## Twice Daily Workouts Start Monday For The '77 Eagle Football Players

Coach Mike Williamson will start his initial workouts Monday of the Eagle high school football boys. The twice daily workouts will continue on week days for the ensuing two weeks until the start of school.

Williamson was recently named head coach of the Eagles, succeeding Mike Quimby who has moved to Wall.

Physical exams for the high school football boys are set for today—Thursday, August 4th—at 5:00 p.m. at the Band Hall. These will be for the high school boys coming out for Varsity and Junior Varsity teams.

Here is the Varsity team schedule for the coming season:

**Date—Team—Place—Time**  
 Sept. 2, Rankin, Here, 8:00.  
 Sept. 9, Iraan, There, 8:00.  
 Sept. 16, Ozona, Here, 8:00.  
 Sept. 23, Winters, There, 8:00.  
 \*Sept. 30, Big Lake, There, 7:30.  
 \*Oct. 7, Menard, Here, 7:30.  
 \*Oct. 14, Robt. Lee, There, 7:30.  
 \*Oct. 21, Wall, Here, 7:30.  
 \*Oct. 28, Junction, There, 7:30.  
 \*Nov. 4, Mason, Here, 7:30.  
 Nov. 11, Open Date.  
 \* District Games.

The following is the schedule for the Jr. Varsity, 7th & 8th Grade teams:

**Date—Team—Place—7th, 8th, JV:**  
 Sept. 1, Open Date.  
 Sept. 8, Wall, Here, 5:00, 6:00, and 7:30.  
 Sept. 15, Menard, There, 5:00, 6:00 and 7:00.  
 Sept. 22, Mason, Here, 5:00, 6:00, and 7:30.  
 Sept. 29, Junction, There, 5:00, 6:00 and 7:00.  
 Oct. 6, Rankin, Here, 4:00, 5:00, and 7:30.  
 Oct. 13, Wall, There, 5:00, 6:00 and 7:00.  
 Oct. 20, Menard, Here, 5:00, 6:00 and 7:00.  
 Oct. 27, Mason, There, 5:00, 6:00 and 7:30.  
 Nov. 3, Junction, Here, 5:00, 6:00 and 7:00.  
 Nov. 10, Open Date.

Physical exams for the jr. high football boys will be given Thursday, Aug. 11, at 1:00 p.m. at the Band Hall.

## Steer Was Found Before Ad Was Run

**LOST OR STRAYED:**  
 Hereford steer. If located contact Sheriff's Dept.

That was the want ad that Mrs. Adah Bowder of San Angelo placed in The Success when she came in to our office Monday.

She called Tuesday morning that the ad would not need to be run, because the steer had been found. He fell into a Permian pit and was found by Mr. Mankin and he was up to his neck in oil and had apparently been in the pit since Saturday.

It took Mr. Mankin, and men from Permian Corp. and C. C. Lease to hoist the steer to freedom.

## Rites At Harper For Father Baumann

The Rev. H. L. Baumann, 63, died last Tuesday in Converse. Services were held Friday in St. Anthony's Catholic Church in Harper and burial was in the church cemetery.

The Rev. Baumann was a native of Harper. Survivors include his mother, Mrs. Selma Kiser Baumann of Harper; a sister, Miss Martha Rose Baumann of Harper; and three brothers, Maxie Baumann of Kerrville, Frederick Baumann of Victoria and A. J. Baumann of Post.

Father Baumann was an uncle of Mrs. Bob (Nancy) Lester, who is County H. D. Agent here. She attended the funeral services at Harper Friday.

Visiting in the home recently of Mr. and Mrs. J. R. Trentham were their oldest daughter and husband, Rose and Abe Uherek of Vanhook and their daughter Jean and husband Duwain Orr, also of Vanhook and their three sons, David, Frankie and Chris.

## Post Script

Nine years ago a world's fair, HemisFair '68, was held in San Antonio. The buildings that were put up have been converted to a civic and convention center.

The Institute of Texan Cultures is a part of HemisFair plaza and is the setting each summer for the Texas Folklife Festival.

That big event is getting under way today, Thursday, August 4th, and will continue through Sunday, the 7th. This is the 6th such event.

We have attended the Festival before and recommend it highly to anyone wanting a late-summer outing, or last-minute vacation.

