**'No Man Is An Island' is
Action-Packed War Epic**

The title of the World War II film drama in color which is showing tonight and Friday night at the Eagle Drive-In Theatre derives from the classic sermon by John Donne, the 17th century British seer. It is the one from his collection of "Devotions" that begins:

"No man is an island, intire of itself; evrey man is a peece of the Continent, a part of the maine" and ends "And therefore never send to know for whom the bell tolls; it tolls for thee."

Thus, by titular implication, "No Man Is an Island" aims nobly. Its target is George R. Tweed, a U.S. Navy radioman who was isolated on Guam in the South Pacific for some 2 1/2 years while the Japanese held it from us during World War II.

His incredible exploits came between Dec. 7, 1941, and the ultimate liberation of Guam, a success Tweed helped insure by staying alive and out of the relentless Japanese dragnet in the first place and by ingeniously devising signals to warn the U.S. fleet from his secret mountaintop outpost. What's more, he kept current a homemade map of Japanese installations and movements, audaciously salvaged an ancient radio and printed an underground newspaper to keep islanders posted on how the war was really going.

On the face of it, it is of such stuff that noble epics indeed can be made.

The photography is generally stunning, with great sweeping visual gulps of the Philippine Islands (where it was shot) and its peoples that beautifully frame a drama.

Jeffrey Hunter, who portrays Tweed, is monolithically earnest and sincere in what he does. Much more vital are peppy performances by such Philippine actors as Chichay (as the part-Japanese tea-house madam who does some sly sabotage for our side), Joseph de Cordova (as the Catholic priest who hides Tweed out in his leper hospital), Vicente Lawanag, Burt Olivar and others from Manila's Tamaraw Studios.

**'Gay Purr-ee' Features
Voice Of Judy Garland**

Showing Saturday and Sunday nights at the Eagle Drive-In Theatre is "Gay Purr-ee" which is in color and features the voices of Judy Garland, Red Buttons, and others. It is a full-length cartoon feature beamed at the youngsters. They may like it well enough, but their parents will like it better—especially if the parents are art-minded.

The background scheme for the animation is clever appropriation and reproduction of the styles of Utrillo, Cezanne, Van Gogh, Gauguin, Renoir, Toulouse-Lautrec, Matisse, Buffet, Dufy—practically everybody past and present in "the new wave."

The art work is lovely, informed and, in its way, slyly amusing. It does much to bolster a strip which has to do with nothing more perilous to the morals than anthropomorphic cats.

Among the voices of this hour-and-a-half fantasy are those of: Judy Garland, Robert Gouiet, Red Buttons, Hermione Gingold, Paul Frees, Morey Amsterdam, Mel Blanc and Joan Gardner.

H. D. COUNCIL MEETS

Schleicher County Home Demonstration Council met in the Conference Room of the Southwest Texas Electric Co-Op Building with the chairman, Mrs. Roy Boynton presiding. Mrs. Ruth Finnigan acted as secretary in the absence of Mrs. Ruth Williams. All five clubs of the county were represented.

Each council delegate was asked to find out how many of her neighbors and club women wanted a work shop on clothing.

It was voted that each club vote by proxy fro THDA chairman. These are to be sent to Mrs. Bascom Hartgraves.

Hensen Garvin took pictures of the council and also of the coffee table used at the recent planning meeting.

Mrs. Kreklow briefed us on the "Program Building of a five-year plan for Schleicher County."

Glendale club served cheese cake and coffee. The next meeting of the Council will be April 5th.—Mrs. J. Tom Williams, Rep.

Mr. and Mrs. Johnny Tigrett returned Monday from Houston where they spent several days. While there, Mrs. Tigrett had a medical checkup.

Austin.—Legislators have received two proposals for spending the state's money during the two years starting September 1. One came from Gov John Connally, the other from the House Appropriations committee.

Governor Connally's suggestions marked the first time a new governor had tried to work out a budget after taking office. In his message he dealt in detail with 19 of the major state departments. These are mainly the ones over which the Legislature has direct control.

Connally trimmed fat out of some agencies to provide new money for others. His stress came on higher education. Here he suggested \$14,000,000 worth of salary increases for faculty members and more research and library facilities, as a means of holding good professors and attracting new ones.

To finance his program, Connally suggested that the "temporary" corporation franchise surtax, which has been extended twice before, be retained. It would provide about \$11,000,000 a year. He also suggested that the 1961 sales tax law be revised to begin taxing clothing under \$10, farm implements and all sales of food by restaurants, and to raise the sales tax on cars and trucks from 1.5 to 2 per cent.

