J. H. BOOTHE SELLS 240 ACRES OF FARM LAND.

J. H. Boothe was in the city Monday and reports the sale of 240 acres of farm land, three miles west of Eldorado and just west of the E. C. Boothe place, to Hugh McAngus for \$25 per acre. This land is unimproved but is a fine peice of land.

Mr. McAngus came out here from Austin last year and has rented land from Mr. Boothe here this year and found this such a productive country in a year of such adversities as this year, he thinks there is none like it and has bought him a place and will locate for good.

BODY OF MRS. PROSSER MOVED TO SAN ANTONIO

Mr. Lee Prosser, of Pharr, Texas, and Mrs. Lee Brooks of San Antonio, Texas, arrived in Eldorado Friday night and on Sunday exhumated the body of Mrs. Silvie Prosser and carried it to San Antonio, where it will be placed in a vault.

The body was buried in the Eldorado Cemetery in April, after being embalmed at Brownsville and shipped to Eldorado.

Those who assisted in the work say there was no odor at all, the coffin was taken out of the box and placed in a metal box which was sauldered up and replaced in the box.

The body was then taken to San Antonio overland, accompanied by John Grey and wife and Auther Henderson and wife of Eldorado.

Mrs. Prosser was formerly Miss Silvie Brooks.

ORIENT BRIDGE AT DEL RIO.

The Del Rio News tells of Geo. L. Hax and Chas. E. Brown, of the engineering department of the Kansas City, Mexico & Orient Railway, being in that city and that they have been for some time working in conjunction with the Mexican engineers in establishing a bridge site a cross the Rio Grande. In connection with this item which indicates that the Orient and the Mexican lines contemplate doing something at this point is the intermation that J. W. Titley of Dallas, was in Sonora last week enroute to Del Rio for the purpose of making soundings for bridge piers and abutments for the bridge to cross the river at Del Rio.—Devil's River News.

Friday October 14.

A thorough discussion of the Ku Klux Klan has been going on through the State since the Lorena incident in McLennan County, and the only reason for the existence of such an organization is the overriding of the state, national and moral laws, and the laws of God.

When the people quit purging themselves, try to maintain the law instead of breaking it, and live up to the Golden Rule, the Ku Klux's will have nothing to do, for they have molested no person living in righteousness, are at least have not been accused of this, on the other hand these are the one molested, bootleggers, gamblers, sports, libertines, miscegenationists, thieves, burglars, and more especially violators of moral law.

The good book teaches that the way of the transgressor is hard, and it looks like that his path is getting rocky.

TELLS EXPERIENCE

"I suffered for ten years from nervous indigestion, I had no appetite and always felt miserable. I was in such a serious condition I thought my time for this world was getting short. My food didn't seem to nourish me at all and I only weighed 85 pounds.

"After taking Tanlac, I now weigh 108 and am gaining every day. Oh! there is such a wonderful change now. Tanlac relieved my troubles so quickly it surprised me. My appetite is splendid. I have plenty of strength and feel better than I have in years. I wouldn't take one thousand dollars for what Tanlac did for me."

The above statement was made by Mrs. Clara Lehman, Bristol Hotel, Rochester, N. Y.

Tanlac is sold in Eldorado by L. M. Hoover. (Adv.)

It Depends on How You Handle the Tape

The measuring of a suit is the first and one of the most important steps. After that comes right cutting, and good tailoring.

Handling the tape is where I come in on making good clothes. I know how to measure. Every measurement I take is absolutely correct—I've made a study of it.

I guarantee long wear—perfect fit and a style that is right. If you do not get all of these in a suit of clothes which you order from me, I will not let you keep it.

Chicago Kahn Bros. makes my clothes in this big daylight building in Chicago and their guarantee backs mine.

Let Me Tape You!

Come in now, and talk over that suit for Fall and Winter. You can, at least, look over the patterns I have.

And, you can take my word for it that you ought not to order any suit without seeing all the different kinds of cloths that are in the complete Chicago Kahn Bros' line this Fall.

