## Hilary Doran Provides Legal Help to Hospital Committee

Hilary Doran, attorney at law, Del Rio, won the nomination in the Democratic primary as State Representative from the 65th Legislative district which now includes Schleicher county. Although the nomination is equivalent to election, Mr. Doran will not be officially elected until returns are in from the general election Tuesday, Nov. 8, and he won't take office until Jan. 1st.

This, however, is not preventing Mr. Doran from already being of assistance to his future constituents, and this week Eldorado's Hospital Executive Committee acknowledges the first of such assistance. The committee had turned to Doran for information on legal steps necessary in the formation of a Hospital District and on Monday received from him a sheaf of material dealing with the problem.

In his letter he specified that the creation of a Hospital District is governed by Section 9, Article 9, of the Constitution. It specifies the requirements that must be met in the creation of such Districts and their powers and responsibilities. There are two main conditions that PRECEDE the establishment of a District . . .

(1) An act passed by the Legislature, specifying the territory to be included. (In our case it would be the boundaries of the county.)

(2) Following that, it takes approval by a majority vote of the "qualified property tax paying electors" of the county, at a special election.

Our readers should notice the sequence of these two steps— FIRST the Legislature passes a bill creating the district.

AFTER that has been done, voters of the county can confirm or reject the proposition. Passage of the bill in the Legislature does not put the District in business until voters of the county confirm it.

This, then, is the first step in establishing a Hospital District and providing for a hospital and nursing home.

Don McCormick, who recently accepted the chairmanship of a three-man executive committee to promote the Hospital District, has been calling committee meetings and making inquiries, and has received Doran's material as a result.

Assisting McCormick are John Williams and Duane Branham on the steering committee, and others are providing assistance in specific fields.

HILARY DORAN

## Doe Permits To Be Issued At Courthouse

The Texas Parks and Wildlife Department announced that antlerless deer permits will be issued for Schleicher county on Nov. 3 and 4, from 8:00 a.m. to 5:00 p.m., in Eldorado, Texas, at the county courthouse.

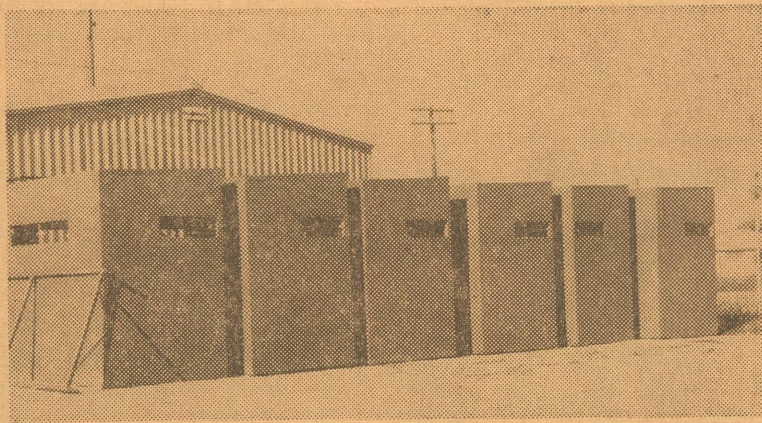

Landowners or their agents are urged to be present to obtain their permits during the period scheduled for permit issuance. A map of the county showing compartments and rate of issuance will be posted in the courthouse.

## Gin Report

As of Tuesday night, 37 bales had been processed at Mike's Gin in Eldorado, as compared to 1900 bales at this time last year.

A dusty, bone-chilling norther blew in about 4:30 Tuesday afternoon which dropped temperatures down into the 30's by Wednesday morning. Whether there was an actual frost is not reported by cotton farmers who would welcome a good frost at this time to hasten defoliation of the stalks.

## Getting All Set For Comfortable Deer Hunting

THE LITTLE HOUSES GO ON TOP OF THE TOWER

dations climbs the tower and enters the house through a small door. Inside he arranges his paraphernalia and settles down to survey the surrounding landscape. Small, sliding windows—or portholes—enable him to spot the unwary buck that wanders into the area. After he has made his shot he can close the small sliding window and keep out the wind and cold. And if the weather is really cold, no doubt a small portable heater would keep one as snug as a bug in a rug.

Gibson says that as soon as the first of these were made and displayed, other ranchers were intrigued with the idea, and now he has more orders for his towers than he is likely to be able to fill.

The deer this year are said to be in large numbers and in good (fat) condition. No doubt there will be a big influx of out-of-county hunters who want to have their game—and their comfort too. Schleicher ranchers are preparing to provide it.

With the weather acting up as it has this year, there are those who are predicting an early winter with lots of cold and disagreeable weather. That kind of weather makes good hunting but it is hell on the hunters.

## Bulletin Board

### HOW THEY CAME OUT

#### LAST WEEK:

Rankin at Junction  
Menard at Iraan  
Ozona at Sanderson

## Motorcade To Sonora

Football fans who plan to go to Sonora Friday night for the big game have been asked to meet at the school at 6:00 p.m. that day to form a motorcade.

Cars will be adorned with crepe-paper streamers, placards, and other decorations in our school colors.

## 30-YEAR FIRESTONE AWARD

Akron, Ohio—Forty-one independent dealers of The Firestone Tire & Rubber Company received service awards during September.

Dealers who completed 30 years service with the company during the month included Lum Davis of Eldorado, Texas.

## News of the Sick

Whit Smith was continuing to make improvement this week in the Sonora hospital.

Ken Rosford flew home Tuesday from the medical center at Kansas City, Kansas, where he underwent heart surgery and subsequent convalescence.

O. B. Bradshaw, former Eldorado resident, was still in Shannon hospital early this week.

Mrs. Leslie Baker came home Tuesday following a stay in the Clinic-Hospital.

## Biggest Test at Sonora Tomorrow

Although his scraggy unshaven chin could hardly be termed as "bearded," the "Old Professor of Football" absent-mindedly stroked these bristles as he finished examining the 8A football record book for the past week. "Hmmm," he mused.

"So Jerry Hopkins' Sonora Broncos had to take to the air to win over the Rankin Red Devils. I guess if they are going to take on airs about that district championship and more, it is their turn to take a real test," he mused. "That 'Thin Green Line' at Eldorado should be about ready now not to pay much attention to weight and to give Laney Cook some experience in 'scrambling.' And that Eldorado offense should challenge those Bronc defenders. Indeed," he concluded, "Friday night's contest could correctly be called the 'self picked' champions versus the 'kid challengers.' If the Broncos pass this one, they just about have District 8A made," and the Old Professor slowly closed his book and leaned back contentedly.

Facts are that the Sonora Broncos are fortunate in that they are uniformly strong in every one of their

11 positions. They possess poise, polish, and competitive spirit, and probably feel that other than San Angelo Central, they are the best in the state.

They have an unblemished record to date, having beaten Ballinger 12-6, Mason 12-7, Ozona 33-6, Junction 32-13, and Rankin 28-14. (And on Oct. 15, 1965, they handed our Eagles the losing end of a 21-0 score.)

They utilize "Wing T" formation offensively with as many as eight variations, employing their outstanding pass receiver No. 44, Noe Chavez as a split and on occasion as a wing back. Chavez's first job is to catch QB Laney Cook's aeriels and Chavez's big strong hands and twinkling heels make him a dangerous threat indeed for all opponents.

The Broncos have as standard features of their strong ground attack a powersweep—a multitude of blockers on a wide end run—with at least four men preceding the ball carrier, usually running to the wing back side. This effort has as a complement a strong counter play. They also have an assortment of traps, reverses, dives, etc., which so versatile and well bal-

anced team has developed and can use effectively.

They may appear as primarily a passing team but their relentless ground attack sets up the "Cook to Chavez" missile raids. Their pass-ground play ratio runs about 50-50 and opponents can expect from 15 to 30 opportunities to defend against air attack in an evening's play.

Defensively the Broncos set up a four or five-man front with three secondary defenders, and the remainder as line backers as occasion determines.

They are well coached and fundamentally sound ball club and truly present a rugged test for the Eldorado Eagles. Their starting lineup will probably be as follows:

No.	Name	Pos.	Wt.
44	Noe Chavez	-----	LE 140
70	M. Lillard	-----	LT 185
60	A. Castro	-----	LG 170
51	B. Bloodworth	-----	C 180
61	B. Johnson	-----	RG 180
73	A. Letsinger	-----	RT 195
83	N. Perez	-----	RE 170
22	E. L. Renfro	-----	LHB 165
30	M. Gosney	-----	PB 170
21	E. Barrera	-----	WB 140
11	L. Cook	-----	QB 175

Eagle coaches said this week that they planned no change in tactics but would practice ball control to maximum ability and encourage the "Thin Green Line" to keep the Broncos off balance as much as possible.

