Number 17

Clocks Go Forward One Hour Sunday

This coming Sunday morning at 2:00, clocks will move officially to 3:00 to mark change-over from Standard Time to Daylight Saving Time. This is a semi-annual change which will be in effect from the last Sunday in April through the last Sunday in October.

The easiest way to take care of it is to move your clocks and watches ahead an hour before you go to bed Saturday night. If you go to bed at 10:00 p.m., set clocks to 11:00 and you are all set for the coming six months of Daylight Saving Time.

If you forget to do it, you will be an hour late to church services on Sunday.

Texas, along with the rest of the nation, went onto Daylight Saving Time a few years ago. As always, the change will take some getting used to.

Track Girls Advance To Regional Meet At Robert Lee Monday

The Eldorado girls started in the Spring of 1968 to compete in girls' track and in that year were district champions and runner-up for region champion.

Last year, 1969, the Eaglette track girls again won district and went on to win the Regional title.

Now, it's 1970, the green and white has won district for the third straight year and Monday, April 27, will try to defend their Regional Crown. The odds will be great because Region VI is one of the toughest in the state with Borden county, Robert Lee, Sonora, and Wink all capable opponents for team honors. There will be preliminaries to eliminate many starting at 11:00 Monday morning. Finals in both field and running events begin at 1:00.

Eldorado is well represented with 11 girls participating.

Regional Entries

440 Relay, Peggy Hill, Rosellen Maness, Patsy Tampke, and Lisa McAngus.

220 Dash, Patsy Tampke.
60 Dash, Peggy Hill.
80 Meter Hurdles, Randy Yates.
880 Relay, Rosellen Maness, Loretta Schooley, Patsy Tampke, Lisa McAngus.

Discus, Kathleen O'Harrow.
High Jump, Janet Oglesby.
440 Dash, Lynn Sanders.
Shot Put, Kathleen O'Harrow.
880 Run, Lisa McAngus and Janet Oglesby.

1 Mile Relay, Peggy Hill, Mary Lynn McCalla, Rosellen Maness, and Gay Lynn Richardson.

Mrs. Beulah Cozzens Died April 14th In Dallas

Mrs. Beulah Cozzens died April 14, 1970, in Buckner Rest Home in Dallas. She was the widow of William N. Cozzens, also deceased. After their marriage they lived a number of years in Eldorado, but for the past 30 or 40 years the family lived in Fort Worth. Survivors are Miss Katherine Cozzens, Rio de Janeiro, Brazil; Mrs. Andrew E. Young, Houston; Mrs. Edward L. McGowan, Fort Worth; daughter-in-law, Mrs. Frank Cozzens, Ft. Worth. Funeral services were in Travis Avenue Baptist church where she had been a Sunday School teacher for many decades. She was active in Christian service until two or three days prior to her death.

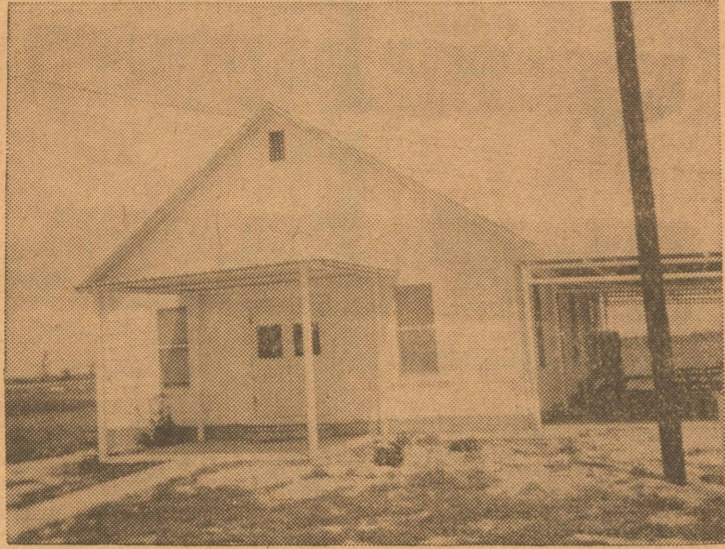

She had taught school in county and Eldorado schools many years in Schleicher county. Her daughter has been a Baptist missionary in Brazil since 1941. Mrs. Cozzens will be well remembered by many old timers here.

S. S. MAN HERE TODAY

Jules Gipson, Field Representative for the San Angelo Social Security Office, has scheduled his April visit to Eldorado. He will be at the County Courthouse on Thursday, April 23, from 9:30 a.m. to 11:30 a.m. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

U. S. aircraft carrier Enterprise boasts a crew of 4,600 men.

Where Precinct One Voters Will Cast Their Ballots

After the Memorial Building was built some 22 years ago, it became the traditional voting box for voters in Precinct One which included all of Eldorado and the southwest corner of the county. It was the box with the big vote and often determined the outcome of an election.

But with all four voting precincts cornering in town, the Memorial Building now is located in Precinct 3 and No. 1 voters were forced to find another public building as a voting place.

Precinct 4 voters will again use the school house; Precinct 2 will go to the REA office, and Precinct 3 to Memorial Building.

Searching for a public building in what's left of Precinct One, the county came up with the club house at the golf course shown above.

Post Script

Vernon and Cordie Hazelwood this week announce they are being forced to close their laundry establishment in the northeast part of town due to frail health.

No family in the past 20 years has had more illness and hospitalization than the Hazelwood and Whiteley families, and deaths have taken their toll until Vernon and Cordie are the only ones left in Eldorado.

Now Vernon has reached the point where he is unable to continue to work and Cordie is regretfully closing the business early next week.

This couple, together with late kinfolks have done laundry work for Eldorado for 40 years, and in their present location for 18 years. Cordie says she sure hopes she can sell the business so Eldorado would not be without a laundry. She would even sell the machines to be moved to another location.

It would be a great inconvenience if Eldorado should be without a laundry—even without just a commercial dryer. There is an opportunity here for an experienced operator to step into a profitable business.

As we approach the last week before the election we are noticing a little more political activity among our many local candidates. Next week's issue of The Success will be the final one before election day on Saturday, May 2nd. No doubt it will carry a number of last-minute statements. Since we expect to be asked the cost of ad spaces in this next issue, we submit this schedule:

A Half Page will cost...\$42.00
A Quarter Page will be...\$21.00
One-Eighth, 3 col. x 5 in...\$10.50
Space 4 inches square...\$5.00
(Cash in advance)

I don't think anybody has got any business with a full page.

In case you should ask, spaces on the front page take a rate 3 times as high as above rates, and we reserve the right to limit these (We don't solicit them.)

And do you realize that next week we'll all be working on daylight saving time? And that goes for election day, too, when polls open at 8:00 a.m., and close at 7:00 p.m., still in broad daylight!

On page 2 and 7 in this paper we are printing again the map of the City of Eldorado showing how the precincts corner in town. This map will not be printed again for perhaps two years. Study it now while you have it.

With our subscribers: W. O. Alexander is now receiving his Success at 500 So. Madison in San Angelo.

Mrs. Dessie Clements, who operated the Java Junction Cafe here for several months, is now at 461

E. Wilson, Rialto, California 92376. Mrs. Earl Yates entered a new subscription for E. H. Sweet Jr., % Pitchfork Ranch, Guthrie, Texas 79236.

Before her recent marriage, Mrs. Neal Hefflin was Kay Peters of this place. Following their wedding trip to Hawaii, the couple are now living at 7619 East 49th (Apt. 111) Tulsa, Oklahoma 74145.

A small black cameo was found and has been left at the Success office.

Organized two weeks ago and just now beginning to get its feet on the ground, the Schleicher County Foundation is in the process of adding new members. Secretary Elton McGinness Monday reported three new members as follows:

Foxworth-Galbraith Lbr. Co.
A. T. Turner
E. J. Danford, Jr.

Don't forget the Flea Market set for Thursday and Friday of this week in the Woodward building on the Menard highway. It is being put on by the Hospital Auxiliary.

New Babies

Lisa Dawn is the name given the daughter born March 31st to Mr. and Mrs. Steve Don Benson. The baby weighed 8 lbs. 6 1/4 oz., and was born in the local hospital.

Mr. and Mrs. Leland A. Craig Jr. are parents of a daughter born April 4 in the Schleicher County Medical Center. The baby weighed 6 lbs. 8 oz. and has been named Mary Maxine. She has an older brother.

The mother is the former Mary Nell Neff and grandparents include Mr. and Mrs. C. O. Neff.

Mr. and Mrs. Charles (Toby) Gleghorn, 5205 Raymond Telles, El Paso, are the parents of a son, born April 15th at 4:29 a.m. His weight was 6 lbs. 13 1/2 oz. and he has been named Charles Roderick, Jr. He has one sister, Jenny Lee, age 3.

Grandparents are Mr. and Mrs. William Jarrett and Mr. and Mrs. Charlie Gleghorn, all of Artesia, New Mexico.

Flea Market Set By Hospital Auxiliary

Thursday, April 23, will be the opening date for the fleamarket sale planned by the hospital auxiliary. It will be held Thursday and Friday at the old Woodward Flower Shop on the Menard Hwy.

A great variety of items will be available at very reasonable prices. Anyone who wishes to donate merchandise for sale can either bring it by or call an auxiliary member for pick-up service. Pam White at 853-2658 will pick up merchandise if called.

Band Concert Set For Tuesday Night

The Eldorado High School Concert Band will present their Spring Concert, Tuesday evening, April 28 at 8:00 p.m. Tickets may be purchased from any band member. Adults are \$1.00 and students 50c.

At this time each year the band honors their graduating Seniors. Some highlights on the program will be the contest numbers the band played recently at UIL contest. The Blue and the Gray will be repeated on this concert since it was so well received at the Winter Concert.

Danny Boyer will be a featured soloist on Timetable a trap drum solo with band accompaniment. The band will also do a novelty number called Little Bop Riding Hood with Charles Adams as narrator. The remainder of the program will be popular and light program music.

The Band Aides will hold a reception in the band hall following the concert and everyone is invited.

Bluebonnet Belles Set For Saturday

The 25th Annual Running of the Bluebonnet Belle Relays will take place Saturday afternoon and evening at San Angelo Stadium with both high school and junior high divisions.

Field events will begin at 10:00 a.m. with all running event prelims beginning at 1:00 p.m. Finals will begin at 7:00 p.m.

The Eaglettes will participate full strength to get ready for regional and Mrs. Harber's junior high will compete for the first time.

There is no charge for students and adults are 50c.

Eagle Sprint Relay Runs Time Of 43.1

The Eagle 440 yard relay unit of Bob Page, Wayne Doyle, Keith Williams, and Paul Page turned in their best performance of the year last Saturday at Fredericksburg when they did the quarter mile in an excellent time of 43.1.

Coach Sherwood Barker had nothing but high praise for his Eagle Relay team as he said he knew they were capable of running this time. "I believe we are capable of even getting down in the 42's. This is excellent for a Class A team. Some of the large schools haven't even run this low of time," the coach pointed out.

