins, whereby plaintiffs are suing to force payment on City Warrants issued by Eldorado in 1930 for the installation of pit toilets. This suit is for approximately \$5,000, including attorney's fees.

County Attorney Campbell was instructed to secure whatever legal aid was needed in defending this suit. The suit will come up during the September term of District Court.

**WHEN 111,000 AMERICANS
DIED**

One generation has passed since the sinking of the Titanic, yet that great disaster is still well remembered. Fifteen hundred persons died.

The Johnstown flood will never be forgotten—the world was aghast when the death toll of 2,209 was tabulated.

The World War was the most sanguinary conflict in history. In it, 50,000 Americans lost their lives, and they are still mourned.

The recent Texas school explosion, which killed 294 children, brought universal sympathy and horror.

Yet last year 111,000 Americans met accidental death—more than twice as many as were killed in the great war—and it caused hardly a ripple in the flow of news. We read of some of those accidents in our paper—"John Jones, aged 45, died in emergency hospital after being struck by an automobile"—turned the page, and forgot them. This astounding callousness—this attitude of "Accidents always happen to the other fellow, not to me or mine"—is

death's greatest ally.

Among men, heart disease is the only thing which kills more men than accidents. Such plagues as cancer, tuberculosis, pneumonia—plagues which are being fought by all the resources of science—are down the list. Recklessly driven automobiles, burns, falls, drownings, and so on—these are the great killers.

Practically every accident is preventable—and this is especially true of the motor car, greatest of all the great killers. Care, competence, courtesy—these make up the accident prevention triumvirate. It's up to you—to all of us.

WHAT'S WRONG AT HOME?

After hearing a lot about the waywardness of children of the present, it occurred to Rev. Clinton D. Cox of Chicago to get the viewpoint of the youngsters themselves, which he did through asking 175 boys to write freely their ideas on "What's Wrong with the home?"

Among the answers given by these boys, who ranged from 14 to 16 years of age, were the following:

"A boy wants a mother who can keep a secret and not tell the neighbors everything about him."

"The girl's word is always taken and the boy's word is always doubted."

"Home is a court room and every member in the family tries to take a hand in raising the boy."

"Parents never admit it when they are wrong."

"People who led the wildest life before they were married are the strictest parents."

"Mothers try to hold other boys up as models too much."

These are only a few of the answers but they indicate that

boys believe there are a good many faults on the parents' side of the case, and doubtless that is true.

Young persons will usually acknowledge their shortcomings and accept reproof without resentment if they feel that the parent is right and fair. But it is often difficult for parent and child to see things from the same angle.

Senator Connally Urges Senate Aid To U. S. Farmers

Washington, D. C.—In a successful effort to aid farmers who have Federal Land Bank loans, Senator Tom Connally on the floor of the Senate recently pleaded for the lowering of the interest rate on commissioners' loans from 5 to 4 percent, and the continuation of the present 3 1-2 percent interest rate on regular loans.

Upon the insistence of the junior Senator from Texas, the Senate rejected the amendment of the Senate Banking and Currency Committee, which would have stricken out the reduction of interest rates on commissioners' loans.

"We have been through a very critical period in the United States in the way of holding on to land during this depression," Senator Connally told the Senate. "Commissioners' loans are instrumentalities that were devised to help out the man who had a farm and was trying to pay for it by giving him a further increase of loan. Many of these farmers will pay out. They are on the land, they are working, they are digging, they are trying to get out, and they are not on a relief roll in town. If we can give a billion and a quarter dollars to people to do nothing, I do not see how the Government will suffer much by giving \$40,000,000 in the form of reduced interest rates to people who are at work establishing homes and increasing the value of those homes.

"The land banks will have to absorb some of the reduction for this period of extension; but it is justified aid, it is sound aid, given to people who are trying to pay for them, and who are out in the hot sun at work."

The Senate passed the bill extending and reducing the interest rates to borrowers from the Federal Land Bank, the House had previously passed the bill.

Don't put up with useless PAIN Get rid of it

When functional pains of menstruation are severe, take CARDUI. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance. Railroads Make Reduced Rates For Dallas Exposition

Dallas, Aug. 5. —Lowest excursion rates in the history of Texas became effective Sunday, August 1, on four major railroad lines leading into Dallas for greater Texas and Pan American Exposition visitors. The special rate is a round trip ticket for only 75 per cent of the regular one-way coach fare and is effective week-end on all trains of the Rock Island, Fort Worth and Denver, Katy and Santa Fe lines that arrive in Dallas on Sunday.

Return must be made on trains of these lines that leave the Dallas Union Terminal prior to midnight Sundays.

Tickets at this special excursion rate may be bought at any station on any of the four lines recognizing the rate, and can be purchased on date of departure.

"We expect these special Sunday excursions to bring a great number of Texas people into Dallas each week-end for the Pan American Exposition," M. C. Alderson, assistant general passenger agent for the Katy, who announced the special rates, declared.

The special week-end excursion rates will be effective until October 31, closing date of the Pan American Exposition.