Eagle coaches speculate on the fact that the 1966 season has not seen the Broncos in a really discouraging situation and they wonder what would happen should the well oiled Bronc machine encounter severe and unfamiliar stresses.

The Eagles are definitely underdogs and challengers in this contest as area sports writers will in all probability pick the Broncos in the weekly poll. But one moonlight night a few years ago . . .

## Bonfire Tonight to Rally Sonora Game

The Ozona Jr. High and B teams come here tonight, Thursday, for games, after which the Student Council will stage a bonfire and pep rally for the Eagles' game coming up at Sonora Friday night. The game with Sonora is always THE contest of the football season for Eagles and fans.

The Ozona 7th graders will play the locals today at 5:00; the 8th grade game will be at 6:00 followed at 7:30 by the B teams' game.

Raymond Mittel is faculty sponsor of the Student Council and Bobby DeLong is president. They invite the public to attend. Speakers will include Billy McCravey, Jack Jones, and Bobby Sykes.

## Eagles Win 29 To 0 Over Iraan Last Friday

The Iraan Braves made a game of it last Friday night until halfway in the second quarter when their roof caved in as the Eldorado Eagles exploded for three touchdowns and 22 points before the half ended. Statistics show that the "Thin Green Line" throttled determined Iraan efforts so much so that Iraan did not tab a first down in the first quarter and only two in the first half.

Eldorado		Iraan
17	First Downs	7
211	Yds. Rushing	70
136	Yards passing	65
8of19	passes completed	4of12
2	passes intercepted	0
0	fumbles lost	0
6for31	punts & av.	8for38

The first quarter was a scoreless and bruising preliminary; but midway in the second quarter Pat Childers changed the scoreboard lights for the first Eagle tally after the Eagles took an Iraan punt about the 50-yard line. Nine plays later Childers smashed over from six yards out. The try for extra point was no good.

On the fourth play after the kick-off, Iraan punted and Eldorado took over on Iraan's 40. QB D. Halbert then fired an aerial to D. Rogers some 30 yards downfield who raced the remaining 10 yards to score. For the extra point, D. Halbert faked a place kick but passes to J. Bosman for two points

## Comment

In last Friday night's Brave-Eagle contest, the four Eagle backs posted interesting figures for ground gains. They go like this:

D. Halbert	-----	33 yards
J. Halbert	-----	57 yards
R. Davidson	-----	58 yards
P. Childers	-----	73 yards

Problem for the Grandstand Coaches: Which man should be "keyed" on?

to increase candle power output on the scoreboard.

Eldorado kicked off again and two plays later, J. Bosman staged a successful robbery in midfield wrestling a pass out of the arms

—(Continued On Page 5)—

## School News

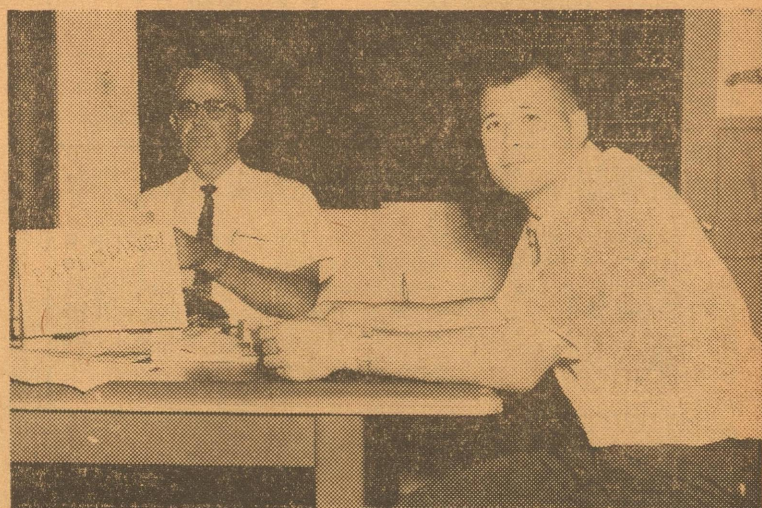

Thursday and Friday of this week are "Western Days" at school.

Lisa McAngus and Willie Manning are showing some calves this week at the State Fair of Texas, at Dallas. Glynn Hill, vocational ag. instructor, was also in Dallas and Fred Case served as his substitute.

Ozona Jr. High and "B" games are being played here tonight, and tomorrow night the Eagles meet the Sonora Broncos at Sonora.

At last week's Iraan game, Kay Sanders was crowned Band Queen and Nancy Kay Jurecek was named Football Sweetheart.

## Explorer Scout Post Re-Organized For New Year

Buddy White, new advisor of the Explorer Scout Post, is shown with J. B. Morris, Scout Executive from the San Angelo office, at a recent meeting at which plans were made to reorganize the local Explorer Scouting program. Post officers have been elected, headed by Buddy Calk.

## Not Guilty Rendered In Theft Charge

After deliberating about five hours Monday night, a jury rendered a verdict of not guilty in the case of the state vs. Eddie Carl Paxton of San Angelo, who was charged with theft of two saddles from the Jess Koy ranch last December 15th.

The jury was impaneled Monday morning, and arguments were under way by afternoon. Paxton, a former employee of Koy, was represented by Luther Lynn of San Angelo. District Atty Frank Dickey based his case on circumstantial evidence of bootprints found around the Koy barn, and Paxton and an accomplice being found guilty that night of trespassing on the Koy place, for which they paid a fine in B. L. Blakeway's J. P. Court.

Game Warden Bill Works, Sheriff Orval Edmiston and Deputy Sheriff Jack Jones also gave testimony for Dickey.

Court convened at 5:30 p.m. on Monday for the charge to the jury read by County Clerk Enochs, and final summations by County Attorney T. P. Robinson, Dist. Atty. Dickey, and Lynn, the defense counsel.

The jury retired at 6:30 p.m., and deliberated until about 11:30, before returning their not guilty verdict. Jimmy Powell was jury foreman.

Two other civil cases came before Judge Mays' session of District Court Monday, and were settled. These were Claude I. Cash vs. Texas Employers Insurance Association, and Ronald D. Ross vs. The Travelers Insurance Co.

### Registration On For Scholarship Tests

Eldorado High School students who expect to complete their secondary school requirements and to enter college in 1968 can register now to participate in the 1967-68 National Merit Scholarship Program, Principal Guy Whitaker announced today.

The first step for all students who wish to enter the nationwide competition is to take the National Merit Scholarship Qualifying Test (NMQST), which will be given in the school at 9:00 a.m., Saturday, February 25, 1967.

Participating students pay a \$1 fee, which is remitted by the school to Science Research Associates (SRA), the testing agency. When the test is given on a Saturday, the school may charge an additional fee up to \$1 for special administrative costs of testing on a nonschool day. If a student is unable to pay the testing fee, it will be paid by the National Merit Scholarship Corporation (NMSC) at the request of his school.

In addition to competing for the Merit Scholarships to be awarded in 1968, students can take the test to obtain information useful in planning their future education and careers. With his NMQST scores, each participating student will receive a handbook to help him evaluate his scores, compare his performance with that of other high school students across the country, and give him information on choosing a college and financing his education. The handbook and other interpretive materials are furnished as a part of reporting the test results.

The highest-scoring students in each state will be named Semifinalists and will be eligible for Merit Scholarship consideration. In addition to the National Merit Scholarships financed by NMSC, more than 350 business corporations, foundations, colleges, professional associations, unions, trusts, other organizations, and individuals offer scholarships through the Merit Program.

About 13,440 students have won Merit Scholarships in the 11 Merit Programs to date. Some 2330 Merit Scholarships were awarded in 1966 with stipends ranging from \$100 to \$1,500 per year for four college years. The amount of a winner's award is determined by assessing the financial assistance he will need to attend the college of his choice.

### One-Act Plays Cast

CASTING has been completed for the school Speech and Drama Club's three one-act plays to tentatively be presented on November 21st.

- Cast were the following:
- The Ghost of Distinction**  
 The Ghost.....Rusty Meador  
 Ivy, the maid.....Terry Martin  
 Mrs. Graves, the house-keeper.....Martha Sue Page  
 Mrs. Updyke, searching for the ghost.....Libby Preston  
 Blanche, her daughter.....Elaine Dempsey  
 Helen Sullivan, Blanche's friend.....Susan Mobley
  - The Friends of Valerie Lane**  
 Dr. John Parkinson, the detective.....Mickey Pennington  
 Rhona Crawford, an artist.....Susan Mobley  
 Walter Hughes.....Ronnie DeLong  
 Barbara Mason, an actress.....Kay Sanders  
 Desmond Ifley, a newspaper man.....Steve Whitten  
 Valerie Lane, a deceased actress.....Nan Sauer
  - Three's a Crowd**  
 Eddie Johnson.....Buddy Calk  
 Madeline, Eddie's date.....Connie Sue Speck  
 Ellen, Madeline's little sister.....Sallie Janes  
 Elmer, Eddie's cousin.....Keith Williams  
 Mr. Johnson, Eddie's father.....Jimmy Mercer  
 Kathy Robinson is stage manager and assistant director for the productions.