Also making a good showing and picking up a first place was Mr. 100 yard dash Wayne Doyle who turned in another 9.8 in the event. Wayne also placed second in the 220 yard dash with his best time of the year as he raced the curve in 22.1.

Paul Page continued his winning ways when he raced the quarter mile unchallenged. Paul has the best class A time in the state with a clocking of 49.9.

Others placing were Archie Nixon who placed sixth in the discus and fifth in the high jump. Picking up a fourth place was Terry Clingan in the long jump. Steve Sykes placed sixth in the mile run.

Did Anyone Realize?

Last week the district meet in 8-A was held and Coach Sherwood Barker's Eagles were crowned the champions. That same night the Junior High Eagles of Coach Lynn Meador were crowned champions of their division.

The following Tuesday the girl counterparts, the Eaglettes, held up their part by being crowned champions of District 21-B, coached by Jack Bell. At the same time the Junior High Girls coached by Mrs. Shannon Harber won their division of the district meet.

Every track boy and girl in both junior and senior high were members of a District Championship team which is probably slightly unusual.

Congratulations to each boy and girl and their coaches for an outstanding job.

Boys go to Regional April 24-25 while the girls go to Region April 27. Boys go to Lubbock, and the girls go to Robert Lee.

New Employee For Atlantic - Richfield

New in Eldorado is Bill Skinner, who moved here recently and is employed by Atlantic-Richfield in their production department. Mr. Skinner went to work here over a week ago, having moved here from Plains, Texas. He has been with the firm about 13 years.

At present he is batching until his family joins him at close of the school term. The couple have three children, Suzy age 12, Barbara 11, and Billy Junior, 7. They were all here Saturday looking into the housing situation and were seeking a three-bedroom house. The family are members of the Methodist church.

Eagles' Hopes High For Regional Title

Coach Sherwood Barker and his green-clad Eagles will head for Lubbock Thursday with high hopes of returning with the Regional I track title. The Eagles qualified eight boys in 11 events for the meet.

Boys who qualified and the events they will participate in are: Bob Page in the 440 yard relay and 120 yard high hurdles. Paul Page in the 440 yard dash and 440 yard relay. Wayne Doyle in the 440 yard relay, 100 yard dash and 220 yard dash. Keith Williams in the 440 yard relay. Terry Clingan and Jerry Baty in the long jump. Archie Nixon in the shot put, discus and high jump. Steve Sykes is entered in the mile run.

The Regional meet will be a 2-day affair with the field events to begin at 9:00 a.m. Friday, with the running events to start at 12:30 p.m. This is also the time schedule for the finals Saturday.

To qualify for the State Meet to be held in Austin in two weeks an entry will have to place first or second as only the first two places will advance from the regional meet to the State Meet.

Riding Club Meets And Elects Officers

The Eldorado Riding Club met on Thursday, April 16. They elected officers as follows:

Horace Linthicum -----Pres.
Bob Johnson -----Vice Pres.
June William -----Sec.

Fifteen members were present. O. B. Singleton was unable to be there on account of the death of his brother-in-law.

Auxiliary To Operate Beauty & Gift Shops

A beauty parlor, with complete facilities has been opened this week in our hospital. This project is sponsored by the Women's Hospital Auxiliary. Patients in both the hospital and nursing wing may use the facilities. It is not a licensed beauty salon and the shampoos and sets will be administered to the patients by nurses or trained auxiliary members.

Another service made available by the auxiliary is a gift shop located in the foyer of the hospital. A variety of small items are there to be bought by the public. Members of the auxiliary are running the gift shop.

Nursing Home Notes

Ollie Walker's sister, Mrs. Otis Moser of Menard, visited him.

T. K. Jones is spending a few days in Midland with his daughter. Mr. and Mrs. Montalvo of Christoval were here to see "Uncle Tom" Parson.

J. F. Gardner has gone to his ranch at Rocksprings for a visit.

Mrs. Jack Browning of Midland came to see her mother, Waxie Mund.

Sybil took Mr. and Mrs. Martin for a long drive Monday eve to enjoy the pretty Spring flowers.

Mr. and Mrs. Milton Barnett of Big Spring visited her mother, Mrs. Hixie Potter.

Arcadia Johnson visited Estelle McConnell.

These pretty Spring days find some of the residents and visitors digging and planting flower seeds and setting out plants while some of the others enjoy the sunshine on the patio.

The beauty shop in the nursing home that is made possible by the Auxiliary is in use and is really appreciated. —Rep.

Mrs. Lynn Alexander Buried Here Tuesday

Mrs. Lynn "Flossie" Alexander, 64, died at 8:30 a.m. Sunday in Clinic Hospital in San Angelo after a long illness.

Services were held at 3:00 p.m. Tuesday in the First United Methodist Church in Eldorado with burial in Eldorado cemetery.

Mrs. Alexander was born Dec. 17, 1905, in Carthage. She married Lynn Alexander Dec. 23, 1949 in Austin.

Survivors include her husband; a son, Milton L. Curry of Austin; a daughter, Mrs. Joy Willett of Austin; three sisters, Mrs. Julia May Fleener of Barstow, and Mrs. Christine Dockstader and Mrs. Sue Cass, both of El Paso; nine grandchildren and a great-grandchild.

Miss Johnson To Be In District Queen Contest

Debbie Johnson, daughter of Mr. and Mrs. Lloyd Johnson and student in Eldorado High School, will represent the Eldorado Lions Club in the District 2A-1 Queen's Contest to be held Friday night in San Angelo in Sarah Bernhardt Theater.

Miss Johnson was named winner from among 10 local contestants as the local club held their queen's program late in the month of March. She is serving the coming year as queen of the Eldorado Lions Club.

The district queen's contest and program Friday night will officially launch the 1970 convention of Lions Clubs from over District 2A-1. Presiding at convention sessions Saturday will be A. E. Prugel of Sonora, current governor.

Headquarters for the convention will be the Cactus hotel.

Those planning to attend from here include Boss Lion A. G. McCormack, Secretary Pat Wester, and former local president Bill Rountree, and possibly a few others.

Club Met This Week

Boss Lion McCormack presided at the meeting of the Eldorado Lions Club on Wednesday noon of this week. The program was given by Danny Boyer, Lion Brooks is program chairman for the month.

Heavy Absentee Vote Expected

With something like 16 local candidates beating the bushes for votes, it can reasonably be expected that the May 2 primary will bring out a large vote from all over the county.

This is always reflected by the absentee votes cast in the County Clerk's office. At 4:00 p.m., Tuesday, Mrs. Buchner reported no less than 98 cast at that time, and by the time this paper reaches the readers the figure will be well over the hundred mark.

A total of at least 150 is expected before absentee voting closes.

Deadline Is Tuesday

Deadline for absentee voting in the First Democratic Primary is this coming Tuesday, April 28th, at 5:00 p.m. in the Clerk's office.

So if you will be out of town on May 2nd or otherwise need to vote absentee, be sure to take care of the matter before then.

Army PFC Buchner Assigned To Vietnam

U. S. Army, Vietnam (AHTNC)—Army Private First Class Ricky G. Buchner, 20, son of Mr. and Mrs. C. E. Buchner, Eldorado, Tex., was assigned as an infantryman with the 199th Light Infantry Brigade near Long Binh, Vietnam, March 8.

SINGERS TO MEET AT BRADY

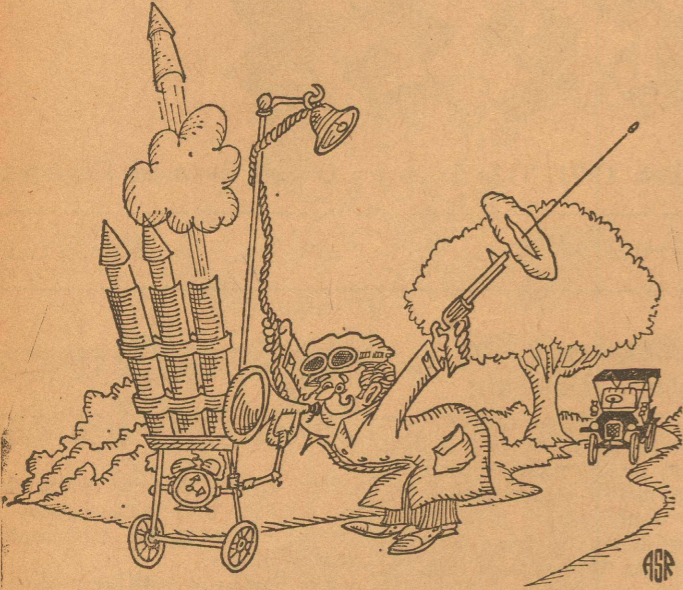

The First of Texas Singers' Reunion will meet at the Brady High School Auditorium in Brady, Tex., on April 26 for all day singing from 10 a.m. to 4 p.m.

Bring a basket lunch or eat in one of our conveniently located restaurants, stated Mrs. A. C. Stewart who is president, and urges everyone to attend.

Mrs. Ronnie Bridgeman was a patient in the local hospital early this week after she became ill at home during the week end.

Pity The 1910 Motorist

Rural Society Didn't Horse Around

All motorists at one time or another are irked by regulations imposed on automobiles. But consider the potential plight of the driver 60 years ago, when an organization called the Farmer's Anti-Auto Protective Society sought passage of even more restrictive traffic laws.

Found in the automotive library of Sears, Roebuck and Co., the proposed regulations make current vehicle laws mild by comparison. The suggested rules were as follows:

1. Automobiles must be seasonably painted — that is, so they will merge with the pastoral ensemble and not be startling.

2. On discovering an approaching team, the automobilist must stop off-side and cover his machine with a tarpaulin, painted with the scenery.

3. In case a horse will not pass an automobile, notwithstanding the scenic tarpaulin, the automobilist will take the machine apart as rapidly as possible and conceal the parts in the grass.

4. In case an automobile makes a team run away, the penalty will be \$50 for the first

mile, \$100 for the second, \$200 for the third mile, etc., that the team runs, in addition to the usual damages.

5. On approaching a corner where he cannot command a view of the road ahead, the automobilist must stop not less than 100 yards from the turn, toot his horn, ring a bell, fire a revolver, halo and send up three bombs at intervals of five minutes.

6. Automobiles running on the country roads at night must send up a red rocket every mile and wait 10 minutes for the road to clear. They may then proceed carefully, blowing their horns and shooting rockets.

7. The speed limit on country roads this year will be secret and the penalty for violation will be \$10 for every mile an offender is going in excess of it.

THE COOKIE GAME

Having a quiet game of chess for two? Entertaining for the bridge club? Make your opening move a plate of Lemon Sours. These are luscious triple-decker bars, rich with butter, Baker's Cookie Coconut, nuts, brown sugar, and a tart-sweet glaze.

