## On The DIVIDE

### "PAY AS YOU DANCE"

A cooler with ice water has occupied a place in the county clerk's office for some time. It looked so inviting Tuesday morning that we proceeded to indulge in a few cups of "aqua pura", and someone called our attention to a sign attached to the cooler.

"If you like to dance, please pay the fiddler," the sign read.

We guess the fiddler was out—we didn't see him and didn't hear and "fiddle music" when we drank. The only noise was a sort of growling sound as Johnnie Isaacs watched the contents of his water jug go down, down!

### ABOUT THE TAX RATE FOR THIS COUNTY

Those who are familiar with the tax rate which is levied for carrying on county's affairs, will see by the rate published this week that our county rate has been raised 5 cents over that of last year. The reason for this increase has been explained by County Judge C. S. McKinney as follows:

As you will notice the rate set last Monday is for 79 cents, whereas the rate set last year was 74 cents. A deficit in two of the county's funds has made it necessary for this increase.

Members of the Commissioners Court did away with the jury fund last year, and because of this the jury fund went in the "red" some \$900.00 this year. It was necessary to borrow money from another fund in order to pay jurymen for service on the jury. In order that this money might be paid back and have sufficient money left to care for the jury fund next year, it was necessary to levy a rate of 3 cents for this fund.

The remaining two cents increase goes to the court house interest and sinking fund. This fund was also insufficient this year to take care of indebtedness against the court house, and money borrowed from another fund to take care of this deficit. The rate on this fund was raised from 10 cents to 12 cents, and the present court believes that this amount will be sufficient to take care of this fund and at the same time pay back the amount borrowed from another fund.

Other than in these two instances, the amount of levy for carrying on county affairs remains the same as last year.

### DANGER!

There are certain bills before Congress just now that are extremely dangerous to our Democratic form of Government, under which we have produced the greatest, richest and most prosperous nation on earth.

There are six bills before Congress which, if enacted into law, would take all power from Congress and the Supreme Court, and vest it in the President, making him as absolute dictator as Hitler, etc.

Congress would have no power of money or business, and state rights would be submerged in seven regional provinces, each one ruled by an appointee (See No. 1 Last Page)

## County Valuation For 1937 Remains Same As Last Year

### CONTINUED ECONOMY TO BE STRESSED IN RUNNING COUNTY AFFAIRS

Emphasizing the fact that economy will be stressed in administering affairs of Schleicher county for the next year, members of the Commissioners Court set the property valuations at the same figures which they have set for this year.

Despite the fact that the valuations were lowered last year, these officials have found it possible, in most instances, to carry on affairs of this county at its present valuation. The only fund which this valuation provides an inadequate amount of money is the present road and bridge fund, it was stated.

"We find this valuation adequate in every respect except for the building and maintenance of county roads," Judge McKinney stated, "and we believe that raising the valuation is not the proper way to secure needed money for this purpose since such a means would disturb the other funds."

"If an attempt is made to get more money for road building and maintenance, it will be through the voting of a special tax, in which election each voter of the county will have an opportunity to vote his desires. This, however, will not be done until our setup is such as to be efficiently and economically handle the road building funds and we are certain that this money will be used and not thrown away on something which will not give us equal value for every dollar expended," Judge McKinney continued.

The valuation set aside by the commissioners court is as follows:

Horses, \$20; cattle, \$10; sheep, \$2.00; goats, \$1.00; land, average valuation per acre, \$3.00; total valuation of county, \$3,879,160.

## Tax Rates Levied By Commissioners At Meeting Monday

The following tax rates were levied and assessed by members of the Commissioners Court at the regular August meeting last Monday.

Jury fund, 3 cents on the \$100 valuation; road and bridge fund, 11 cents; county road warrants, 4 cents; general fund, 25 cents; road and bridge interest and sinking fund, 4 cents; court houses interest and sinking fund, 12 cents; court house and jail fund, 20 cents.

Middle Valley school, dist. 1, no levy; Mayer, district 2, 10 cents; Adams, district 3, 25 cents; Loftin, district 4, 25 cents; Cliff, district 5, 35 cents; Bailey Ranch, consolidated district 6, 50 cents; Kaffir, district 7, 25 cents.

A poll tax of 25 cents for each person between the ages of 21 and 60 was assessed.

An occupation tax of one-half the amount charged by the state was assessed on all taxable occupations.

Homeliness keeps some folks decent.

## Methodist Young People To Meet At Menard Institute

Next week, the Methodist young people from the San Angelo district will hold their annual institute at the Baptist encampment grounds at Menard.

A splendid and inspirational program has been arranged for this gathering, with the pastors and church leaders from this district in charge. Rev. J. W. Leggitt, pastor of the Eldorado church, will be in charge of the recreational program.

Many young people of this district look forward to this meeting with pleasure. Regular worship programs and study courses are held, and the occasion is also an enjoyable outing for all who attend. The fee for this institute is only \$3.00.

The institute will be held from Monday through Friday at noon, and Rev. Leggitt hopes that a number of young people from the Eldorado church will attend.