### 8TH GRADE GAME

The Eaglets 8th graders lost to the Sonora 8th graders 28-6 in the game in Sonora last Thursday.

Keith Williams made the only touchdown on a 45-yard plunge.

Monday an addition was made to the 8th grade football team. Robert Porter from Rankin transferred to Eldorado. He was the fullback in Rankin.

Our 8th graders' next game is at 6:00 p.m. today, (Thurs.) with Ozona here.

### NEW CLASS ORGANIZED AT FIRST BAPTIST CHURCH

The organizational meeting of the Kum Ba Ya Sunday School class was held Sunday morning.

Officers elected are as follows: President.....Kathy Robinson  
 Vice-Pres.....Carolyn O'Harrow  
 Sec.....Sallie Janes  
 Social Chairman.....Elaine Dempsey  
 Group Captains.....Kay Mann, Lisa Whitten, Kathleen O'Harrow  
 Mrs. Arch Mittel is teacher of the class.

### Donaldson Twins Are Now In Viet Nam

Pfc. Larry Donaldson and Pfc. Gary Donaldson, twin sons of Mr. and Mrs. E. G. Donaldson, have arrived in Viet Nam.

They left Travis Air Force Base, Calif., by jet on Sept. 26, and flew non-stop to Tokyo, Japan. After refueling they continued on to Saigon, Viet Nam. It was a 20-hour flight. They report it was a very beautiful flight but very confusing when crossing the international date line.

From Saigon they were taken by bus to a compound near there, where they spent several days. From there they were flown to their present assignment at Pleiku, 30 miles east of the Cambodia border. They report it is much cooler there than at Saigon, and rains most of the time. They said if the war were taken out of Viet Nam it would be a beautiful country.

They are assigned to the 299th Engr. Headquarters Co. at Pleiku. They both have the same mailing address, as follows:

- Pfc. Larry E. Donaldson  
 US54380916
- Pfc. Gary K. Donaldson  
 US54380917  
 299th Engr. Bn.  
 Headquarters Co.  
 APO San Francisco, Cal 96318

### Former Missionary To Speak Sunday

Miss Martha Irene Nixon will speak at the Methodist church this Sunday at 7:00 p.m. A missionary in Mexico for 46 years, she has served in various areas, but most of her time was spent in Centro Cristiano in Chihuahua, Mexico. She served as the Director of the Mission School there for the last 13 years. Under her leadership the school, which is in the heart of the city, was completely rebuilt.

The school has both day and night classes. English and Business Administration are taught. An athletic program is under the direction of a PE teacher. A Day Nursery is maintained and is open six days a week until 6:00 p.m. The nursery is free for those who cannot pay anything.

Besides this school, the Womans' Society of Christian Service of the Methodist Church has a secondary school, a hostel, a large hospital, and a church in Chihuahua.

Miss Nixon was born in Killeen, Texas. She is a graduate of Scarritt College, Nashville, Tennessee. This school is the major missionary training center of The Methodist Church. Miss Nixon's father, a medical missionary to Mexico, died at an early age of yellow fever. A sister and a brother were born in Mexico. Miss Nixon officially retired this past July. She remains free from inactive, however, and has a very busy speaking schedule.

Mrs. C. M. Nyquist will be with Miss Nixon, a long a close friend. Both will be staying at the home of the P. S. Dudley while in Eldorado. The Commission on Missions is sponsoring Miss Nixon's speaking engagement here and Mrs. Dudley, Commission Chairman, extends an invitation to everyone to hear this woman who has given most of her life to the mission field.

SALES PADS for sale at the Success office.

### To Be 85 Sunday

W. O. ALEXANDER

Coming up this Sunday will be the 85th birthday of W. O. Alexander, retired bank official and lifelong resident of this area.

The Alexanders will probably have some of their sons and their families on hand to help in the observance of this event.

### 7TH GRADE GAME

Last Thursday night, the Seventh Grade Eaglets went against the 7th grade Broncos in their second game of the season. Archie Nixon made the only touchdown on a 40-yard run to tie the score 6-6 which was a final score.

The entire team did a good job. The next game is with Ozona (here) on Thursday at 5:00 p.m.

### VETERANS' LAND BOARD SALE

The Veterans' Land Board will receive sealed bids at the General Land Office, Austin, Texas, until 10:00 o'clock A.M., November 15, 1966, for the sale of 104 tracts of land. 93 tracts offered to eligible Texas Veterans only in Briscoe, Brown, Caldwell, Cameron, Culberson, Deaf Smith, Denton, Dimmit, Gaines, Hidalgo, Hunt, Jasper, Kimble, Lamar, Limestone, Maverick, McCulloch, Medina, Montgomery, Nacogdoches, Newton, Orange, Parker, Reeves, Runnels, Smith, Ward, Webb, Williamson, Winkler, Uvalde & Zavala Counties. 11 tracts offered to non-veterans and eligible Texas Veterans in Erath, Hidalgo, Maverick, Uvalde & Zavala Counties.

Tracts may be financed through the Veterans' Land Program. For information and listing of tracts write to:

**JERRY SADLER**  
 Commissioner of the General Land Office  
 Chairman of the Veterans' Land Board  
 Austin, Texas

### The Absentee Vote

In close elections, the absentee vote often decides the issue. In the 1960 presidential election, Richard M. Nixon carried the state of California by the absentee vote. There are countless examples of absentee votes making "the" difference between defeat and victory in close elections.

It has been estimated that there are nearly a million Americans presently outside the continental limits of the United States. In addition to this, there are always countless thousands of potential voters away from their home precincts on Election Day but still within the borders of the United States. The mobility of the American people makes the absentee ballot a highly significant factor in every election. It enables millions of American citizens who would otherwise be disenfranchised to cast a ballot for the man of their choice.

If you expect to be away from your permanent residence on Election Day, you owe it to yourself as a citizen to obtain an absentee ballot. The right to vote is the most fundamental of our rights. The behavior and performance of office-holders, at every level of government, is dictated by the knowledge that periodically they must come before the bar of public opinion in the polling booths. The caliber of men in public life is a direct reflection of the wisdom and judgment exercised by the voters. When it is time to vote, you are the only person in the booth. If you cannot be there personally, let the absentee ballot serve as your proxy.

Locally, absentee voting began yesterday, Wednesday, in the office of J. P. Enochs, county and district clerk.

### Brownie Troop 150

Troop 150 met at the Memorial Building on Thursday from 2:45 to 4:00. They had a get acquainted party.

Refreshments were served by Brenda Bruce. Girls attending the meeting were: Carolyn Bland, Brenda Bruce, Vicky Cheatham, Sherry Dockal, Kim Griffin, Cindy Jackson, Judy Reynolds, Vicki Rowe, Darla Sheppard, Rosa Marie Smith, Charlene Warnock, Terrie Fatheree, Janis Mikeška, and Marcella Vaughan. —Rep.

### MERRY MAKERS MEET

Miss John Alexander was hostess Thursday, Oct. 13, when the club met in the dining room of the Java Junction Cafe.

There were three tables of players, including two guests, Mrs. Myrtle Galbreath and Mrs. Mary Palmer.

Refreshments of pie and coffee were served by the hostesses. —Mrs. Claude Doyle, Rep.

### HONORED ON ANNIVERSARY

Mr. and Mrs. Ray Boyer observed their 29th wedding anniversary at their home Sunday, Oct. 16th.

Present were their sons, Larry of San Angelo, and Danny of the home; and their daughter, Ila Jean, Mrs. Johnny Carothers of Waco; and the families of Larry and Ila.

Mr. and Mrs. Tom Stewart and Quinton, Teresa and Cloris Ann of Rankin visited here over the week end with her father, Charles Wimer, and sister, Mrs. Bill Gunstead. The Stewarts are moving this week to Midland where he has new assignment at Northern Natural Gas Company's Sprayberry plant.

Mr. and Mrs. Danny Dunagan and baby daughter moved from here Saturday to Alpine where he will attend Sul Ross College. They lived here in Raymon Mobley's rent house on Angelo hwy., & Mrs. Dunagan is the former Mary Leigh Tisdale. He was employed here by El Dorado Woolens.