Lemon Sours

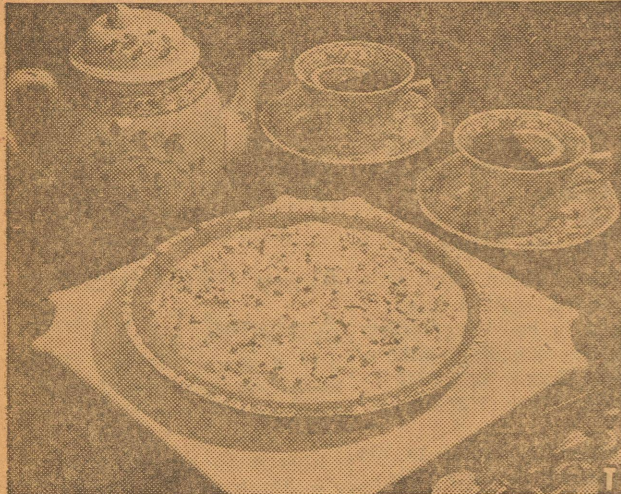

- 1 cup sifted all-purpose or cake flour
2 tablespoons granulated sugar
1/8 teaspoon salt
1/3 cup soft butter or margarine
2 eggs, slightly beaten
1 cup firmly packed dark brown sugar
1/2 cup chopped pecans
1/2 cup cookie coconut
1/2 teaspoon vanilla
Tart Lemon Glaze

Sift flour with granulated sugar and salt into mixing bowl. Cut in butter until mixture resembles coarse meal. Press firmly over bottom of a greased 9-inch square pan. Bake at 350° for 15 minutes, or until pastry is a light golden brown.

Meanwhile, combine eggs, brown sugar, nuts, coconut, and vanilla, mixing well. Pour over pastry. Bake 30 minutes longer, or until topping is firm. Cool 15 minutes. Spread Tart Lemon Glaze over coconut mixture. Cut into small squares or bars. Cool. Makes about 36 squares or 32 bars.

Tart Lemon Glaze. Gradually add 1 tablespoon lemon juice to 2/3 cup sifted confectioners' sugar; blend until smooth. Stir in 1 teaspoon grated lemon rind. Makes about 1/4 cup.