Clothing tax proposal would bring in \$10,000,000 a year. Motor vehicle tax increase would provide \$2,500,000. Farm implements tax would run \$1,000,000. Fire quickly developed from rural legislators over the proposed farm implements tax.

Both Connally and the House appropriations committee proposed expenditures totaling about \$3,100,000,000 during the coming two years.

Before Connally laid out his proposals to the Legislature, he invited Texas newspaper editors to Austin to show them how the state's complicated fiscal structure works. His "illustrated lecture" revealed that the Legislature has actual control over only 15 per cent of the \$3,100,000,000. Rest already is earmarked by constitutional and statutory provisions.

Will Farmers Foot Education Boost?

When Rep. Don Garrison of Houston spread before the House revenue and Taxation committee his bill to boost the Available School Fund by \$3,000,000 a year, a spokesman for Texas farmers and ranchers registered a strong protest. Garrison plans to get the additional \$3 millions by amending the state law that allows a 98 1/2 per cent exemption refund from the State Motor Fuel tax for gasoline not consumed on the highways. His bill would cut the refund to 73 1/2 per cent. That 25 per cent cut then would be credited to the school fund.

Charles H. Huff of the Texas Farm Bureau said almost half of the new school fund money—about \$1,500,000 a year—would be coming out of the pockets of farmers and ranchers. They get motor fuel refunds of about \$5,700,000 a year—or 49.11 per cent of the usual total refunded. Much of their refund comes from motor fuel taxes paid on farm machinery. Airlines and private plane owners, who get about 30 per cent of the refunds, would be the second biggest contributor to education under Garrison's bill.

Four members of the subcommittee named to study the bill are from ranch or farm country—Reps. George Cook of Odessa, Ben Barnes of DeLeon, William Davis of Midland, and James L. Slider of Naples. Rep. F. Lee Duggan Jr., of Houston is the fifth member.

House Vacancy Election

As soon as government officials began recovering from the shock of the news of the sudden highway death of Rep. James L. Lattimore of Corpus Christi, they began studying the election code to see what must be done about filling the seat he left vacant in the House of Representatives. Customarily, if a vacancy occurs in the legislature when it's not in session the governor leaves the calling of a special election up to local officials. But since the 58th Legislature will be in regular session until May 27, Governor Connally is expected to move fast to provide Nueces county with a needed voice in legislation. A late-April election date has been predicted. Law states that the governor must

call an election within 20 days. But it also provides that candidates must file 30 days before the election.

Last time a tragic death crippled the Legislature was on March 23, 1957, when the late Charlie Heitmann, representative from the Nacogdoches area, died. Gov. Price Daniel gave election notice on March 28 of that year. A new representative was elected in May, in time to spend some three weeks with the 55th Legislature.

Mineral Estate Tax Proposals

Proposals to set up tax procedures on mineral estates, severed from the land, have been filed by Reps. Emmett Lack of Kountze and Clyde Haynes of Vidor.

Proposals are part of a package that should be favored by small-tract landowners and independent oil and gas producers.

One piece of the package is a constitutional amendment to increase the Railroad Commission from three to five members.

Second would give the Legislature the authority to "establish the duration of any interest in an undeveloped mineral estate."

Texas Landowners and Independent Oil & Gas Operators Association contends that some major oil companies hold into undeveloped mineral interests for an unreasonable length of time.

Two other bills by Lack and Haynes are aimed at forcing development of mineral interests:

One provides that mineral interests would revert to the owner of surface land if no development attempt is made for 10 years.

Second provides for a county tax assessment of no less than \$5 an acre, if the mineral estate isn't developed.

Rep. Bob Bass of DeKalb proposes a 25-cent minimum tax assessment on each acre of undeveloped mineral estates.

Strong Support for Screwworm Bill

Rep. Jack Crain of Nocona had 50 co-signers lined up when he introduced a bill to provide \$2,840,837 as the state's matching share of the \$12 million federal-state-private screwworm eradication program.

Since it is backed by Governor Connally's strong recommendation the bill should be off to a good start.

But the House Appropriations Committee didn't include a provision for screwworm eradication in its 300-plus page appropriations bill.

Crain said Legislators would seek a separate appropriation to cover the proposed state contribution.

Cars For Commissioners

trucks on their appointed rounds, they thought they were thoroughly mechanized.

As their operations became more streamlined and pickups no longer were necessary, some switched to automobiles. But a pickup is not an automobile, Atty. Gen. Waggoner Carr ruled. So Williamson, Cochran, Hockley, Terry and Yoakum counties are asking authority from the 58th Legislature to buy cars for their commissioners. Harris, Tarrant and some Panhandle counties discovered the difference for themselves some time ago. They already have authority to decide whether pickups or autos would be best for commissioners' transportation.
