## Lions Club Has Their Cushion Sale On

The Eldorado Lions Club has received shipment of several hundred "El Dorado Eagles" stadium cushions, and are selling them in stores around town, and door to door, for \$1.50 each.

Made of dark green plastic with white trim, the cushions carry out the local school colors and form a distinctive addition in any home, and they should see plenty of use this fall when football season gets under way.

To boost the Lions club and the Eagle team by buying a cushion this year, L. D. Mund is general chairman of the project for the local club.

## Work Continues On Remodeling Building For Production Of Jelly

Work continues this week in the old Tony's Drug store building, just south of the Eido Hotel, getting it ready for production of jelly.

Ben Keel leased the building recently, and Bob Evans Jr. has been at work installing some partitions, and Bud Davidson was doing some plumbing work this week to get the building ready for its new use for jelly production.

The old drug store fixtures are still in the front, and Wednesday a 100-pound sack of Imperial sugar and several cartons of small jelly jars were on hand.

Keel has already made some mesquite bean jelly and pricklypear jelly at home, and expects to move the operation to the new location in the near future.

Some out-of-town markets have already been lined up for the jelly.

## Lions Club Meets

Curtis Humphries presided at this week's meeting of the Eldorado Lions club. The club met Wednesday noon in the Memorial Building.

Guests were Don Williams of Harlingen, and Buddy White, who has moved here to be new Western Auto store operator.

R. V. Sheppard was awarded the "friendly dollar" by Lion Bay Boyer.

Dan Sebesta, who will be program chairman for the month of August, announced that at next Wednesday's meeting the Chamber of Commerce will bring discussion on the proposed change in the spelling of Eldorado to El Dorado.

At the close of the meeting, L. D. Mund distributed the stadium cushions to members to be sold for \$1.50 each.

## Admission Set \$1.25 For Football Games

Officials of District 8-A met recently and voted to raise general football game admission from \$1.00 a game to \$1.25, beginning with this Fall's season of play.

Reserved seat prices will remain the same, \$1.50 per game or \$7.50 for all five home games.

Guy Whitaker, high school principal, will announce further arrangements in August.

The Eagles will open their 1966 season Sept. 9 when the Eden Bulldogs come here.

## School News

Allan Dinsmore was recently hired to be new Speech teacher in the local schools, Supt. C. T. Humphries announced this week.

Mr. Dinsmore graduated from Robert E. Lee High School at Baytown, Texas, and from Stephen F. Austin college at Nacogdoches.

He is single and his position here will be his first teaching job.

## New Babies

Mr. and Mrs. Alvin Atkinson Jr. are parents of a baby daughter born Tuesday, July 19, at 10:15 a.m. The baby weighed 7 lbs. 3 oz., and has been named Audra Kay.

Grandparents are Mr. and Mrs. J. E. Stewart of 801 East 40th, San Angelo; and Mr. and Mrs. A. E. Atkinson Sr., of Milersview, Texas. Greats are Mr. and Mrs. N. B. Ballard of 805 East 40th, San Angelo; Mrs. Lina Stewart of Oklahoma City, Okla.; and Mr. and Mrs. Jay Wilkins of Mullin, Texas.

## Post Script

These Are Not Blankets . . .

Curiosity got the best of me. All last month I'd see Doug Yates carrying huge armloads of "blankets" in to his dry cleaning shop and I finally went in and asked how come.

These were not blankets at all, but stacks of garment material woven on the looms at El Dorado Woolens, dyed and cut to convenient size. Doug's job is to run each piece through his steam press and shrink the material. After that it is returned to the mill where it is made up into the various garments now being distributed to dealers all over the state.

From loom to finished garment, the shrinking job is probably the smallest part of the process, but no doubt it is one of the important ones. An idea of the volume going through the mill was revealed when Yates said he had processed (shrunk) 700 pieces last month, and just about that many more the

first part of this month. The day we watched the shrinking being done by Mr. Yates and Mrs. Blair, they were working on a tall pile of bright red material, but Sybil said sometimes they come in blue, yellow and other colors.

It is just another case of how one business creates work for another one.

El Dorado Woolens some time ago introduced what they call their "designers line" of garments for which they are receiving orders for all they can produce. The line consists of slacks, skirt, sleeveless blouse and shawl. The popular shawl is identified by the Italian name of "Sciaille," and some of the others have names that a mere man wouldn't recognize. There was a pause in operations early this week, however, while sewing operations were being moved to another room.

—ps—

This Is NOT A River!

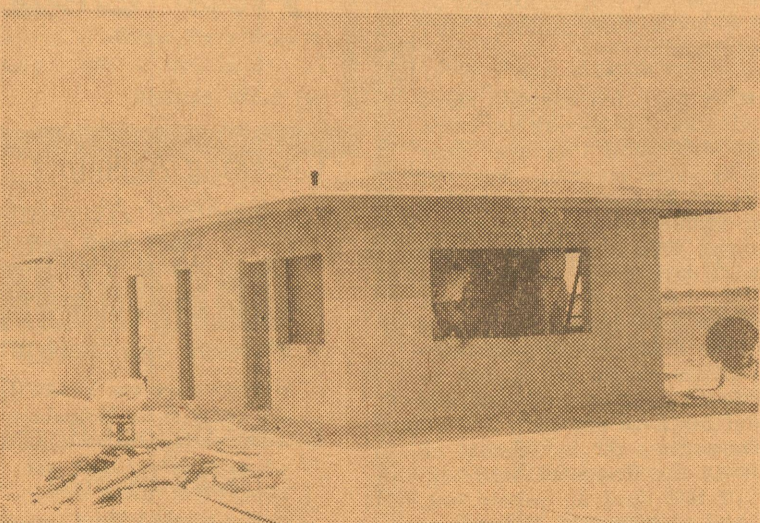

There are no rivers in Schleicher county, so don't get the impression this is one. We tried to get a picture of the newly-opened streets near the airport, but it didn't turn out too well. This is actually a section of the new street along the north side of Mrs. Lillian Crosby's property.

Three sides of this block have

been graded and built up with cal'ché base, and the motorist can now go all the way around the block or a new smooth surface. County road hands have been rebuilding a number of blocks throughout the city and when they are all shaped up the finishing touch will be black-topping.

—ps—

This is the way the new concession building at the park looked last week. Logan and Griffin had the walls and roof completed and were engaged in interior work. When completed it will make a nice addition to facilities at the county park and golf course.

The building is 22 x 42 feet in size. A room at the west end is provided as storage space for lawn mowers and other power equipment. The other half has two rest rooms, and concession space. Logan said yesterday the job is

rapidly nearing completion. At that time walls were being treated with a seal coat to be followed by a two-coat paint job.

—ps—

Marylou Ray, commercial teacher here for five years, left Tuesday for LaMarque, Texas, where she will have a similar position. Before leaving she ordered the Success sent to her new address, which will be:

923 Timothy Drive, Apt. 1  
La Marque, Texas

With our subscribers:  
Nettie Isaacs' new address is Kerrville State Hospital, Box 1463, Kerrville, Texas 78023.

Jimmy O'Harrow and family are home for the summer from Tech, at Lubbock. Their address is Rudd Route, Christoval, Texas.

Joe Phillips is not now at Los Alamos.

—ps—

Came by Arthur Faull's wrecking yard Monday evening and found a crew of men operating a huge press which was crushing automobile bodies into bales of scrap. The "thing" is so big and powerful that it is downright awesome.

Mr. Faull said they could process about 50 bodies a day and since he has got about 200 bodies on his lots, it would seem that crushing will still be going on when our readers get this paper Thursday morning. (Worth watching.)

The people who own this equipment will not move in on a job unless the wrecking yard has 125 or more old hulls to crush up and bale, and Faull said that when they've cleaned up everything he has, he won't expect them back again for two years.

A tractor equipped with fork-lift and operated by one man, picks up car bodies and feeds them into the press. The completed bale is rolled out on to the arms of the fork-lift and are stacked up some distance away. The press itself is run by one operator who manipulates a battery of levers. The "thing" costs about \$40,000.