SUB-LIME PIE IS JUST YOUR DISH

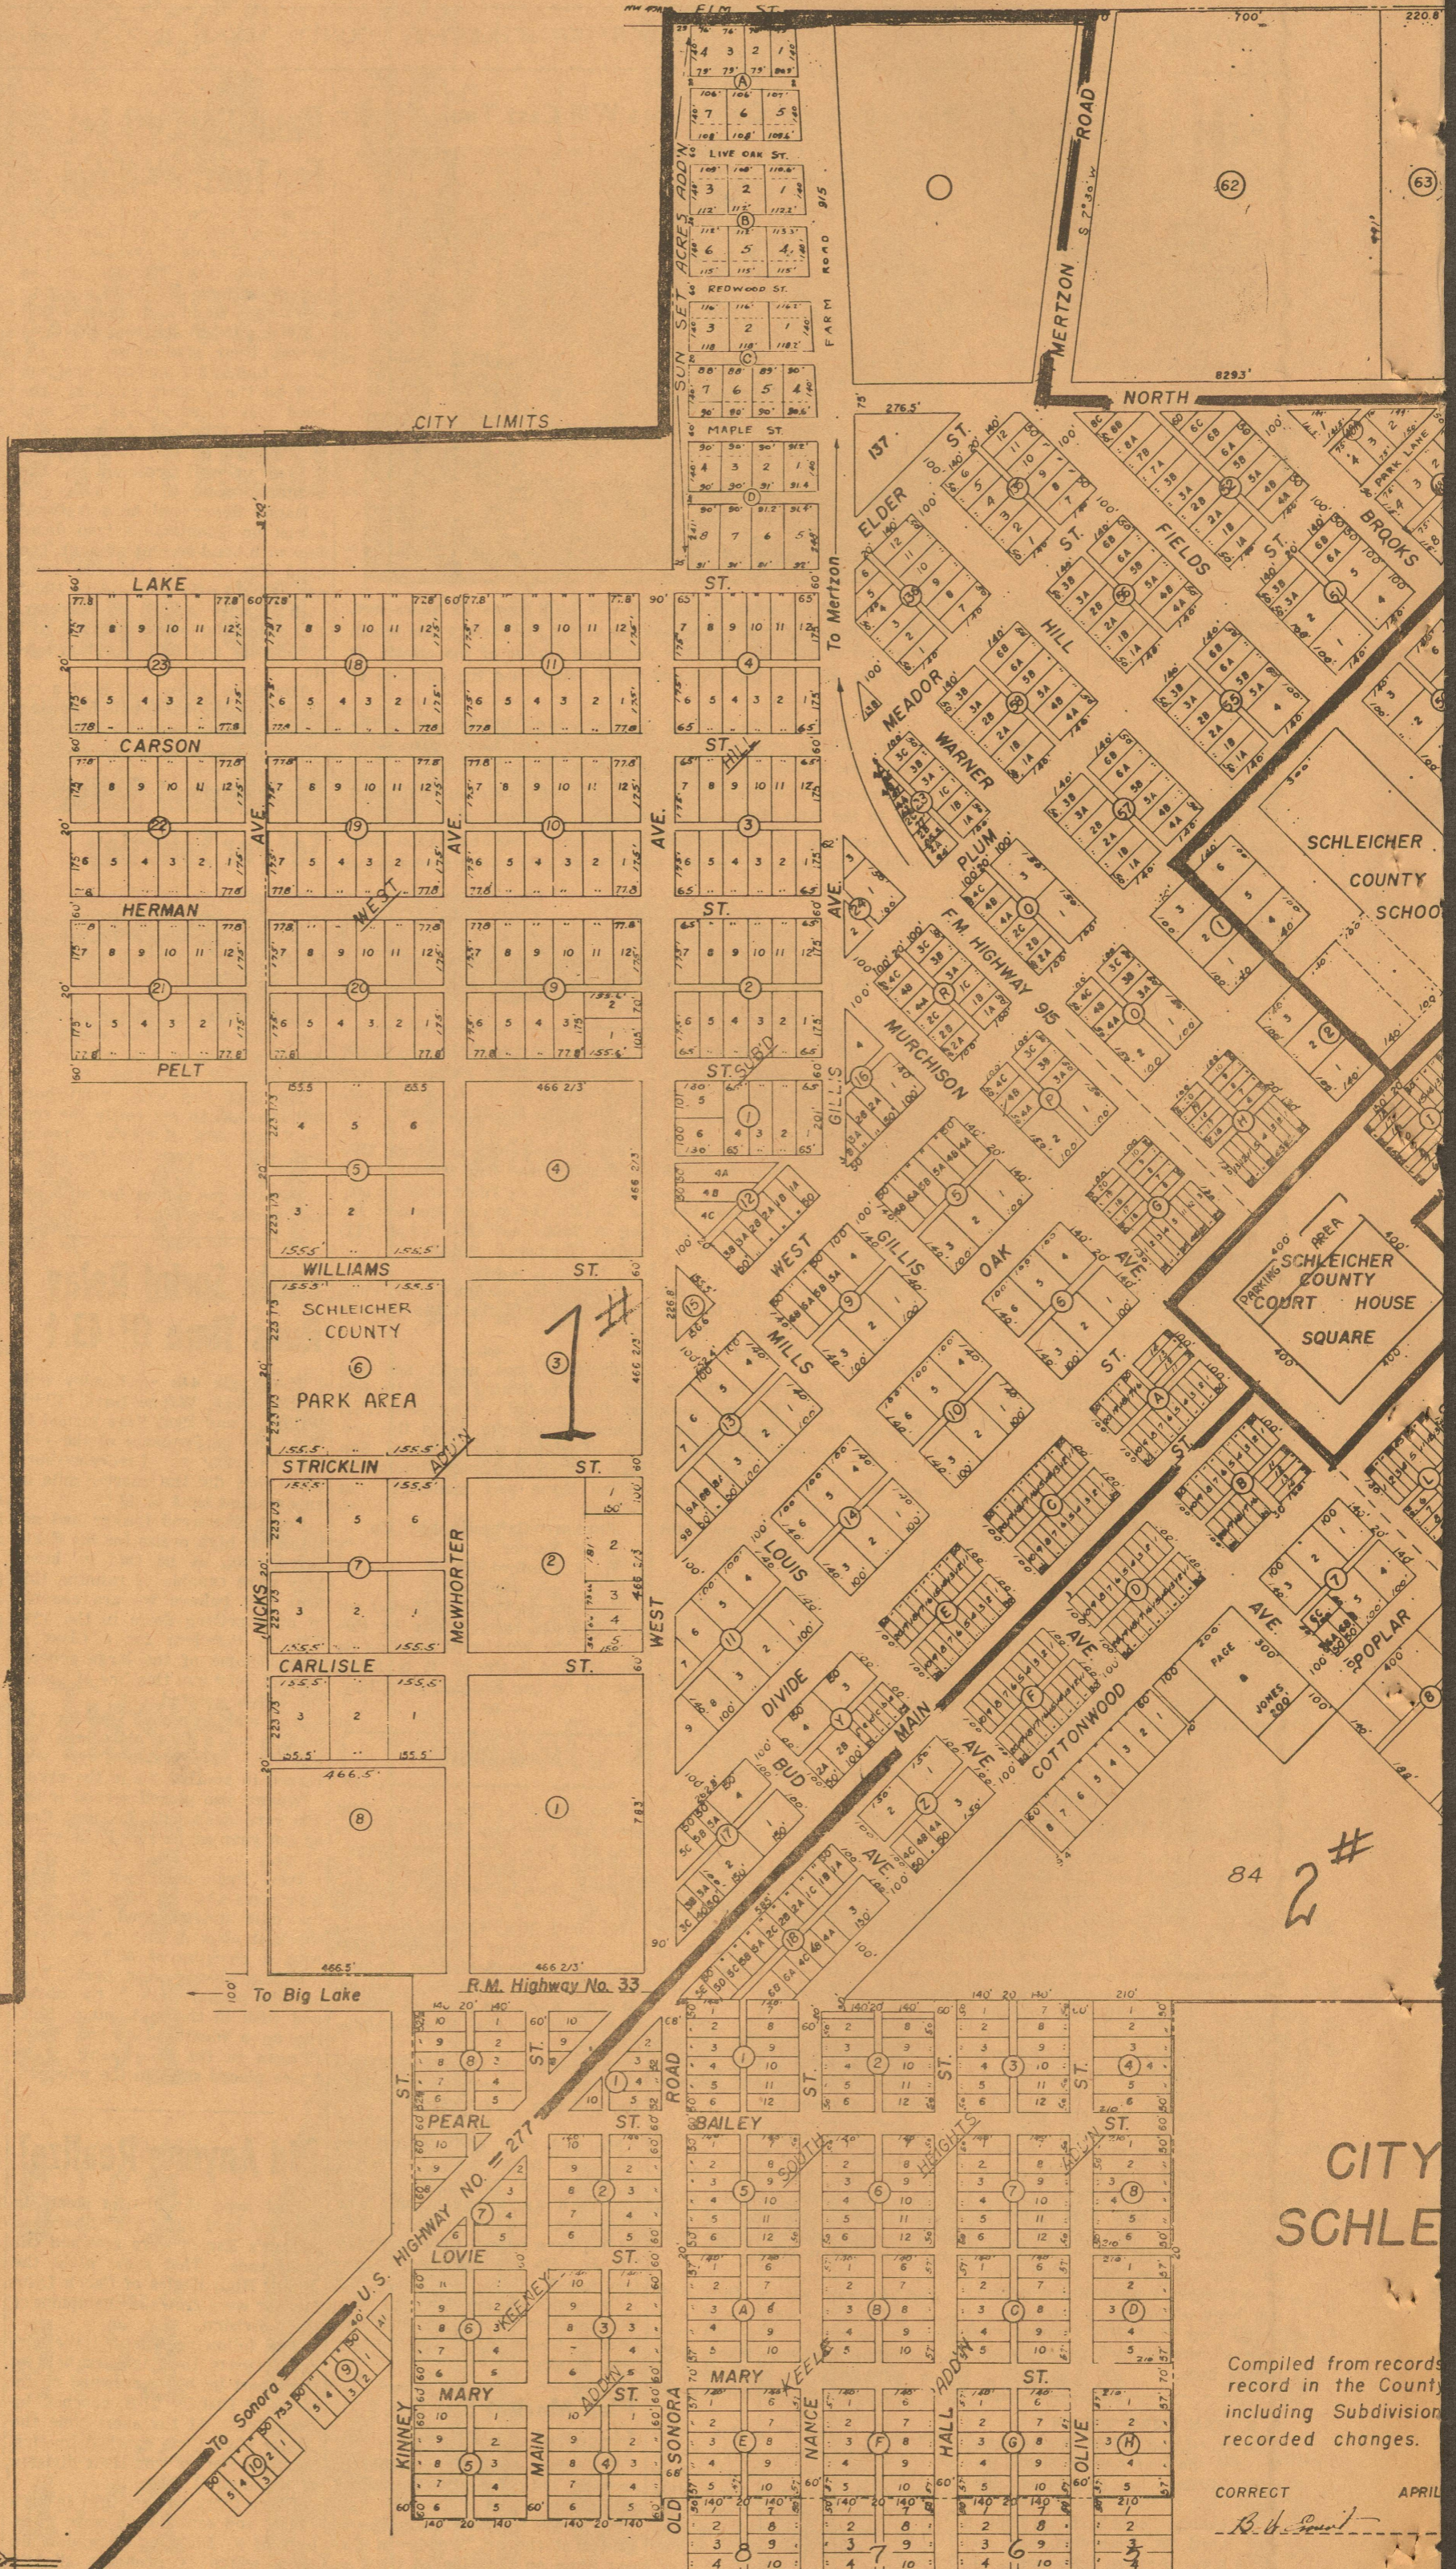

A Lime Pie that takes the cake for flavor is no lemon when it comes to delicious desserts. And starting with a graham cracker ready-crust pie shell, the housewife forsaking baking, need only fill, chill and serve. Prepared in minutes, the pie is both tasty and tasty.

This easy-as-pie recipe for Lime Chiffon Pie is a cut above the others.

LIME CHIFFON PIE

- 1 package lime flavor gelatin dessert, 3 ounces
3/4 cup boiling water
1/2 cup dry white table wine
1 cup heavy cream, whipped
1 nine-inch Johnston Graham Cracker Ready-Crust
Garnishes: Dragees
Candy sprinkles

Dissolve gelatin in boiling water. Let come to room temperature. Stir in wine and chill until consistency of unbeaten egg white. Beat gelatin mixture until slightly foamy; fold gently into whipped cream. Turn into Ready-Crust. Make dimples or swirls on top. Chill until firm. When ready to serve garnish as desired. Yield: 6 to 8 servings.

Mowing Delayed For Spring Is Time To Prevent Mosquitoes

Austin, Tex.—Chalk up another environmental success story for the Texas Highway Department.

After several decades of nurturing bluebonnets and other species of the 5,000 varieties of wild flowers native to Texas, the Department reports blankets of color are spreading northward along highway rights of way. Some say the studs of wild flowers in the southern part of the State are the best ever.

As in the past, instructions have gone out to Highway Department maintenance forces to delay full-scale mowing operations until seed pods mature and the wild flowers can re-seed themselves as nature intended.

Although this results in some roadsides along the 1,500-mile State-maintained highway system looking a little shaggy late in the season, it does assure that there will be another magnificent display next Spring.

Highway officials point out that there will be some selective mowing of right of way during the growing season.

In areas where growth is particularly heavy, crews will mow along the pavement edge and at highway intersections as a safety measure.

In other areas, growth is so luxuriant that selective mowing is necessary to keep it from choking out all other vegetation. In the Coastal Bend area, for example, some heavy stands of clover have been mowed to prevent the clover from stifling protective grass cover.

Aside from their breathtaking beauty, wild flowers are an important "tool" for the maintenance of the highway system. The natural growth of wild flower and grass cover prevents erosion and deterioration of roadside slopes.

In this way, wild flowers save thousands of dollars each year in maintenance costs and protect the public's investment in the highway system.

The Highway Department's concern with the roadside environment goes back beyond the early 1930's when the Department's first full-time landscape architect was hired. Texas was among the first states—if not the first state—to add professionally-trained experts in this field to its permanent staff.

Now, in addition to a large staff of professional landscape architects, the Department draws on the expertise of hundreds of maintenance men in every part of the state with years of practical experience in caring for roadside vegetation.

"The benefits—esthetic and economic—derived from the care of wild flower stands by the Texas Highway Department illustrate what can be accomplished when we make friends with the environment," State Highway Engineer J. C. Dingwall said.

Extra bonus for prompt action on your part! Yours absolutely free—well, almost free—a promise with no mosquitoes.

You can have this mosquito-free home and yard if you'll spend just a little of your time in a do-it-yourself control program, says the Texas State Department of Health.

In addition to eliminating mosquitoes, you also can free your premises of flies and rodents with a little extra precaution. The cost can be just a little effort on your part.

Spring is the time of year when mosquitoes start breeding. So take an inventory of your property. Walk around the outside of the house and take a good look. What do you see? Did you notice whether the gutters were level and not sagging? Mosquitoes like to breed in the water that collects in sagging or stopped up gutters. Just a few minutes time on your part will eliminate this breeding site.

How many bottles, cans, tires, or other water-holding containers are partially hidden under the shrubs? These provide more breeding places for mosquitoes.

You may be surprised to know that most people grow the mosquitoes that bite them. Since most of the water-holding containers are valueless, again it is a simple matter to place them in the trash for picking up.

Should you have a container you want to keep, place it in a shed so it won't collect water.

Mosquitoes won't breed on your premise if you don't leave any water standing around. If there's a knothole in one of your trees, it can be plugged with cement mortar, roofing tar, or anything that will keep the water out.

If you have pets, develop a routine of washing the watering bowl a couple of times a week. And while you are at it, you should clean the bird bath the same number of times. This will also keep the growth of algae down and tend to do away with that ugly green, slimy look.

Since mosquitoes always develop in water, it would be well to stock your fish pond or lily pond with mosquitofish (top-water minnows) or goldfish. The fish will eat the larvae.

Anything that you can do to eliminate mosquitoes will be to your advantage since the insects are a nuisance and can cause disease.

Earliest horse race recorded in England was one held in 210 A. D. at Netherby, Yorkshire.

U. S. Air Force solar furnace at Cloudcroft, New Mexico, yields temperatures of 8,500 degrees.

Earliest known representation of the rotating wing principle helicopter is a child's toy in a painting dated 1480.

Mrs. Peggy Reagan Buried Last Week

Mrs. Peggy Reagan, 60, a former Eldorado and San Angelo resident, died at 6:00 a.m. Sunday April 12 in Chandler, Arizona, of an apparent heart attack.

Funeral services were held Wednesday afternoon of last week in the First United Methodist church here with the pastor, the Rev. Bobby C. Palmos, officiating. Interment was made in the local cemetery.

Mrs. Reagan was born May 10, 1909 in Eldorado, the daughter of Finis Carol and Aileen "Eppes" Bates.

Survivors include a son, James

C. Phillips of Del Rio, a cousin, Mrs. Edna C. Allison of San Angelo and one grandchild.

First Baptist Church

'Tell It Like It Is' Here Sunday

The First Baptist Church of Eldorado will play host to a group of young people from Park Heights Baptist Church, San Angelo, this coming Sunday night at 7:00.

The group, under the direction of Walter Johnson, will present the popular folk musical, "Tell It Like It Is." The public is invited to attend.

Great Wall of China is 1,684 miles in length.

COUNTY AGENT'S COLUMN

by Ting Godwin

Schleicher County Agricultural Agent

Farm animals, for some unexplained reason, seem to have a liking for small bits of wire, nails, scraps of hardware, screws and bolts. Many owners have been made aware of this fact through the loss of a valuable animal.

The damage usually is caused by irritation or puncture in the digestive system from the swallowing of such objects. In most instances the loss could have been prevented and here are suggestions for preventing future losses.

Remove wire fences which are weak from rust before small bits of the wire drop into the grass and become a hazard to grazing livestock. After a construction job in the barnyard, it is worth the time and effort to sweep the area thoroughly or drag it with a sweep of permanent magnets.

It is difficult to detect and remove trash metal from ground feed or silage. But permanent or electromagnets placed in feed chutes between the bins and feed troughs will remove a major portion of trash metal. It is important that some type of magnet be installed in home grinding mills and mixers.

It is the case again, when an ounce of prevention is worth more than a pound of cure. In fact, it is possible to remove almost 100% of trash metal from feed, pastures and barnyards by just using good "housekeeping" practices as a part of the livestock management program.

An inventor has produced a golf ball which squeaks when it is lost. At present the golfer does that.

With warmer weather insect pests will increase, and this means insecticide use will also become more widespread.

Since insecticides come in many forms, it is important to know some of the terms used to describe them. There are dusts, wettable powders, soluble powders, emulsifiable concentrates, oil solutions, granulated materials and aerosols and spray bombs.

Dusts don't mix with water and should never be used as sprays. They come as dry powders ready for use.

Wettable powders are for spray use. They contain a wetting agent and may contain up to 85% of the actual ingredient.

Soluble powders are chemicals which readily dissolve in water. They can be applied with low-pressure, low-volume sprayers.

Emulsified concentrates are liquids carrying the insecticide in a suitable solvent and emulsifier. They can be applied with low-pressure, low-volume sprayers.

Oil solutions are ready for use and may contain from a half to 10% active ingredients.

Granulated materials are ready to use insecticides in or on particles of a carrier. They are useful for controlling soil insects.

Aerosols and spray bombs contain one or more insecticides, an oil solvent and a propellant gas. The bombs produce a fine mist or a coarse spray. Fine mists, aerosols, are used to control flying insects and the coarse spray bombs for leaving a residue of the insecticide.

In addition, baits, insecticide-fertilizer mixtures, insecticide-herbicide mixtures and moth-proofing agents are some of the special formulations available.

Regardless of the form of the insecticide used, the need for following label directions to the letter and using them only for the purpose stated on the label. All should be stored out of reach of children.