## Governor Allred Writes Of Vacation In Old Mexico

Under the heading of "The Rest of the Record", Governor James V. Allred gives a vivid word-picture of the many courtesies and hospitalities shown the Governor and Mrs. Allred and their party while vacationing in Mexico.

This article deals with his vacation trip, but Governor Allred plans to write other articles in which his personal views of many state problems will be given. It is the plan to continue publishing these articles in the success.

"The Rest of the Record" appears on page five this week.

## W. B. GIBSON WINS HONORS AT WASHINGTON STATE UNIVERSITY

W. B. Gibson, a former graduate of Eldorado High School, was on the honor roll at Washington State College, Pullman Washington, for the past semester of school. He is in his junior year at the college.

W. B. has been chosen to represent his fraternity at its national convention to be held in Chicago during early September. On his return to school, he will visit relatives in Ft. Worth, Abilene, and also will visit his home town of Eldorado, where he hopes to see all his former school-mates and friends.

W. B. is a nephew of A. B. (Buck) Bailey, coach at Washington State.

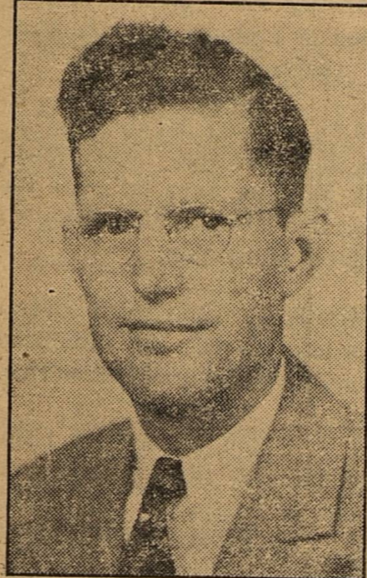

## MEN ARE LOST

It is time for us to do something about it, when we look around and see that men are lost. It is mighty bad for a man to lose his business, his health, his home, his friends, his judgement, his mind, his sense of seeing, but the most horrible thing in the world is for man to lose his soul. His soul that is immortal. His soul that must spend Eternity in hell without God and without hope.

Come to the Revival at the First Baptist Church and hear about the plan of salvation for a soul that is lost.

C. T. Aly, Pastor

## New Pastor

Rev. C. T. Aly, new pastor of the First Baptist Church of Eldorado, is doing the preaching for the revival meeting which opened on Wednesday night of this week.

Rev. Aly, who is widely known as a pastor and evangelist, is holding the interest of large crowds at each service. The revival will continue through Sunday, August 22.

## Jake Swearingen Is Elected Principal Of Grade School

Jake Swearingen of Petty, Texas, was elected principal of the grade school in Eldorado at a meeting of the school board last Monday night. Mr. Swearingen will assume his duties here at the opening of the 1937-38 session on September 6th.

Swearingen comes to the local system with several years of teaching experience, and he is highly recommended as a school man. He succeeds William Lazebny, who recently resigned to accept a position with the Shawnee, Okla., schools.

Jim Pruitt, school janitor, treated members of the school board to chicken supper at this meeting.

## FUNERAL HELD SUNDAY FOR FATHER OF FORMER SCHLEICHER CITIZEN

Funeral services for L. B. Boyd, father of Blair Boyd, former citizen of this county and owner of the Rocking Chair Ranch, were held Sunday in Redlands Calif.

Mr. Boyd resided in Redlands during winters. He died at his home in Hillsboro, Ohio. He was president of the internationally known S. C. Bell Co., manufacturers of bells and chimes.

## GODWIN RECEIVES FORAGE ACRE FACTOR FOR THIS COUNTY

Ranchmen who have entered the 1937 range conservation program will welcome the news that the "forage acre factor" for this county has been set. County Agent Godwin received this information Wednesday.

The factor for this county is three and one-half acres per animal unit.

This will enable all Schleicher county contracts to be completed and forwarded to the state office for approval. Ranches will be checked for compliance at a later date.

A good way to attract attention—use the horn instead of brakes.

## Revival Meeting Opened Wednesday At Baptist Church

### LEADERS EXTEND INVITATION TO ALL CITIZENS TO ATTEND MEETING

The revival meeting opened at the Baptist church on Wednesday night of this week, with a good crowd attending this initial service. Services are being held twice daily, at eleven o'clock each morning and at eight o'clock each evening. In speaking of the meeting, Rev. C. T. Aly, pastor, said:

"The First Baptist Church extends a hearty welcome to everybody to attend this revival."

"It is believed that the music, conducted by Rev. J. E. Bagley, pastor at Charlotte, will stir the hearts of every person who will attend the services."

"The evening services are being held on the church lawn at eight o'clock. Much preparation has been made for a great revival. God wants to give us a revival. We need a great revival, and we can ask for a revival and get it, so let us each call on God for a revival that will be a blessing to every home and reach every heart for God."