Mr. and Mrs. Granvil Hext visited their daughter and son-in-law, Mr. and Mrs. Herman Walker, Jr., in Lubbock last Wednesday and Thursday.

### School Menus

Monday, Oct. 24: Meatloaf, baked potatoes, carrot & apple & cabbage salad, green beans, mushroom sauce, buttered rolls, milk, canned fruit.

Tuesday, Oct. 25: Roast beef and gravy, creamed potatoes, whole kernel corn, tossed green salad, buttered rolls, butter, date and raisin cake.

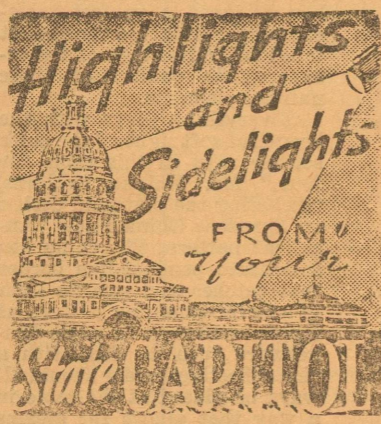

Wed., Oct. 26: Beef & vegetable stew, cheese strips, cole slaw with raisins and pineapple, buttered rolls, milk, fresh fruit cup, chocolate brownies.

Thursday, Oct. 27: Turkey and dressing, sweet potatoes, English peas, strawberry congealed salad, buttered rolls, milk, pudding.

Friday, Oct. 28: Fish filets, tartar sauce, macaroni and cheese, peach halves, frozen spinach, buttered rolls, milk, peanut butter cookies.

When Robin Reynolds, 5, of Garland, Texas visited the State Fair of Texas in Dallas recently, she couldn't resist the generous impulse to stop and offer "Big Tex," 52-ft.-high Fair symbol, one of her Texas-size Kleenex tissues. "Poor man, it's so hot he might wanta wipe his face or something," said Robin. Through trick perspective the photographer made it possible for 43-inch Robin to place the over-size tissue in the giant statue's outstretched hand.

Austin, Texas.—Gov. John Connally soon will be making his decisions on state spending and tax recommendations.

His budget staff is rushing to completion a tentative budget and revenue bill for presentation to the governor by the end of the month.

Word is that the revenue measure, contrary to early speculation, does NOT call for any upward revision in the state's basic 2% general sales tax rate. It may include a gasoline tax increase, college tuition boost and adding alcoholic beverages to the sales tax.

Money requests from departments and agencies, totaling \$1.2 billion, are being trimmed considerably. Best estimates indicate the tentative budget presented for Connally's review will require less than \$200 million in new money.

Governor's proposals definitely will contain some fort of financial relief for cities, but not the 50-50 split in new state revenues they are asking.

Connally's spending programs may be restrained by these factors: —Possibility of a substantial federal tax raise next year and the chance of future sharing of surplus U. S. income with state governments on an unrestricted grant basis.

—A public school study by the governor's committee almost certainly will call for readjustments in the cost load of the educational system, and final recommendations will not be known for two years.

—A metropolitan areas study conceivably could result in proposals for sweeping alterations in local government finance procedures.

### Water Amendment

Governor Connally has launched a campaign for adoption of Constitutional Amendment No. 11.

Amendment would do three things: double the Texas Water Development Fund (from \$200 million to \$400 million); give a constitutional guarantee to safeguarding water in river basins of origin; and permit use of the Fund for construction by the Texas Water Development of water treatment and transportation facilities.

About 150 leaders of state and local water governing agencies and other interested citizens attended the meeting and elected former Gov. Price Daniel of Liberty chairman of a steering committee to seek voter approval of the Proposition.

On another front, the Water Development Board announced that it will ask for an emergency appropriation of \$625,000 from the Legislature to complete the water planning work to bring the Texas Water Plan to completion in about six months.

### Attorney General Speaks

Atty. Gen. Waggoner Carr withdrew his opinion that cable T-V services are public utilities. But he reiterated his ruling that such firms have the right to place cables along state highways within the highway right-of-way.

In another opinion, Carr said the Secretary of State cannot approve a statement of intent to dissolve a corporation listing less than three directors, since to be a corporation it must have at least three directors.

### Courts Speak

State Supreme Court ordered Land Commissioner Jerry Sadler to file the sulphur claims of Duval Corporation and Piper Petroleum Company in Pecos county. Sadler had refused, claiming old laws relied on by firms are no longer applicable, and the companies are trying to get \$2,000 an acre mineral rights for 50 cents.

In other action during the week, high court:

—Affirmed \$304,800 in penalties against four East Texas oilmen (Gregg county) for slant-well drilling in Wood county.

—Agreed with Railroad Commission that new truck service between Houston and San Antonio by Alamo Express, Inc., is justified.

—Stuck by its July 13 decision that commissioners precincts of Midland county do not have to be formed on the basis of equal population.

—Sustained lower court findings that state sales tax may be collected on equipment leased to load and unload ships in foreign trade.

—Upheld \$73,980 damage judgment for Montgomery County family who successfully maintained San Jacinto river was diverted from their property by an artificial channel and dam constructed by Tennessee Gas Transmission Co.

### Park Land "Owed For"

Land Commissioner Jerry Sadler has ritten Governor Connally that 37,000 acres in area of proposed Guadalupe National Park in Culberson and Hudspeth counties has never been paid for by a private purchaser.

Sadler said the interest has been kept up, but the Abilene owner still owes the state \$37,000 on land he agreed to buy for \$1 an acre 40 years ago.

Congress has passed and sent to the President a bill to establish a 71,000-acre national park. Land cost has been estimated at \$1.8 million and development at \$10.3 million. While favoring creation of

the park, Sadler insisted that Texas retain the mineral interest in some 45,000 acres.

Federal bill requires donation of minerals owned by both state and private interests, Sadler said.

### Animal Infestations

Texas is pulling out of its serious scrawworm epidemic. But now a big outbreak in Encephalomyelitis (sleeping sickness) among horses seems to be taking hold.

Some 40 cases were reported to the State Health Department covering a two-week period. But a spokesman said it unlikely will get worse before it gets better.

Cases were from Travis, Erath, Cherokee, Angelina and Washington counties. Texas Veterinary Medical Association also says the disease has been reported in East, Central and South Texas and the Hill Country.

### Appointments

Governor Connally announced appointment of Arthur R. Marroquin of Austin as chief of the migrant division in the Texas Office of Economic Opportunity. He replaces Al Ramirez of Edinburg.

J. Curtiss Brown of Houston has been named to the Board of Directors of the Texas State Bar. He will complete the unexpired term of U. S. District Judge John V. Singleton Jr. of Houston, who resigned to accept appointment to the federal bench.

### Short Snorts . . .

At a hearing on loan problems a consumer finance industry spokesman suggested higher ceiling on "small loans" (now \$1,500 in Tex.). Arroyo Colorado in Cameron county is one of 82 acres selected for possible inclusion in National Wilderness System.

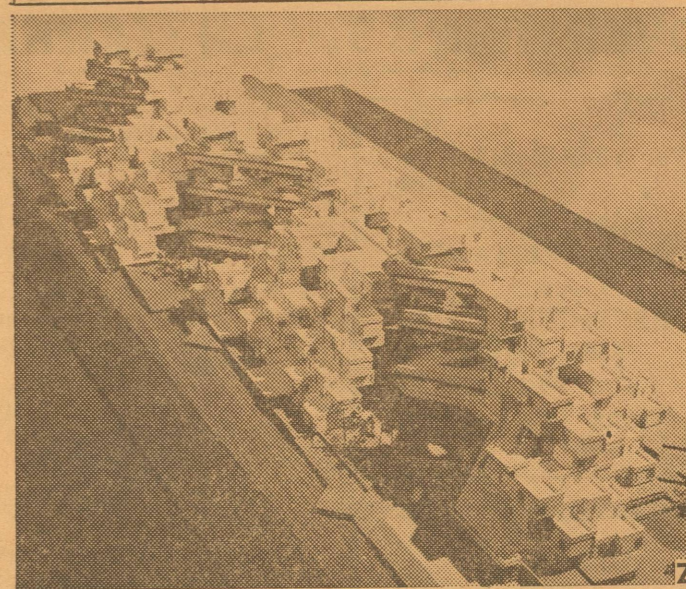

Revenue collected by Texas Liquor Control Board hit monthly record of \$6,135,484 during September, according to Administrator Coke R. Stevenson Jr. Revenue for year to date comes to \$36.8 million.

Beth McCalla spent the week end here visiting her parents, Mr. and Mrs. L. E. McCalla. Beth is a student at Abilene Christian College, and she was accompanied by her roommate, Margaret Jones of Albuquerque, New Mexico.