On page 3 of this Success issue we have an article that gives some of the highlights of the Folklife Festival, but here at our office we have a publicity kit with much more detailed information.

Any of our readers who contemplate a trip to old San Antonio this week end are welcome to come in to our shop and look over this material.

Ethnic cooking, costumed dancers and handicrafts of all kinds, along with exhibits, are all a part of the big annual Folklife Festival starting today.

—ps—

It is a pleasure to congratulate two local couples who are observing their 62nd Wedding Anniversaries this summer.

Mr. and Mrs. Ben Hext were married July 30, 1915, in Brownwood. He is a retired Shell man and operated the local movie house a number of years ago. They now live on North Lee street here in Eldorado.

August 8th will mark the anniversary of Mr. and Mrs. Gene Edmiston who also married in 1915, in the community of Mayer, which was then in the southeast part of the county. They have made their home in this county most of their married life and live now at their home seven miles west of Eldorado on the Big Lake highway.

Both of these couples have the best wishes and congratulations of their many friends, far and near, at this significant time.

—ps—

Blackie has gone. Blackie, the young, black puppy who made her home for several weeks at the nursing home, has disappeared. Johnny Hawkins mentioned it last week end and didn't know what happened to her.

—ps—

My friend George Long is gone. He worked around in his yard on Sunday. Later he complained of feeling tired and was sitting in his chair and about 4:00 in the morning Jane found he had passed away. I will miss him.

—ps—

## J. N. Evett Is Back Hauling Trash

J. N. Evett has been rehired to drive the city trash hauling truck, after Houston Thigpen recently retired from the job.

The Thigpens have moved to the house across from the school that was bought recently by Bob Oglesby. The late Charles Young formerly lived in the house.

## Mr. and Mrs. David Neilson and son of Norwalk, Calif., are visiting Mrs. Mabel Griffin and Burro. They arrived Monday morning.

Mrs. Adah Bowder of San Angelo was visiting here Monday.

Mr. and Mrs. Curtis Andrews left Monday for Austin where they spent Tuesday attending an insurance rate hearing.

## Jones Takes Over Gulf Service Station

James Jones re-opened the Gulf Service Station here in Eldorado a few days ago. The station had been closed about a week after Russell Stewart, who ran it, went back to truck driving.

Jones has had seven years of service station in Sonora. More details are in his ad on page 5 of this Success issue.

**RECEIPT BOOKS:** Small and large ones on sale at The Success office.

## 32nd Annual Meeting of Co-Op Set

THE HEADQUARTERS building of Southwest Texas Electric Co-Op has been a handsome part of the business district for nearly 20 years, and now it is being added onto. The extension is on the east side and is slated for completion in early Fall.

The usual hundreds of people are expected to converge here Tuesday evening, August 9th, for the 32nd annual Membership Meeting of the Southwest Texas Electric Co-Op, which has its headquarters here in Eldorado to serve a number of counties.

The event will get under way at 7:00 p.m. with serving of barbecue to members and guests.

The business session will get under way at 8:00 p.m. with J. D. Strauss, president of the Co-Op, calling the meeting to order.

Main item of business will be the election of two directors for three year terms. Those nominated are Fred H. Case, Steve Williams, and Wm. L. Brown.

The nominating committee met June 7th and consisted of Frank Speck, Mrs. W. V. Lux, Reuben Minor, Walter McGregor, and Sam Henderson.

Also nominated for director was U. E. Rogers but he requested that his name be withdrawn.

Elton McGinnes will give his manager's report and there will be a report given by Tom Gregg, the attorney for the Co-Op. Service pins will be awarded to the Co-Op personnel.

The evening will be concluded with the awarding of door prizes donated by Co-Op suppliers and other merchants.

Some statistics reported include the average bill per month paid by Co-Op members rose from \$41.81 in 1975 to \$50.19 in 1976. The Co-Op had 1.24 meters per mile of line in 1976, and a total of 3,409 miles of line.

There are 21 employees connected with the headquarters in Eldorado, five in the Ozona office, and four in the Big Lake office.

## Film Shown At Lions Club Meeting

Curtis Andrews, chairman of the Attendance and Membership committee of the Lions Club, is program chairman for this month of August, and he showed a film at the meeting Wednesday. Boss Lion Phil Olson presided.

The film was entitled, Products and the Lawsuit Explosion—Who Pays?