## KNIGHTS LEAVE FOR GREENVILLE HOME

Mr. and Mrs. Clarence Knight and son, Noel, left Thursday morning for Greenville to make their home. Mr. Knight will be employed by the Clem Lumber Co., having supervision over some seven or eight yards.

Forrest Alexander has purchased the Knight home in Eldorado and will move into the home about September 1st.

## Short Course At A. & M. College To Be Cancelled

### CANCELLATION COMES AS A RESULT OF INFANTILE PARALYSIS

A telegram received Wednesday by W. G. Godwin, county agent, from the Extension Service at College Station, advised that the annual A. & M. Short Course, which was scheduled for August 16-19, has been cancelled.

This news will be a disappointment to the several people of this county who had planned to attend the Short Course. It was not stated whether or not the Short Course would be held at a latter date, but officials asked that all citizens of this county be notified of the cancellation.

Because of the fact that infantile paralysis is prevalent in many sections of the state, the State Health Officer stated that it was not advisable to take so many youngsters to the Short Course, at least until this disease has been brought under control. Acting upon the advice of the State Health Officer, Short Course officials decided to cancel this annual meeting.

## MEN'S BROTHERHOOD MEETS MONDAY NIGHT AT BAPTIST CHURCH

Members of the Men's Brotherhood of the Baptist church held their regular meeting in the church basement last Monday night.

The meeting was opened by a short devotional, led by W. O. Alexander. A male quartet composed of R. O. Smith, Aaron Eugar, W. T. Whitten, and Rev. C. T. Aly sang two numbers: "Let the Lower Lights be Burning" and "Somebody," after which the men were invited to a supper of hamburgers, coffee and watermelon.

Interesting talks on phases of Christian Education were given by W. O. Alexander, who was in charge of the program, Kenneth Green, George Williams, Jr., and Rev. C. T. Aly.

About twenty men were present for this meeting.

## SCHLEICHER, TOM GREEN COMMISSIONERS MEET TO ESTABLISH COUNTY LINE

Members of the Schleicher county Commissioners Court went to San Angelo Thursday to meet with the Tom Green county court for the purpose of establishing the county line between these two counties.

This line has been in dispute for years, and this has caused considerable mix-up in tax renditions each year.

Both courts were to approve of one survey, which will be passed on by the Land Office and established as the permanent line. There are several surveys which are claimed as the county line, but none of them have been approved by the state.

The result of this meeting Thursday had not been learned at press time.

Mrs. J. E. Tisdale and Celeste, and Mr. and Mrs. Vester Hughes and family of Mertzon left Thursday for a trip to Yellow Stone National Park.

**STRANGE MEDICINES**

Probably no science has been evolved from a greater mass of early superstition than that of medicine. Still, it is said that some of the oldtime prescriptions may possibly have had a certain curative value although appearing ridiculous at first glance.

A recent writer declares that the broth of red ants was once used for intestinal disorders, and that modern research finds that the formic acid in ants is a strong antiseptic, which may have killed intestinal germs.

Some believe that the sting of bees and wasps relieve rheumatism. These insects also secrete formic acid, the injection of which through the "stinger" may possibly have a beneficial effect.

Baked toad, ground to powder, was used by the Greeks as a remedy for heart disease. Chemists find that there are certain alkaloids in the skin of a toad which act as a heart stimulant.

Some other old alleged remedies have not yet been satisfactorily explained, however. Among the innumerable ones may be mentioned tying a pickled herring to each leg for dropsy; eating a dried and powdered magpie for epilepsy; carrying a buckeye in the pocket or sleeping with a black cat for rheumatism; various incantations for the removal of warts and so on.

Considering the mystery which formerly surrounded most diseases, it is not surprising that equally mysterious remedies have been suggested and applied. And while we have made amazing progress in medicine and surgery, the highest skill is still baffled by a few maladies that have

been studied since the dawn of civilization.

**ABOUT THE WEATHER**

Recent hot spells in various sections of the country naturally have revived comparisons or heat with conditions of former years. In the United States the hottest spot on an average is a place in Death Valley, California, named oddly enough Greenland Ranch, where on July 10, 1910, the temperature rose to 134 degrees.

The record for cold in this country is held by Miles City, Mont., where the mercury sank to 65 below zero in 1888.

Higher and lower temperatures have been recorded in Africa and Siberia, respectively, although Death Valley's high marks within two degrees of the Azizia, Tripoli, in 1924.

Some interesting cases of excessive rainfall and snowfall have been noted by the United States Weather Bureau. The hardest rain ever recorded was at Ophid's Camp, in California, where an inch of rain, equivalent to 115 tons of water per acre, fell in one minute on April 5, 1926. At Porto Bello, Panama, 2.47 inches of rain fell in three minutes on May 1, 1908. The heaviest snowfall ever to occur at a place equipped for accurate observation was 25 inches in 24 hours at Washington, D. C., in January, 1922.

The most equable and pleasant climate in the United States, and perhaps in the world, is enjoyed by Key West, Fla., where the temperature has never gone above 100, nor below 41 above zero. Its average for January is 70 and for July 84. Even in the heat of summer this island city is relatively cool, being fanned by breezes from the Gulf of Mexico which seldom fail when they are needed.