Many girls are getting men's wages now—but then, they always have.

A power lawn mower is a necessary piece of equipment for maintaining a beautiful lawn. But it can also cause plenty of trouble, even fatal injury, when used in a careless manner or on areas where stones, pieces of wire, sticks and bones may be strewn.

These suggestions are offered for preventing lawn mower accidents:

Keep the lawn clean and in good condition. Pick up toys, stones, sticks, wire and other objects before starting the mowing job. Keep the mower in good repair and the blade sharp and keep people, especially children and pets, away from an operating mower.

Mow across embankments or terraces and never up and down. When starting the engine, stand away from the mower and make sure your feet cannot come in contact with the whirling blade. Never leave the engine running while the mower is unattended.

Operate the mower only fast

enough to get a good, clean cut. Extremely high blade speeds are dangerous and cause excessive wear on the mower. If the mower is self-propelled, adjust the speed to your walking pace. Never let it pull you.

Fuel should be safely handled and stored. Don't fill the gas tank while the engine is hot. If the mower becomes clogged, stop the engine and disconnect the spark-plug wire before unclogging or doing any work on the underside of the mower.

Do not operate electric mowers on wet ground. Riding lawn mowers present the same problems as push or self-propelled types and the rules of safety should always be observed.

Using a power mower is no job for a child. It should be operated only by a person who is familiar with it and will follow safety suggestions.

A swimming pool is a crowd of people with water in it.

Gill Vows Fight For Oil Import Controls

Andrews, Tex.—Republican Congressional candidate Dick Gill has called for a "no-holds-barred" fight to stave off any relaxation of oil import controls, and charged that his opponent's vote against the recent oil depletion allowance cut was "meaningless and totally ineffectual."

Speaking before the Desk and Derrick Club of Andrews, Gill took sharp issue with the contention that a relaxation of import controls would mean lower prices for consumers, charging that "past history and plain fact have shown that all the middle men between port of entry and the consumer will quickly take increasingly large chunks of the pie until any reduction in crude prices finally becomes meaningless to the consumer."

"No, more foreign oil at lower prices will not help the consumer," Gill maintained. "What increased oil imports will do is cause irreparable harm to our domestic oil industry and dangerously threaten our national security. I sincerely believe the Eastern Liberals (who are pushing for abolishment of import controls) are naive at best—and I strongly suspect there are some ulterior motives involved."

In discussing the recent oil depletion cut, Gill noted that opponents of the depletion allowance lacked sufficient strength to cut it outright, and instead wrapped it in the protective mantle of an overall tax reform bill. And he predicted the same "slippery tactics" will be used in the attack on oil import controls.

"Eastern Liberals will tie a relaxation of import controls to some piece of legislation as desirable as tax reform, and the battle will be lost by the time the bill reaches the House floor—just as was the case with the recent oil depletion allowance cut."

"I want to get into this fight, and I want to win it's going to have to be a no-holds-barred fight. I think it is vital—not only to the future of our domestic oil industry but to the safety and security of our nation as well—that there be no relaxation of oil import controls."

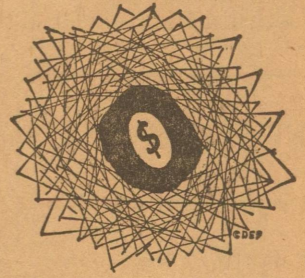

"I'm ready to go to Washington, roll up my sleeves, and get to work," Gill said. "Not with meaningless words and ineffective votes, but with constructive action."

Gill cited the long-sided vote on the tax reform bill—395 Yeas to 30 Nays—as evidence that the fight to save the oil depletion allowance was lost by the time the tax bill reached the House floor, adding:

"Mr. Fisher's vote against the tax bill was a straw in the wind. It was a 'public relations' vote, meaningless and totally ineffectual. And in Mr. Fisher's case it was totally indefensible, because he helps keep in power on the various House committees the very same Liberal Democrats who scuttled the oil depletion allowance and who would like to see import controls abolished."

"The House Ways and Means Committee—which wrote the tax reform bill, including the oil depletion allowance cut—is one prime example. The 10 Republican members of the Committee—including Rep. George Bush—have an average ACA Conservative Index rating of 75. But all their efforts to save the oil depletion allowance were beaten down by the 15 Liberal Democrats on the Committee who have an average ACA rating of only 17—Democrats who O. C. Fisher helps keep their positions of power."

In Those Days

Compiled From Success Files

ONE YEAR AGO
April 24, 1969—Funeral services were held for Mrs. W. H. (Kathleen) Joiner, 83, long-time county resident.

Funeral services were held for Mrs. Hattie Brown, 89, at Richland Springs. She was mother of Mrs. Fred Spinks of this place.

A daughter was born to Mr. and Mrs. M. E. Isleib of Cordova, Alaska. The mother was the former Ruth Parker.

FIVE YEARS AGO
April 22, 1965—The Cub Scouts were getting ready to start their new year under direction of Cubmaster, Ken Rosford.

A son was born to Mr. and Mrs. Hubert Coy Hight.

Mrs. Laman Hazwood called a congregational meeting to decide future of the Eastside Baptist church. The group had become quite small on account of members moving away.

Mrs. J. T. Jackson died at the age of 58.

The Eldorado Woman's Club and Library Board were holding a tea honoring the 30th anniversary of the library's founding.

Kaye Harkey and Nancy K. Jurceek were going to Dallas to the State FFA meeting, accompanied by Miss Owens.

Betty Humphries was announced on the Dean's List at Baylor.

R. L. Wilson was drilling a new water well for the city of Eldorado, near the hangar building at airport.

12 YEARS AGO
April 24, 1958—Mrs. Novella California Estes died at the age of 90.

Mrs. M. H. Woodward was installed president and Mrs. L. E. McCalla vice president of the P-TA as the final meeting of the club year was held.

Jack Montgomery became sole owner of P&M Motors, the Plymouth dealership, by buying out his partner, E. C. Peters.

Mrs. T. P. Robinson Jr. was giving a book review at a meeting of the Junior Woman's Club in the home of Mrs. Russell Beach.

A son was born April 10 to Mr. and Mrs. Wilson Humphrey.

Mary Sproul and Robert Bateman Sessums were married in San Angelo.

The Solon Boothe family were on a vacation trip to California.

Dana Owens accompanied Myrta Ann Topliffe and Nancy Jo Jackson to the state Future Homemakers meeting in San Antonio.

A Garden Club was being organized. The organizing committee consisted of Mrs. C. H. Clark, Mrs. E. H. Topliffe, Mrs. Carl Stevens.

35 YEARS AGO
April 26, 1935—A. J. Burk sold his interest in the A. J. Burk Feed Company to C. M. Mund.

A daughter was born April 25 to Mr. and Mrs. Aubrey Smith.

Miss Dorothy May Taylor was directing the 50-member choral club in a program, with Maxine Wilton accompanist. The girls' septette consisted of Elizabeth Stanford, Wenona Isaacs, Johnnie Fern Isaacs, Mary Jess Koy, Janette Wakefield, Maxine Wilton and Celeste Tisdale. Alton Page gave guitar accompaniment.

H. T. Finley has returned from Wichita Falls where he has been visiting.

Mmes. Will Eaton, Joe Edens, H. S. Irby and N. P. Wilkinson left to attend the meeting of the Brownwood Presbyterial in Ballinger.

Mr. and Mrs. Ed McHaled announce the birth of a girl on April 21. She has been given the name of Mande.

D. C. Currie of Rankin is visiting his mother, Mrs. A. P. Currie, and other relatives and friends here.

Typists who participated in the regional meet in Abilene were Clarice Lee, Doris Fish, and Cecil Newlin. They were accompanied by J. Carleton Smith, high school principal and typing teacher.

Community Calendar

April 23, Thursday. Social Security man here, 9:30 to 11:30 a.m., at Court House.

April 24-25. Eagle track boys to Regional Meet at Lubbock.

April 25, Sat. A coffee for Mickey Phelps, bride-elect of Jack Boyd, in Granvil Hext home.

April 27, Monday. Eaglette track girls to regional meet at Robt. Lee.

April 28, Tuesday. The Woman's Club meets.

April 28, Tuesday. Eagle Band presents Spring Concert.

April 29, Wed. Lions Club meets 12:05, Memorial Building.

May 2, Saturday. First Democratic Primary.

May 2, Saturday. H. D. Bake Sale at Handy Hardware.

May 12, Tuesday. Reynolds H. D. Club meets with Mrs. L. Moore.

May 22, Friday. Eagle Booster Club barbecue & dance for Eagles and Eaglettes, 7:30 p.m. at the Golf Course.

Hospital Auxiliary Flea Market

April 23-24
at Woodward flower shop building on Menard Hwy.

CARD OF THANKS
We wish to thank the people of Eldorado for their patronage during all the years that we have been in the laundry business. We are being forced to close on April 27 as Vernon is no longer able to work. We are trying to sell so that the town will not be without a laundry. We are very sorry but we will be closed April 27.

We thank you, all.
* Mr. and Mrs. Vernon Hazelwood

CARD OF THANKS
Thanks to my good friends for their visits, cards and flowers while I was in the hospital and the good care given by the nurses. Bless their sweet hearts; they never forgot a pill. Also thanks to Dr. Brame for his good service. May God's richest blessing be theirs.

Mrs. L. T. Wilson

MANY THANKS
to all who sent cards, letters, flowers, and other gifts or who in any other way were so helpful while I was in the hospital and since my return home.

I am continuing convalescence at home and my family join me in expressing appreciation.

Mrs. Myrtle Wade and family *

Home Demonstration Agent's Column

April is the out meetingest month in the whole year. We have had two District meetings of all Extension agents in April, will have a District Meeting of Home Demonstration Club women in Fredericksburg on April 23rd and a giant meeting of District 4-H Club members on Saturday, April 25 in San Angelo. And to cap it off there will be a District meeting of adults who lead 4-H's on the night of April 28 in Abilene.

And these do not include the ones we have in the county.

I got side tracked. What I had in mind to say was that Home Demonstration Agents are always glad to see each other at these district meetings and find out how everything is going in every county. Actually the meetings are pleasant occasions; hence this little story.

The other morning before we had a formal beginning there was an unusual show of new diamonds (we have an awfully big bunch of what I would call awfully young Home Demonstration agents in our District). Suzanne McBurnett, the agent in Concho county and formerly from Schleicher county was the smiling and happy announcer of her wedding date which will be on May 2nd. Another agent from Llano was becoming as she proudly extended her left hand which dazzled everybody.

Jean Farmer, assistant county Home Demonstration agent in Tom Green county and a well known television personality of the area, announced very calmly, "I don't have a ring yet but I am getting married Friday night."

I thought she was spoofing but she wasn't. That was on Wednesday and our meeting lasted until Friday. Anyway Jean Farmer is now Mrs. Cap Holland but she still gives her television shows and from what I hear they are very, very good.

Jean has put me on her mailing list and for those of you who enjoy her recipes but may have missed a few I am including two casseroles which are simple to prepare but simply delicious.