They pay him something for all the junk, bale it and truck it off to Mexico.

—ps—

Foxworth-Galbraith is general contractor for a 3-bedroom house for Jesse Cavness now under construction in Orient Heights. Logan and Griffin are in charge of construction.

—ps—

As is noted elsewhere in this Success issue, Granny Mund will be 90 years old this Saturday. In September Mrs. A. E. Kent, former County Treasurer, will also observe her 90th birthday.

Both of these senior citizens have a lifetime of service in Baptist churches of this county and both now belong to the First Baptist church here in Eldorado, and are the oldest members. We are sure that the two of them together would have well over a century of church membership and service.

So it would seem appropriate for the Baptist church to dedicate one of their services soon to Mrs. Mund and Mrs. Kent, to have them on hand, and to give them special recognition.

—ps—

Cotton producers of this county are invited to a special meeting tonight, Thursday, at 8:00 in the Memorial Building.

Further details are in the article on page 7, this issue.

—ps—

People moving:  
Edwin Martin Jackson moved Tuesday to his newly-completed house in Sunset Acres;

Kenneth Harralson, from Riley house to Marshall Davis house;

Lewis and Fenna Whitten to the ranch.

New in Eldorado:  
Alan Sides in Lewis Whitten house;

James Torbett, in Mrs. Lizzie McAngus's apartment;

Buddy White, in Ratliff house which he bought.

—ps—

"I'm Fine"  
There is nothing whatever the matter with me.

I'm just as healthy as I can be. I have arthritis in back and knees. And when I talk, I talk with a wheeze.

My pulse is weak, my blood is thin But I'm awfully well for the shape I'm in.

My teeth eventually had to come out.

And my diet I hate to think about. I'm overweight and I can't get thin. But I'm awfully well for the shape I'm in.

The moral is this as the tale we unfold—

That for all of those who are getting old

It's better to say "I'm fine" with a grin

Than to let folks know the shape you're in!

## Pioneer Resident Will Observe Her 90th Birthday Here This Saturday

MRS. MARINDA "GRANNY" MUND

Mrs. Marinda Mund, widow of the late Henry Mund of this county, will observe her 90th birthday this Saturday, August 30th. She is another of our senior citizens with memories of the formative years of the town and county, and has been a resident here since 1904.

Her grandchildren and their families this year as previously honored Mrs. Mund with a surprise birthday party, and family get-together and picnic this last Saturday, which was a week early. She is known affectionately as "Granny" to all of them.

Mrs. Mund was born Marinda Lucretia McDonald, on July 30, 1876, the eldest of 10 children of the late Mr. and Mrs. William Jefferson McDonald of Gillespie county. Her father was a Texas Ranger. The year she was born, 1876, was when the Hayes-Tilden Presidential campaign took place, and General Custer made his last stand at Little Big Horn.

She has just two sisters still living, Mrs. Claude Galbreath and Mrs. Roy Andrews, both of Eldorado.

Her early years were spent in Gillespie county on farms, and in and near the towns of Fredericksburg, Harper, and Doss. She remembers when many people were still being killed in the Indian raids and often families would group together, in twos and threes when isolated, for their mutual protection. Her family lived for a time in a log cabin and she was once chased by a panther.

A few months after her 16th birthday, Marinda was married to Henry Mund, who was 12 years older than she. They farmed for several years in Gillespie county and it was there that their three sons, Charles, Bill and Ervin, were born. All three are now deceased.

In 1904 the family moved from Fredericksburg to Schleicher county, making the trip here in several days with their belongings in a covered wagon.

They settled in this county in Bailey Ranch, where her husband

ranch for many years until his death. The Mund children and grandchildren attended the Bailey Ranch and Eldorado schools, which were just being developed, along with the town, in the early days.

Following Mr. Mund's death, Mrs. Mund moved into Eldorado and has made her home here for about the past 30 years.

Three of her grandchildren live here and help look after her: Charlene, Mrs. Orval Edmiston; L. D. "Jelly" Mund; and Becky, Mrs. Mike Moore.

Mrs. Mund's other four grandchildren are Mrs. Wyndal Yates of San Angelo, Mrs. Jack Browning of Van Horn, Jack Mund of Llano, and Charles "Tart" Mund of New Braunfels. She also has 16 great-grandchildren and 3 great-greats.

All except Tart were on hand at last Saturday's family get-together.

The Mund family were long-time members of the Bailey Ranch Baptist church until that congregation merged some years ago with First Baptist church here in Eldorado. Mrs. Mund is now the oldest member of the First Baptist church.

In the early days, Mrs. Mund often went out on calls with Dr. Patton, Dr. Lewis, and Dr. Newsum to give medical assistance and to help deliver babies. That was when babies were born at home. She is called on occasionally even today to verify birth certificates for individuals she helped deliver.

Considering her advanced years, Mrs. Mund is well able to take care of herself; her sight and hearing are still good, although she now walks with a cane.

One of her life-long hobbies has been the crocheting of rugs. She still makes a few of them along.

She states that she has never been out of Texas. The farthest west she has been in this state is Alpine.

As her 90th birthday nears, Mrs. Mund will have the best wishes and congratulations of all her many Schleicher county friends, both far and near.

## Little Leaguers Win Menard Tournament

Last Thursday, Friday, and Saturday, a Little League tournament was held at Menard, and the team composed of Eldorado and Christoval boys won first place.

E. H. Nixon and Mickey Rathbone served as coaches for the team which placed tops out of the six participating.

Archie Nixon received a trophy as All-Around Player.

The locals won all games, and in the final contest, downed Menard 7 to 6.

Mr. and Mrs. Robert Allen Lauffer and family of Washington, D. C., have been visiting here with Mrs. J. O. Willoughby. Mrs. Lauffer is the former Ann Cole. Also Mrs. Cole of Tulsa, Okla., has been here.

## Thackerons Move To Monahans

C. B. Thackeron has been transferred to Monahans by the Halliburton Company.

He and Mrs. Thackeron and son moved Wednesday, and their address there will be:

C. B. Thackeron  
405 S. Gary  
Garden Apt. No. 6  
Monahans, Texas

Mr. and Mrs. Cliff Arnn and two children of Camarillo, Calif., are here visiting in the home of Mr. and Mrs. R. L. Wilson. The women are sisters.

Recent guests of the James Aldermans were Mr. and Mrs. David Manness and children, Steve and Connie. They are residents of Montgomery, Alabama.

**Farm Safety Week Now On, Thru 30th**

The signing of proclamations by President Lyndon B. Johnson and Governor John Connally designating July 24-30 as Farm Safety Week lends emphasis to the 23rd annual rural safety campaign.

The proclamations urge that all persons recognize and vigorously attack the hazards and unsafe practices that cause farm and rural accidents.

Farm Safety Week in Texas and the nation focuses attention on all farm hazards and places special emphasis on the prevention of highway accidents involving slow-moving farm vehicles. The campaign is sponsored jointly by the National Safety Council, the U. S. Department of Agriculture and the Texas Farm and Ranch Safety Council.