Deloss Wilke, farmer of Kearney, Neb., has trained a cow to dance, take bows, balance on small boxes, cross front and rear feet, sit down, smoke a cigar, lie down and snore.

Harry Woodhead, steel man of Cleveland, has a collection of 160 different pipes which he smokes in rotation at the rate of 10 a week, completing the circuit in 16 weeks.

**LOCALS**

### Jack Ratliff And Roberta Milligan Are Married On Saturday

Two well known young people of Eldorado were united in the holy bonds of matrimony when Jack Ratliff and Miss Roberta Milligan were married at ten o'clock last Saturday morning. The wedding was performed at the home of the bride's parents, with Rev. J. L. Ratliff, father of the bridegroom, performing the ceremony. Only members of the families and a few close friends attended the wedding.

Mrs. Ratliff is the daughter of Mr. and Mrs. Robert Milligan, well known citizens of this coun-

ty. She is a graduate of Eldorado High School and also a graduate of Texas University, receiving her degree in education there last spring. Mrs. Ratliff was an honor student at the University for the entire term last year.

Mr. Ratliff, who is a son of Rev. and Mrs. J. L. Ratliff, is also a graduate of Eldorado High School. After completing his high school work, he attended Baylor University for one year and Hardin-Simmons University at Abilene for a year. He was in the insurance business at Crane for several months. Jack is now employed by the Western Mattress Factory of San Angelo, being stationed at Brady, where the couple will make their home.

### Newlin Family Holds Reunion At Eldorado Home

The home of Mr. and Mrs. E. E. Newlin was the scene of an enjoyable family re-union last week end, with all the children present.

Those present were Mr. and Mrs. J. C. Wells, of Shreveport, Louisiana, Mr. and Mrs. E. E. Newlin, Jr., of McCamey, Mr. and Mrs. Henry Hunt, of San Antonio, Mr. and Mrs. Frank Buckaloo and family, of San Antonio, Mr. and Mrs. O. C. James, Mrs. F. J. Logan and son, and Mr. and Mrs. E. H. Sweat, all of Eldorado.

All members of the family enjoyed this get-together, the association with loved ones and reviewing many incidents of their childhood.

### Connally Seeks Loans For Cotton Farmers

Washington, D. C.—Senator Tom Connally addressed the Senate last week in an effort to obtain loans for farmers on their cotton; such loans to permit the farmer to hold his cotton for a better price, yet have funds to pay his obligations.

Believing that the power for the making of such loans existed and should be exercised, Senator Connally said, "The Commodity Credit Corporation not only has the authority, but has the money with which to make the loans. The loans ought to be made, not next year, but now; not in October, but now, because now is the time when there is need for them."

"The theory back of the loans provided for has been to make the loans at such figure as would tend to stabilize or flatten out that price over the whole year rather than to force the farmer to take the very low price which he has to take when he sells his cotton, because at that time he is in debt and wants to meet his bank payments and pay the doctor, and perhaps the preacher, and settle his store account. He has to meet his payment, and the only way he has of meeting is to sell his cotton, and sell it immediately."

When discussion arose of returning to Washington in the fall to enact a general farm bill, Senator Connally stated, "It will be entirely agreeable with me to come back in October if the Agriculture Committees of the two Houses have a farm bill ready at that time."

Senator Connally signed a petition circulated in the Senate which urged a special session of Congress in October to consider a farm bill.

During his remarks Senator Connally stated that the Agricultural Adjustment Act had aided in raising the price of cotton, but that the reduction of the gold content of the dollar did more to raise the price of cotton than all the other legislation enacted. Senator Connally was the first member of the Senate to advocate reduction of the gold content of the dollar, urging that ac-

tion in Congress a year before the Administration took that step.

### MRS. STUART IS HOSTESS WITH BRIDGE

Mrs. L. L. Stuart entertained a group of friends at her ranch home at ten o'clock Tuesday morning with a luncheon. Mrs. H. T. Finley won high score, Mrs. N. R. Kennedy won 2nd high, and Mrs. H. W. Wiedenmann won high cut prize.

Those present were Mrs. A. P. Bailey, Mrs. Seth Ramsey, Mrs. Ed Reynolds, Mrs. Billie Cooper, of Cisco, Miss Cleone Dabney, Mrs. Jim Hoover, Mrs. Wiedenmann, Mrs. Luke Thompson, Mrs. Finley, Mrs. Georgia Brittan, Mrs. G. C. Crosby, Mrs. J. W. Lawhon, Mrs. C. C. McLaughlin, Mrs. Kennedy, Mrs. Leslie Baker, and Miss Agnes Wright.

Mrs. Grover Hale and daughters, Jimmie and Pauline, have returned to their home near Vernon. Mrs. Hale visited her sister, Mrs. J. W. Leggett, here last week.

Mrs. Tom Smith is visiting her daughter, Mrs. Mildred McCollum, at Marfa. Mrs. McCollum has been seriously ill, but is reported to be greatly improved.