You will find here just the fabric to suit your taste and at prices that fit your pocketbook—

**OPPORTUNITIES ARE
NUMEROUS IN MEXICO**

POSSIBILITIES FOR COMMERCIAL AND INDUSTRIAL DEVELOPMENT INCREASING DAILY.

DEPARTMENTS WILL HELP

Department of Commerce, Industry and Labor Urges Inquiries on All Questions.

Consular reports compiled show that more than thirty thousand people recently crossed the Rio Grande into Mexico from the United States upon the occasion of the celebration of the Centennial Exposition of that country. Those who have been following closely the commercial and industrial situation in Mexico believe that this is the indication of a development along these lines unprecedented in Mexico's history. Business conditions in Mexico have more or less reflected similar conditions in the United States but during the past few months Mexico has been visited by some of the most important financiers in the world with the result that possibilities for an early recognition of that country have been growing brighter each month.

Adjustment of matters pertaining to oil holdings, the extension of long lines of credit by some of the most powerful commercial organizations in the world, the possibility of an early payment of interest on national debt have all contributed to the advance of Mexican interests.

The United States has been offered an opportunity of developing a strong commercial field in Mexico and many manufacturers and exporters have been taking advantage of the opportunity. During the year 1920 the trade between the two countries amounted to \$388,045,272, of which Mexico bought from the United States \$207,854,197 and sold to the United States \$180,191,075. This has been increased during 1921 so that the total business between the two countries for the twelve months ending June 30, 1921, was \$422,292,520, of which Mexico bought \$267,209,366 and sold \$155,083,154.

Mexico bought during these twelve months \$7581,133 worth of automobiles and parts; \$4,474,078 worth of locomotives; \$941,418 worth of sewing machines; \$6,097,735 worth of lumber for building; \$8,614,578 worth of flour; \$5,410,544 worth of corn and \$3,827,428 pounds of barbed wire. The sale of lumber and barbed wire indicate the fact that ranching is coming back strong.

Exports to Mexico jumped from less than \$50,000,000 prior to 1917 to \$280,000,000 in 1921. The fact that thousands of Americans are daily going into Mexico that the trains are running through Pullmans and that a liner service has been inaugurated indicate the belief of many Americans in the future of Mexico.

President Obregon Very Popular.

Mexico recently celebrated its Centennial. One hundred years ago the country became an independent nation and although it has been torn many times by internal strife there is every indication that the period of revolutions has passed and that Mexico is settled upon an era of commercial and industrial growth. That Mexico has safely passed the crisis in this possibility is most plainly shown in the open manner in which President Obregon participated in the festivities incident to the Centennial celebration and the fact that no uprising of any kind was even rumored.

September 27th when 16,000 soldiers passed in review before the President and his staff would have been an admirable opportunity for some person to have made the effort. Nothing occurred however, and following the ceremony, without escort of any kind President Obregon with his children rode through the streets to Chapultepec. He was greeted on every side in a manner most cordial. To any observer this more than belied the rumors that Mexico is ready to cast him aside, which have been constantly circulated by persons and interests to whom the Mexican government have failed to make concessions.

Mexico expended in the United States last year for meats and meat foods \$7,184,890, of which amount more than five million was expended for lard and lard compounds and the balance for hams, bacon and sausages. Fresh meat is being imported into Mexico on the hoof and every day several trains of cattle from Texas arrive in Mexico City or other points of slaughter.

There is a good market in Mexico for dairy cattle and many hacendados are stocking their ranches again with cattle to replace those destroyed during the revolutions.

A decree has been issued providing for a fifty per cent decrease in the present import and export duties of cattle effective September 1st. While the decree is especially aimed at increasing the import of stock for meat and breeding purposes it also aids American livestock owners by enabling them to pasture in Mexico.

Department Furnishes Information.

The Department of Commerce, Industry and Labor of the Mexican government welcomes any questions as to conditions in Mexico with reference to any commercial or industrial pursuit. Letters should be addressed to the Secretary of the department and they will then be referred to the proper departments. There has been much information advanced with reference to Mexico that has not been authentic and the department is desirous of giving first hand information to any person interested.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. **HALL'S CATARRH MEDICINE** is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. **HALL'S CATARRH MEDICINE** acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.