The club rosters, which were turned out last week by The Success printers, were distributed. The Lions Club is currently in its Golden Anniversary year, and further information on this is given on page 2 of this Success issue.

Next week, Gene McCalla will show slides of his recent trip to the Holy Land.

## City Council Approves Budget

A special called meeting of the City Council was held Tuesday night in City Hall and the budget for the coming year was approved, with main changes being 5% salary hikes for the regular city employees and 10% hikes in the water and gas rates above the minimums used by customers.

Mayor Pat Ragsdale presided and the aldermen present were Richard Kent, Bobby Sykes, Bill McCravey and Jimmy Doyle, with City Secretary Phil Olson.

The tax rate of \$1.50 per \$100 valuation was re-set for the new city fiscal year, which starts on September 1st.

Alderman Sykes made motion that the 5% salary increase be put into effect for all regular full-time employees of the city. This was voted to be put into effect Sept. 1st. The raise will not apply to part-time employees who work on an hourly wage basis.

The last pay raises were passed in May of 1976 and the last utility hikes were in June of that year.

The matter of raising gas and water rates came up, with Alderman Kent making motion seconded by McCravey to go up 10% on these on Sept. 1st, and it carried. The amounts will apply only to amounts used by consumers above the minimums: \$3 per month for 2,000 feet of gas, and \$3.50 per month for 3,000 gallons of water.

The motion was made by Sykes and seconded by Doyle to accept the budget, and the motion to re-set the \$1.50 tax rate was made by Kent and seconded by Doyle. These carried.

In business related to other matters, two citizens were on hand to bring up the much-previously-discussed dog problem.

Ted Short of the fire department visited and brought up the matter of the new building for the fire truck, and this matter is still pending. The city is negotiating for possible purchase of the old Enoch's frame building just to the south of the water tower. This could be used to house a fire truck temporarily.

Also pertaining to the fire department, the '61 Dodge truck is having a new engine put in.

The possible procurement of surplus federal or state road equipment such as trucks was discussed and will be looked into further.

Justice of the Peace Pancho Bradley was on hand to request that the City Council in turn request the Highway Dept. put a 30-mph speed limit on all highways within the city limits, and a traffic light at the intersection of the Angelo and Menard highways. This matter will be dealt with later.

Walter Powell Jr. was there and offered his '62 Farmall tractor for sale to the City for \$2,750. Following motions by Kent and McCravey this was approved.

Bids were opened for buying a truck chassis and following motion by Sykes and Kent, they ac-

cepted the \$7,022.38 bid from Angelo Truck & Tractor for furnishing an International truck unit. They may also have power steering and power brakes added.

Other bids were considered from Jim Bass Ford and Mustang Chevrolet.

The Council disallowed request from new owners of Curry estate property to have back taxes done away with.

## Nursing Home Notes

This was a Pea Shelling Bunch two or three days last week. Several girls who work away from home brought us their peas, and we were glad to help them. We likely will get some more this week.

We had a few visitors and they were as follows: Mr. and Mrs. Eddie Peele of Abilene, Texas and Mrs. Irene Hallmark of Santa Anna, Cal., visited Lizzie McAngus. Mr. and Mrs. Clarence Jessup from Sanderston were here to visit her mother, Myrtle Wade. Mrs. Dale McHalek and children from Fredericksburg came to visit their grandmother, Hattie Blaylock.

Janis Glenn from Comstock and Mrs. Charlie Glenn from San Angelo were guests of Mary Baker.

The Bingo winners last Wednesday were: Bess Andrews 2 games, Beaulah Harris 2, Lester Garrett 1, Carrie Blakeway 1, Elva Daniels 1, LaVita Brooks 1.

The winners on Friday were: Beaulah Harris 1, Bess Andrews 3, Erna Rexroat 1, Maggie Sluder 2, and LaVita Brooks 2.

Elva Daniels was entered into the local hospital Sunday morning of this week, and was in intensive care there the last report we had.

The other residents are all as well as usual, we are glad to report.

Lester Garrett's son, from Roosevelt, Texas, came one day last week and took him to his home at Roosevelt.

Come to see us! Don't use Influence until you have some! —LaVita Brooks & Beaulah Harris, reporters.

## Scrap Newspapers Collected Monday

The Woman's Club drive for scrap newspapers was held Monday and took in 1200 pounds.

The papers were taken to the San Angelo dealer. The dealer is not equipped to process magazines.