NOBODY'S BUSINESS

AUSTIN.—One of the most interesting gubernatorial campaigns in the history of Texas is developing more than a year in advance of the election, with more rumors, guesses, speculation and hot air being generated than in any previous fight for the state's highest office. The already muddled situation was further complicated this week in the minds of some political writers by the announcement in Dallas by Jim Ferguson that his wife might offer for a third time "if a sufficient number of people de-

mand it." The Allred third term balloon, sent up a month or more ago, is still worrying some of the politicians, despite the announcement by Sen. Tom Connally in Washington that the Texas federal judgeship bill, altho abandoned for this session, will be passed at the January session of congress. This revived hope in the Allred camp that the appointment of the governor to this post might still go thru, thus taking Allred definitely out of the race before the campaign warms up.

Thompson Sure To Run

Reports the Col. Ernest O. Thompson, railroad commissioner, might decide not to run for governor, have been assiduously circulated and frequently published during the past few weeks. These reports have emanated chiefly from sources to whom the wish was father to the thought. Any informed political observer, who gets his information from factual sources rather than from hopeful politicians, can find out in an hour's conver-

sation in the right places in Austin, Dallas, or Houston, that Ernest Thompson will not only be a candidate when the time for announcements comes, but that several hundred active political leaders throughout the state, constituting the backbone of the forces which elected and re-elected Jimmy Allred governor of Texas, are actively at work in Thompson's behalf. It is fairly obvious that next July's primary will be a race for governor between the red-headed ex-mayor of Amarillo and Bill McCraw, the attorney general, who has been campaigning actively for months.

Campaign Strategy

Strategy of the Thompson camp is to let McCraw take the play now, and to time their own campaign for a short, intensive effort that will reach its peak at election time. Due recognition is given to McCraw's ability as a personal campaigner, but the Thompson advisers have proved to their own satisfaction in the past that organization wins elections in a state as big as Texas, and that with good organization, it isn't necessary for their candidate to address as many high school graduating classes, or slap so many voters on the back. There have been exceptions enough to prove this rule—the individual speaking campaign of Pat Neff comes most readily to

mind—but the preponderance of evidence favors the organization method.

Those close to the situation here do not believe that Gov. Allred will seek a third term, regardless of whether the legislature enacts his platform demands of more general revenue, public utility regulation and further social security co-operation by the state, at the fall special sessions. As a matter of fact, the results achieved at the regular session would indicate that the legislators will not enact this program.

As for the Ferguson third term talk, none here takes it seriously. Jim Ferguson victories have always been personal victories for Ferguson. Today, Ferguson is aged, his health impaired, and he is obviously unable to stand up under the rigors of a hard campaign under a Texas summer sun. His influence has been dissipated, and his talk now is regarded as the irrefragable response of an aged firehorse, which hears the bell ring, but can no longer gallop to the blaze.

How To Get The Money

When the special session begins next month to wrestle with the problem of raising revenue to take up the \$10,000,000 general fund deficit, another effort will be made in both houses to do something about applying existing taxes equally and fairly. The effort has been made in many sessions, and has always failed. Rep. C. M. McFarland, of Wichita Falls, best-informed house tax expert, has fought unsuccessfully in many sessions for measures equalizing property assessment, and enforcing collection of delinquent taxes. Sen. Manley Head of Stephenville plans to sponsor the fight in the senate again. Head cites figures to show the state could pick up \$400,000 annually by merely ironing out the inequalities of automobile taxation. Last year, 1,532,169 motor cars were licensed, but only 948,741 of these cars were rendered for ad valorem property taxes. On those rendered, the valuations show wide variance, so that the average value of all the cars in Texas is less than \$100 each—while in some counties, the average valuation is over \$200. Galveston-Co's average is \$208. Live Oak-Co's is \$10. Upshur-co's average valuation on its 4250 cars is about \$6 each.

Great Inequality . . .

Duval-Co lists only 81 autos on its tax records, but issued licenses to 2714. Andrews, Hall, Hill and Swisher counties failed to tax any automobile, altho 14,960 licenses were issued in these four counties. Head points out passage of a simple statute, requiring automobile owners to show they had rendered their cars for property taxation before a license is issued to them, would put nearly half a million dollars annually into the state's treasury, without imposing any new taxes.

Another classic example of inequality of valuation is in two central Texas counties where mules are rendered in one county at \$25 a head, and just across the line in the neighboring county, at \$2.50.

McFarland estimates that 11 billion dollars of property that ought to be on the rolls is escaping taxation—and that the tax yield from this would give the state enough to wipe out the state's \$10,000,000 deficit and leave 10 to 12 million dollars additional for payment of old-age pensions, without imposing a cent of new taxes, or raising any existing tax rates.

Mrs. W. E. Cloud and family spent Sunday in Christoval visiting friends who are camped there.

KNOW TEXAS

Denton, July, 30.—The difference between a horse and buggy and a streamlined automobile is not greater than the difference between Texas highways of today and those of ten years ago. Humpbacked roads, murderously slick surfaces, and deep ditches on each side of high embankments are even more scarce than the horse and buggy, and the bumpy patches are going too.