Chicken Casserole
1 1/2 cups chicken
1 package frozen chopped broccoli, cooked and drained
1 can cream chicken soup
1/2 cup mayonnaise
1 T lemon juice
1/4 lb. grated mozzarella cheese
1 cup buttered bread crumbs.

Preheat oven to 375 degree. Heat soup, add mayonnaise and lemon juice. In a greased casserole dish, layer chicken, then broccoli, then soup mixture. Top with cheese and bread crumbs. Bake for 1 hour. Serves 4 to 6.

Mexican Casserole
1 lb. ground hamburger meat
1/4 cup onions
1 can cream mushroom soup
1 can cream chicken soup
1 can cream cheddar cheese soup
1 pkg. tortillas (cut in 1/4's)
1 can green chili pepper (chopped)
1 can taco sauce.

Preheat oven to 350 degrees. Brown meat and onion in skillet. In bowl mix all three soups, taco sauce, and green chilis. In a greased casserole dish, alternate layers of tortillas, meat, and soup mixture. Bake for 40 minutes.

More from Jean Farmer Holland next week.

Buying and selling makes the financial world go around and the same thing happens on a smaller scale right here in Eldorado. Everyone belongs to some kind of an organized group which needs some money to carry on its work during the year. We support each other which in the final analysis means that we support ourselves.

All of which leads up to the Hospital Auxiliary Flea Market which is one more way to describe a garage sale which is one more way to describe a rummage sale.

Anyway, regardless of what it is called the purpose is the same. To raise money, the immediate need, to help pay for the shampoo equipment recently bought by the Auxiliary for hospital patients.

So—remember that what is one woman's trash is another woman's treasure and don't miss the Flea Market; at Woodward's Flower Shop today and tomorrow.

We need your contributions, both goods and money. Come and join the fun that happens when 50 women go together to stage the biggest garage sale in the history of Eldorado.

DAR Met April 16th

The El Dorado Chapter, Daughters of the American Revolution, met April 16, 1970, in the Memorial Building. The Club Room was beautifully decorated with a variety of specimen Iris. Mrs. Ernest S. Goens, regent, presided.

The chaplain, Mrs. W. N. Ramsay, opened the chapter with Scripture, prayer, and the patriotic rituals.

Minutes were read by Mrs. Luke Thompson, secretary. They were approved.

Treasurer, Mrs. J. B. Montgomery, made a financial report.

The message of the President General, NSDAR, Mrs. E. F. Seimes, was given by the regent.

The National Defense report was made by Mrs. Ernest C. Hill.

El Dorado Chapter members examined with sincere interest a card of thanks, bearing the DAR seal, from the Texas State Society NSDAR, which was sent to the El Dorado Chapter for its share in the success of Constitution Week last September signed by Florence T. Eckel (Mrs. John Glenn Eckel), state chairman.

Also exhibited from the Texas Society Daughters of the American Revolution was the Citation presented to Mrs. Ernest S. Goens in grateful recognition of leadership and outstanding service to the Texas Society DAR while serving as Chapter Regent. Signed by Lottie P. Wooley (Mrs. Buck Wynne Wooley) State Regent.

El Dorado Chapter is very proud that this is the third year their regent has received this Citation for three successive years.

Mrs. Ernest C. Hill, hostess for the day, served delicious German Sweet Chocolate Cake and ice cream.

The last meeting of 1969-70 will be held June 4, 1970, at which time the theme of the new State regent, Mrs. Ford Hubbard, of Houston, will be presented.

Back When It Was 'Grammar' School

Austin, Tex.—Most people over the age of 40 today can recall that when they attended the Texas public schools, it was an 11-year proposition; seven years of "grammar school" and four years of high school.

With the advent of junior high schools in the 1940's, another year was added to make the normal span of public school attendance 12 years.

The 12 years were broken into different patterns, depending usually on size of communities and best use of available buildings. The most frequent pattern had grades 1 through 6 for elementary school, 7 through 9 for junior high, and 10 through 12 for high school.

The name and philosophy of "junior high schools" are now undergoing changes in a few Texas school districts, and in many more school systems throughout the country.

The new name is "the Middle School." The change in philosophy involves a different grouping for students of ages 10 through 14.

Scores of Middle Schools now operating in at least 21 Texas school districts usually follow a 1-5, 6-8, 9-12 grade pattern, compared to the 1-6 7-9, 10-12 pattern usually found in the junior high schools.

Primarily affected are 11-year-old students, who move up to the Middle School, and the 14-year-olds, who move up to the four-year High School group.

Advocates of the new Middle Schools, however, feel that they benefit students at the three levels (elementary, middle, & high) in ways both academic and social.

Some school officials feel that the Middle Schools offer greater flexibility of scheduling classes, and allow 11-year-old students (6th graders) to move earlier to departmentalized courses — more elective subjects.

College Station, Tex.—Shoppers this week will find lower egg prices, lower pork prices and an abundance of fresh fruits and vegetables in the grocery store.

Most economically priced produce are apples, oranges, grapefruit, strawberries, cantaloupes, celery, cabbage, carrots, potatoes, asparagus, dry yellow onions, green onions, turnips & mustard greens, according to Extension Consumer Marketing Specialist Gwendolyn Clyatt.

The Texas A&M University specialist adds that grade A large size eggs offer the most economy and quality at the egg counter.

Look for best beef values on arm and blade pot roasts and steaks, ground beef, round steaks & roasts, and beef and calf liver. Pork values include end-cut loin roasts and chops, shoulder roasts and steaks, hams and picnics.

Fryer chickens remain a bargain in most meat departments.

Largest excavator in the world can grab 156 tons in a single bite.

Dating Of Perishables Object Of New Bill

College Station, Tex.—Hearings are expected this spring on a congressional bill to require dating of perishable and semi-perishable foods on a grocer's shelf so shoppers can tell the product's age.

Most items sold in a supermarket carry a coded date to help store employees, says Doris Myers, Extension home management specialist at Texas A&M University.

Most consumers know the codes exist but they don't know what they mean.

"Any identical coding between chains is purely coincidental and codes change as frequently as once a month—and probably sooner, if publicized," according to Rep. Leonard Fargenstein of New York. He introduced the bill (HR 14816) in November.

Consumers could push for voluntary dating at grocery stores in their communities until a law is passed, he says.

TO JOIN BAYLOR GROUP
Waco, Tex.—Kathy Ann Robinson, daughter of Mr. and Mrs. T. P. Robinson Jr. of Eldorado has accepted an invitation to join the membership of Alpha Lambda Delta at Baylor University.

Alpha Lambda Delta is the national honorary scholastic society for freshman women. Membership is open to women who compile a 3.5 or better grade point average during their first or second semester of study at Baylor or maintain a 3.5 average of a possible 4.00 for the two semesters.

Miss Robinson is one of 63 young women who will be initiated into the Baylor chapter May 12 in the Foyer of Meditation of the Armstrong Browning Library on the Baylor campus.

Members remain active in the society through their sophomore year.

Miss Robinson, a 1969 graduate of Eldorado High School, is majoring in journalism and speech.

Legionnaires Set Barbecue For May 7

The Bev McCormick Post 257 of The American Legion is to stage a barbecue the evening of May 7 to express appreciation to the sponsors of the Little League program. In a letter this week, L. D. Mund stated in part:

"To: Subscribers to the Little League Program.

"The Legion Post cordially extends to you and your family an invitation to attend an appreciation dinner at the Memorial Building on Thursday, May 7th, 1970, at 7:00 p.m. There will be barbecue, after which there will be entertainment and an outstanding after-dinner speaking.

"The Purpose of this occasion is for the Legion Members to express their appreciation to you, the subscribers, for your faithful and undying support of the Legion Post in its efforts to keep the Little League Baseball Program active. The advertising signs for the Little League Program were paid for, by you subscribers, two years ago for a two year period for \$25. The Legion members voted to give you another year on the signs and re-sell them next year.

"The Legion Post is looking forward to your continued support of all its activities in the future and to a good attendance at the barbecue on May 7th."

Eldoradoans Win Literary Events

Several Eldorado High and junior high students were among winners in the District 8-A literary meet held in Sonora Saturday.

Eldorado High School won first place honors in the meet with a total of 138½ points. In junior high school division Eldorado also won with 75 points.

Winners from Eldorado who will represent District 8-A in the regional meet in Lubbock this week end are Jimmy Martin and Jenny Martin in number sense; Bobby Sykes, informative speaking and science; Sheila Redwine, persuasive speaking; Peggy Hill, prose reading; and Mona Wagoner and Lorretta Schooley, slide rule.

Other students contributing points to Eldorado's win were Marion Bland, Patti Olson, Sue Ann Morris, Charles Adams, Mike Dempsey and Jerry Childers.

Winners for the junior high division were Dewayne Rushing, first in number sense; Denise Adams, second in number sense; Vonda Mess, third in number sense; Debbie Page, first in oral reading; Denise Adams, third in oral reading; Shirley Casbeer, first in spelling; and Debbie Page, third in spelling.

Also winning were Timmy Farris, third in boys oral reading; and Dewayne Rushing, third in ready writing.

The three sponsors who accompanied the students to the meet were speech teacher Gary Wallace, science teacher Robert Jay and English teacher Katherine Hill.

Be Patient — Your Cen. Taker Is Coming

Jim R. Farr, District Manager, reports that the 1970 Census of Population and Housing is nearing completion in the area, that in about another week the census takers should have visited every residence on their lists.

Census takers began visiting households on April 1 and have been working continuously to cover their territories. The District Manager asks that householders hold their questionnaires, which were delivered prior to April 1, and have them filled out, ready for the census taker to pick up. This will save time for both the householder and the census taker and speed up the completion of the census.

For every fifth household, the census taker will have a longer questionnaire which she will fill out by interviewing a member of the household. The District Manager asks householders to welcome these census takers when they call and to give them full co-operation in getting the required census information.

Most of the census takers are women. Each wears a red, white, and blue identification badge that is her official credential. It bears her signature and certifies that she is authorized to perform the duties of a Census Enumerator, and has sworn to keep confidential all census information given her.

Mr. and Mrs. Lawrence Dannheim and Carl and Mark visited Mr. and Mrs. Sammy Dannheim and family at Fort Stockton over the week end. They were joined there Sunday by the William Sauer family of Van Horn.

TYPEWRITER RIBBONS, for Royal, Underwood, and Remington —available at the Success.

Sonora Junior Quarter Horse Show Set May 16

The annual Sonora Junior Quarter Horse Show, sponsored by the Sutton County 4-H Club will be held Saturday, May 16, 1970 at the Sonora Park Association Race Track.

The show will be open to all 4-H and F. F. A. members in Texas. Halter classes will begin at 9:00 a.m., and will be followed by the performance classes.

Halter classes will be provided for registered and grade mares foaled in 1969, grade mares foaled in 1968, grade mares foaled in 1967 or before, registered mares foaled in 1968, registered mares foaled in 1967 or before, geldings foaled in 1968 or 1969, registered geldings foaled in 1967 or before and grade geldings foaled in 1967 or before.