Frankie Blaylock and Steve Blaylock were here over the week end from Baylor University, Waco.

### Habitat 67—A City's Suburbia

One of the most revolutionary results of Expo 67—Canada's International Exhibition opening April 28th—will be a permanent housing complex to remain in Harbor City, Montreal, after the fair's six-month run comes to an end.

Designed by 28-year-old architect Moshe Safdie, "Habitat 67" appears to be a modern adaptation of the Hanging Gardens of Babylon. The apartments, ranging from one to four bedrooms, will be arranged in a "free floating" form, allowing each living unit complete separation from all others.

The purpose of Habitat 67 is to solve the problem of over-urbanization and resulting lack of family identity. Every home in the complex will have its own automatically watered and fertilized garden, formed by the roof of the unit beneath. Units will be connected by vertical roads and pedestrian walks. Actually, Habitat 67 will be a complex of individual houses joined into one structure suitable for a city.

Construction of this dramatic new concept in building design is also revolutionary. All work is done on the ground—from the casting and curing of the basic concrete modular units to the finishing of kitchens, bathrooms, windows and electrical wiring. The completed unit is then lifted into position by crane.

When the fair opens, a total of 158 homes will already be in place, 36 of them completely furnished and ready for visitors. Eventually, there will be 900 living units in Habitat 67, available for Montreal residents.

**In Those Days**  
Compiled From Success Files

**ONE YEAR AGO**  
Oct. 21, 1965—The Lions club had a Halloween candy sale under way.

Ray Boyer presided and Ed Meador served as master of ceremonies as the Lions club ladies' night honoring the school faculty, was held. The Senior class selected the cast for their play, "A Connecticut Yankee In King Arthur's Court."

**FIVE YEARS AGO**  
Oct. 19, 1961—Judy Hext was crowned Football Sweetheart and Betty Humphries Band Sweetheart, as the Eagles beat Junction in the first district game.

A truck ran into Bennie Harkey's new Humble service station in the south part of town. The truck belonged to the J. E. Cox company. Work started on Mrs. V. G. Tisdale's new house in Sunset Acres. Stein Lumber Co. of Kingsland was contractor.

The Cub Scouts were starting their new year under direction of Dan Sebesta.

Jack Etheredge bought the Texaco service station from Solon Boothe, who was preparing to move to Austin.

Ford Allen Construction Co. of Sonora were at work on the loop road in the Reynolds community.

**12 YEARS AGO**  
Oct. 21, 1954—A daughter was born to Mr. and Mrs. Lester Nixon. J. Harold Jackson, 47, well-known rodeo performer and former resident of this county, died in Las Vegas, Nevada.

D'onesio Gamez was found not guilty in District Court of charge of stealing mohair from Sam Jones, Sr.

Delbert Edmiston was getting ready to install new CinemaScope equipment at his Eagle Drive-In Theatre here.

It. Henry Mittel visited here from Bergstrom Field. Mr. and Mrs. Gene Reeves of Kilgore visited here with Mr. and Mrs. L. P. Haynes.

Mrs. George S. Finley and Sam left for their new home in Dallas, to join Mr. Finley. Coulter's was having a tailoring display by the E. V. Price Co.

**35 YEARS AGO**  
Oct. 23, 1931—Thomas A. Edison, famed inventor who was known as the "Wizard of Menlo Park," died in New Jersey at the age of 84.

Sheriff O. E. Conner jailed two Sonora men, Floyd and Jim Lee Jordan, in charges of selling liquor in Eldorado.

S. L. Stanford's sheep and feed barn burned. The loss was around \$1,000. Mrs. Robert Massie died in San Angelo.

Luther Parker, W. C. Parks, Howard Faulk, J. T. Kerr, Jack Meador and Carl Stevens were reported on the Bailey Ranch school basketball team.

Rev. Guy Davis of San Angelo preached here at the Presbyterian church.

S. S. Batchelor, Presiding Elder of the San Angelo District, preached Sunday night at the Methodist church here and presided at quarterly conference.

Anna Ruth Spurgers had a report on Miss Karr's "Chapel Program" at school. Three grammar school pupils, Rosalyn Jones, Betty Jo Whitten and C. F. Jones were dressed as pumpkins and sang. The Dramatics club gave a Spanish play with Hollis Alexander, Isabelle Isaacs, Helen Craddock, Pauline Rape, Ovida Faught, Dahlia Fae Johnson, Mary Delle Williams, Lola Davis, Aris Carr and Pae Keeney taking parts.

The wedding of Jack Elder and Elizabeth Montgomery was reported. The couple were married in Robert Lee on September 28th.

**Home Demonstration Agent's Column**  
By MRS. VIDA KREKUOW

When I happen to run into something that is both fast and good to eat I try to get the recipe and pass it on to you. I had good luck last Friday. Lorene Scott gave me a recipe (and a piece of the cake) for a quick cake which she said had come from Jake Spencer. Recipes and stories travel fast. Lorene said the cake was easy to make—and fast. I asked her how long it took her to get the cake made and she said, "About 21 minutes." So I give you the

**21-Minute Cake**  
Place in a sauce pan, quart size:  
4 tablespoons cocoa  
1 stick of butter or oleo (¼ cup)  
1 cup water  
½ cup solid shortening other than butter.  
Bring these ingredients to a boil. Melt shortening. Stir well, remove from fire.  
Add:  
2 cups flour  
2 cups sugar  
1 teaspoon cinnamon  
¼ teaspoon salt  
Mix thoroughly.  
Add:  
2 beaten eggs  
½ cup buttermilk  
1 teaspoon soda  
1 teaspoon vanilla.

Grease and dust with flour a large baking pan. This makes a cake big enough to serve 12 or 14. Bake for 20 minutes at 400 F.

**Hot Fudge Topping**  
While the cake is baking, mix in the same sauce pan without washing it, these ingredients:  
4 tablespoons cocoa  
1 stick butter or oleo  
6 tablespoons milk (¼ cup plus 2 tablespoons).  
Bring to a boil and add:  
1 box powdered sugar  
1 cup pecans  
1 teaspoon vanilla.  
Mix well and spread on hot cake. The cake freezes well, but don't ever cut it. It is so good it will disappear before it ever feels the icy blast of a freezer.

So—what's new? Will you believe me when I tell you? Well would you believe just a few things?

At last it seems that somebody has hit the jackpot with the no iron fabrics which are being manufactured today. It is now being predicted that irons and ironing boards will one day fall into the category of the wash boiler, the sad iron and the brass rubbing board.

This one so far out I'm almost afraid to mention it but it is the truth just the same—stainless steel may well be the next thing carpets will be made of. Finely drawn stainless steel filaments are already being knitted and woven in to all kinds of textiles. The military and survival gear for astronauts are now using threads of stainless steel. Tiny filaments they are—7,000th of a millimeter thick. Stainless steel carpets are soft to the touch and best of all they are free of static.

Can you imagine a washer-dryer combination that will be a clothes hamper and when that is filled the machine automatically washes, dries and folds the clothes! So far the machine doesn't put the clothes away.

The dishwasher of tomorrow will have its own disposal unit and the plates won't even have to be scraped. In this dishwasher will be a built in silver cleaner which will wash, clean and polish silverware. I'm actually not expecting to use too many of these coming attractions; there are hundreds of miracles floating around today which I can't afford but it is fun to watch friends demonstrate their new acquisitions.

Need to remember the formula for making the cleaner for varnished wood surfaces? Don't waste time looking for the recipe—clip this, add it to the already overflowing drawer and then next week when you can't find it, call me. I've got it memorized.

This will clean and polish at the same time:

Mix together:  
3 tablespoons linseed oil,  
1 tablespoon turpentine,  
1 quart hot water.

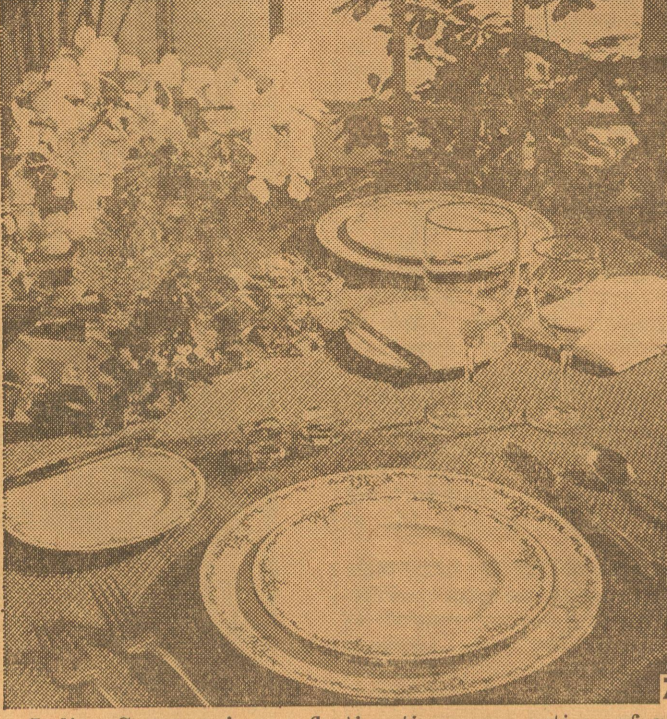

Wring a cloth, or dip a piece of 00 steel wool in this mixture, wash the wood work with it and wipe dry. Polish dry with a soft, clean cloth.

