## Commodities Distributed This Week

Distribution of food is going on this week at the Neighborhood Center on Wednesday and Friday. Approximately 200 low income persons have been certified and are qualified to receive surplus commodities.

The office will be closed Thursday while W. R. Bearce, Gloria Rodriguez and Lupe Robledo will attend a meeting in San Angelo for instruction.

Included in the foods being distributed are:

Dried beans, butter, cheese, corn meal, flour and lard or shortening. Non-fat dried milk, canned chopped meat, rolled oats or wheat, peanut butter, dehydrated potatoes, raisins or prunes, rice;

Choice of canned chicken, canned turkey or canned pork, canned beef, egg mix, scrambled, fruit or vegetable juice, milk beverage mix and evaporated milk.

Also corn syrup, grits, instant non-fat dry milk, prunes, lentils.

Mrs. Vida Kreklow, H. D. agent, is giving cooking instruction to the ones desiring it each Wednesday afternoon in the kitchen of the Catholic church.

## Gin Report

Most of last week was good cotton-stripping weather which was taken advantage of by all growers. The last three days of last week saw the gin yard crowded with trailers awaiting their turn.

Saturday the gin had its biggest run of the season, processing no less than 80 bales. The plant didn't shut down until after midnight and then left a large backlog to be ginned on Monday.

Monday night saw a gin total of 804 bales, which was about 300 more than they had a week earlier.

Early Monday morning the county experienced a brisk rain which was not much more than a shower in town but considerably heavier in Reynolds community. Wayne Mikeska said it would delay stripping in that area and expected a ginning pause of several days.

Last year at this time Mikeska gin had processed over 2,000 bales. This year 2,000 is given as the total crop for the season and they will soon have half of it in the bale.

## Jr. High Team Loses Final Game To Sonora

The Eldorado Jr. High football team fell short of the undefeated season that it had set as a goal last Thursday when the Sonora Broncos defeated them 28-8.

The only high point in the game as far as Eldorado was concerned came with a touchdown by Mike Manning and Mike also added the points after. The Eldorado team played hard but it just seems that the Sonora bunch played harder and made fewer mistakes.

Even though the defeat was depressing the Jr. High had a great year and ended the season with a 7-1 record which is not bad at all. They also finished the season by holding a convincing lead in points scored and points scored against them. The Eldorado Eagles scored 240 points for the season and allowed their opponents only 90 points. This averages out to just over 34 points per game for the Eagles and just under 13 points per game for the opponents.

The final activity for the Junior High football team is the football party that will be held this Saturday in the Memorial Building. After this all attention will turn to basketball.

## CHARLOTTE JONES DIES

C. R. Keeney received word Tuesday night in a phone call from Mrs. Don McCormick at Austin that Miss Charlotte Jones had died in Austin early this week.

Miss Jones was daughter of John E. Jones of Cleburne and taught in the Eldorado schools back in the 1930's.

Mrs. McCormick also reported that Don is doing fine in Austin and manages to take a walk every day. The McCormicks moved to Austin a year ago after he retired as manager of Southwest Texas Electric Co-Op.

## Post Script

Happened to be in Sonora recently at a meat processing plant, and while there a man came in and picked up two javelinas that had been dressed out.

It seemed that a party of hunters were having a supper and wanted something different as meat dish.

Game Warden: "Say, you're hunting with last year's license."

Hunter: "That's right. I'm only shooting at the ones I missed last year."

The sergeant was preparing to fingerprint a recruit.

"Wash your hands," he ordered. "Both of them?" asked the recruit.

After a moment's hesitation, the sergeant said, "No, just one. I'd like to see how you do it."

It has been the policy of the Java Junction Cafe under management of Mrs. Clements to close every Saturday to give her crew a day off each week.

But now during hunting season, they are open seven days a week.

They started this last Saturday and she said the place was crowded with hunters at 4:00 o'clock in the morning—and everybody wanted to be served at once.

Members of the Eldorado fire department urge all hunters to be careful when out on the open range about starting grassfires.

The grass has been frost-bitten, already and is becoming dry. So be careful with cigarettes and matches and campfires.

As mentioned in other columns in this issue, the Eagles' final football game of the season will be between Eldorado and Menard and will be on the home field. But it has been moved up from Friday to Thursday night in order that local fans may go to Sonora Friday night.

There, Junction and Sonora, two undefeated teams, will battle for the district championship.

Two small boys were standing together when a very pretty little girl walked by. One of the boys said fervently to his pal: "When I stop hating girls, she's the one I'll stop hating first."

I might have known that my story last week about the green tomato pies would bring out comments from a number of our local cooks, and sure enough a few minutes after she had bought a paper Wednesday afternoon, Mrs. Greeley came in to remind me that her mother had made lots of green tomato pie years ago.

Not to be outdone Loyce Parker came in the next day and proceeded to let me know how far behind the times I was. Her grandma, she said, made oodles of green tomato pies. That, of course, was up in her home state of Missouri—the "show-me" state.

Some who had never heard of tomato pies were curious enough to ask. Several of the girls at the bank wanted to know what the pies tasted like, but I was at a loss to describe the taste.

There are three pies I've always been partial to, and these are apple pie, pumpkin pie, and lemon pie, but I couldn't tell anyone that the tomato pie was similar to any of these. All I could say was that it was different—but real good.

Yes, it was good, and I had labored under the hope that with all the advertising I had given it, that someone would generously give me another wedge, but they didn't. I since learned that Mrs. McKee gave another whole pie to Donnie Gilmore. But did she give me a piece of it? No! I thought Donnie was a better friend of mine than that.

## New Babies

Mr. and Mrs. Bobby Helmers are the parents of a daughter, Staci Sue, born Wednesday, October 29 at 2:15 p.m. in the Clinic Hospital of San Angelo. Staci weighed 5 pounds, 12 1/4 ounces at birth and was 19 inches long.

Grandparents are Mrs. Sarah Hall of this county and Mr. and Mrs. Malven Helmers of Seagoville, Texas.

The Helmers have another daughter, Paige, who is eight.

Mr. Helmers is on the coaching staff of the local schools.

## Miss Whitten Named To All-District Band

LISA WHITTEN

Miss Lisa Whitten, daughter of Mrs. B. A. Whitten, placed in the cornet-trumpet section of the All-District Band try-outs Saturday morning and was in rehearsal Saturday afternoon and concert Saturday night.

Lisa, Senior in Eldorado High School, is Eagle Band drum major.

## BOOSTER CLUB MEETS

Eagle Booster Club met Monday evening with Coach Norman Roberts. The Sonora-Eldorado film was not available to be shown but Norman gave an interesting rundown on the coming basketball season.

The usual after-game coffee will not be held this week due to the Thursday night game.—Rep.

## THANKSGIVING SERVICE SET

A Union Thanksgiving Service will be held the night of Sunday, Nov. 23rd, in the First Baptist church, sponsored and conducted by the Ministerial Alliance.

Most local churches will participate. Further details on arrangements will be given in next week's issue of the Success.

## Lions Conducted Broom & Mop Sale Last Week

BOSS LION A. G. McCormack and L. D. Mund, 1st vice-president, are shown with the sign at the truck from which brooms and mops and other articles made by Texas Blind were sold last week. This is an annual money-raising project.

