On last Friday at high noon at the home of the bride, Mr. and Mrs. John Rae, prominent ranch people of this county, Mr. D. M. Powell and Miss Elizabeth Rae were united in the holy bonds of wedlock by Rev. T. J. Sloan of the Episcopal church of San Angelo, reading the marriage service.

Miss Rae was reared on the ranch and finished her schooling at the St. Mary's college at Dallas.

The groom is a son of Mr. and Mrs U. H. Powell of San Angelo, well known throughout West Texas, his father being cashier of the First National Bank of San Angelo.

Only a few close friends attended the wedding.

A two course luncheon was served after the ceremony.

The bride and groom left in the afternoon for Uvalde where they will make their home.

## **BIGGEST HIGHWAY**

National Road System to Be 160,000 Miles. To Include Texas.

Waco, Texas.-The highway construction program of the Federal Government is the biggest project of its kind in history, much bigger than the project to build the Panama Canal, according to a statement issued by the Texas Highway Association

"The tentative program of the Government contemplates the con struction of a national system of highways, composed of the various State systems, comprising seven per cent of the total post road mileage of the United States," says the statement. "It will include about 160,000 miles of improved highways 12,000 of which would be in Texas It will cost approximately \$3,000,000 000 and will probably require fifteen years to complete."

The Federal Government proposes to pay half of the cost of construct ing this system, requiring that the State shall pay the other half in each case, and that the State shall maintain the roads after they are built.

In Texas the State has no author ity to build and maintain highways and temporarily this requirement has been suspended so far as Texas is concerned, in order to give the peo ple the opportunity to change the ple the opportunity to change the laws so as to empower the States Government to build and maintain roads. So far the Federal Government has appropriated \$500,000,000 for road construction in the States, and about \$30,000,000 of this has been allotted to Texas. This money however is heing spent only in course. however, is being spent only in coun ties which vote bonds to meet the Federal aid. The Federal law re quires that this system shall be abolished and that the State system shall be constructed by the State Govern ment as a connected and continuous system covering the entire State. The Texas Highway Association is

conducting a campaign to awaker the people to the necessity of pass ing the proper legislation to meet the requirements of the Federa Government and thus insure that Texas will have a State highway system as part of the national sys tem. The Democratic platform, adopt ed at San Antonio, urges upon the Legislature the necessity of passing

Democratic Resolution Declares Acceptance of Federal Aid Pledge to Nation.

Waco, Tex.-In addition to placing in the platform a plank declaring in favor of such legislation as may be necessary to empower the State Government to co-operate with the Federal Government in constructing a State system of highways in Texas, the Democratic convention at San Antonio adopted strong separate resolutions emphasizing this matter.

olutions emphasizing this matter.

Attention is being called to this fact by the Texas Highway Association, which has headquarters here. One of these resolutions particularly emphasizes the fact that in accepting Federal aid in the past, and in continuing to accept it, Texas has pledged itself to construct and maintain such a "system." For Federal aid is allotted to the States on a basis which assumes that a State "system" of highways, comprising seven per cent of the total post road mileage of the State, will be constructed and maintained.

The convention expressed its recognition of this obligation in the following language: "We recognize the acceptance of Federal co-operation in highway construction,

the acceptance of Federal co-opera-tion in highway construction, through all tments of Federal funds, as a pledge to the Nation for the construction and maintenance of a system of highways primarily service-able as a State system, responsive to the needs of the citizens of the State, and secondarily providing the basis for a system of highways extending for a system of highways extending from State to State."

Texas has so far received and will continue to receive a larger share of Feeeral highway funds than any State in the Union. It is estimated that Texas receives five times as great a share of these fundas it contributes toward them in the form of Federal taxes. In other words the other States are supplying four out of every five dollars spent, by the Federal Government in Texas for the construction of roads. This fact, the Texas Harbway Association policy. the Texas Highway Association points out, makes the responsibility of Texas

Most of the States in the Union have complied fully with the Federal requirements and are building State systems. Texas is one of a few States which have not complied with these requirements and the action these requirements and the action of the Democratic convention was a pledge to the pec le that the Democratic nominees it the Legislature who will be vote on in November will pass the necessary legislation.

ONE COUNTY COULD DO IT.

A single county in Texas could bring about a situation in which all rederal aid for highway building in this State would be shut off, and the State Government would be powerless to prevent it. The Texas Highway Association is authority for this statement, and the Federal law is cited in support of it. The associ-ation will ask the next Legislature to make necessary changes in our laws to cure this situation.

#### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.