D. 1937, being the 20th day of September, A. D. 1937, then and there to answer a petition filed in the said court on the 24th day of July, 1937, file number of which is 576, in which suit, E. L. Knight is Plaintiff, and E. H. Oliver and his devisees, legatees, assigns, unknown heirs, and legal representatives, are Defendants, the cause of action being alleged as follows:

The Plaintiff, E. L. Knight, who resides in Lampasas County, state of Texas, alleges that on or about the first day of January, A. D. 1937, he was lawfully seized and possessed of the following described land and premises, holding and claiming the same in fee simple, to-wit:

That certain Bexar Preemption No. 8338, Abstract No. 724, of 160 acres, in Schleicher County, Texas, patented to E. H. Oliver, which patent is recorded in Vol. 1, page 8 of the Patent Records of Schleicher County, Texas, which record is here referred to for full description, said tract being adjacent to said Sections 74 and 75; and that on the day and year last aforesaid the Defendants and each of them unlawfully entered

upon said premises and ejected Plaintiff therefrom and wholly withhold the possession thereof to his damage in the sum of Five Hundred (\$500.00) Dollars, and that the annual rental value of said land is Fifty (\$50.00) Dollars per acre.

The Plaintiff further alleges in said petition that he is the owner in fee simple of said land having obtained title thereto by limitation under the laws of the state of Texas as well as from the sovereignty of the soil, as follows:

By having had and held peaceable, continuous, and adverse possession under title and color of title from and under the state of Texas for more than three years immediately preceding the first day of January, A. D. 1937, and before the commencing of this suit; also claims title under a duly registered and recorded deed and peaceable, continuous, and adverse possession of said land, cultivating, using, and enjoying the same, paying taxes for a period of more than five years next preceding January 1, A. D. 1937, and before the commencing of this suit; and also alleges that Plaintiff has had and held peaceable, continuous, and adverse possession of the said land described above, cultivating using, and enjoying the same each year for a period of more than ten years next after any cause of action accrued and before the first day of January, A. D. 1937, and before the commencing of this suit.

WHEREFORE Plaintiff prays citation issued to each of the above named Defendants commanding each to appear and answer the petition, praying judgment of the court as follows:

(1) Divesting each and every one of the Defendants of all title in the above described land, investing such title in Plaintiff:

(2) Cancelling and declaring null and void any claim of title by Defendants.

(3) Judgement for title and possession of said land and Plaintiff have a return of restitution.

This action is brought as well to try the title as for damages."

You are commanded to so summon such Defendants and to serve this citation by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some news paper published in your county; but if there be no newspaper published in said county then in any news-

paper published in the nearest county where a newspaper is published.

Herein fail not, but have you before said court, on the first day of next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness John F. Isaacs, clerk of the district court of Schleicher County Texas.

Given under my hand and the seal of said court in the city of Eldorado, Schleicher County, Texas, this the 24th day of July, A. D. 1937.

SEAL: John F. Isaacs, Clerk of the District Court of Schleicher County, state of Texas, issued this 24th day of July, A. D. 1937.

John F. Isaacs, Clerk of the District Court of Schleicher County, Texas.

### PAIN

Get rid of it

When functional pains of menstruation are severe, take CARDUI. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance. Get a bottle of Cardui and see whether it will help you, as thousands of women have said it helped them.

Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from their food.

**NOBODY'S BUSINESS**  
BY JULIAN CAPERS, JR.

Austin.—The courts took a hand, and the legislature indicated it would do so next month, in the political controversy raging over the \$22 per capita school apportionment this week. Hearing on an injunction issued by the district court at San Antonio, forbidding the state board of education to reduce the per capita apportionment below the \$22 figures set last month, was scheduled, with Atty. Gen. Bill McCraw in a warm spot politically. By law, McCraw must represent the board, and oppose making permanent the injunction; but a majority of the board, led by Ghent Sanderford, Ferguson appointee, doesn't want to do what the injunction forbids the board from doing. So McCraw has worked out what he considers a nice solution. He will tell the court that the injunction can not legally lie, and should be dissolved; but he will reassure the school lobby at the same time, but declaring the reason it should not stand is because the board can not legally act to change the apportionment after Aug. 1, and because schools have already contracted obligations based upon the \$22 figure, and these obligations can not now be impaired. McCraw declared he believes present tax revenues will yield sufficient to pay the full \$22 apportionment, anyway. If they do not, then the deficit re-

sulting will be chargeable against next year's per capita apportionment, and this appears to be the sole actual difference between the conflicting actions taken by the state automatic tax board, and the state board of education.