A SPECIAL ADDITION to the sale this year was "Dandelion" the pet lioness belonging to Mr. and Mrs. Robert Martin who ranch in the northeast part of the county. Show looking at Dandelion are Lions L. E. McCalla, Bill Rountree, and Bruce Shipman.—Staff Photos

## Eagles Host Menard Thursday Night To Close Out 1969 Football Season

### Bulletin Board

**HOW THEY CAME OUT LAST FRIDAY:**  
Menard 28.....Eden 0  
Sonora 18.....Eldorado 0  
Junction 28.....Mason 6

**WHERE THEY PLAY THIS FINAL WEEK:**  
Mason in Eden  
Menard in Eldorado  
Junction in Sonora

**How They Stand In Conference Play:** W L T  
Sonora ..... 4 0 0  
Junction ..... 4 0 0  
Mason ..... 2 2 0  
Eldorado ..... 1 3 0  
Menard ..... 1 3 0  
Eden ..... 0 4 0

**How Menard and Eldorado Have Come Out Since 1962:**  
1962: Eldorado 6—Menard 6  
'63: Eldorado 21—Menard 0  
'64: Eldorado 14—Menard 6  
'65: Eldorado 47—Menard 19  
'66: Eldorado 43—Menard 6  
'67: Eldorado 17—Menard 6  
'68: Eldorado 19—Menard 12

**POIGNANT NOTE:** Ten Eldorado Eagles don "Green and White" football uniforms for their final high school game here tonight.

## Turkey Shoot Set Sunday By Jaycees

Shooting and Target Shooting will be on the agenda this Sunday afternoon, Nov. 16th, at 2:00 o'clock as the Eldorado Jaycees stage a Turkey Shoot at the old football field site a mile south of town on the Sonora highway.

The event gets under way at 2:00 p.m. Proceeds will go to help the local Girl Scout troop.

There will be limited hunt for head shoot, and three boxes of shells donated by local businesses will be given away in drawings.

The Eldorado Eagles and the Menard Yellowjackets square off tonight on Eagle Field to determine the fourth place winner in tough District 8A. It is indeed "Tough District 8A" since four of its six members have been listed in the top 15 Class A teams in Texas for as much as a month of the 1969 season and three of these four have been ranked in the top ten for the same period of time. Two still are in the top five.

Menard took a four-touchdown win over the downtrodden Eden Bulldogs this past Friday night. The same night, Eldorado stubbornly bowed to the powerful Sonora Broncos by a three-touchdown margin. Earlier this season, Eldorado defeated Eden by 39-0 or approximately a six-touchdown margin.

It has been more than eight years since a Menard team has beaten Eldorado and do doubt this year's Yellowjackets are to the bursting point with frustration over this situation. It bodes no good for the Eagles. Menard is boasting its strongest team since 1962, and will be articulating their rendition of "Speak Softly and Carry a Big

Stick" tonight. Indeed they have the best chance to whack the Eagles they have had in a long time as in all probability, it will be hard for the Eagles to bounce back to full competitive endeavor after their all-out effort against the Broncos.

Menard will field a strong aggregation being more nearly of equal stature than their Eagle counterparts. Their starting line-up goes as follows:

No.	Name	Pos.	Wt.
82	Randy McSherry	LE	145
75	Barrv Anderson	LT	180
60	Buddy Wildinon	LG	150
52	Douglas Decker	C	185
65	Jay Kothmann	RG	165
74	Pat Everett	RT	190
80	Arvin Mitchel	RE	175
21	John Thompson	LHB	160
22	Tommy Decker	RHB	190
20	Danny Zamara	FB	140
10	Randy McDonald	QB	160

In fact, Menard has a potential weight advantage of some six pounds for each man, full team across. Eldorado has 10 seniors while Menard has eight. Eldorado has some advantage in speed but this is offset by the weight advantage enjoyed by the Yellowjackets.

Menard's offensive posture is the "I" formation which is designed to take advantage and exploit strong if not-so-swift-of-foot boys. Menard's air attack is subordinated to their ground attack. In Danny Zamora they have a shifty and effective broken field runner with abundant blocking in front on the right side in the persons of Jay Kothmann, Pat Everett, and Arvin Mitchel, these three lads possessing some 530 pounds or "26 stone" among themselves.

Defensively, they favor a so-called "Monster Five" the monster being a tough senior, Buddy Wilkinon at 160 pounds.

Menard has a season's record of three wins and five losses as opposed to Eldorado's six wins and three losses. Both teams still have the same District 8A standing of one win over Eden and three losses each to Mason, Junction, and Sonora.

Ten Eagles end their high school football careers tonight. They are Jimmy Martin, James Larry Davis, Mickey Clark, Wayne Doyle, William Edmiston, Bobby Sykes, Sam Oglesby, Robert Wilson, Paul Page, and Bob Page.

Their problem is to pull themselves together enough to end their 1969 football season on a happy note. This will not be an untested ambition as eight Menard Yellowjackets will be motivated by this as well as a greater ambition: to beat Eldorado for the first time since "The Battle of Hastings."

The facts of the matter are that Eldorado is going to be confronted with a very serious and severe challenge. No nervous tensions, no championship responsibilities to slow thinking and reflexes, nothing but an evening of vigorous exercise embroidered with a great deal of headknocking, and all with plenty of room for an unobstructed effort to win that last high school game: not so much for school, not so much for Mom and Dad, but just for each boy and his own personal book of memories.

## Boys Ranch Hunt Set For This Saturday

The date has been confirmed.

The Boys Ranch deer hunt will be held on Saturday of this week, Nov. 15, according to Rony Kerr, president of the Junior Chamber of Commerce who are hosting the event.

There will be 15 boys and each boy is to be accompanied by two men. The entire group is scheduled to meet at the court house at 5:45 a.m., Saturday, all prepared to leave out for Figure 3 ranch where the hunt will be held.

Probably 35 local men will be involved in the event since several will be assigned to barbecue duties. Possibly 50 individuals will be served both dinner and supper out on the ranch barbecue style.

### Preliminary Meeting

The Jaycees will have a meeting tonight (Thursday) at the OEO building at 6:00 o'clock when final arrangements will be made for Saturday's hunt. Anyone interested in the hunt is invited to attend whether he is a Jaycee or not.

This meeting will close in time for you to attend the football game.

## Jr. High Team To Have Banquet

The Junior High football team, who closed out their season of play last week, will have a banquet this Saturday evening starting at 7:00 o'clock in the Corral room of the Memorial Building.

Special recognition will be given the players at that time, and the coaches, Bob Helmers and Lynn Meador, will also be honored.

Mrs. E. H. Nixon Jr. is chairman of the committee on arrangements.

## SCHLEICHER COUNTY MEDICAL CENTER LAB TESTS AFFILIATED WITH COMPUTERS

The Schleicher County Medical Center has become affiliated with two independent laboratories, one of which offers computerized services. All specimens obtained at the Medical Center can now be examined by a large "auto-analyzer" which is connected to a computer to give faster and more accurate results. The use of the automatic services will allow a reduction in the cost of laboratory tests of about one-half the cost if the lab test were to be done by a technician in our local laboratory. The affiliation became effective on October 6.

In addition to the computer service, arrangements have been made with the Al Schmitt Laboratory of San Angelo for supervision of the Schleicher County Medical Center Laboratory. Mr. Schmitt, a well-known laboratory technical supervisor, will periodically visit the lab here and work closely with Mrs. Betty Rosford who is currently in training with Mr. Schmitt. All

new techniques and examinations to be performed will be taught and supervised by him in order to continually upgrade our local laboratory services.

Dr. Harry Claypool, radiology specialist, is now the supervisor of the Medical Center X-Ray Department. Dr. Claypool will direct the operation through weekly consultation with Medical Center Staff each Saturday morning in Eldorado. Mrs. Rosford is scheduled to work with Dr. Claypool at Sid Peterson Hospital for X-Ray training during November and December.

The use of the computer laboratory services, and the local direction by Mr. Schmitt, plus the addition of Dr. Claypool to supervise the X-Ray services will allow the Medical Center to provide more expert care within the community setting and to take advantage of the latest changes in the field of medicine. As these services are inaugurated, any laboratory test commonly used by any specialist can be obtained locally.

