THURSDAY, JANUARY 8, 1953

NUMBER 2

University Well Being Drilled In Today

TAKES OFF

The Pan American pipe line from getting under way in full blast.

ection of Tom Herriage, foreman, took off from the Eldorado station yesterday.

The right-of-way crew started on this job over a month ago. Since then other crews have been stringing pipe and digging the trench,

35 men employed; now with all the pressure ranged from 825 to 2400 ed that there are about four times minutes was 2850 pounds. that number. The line will now be

From Eldorado the various crews are using the Arthur Faull feed building as headquarters.

Pan American gathers crude oil in Scurry, Borden and Howard counties, and has been transporting this oil through a ten-inch line 80 miles long to Irion county. With construction of the Rancho 24-inch line, Pan American decided to build a 16-inch line from the Irion terminal, to Pan American's Concho Station, beside the Bailey Station near Eldorado.

In answer to the oft-heard question "When will the new Rancho Line be in operation," there is no efinite answer except that about crews are working this way from probably true that the line will be 15 minutes was 1350 pounds. completed before the stations are ready. Of the three, the McCamey and took a drillstem test from 4071 station is farther along than the to 4116 feet. Tool was open two

When the Rancho is in operation

In a regular meeting of the Eldorado school board Tuesday night the resignation of Mrs. Marie Welsh Jager was accepted, effective January 16th.

Miss Waldine Midgett was elected to fill Mrs. Jager's place. Miss perforations in casing at 6351-367 terviewing teachers. Midgett is a graduate of North Texas State College of Denton. having taught for the past two gallons of acid. Location is 467 feet years at Muenster, Texas.

Miss Mary Frances Clark has been elected to fill the vacancy of abstract 663. Miss Allgood. Miss Clark has a degree from Texas Wesleyan College of Fort Worth with a major in English, needing only 9 hours stepout to production on the southhaving her Masters Degree. Miss west side of the Neva West (Penn-Clark has had one year's experience in the Fort Worth schools.

LEGION MEETING

The regular meeting of the Bev will start at once. are requested to be present.

Schleicher County Oil News

As Of January 6th By James Watson, Midland

The Schleicher County oil picture rightened this week as two possible discoveries were reported.

Sinclair Oil & Gas Company No. 1-101 University, rank wildcat in the local station to Arden — a the west-central portion of the the local station to Arden — a distance of some 40 miles—is now county, and Weiner, et al No. 1-13 Williams, rank wildcat in the The lowering crew, under the dired discoveries.

surfaced in five minutes. No oil flowed out at the surface. Recovery and just lately the welding, wrap- was 7100 feet of free, 39-gravity ping and painting crews went or oil and no water. Gas-oil ratio was The job started out with about 500-1. Open flowing bottomhole operations under way it is estimat- pounds. Shutin pressure after 15

Operator set 51/2 inch casing on completed at the rate of about one forate and test at last report. The Ellenburger was topped at 7782 lime. feet, ground floor elevation 2510.

Location is 660 feet from south At the south side of the Hulldale and east lines of section 22, block field, Sinclair No. 2 McClatchey, 54, University land survey and 16 miles northwest of Eldorado.

Ted Weiner, et al No. 1-13 Williams found indications of possible production on a drillstem test in hole below 433 feet. the top of the Canyon sand from 4076 to 4096 feet. Tool was open two hours and 45 minutes. Gas surfaced in one hour and 35 minutes. No fluid came to the top while feet from east line of Sec. 81, block the tool was open.

Recovery was 275 feet of clean oil and 315 feet of slightly oil and 35 miles of construction remain- gas-cut mud. No formation water was present. Open flowing bottom-Austin, and will meet the crews hole pressure was from zero to working the other way. It is also 280 pounds. Shutin pressure after

Wesley W. West will dig No. 9 Christena Mittel as a southwest stepout to production on the southwest side of the Neva West (Pennsylvanian) field of north central Schleicher County. Drillsite is 1903 feet from south and 2650 feet from east lines of section 77, block TT. TC survey. Drilling to 7100 feet will start at once.

Drilling activity has stepped up proven oil fields, cause people in this city to expect big things in the city during the holidays and with a bang.

There is pipeline work under way there has been working on water lines to the Jack Shugart apartment house, is also running lines to a with a bang.

There is pipeline work under way the carry in the Keeney addition. The Bailey Station is still under a premium. Local residents are providing new rental units and a providing new rental unit

County, was drilling below 3467 of the steady growth of the county's

Production Possible By Midnight

Information received at the Sinclair University well at 7:30 this (Thursday) morning, indicated that there were 16 more hours of work before a production test would be made on this Schleicher County Ellenburger prospector.