The Woman's Club thanks the public for their co-operation in turning in the old newspapers for recycling.

The next drive will be put on the first Tuesday in September, the day after Labor Day.

## Legion Meets Tonight

The regular monthly meeting of the Bey McCormick Post of The American Legion will be held on Thursday night of this week at 7:30 in the Legion room of the Memorial Building.

Tom Miner is the new Commander. James Head retired as Commander.

## George Long's Rites Held On Wednesday

George Raymond Long, 81, died at his home here early Monday morning.

Services were held at 3:00 p.m. Wednesday in St. Mary's Episcopal Church here, with burial in Eldorado cemetery under direction of Kerbow Funeral Home.

Pall bearers were Gene McCalla, Skeet Mace, Lum Davis, Bob Oglesby, Leslie Baker, and Jo Ed Hill.

Mr. Long was born Oct. 3, 1895, in Carthage, Ill., and was married to Evelyn Newcomb in 1921. She died in 1932. He married Emma Jane Hart in Quanah on Sept. 4, 1933. He moved to Texas in 1919 and to Eldorado in 1934 where he operated a variety store for 30 years. He was associated with First National Bank for 20 years as a director. Mr. Long was one of the first Naval aviators and served as an ensign in World War I.

He was a member of St. Mary's Episcopal Church, a Mason, and a Legionnaire.

Survivors include his wife of Eldorado; one brother, Kenneth Long of Lompoc, Calif.; one sister, Mrs. Robert Biler of Barry, Ill.

He was preceded in death by one son, Raymond Long who died in 1959.

## News Of The Sick

Cherie Niblett, daughter of Mr. and Mrs. C. J. Niblett, was entered in Shannon hospital Sunday and had knee surgery Monday. She will be a Junior this coming year in Eldorado High.

Granvil Hext recently underwent knee surgery in St. John's hospital in San Angelo and was scheduled for release about Wednesday of this week.

Raymond Trimble is scheduled to enter St. John's hospital Thursday of this week, and is to undergo major surgery Friday morning.

Mrs. W. G. Powell Sr. returned home recently following a stay in the hospital.

Mrs. Thelma Childers had as recent visitors Mrs. Penny Phillips and two children of Los Alamos, N.M., who were here a week, and Mr. and Mrs. K. G. Willy and family of Cameron.

Mr. and Mrs. Jimmy Doyle spent last week visiting points of interest in New Mexico.

## Phil Olson Heads Lions Club As The Organization Launches Its Golden Anniversary Year

The Eldorado Lions Club has its 1977-78 club year under way, with Phil Olson as Boss Lion and he recently announced his committee assignments.

The Eldorado Lions Club will observe the 50th anniversary of founding in May of 1928. The Club charter is dated May 18, 1928.

Also observing their Golden Anniversary at about the same time will be the Lions Club in Sonora.

Plans will be made in the months ahead for the clubs to put on some special events next May in connection with their 50th anniversaries. Each club will put on their own celebrations and there may be a joint event or so, between the two clubs.

The roster folders were distributed this week at the Lions meeting, and it lists the officers and the committees for the new year. These were published by The Success printers here in Eldorado.

Curtis Andrews is 1st Vice-Pres-

dent, and he has charge of Attendance, Constitution and By-Laws, Audit, Finance, Membership, Program, Queen's Contest, and United Nations.

As 2nd Vice-President, Jerry Jones is in charge of Boys & Girls, Citizenship & Patriotism, Convention, Greetings, Lions Information, Sight Conservation and Blind.

A. T. (Sonny) Turner, as 3rd Vice Pres., is in charge of Agriculture, Civic Improvement, Community Betterment, Education & Athletics, Health & Welfare, Publicity, and Safety.

Lynn Meador is secretary-treasurer, and Floyd West is Lion Tamer. John Pitts is Tail Twister.

The hold-over directors for 1976-78 are Willard Gentry and Robert Jay. New directors for 1977-79 are Penfield Barker and Richard Ganschow.

Walter Wallis is immediate past president and Julian E. McLean of Sweetwater is the current District

Governor of 2A-1.

Some highlights of their half-century of community service here by the Eldorado Lions Club include helping procure the old fairgrounds south of town for a football field which remained in use until a few years ago. Also, they have been sponsors of the Boy Scout and Girl Scout programs.