New Tax Form To Be In Use On January 1, 1970

If you don't know about the new income tax form, you will shortly after January 1. Internal Revenue Service has issued a fact sheet on the new form 1040. Here are some of the facts.

The new 1040 not only replaces the card form 1040A, but also the old 1040 form. The new form is a one page basic form to which schedules can be added to cover any tax situation. IRS says that 77 million returns will be filed for this year—1969. An estimated 31-million will use only one page. Another 22 million returns will consist of the new one-page form and one additional attachment.

Thus, about 75% of all the 1969 income tax returns will require only one or two pages. IRS assures taxpayers who formerly filed the little card form 1040A that the new form will not complicate filing nor require additional information of them. The new form simply provides a different place for the information that should actually be easier to use.

The tax folks feel that the new form will help 1040A filers take advantage of all the deductions available to them, especially those who overpaid their income taxes because they were not aware of, or could not take advantage of, the various tax benefits available to them. Internal Revenue gave the problem long and thorough study before they changed the tax form. Let's all hope it will make the job easier and save us a few bucks.

Cardboard 10c & 20c, Success

School Menus

(All meals served with hot rolls and milk.)

Thursday, Nov. 13: Roast beef & gravy, creamed potatoes, okra & tomato gumbo, cabbage & carrot & raisin salad, rice pudding.

Friday, Nov. 14: Sloppy Joes, pinto beans, stuffed celery, pimento cheese, hash brown potatoes, chocolate brownies.

Monday, Nov. 17: Meatballs and spaghetti, mixed greens, cabbage & carrot & apple salad, canned fruit.

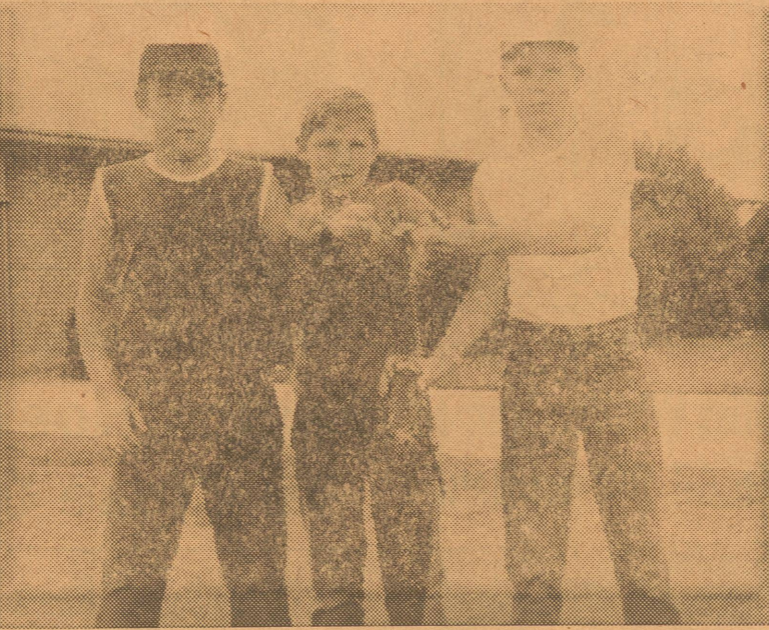

Tuesday, Nov. 18: Barbecued chicken, pinto beans, cole slaw, macaroni salad, banana pudding.

Wed., Nov. 19: Hot dogs with chili, potato salad, stuffed peanut butter celery, fresh fruit cup, cheese strips, pecan squares.

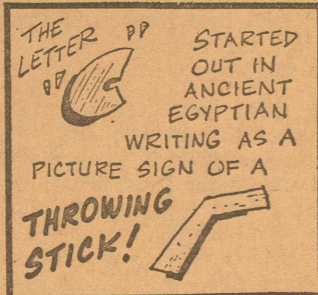

Thursday, Nov. 20: Chicken fried steak & gravy, creamed potatoes, whole kernel corn, tossed green salad, fruit cobbler.

Friday, Nov. 21: Lasanga, boiled carrots, waxed beans, fresh orange halves, lime and pineapple jello.

Three Local Boys Catch Big Fish

THIS 27 1/2"-FISH was caught recently near Ft. McKavett by the three boys shown, Ricky and Wayne Gibson and Forrest Henderson. They caught it with rocks in shallow water and it weighed out at 14 pounds. —Success photo

COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

Some 40,000 Texas ranchers and farmers, including a representative number from Schleicher county, will be involved in the 1969 state livestock survey.

During the last half of November survey questionnaires would be mailed to the selected livestock producers by the Texas Crop and Livestock Reporting Service. Each should fill out the questionnaire as soon as possible and return it in the enclosed envelope.

The reports will be used by the state statistician in making an accurate estimate of the cattle, hogs and chickens on the farms and ranches of Texas.

There are many uses, both in and out of Texas, for this information. We use it here in the county, in connection with our program building activities and in conducting educational programs involving livestock.

The more questionnaires returned, the more accurate will be the estimates; therefore, it is important that each producer in Schleicher county who receives a questionnaire, complete and return it immediately.

A calm sea never made a skillful mariner.

"External Parasites of Cattle" is the title of a new Texas Agricultural Extension Service publication. It carries only basic principles of control and is to be used as a companion to the annually revised guide which lists control recommendations.

The authors, Manning Price, Philip J. Hamman and Weldon Newton, all of Texas A&M University's Department of Entomology, and the latter two Extension entomologists, point out that external parasites of cattle probably cause greater losses than all infectious diseases combined. These losses result from death of animals due to heavy parasitism; stunted growth, decreased milk production, loss of edible meat and damage to hides; parasite transmitted diseases and lowered resistance to infectious diseases.

The publication is well illustrated and should be a real aid to cattle producers in diagnosing and evaluating parasite infestations. Copies of the publication, B-1080, are available from my office.

Don't worry if all of your dreams don't come true; neither do your nightmares.

The use of good "housekeeping" practices in the backyard or commercial fruit orchard at this time of the year will pay big dividends.

Peaches and plums which were discarded or dropped from the trees during the harvest season should either be picked up or plowed under to a depth sufficient to prevent their returned to the soil surface next spring. This clean up is important since disease organisms can carry over in this fruit.

Brown rot, for example, causes a disease of peaches and plums which is characterized by a rapid decay of fruit at harvest time. Decayed fruit left on the tree or underneath it can serve as a source of the disease-causing spores next spring.

In addition to carrying out a good clean up and sanitation program now, plans should be made for the use of protective sprays of fungicides such as sulfur, captan or Botran next spring. These sprays will protect the young fruit from infection.

Material is available from my office on both disease and insect control programs for home and

commercial fruit producers.

God gives every bird its food, but He does not throw it into the nest.

Good fall rains and the resulting green feeding areas will put the deer hunter's skill to a real test. The abundance of forage and a good acorn crop means that the deer will not be moving around a great deal and the hunter will have to call upon his skills more so than in recent years. The deer are as plentiful as in former years in most areas and generally are in good condition.

Lawlessness Backed By Militant Groups

By Congressman O. C. Fisher

Evidence is mounting that a national crusade for lawlessness and subversion has gathered momentum in recent months. At the behest of the militant Black Panther Party, some 4,000 revolutionaries gathered in Oakland to form a new outfit to be known as "A United Front to Combat Fascism." The keynoter was Dr. Herbert Aptheker, a top dog in the Communist Party USA.

It was an anti-war outburst, but observers saw in the new combine a change in format of many subversive groups whose chief purpose is to promote riots and violence and to undermine the government.

The anti-war hoax was exposed at the meeting by Don Cox, Field Marshal of the Black Panther Party, who during a speech quoted Mao Tse-tung, the Red Chinese warlord, as saying: "We are the advocates of the abolition of war. War can only be abolished through war. Power to the People!"