Caution: Do not heat this mixture as turpentine and oil will burn.

This cleaner works well on mahogany and other woods used for paneling, doors and cabinet work.

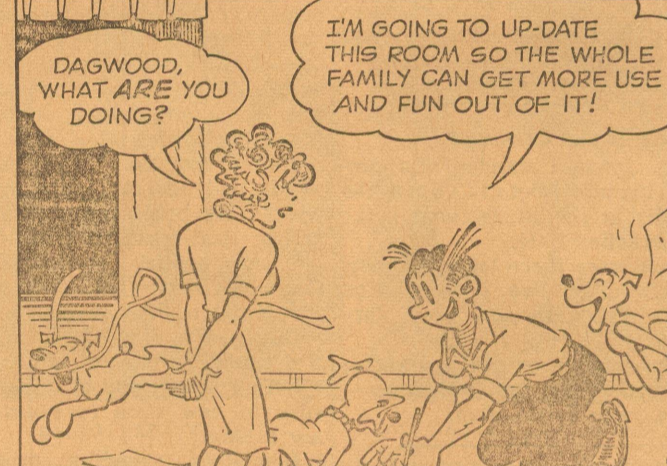

Last summer is a memory, fall is now and Christmas is coming up. Do something soon which will give you the chance to enjoy the holidays just a little bit more. Remember what slowed you up the most last year. Whatever that was—get it done first.

**Indian Summer Tablesetting**

Indian Summer is a reflective time... a time of remembrance for the summer that is past, and a time to dream of the many promises of the new season that's coming. Indian Summer sunsets, in so softly glowing hues, provide a romantic kaleidoscope of gentle colors. Edmond Motyka, A.I.D., has designed a perfect table-setting for Syracuse China that takes full advantage of the inexpressible quality of these natural elements. "Everything plays with the beautiful soft light of the sun's setting rays in this table for four," Mr. Motyka explains, "including the platinum design on Syracuse China's new 'Angelica' pattern. The china has a delicate pendant-like border that catches and reflects light in an ever-changing pattern as the sun moves in its path. Dinnerware such as this, with a rich reflecting border should always be placed at the table in a way that allows for gleams and glimmers." A tall cut-glass vase at the table's center is surrounded by prisms that draw the sun's rays inside, and re-directs them to each part of the table. "The prisms add a rainbow effect," Mr. Motyka explains, "constantly changing as the sun sinks farther down on the horizon." Dark green ivy is interspersed amongst the prisms as a softening touch. White blossoms in the vase become an empty easel for a natural play of color. As a base cloth, Mr. Motyka uses a length of golden-orange silk organza over a light pink undercloth. "Combining a semi-transparent cloth with one of a different hue gives a Matisse-like quality of luminescence. It is accented by the sparkling netting laid over them both," the designer says. "There are few more splendid shows of nature's glory than Indian Summer sunsets," Mr. Motyka feels. "Man-made effects can't match them... but man can bring nature's beauty into his home and use it to enhance the simplest meal."

**40 Years With The Bumsteads**

Blithely bumbling their way through 40 years of crises, Dagwood and Blondie have remained one of America's favorite comic strip couples. What with adventures like delivering Daisy's puppies and Dagwood falling downstairs while trying to sneak a mammoth midnight sandwich, the Bumsteads have always stayed young at heart. Homemakers everywhere can take a lesson from these two for Chick Webb, their creator, constantly has them trying something new.

The latest of Dagwood's enterprises is beautifying the Bumstead home. This time he's figured all the angles so as to install some Johns-Manville floor tile in the family room. First, Dagwood makes sure that the subfloor is level and smooth. Next, he measures to find the center point in the room and draws two chalk lines which cross in the middle of the room. Then he lays test rows of un-cemented floor tile at right angles to one another following his chalk lines.

With everything working according to plan, Dagwood spreads clear adhesive on the floor (a good choice because the chalk lines show through), but he works himself into a corner! Blondie rescues him by laying the tiles herself and giving him an escape route over the new floor.

When the job is almost done, they realize that there are nar-

# Iraan Game

(Continued From Front Page)

of Brave receiver, No. 80, Hale, this larcenous act taking place on the 35-yard line; but Bosman could not make a successful getaway. But immediately afterward, QB D. Halbert fired a missile to Roy Davidson who zipped on over for the touchdown, the pass-run combination being good for 35 yards. D. Halbert again faked to kick the extra point but instead fired to D. Rogers in the end zone for two points. The 22-0 tally recorded on the scoreboard exuded fine illumination.

After a musical interlude provided by Iraan's band and the usual sparkling halftime performance by the Eldorado Eagle Marching Band, play was resumed. It was late in the third quarter before either team could threaten. But on the last play in the third quarter, the "Thin Green Line" had battered the way to the Iraan 3-yard line and on the first play of the fourth quarter, QB D. Halbert passed to J. Bosman for the final tally. This time with D. Halbert holding and P. Childers kicking, the try for point was good and the scoreboard reached peak illumination for the evening, glowing a fine 29-0 to comfort hometowners.

It was a bruising game and the Braves never did say "Calf Rope." J. Bosman left the game in the fourth quarter with a Brave-induced paroxysm of a leg muscle, and Chris McCravey suffered a severely sprained ankle which only an X-ray revealed was not a fracture.

There were plenty of bright spots in the play such as when D. Rogers nailed Brave QB Gladden for a long loss on an attempted pass.

J. Mayo also smacked Gladden down for long losses twice on attempted passes.

Buff Whitten made a sparkling save in the final quarter when a "Gladden to Hale" pass was good and Hale was about to break away. Whitten with a final and tremendous effort nailed Hale from behind to snuff out the threat.

It would be an injustice to Iraan's fine punter Jim Bob Smith not to record his heroic action when he dropped back to punt and Iraan center 244-pound No. 70, Heath snapped the ball back over his head. Smith retrieved the ball inside his own 10-yard line and successfully eluded J. Mayo, D. Rogers, K. Jones, scrambling about until he managed to get off a phenomenal running punt as a result of which the Eagles had to settle for the ball on the Iraan 40, rather than within their 10-yard line.

The "Thin Green Line" throttled the Iraan offensive holding them to only seven first downs and four successful passes. Indeed Eldorado contained the Iraan effort so well that the Eagles had opportunity to run 88 offensive plays in the game. It is a tribute to the determined Braves that they were able to hold the Eagles to 29 points.

The 19-man "Thin Green Line" makes it difficult to single out any single individual for his performance without doing his team mates injustice. For instance this is the first game of the '66 season in which Iraan has failed to score. Along with opportunity to run 88 offensive plays there were dozens of unsung blocks and these against a forbidding Brave defensive effort. Nineteen lads make up the "Thin Green Line."

Mrs. Ben Wilson of Cooper, Texas, and her daughter, Mrs. Albert McCullough of Brady, were visiting here recently with their cousins, Mrs. L. M. Hoover, Miss John Alexander and Mr. and Mrs. W. O. Alexander. While here they toured El Dorado Woolens, of course.

# Post Script

The Lions Club have their bags of trick-or-treat candy for Halloween on sale, at \$1 a bag.

Some of these are in local business houses and others will be sold over town.

Be sure to buy your Halloween candy from the Lions club this year.

October 30th is the final day of Dove Hunting Season. Deer Season starts Nov. 12th, and hunters and landowners are already arranging leases.

Two local events will be held in connection with Halloween.

On Sunday evening, Oct. 30th, the young people from the various churches will canvass the town taking a collection of money for C.R.O.P. (Christian Rural Overseas Program.)

Gov. John Connally has designated TEXAS CROP WEEK as the week of October 24 to 31.

Our local young people of various church organizations working together in this community will be among thousands of CROP workers during the CROP WEEK as they call from door to door seeking "treats" for needy people abroad.

CROP is the Community Food Appeal of Church World Service and collects throughout the United States for the world relief programs of the churches. It has become as much a symbol of Halloween to the young people of Texas as the traditional "trick or treats", black cats, pumpkins, and the rest.