Responsible for these changes is the State Highway Department, guided by the Highway Commission. The policies formulated by these three commissioners are executed by the highway engineer, whom they select. He has the power to appoint department heads and division chiefs and serves as long as the majority of the commission votes to keep him. Gibb Gilchrist has held the post for the past nine years.

According to Harry Hines, member of the Texas highway commission, there are about 10,000 employees in the department alone, exclusive of the contractors' employees on each job. Almost all construction work on the roads is done by contractors, except on test jobs which are done by the department at frequent intervals to determine fair

prices.

Maintenance and repair work is done by state employees, however, and through experimentation and economy the cost of keeping up state highways has been cut from \$445 to \$295 a mile. The reduction of costs through improved methods is the result of work done by the department's huge laboratories, which are among the best equipped in the nation. In these laboratories every pound of material used is tested and retested for value and durability.

Two of the largest small tasks of the maintenance division are the distribution of road makers and the removal of animals killed on the highway.

ica's outstanding lexicographer. The contest is based on the assumption that "the woman of today is no longer a slave to kitchen drudgery."

"This company is interested in selecting a name that will improve the English language," Mr. Kennedy said. "We have long felt that the word 'housewife' is a misnomer. It has been worn out by advertisers and has lost its value as a word describing the average woman in the average home. But there is no word that accurately applies to the woman who conducts her home economically and efficiently while at the same time developing herself intellectually and socially."

Selection of Dr. Funk as judge assures entrants "of a competent authority on the meaning of words and should result in national recognition for the winner as well as the reward of first prize, a super-duty Frigidaire," Kennedy said.

Entries in the \$500 contest, which closes August 14, will be sent immediately to Dr. Funk. A total of 13 prizes will be awarded.

Guard Your Securities Investments

In the previous article on financing through the issuance and sale of securities, the Securities Commissioner pointed out how such financing influences various articles of trade and how it affects the employment of millions of people. It was pointed out that about eighteen million Americans are owners and holders of securities. Those eighteen million people are direct owners. As to how many of us are indirect owners of securities, no one can safely say. There are thirty-nine million owners of savings accounts in the banks of this country. Every bank that carries savings accounts invests a part of the money in these accounts in securities. You may not possess any form of paper classified as a security, but if you have a savings account in a bank you are an indirect investor in securities. There are sixty-three million owners of life insurance policies in this country. All insurance companies that write such policies have invested a part of their funds in securities. If you add the eighteen million direct owners of securities, the thirty-nine million owners of savings accounts and the sixty-three million owners of insurance policies, you will have a total of one hundred and twenty million direct and indirect owners of stocks, bonds and other classes of securities. We have not accounted for the millions who have invested funds with building and loan associations, who also may be classed as indirect owners of securities. We do not claim that there are actually that many direct and indirect owners, as one and the same person may own stocks or bonds bought direct and at the same time have a savings account or an insurance policy or both. Anyone can readily see how our daily lives are shaped by an economic system thus involved. Securities trading affects us all whether we can claim as our own anything more than the clothes we wear, the food we eat and the air we breathe. As pointed out recently in an address by your Commissioner before the American Investment Bankers Association, the value of securities affects the corner grocer, the railroad executive, the coal miner and the sheep herder. The price or groceries, transportation, coal and wool are affected by major securities adjustments. If you are one of those who observed lines of depositors standing all day and far into the night before banks in many large American cities after the stock market crash in 1929 or saw hundreds of your fellow humans standing ragged and hungry in the bread and soup lines, you know that a debacle in the market price of securities affects the whole of the people.

I have been asked more than once about the total value of outstanding securities owned by the people of this country. This question I am unable to answer. On January 1, 1936, the actual market value of stock issues listed on the New York Stock Exchange alone was about forty-seven billion dollars. The value on the same date of bonds traded in on the New York Exchange was about forty billion dollars, a total of eighty-seven billion dollars. You should remember that this is the value of securities listed or traded in on one stock exchange alone. The stocks of thousands of corporations are not listed on this exchange. Because our economic life is so greatly involved by this plan of financing, it is surprising that state and national governments waited so long to pass laws to control the issuance and sale of acts have been passed by nearly all of the states and by the Federal Government for the protection of the investing public and the fair and honest dealers in securities. Much of this legislation is in an experimental stage, yet much is being done to correct the evils that have existed throughout many years. We are on our way to a higher ground of understanding, and it is the hope of all Securities Commissioners that sensible and practical uniform state laws will be the outgrowth of past experience.

C. S. McKinney General Supt.
Preaching at 11 a. m. and 8-15 p. m.

The pastor was away last Sunday in the meeting at Rudd; but will be here in both services next Sunday, also at Rudd at 3 p. m. for the regular afternoon appointment.

We appreciate the encouraging words of appreciation of the service we are trying to render here. Let's give our souls a chance to grow. I think you will find in the services something that will help you with the problems of life—that is our aim—to be helpful—but must have you doing your part before we can be of the greater service.

You are cordially invited to worship with us.