It is now known that the New Mobilization Committee to End the War in Vietnam includes among its sponsors most of the Nation's nearly 300 revolutionary movements.

Not long ago a mass meeting in Oakland, sponsored by the Black Panther Party, was attended by some 4,000 anti-war rabble-rousers. The pow-wow was a whooper and the keynoter was Dr. Herbert Aptheker, a top dog in the Communist Party USA. Among the radical speech-makers was Jeff Jones, a leader in the pro-Communist Students for a Democratic Society (SDS), who—following the typical Communist line—was quoted as saying: "The struggle that is going to ultimately defeat U. S. imperialism . . . is going to be an armed struggle."

There are signs the American people are catching on to the real purpose of these anti-American trouble-makers. Some good-intentioned people have been drawn into the conspiracy as a means of expressing dissent. They're learning that many of the old pros in the "peace" movement have changed their format and are using the war as an excuse for advancing their nefarious schemes.

If the war ended tomorrow, they would be conjuring up another approach to oppose preparedness and to promote lawlessness and violence.

Mr. and Mrs. Morris Davis and family of Austin spent the week end here visiting her parents, Mr. and Mrs. James Williams, and they attended the Eldorado-Sonora game.

### Hunting, An Old American Custom

Approximately one out of every five or six American males is a hunter. Few other sports offer as much to as many people. In terms of activity and wholesome adventure, hunting exercises the body and stimulates the mind. In financial terms, it with its ramifications of transportation, gear and arms is in the billion-dollar-industry class.

The National Rifle Association is proud of its hunting members and proud that they stand for the best in this field of sport, just as its match competitors patriotically represent the United States in International and other competition and its collector-members keep alive the historical traditions of America.

onstrate to the owners of the area that their property, safety and personal wishes will be respected. A universal attitude to that effect could make "No Hunting" and "No Trespassing" signs vanish almost overnight, instead of breaking out over the countryside like an epidemic rash.

Much of the solution to the problem is so simple. It lies in things as elementary as remembering that the firearm in your hands is a responsibility, not a toy; in acting like a grownup; in remembering that alcohol and guns do not mix. It can be summed up in one word: Behave. Like a hunter. Like a man. Like a good American. —The American Rifleman.

### Livestock Reports From Ranchers & Farmers Are Needed

During the last half of November, some 40,000 Texas ranchers and farmers will receive a livestock survey questionnaire from Cary Palmer, State Statistician for the Texas Crop and Livestock Reporting Service. This is a joint endeavor of the Texas Department of Agriculture and the Statistical Reporting Service, USDA, to provide a program of county estimates for Texas.

In Texas, there are 254 counties, and each farmer and rancher in each county is an important part of the state's agriculture. Their reports are needed to provide accurate estimates for Texas cattle, hogs and chickens. Another survey on sheep and goats will be made in late December.

We urge each farmer and/or rancher to fill out his questionnaire carefully and return it promptly in the self-addressed envelope to the Agricultural Statistician. This will do much to provide the accurate data needed for the state.

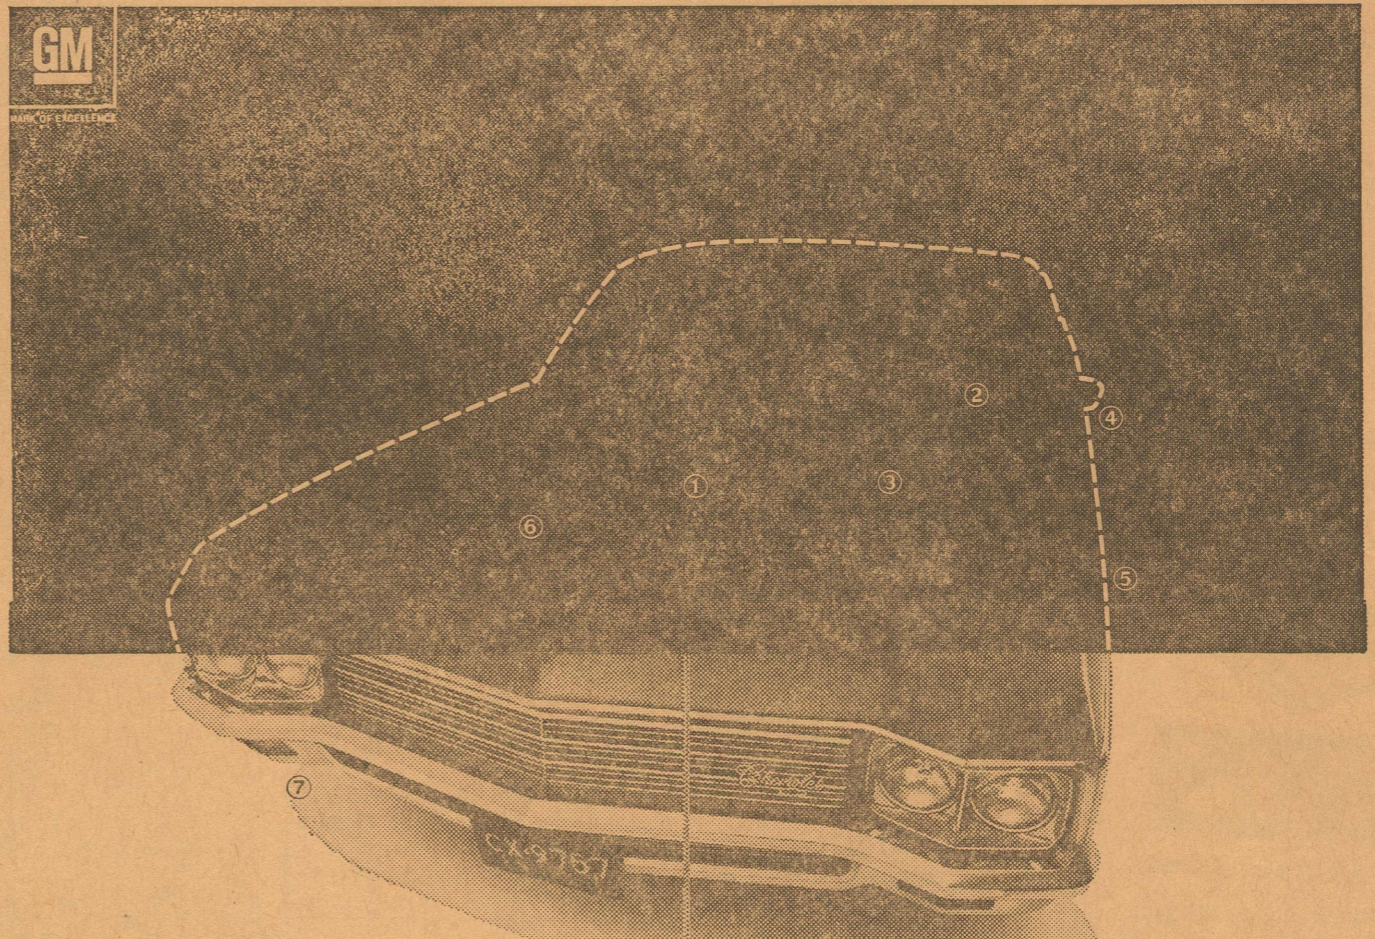

County data bulletins for 1968 are now available by writing the Texas Crop and Livestock Reporting Service, Box 70, Austin, or by writing John C. White, Texas Commissioner of Agriculture, P. O. Drawer BB, Capitol Station, Austin.

### Deer Season Starts Last Saturday

It was a fairly cool morning last Saturday for the start of the 1969 hunting season. At 4:00 a.m., there was a large crowd of hunters having breakfast in the Java Junction Cafe.