Performance classes will include western pleasure, pole bending and barrel racing.

Contestants will be grouped in age groups 9-12 years inclusive, 13-15 years inclusive, and 16 years and over.

Trophies will be awarded class winners, the champion and reserve champion mares, the champion and reserve champion geldings, the high point horse, and the champion showman.

Trophy buckles will be presented to the winners in the performance classes.

For further information contact D. C. Langford, County Agent, Box 137, Sonora, Texas 76950.

Wear, Tear Should Determine Paint Use

College Station, Tex.—Painting, fixing and cleaning are jobs which get a lot of attention during the Spring season. The kind of paint for use on home interiors should be determined, says W. S. Allen, Extension agricultural engineer, by how much "wear and tear" it gets.

Allen outlines for those planning interior painting information that may be useful in selecting the paint for the job to be done. Paints are classified as oil-base, latex and special types, not including primers.

Oil-base paints are available in three kinds—flat, semi-gloss and gloss enamel. Flat paints are suggested for bedroom walls because they reflect no light. Semi-gloss or eggshell, as it is called by some companies, is best for the living room, kitchen, bath and in some instances for the hallway. Gloss enamel, covered with a rubbed-effect varnish, can be used for painting woodwork and furniture.

Latex or water-based paints are also known as vinyl, polyvinyl acetate, styrene butadiene and acrylic. Special paints include textured varieties, multi-colored and jellied paints. All produce a kind of pattern and require careful choice of fabrics and furniture to go with them, points out the engineer.

Semi-gloss and gloss paints withstand scrubbing and stain removal best. Flat paint, including latex, will wear off and may leave shiny places where spots are scrubbed, says Allen.

Points look brighter or darker on the wall than on a small sample. Lighter paints reflect light and give better lighting effects for family activities. A base coat, such as a primer, or a second coat of enamel or latex is suggested when a dark paint is being covered with a lighter color.

Study paint container labels for information on content, storage, drying time, coats required and how to clean brushes. Then select the best equipment and ladders for doing the job with safety in mind, suggests Allen.

And he concludes with this suggestion: consider your time and money when making the decision about painting. It might be cheaper to have the job done.

Reduce Your Taxes With Good Records

Dallas, Tex.—Good records can save tax dollars at income tax filing time for Texas taxpayers.

Ellis Campbell, Jr., District Director of Internal Revenue in North Texas, said good records help you get all the deductions and credits you were entitled to.

A good system for keeping records is to label envelopes or folders according to the types of income and deductions you have. Mr. Campbell said. Bills and receipts should be put in the appropriate folder as they are paid.

Taxpayers who itemize their deductions on Form 1040 must have available canceled checks, receipts, statements, and other data to support the claimed deductions.

Mr. Campbell said that, in addition to saving tax dollars, good record keeping makes preparation of the tax return a much easier task.

According to the Texas Tourist Development Agency, SIX FLAGS is Texas' most popular tourist attraction.

Head Restraints Are Misunderstood

Austin, Tex.—Of the many safety features incorporated in late model automobiles, apparently the most misunderstood and misused is the head restraint.

According to the Texas Safety Association, people seem to have gotten off on the wrong foot by thinking of the safety devices as "head rests."

TSA General Manager Lloyd F. Palmer, releasing the results of a recent informal visual survey, warned motorists, "Head restraints are not built or designed for use as a pillow."

"They are designed to prevent the head and neck from being thrown backward during rear-end collisions to minimize whiplash-caused injuries. In order to do this," Palmer continued, "head restraints should be adjusted so that they are centered at the back of the head—not at the neck."

Slow-motion studies of rear-end crash situations show that the head can be thrown backward in as much as a 90-degree angle, causing severe injury. The head restraint, when adjusted properly, can reduce such injuries, commonly called whiplash.

The Texas Safety Association says the recent survey showed a large proportion of Texas motorists are leaving the head restraint adjusted where it would strike the back of the neck if a rear-end collision were to occur. Leaving the restraint in that position, said the statewide safety group, could result in a major injury. The head restraints became standard equipment on 1969 model cars.

Sunburn Can Cause Stay In Hospital

Austin, Tex.—Each year in Texas a large number of persons are hospitalized as a result of severe sunburn.

The Texas Safety Association warns that overexposure to the sun can result in painful first, second, and even third degree burns. Sunburn usually is a minor problem that does not require hospitalization, says the statewide safety group, but the possibility of a severe and dangerous burn is very high.

The safety association says the best rule to follow to prevent sunburn is to get used to the sun gradually. Start with only a few minutes at a time, increasing your exposure to the sun a little more each day.

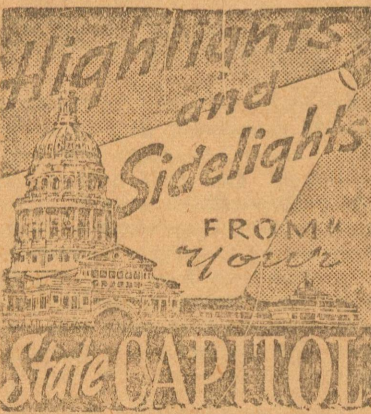

The group warns too that sunburn can occur on a cloudy day since it is the ultra-violet rays of the sun that cause the dangers.

TSA also says sun-worshippers should use a sun tan lotion to help screen out the sun's burning rays. If a bad burn occurs, the Texas Safety Association says, "See a physician. Get proper medical treatment and advice."

Band In Contest

The Eagle Band, striving for a 4th consecutive Sweepstakes in U. I. L. competition, failed to attain a First in Sight Reading in Region VII Concert and Sight Reading Contest held in Brownwood Friday.

They did win a First in Concert playing and had won a First in Marching Contest held last November in Ranger. Their U. I. L. rating—First in Marching, First in Concert and Two in Sight Reading—is still a very good one, and highest in District 8A Class A bands.

Austin, Tex.—Adequacy of planned public school education programs on the dangers of drug abuse drew a challenge last week from Lt. Gov. Ben Barnes as the war on narcotics increased in tempo.

Barnes told newsmen he feels the program can be "redeemed" and strengthened out by the beginning of the next school year. He suggested that bona fide authorities on drugs and former addicts should be included among teacher-resource personnel.

Meanwhile, the Lieutenant Governor told a narcotics seminar for law officers and prosecutors that Texas is spending far too little money on drug law enforcement.

Gov. Preston Smith, in the opening address to the conference, said the primary obligation of law enforcement is to rid society of

pushers who traffic in narcotics for profit. Smith also said education is the key weapon in fighting drug abuse by addicts and experimenters.

Barnes said the new school course on narcotics should be made as "personal" as possible. Both Smith and Barnes agreed that teaching must be done by those who know what they are talking about.

Lieutenant Governor believes that lowering of penalties for first-offense possession of marijuana to misdemeanors would end the reluctance of juries to convict. He reported heavy response to his suggestion, and said that correspondence is running four-to-one in favor of lighter sentences. Pushers, he emphasized, should get tougher punishment than at present.

Spending for enforcement, the Lieutenant Governor claims, could be increased "200, 300 to 400%" without undue burden on taxpayers —by "reevaluation of priorities."

Attorney General Rules

State Board of Health may adopt reasonable rules and regulations relating to minimal equipment for ambulances, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded that:

—Members of Chambers-Liberty Counties Navigation District are authorized to receive \$25 a day or "reasonable per diem" for time spent on duty as fixed by county commissioners.

—Board of trustees for a firemen's relief and retirement fund may not invest in mutual funds.

—Changes in boundaries of county election precincts may be made only during July and August terms of county commissioners' court and the month of September, 1970. Changes do not become effective until the following voting year. Voters in the new Bailey County precincts must vote in precincts where they are residents.

Appointments

Governor Smith named Wayland Holt of Snyder, Judge of the 132nd judicial district to succeed Judge Sterling Williams who resigned. Holt had been serving as district attorney, and Governor named Tommie J. Mills, also from Snyder, to replace him in D.A.'s office.

Smith also filled these positions: Rannels County Water Authority Board of Directors, E. E. King of Ballinger and Harley Hilliard of Norton for six-year terms.

Tri-County Municipal Water District, W. W. Siddons Jr. of Hillsboro.

Judicial Qualifications Commission, F. Howard Walsh of Fort Worth and Vernon Butler of Carthage.

Governor named group of Texas A&M University scientists to advise him and the legislature on safe use of agricultural chemicals. Members include Dr. P. L. Adkisson, Dr. William B. Davis, Dr. John Griffiths, Dr. Morris Merkle, Dr. F. W. Plapp Jr., Dr. Jack Price, Dr. Sammy Ray, Dr. Rudolph Radeleff, Dr. James Teer, Dr. J. Vanoverbeek, Charles Chapman, assistant commissioner of Texas Department of Agriculture, will work with the group.

Smith also appointed the 12-member advisory council for children with learning difficulties.

Oil Production

Texas Railroad Commission trimmed statewide oil allowable for May to 64.5% of potential.

Reduction follows four months at a high 68% level. Commission said a restudy of the producing ability of Texas oil wells and increases in above-ground stocks of crude oil led to the cut-back.

May allowable will mean maximum production of 3,505,375 barrels a day, or 147,530 less than April. Estimated actual production will decline only about 43,750. Commission figures.

Nominations by major producers actually totaled 20,922 barrels a day more than April.

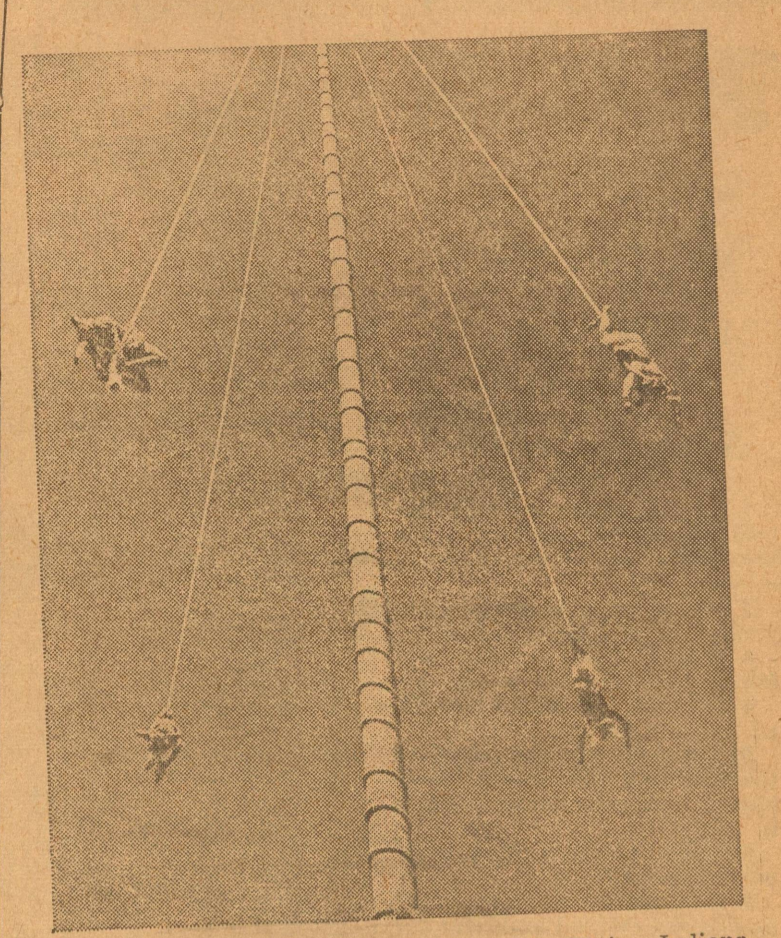

Hospital Grants Cleared

State Board of Health has approved \$10.1 million in federal grant allocations for 24 hospital health facility construction or improvement projects. Program pays up to 50% of construction or modernization costs.