**Political Implications**

But however small the actual difference between the two boards, the controversy has stirred a political cyclone. L. A. Woods, the state superintendent of education, up next year for reelection to a fourth term, has taken the stump and is making speeches all over Texas, lambasting Allred and Comptroller George Sheppard for reducing the ad valorem tax rate, charging the schools have been robbed by the "big interests." Allred, leaving for his Mexico City vacation, fired a blast in the form of a spirited written defense of himself and Sheppard, which he sent to every weekly newspaper in Texas, with a promise of more to come later. Meanwhile, the senate committee seeking better supervision of rural aid distribution, met with the board of education, and heard two members R. S. Bowers of Caldwell and Ben F. Tisinger of Dallas, caustically criticize Woods' action, charging him with being "derelict in his official duty," and rewrote 16 sections of the regulations to remove any possibility of "pressure" being put on the assisted rural schools to buy unnecessary phonographs and other equip-

ment as a predicate for receiving aid grants.

**Montgomery Named**

Julian Montgomery, lauded throuthout the state by his colleagues as one of the most capable engineers in Texas, will become chief highway engineer Oct. 1, upon retirement of Gibb Gilchrist, who becomes dean of engineering at A. & M. college. Montgomery who headed the PWA setup in Texas—the government work-relief organization operated by Ickes, which got something permanent in the way of improvements for every dollar it spent—has been the final authority on expenditure of many millions of federal money in Texas, sums comparable with the millions the highway department uses to build and maintain roads. Incidentally, his appointment was forecast in this column two weeks before it occurred, ahead of any daily newspaper in Texas, and while one of the leading dailies was declaring him eliminated and not being considered.

**Another Forecast**

To be state pension commissioner, administering the firemen's pension law enacted by the regular session of the legislature, H. B. Satterfield of Lufkin, is named by those on the inside as Gov. Allred's choice, with the appointment to be made soon after the governor returns from his Mexico City visit.

**Governor Isbell Serves**

From Rockwall, tiniest county in Texas, this week came a new governor of Texas—Claude Isbell, genial and popular state senator. Isbell served by reason

of his being president ad interim of the senate. With Gov. Allred in Mexico, Lieut. Gov. Walter Woodul paid a visit to Oklahoma, where he taught school 20 years ago, and Isbell automatically became Texas No 1 executive during his absence. More than 100 friends and colleagues gathered at a hotel dinner to pay tribute to Gov. Isbell and his charming wife, with ex-Sen. George Purl of Dallas (who may try a comeback next July) presiding as toastmaster.

**NOTES**

To Palacios, for intensive training at the national guard camp this month, were to go many political and business notables including Chairman Myron Blaylock of the state Democratic committee, Col. Ernest C. Thompson of the railroad commission, Secy. of State Ed Clark To Big Spring, as the best location, went the new \$2,500,000 state insane hospital authorized by the regular session this spring. It will house 540 patients and relieve county jails of insane patients which existing insane hospitals can not accommodate. Improvement in conditions on Texas prison farms, where wholesale escapes and other unsatisfactory incidents have occurred recently, is expected by state officials, following appointment of Dr C. W. Butler Jr of widely known Texas newspaper publisher of Kennedy, as chairman and board member, respectively Chesnut, former president of the Texas Press association, has written this column that he "hopes to be able to render a real service to Texas" in the new post. To Sen. and Mrs. Grady Woodruff of Decatur were born

twins—a boy and a girl—at Seaton infirmary, in Austin. They are the couple's first-born.

**New Battery Sets Have Improved Tone And Power Output**

More distant stations, better tone quality, lower battery drain, greater volume and more attractive cabinets are among the many improvements included in six new battery-operated instruments which have just been received from the great RCA Victor laboratories at Camden, N. J., by E. C. Hill of the Eldorado Hardware Co.

The now famous Magic Brain mechanism which has revolutionized AC radio reception has been incorporated in two new six-tube farm radios designed for battery operation. This ingenious electrical unit acts with an almost human intelligence in bringing in more distant stations with greater volume and rejecting interference. All of the new receivers incorporate supersensitive permanent-magnet dynamic type loudspeakers with dust screens that protect the sensitivity of the peaker throughout the life of the radio set. They all have large, easy-to-read dials and the five and six-tube models have dials with the stations marked by name for more convenient tuning. The higher-priced instruments have a unique save-the-battery dial—the pilot light goes on when you tune and automatically goes out to save battery drain as soon as the hand leaves the knob. These latter radios also have a 20-1 gear drive ratio for greater accuracy with slow speed tuning and a new venier pointer to help locate closely spaced short-wave radio stations.

Permanent factory alignment and adjustment of the radio circuits is assured by the use of the new RCA magnetite core transformers and air trimmers which are impervious to temperature and atmospheric change. All RCA Victor farm radios have an advanced type of automatic volume control which brings in both the strong and weak signals at substantially the same volume and reduces fading and annoying blare while tuning and listening. The same engineers have also developed an inexpensive record-playing mechanism scarcely larger than a cigar humidor

which when connected to either the five-tube or six-tube farm radios will reproduce records electrically.

There is a new four-tube table model farm radio designed for 2-volt and another for 6-volt operation. These two radios have already established a reputation for exceptional performance for so economical a set. The other models include five-and six-tube instruments of the table and console types, all housed in cabinets of attractive wood veneers. All of the five-and six-tube RCA Victor farm radios may be easily converted from 2-volt to 6-volt storage battery operation by employing an inexpensive Pak-O-Powr unit.