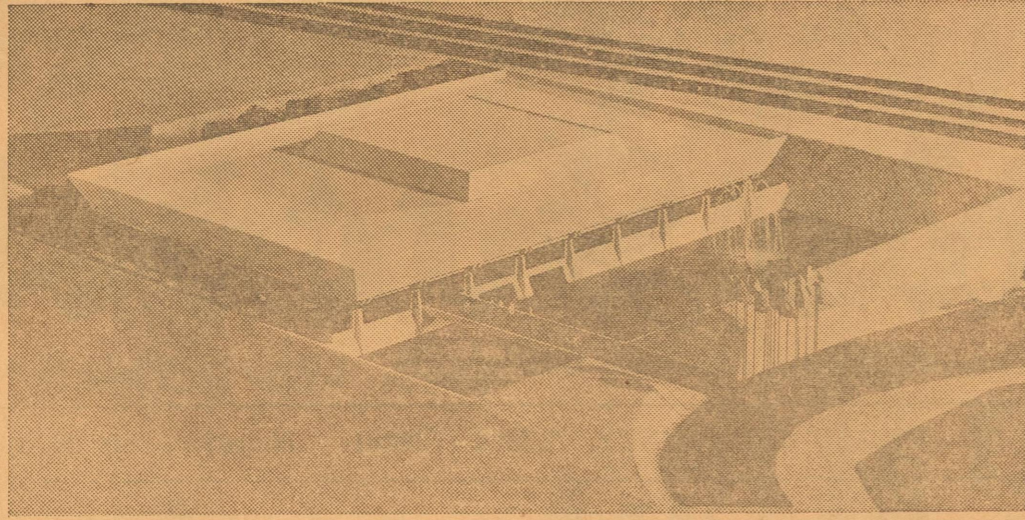

"Today's increasing demand for farm products places world-wide attention and importance on America's farm population," said Howard Pyle, president of the National Safety Council. "Farm families and rural leaders must make a joint effort to eradicate hazards that could cause death, unnecessary suffering, and loss of time and money."

Accidents kill more than 8,000 farm residents each year and an additional 700,000 or more are victims of disabling injuries. Motor vehicle accidents are the leading cause.

Farm Safety Week comes at a time of the year when farm people are actively involved in all phases of farm work. It is an important and ideal time to check the safety of farm equipment and environment.

Farmers who sometimes drive slow-moving vehicles on the highways should know about and use the Slow-Moving Vehicle (SMV) emblem. City and urban dwellers who travel the rural roads should know and recognize the SMV emblem. It could prevent your being involved in a rear end collision with slow moving equipment.

The emblem is a fluorescent yellow-orange colored triangle with a dark red reflective border. It is placed on the rear of slow-moving vehicles so it can be seen easily by other drivers, day or night, from a distance of 500 feet or more. It was designed by Ohio State University researchers and first introduced two years ago as a safety device. Since then its use has been made mandatory by law in Ohio and will be required in Nebraska next year. Other states are considering similar legislation.

SCALE MODEL of the Institute of Texan Cultures to be on display at HemisFair 1968, shows 365-foot long, 50-foot high concrete and glass structure designed to display films, slides and photomurals depicting the cultural history of Texas, from the earliest Indians to the present society. The Institute was conceived by Gov. John Connally to be of lasting value to Texans, beginning with the opening of HemisFair, an official World's Fair, on April 6, 1968 in San Antonio, Texas.

Mr. and Mrs. L. E. McCalla were in Colorado this week on a vacation trip.

**Going-Away Party**

About 100 friends gathered on the Memorial Building grounds Sunday night for a surprise party in honor of Mr. and Mrs. Roy Phelps, who are leaving Eldorado after a residence of about 16 years. The crowd enjoyed home-made ice cream and cookies, after which the honorees were presented with several fine gifts which had been purchased at El Dorado Woolens. Mr. Phelps who has been proprietor of Western Auto Associate Store here, has sold the business and the new owner, Buddy White, is due to take over August 1st.

The party Sunday night was initiated by Mrs. Hollis McCormick who had the help of a large number of enthusiastic co-hostesses.

**History Of Names Given By Researcher**

Commerce, Texas.—Schleicher county is included in a survey of Texas geographical names being compiled by Dr. Fred Tarpley of the Department of English at East Texas State University. A study of Schleicher County names was undertaken as an English class project by J. C. LeFlore of Palestine.

Residents of the county who provided information for Mr. LeFlore's study are Ed Meador, Don McCormick, and W. R. Bearce.

The following list offers explanations for the naming of various places in Schleicher county:

Eldorado.—This is a Spanish term meaning "a place of gold," and the early settlers named their county seat Eldorado because they were proud of their rich land.

Adams Community.—Named to honor an early settler, Will Adams.

Reynolds Community.— Named for C. M. Reynolds, rancher.

Bailey Ranch Community.—Named for Robert Bailey, a rancher whose land was sold and divided into small farms.

Kaffir.—Named for the Kaffir corn that was grown in the area.

Port McKavett.—Named in honor of Lieutenant McKavett who was killed in the Mexican War.

Hulldale.—Designated by the Santa Fe Railroad officials in 1930. The Hulldale Oil Field is named for Hulldale.

Otto.—Named for rancher E. Otto Williams, a Schleicher county native.

Ray Bruton Airfield.— Named for a local farmer landowner, Gay Copeland.

C. B. Ranch Airfield.— Named for the ranch brand, C-B, which derived from Camilla Black, the oldest daughter of Col. William L. Black, an early settler.

R. F. Mayer Ranch Airfield.— Named for a ranchman, Robert F.

Mayer.

Half Circle Ranch Airfield.— Named for the ranch brand.

Eldorado Airfield.—Named for the town of Eldorado.

Derrick Ranch Airfield.—Named for landowner.

Toenail Oil Field.—Named in fun and not for anything.

Butler Oil Field.—Named for an oil lease holder, Captain Butler.

O'Harrow Oil Field.—Named for Mary O'Harrow, a ranch-woman.

Cox-Brown Oil Field.— Named for two developers, Thomas Cox and Kenneth Brown.

Page Oil Field.—Named for a local rancher, Bert Page, on whose land the first gas well in that area was discovered.

South Concho River.—Named for the Spanish term, "Concho," which means, "a small circular metal piece used to decorate a cowboy's leggings."

Devils River.—Named for rough terrain and hot climate.

Rocky Creek.—Named for vast density of rocky banks along the creek.

Liveoak Hollow.—Named for the live oak trees in that general vicinity.

Poor Hollow.—Named by a group of very poor people who settled near the draw in the early history of the county.

South Concho Draw.—Named for the South Concho River.

Terret Draw.—Named for Fort Terret in Sutton county, and Fort Terret was named for Lieutenant Terret who was killed in the war with Mexico.

Middle Valley Draw.—Named for three draws, north, middle, and south.

Granger Draw.— Named for a group of grangers who settled there long ago.

Dr. Tarpley is interested in adding other Schleicher County geographical names and accounts of their origins to his study, as well as variations of the name explanations given above. Any information should be sent to Dr. Fred Tarpley, Department of English, East Texas State University, Commerce, Texas.

**COUNTY AGENT'S COLUMN**

*by Tiny Godwin*

Schleicher County Agricultural Agent

The Rolling Plains Cotton Growers Association will sponsor a cotton meeting, Thursday, July 28, at the Memorial Building. The time will be 8:00 p.m.

All cotton producers in the county are asked to attend this meeting and hear legislation important in the support of cotton. Eligible cotton producers will probably have the privilege of voting upon at the ballot box later in the year.

Mr. Wilber Gruber of the Sweetwater office will have charge of the meeting.

\*\*\*

In connection with National Farm Safety Week, July 24-30 . . .

Learn To Swim—Join an organized swimming class. If you can already swim, learn to swim better. Here are some basic rules for swimming safety. Don't swim if you are chilled, overheated, overtired, don't swim during a storm, never swim alone, choose a safe place for your swimming, never dive into strange waters, be accompanied by a boat if you are going to swim a long distance, know your ability and don't try to show off.

Learn Lifesaving Techniques— You can save a life even if you can't swim. Reach out from shore and pull the victim slowly to safety. If he is out of arm's reach or too far out to use a rescue pole, then use a life preserver tied to the end of a rope. Throw it beyond the victim and draw it to him so he can grasp it. If a boat is available, row to him and extend an oar. Maneuver the boat so the victim can grasp the stern, then row to safety. Learn mouth-to-mouth resuscitation. It saves lives.

Build a Rescue Station—Build a rescue station for your home pool or farm pond. All that is required is an 8-foot post, a life preserver attached to the desired length of rope and a white rescue pole 12 to 14 feet long. Statistics show that better than 50% of all drownings take place less than 15 feet from an object that would support a swimmer.