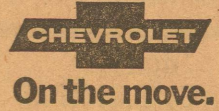

By 3:00 p.m. of opening day, Hext Foods reported about 25 deer and 8 turkeys in their storage locker.

NOTICE BOOKKEEPERS: You may order B&P Standard columnar sheets for your loose-leaf ledger binders at the Success office.

## Impala's hidden persuaders:

- ① **350-cu.-in. engine**  
A new more powerful standard 250-hp V8 makes the 1970 Impala move with all the more assurance. On good ol' regular gas.
- ② **Anti-theft column lock**  
A locking system is built right into the steering column. When you take your key with you, you lock not only your ignition but your steering wheel as well.
- ③ **Aluminized exhaust system**  
It simply means that your original muffler, tailpipe and exhaust are going to last longer than you'd probably expect them to. Fair enough?
- ④ **Side guard beams**  
They look like highway guard rails, and they're built into both sides of the car for extra protection in case of impact. Not too many cars have them.
- ⑤ **Inner fenders**  
Up inside every fender is another fender to protect against slush and mud and help keep your Impala looking young.
- ⑥ **Flush and dry**  
We build the car so that rain and wash water can run down through the inside of the rocker panels, then out. Air follows to do the drying.
- ⑦ **Full Coil suspension**  
Huge coil springs at all four wheels are four big reasons why a Chevrolet Impala rides smoother and quieter than a low-priced car has any right to.

### Inst. Texan Cultures Tells This State's Story

San Antonio, Tex.—The Institute of Texan Cultures, built on the site of HemisFair '68, provides the historic map to a European country that the world calls Texas.

In the beginning, Texas was a land discovered by a Spaniard, first explored by a Negro, settled wholesale by Anglo-Americans, tied together with railroad tracks by the Chinese, and blanketed with cotton across Czech farms.

The union of newcomers from a foreign land and their struggle together to build a state has been vividly traced in the halls of this \$10 million history book.

Originally the Institute of Texan Cultures was the state's official pavilion at the San Antonio World's Fair.

But when the Fair closed after its allotted six-month run, the Institute continued to expand its unique story. The Fair was only the beginning.

R. Henderson Shuffler, director of the Institute, chose to ignore the Ned Buntline version of the "Old West" and has taken an honest look at the pioneers who ventured into Texas.

He said, "Most think of early Texans as a bunch of hell-roaring bumpkins in buckskin who came brawling across the frontier, shoved the Indians and Mexicans out, and settled down to shooting each other at high noon in front of the village saloon."

He continued, "But the truth happens to be just as colorful, just as fascinating and tremendously more self-respecting than the myth."

The Institute spotlights the 24 ethnic groups that influenced the development of a frontier state. The contributions of each group are featured in a separate exhibit area. Background music, sound and slides emphasize the factual story told by pictures, relics and documents.

A central dome, 60 by 80 feet in diameter and two stories tall, is dotted by 36 movie screens bring-

ing to life the diversity of customs and festivals found in Texas.

Shuffler says there were no foreigners in Texas. They were all Texans. But the colorful brand of each ethnic group can still be found across the diverse landscape of Texas.

The state is a little Europe, with a touch of Asia and a bit of home-spun frontier flavor. Shuffler pointed out that there are still locales in the state where "the old cultures are preserved in amazing purity."

Panna Maria is the oldest Polish settlement in North America. At Dannevang, citizens still speak Danish. New Braunfels and Fredericksburg, nestled in the burly hill country, are trimmed with gingerbread architecture of Germany. And their days still ring with Saengerfests and Schuetzenfests.

The Dutch traveled into Nederland; the Italians built at Montague. Norwegians live at Norse. And the Wends, an almost forgotten

colony, settled near Giddings. The old church at Serbin retains its Wendish tradition: the men occupy the balcony, and the women and children sit on the downstairs pews.

The French came. Henri Casrto brought his settlers to the banks of the crystal Medina river. And he built Castroville. The houses are typical of an Alsatian village, and people still speak the Alsatian language.

La Reunion, a socialistic colony of well-educated and highly-skilled Frenchmen, was begun in 1855. The colony failed. The city didn't. Today it's called Dallas.

Texas fought a war with Mexico for independence. The Irish were there. Four signed the Declaration of Independence at Washington-On-The-Brazos; 14 died with Colonel Fannin at the massacre of Goliad; and 100 Irishmen joined Sam Houston to rout the Mexicans at decisive San Jacinto.

And the people were as colorful as their homeland.

as their homeland.

Jane Long, who gave birth to the first Anglo-American child in Texas, is known as the "Mother of Texas." She helped tame a wilderness land. Alone, she defeated the savage Karankawa Indians by firing an ancient cannon and running a red skirt up the flagpole above her little mud fort.

Gail Borden was a key figure in the Texas Revolution. He and his brothers, all surveyors, laid out the city of Houston. But he became nationally known as the inventor of evaporated milk.

A Dutchman, who called himself Baron of Bastrop, negotiated with Spain for Stephen F. Austin to bring the first settlers into Texas. He was only a tax collector who escaped with Dutch farmer's funds to start a new life.

The story of Texas was told in many languages.

But now the state has the Institute of Texan Cultures to serve as an interpreter.

**Faculty Members Carried Eagle Banner In "Walk-A-Thon" To Sonora Last Friday**

MEMBERS of the Eldorado school faculty participated in the carrying of this Eagle banner on foot from here to Sonora the day of the big game. Mrs. Jack Jones is shown taking the sign from Coach Ken Thomas at a location south of the Shell pump station. But we still lost to Sonora 18 to 0. Each participant marched about a mile. —Success photo

**Local Teachers Stage Spirit Walk-A-Thon**

Eldorado school spirit took on a new dimension this past Friday as the school prepared for its football team's encounter with traditional foe, Sonora, with the staging of a faculty Walk-A-Thon to the Bronco Stadium and the planting of a Spirit Charm under the crossbar of Eldorado's goal posts.  
The idea, which was conceived by a chance remark made in the faculty lounge and which grew in time into a well-organized plan reflecting the esprit de corps of the faculty, was carried out in action and emotion-packed drama, as the somewhat novel theme captured the imagination and interest of the student body, football team, and community.

The school day began with assembly in front of the main building where a pep rally was in progress, replete with band, etc., and Mr. Whitaker, school prin., gave details of the plan. (For the context of his speech, see column "Mr. Whitaker Reveals Plans for Walk-A-Thon" also in this paper.) A brief ceremony followed, with Paul Page representing the Student Body, Miss Hill, the teachers, Carolyn O'Harrow, the band, Kathleen O'Harrow, the GAA's, and Bob Page of the E Club, each communicating spirit from his or her group to that of the teachers, as embodied and symbolized in the Spirit Charm.  
Mr. Humphries, school superintendent, then led off on the first leg of the Walk-A-Thon at a brisk pace, as he jogged down the steps, onto the sidewalk, and down the street—in full regalia—"Sonora or Bust" placards front and back, the traditional spirit stick in one hand, the spirit charm in the other—and pursued by the band and student body in wild spontaneity. On through town and toward the city limits marched the throng, but at that point the well-disciplined student body returned to school, to their first period classes and to the fired-up faculty, who were eagerly awaiting their respective turns on the Walk-A-Thon. Copies of the time schedule were posted in each room, and progress reports were announced periodically throughout the day.

It had become apparent that the success of the venture was assured when the earlier "walkers" were reported to be making better times than had been anticipated, and so according to plan, the last leg of the relay returned to school at afternoon Pep Rally in time to announce "mission accomplished."  
At the pep rally, on cue, the faculty, staff, and administration lined up behind their appointed Spirit Captain, Miss Hill, and marched into the gym sounding their theme in chant—to the accompaniment of the band, "I'd Walk a Mile for an Eagle." Coach Bell and Coach Roberts, in their pep rally speeches, paid tribute to the teachers for their spirit effort, and Bob Page, representing the Eagle Football Team, poignantly dedicated the game to the Eldorado faculty.