**"THE REST OF THE RECORD"**

BY JAMES V. ALLRED  
Governor of Texas

SAN LUIS POTOSI, MEXICO, August 7, 1937.

In Texas we boast of our southern hospitality; in Mexico, the people don't boast of it; they live it! From the moment when Mrs. Dominguez, wife of the Mexican vice-consul at Laredo, presented a beautiful bouquet to Mrs. Allred as we crossed the international boundary until now, I have never witnessed such courtesy, such hospitality as has been extended to us on every hand.

As I told you last week, the Mexican Government invited us to be their guests, even furnishing transportation over the railroad. We have now passed through the capital cities of three Mexican states and at each one great crowds, including the Governor, the Mayor, representatives of the military and the business men have met us at the station with a band, presented beautiful bouquets to Jo Betsy (my wife), and given us the very best of entertainment as long as we were with them. Of course we realize this is an honor they are extending not to Jimmie Allred, but to the Governor of Texas; and that's why I'm prouder than ever before of the high honor the people bestowed upon us.

We spent one day at Monterrey, capital of Nuevo Leon. It is

quite modern and somewhat Americanized. We saw many Texas people there, most of them tourists, of course. We visited one of the most beautiful and modern hospitals I have seen anywhere, the gift of a fine old Mexican gentleman, a Mr. Muguerza. One of the finest glass factories in the world is located in Monterrey. It is almost unbelievable to see how they melt sand in furnaces, then drop it in red-hot pieces into various kinds of moulds where it is shaped as it cools into bottles, vases, pitchers, plates and glassware of every character. As I watched this preparation put through the burning fire, yet emerge fine-spun and clean and beautiful, it made me wonder if sometimes human beings aren't put through a torturing, searing fire—a great sorrow, for instance—that they emerge, tested and tried, a finer, cleaner character.

American money is of course, more than Mexican money. You exchange one dollar American money for \$3.60 Mexican. I got \$36.00 in Mexican bills and silver for a ten dollar bill. It made me feel quite "flush" to have so much money in my pocket. I owed Jo Betsy ten dollars when we left Texas so I paid her the same amount in Mexican and still had \$26.00 left. Your money seems to go farther here, everything is considerably cheaper.

Our next stop was Saltillo, once the capital of Texas when we belonged to Mexico. It is a beautiful little city of 60,000, nestling a mile high in the mountains, nice and cool in the daytime and almost chilly at night. I was surprised to find it quite an educational center. They have just started an experimental agricultural school there, trying to teach the sons of farmers to whom the Mexican Government has recently given lands the practical side of farming, stock raising and dairying. It is remarkable to see how these people, who were torn by revolution and war less than twenty years ago,

**LET THE SPARKS FLY WHERE THEY WILL**

have progressed; and how hard they are trying to better conditions for the underprivileged classes here.

We have met many wonderful people here, some of them educated in Texas. On every hand were evidences of culture and refinement—a wonderful art gallery, fine school buildings and music everywhere. The people are overly friendly. They are completely wedded to the "Good Neighbor" policy of President Roosevelt; they love him almost as much as we do and they adore their own President, Lazaro Cardenas. I felt like saying in Saltillo, "Thank God for a people with friendship in their hearts and music in their souls."

As you perhaps know, a fine new highway has been completed all the way from Texas to Mexico City. It is wide open, a marvelous drive and perfectly safe. Since things are so much cheaper, I want to suggest to all of you who can that you make plans to spend a vacation down here some time in the future. You will enjoy it. My wife's mother and my oldest son, Jim Boy are with us, and they, too, are having the time of their lives. Like every other boy of his age, Jim Boy is full of curiosity. He has been all over the train to find out how things work, turn-

ing off lights, turning on water, etc., but he is a little timid about scouting around these Mexican places much.

The Mexican Government sent consul Dominguez from Laredo with us, and the American Government ordered Bill Blocker, our consul at Monterrey to accompany us throughout our stay. They have insisted on us staying at the American Embassy in Mexico City, so we are looking forward to a grand time this week. I'll try to have something more interesting to tell you next week. "A DIOS"!

**Contest To Find Name For "Housewife" To Close Saturday**

Abilene, Tex., Aug. 10.—Today's public prefers old wines to new wines, old habits to new habits and old lace to new lace but also old words to new words, according to Dr. Charles Earle Funk, New York dictionary-writer and author.

In a letter to Gene Elo, advertising manager of the West Texas Utilities Company and contest editor of that company's "name-a-housewife" contest, Dr. Funk, who is to be the final judge declared:

"I do not anticipate receiving any new term that will receive general adoption. Such has been our experience. There may be the most logical reason in the world for dropping a term that no longer meets current conditions, and the replacement term may meet every requirement, but the public, usually, will cling to the old. If it is catchy, that elusive quality—it may appeal to the popular fancy."