Records show a significant increase in drownings at places for recreation and sport.

Salesman creed: No customer can be worse than no customer.

\*\*\*

Knowing range grasses, like knowing livestock, is the foundation of the ranching business, and a rancher is in the grass business and the livestock are the salable by-products. The measuring stick in range management is in terms of pounds of beef, mutton, wool, and mohair produced and not the number of head graz-

ed. It is an accepted fact that good palatable grass is the cheapest feed that can be grown.

Keeping the livestock numbers balanced with forage production is one of the greatest problems facing Texas stockmen. Efficient livestock production depends largely upon the management of the grass crop.

The ranchman must know the kinds of plants growing on the range, their forage value, when to utilize them properly with the right kind of livestock and at the proper season. He must know the drought resistance of grasses, how and when to control and manage noxious plants, how to properly distribute livestock for uniform use of forage and how to develop a grazing system that will keep livestock numbers and forage in balance. The kind and amount of vegetation determines the kind and number of livestock that can be grazed for most efficient and greatest economic returns.

Range management is planning and directing the grazing of natural range forage to obtain maximum and efficient livestock production consistent with the wise use of vegetation, soil, water and wildlife.

A woman does not mind seeing a man make a fool of himself so long as some other woman isn't helping him.

\*\*\*

Quality pays, not quantity alone in saving hay. By leaving hay crops in the field until they are near maturity, you get more hay but it will not be worth as much as a lesser amount of higher quality.

Cutting Coastal Bermuda every 24 to 28 days to get the best quality hay. After 30 days, Coastal generally loses 1% of its protein every day. After cutting, additional fertilizer should be applied in accordance with a soil test, to Coastal for good regrowth.

Johnsongrass for hay should be cut when the first seed heads appear. If left until all seeded out, hay is of poor quality. If fertilizer is applied after cutting, another harvest can be made in late summer.

Sudan, millet, and sudan-sorghum crosses make good hay if cut early and allowed to condition properly.

Under-grazed pastures can be cut and baled for hay or stacked in the field. Here, too, additional fertilizer should result in more growth for grazing or hay.

Life is much like Christmas, you are more likely to get what you expect than what you want.

The Centennial Trail Drive ended at the market that replaced the long trail drives to Kansas of one-hundred years ago. The longhorn cattle shown above made the recent historic trail drive sponsored by the Texas Longhorn Breeders Association from San Antonio to Dodge City, Kansas. They were then returned to the Union Stock Yards San Antonio. The trail drive followed the same route the cattle drives of one-hundred years ago followed to find a market. With the development of livestock markets like Union Stock Yards San Antonio, the long cattle drives no longer were necessary. This cattle drive brought the attention of the whole country to the cattle industry.

Austin, Tex.—A \$10 million state bond sale has launched a new "opportunity plan" designed to bring college educations within the financial reach of all qualified Texas youth.

"Never again will students of this state be denied higher education because of lack of funds," commented John E. Gray of Beaumont, chairman of the Coordinating Board, Texas College and University System. Initial bond sale was awarded to a Chicago bank. Action by the Coordinating Board set in motion the loan plan approved by Texas voters as a Constitutional amendment last year. Amendment authorized a total of \$85-million in bonds to provide funds for students unable to continue education beyond high school without financial assistance. Initial \$10 million sale is believed to be more than adequate to carry the program through the first year.

Ceiling on available loans is \$1,000 a year for undergraduates and \$1,500 for graduates. Although a 6% interest rate is authorized, the U. S. government will pay all interest while a student is in school—and half of it afterward for borrowers eligible for federal interest subsidy.

A borrower's family income must be less than \$15,000. Loans are limited to the difference between available resources and reasonable expenses. Money will be available for the 1966 fall semester.

Interested students are advised to contact the financial assistance officer at the school of their choice. Applicants must be accepted for enrollment and have two recommendations.

In the action last week, Coordinating Board:

—Approved request for legislative appropriations totaling \$56.1 million for the 1968-69 fiscal period, most of which would go to an adjustment fund to meet financial needs due to enrollment increases at public colleges, universities and junior colleges.

—Authorized election for Angelina county junior college but rejected request for Rains, Kaufman and Van Zandt junior college.

**Oil Allowable Cut**

Railroad Commission has reduced the August oil allowable for the third straight month.

Auput production factor of 33% of potential will allow top production of 3,138,611 barrels a day. This compares with present allow-

able of 3,118,042 barrels daily under 33.3% factor.

**Hunting Seasons Set**

State Parks and Wildlife Commission set November 12-December 31 deer hunting season in most major hunting counties under its regulatory powers. Opening date is earliest on record.

Season in general-law counties—those fixed by specific general statute—is November 16-Dec. 31.

Shortened seasons were ordered for counties of the Trans-Pecos and Panhandle—16 days starting November 26 for the Trans-Pecos and November 12-November 29 for the 32 Panhandle counties. Antelope season in these areas will run from October 1-9 and October 1-4, respectively.

Turkey and javelina seasons generally remain the same. Commission allowed special bow and arrows hunting seasons in some counties October 1-31.

**Palo Duro Funds Okayed**

Federal Bureau of Outdoor Recreation approved \$271,494 in matching funds for the development of facilities at Palo Duro Canyon State Park.

Total cost of the project will be \$542,988. Included in the program are two concession areas, 26 trailer camp sites, 45 tent camp sites and 75 picnic sites, in addition to such miscellaneous items as rest-rooms and showers, an interpretive building and a park headquarters building.

**Attorney General Rules**

A divorced husband cannot claim a \$3,000 homestead tax exemption when he continues to reside alone in the family home after the divorce decree, Atty. Gen. Waggoner Carr has held.

In other opinions, Carr ruled that:

—Texas Liquor Control Board is not authorized to issue a U. S. bonded liquor export permit, since courts have ruled the law authorizing such permits is unconstitutional.

—Trailers used to convey horses to and from rodeos are not exempt as farm trailers and must be licensed under state law.

—Harrison county commissioners court can pay \$8 a day to jurors and \$4 to prospective jurors summoned and excused after questioning, but nothing to those summoned but excused without examination.

**Short Snorts . . .**

Governor Connally has approved a grant under the Economic Opportunity Act for planned parenthood centers in Crystal City and Carizzo Springs at a cost of \$25,432.

Texas retail sales jumped 5% last month—to \$1.2 billion—reports UT's Bureau of Business Research.

Department of Public Safety is seeking a \$51.1 million budget for 1968-69. Director Col. Homer Garrison Jr. says Texas should have 2,200 highway patrolmen, instead of present 901, to meet federal standards.

Governor appointed Mrs. Travis B. McNair of Bandera to the State Board of Tuberculosis Nurse Examiners and Bill A. Martin of Newton as district attorney of Jasper, Newton, Sabine and San Augustine counties.

Sen. Tom Creighton, chairman of the State Election Law Study Committee, has called an August 12 meeting in Austin to discuss suggested statutory reforms and to schedule future activities, including public hearings.

Texas Water Pollution Control Board wants to expand its operations from 10-12 employees and a budget of \$62,528 in 1967 to 86 employees and \$1,402,159 in 1968—and 194 employees with \$2,675,910 in 1969.

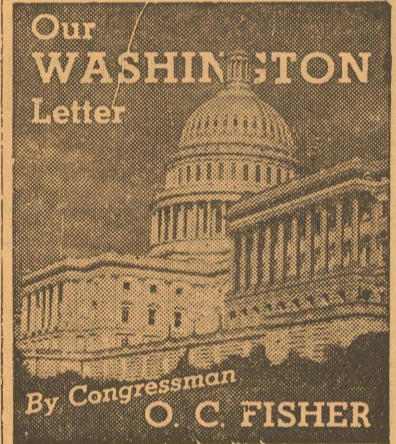

**ICE CREAM SUPPER HELD**

Mr. and Mrs. Claude Doyle gave an ice cream supper in their home Friday night.