James Logan is reported continuing to improve in Albuquerque where he underwent surgery several weeks ago in the veterans hospital. Tentative plans call for him to be brought home to this county sometime next week, according to family members.

**When Mr. Whitaker Revealed Plans For The Walk-A-Thon**

Mr. Guy Whitaker, school principal, called an assembly of all high school students last Friday A. M. and announced the following plan of the teachers for the purpose of promoting spirit for the Eagles' football game with Sonora.  
"As most of you already know the teachers are staging a Walk-A-Thon to Sonora today, taking with them the Spirit Stick and a Spirit Charm—the charm to be planted under Eldorado's decorated goal posts which are at the north end of the field.  
"They are doing this as a further assurance of their continued loyalty and support of their football team.  
"I want this student body to know that there is 100% enlistment of the high school administration, faculty and staff in this project, together with all the grade school personnel whose off-periods permit them to take part.  
"A time schedule has been drawn up and individual teachers are to do their stint of walking or jogging during their off-period. One teacher, for instance, drives out to relieve the one who is walking at the time, and the one who was walking returns to school. If you are concerned for the safety of your teachers out walking along the highway, don't be, because the Highway Patrolman Del Copeland and Sheriffs Edmiston and Jones will be patrolling the road looking out after them.  
"The time schedule calls for arrival of the last leg of the Walk-A-Thon at Sonora stadium at 2:00 p.m., whereupon they will be whisked back home and to the gym during the pep rally and you will know that their mission has been accomplished. However, there is some doubt that this can be done in the time allotted. Some practice walks indicate that a woman teacher can walk, briskly, a mile in about 16 minutes. Mr. Jay calculates that we must average a mile every 15 minutes. Therefore, some of the men will be jogging. BUT: the faculty wants you to know that if they see that they are failing in their effort, or cannot meet their time table, they will come back and let you know that they have failed—THEY WILL NOT fudge on it or cheat or misrepresent to you their progress in any way. And, by the way, I will be giving you progress reports over the intercom all during the day.  
"But they are still confident enough that they have designated Cheer Leader Randy Yates to, on cue, walk out on the field tonight and recover the Spirit Charm. You will be alerted at Sonora as to when this will take place. And they have prepared a brief ceremony for this time; they have asked me to call upon some of our school groups to share their spirit with the teachers . . . and so will those students and Miss Hill please step forward."

Paul Page: "As a representative of the student body, I communicate our spirit to this charm and trust that it is in sure hands and trusting that its swift feet will transport it to its ultimate destination."  
Miss Hill: "As a representative of the teachers, I communicate our spirit to this charm and may it be spirited to Sonora on Wings of Mercury."  
Carolyn O'Harrow: "As a representative of the Band, I transfer

our spirit to this charm and may the notes of 'Hail, Eldorado' ring loud and true throughout its journey."  
Kathleen O'Harrow: "As a representative of the GAA's, I transfer our spirit to this charm—that our UNITED spirit may soar to the pinnacle."  
Bob Page: "As a representative of the E Club, I communicate our spirit to this charm and may it find its way to Sonora on Wings of an Eagle."  
"Now—the first leg of the Walk-A-Thon—Mr. Humphries, you're off!"

our spirit to this charm and may the notes of 'Hail, Eldorado' ring loud and true throughout its journey."  
Kathleen O'Harrow: "As a representative of the GAA's, I transfer our spirit to this charm—that our UNITED spirit may soar to the pinnacle."

**Eagles Drop Game To Sonora 18 To 0**

The Sonora Broncos politely but emphatically outmanned the Eldorado Eagles last Friday night 18-0, in Sonora. Statistics show that it was Sonora all the way:

Eldorado		Sonora
6	First downs	17
96	Yards rushing	253
83	Yards passing	71
179	Total yards	324
5 of 26	Passes att. & c.	2 of 12
2	Passes intercepted	5
0	Fumbles lost	1
5 for 55	Pen. & yds. lost	3 for 39
7 for 41	Punts & av. d.	3 for 39

The score by quarters:  
Eldorado — 0 0 0 0—0  
Sonora — 6 0 6 6—18

Sonora scored late in the first quarter after a pass interception put them in bus' r's inside Eldorado's 20-yard line. Messrs. Wuest, Kerry Joy, and Noel alternated until David Wuest crossed over the goal line. The try for extra point failed.

The Eagles fought back hard and the second quarter was scoreless.  
The third quarter was only three minutes old when Sonora, after receiving the second half kickoff, drove 80 yards in 10 plays to score. David Wuest, Bronco QB, scored again. This try for extra point failed also. Sonora scored again midway in the fourth quarter after a long drive with consecutive first downs with Wuest, Joy, and James Noel grinding out the yardage. Joy, Bronco fullback, carried the ball over from six yards out. This try for extra point failed also.  
It was a strongly contested affair but a game with a better atmosphere of sportsmanship than in many hotly contested high school rivalries. The Broncos' imperturbable and almost impenetrable defense was just too much for the Eagles. Messrs. Lumberers at 190; Jim Elliott at 200; Marty Martinez at 175; Ted Fish at 180; and Bobby Black at 180, along with David Wuest, the "Monster" at 170 would not permit any tours in Sonora territory. They vetoed air raids with equal effectiveness, giving Archie Nixon of Eldorado insufficient time to locate a receiver and adding to his problems by double coverage on most Eagle would-be receivers.

Eagle pass defenses featuring Wayne Doyle and Paul Page were fine as the Broncos completed only two of Wuest's aeriels number 12 in all. Keith Williams and Paul Page each intercepted one of Wuest's tosses also.  
Roy Jones was the defensive standout for Eldorado with 18 stops. This man has been an "up front" standout all season long. Bob Page as middle linebacker came next with 12; Keith Williams, Bobby Sykes, and Sam Oglesby racked up 10 each; Billy Hubble and Bob Whitten, 8 each; James Larry Davis, 7; and Dobs Lively, 6.  
Wayne Doyle caught three Archie Nixon passes for 47 yards and Paul Page, 2 for 24 yards.  
It was a tough game for Eldorado to lose since the game itself was culmination of a maximum build-up from the faculty's "Walk a mile for an Eagle" to the usual week-long preparation by the boys themselves.

Editorial thought might be something like this:  
It is one of the lessons of football that even though a man does not win, even when he tries hardest, he is a better man for the effort. Some like the quote that follows could be apropos: "Better to have loved and lost than never to have loved at all."  
A boy who knows the thrill of winning and the disappointment and dejection of defeat has a richer life experience and a better balance and perspective of his life struggles than the individual who refuses to exert himself and thereby deprives himself of such experiences and preparation.  
The last time he beat Sonora was in 1964. Then there is November 6, 1970 to look forward to.

**GIRL SCOUT TROOP 91**  
met at the Memorial Building on November 11 at 3:30 p.m. There were 8 members present.  
There were minutes read, but no treasury report given. We made dolls out of yarn. Jill Yates served refreshments. We went to the Eagles Nest. Mrs. Dorothy Clark met with us today, because our leader was out of town.  
At 5:00 p.m. we sang Taps for our closing ceremony. —Gynna Jay, Secretary.

**Daughter of Col. Wm. Black . . .  
Rites In San Antonio  
For Camilla Raggio**

Funeral services for Mrs. Camilla Black Raggio, 97, of 2102 Live Oak in San Angelo, were held at 4:30 p.m. Tuesday in the Colonial Chapel of Porter-Loring Mortuary in San Antonio.

