JESS L. THOMPSON HAS TWO NARROW ESCAPES.

While scuffling with his friend Tom Riley, on the street Saturday over a knife, Jess Thompson was accidentally stabbed in the stomach, which for a time was thought might prove fatal. After treatment by Dr. Patton, Mr. Thompson was taken to San Angelo where he was examined and is reported not to be seriously hurt.

It was only a few weeks ago when Mr. Thompson was shot at three times about 4 miles north of Eldorado as he was traveling north after night. Some unknown person fired the shots from a 30-30 winchester, the first passing between Mr. Thompson's body and the steering wheel of the car, one went wild and the other entered the back of the car passing through the car. Mr. Thompson stopped his car and got out, but the would be assailant fled into the hill in the Tom Jones pasture, although Mr. Thompson had no gun for protection. The next day Mr. Thompson and Sheriff Luedecke went to the place and found three shells.

Mr. Thompson has no idea who his would be assailant was as he has no enemies. The accident Saturday following upon the heels of the other looks like that fate is hanging near by, we trust however that the worst is over and that Jess will soon be able to be out again and that the hobgobbling will disappear.

IDLE 12 MONTHS, IS NOW BACK ON JOB.

"Only a man who has to work for a living knows what it means to get back on the job after not hitting a lick of work for a whole year. I lost twelve months straight time on account of stomach trouble. One of the worst cases I guess any man ever had. Tanlac not only made me a well man again but built me up 19 pounds in weight. I am writing all my friends in other cities to tell them of the wonderful news."

The above statement was made by George B. Lowe, well-known employee of the Goodyear Tire and Rubber Co., living at 451 McGowan St., Akron, Ohio.

Tanlac is sold in Eldorado by L. M. Hoover. (Adv.)

Calomel Good but Next Dose may Salivate

It is Mercury, Quicksilver,
Shocks Liver and Attacks
Your Bones

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no reason a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tone acts better than treacherous calomel your money is waiting for you.

The Story of Our States

By JONATHAN BRACE
XXXVI.—NEVADA

NEVADA is a Spanish adjective meaning "snowy," and is taken from the Sierra Nevadas, those lofty mountains which separate the State from California.

Most of the history of the state centers in this Western section, near the Sierras, and it is here that all of Nevada's principal cities are located.

The first white man to cross the present state was the Franciscan Monk, Father Gares, who made his way across the deserts to California in 1775. In 1825 Peter S. Ogden of the Hudson's Bay company discovered the Humboldt river, which is sometimes called Ogden river after him.

The next memorable trip across the state was that by Fremont in 1843, when he went to California at the time of the outbreak of the Mexican war. It was this war which in 1848 resulted in Mexico ceding a large area to the United States, of which Nevada was a part. When this was organized into territories, the Territory of Utah extended to California. The Western inhabitants, however, were left to their own resources and accordingly organized their own government. Resenting the attitude of Utah they petitioned to be annexed to California.

In 1859 the Comstock Lode was discovered and Nevada had its own mining boom. Population immediately grew by leaps and bounds and in 1861 Nevada was formed into a separate territory. Later, portions of Utah were added and the lower part of the state was taken from Arizona. Petitions for statehood were made but it was not until 1864 that Nevada became the thirty-sixth state of the Union.

Though Nevada ranks sixth in size with its area of 110,000 square miles, it has the smallest population of any of the 48 states. Between 1800 and 1900 there was a marked decrease in the population due to the falling off of mining industry.

MEXICO'S STABILITY INCREASES BUSINESS

CUSTOM HOUSE TRADE REPORTS
SHOW TREMENDOUS DECREASE.

EDUCATION SHOWS INCREASE

Prominent Bankers and Magazines Investigate—Obregon Expresses Views.

Custom house reports indicate a growing business with Mexico. This business increase has been noticeable in every line of trade and has been developed on a large basis in the Mexican Republic while business in the United States was quiet. Because of the possibility of increasing their business in foreign countries the largest business houses in the United States have sent their agents into Mexico to make investigations with the result that the American Chamber of Commerce of Mexico City reports that many American business houses which formerly did no business in Mexico are establishing branches in that city and are preparing to make an intensive drive for Mexican business. The same source reports all factories and mills operating at full capacity and with a degree of labor unrest smaller than in many years.

The cotton industry in particular is being operated at high pitch. Mexico has about 130 cotton mills, of which about 85 per cent, calculated by output, are in or near Mexico City. The staple used for manufacturing is the home-grown product.

New York Bank Investigates

The Foreign Trade Record of National City Bank of New York says: "The purchasing power of Mexico shows a less decline than that which characterizes conditions in many other countries. Exports to Mexico in the fiscal year which ends with next month will, according to a statement by The National City Bank of New York, be double those of the preceding year and six times as much as the annual average prior to 1918 when her great oil outturn multiplied her purchasing power.

"Exports from the United States to Mexico" continues the bank's statement, "which averaged less than \$50,000,000 a year prior to 1917, suddenly jumped to \$107,000,000 in the fiscal year 1918, \$120,000,000 in 1919, \$144,000,000 in 1920, and will be approximately \$230,000,000 in 1921. This tremendous growth in our exports to Mexico in the very recent period and especially the current fiscal year has continued down to the latest moment despite the fact that exports to nearly all other parts of the world show for the latest month a decline. In fact, no other country shows this unique record of having more than doubled its takings of United States merchandise in the fiscal year 1921.

"On the import side, the growth has also been large, though not so great proportionately as in exports. The total imports from Mexico, which prior to the oil period averaged about \$75,000,000 a year, were \$112,000,000 in the fiscal year 1917, \$158,000,000 in 1919, and will be about \$170,000,000 in 1921."

People Want Land.

Thousands of inquiries are being received weekly by the various departments of the government in Mexico asking information as to the requirements for owning land, the localities where land is available for all purposes from mining and oil to timber and agriculture. The departments are glad to answer any bona fide inquiries and are rapidly preparing information printed in English that they feel will be of interest to those making inquiries.

There is much land in Mexico available for all purposes. The government requires that persons owning such land conform to the laws of the country, which is the same that is demanded elsewhere in the world. The government offers every protection possible to foreigners locating in Mexico.

Special inducements have been made for persons locating in Mexico as to freight rates for household goods, and in order to insure the restocking of the country with cattle and sheep and other herd animals the government is assisting by waiving many import restrictions.

Educational Campaign.

The campaign undertaken against illiteracy by the correspondence branch of the National University is being constantly intensified. This work not only affects the children of the middle class, but teachers have also been appointed to carry on the labor of educating the Indians.

Many people have become interested in this campaign and are enthusiastically cooperating in the establishment of additional schools, the circulation of books and the organization of educational programs.

President Obregon's View.

"I believe that Mexico today offers absolute security for business investment and enterprise. The country is at peace; a stable government has been established; every effort will be made to give guarantees to all business men who come here with the object of making investments, and every facility will be granted them for the development of their projects," says President Obregon.