Cake, cookies, and ice cream, was served to the following. Mr. and Mrs. Kenneth Doyle, Joan and Wayne; Mr. and Mrs. George Worden, George Jr., and David, of Michigan; Mr. and Mrs. Lenorris Laceyfield, Darren, and Brenda, of Odessa; Mr. and Mrs. Jimmy Doyle, Jimmy Dan and Mike; Mr. and Mrs. Edwin Martin Jackson, Trey, Cindy and Sherwin; Mr. and Mrs. Doc Sofge, and the Claude DoYLES.

Mrs. Bertha Wilson had as guests recently Mr. and Mrs. Grover Lee Johnson of Goldsmith, and Mr. and Mrs. Johnny Kempky and Babs and Paul of Lometa. Babs accompanied the Johnsons back to Goldsmith and they are leaving on a trip to California.

The Bertha Smith circle of the First Baptist church met this week with Mrs. Ben Isaacs. Wanda Rogers led the discussion on Christian Science. Eight were present and refreshments were served.

Repeated instances of "public-b damned" attitude on the part of irresponsible labor union leaders serve to enhance chances for some sort of protective legislation being enacted at this session.

The current airline strike is very unpopular with the general public, and public opinion—aroused and determined—can work wonders in Congress.

The radical AFL-CIO's International Association of Machinists demanded a 3-year contract package worth about \$114 million—nearly 60% more than was recommended by a presidential emergency board. The airlines okeyed the board's figure.

These 33,000 machinists, who repair and service 744 planes operated by five major airlines, are already paid a top of \$3.52 an hour.

The five airlines are losing \$7 million a day because of the strike, and indirect losses to the public cannot be reckoned.

It will be recalled that last January the President, on the heels of the \$1 billion New York City transit strike, told Congress he would submit a plan to "enable us effectively to deal with strikes which threaten irreparable damage to the national interest."

Thus far he has submitted nothing. At his news conference last week LBJ answered an inquiry about it by saying no plan had been drafted because management and labor had been unable to agree on a plan. The Congress could, of course, legislate without White House approval—as it has done many times in the past. But the majority in this particular Congress is notoriously beholden to the President, and the unions and rubber-stamps almost anything the President proposes—and little he does not propose.

Only rarely in modern times has a President risked offending union leaders by endorsing effective curbing of union power. The Smith-Connally Act, during World War II (to control John L. Lewis), was vetoed by FDR. The Hobbs Act, to make unions subject to anti-racketeering law, was vetoed by Truman, who also vetoed the Taft-Hartley Act. All of these vetoes were over-ridden by Congress—thanks to the power of public opinion.

President Eisenhower, to his everlasting credit, approved the Landrum-Griffin Act, to help protect the public against abuse of power of James Hoffa.

Labor unions should be subject to the anti-trust laws. A special court could be established to resolve labor-management issues.

The public is entitled to protection against jungle-type actions by power-drunk labor leaders.

**New H. D. Club Is Organized Here**

The newly organized Homemakers Home Demonstration Club met Wednesday, July 20th, in the home of Mrs. Sybil Kinser with eight members and the agent, Mrs. Vida Kreklow, present.

The president, Mrs. Jo Woodward, presided. Under the order of business a name was selected for the club, Homemakers. Mrs. Jo Woodward was elected from this club as a delegate nominee to be submitted to the council. It was voted to change the meeting time from 9:30 a.m. to 9:00 a.m. on the third Wednesday of each month.

Next month each member will bring a "white elephant" gift to be sold to raise money for the club.

Vida gave a demonstration on making a fruit salad in a watermelon bowl which was delightful both in appearance and taste. The salad with cheese filled crackers, coffee and tea was served as refreshments.

The next meeting will be with Mrs. Clara Mae Donaldson on Aug. 17th. The demonstration will be on making quilts from nylon hose. —Rep., Mrs. Velma Tampke.

**Editorial Comment From Our Neighbors**

**A Nation Wrecker**

U. S. News & World Report, in a recent issue, featured a story on what to expect if inflation becomes the way of life in the U. S. It showed what happens when government fiscal policies in a country result in a permanent upward trend in price indices and the cost of living.

In brief, people lose interest in doing a good job. Shoddy workmanship and unreliability of the individual increases. Thrift is unknown. The chief victims of inflation are the elderly living on fixed incomes. Character erosion accompanies erosion of the value of money. U. S. News & World Report cites many examples in European countries, which have long accepted inflation as a way of life. In Britain, "Repairmen and various service workers tend to act as if they are doing the customer a favor by accepting an order." In Sweden, young people shun hard work and training—good pay is

easy to come by. The United States is already far down the inflationary road to irresponsibility.

No wonder Russian revolutionary Lenin once said that to ruin a capitalist society, one must destroy its money. Dictatorship is the alternative to capitalism and freedom. It is difficult to believe that the American people wish to sacrifice these on the altar of inflation. —McCamey News.

**Normal Is Abnormal**

There's a disturbing thing about the announcement that the cost of living increased three-tenths of 1% in June. That is that it is described as a "normal" increase.

It isn't. It's highly abnormal, in the sense that it continues a rise in living costs that has been faster in the last six months than at any time since the 8-year-old base period for measuring the consumer price index was established.

Higher food prices, higher medical costs and higher mortgage interest rates figured in this cost-of living climb, and at least the latter two increases are not normal. In fact, if month-to-month increases

es in any or all of the three become normal we're in for it.

Due to the rise in prices, consumer purchasing power went down in June, by the same fraction that the cost of living went up. Personal income increased at a fairly sharp rate. Put the three together—higher incomes, higher prices and lower purchasing power—and you have an indication of the effect of the inflation which President Johnson warned about only last week.

The cost-of-living rise might be termed normal in that the price index nearly always is seasonally higher in June. But the announcement described it as normal in the sense that the rise was almost exactly the same as the average monthly rise for the last 6 months. That's what makes it disturbing.

As everybody knows, the rise in costs during the last six months has been painfully sharp and considerably more than normal. When what is abnormal is accepted as normal it is time for concern. It is an example of inflation psychology at work. —Fort Worth Star-Telegram.

**In Those Days**  
Compiled From Success Files  
**ONE YEAR AGO**  
July 29, 1965—Mr. and Mrs. Ben Hext were to be honored on their Golden Wedding.  
Army Private First Class Robert Don Pike was wounded in action in Vietnam, and lost an eye.  
Coaches Jack Wilson and Jack Bell were to attend the State Coaching School in Dallas.

**FIVE YEARS AGO**  
July 27, 1961—Wayne McGinness and Larry McGinness were attending the Mt. Wesley camp at Kerrville.  
J. W. Tigrett leased the Java Junction cafe.  
Lum Davis was starting to build a new residence.  
A son was born to Mr. and Mrs. Monty Hill.  
The Official Board of the Methodist church approved installation of new stained glass windows in the sanctuary, and the project was expected to take several months.  
Ralph Fowler was undergoing treatments in the Veterans Hospital at Ft. Bayard, New Mexico.  
The Parent families attended a reunion at Altus, Oklahoma.

**12 YEARS AGO**  
July 29, 1964—Rev. Billy Smith, associate pastor of the Baptist church, was injured in a car wreck.  
Dr. W. E. Norman of Quanah was to preach at the revival coming up at the Baptist church.  
Mrs. Aubrey Lackey was moving her Loyce's Beauty Shop from the Roach building to the Long building.  
George Finley and W. R. Bearce emerged tops in the county 'jugs' race in the Democratic Primary. Incumbent was Elvis Craig.  
Donald Robinson of Ballinger spent the week end here with his grandmother, Mrs. Ruby Dameron.  
Mary Tisdale, daughter of Mr. and Mrs. Ray Tisdale, was attending the twirling school at McMurry College, Abilene.  
Norma Jean Alexander of Austin visited here with her grandmother, Mr. and Mrs. T. H. Alexander.