Mrs. Raggio died Sunday in a San Antonio hospital following an illness. She was the daughter of the late Col. William Black, early-day West Texas rancher, wool promoter and meat canner.

Until a few years ago, Mrs. Raggio and her son, H. Leslie Jones, made their home on the C. B. Ranch in the east part of Schleicher county. She was also an aunt of Mrs. Edith Runge of this county.

Mrs. Raggio was born Dec. 28, 1871, in New York. Five years later her family moved to West Texas, and her father began operating a 50,000-acre ranch at Fort McKavett.

She was married in the late 1800's to Dr. Henry G. Jones, a Philadelphia native who practiced medicine in Sonora. He died in 1897.

About the turn of the century, she married W. S. Talbott. He died later after a gunshot accident.

She was married later to Victor E. Raggio, formerly of Chicago, and lived in El Paso eight years before his death in the 1920s.

Mrs. Raggio joined the 20th Century Club in Sonora in 1900.

Col. Black was a Confederate veteran of the Civil War. He was wounded at age 18 and sentenced to death at age 20 for taking part in a Confederate effort to capture a ship in Panama. The sentence was commuted to imprisonment, however, and he served six months at Alcatraz before being released.

He helped organize the New York Cotton Exchange in New York after the war. He bought the ranch at Fort McKavett at 10 cents an acre.

Col. Black invented several items in an effort to improve ranching in Texas. He wrote a book, "A New Industry," on Angora goat raising and mohair production, published in 1900. For about a half century before his death in May 1931 at age 83, he advocated stock exchange trading on wool futures. Wool futures came out on the market only a few days later.

He also started West Texas' first canning plant. He bought 8,000 head of Angora goats in 1890 in an effort to boost profits by producing meat and mohair. But firms refused to buy the meat on grounds there was too much prejudice against it to make it a profitable venture, so he decided to can it himself. He operated under the name Range Canning Co.

Col. Black also tanned goats' hides. He built a row of small houses for employees in the operation to live in. He shut the factory down after a few years of unsuccessful operation. Some of the material used, plus the foundation of the cannery and other relics, remain on the ranch.

A Texas historical marker was dedicated at the ranch by the former State Sen. Dorsey Hardeman in 1964, when the land was leased by Bob Kelly.

Mrs. Raggio's other survivors include a sister, Mrs. Florence B. Hall of Eden; a brother, Alexander G. Black of Palo Alto, Calif.; and numerous nieces and nephews.

**GOVERNOR RECEIVES CHECK**

Governor Smith received a \$500,000 check representing the federal government's share of the purchase of a 1,950-acre Galveston State Park (formerly the Maco Stewart Ranch) with matching funds to come out of the \$75 million state park bond issue.

**Eaglettes Start Play  
Tuesday At Winters**

The Eldorado Eaglettes basketball team will open their 1969-70 campaign Tuesday with a trip to Winters to take on the Blizzards. This game will kick off a busy season which will find some inexperience, some experience, and lots of enthusiasm on the part of the green and white.

Last year's aggregation was the youngest team in many years but they put together a fine season winning 23, losing 9 and winning the district 8-A championship. By rights graduation should have claimed only starting guard Donna Davis but circumstances developed that have taken both the number 2 and 3 scorers from the line-up. Dale Montgomery had 507 points last year and would be a senior, however she moved with her parents to Angleton last spring. At present Linda Derrick is unable to play due to a recurring knee injury. She scored 174 points last season.

This simply means that the forwards have their work cut out for them and that they must put in some extra hours at the free throw line as well as from the floor. Kathleen O'Harrow, who was outstanding as a sophomore scoring 570 points to lead her team, is back and ready to try to better her performance. Randy Yates, a senior, is excellent in her floor play and quickness. Lorretta Schooley and Patty Page, freshmen last year, are returning squadmen and will no doubt see a big step in their personal improvement as the season progresses. Peggy Hill, a junior, missed some early season work due to illness but is now beginning to get back into playing condition. Sheri Roberts, a senior, who played guard last year, is moving across the line into the forward ranks to bolster their strength. She rebounds well, feeds well and her ability to hit is above average. Doubtless the forwards realize that putting points in the basket is the name of the game.

The guard situation appears to be in good shape as Lisa Whitten, a senior; and Lisa McAngus, Claudia Meador, and Mary Lyn McCalla all juniors, are returning letterman. Gay Lyn Richardson, the only freshman guard to make last year's traveling squad, is back to add strength and good rebound ability. These 11 will be the backbone of the team with open places being filled from last year's "B" girls who are as follows: Sherry Davis, Jeanne McCravey, and Jean Rountree. These three are sophomores and were stalwarts of the "B" team last year. Jean is a guard and Sherry and Jeanne hold forward positions.

Winters had a very fine team last season beating Eldorado twice and led by Carla Walker and Debra Carroll who are seniors this year. Another starter returns at guard. Regardless, this Class AA school will field both a strong A & B team. This will be a stern test for the Eaglettes.

Game time is 6:30 for the "B" team and 8:00 for the varsity, Tuesday in Winters.

**On Schreiner Roll**

Kerrville, Tex.—Thirty students at Schreiner have been named to the honor roll for the first six weeks grading period, while 59 others received honorable mention. The overall total of 89 is the largest ever, as is the figure of 19 for the college honor roll, according to Kelly Hildebrand, academic dean. College students earning the 3.6 (A-) average required for the honor roll included Mickey Ray Pennington of Eldorado.

**Auxiliary Meets**

The Schleicher County Medical Center Auxiliary held its monthly meeting last Thursday morning in the hospital dining room.

Marguerita Gailey, personnel-in-service director at the Baptist Memorial's Geriatrics Hospital in San Angelo, presented a very interesting program for the ladies attending. She showed three film strips to the group and they covered every phase of the nursing auxiliary duties.

At the business meeting, it was decided to have light green and white stripe nursing uniforms. Orders and money were taken for uniforms from those present. However, not everyone got their uniform order in and this needs to be done as soon as possible.

If you have not given your uniform size and money to anyone, please contact Mrs. C. C. McLaughlin at 2515 or Mrs. E. H. Nixon Jr. at 2240.

The auxiliary also adopted a proposal to decorate the hospital and have a party for those in the nursing wing. The ladies on the decoration committee are Mrs. Leslie Baker, Mrs. R. J. Page, Mrs. J. B. Brame and Mrs. Jimmy West. The committee in charge of the Christmas party consists of Mrs. Granvil Hext, Mrs. Henry Moore, Mrs. E. H. Nimitz, Mrs. W. C. Parks, Mrs. Elton McGinness, Mrs. T. P. Robinson Jr., and Mrs. Jerry Jones. —Rep.

**Home Demonstration  
Agent's Column**

Martha Godwin has been taking a brand new pie to the Methodist Church suppers which has everybody clamoring for the recipe. When I heard about it of course I wanted to share it with you.

It is called Heavenly Pie which Martha believes is an appropriate food to take to a church supper. I warned her not to ever forget and take a devil's food cake.

**Heavenly Pie**  
3 egg whites, beaten until stiff  
1 cup sugar and 1 teaspoon baking powder mixed and added to egg whites, slowly.

Add to the above mixture 1 cup chopped pecans and 1 cup finely crushed graham cracker crumbs.

Butter a large pie plate. Pour mixture in an 8" x 11" x 1 1/2" pan for 30 minutes.

Martha says that the pie will keep well for several days in the refrigerator. Whose refrigerator?

Now I must resort to using something which I don't like to do—that is to use news releases from other sources but I'm due at Mrs. Cecil Williams' for a club meeting in a few minutes and the presses are rolling.

Why don't you send in a favorite recipe and next time this won't happen.

Post Script: Do not get me wrong the following material is of terrific importance; it just isn't as much fun as a new recipe.