At that time the well was being circulated to recondition the mud. Part of the cement had already been drilled, but it was estimated that five more hours of drilling would be required to drill the remainder. After that circulating would be resumed and the mud would be displaced by ages of children, young people and Secret What God Can Do," by a water. Then all the drill stem would have to be stacked adults, spent the evening singing, layman from West Side Baptist and swabbing operations rigged up. All told—about two states. and swabbing operations rigged up. All told-about two 8-hour shifts required.

Sinclair No. 1-101 University developed Ellenburger oil on a above the pay zone—there will be no perforating. If the drillstem test from 7965 to 8045 well proves to have as much pressure as everyone expects, it will come in by swabbing.

Lots of visitors are expected at the well around midnight tonight.

How to Keep Your Telephone From Being "BUSY"... Doing Nothing

Always replace your receiver carefully. If your receiver is not replaced properly your telephone is just as "busy" as if you were actually using it. This is equally true on a party line and private line. Calls can't come in to you—and, if you're on a party line, your neighbors can neither make nor receive calls. So please try to hang up carefully, and see that your telphone receiver is always properly replaced. It means better service if you do.

Howard Stephenson's Mother Dies Monday

Mrs. Claude C. Stephens of Junction, mother of Howard Stephenson of this city, died at 2:40 Monday morning in San Angelo, less than four hours before the death of her sister Mrs. Sarah Louise Kingsburry, 83, of San Angelo.

Funeral services were held for Mrs. Stephenson Tuesday morning at 10:30 at Johnson Funeral Chapel, conducted by the Rev. J. A. Pietsch pastor of the Calvary Lutheran Church. Interment was made at Junction.

A native of Gillespie County, she was married to Mr. Stephenson in 1907. The family lived in New Mexico, for 12 years, and ranched n Concho, Menard and Schleicher Counties. In 1946 the couple went to Junction to operate a tourist court and Mr. Stephenson's death occurred there three years later. Mrs. Stephenson continued to operate the courts until the time of her illness.

Surviving are two sons, a daughter, two sisters, a brother and four grandchildren.

Attending the funeral from Eldorado were Don McCormick, who was one of the pallbearers, Mrs McCormick, Mr. and Mrs. Roy Boyer, the Howard Stephenson family and Mr. and Mrs. Ray Boyer and two children.

Friends and neighbors of Mr.

These folks — and folks in all kinds of jobs, from housewife to teacher, from farmer to doctor — are owners of electric light and power companies like the West Texas Utilities Company.

Three million of them are direct owners. They've put their savings to work directly in electric company securities.

Moreover, the 86 million people who

have life insurance, and the 65 million people with savings accounts, are indirect owners, because banks and insurance companies make your money work for you by investing much of it in the nation's electric companies.

This means that electric companies like yours, which are run for the people, are really owned by the people, too!

Thanks

To our customers, for the nice business given us in the past year, we say thanks.

Philco gives two awards each year, one for sales and one for service. We are happy to have won both awards for 1952!

We want to thank our customers for making this possible!

World's newest VX powers

HERE you see pictured the Golden Anniversary ROADMASTER - engineered, styled, powered and bodied to be fully worthy of its paragon role in this fiftieth year of Buick building.

A quick listing of simple facts will reveal just cause for celebration.

- It has the world's newest V8 engine. Vertical valves; 12-volt electrical system; 180 pounds lighter; entire engine is so compact, a new, more maneuverable chassis has been built around it.
- * It has 188 Fireball horsepower. A new Buick record; engine borsepower per pound increased 40%.
- * It has a compression ratio of 8.5 to 1. Highest compression on the American scene today; bettered fuel economy.
- * It has a dynamic-flow muffler. For the first time in automotive history, a muffler with zero power loss.
- It has a new Twin-Turbine Dynaflow Drive. Now adds far swifter, quieter, more efficient getaway to
- * It has new braking power. Most powerful braking action of any Buick in fifty years; plus the new ease of Power Brakes, optional at extra cost.

Television treat-the BUICK CIRCUS HOUR-every fourth Tuesday.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Pat Lyles Buick Company

It has, also, wondrous handling ease, with Power Steering as standard equipment. It has superb comfort. It has sumptuous fabrics and tailoring. And its acoustics are so thoroughly mastered that it may well be one of the world's most quiet cars.

But no listing of facts can do true justice to this phenomenal automobile, or to its brilliant brothers, the 1953 SUPERS and SPECIALS.

And no words can really tell you the beauty you see, the comfort you feel, the excitement you experience when you look at and drive any one of these big, beautiful, bounteous Buicks for 1953.

Will you come in and see for yourself that these are, in simple truth, Buick's greatest cars in five brilliant