**35 YEARS AGO**  
July 31, 1931—Congressman R. E. Thomason spoke at the Confederate Soldiers reunion at Christoval.

A Santa Fe railroad bridge, 9 miles north of Eldorado, burned. A room was to be added to the Mexican school. Mrs. Clarence Knight was elected a new teacher for that school, to assist Mrs. Mary Davis.

Leigh Harkey, 39, of Sheffield, was stabbed to death at Iraan by William Wiley, 26. Harkey had lived in Christoval his early years and was a brother of Sheriff Sam Harkey of Sherwood.

A surprise barbecue party honored Miss Victoria Jones. Those present were Louise Williams, Estelle Johnson, Vivian Reagan, Elizabeth Bradley, Katherine Hill, Pauline and Rosalyn Jones, and Mr. and Mrs. E. W. Brooks, Mr. and Mrs. E. C. Hill, Mrs. T. K. Jones and Jack Jones.

Miss Louise Hinyard left for Austin to spend several days visiting Vivian Smith.

E. H. Sweatt and son, Fat, were here from the ranch in Pecos county to visit and attend the Old Soldiers reunion.

W. T. Whitten bought Reuben Dickens' interest in the Eldorado Auto Laundry.

J. D. Baker of Junction visited here while on his way to San Angelo to attend the Sheep and Goat Raisers meeting. He was a former local resident.

Miss Antoinette Alschier of Del Rio, State Health Nurse, was to speak at the court house, and was to conduct physical examinations for school children later.

E. N. Edmiston advertised that he was representative for the Rountree Sheep Dope.  
Rev. S. S. Batchelor, presiding elder of the San Angelo district, conducted the 3rd Quarterly Conference at the Methodist church.

**ELDORADO LODGE**

Sunday afternoon guests of the Frank Bradleys were Mr. and Mrs. Tom Bradley of Fife, and Mr. and Mrs. Tom Bradley, Jr., and daughter, Mary of Brady. The Bradleys also visited with the Richard Cheatams, the Clovis Taylors and the Charles Kelloggs. Mrs. Bradley, Sr., is an aunt of Mr. Cheatam and Mrs. Taylor.

Mrs. Evelyn Pennington and son Mickey returned home last Friday night from a two weeks vacation trip which included Yellowstone National Park. Their tour took them through Colorado, Utah, Idaho and Wyoming. They returned home thrilled—and broke.

WE HAVE lots small apples for sale at \$1.00 bushel. Also some plums at \$1.50. —Miltia and Katharine Hill.

FOR SALE: Small and convenient house; on choice 1.64 acres land in Christoval. Call 896-2216, in Christoval.

**EVERY ONE WHO IS SICK**  
needs this book  
to heal him

You can find your way back to health if you will prayerfully follow the instructions contained in Science and Health with Key to the Scriptures by Mary Baker Eddy. In this great book you will find a full explanation of the method of Christian Science healing.

Christian Science holds unwaveringly to the truth in the first chapter of Genesis that "God saw every thing that He had made, and, behold, it was very good." Thus Christian Science restores the invalid to health.

Science and Health may be read or examined, together with the Bible, at any Christian Science Reading Room. Of it may be purchased at \$3.

**Oil News**

If you stand in the middle of Main Street today and look southward (really southwest) an oil derrick looms up that looks like it is exactly in the middle of Main Street.

Actually it is about a mile away. It is the Mallard No. 1 Williams, and was drilling below 3,560 feet early this week.

Skelly No. 1 Royster drilling below 4,022 feet.

Texas Military Institute's Annual Summer School Awards Banquet was held on Tuesday, July 26, in the TMI Dining Room, in San Antonio. Floyd William West, the son of Mr. and Mrs. Jimmie West of Eldorado, received the Sportsmanship and Participation Senior Division Award.

Home from vacation are Mrs. F. M. Bradley and granddaughter, Judy Ann Lively who traveled to Houston, Galveston, LaMarque, Hitchcock, Kemah and Dickinson. They were guests in Dickinson of a granddaughter of Mrs. Bradley, and her family, Mr. and Mrs. Sherwood Barker and little daughter, Jamie Lyn. In Hitchcock they visited Mr. and Mrs. T. Locklin, aunt and uncle of Judy. They also spent one afternoon with Mrs. Byrl Clayton who formerly lived and taught school in Eldorado. A tour of NASA, and a trip to the Astrodome on Friday night to see a major league game were interesting highlights. They also saw the Battleship Texas, San Jacinto Monument and other places of interest.

Charles Wimer, Mr. and Mrs. Bill Gunstead and family, and Mr. and Mrs. Tom Stewart and children of Rankin all spent part of this week at the Wimer cabin on Lake Buchanan. They returned home Wednesday evening of this week.

Mrs. Sam McGinness returned a while back from a stay in the Big Spring hospital, and is continuing to make good progress at home.

Coach Ray Morgan, who is beginning his first year as Eagle coach, announces that August 6 has been set as time for Eagle football team members, and Jr. High football players, to undergo physical examinations for this fall's season.  
Aug. 6 is a Saturday and 1:00 p.m. will be the time. Dr. Dyer will come from Ozona to conduct the exams in the school gym, and Coach Morgan and the other coaches will assist him.

**Federal Land Bank Association**

**Mr. Farmer— Mr. Rancher:**

Too many short-term debts can cripple your total credit program, tie up operating capital and cause you to miss opportunities that require immediate funds. For these reasons, it can pay you to consolidate your short-term obligations with a long-term, low cost Land Bank loan on your farm or on your ranch.

A. E. Prugel, Manager  
**Federal Land Bank Assn.**  
Sonora, Texas

### Sales Tax Hike Is Being Pushed Again

The Texas Research League, which is financed by the big corporations in Texas, is apparently laying the groundwork for a sales tax increase next year.

In its periodical, "Analyzes," the League tries to show the advantages of either an increase in the percentage of the tax or removal of food and farm equipment exemptions.

Analyzes quotes the League's Tax Policy Committee as concluding:

"The Texas sales tax is relatively modest for all classes of consumers, but is especially so for agricultural and individual consumers."

The Research League, of course, was instrumental in passing the sales tax originally. Now, it appears to have the inside track on having its way on increasing this regressive tax.

In a letter to Gov. Connally and members of the legislature Rep. Ben Atwell, chairman of the Texas Committee on State and Local Tax Policy, wrote:

"It appears likely that additional revenues will have to be raised by the next session of the legislature."

"It seems appropriate that the sales tax—which is now the leading source of state tax revenue—be analyzed so that members of the legislature and the general public will be better informed . . ."

"Professional staff has been made available to the committee by the Texas Research League at no cost or obligation to the state."

Now comes the Research League to say:

"The sales tax stands out as far and away the most productive source of additional tax revenue within the confines of the existing state tax structure."

(No other considerations.)  
Though 36 states have personal income taxes and 38 have corporate income taxes, both of which are rather large tax producers for many states, the Research League dismisses them in five paragraphs.

This is not surprising, coming from an organization whose top officers are the head of a Beaumont bank, a Dallas insurance company and the Texas Capital Corporation.

Opposition.—The AFL-CIO executive board voted to vigorously oppose increasing in any manner the sales tax.

At the same time, the executive board said that should the state need additional revenue it ought to come first from natural resources tax or a corporate profits tax.

Texas is one of 12 states in the nation that has no income tax on corporation profits. —reprinted from Texas AFL-CIO News.

### Ex-Eldoradoan Killed In Vietnam

Danny Rutherford, who attended high school here a few years ago while his father worked as mechanic at George Humphrey's Ford garage, was reported killed Wednesday of last week when he stepped on a land mine in Vietnam where he had been serving with the Marines.

His parents are Louis Rutherford of Deming, N. M., and Susie Rutherford of California.

Young Rutherford was in school athletics while his family lived here, and was also in the Explorer Scouting program.

Louis Rutherford moved from here to Sonora to be deputy sheriff; his son, Danny, became an outstanding athlete in that school.