**Eliminate Electrical Hazards  
In Home, Advises Engineer**

College Station.—The misuse of electricity or using defective wiring and equipment can be costly, cautions W. S. Allen, Texas A&M University Extension agricultural engineer. Many fires are caused by such carelessness, he adds.

Here are questions, posed by the engineer, covering electrical hazards often found in the home.

—Is the right fuse (15 amps for lighting circuits) in use? Do you use a new fuse, never substitutes, when one blows?

—Do you use extension cords within safe limits of their capacity? Safe limit for the most commonly used lamp cord is 500 watts.

—Are extension and appliance cords replaced immediately whenever insulation shows signs of fraying or cracking? Do you see that cords are never run under rugs or hooked over nails?

—Are appliances checked periodically to be sure they are in good operating condition and taken out of service for repair or replacement at the first sign of trouble?

—Is your TV antenna installed where it cannot fall across power lines, and is it equipped with a properly grounded lightning arrester?

If there are "no" answers on the list, take corrective measures immediately, Allen advises.

Don't forget HD Club Bake Sale, November 20, at 10 a.m. at Hadny Hardware. Goodies and excitement promised.

**Current Deer Season  
To Test Hunter's Skill**

College Station, Tex.—Good fall rains and the resulting green feeding areas will mean a real test of a deer hunter's skill this year, is the assessment of Charles W. Ramsey, Extension wildlife specialist at Texas A&M University.

Ramsey says that in areas of the state where there have been extra amounts of precipitation this fall, the already adequate deer crop will be difficult to hunt. He ex-

plained that where there is an abundance of green weeds or a good acorn crop, the deer will get up only to feed for short periods of time and then lay back down.

He added that the deer population is slightly decreased in certain areas of Texas, but not to any great degree.

"Generally the deer will be in good condition this year, and because of this, they will be hard to hunt," Ramsey commented.

Ramsey says that the hunter's success depends on the movement of the deer rather than the deer density. This movement is in turn dependent on the available food supply. If the food supply is good, the animals will not go to the feed pens and expose themselves to the hunter's deer blind.

An exception to this slow movement might be the early morning "rutting", or breeding, season for certain bucks. The excellent food supply has resulted in an earlier rutting season than usual. Ramsey explained that during this time, the buck will go off feed and begin wandering, thus exposing himself to the hunter.

Ramsey says that the hunter can estimate the deer possibilities in his specific hunting area. A good acorn crop or an abundance of green weeds will mean the deer have an adequate food supply and are not moving around. If the bucks are rutting, the hunter can see "buck rubs" and hunt trails where the deer are traveling.

He emphasized that in most areas, the deer are just as plentiful as other years. He added that since the hunting regulations differ from county to county over the state, any questions can be answered by the local conservation officer in the hunting area.

"If the hunter has the skill, the deer are there to hunt," Ramsey concluded.

**H. D. Bake Sale Set  
For November 20th**

Home Demonstration Club women of the county will hold their annual Bake Sale on Thursday, November 20, starting at 10:00 a.m.

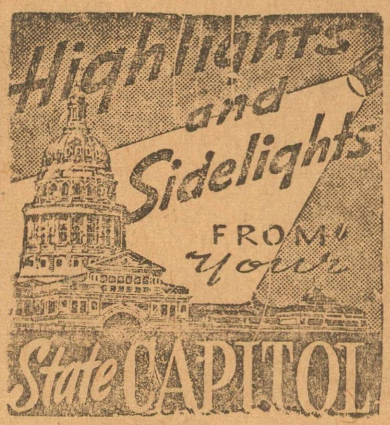

The sale will be held in the Handy Hardware Store, a business recently launched by Mr. and Mrs. Billy Gene Edmiston. A unique and interesting feature of the sale will be cooking some of the food on the spot as a demonstration of a very new and modern micro-wave oven. This new oven cooks very quickly and very thoroughly. A potato can be baked in

5 minutes and a 5-pound roast in 30 minutes.

Barbecue cooked in the oven will be sold but no one will have to wait, it will be precooked.

The usual offering of cakes, pies, bread, cookies, candies and some fall garden vegetables will be for sale also.

Home Demonstration Club women invited the public to buy for Thanksgiving which will fall one week from the date of the sale.

Austin, Tex.—Prospects of whopping new tax bills may face Texans in 1971, 1973 and 1975 and a critical housing shortage within the next decade is likely.

Texas Research League heard the bad news at its 17th annual meeting here.

James W. McGrew, new Executive Director of the League and one of the state's top fiscal authorities, warned of the coming "decade of tax crises" like that of 1950's.

McGrew sized up the 1971 tax bill as at least \$270 million and maybe as much as \$400 million. Furthermore, he predicted, a bigger one will be in store two years later and one not quite so big in 1975.

Standby sales tax (now at 4 1/4% in many areas) may be near its "political limitation." Implication was clear that new tax trails will have to be blazed.

Gov. Preston Smith said half the state's 2,803,000 housing units are "inadequate or substandard." He requested the League to study the problem and come up with recommendations as to the state's role in the housing field.

Housing shortage may reach "crisis proportions" in two years, Smith told League members. Needs over the next decade, he forecast, will demand \$1.5 billion worth of construction a year in Texas. Within the same period, he said, housing will have to be found for 875,000 new Texas families, and slums and

overcrowding must be eliminated.

Greatest prospect for solving problems of slums, contended the governor, lies in "effective programs of governments to assist slum residents in becoming home owners." Public housing and rent supplements, he maintained, "tend to isolate, segregate and spotlight the poor, while providing no long-range changes in their situations."

Smith suggested a state-wide building code may be needed and State Housing Authority may be helpful to coordinate efforts of the U. S. Department of Housing and Urban Development with local governmental units.

**Ballot Spots Picked**

Proposed constitutional amendment to legalize the sale of liquor by the drink will be in the second spot on the Nov. 3, 1970, general election ballot.

Here's how drawings for other ballot places by Secretary of State Martin Dies Jr. came out last week:

No. 1—Provision for removal, censure, or retirement of appellate court judges and justices of the peace by a new Judicial Qualifications Commission.

No. 3—Uniform method for assessing farm, ranch and forest lands on a capability to produce basis.

No. 4—Making the State Building Commission a three-member appointive agency.

No. 5—Authorizing counties to issue road bonds up to a fourth of assessed valuation on vote of taxpayers.

No. 6—Increasing value of homesteads exempt from forced sale.

No. 7—Providing for consolidation of local government functions and inter-agency contracts for performance of governmental services.

**Disappointing Land Sale**

School Land Board got disappointing results from its sealed bid oil and gas lease sale on public school lands. High bids averaged only \$36 an acre, lowered by the \$15.52 per acre average of over 16 thousand acres leased in El Paso county where there is no oil or gas production.

Land Commissioner Jerry Sadler said the indications from Congress that the 27.5% depletion allowance will be cut undoubtedly hampered bidding. Also, sales scheduled for Louisiana and heavy spending on Alaskan leases cut the bids.

Of 770 tracts offered, only 184 drew bids. Total high bids were \$4,113,468.60.

**CHANGES PROPOSED IN  
SOME CEMETERY STREETS**

A suggestion has been made to the Commissioners Court that all streets in the Cemetery running east and west be closed and the resulting lots created be utilized for burial lots.

One street in Blk. C. has been closed by order of the Court with good results since this area is now all taken except for two lots.

Lots in what is called the new part of the Cemetery are all gone with three exceptions, so it is imperative that more spaces be made available.

Reaction to this proposal will be welcomed by your court.

Commissioners Court  
Schleicher County.

**FREE!**  
**5 - Prizes - 5**

to be given away to lucky ticket holders in a drawing to be held 3:00 p.m. Tuesday, Dec. 23