Grants of \$1 million each went to El Paso's Hotel Dieu Hospital, Houston's Christian Home for the Aged, Dallas County Hospital District and Weatherford Memorial Hospital. Other projects and allocations included:

San Antonio Metropolitan Health District, \$153,000; Brownsville-Cameron County Public Health Center, \$312,500; Crossroads Com-

Courts Speak

State Supreme Court held that an El Pasoan should be repaid his investment on a car repossessed by a finance company and resold, although the man claimed he was promised more time on payments. High court threw out punitive damages assessed against the finance company in a lower court, finding no proof of malice.

Fifth federal circuit court of appeals ordered Crosby Independent School District to implement a school desegregation pairing plan by June 1. District previously had been given until September 1.

Cholera Funds Provided

Governor Smith has asked the Comptroller to transfer \$50,000 to the nearly depleted Hog Cholera Eradication Program. These transferred funds are to be used to indemnify owners whose swine are exterminated to prevent the spread of the disease.

This program, administered by the Texas Animal Health Commission as part of a nationwide campaign to eradicate the disease, is about to run out of money. Smith said only \$5,000 of the \$200,000 appropriated for the fiscal year ending Aug. 31, 1970, remains for the program. Money will come from unbudgeted funds of the meat

Education Aides

State funds to pay teacher aides, non-professional helpers trained to take over the more routine tasks of classroom and laboratory, will be available for the first time during the 1970-71 school year.

Texas Education Agency Commissioner J. W. Edgar said the State Foundation School Program will provide \$300 a month for 10 months for each aide authorized. Salaries can be supplemented by the local districts.

Short Snorts . . .

U. S. Senate committee will hold hearings June 12 in the Beaumont area on plans to create Big Thicket National Park in Hardin, Polk, Tyler, Liberty and San Jacinto counties.

"Severe crisis" due to shortage of mortgage loan money will send the Governor and a Texas group to Washington April 30 to confer with federal Housing and Urban Renewal Secretary George Romney.

Plans for establishing 97 new manufacturing plants and expansion of 31 existing Texas plants are in the mill, according to University of Texas Bureau of Business Research.

New state-federal study will seek to determine feasibility of building sea-water desalting plant to serve Brownsville.

**Clean Up Your
MEDICINE CHEST**
12 Safety Rules To
Prevent
Accidental Poisoning

1. Keep all medicines and household poisons (cleaning fluids and insecticides) out of the reach of children.
2. Never refer to medicine as "candy" to your child.
3. Read all labels carefully and follow directions.
4. Don't take a medicine prescribed for someone else.
5. Never increase the dosage or the frequency of a dose of medicine—unless your doctor suggests it.
6. Throw out the contents of all old medicine bottles.
7. Keep internal medicines in one cabinet and external medicines and poisons in another.
8. Do not place poisonous liquids in soda bottles.
9. Throw out all unlabeled medicines and containers.
10. Do not take or give medicines in the dark—when you may be sleepy.
11. Protect your skin when using insecticides, solvents or cleaning agents. Remember some products can be absorbed through the skin; use as directed.
12. If someone takes a potentially toxic substance in your home, call a physician immediately. Don't wait for symptoms to appear.

Miss Page Given Honor At Texas Christian

MARTHA SUE PAGE

Fort Worth, Tex.—Martha Sue Page of Eldorado was among Texas Christian University coeds initiated into the institution's chapter of Mortar Board, which was formally installed on April 18th.

Ampersand, TCU's honor society for senior women, became the 136th collegiate chapter of the first and only national organization for senior women. University students, women faculty members and Ampersand alumnae from throughout the United States joined with Fort Worth Mortar Board alumnae for formal installation and initiation ceremonies.

Miss Helen A. Snyder, president of the Mortar Board National Council, was one of the distinguished guests participating in the day-long schedule of events. Associate dean of student affairs and administrative assistant to the executive dean of the University of Nebraska, she was speaker at the evening banquet. Other national officers taking part were Mrs. Carolyn Barta of

Dallas, a Mortar Board section director and civic affairs reporter for the Dallas Morning News, and Mrs. Catherine Evans of Arlington, former section director who now conducts the society's elections.

Taking part were three of the six women who founded Ampersand in 1932 at TCU to honor a select group of young women who achieved commendable scholarship during their university life in addition to participating significantly in other campus activities as well as several charter members.

Martha, daughter of Mr. and Mrs. James A. Page of 108 Redwood in Eldorado, is an accounting major. The president of Pi Beta Phi sorority has served as treasurer and chairman of the finance committee for the student House of Representatives. She is a member of Alpha Lambda Delta, honor society, Beta Alpha Psi, accounting fraternity, and Phi Chi Theta, business sorority.

Hale Accepts Position In San Antonio Bank

BILLY SAM HALE

San Antonio, Tex.—W. Sam Hale has become a new loan officer of the Jefferson State Bank, according to an announcement made by Tom A. M. Grah, president of that Bank.

Hale will be Assistant Vice President, assisting John C. Woodlief, Senior Vice President and head of the loan division of that Bank.

Previously Hale was associated for several years with one of the nationwide finance companies operating in Texas.

Hale attended high school in El-

derado, Texas, and his wife, Jo Anne, is a graduate of Alamo Heights High School. She was then Jo Anne Dobbs, a popular major-ette in the 1957 class. Both Sam and his wife attended Texas Tech University.

They have three little girls, Christi, Wendi and Karen, and they live at 8535 Greenbriar in San Antonio.

Earliest motorcycle was a wood-en-machine built in 1885 in Ger-many.

**Luedecke To Hold
A&M On Course**

GEN. A. R. LUEDECKE

... A&M Acting President

College Station, Tex. (AP) Gen. Alvin R. Luedecke, acting president of Texas A&M University, says his energies will be devoted to programs initiated by his friend and classmate, the late Gen. Earl Rudder.

"We have a program with worthy objectives already established," Gen. Luedecke said in an interview.

The 1932 A&M graduate was selected by the directors recently to be acting president of both the university and the Texas A&M University System.

Luedecke, 59, returned to A&M in 1968 as associate dean of engineering and engineering research coordinator. Last year he assumed added responsibilities as associate director of the university's Texas Engineering Experiment Station.

"I came back here to do what I could to help this institution and help Gen. Rudder—not with any particular job in mind," Luedecke said.

Rudder died March 23. Luedecke, a native of Eldorado, Tex., took over one of Texas' biggest jobs: leadership for the educational, service and research system.

Luedecke completed a 26-year military career when he retired from the Air Force in 1958 to become general manager of the Atomic Energy Commission. After six years, he was named deputy director of the Jet Propulsion Laboratory at California Tech.

"While my professional pursuits kept me elsewhere," he said, "I've always been dedicated to the objectives of Texas A&M, since I first came here in 1928."

Luedecke said he agrees with the Century Council report issued in 1962.

The report calls for strong graduate and research programs and

the highest possible quality instruction. It also called for programs to attract students of high capacity, up-grading of the faculty and development of the physical plant.

"I think the action taken since adoption of the objectives has been highly exemplary," he added. "Gen. Rudder was untiring and unceasing in working toward the established goals." He said he believes A&M is "substantially ahead of the schedule laid down for it."

The objectives are still valid, Luedecke said but noted that the means of attaining them may now be different.

"We must make our work responsive to current needs of the students and to the state and nation," he said.

Luedecke said he deplores campus violence. "I still feel that most students come to college to get an education. Their definition and mine might differ but I think they would agree they can get an education without mixing it with violence."

"We want to provide here a mechanism for people to be heard, face the problems they feel they have and provide the best answers to them."

He speaks from the point of view of a parent. His son, Alvin R. Luedecke Jr. is a senior civil engineering student at A&M.

Recalling that the university's overall goal is academic excellence, Luedecke noted that perhaps the whole definition of "excellence" has changed.

"That doesn't change the validity of the goal," he emphasized. "It changes the composition of the product."

He said, for example, excellence in engineering today involves a broader understanding of environment than it did 10 years ago.

Turning to research, an area in which Texas A&M has made significant gains in recent years, the general pointed out that the university's effort is continuing to grow even during a period of reduced research financing.

He expressed confidence that A&M can play a vital role in helping solve such critical problems as pollution, exploitation of the ocean and more efficient production of both conventional and non-conventional foods. He said the university also is in a position to make valuable contributions in such areas as nuclear and space research.

The university honored him with an honorary doctor of laws degree in 1946 and the Distinguished Alumni Award in 1967.

Bridge continues at 7:00 p.m., Thursday, 23rd.

Often overlooked is the fact that this legislation has the benefit of not only stemming mass migration of people into overcrowded cities, but would, in fact, reverse that trend by creating job opportunities away from cities.

"It must be recognized that many of the serious problems we face today are in cities and are a result of over-congestion. This over-congestion is the primary cause of pollution, crime, and increasing racial tensions which now plague our large cities. All the poverty program monies in the world won't offer as lasting a solution as the creation of jobs and de-concentration of people proposed under this program."

"I am highly encouraged that public awareness of this issue has been aroused, and I am hopeful that positive action will soon follow in the Congress," Bush said.

**Bush Urges Passage Of
Tax Credit Legislation
To Aid Rural Areas**

Austin, Tex.—George Bush, Republican candidate for the U. S. Senate, recently issued the following statement:

"It is gratifying to see my proposal for rural development gaining widespread support from the public and the press in Texas.

"The Rural Job Development Act, which I first introduced in July, 1968, provides for tax incentives for industries locating in rural areas with low employment opportunities. These rural communities would also be permitted the carefully controlled use of tax-exempt industrial development bonds for this purpose. In all cases, businesses which qualified would be required to hire a certain percentage of their workers from poverty-stricken families. I re-introduced this legislation in the first session of the 91st Congress and since then have spoken out continually for its passage.

"I have long been an advocate of the tax credit approach as a means for solving the problems created by urban congestion as well as those resulting from a dying rural economy.

"For too long, the Federal Government has followed the old and ineffectual idea that if a highly centralized plan failed, the next step would be simply to double the expenditure and try again with the old plan. They weren't interested in a new approach—in innovation. This is the sort of thinking that has caused excessive and wasteful spending without providing the necessary solutions to the problems. This is why we need the involvement of the private sector. This is why, for the past two years, I have fought for passage of the Rural Job Development Act.