The Ministerial Alliance of Eldorado will sponsor this CROP fund drive.

Halloween night—Monday, Oct. 31st—the Eldorado Parent-Teacher Association will stage their traditional Halloween Carnival at the Memorial Bldg. This is a highlight of the Fall season here, and is the main money raising event of the year for the P-TA.

Proceeds of the Halloween Carnival will be used for projects, including the scholarship fund which is awarded each year to a local graduating Senior who plans to become a teacher.

Further details on both of these events will be given in next week's Success issue.

With our subscribers:

Joe R. Wagley took out a new student subscription last week. His address is Box 8530, Angelo State College, San Angelo, Texas.

Mrs. L. A. Henshaw is a new subscriber at 2322 Guadalupe, in San Angelo.

Miss Jerry Blaylock has a new address: 50 King Street, Apt. 1E, New York, N.Y. 10014.

Jimmy O'Harrow's new address for the school year is 2207A 9th Street, Lubbock, Texas.

Mrs. Ruth C. Williams has gone to California to stay for a while. Her address is 303 Segundo St., Ridgecrest, California 93555.

## Revival To Begin At Antioch Baptist Church

A six-night Revival will begin Monday, Oct. 24th, at the Antioch Baptist church in eastern Eldorado. Bro. Harold Pryor, former Eldorado resident, will preach each night. Bro. Pryor now lives at New Iberia, La.

On Sunday, Oct. 30th, final day of the Revival, dinner will be served at the Memorial Building, at noon.

Mrs. Robert F. Frost is returning to her home in Alexandria, Va., after a three weeks visit here.

Mrs. Rutha Boyer quietly observed her 84th birthday at her home here Monday.

## He Laid Down On The Job

You have all heard the parable in sermons scores of times—how the master gave one servant 5 talents, another 2, and a third only one. And how when an accounting was made at the end of the year, he praised the first two because they were able to bring back their original talents along with a profit, but he branded the third as a "slothful servant" because he returned only the one talent he had been given. (He buried it in the ground.) The story goes on to say that he "cast the worthless servant into the outer darkness!"

I always used to feel sorry for the unfortunate servant and felt like he had gotten a raw deal because he was given so darn little to start with. I somehow missed the lesson that the parable was trying to bring until one evangelist brought it out in language I could understand. He declared the servant had sinned because HE LAID DOWN ON THE JOB. Just because you don't have much, he said, doesn't excuse you for not trying.

Enough now for sermonizing—what we started out to talk about was our proposed county hospital and nursing home.

Schleicher county is paying off its last bond issue and will be completely out of debt by the first of the year. Our county officials are proud of it and one of them was boasting about it recently to an official in another county, who declared,

"Out of debt! I never heard of such a thing!"

"Well, you can just come on down to Eldorado and you'll see a county that doesn't owe anything!"

He came; he looked around, and then observed, "I guess I can see why—ye just ain't got nothing!"

Now, of course, that observation was not entirely correct. Eldorado does have a wonderful county-wide school system; it has excellent roads all over the county; it has a swimming pool, golf course, county park, and any number of churches, as well as an airport.

But just the same, the visitor's remark does have a point. Does Eldorado really have EVERYTHING it needs to make it a city?

Several years ago the Wall Street Journal made a survey of small towns all over the mid-west and found some towns of 2,000 population were holding their own and growing, and some were slipping with citizens moving to larger centers. One fundamental conclusion they made in their closing paragraph was that no small town could hold its own and grow if it did not have a hospital. This one thing they gave as an absolute must.

Schleicher county will enter the new year in an enviable condition—bonds paid; taxes low; valuations increasing as new gas wells and pipe lines expand.

A fact-finding committee is now working on the possibility of a new hospital and nursing home adequate for the needs of the county. It is the only one single facility we are lacking. The committees will be making reports of their surveys from time to time, and will eventually come up with a proposition. Some time in 1967 voters here will be asked to endorse a progressive step into the future. When that time comes we are sure our people will approve it. They are not inclined to be timid and "bury their talents in the ground."

For to everyone who has, will more be given, and he will have abundance; but from him who has not, even that which he has will be taken away.

# Drilling Campaign Under Way In County

Schleicher county at the present time is experiencing an extensive drilling campaign as operators continue to develop more gas wells.

The seven projects below were listed early this week. A number of other locations have been staked, waiting to be drilled.

Skelly 2 Royster, 4,206 feet in lime, shale and sand.

Skelly 1 Whitten, still testing. It flowed 13 hours through a 13/64-inch choke and separator, making gas at the daily rate of 635,000 cubic feet, with tubing pressure of 975 pounds; casing pressure, 1,175 pounds.

Atlantic Richfield 1 Murphy, flowing, no gauges, through Canyon perforations between 6,231-48 feet.

Mallard 1 Caroe, bottomed at 4,125 feet, fishing.

Meador 2 Meador, 6,822 feet in shale and sand.

Lipan 1 Judkins, shut in, waiting on cement, after running 5 1/2-inch casing to 4,040 feet, the cleaned-out depth.

Grover, MacCurdy & Hoffacker 1 Whitten, waiting on cement after setting 4 1/2-inch casing at 6,494 feet, on total depth of 6,500 feet.

Paul Lipson as the colorful Teyve, and Dolores Wilson as his wife, Golde, head the distinguished cast to be seen in the hilarious Broadway musical comedy, "Fiddler on the Roof," at the State Fair Music Hall, Dallas. This winner of 9 Tony awards and the title of "Best Musical of the Year" by the drama critics will be presented in 22 performances during the Texas State Fair, Oct. 7 thru 23.

# Absentee Voting Is Now Under Way

The General Election comes up Nov. 8th, and absentee voting began yesterday, Wednesday, in the office of J. P. Enoch, County and District Clerk.

The Success delivered the ballots to the clerk's office last week end. Sample ballots, printed on yellow paper, are free for the taking at Mr. Enoch's office or at the Success.

Voters are urged to study the sample ballot carefully ahead of time, remembering however that you CANNOT take a printed sample with you to consult when you go to the polls to vote.

To be qualified to vote this year, you must have either a valid poll tax receipt or registration certificate issued earlier this year.

# Register To Vote This Coming Year

In order to qualify yourself to vote in 1967, you go to the sheriff's office and register instead of paying a poll tax, as in the past. That was the word this week from Orval Edmiston, Schleicher county sheriff and tax assessor & collector. Property tax payments started in the office Oct. 1st, with full 3% discount, and 127 citizens had already taken care of their voter registrations for 1967 as of Tuesday afternoon.

The 4-month period, Oct. 1st through Jan. 31st, used to be the time for paying of the poll tax. Now, the same time is when voters register, and the deadline for doing so is Jan. 31st.

Local voters who are 21 through 60 years of age must register in order to vote next year.

Procedure is much the same as paying the poll tax in the past; you fill out and sign the application form and are then issued the registration certificate which you will present at the polls when voting in 1967, instead of a poll tax receipt.

## New Babies

Born to Mr. and Mrs. Danny Sandefur at Norfolk, Virginia, a boy on Thursday, Oct. 13th, their first child. The young mother is the former Jessie McEwen of Eldorado, whose parents operate the Friendly Wash here. Mother and child were doing well at last report. The father is a Navy seaman, located at Norfolk Naval Base.

# Mary Humphrey Bride Of Mr. McCary

Mr. and Mrs. W. J. Humphrey announce the marriage of their daughter, Mary, to Hayden McCary, son of Mr. and Mrs. Rhenard W. McCary of Littlefield. The couple were married Sept. 17 in Clovis, New Mexico, and were attended by Mr. and Mrs. Rex Faust of Littlefield.

They are at home in Apt. 210, Varsity Apts., 2222 5th Street, in Lubbock, Texas, where both are attending Tech.

# Vehicle Damaged

Mrs. Gerald Childers was involved in an accident shortly before noon Wednesday when the Volkswagen she was driving hit an embankment on Highway 277 north of Joe Wagley's place. The car was considerably damaged as it rolled over, but landed upright. The accident was investigated by local officers.

Sheppard's ambulance was summoned to take Mrs. Childers to the Sonora hospital where she was treated for bruises and shock, and kept by the doctor for observation.

The vehicle was towed in by Charlie Warnock to Eagle Chevrolet's body shop.

The Childers family have lived here just a few months. He is employed at the Northern Natural Gas Co. plant in Reynolds.

# Parents & Teachers Met Tuesday Night

The Schleicher County Parent-Teacher Association met in the Homemaking Department at school on Oct. 18th, at 7:30 p.m.

A very informative and delightful program entitled "Food for our Family" was given by Miss Dana Owens, Homemaking teacher. The object of the program was to point out the need for the proper eating habits to be formed in early childhood and continue thru an entire lifetime.