He was on the track team, and played football his junior and senior years, started in track his sophomore, junior and senior years and was runner-up in the state mile relay his junior year.

After graduating from Sonora High School in 1963, he enlisted in the Marine Corps.

Memorial services for Danny Rutherford were held Tuesday at 2:00 p.m. in St. John's Episcopal Church in Sonora. Graveside services will be held Saturday in El Paso National Cemetery.

### Mrs. Murray Buried

Mrs. Hattie Murray was buried in the Eldorado cemetery Monday afternoon. She died at the age of 84 on July 25 at Kerrville.

She was buried beside her husband who died Feb. 2, 1955, and two daughters. Her survivors are three nieces, Mrs. Floyd Jenks of Mercedes, Mrs. G. E. Frazier of Odessa, and Mrs. Sid Shipley of Christoval; and a sister, Mrs. Mattie Lee Webbs of Houston.

Rev. Kenneth Vaughan conducted graveside rites, and local arrangements were handled by the Rathiff-Kerbow Funeral Home.

The Murrays were members of the Baptist church while they lived here. They lived for a while on a place in the Hulldale area and he was also a barber.

### Funeral Held For Ralph W. Young

Ralph W. Young died in Fort Worth early last week where he had been employed as a body man for about two years. Funeral services were held Tuesday in Fort Worth and graveside rites were held Wednesday in San Angelo.

Young was formerly employed here as a truck driver for P. D. Haley. His son, Ralph Vernon Young, works for Andy Nixon.

The deceased was also a brother-in-law of R. V. Sheppard.

### Mrs. Tisdale Back From Trip To Ohio

Mrs. V. G. Tisdale returned Monday from a trip of several weeks to Dayton, Ohio, where she visited her son-in-law and daughter, Mr. and Mrs. W. H. Paff.

She also visited Mr. and Mrs. Frank Feight and two children. Mrs. Feight is the former Virgie Tinning.

Mrs. Tisdale visited Mr. and Mrs. Gene Mumford, their young daughter, and new baby son, Brian. Mrs. Mumford is the former Roxie Tinning.

Mrs. Tisdale was delayed three days in getting home, on account of the airlines strike in the Northeast, but she reports an enjoyable visit.

### Mrs. L. Wheeler Is Now In Nursing Home

Mrs. L. Wheeler was taken to the Sonora hospital Wednesday of last week, and was transferred Sunday to the Colonial Nursing Home in San Angelo.

Friends who might like to drop her a card or note, should address it as follows:

Mrs. L. Wheeler  
Room 27  
Colonial Nursing Home  
4215 Armstrong  
San Angelo, Texas 76901

Mrs. Sam Jones and Mrs. Frank Kinser are also currently in the Colonial Nursing Home from this county.

### Methodist Notes

A new Sunday School class of young adults has been organized and meets each Sunday morning at 9:45 in the parsonage living room. It is composed of college students home for the summer and other young people in their twenties.

Attending a week-long camp session at Mount Wesley, Kerrville, a while back were Shirley and Stella Hubble, Susan Hill, Libby Preston, and Maureen McCravey.

Palmer West and L. D. Mund spent last week at College Station attending the State Firemen's School. There were 438 Texas cities and towns represented.

The Lloyd Johnson family returned during the week end from a vacation trip to California where they visited relatives.

Mr. and Mrs. Orval Edmiston are in El Paso this week attending the State Sheriffs' Convention.

Mr. and Mrs. Clyde Perkins of Dumas visited here last week end with her mother, Mrs. Otto Sauer, and other relatives. They went by Van Horn early this week to visit the Wm. Sauer family on their way home.

The Jack Browning family left early this week to return to Van Horn after visiting relatives here.

Mr. and Mrs. Kenneth Pennington of Austin visited here over the week end with Mrs. Evelyn Pennington and the Delwood Blairs.

Mr. and Mrs. Gus Love spent a few days recently at Kingsland on Lake Lyndon B. Johnson. They returned home last Friday.

### News Of The Sick

A. M. Whitis is still in the hospital at San Antonio this week and is continuing to make satisfactory improvement from his heart attack of last week.

Mrs. W. L. McWhorter was undergoing tests this week in a San Angelo hospital.

A STAR-SPANGLED ANNIVERSARY ALBUM

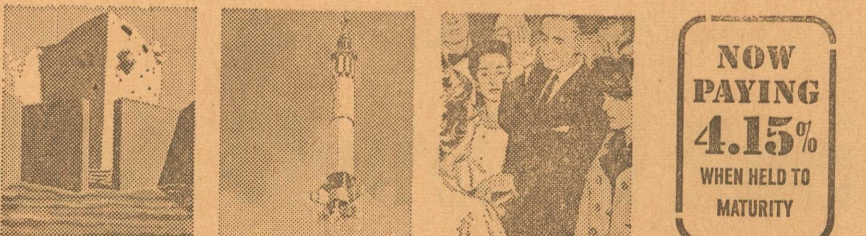

### 25 year history of U.S. Savings Bonds

1941: FDR buys first Series E Defense Bond, May 1. Attack on Pearl Harbor, Dec. 7, changes Defense Bonds to War Bonds.  
1944: June 6 — D Day. Allied forces land in France. Series E Bonds hit record sale of \$12,380 million for the year.  
1945: World War II ends. Americans own \$30.7 billion in War Bonds to invest in peacetime living. They spend a few, keep on buying.  
1948: Berlin Airlift — U. S. British planes fly in food, clothing, medical supplies. Bonds go to work in the Cold War.

1950: President Harry Truman orders United States military aid sent to Korea; United Nations supports decision.  
1951: Kefauver Crime Commission hearings on TV. Earliest E Bonds mature; Treasury offers ten-year extension privilege.  
1953: Dr. Jonas E. Salk develops polio vaccine after years of research. Britain's Queen Elizabeth is crowned.  
1956: Don Larsen, Yankee ace, hurls first perfect Series game. Survey shows 9% of Payroll Savers like this plan.

1959: St. Lawrence Seaway opens April 25. \$17 billion in E Bonds over 10 years old.  
1961: Astronaut Alan B. Shepard, Jr. hurtled into space from Cape Canaveral. Second ten-year extension begins on 1941 E Bonds.  
1963: John F. Kennedy assassinated; Lyndon B. Johnson sworn in by Judge Sarah T. Hughes.  
1966: Savings Bonds' 25th Anniversary. New 4.15% interest rate announced.

## Officers And Committees Are At Work As New Year Is Launched By The Eldorado Lions Club

Charles A. Wimer as president heads the Eldorado Lions Club which recently began its 1966-67 year of community service. Wimer succeeded Ray Boyer as top officer of the club on July 1st.

"Our Goal—Community Betterment" is printed on the front of the new club rosters, and that has been the purpose of the local club since it was founded back in 1928, with the late Joab Campbell as first president.

Other officers for the new year getting under way are: W. M. Rountree, first vice-president; Curtis T. Humphries, 2nd vice-pres.; and A. G. McCormack, 3rd vice-pres.

T. R. Spence is secretary-treasurer again this year. L. D. Mund is Lion Tamer, and Bud Davidson is Tail Twister.

Directors are Eldon Calk, Chester Wheeler, Granvil Hext, and L. E. McCalla.

Harvey Palmer of San Angelo is District Governor, having succeeded George Thompson of Sweetwater. Horace Heath of San Angelo is cabinet secretary-treasurer.

A highlight of the club year just closed came when the Eldorado Lions Club assisted in the organization of the Eldorado East Side Lions Club, composed of Latin American men and which meets the first and third Thursday nights of each month. Domingo Pina is president and the club received its charter in May.

The Lions club has been sponsor of the Scouting programs here since its founding, and in many other ways has contributed to the betterment of the area.