The service company began the campaign for a substitute name for "housewife" early in July. The contest closes August 14. It was claimed that "women are no longer slaves to kitchen drudgery" and should have a name which denotes "companionship in the home and demo-

cracy in human relations."

Entries thus far, Elo said, "have been far from original." Most of them, he added, are based on "home manager," "queen of the home," "home hostess" and similar titles. One entry was "Joy Girl."

Elo admitted that "the average person is a poor hand at inventing new words", an opinion shared by Dr. Funk who said:

"Although I shall endeavor to base my selection upon relative merits, considered by utility, structure, applicability (or popular appeal), I am not anticipating that I shall be able actually to indorse any term that may be submitted. In fact, there is every possibility that none of the terms submitted may be worth a tinker's dam."

Despite Dr. Funk's pessimism, Elo said "probably a dozen entries so far have real merit and they are improving as contestants obtain a better knowledge of the goal in the contest."

**New England Folks Visiting Sheep And Goat Country**

Fort Worth.—Dr. and Mrs. A. J. Warren, of New London, Connecticut, who visited the Natural Resources Exhibit of the West Texas Chamber of Commerce at the Fort Worth Frontier Fiesta recently, expressed amazement at the magnitude of the wool and mohair industry of

West Texas.

When shown that the 10,000,000 pounds of mohair—80 % of the United States' supply—produced this year had brought an average of 37c, they made some rapid calculations on the back of an envelope, adding to the above information the fact that there were nearly 5,000,000 goats and kids on the West Texas ranges and better than 6,000,000 sheep and lambs.

Dr. and Mrs. Warren are revising their schedule and will make a leisurely swing through the sheep and goat country as far south as San Antonio before returning to their New England home.

of the President.

I believe Roosevelt is honest and is doing what he thinks is best for the country, and as long as he is in office he will use his power. This is just the way tyranny creeps up on a nation. The people trust a great and good man and clothe him with power. All is well until he passes out, and his successor steps into that power and proceeds to abuse it.

Roosevelt is only mortal, and even if he should remain in office, he cannot live forever. Who knows who his successor will be, or what use he will make of his power?

We may need some changes in our government, but this is a Democracy and the changes should come through the one hundred and thirty million citizens, the medium of the constitution. Write your congressmen, protesting against these rash dangerous measures.

F. G. Clark.

**Cowboy Band On 2 Weeks Engagement In Mexico City**

Abilene, Aug. 10. After spreading the cordial sentiments of Texas throughout northern and central Mexico, the famous Cowboy Band of Hardin-Simmons university opened Friday, Aug. 6, in Mexico City's largest and most renowned showhouse—the Alameda Theatre—for a two weeks engagement.

Since beginning their goodwill and educational tour as special guests of the Mexican government July 18, the West Texas collegians have played in Nuevo Laredo, Monterrey, Saltillo, Tampico, Anawauk, El Monte, and intermediary points before reaching Mexico City.

Packed houses have heard every performance and the Cowboys' peculiar rendition of all types of music has proved especially popular to Mexican audiences, according to reports from various points along the tour route.

Thirty musicians, accompanied by M. B. McClure, director, and G. B. Sandefer, business manager, are making the trip. A group of Texas tourists are also in the goodwill party.

Mexico is the eleventh foreign country that this popular band has played in since in organization fifteen years ago. Before beginning their foreign tour this summer, the Hardin-Simmons group also played for the North Dakota State Fair and International Peace celebration held at Minot, N. Dak.

They are expected to return to Texas about Sept. 1.

Hoping to gain new ideas and experiences to take back to the women of her country, Miss Alicia Lopez Ibarburu of Montevideo, Uruguay has applied for and been awarded a scholarship at Texas State College for Women this fall. A pioneer in physical education for the girls of Uruguay, she wishes to gain more preparation for the work. In her application she expressed a desire that "the traditional generosity and hospitality of the United States can give me and my fellow women this opportunity which will mean so much to the development of women in society and to the creation of tighter relations between our countries."

**PARENT-McKEE SUIT IS TRIED TUESDAY IN COUNTY COURT**

The suit of Bill Parrent vs. W. F. McKee came up for trial in County Court last Tuesday, a suit for damages in which McKee filed cross suit. Evidence in the case showed that the suit came out of a trade in which McKee was alleged to have sold a farm to Parrent.

After all evidence was heard, the case went to the jury at 9:05 Tuesday night. After being out 2 hours and 45 minutes, the jury rendered a decision awarding Parrent \$50 damages.

Jurymen were Perry Johnson, foreman; F. M. Bradley, T. H. Alexander, J. F. Faight, Will Isaacs and Bud Kerr

**Dangerous.**

Illness, or sickness, is always dangerous. It may not be serious, but the element of danger is always there.

When illness threatens, call your physician, and call him at once. Then—when he issues you a prescription, be as careful where that prescription is filled as you were to call your physician.

We have always tried to make this store a highly efficient pharmacy to Eldorado. Our prescription stock is always fresh and complete.

It is always a relief and a comfort to know that you have a competent druggist in case of illness.