Miss Owens pointed out that children attendign Eldorado school are given a well balanced lunch where the menus are carefully planned each week and maintains a standard as set forth by the Texas Education Agency.

It was announced that the Halloween Carnival will be held on Monday night, Oct. 31, with the food booths opening at 5:30 in the Lions room of the Memorial Building. A float provided by Northern Natural Gas Company will be parked in front of the building and the king and queen will be crowned at 6:30 p.m. All other booths will open immediately after the crowning of the king and queen and will cease by 9:00 p.m.

Members and guests were served refreshments by the wives of school board members. —Rep.

Sunday guests in the home of the Frank Bradleys were Mr. and Mrs. Tom Bradley, Jr., and children, Joe and Mary, of Brady.

Roy Phelps of Waco, former operator of the Western Auto here, was a local visitor Monday morning.

Elton McGinn's and Thomas Richard Jones have moved to their newly completed houses in Sunset Acres.

# Lions' Ladies Night Set For Monday

Members of the Eldorado Lions club and their ladies and guests will meet at 7:00 Monday evening for the traditional ladies' night honoring the school faculty and trustees.

Hank Avery, mayor of Midland, will be the guest speaker and he will discuss the trip he took some time ago to East Berlin.

Doug Yates is in charge of the decorating committee. The tables and chairs will be transferred Monday morning from the basement to the main room of the Memorial Building, where Mrs. Mozelle Taylor will serve the meal.

At the club meeting yesterday, Charles Wimer presided.

County Agent W. G. Godwin presented Grat Elmiston the gift of a hat from the club for bringing in the county's first bale of cotton. Another guest was Rusty Meador who played the piano for the opening song.

Pete Bryan won the "friendly dollar" in form of a bag of candy, along with a case of candy bags to sell.

The Club is continuing their sale of candy for Halloween.

Plans are under way for the Broom and Mop Sale to be held here on November 9th.

For the program, Eagle Coach Roy Morgan led a discussion on the upcoming game at Sonora.

New in Eldorado are H. A. Porter, in Hollis M-Cornick's rent house and John D. Brown, Jr., in the Phillips house.

# Eaglets Jr. High Team To Meet Ozona In Games Here Today At 5:00 and 6:00 P.M. at Eagle Field

THE EAGLETS—Jr. High Team. Front row, left to right: Tom Hartgraves, Norris Sauer, Willie Manning, Mike Haynes, Rickey Griffin, Gary Danford, Edgar Craig, Mike Mikeska, Rickey Mann. ### County Extension

News

W. G. Godwin, Co. Agent

Schleicher county was modified-certified for brucellosis, Wednesday, October 12th, by the Texas Animal Health Department.

All producers should be interested in automatic re-certification three years hence. To be eligible for automatic re-certification the county as a whole must have 15% of all female stock going to slaughter inspected at the packing house.

Here are the facts:

If cattle are going directly to slaughter from the ranch, back tags are obtainable at the County Agent's office.

If your cattle go through an auction ring, the auction barn is responsible for tagging your cattle if bought by a packer buyer. The federal government pays .10 cents for this service. Barns can do it themselves or contract the tagging to other individuals.

Producers should take the time to know who does the tagging. So the county will receive credit.

If all producers will take the time and little trouble required—then when November 14, 1969, rolls around, the Health Certificate on Brucellosis will be renewed automatically. Otherwise, 20% of all herds in the county will have to be tested.

Then too, should you have a reactor, it's good to catch it as soon as possible to keep from spreading to the rest of your herd or other herds in the county.

When you're up to your neck in trouble, try using the part that isn't submerged.

No screwworm cases in the county this past week is good news.

The best protection the producer can practice is vigilance. Report all cases that you find, by sending in samples to Mission, Texas.

Dope all wounds and spray with coral or korlan.

Here are tips on starting cattle on feed, based on Texas A&M University research.

Cattle which have been creep fed or have had grain on grass can be started in drylot on a mixture of 80% concentrates and 20% roughage. Decrease the roughage by 10% and increase the concentrate by 10% at the end of one week. Then, feed a mixture of 90% concentrate and 10% roughage for the rest of the finishing period.

Cattle that are not accustomed to concentrate feeds can be started on feed by either of two methods.

Begin with a mixture of 60% concentrates and 40% roughage. Gradually, during a 2-week period, increase the concentrates and decrease the roughage until they are getting 90% concentrates and 10% roughage.

Another method is to begin with the 90% concentrate and 10% roughage mixture and limit the daily feed per head to no more than 1% of the body weight. Increase the amount of feed daily until the cattle are getting all they will eat at the end of 2 weeks. Continue feeding this mixture until cattle are finished.

Daily feed requirements for all weights of cattle vary from 2 to 4% of body weight, depending on percent concentrate in the mixture.

Researchers at Texas A&M are studying feeding cattle on all-grain and protein supplement and on all-concentrate rations. They are finding that cattle gain more efficiently but there is a good deal of risk of founder, liver abscesses and high death losses.

No definite recommendations on all-concentrate or all-grain feeding can be made until more research is done.

Many a man with no family tree has succeeded because he branched out for himself.

While it is convenient to have a can of gasoline for lawn mowers and other small engines around the home and farm, the fuel should not be stored more than 2 months.

Gasoline is made of a blend of several parts. The parts that provide engines with easy starting is volatile and evaporates rapidly. Most of this can be lost in about 60 days.

Soon after the volatile part evaporates, the heavier parts of the gasoline begin to settle and create "gasoline gum." This gum can foul up an engine, even when used in small amounts of fresh gasoline.

Plan gasoline storage so that it will be used in about 3 weeks. Another consideration is the kind of storage and the place where tanks are kept.

A dark-colored storage tank in bright sunlight can lose 10% of its capacity in 3 months. By painting the tank white or aluminum paint the loss can be reduced by one-third.

Large tanks kept under shade and equipped with pressure vents will reduce losses, to about 1% in the summertime.

APSCO Giant Pencil Sharpeners available at Success office.

Thurman, Carolyn O'Harrow, and Danny Boyer.

### STOPPED HERE SUNDAY

Mr. and Mrs. Grover Lee Johnson stopped here Sunday to visit her mother, Mrs. Bertha Wilson. They were on their way back to Goldsmith after spending two days in San Angelo as members of a camper club of which Grover is president.

The club is made up mostly of members from the Odessa area. Once a month they make a camping trip to some place of interest.

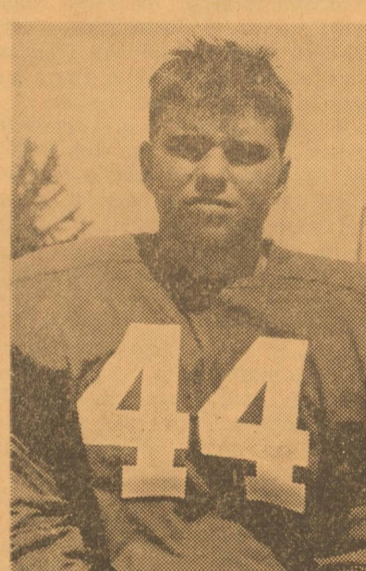

CARBON PAPER at the Success

### Attend Workshop

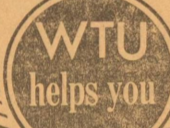

Attending the recent High School Yearbook Workshop at Angelo State were members of the Talon staff in the local high school: Gordon Schrank, editor; and Richard Keel, Maggie Stockton, Laura Nixon, and Kathy Robinson. Ben Keel was sponsor of the trip.

The students report that they learned a great deal, especially on layout and design.

Other members of the staff, of which Jewel Shelton is faculty advisor, are: June Deaton, Jimmy Mercer, Sandra Rosford, Billie

# WALTZ THROUGH WASHDAY

**IT'S FUN TO OWN 24-HOUR SUNSHINE**

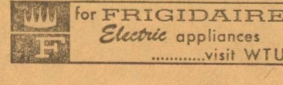

Automatic electric home laundry equipment does away with dull routine. You can wash and dry clothes any time of the day or night—even while you entertain guests or relax with the family.

It's fun, fun, fun to let REDDY KILOWATT do the work while you do something more interesting.

See your "Waltz Through Washday" dealer now. He's the man who will make it easy to own home laundry equipment.

In many cases your old washer makes the down payment and since electric dryers do not need expensive vents, and WTU customers get FREE 220-volt wiring when they buy from a local dealer or WTU, the chances are you'll be out very little money to begin your own waltz through washday!

See your electric appliance dealer, and be sure to see all the new electric washers and dryers by Frigidaire at West Texas Utilities.