#### Privileged Member

Ernest C. Hill

of being King of the cash crops of the area. Synthetics, lost foreign markets and domestic mill demand for better quality cotton than we are in the habit of producing are just some of the many problems confronting cotton and posing a tremendous challenge to the economy of Schleicher county. A plan of attack based on local county cotton producers organizations should be of interest to all county farmers and businessmen.

Among other topics to be discussed will be the Cotton Research and Promotion Act which has passed Congress and will be presented for a vote in referendum to all farmers in the near future. The RPCG is attempting to provide information on the Act to all Rolling Plains farmers so they might thoroughly understand its contents.

W. G. Godwin, Schleicher County Agriculture Agent, will bring a report of the latest insect situation as determined by the insect survey teams working under his supervision. The teams are provided by the Rolling Plains Cotton Growers on a matching fund basis with the Texas Dept. of Agriculture for the purpose of providing research information on the habit of Rolling Plains insects, particularly the boll weevil.

Also, a director will be elected from Schleicher county to the Rolling Plains Cotton Growers. George Mikeska and Bill McWhorter are currently serving as directors. Mikeska's term expires this year and his position will be up for election.

Charles Stenholm, executive vice president of RPCG, joins the directors in urging all cotton producers and interested businessmen to attend this meeting which offers a positive approach to the cotton situations in the Rolling Plains area.

#### On The Screen . . .

### Westerns & 'Harlow' Set For Showing

Two Western motion pictures and the story of film actress Jean Harlow, who died in 1937, are set for showing on the Eagle Drive-In Theatre screen.

"Town Tamer", now showing, stars Dana Andrews and Terry Moore, and "Incident At Phantom Hill" to be shown Friday and Saturday nights, has Robert Fuller, Jocelyn Lane and Dan Durvey in the cast. Both of these Westerns are in color and promise lots of action and entertainment.

Joe Levine produced "Harlow", which is in color and which comes to the local screen Sunday and Monday nights.

Levine's "Harlow" promises to be as big and expansive as its produ-

### Who Owns My Bank?

Only Production Credit Association borrowers say,

"I DO!"

Borrowers of the Texas PCA own their own loan company. That's the reason the interest costs are low. He is assured of courteous and interested consideration because he can say: "WE GET OUR MONEY FROM OUR OWN 'OUTFIT'!"

Phil H. Lane, Mgr.

cer. Everything he does is big and expansive.

He is, first of all, a showman—the modern-day Barnum, the man who kicked off "Hercules" with full page newspaper ads and mass bookings all over the country on the same day (147 theaters in the New York area alone). "Hercules" was a quickie. But it cost \$120,000 and grossed \$20 million.

Levine has given us pictures like "8½", "Two Women", "Divorce—Italian Style", "Long Day's Journey Into Night", and the highly commercial "The Carpetbaggers."

The big thing in his life now,

though, is Paramount's "Harlow." The big cast around Carroll Baker includes Peter Lawford, Red Buttons, Raf Vallone, Angela Lansbury, Martin Balsam and Michael Connors.

In the title role, Carroll Baker can be expected to give a good performance as the platinum-haired actress of a generation ago.

Jean Harlow's original movies which have cropped up for the late-late showings on T-V screens have included: "Red Dust", "Red Headed Woman", "Bombshell", "Reckless", "Personal Property", etc.

#### THIS WEEK MARKS OUR

## 7th ANNIVERSARY

in business as your Fina dealer, since we held Open House in our newly-completed station back in July of 1959.

We appreciate the support you have given us in the 7 years since then, and invite you to keep coming here for Grease, Oil and Filter Change, Tire Switching, Tires and Tubes and Batteries, and let us fill your tank with that fine Fina gasoline.

Having completed 7 good years in business, we pledge the next 7 to continue to give you a friendly welcome, front windshield clean, back window clean, under-hood check, and tire check whenever you stop by. Thanks again for your patronage.

### Home Ec. Teacher To Dallas Meeting

Miss Dana Ray Owens, home-making teacher in the Eldorado High School, will participate in the State In-Service Education Conference for Homemaking Teachers to be held at the Statler-Hilton Hotel, Dallas, August 1-5. The meeting theme will be, "Quality Programs in Home Economics Education." Guest speaker for the opening general session on Monday

night will be L. P. Sturgeon, Executive Director of Governmental and Public Relations, Texas State Teachers Association, Austin. The meeting will open at 7:30 p.m. in the Grand Ballroom.

Conference topics to be developed will include: unique contributions of home economics to vocational education; up-dating curriculum; developing wage-earning programs; provisions for establishing quality programs.

Nationally-known consultants leading general sessions include Dr. Elizabeth Jane Simpson, chair-

man, Home Economics Education Division, Department of Vocational and Technical Education, University of Illinois, Urbana, and Dr. Johnnie Christian, Regional Home Economics Representative, Division of Vocational and Technical Education, United States Office of Education, Region VII, Dallas.

Consultants from the State Department of Education in Austin will include J. W. Edgar, State Commissioner of Education; M. A. Browning, Assistant Commissioner for Vocational Education; Joe B. Neely, Program Development, Evaluation and Coordination of Vocational Education; and Rogers L. Barton, Executive Director, Division of Innovation and Assessment.

Also on the agenda for the week is the Third Annual Meeting of the Vocational Homemaking Teachers Association of Texas. The main speaker, Miss Mary Ellis, Director of Field Services, American Vocational Association, Washington, D. C., will talk on "Issues and Challenges with the Vocational Education Program of Tomorrow." The association will honor Miss Ruth Huey, retiring Director of Vocational Homemaking Education, State Department of Education, with a dinner. The program will include tributes from friends and associates and will span her career.

Approximately 2,000 homemaking teachers are expected to attend the meetings. The home economics education program in the state is under the direction of the Division of Homemaking Education, State Department of Education, with Miss Ruth Huey, Austin, as Division Director. Teachers meet annually for training in new developments and trends in homemaking education.

### Cotton Producers To Meet Tonight At 8:00

There will be a meeting for all county cotton producers Thursday night, July 28, in the Memorial Building at Eldorado beginning at 8:00 p.m.

The meeting sponsored by the Rolling Plains Cotton Growers is one of a series of 31 county meetings which will be held throughout the Rolling Plains for the purpose of organizing local county cotton improvement associations to begin to combat the problems of cotton in an organized effort.

Anyone who raises cotton in Schleicher county recognizes that cotton is at the crossroads of a life

### NOTEBOOK-PATTERNS FOR PROGRESS

#### INDUSTRIAL SITES AND BUILDINGS

...basic for new and expanding industry

Industries' requirements for land and buildings are one of their most important interests when selecting a town in which to operate. Each industry has its own peculiar needs. Therefore, a wide variety of different type industrial sites gives a community increased chances of obtaining new industry as well as helping its existing industry to expand. Planning and zoning by a community is important to the community as well as to industry. Land is now available in West Texas. Wise planning for the future can easily be accomplished.

**INDUSTRIAL SITES**—range from industrial parks, planned industrial districts, individual sites (with all utilities) to raw land to be developed. Communities desiring new industry should have the following information on firmly committed industrial sites . . .

**PLATS**—Showing size, shape, location of utilities, access to transportation and topography.

**LOCATION**—Inside or outside of the city and any zoning restrictions.

**PICTURES**—Aerial photos tell an excellent story on an industrial site.

**INDUSTRIAL BUILDINGS**—existing buildings are very important as they are usually available at a lower cost than building new ones. In addition to the above information on sites, a community should have the following information on buildings. . .

**FLOOR PLAN**—Showing the size and dimensions of building, wall and ceiling heights, floor bearing capacity, office space, whether it has sprinkler system for fire protection and what type heating and air conditioning would be available.

**PICTURES**—Show the type construction of the building as well as many other items of information that industry would be interested in.

**VIP (Very Important Part)**—Have firm commitments in writing on all industrial sites and buildings as to sale price and/or lease price, cost of extending utilities or roads and basic construction costs in the area for new facilities.

Ask your WTU local manager for additional information and services available.

Prepared by Area Development Department, West Texas Utilities.