In 1957 they sponsored Luedecke Day honoring General Alvin Luedecke.

The club has had one District Governor. The late Ernest C. Hill served in that position in the early 1940's.

The club held their initial meetings in the Eldo Hotel dining room until the Memorial Building was built and they have met there since each Wednesday at noon. Fred and Flora Riley have been long-time cooks for the club.

Following are the Standing Committees and Membership List for the club year getting under way.

### Standing Committees

## TS&GRA Convention Concludes At Kerrville

The 62nd Annual Texas Sheep & Goat Raisers' Association convention, recently concluded in Kerrville, brought resolutions concerning predator control, appreciation and sympathy, as well as execution of the Association's official business. All these activities were concluded during what was generally described as one of the most enjoyable sessions in recent memory.

Late in the final business session outgoing president Bill Pfluger, San Angelo, turned control of the meeting over to his newly elected successor Bill Schneemann, Big Lake. Schneemann, a TS&GRA member for 18 years, served as a director for 15 years and held the first vice president post under Pfluger.

Convention delegates elected Sonoran Norman Rousselot to the first vice president post, and his previous position as second vice president will be filled by Martin Wirdlaw, Del Rio. Prior to becoming an officer for the Association, Rousselot served as chairman of the Wool & Mohair Promotion Committee and on the Miss Wool of America Pageant Board.

Wardlaw has raised sheep, goats and cattle since 1966 and is a director of the Devil's River Soil and Water Conservation District, as well as a member of the Val Verde County Commissioners Court.

Predator-related resolutions accepted at the convention include one commending Roy McBride, Alpine, for his work developing the toxic collar for predator control, and also urging that a program be developed in order to register Compound 1080 for us in the collar.

A related resolution requests that the president of the National Wool Growers meet with President Carter to seek modification of the Executive Order of 1972, which banned the use of chemical toxicants. Still another measure calls on the Texas Agriculture Commissioner to authorize the Rodent and Predatory Animal Control Service to rewrite regulations determining the ability of predatory animal hunters to handle restricted pesticides. It was also requested that this authority be granted immediately so that testing and certification could be completed prior to institution of pesticide controls October 21.

The Association also commended U. S. Congressman Bob Poage for his invaluable assistance in working for extension and renewal of the National Wool Act. It was

## Sights On Safety

by UL Public Information Office

### Electric Lawn Mower Safety

In the U.S. around 55,000 persons are treated annually in hospital emergency rooms for power mower injuries. Many of the victims lose fingers, toes and other body members — some even die. Many are hurt by objects hurled by the machines, over- turns, runovers, and falls from ride-on-equipment by extra riders.

Electric lawn mowers require special attention and insights into their use. Such equipment, relying on electrical current, can not only cut you but also deal a lethal electric shock if you accidentally snip the cord or work on wet ground with a faulty unit. Electric mowers should display the Underwriters Laboratories (UL) Listed Mark, indicating that the design has been tested by UL and found to be acceptably free from electric shock, fire and accident related hazards.

Here are some special safety tips applicable specifically to electric lawn mowers:

- Read the owner's manual thoroughly noting all safety and operating instructions. Learn the controls well enough to act instantly in an emergency and how to stop the machine quickly.
- An electric-powered mower should have a ground wire as a standard part of the machine, unless it is double insulated.
- Don't use in wet or damp locations. Never use in the rain. If mower is known to be electrically defective, don't use until properly repaired or replaced.
- Avoid unintentional starting. Be sure the switch is off when plugging in.
- Disconnect the appliance from the power supply when not in use, before servicing, when changing accessories, such as blades, etc.
- Store idle mower indoors when not in use in dry loca-

tion away from children.

- Use only with heavy-duty extension cords suitable for outdoors use. The UL Label will indicate for outdoor use only. If the machine is grounded via a three-prong plug, the extension must be the three-wire grounded type. Using an adapter improperly grounded could set you up for a severe shock.
- Don't abuse power cord—keep from heat, oil and sharp edges. When cord has cuts, cracks or breaks in insulation, replace it.
- Be very careful not to run over the cord or entangle it in the blades. Start mowing grass nearest to electrical outlet and gradually move out.
- For battery operated mowers, be sure only to replace battery with identical battery (see owner's manual for type and manufacturer).
- Battery operated mowers should have two-motion switches to prevent accidental starting.
- All self-propelled mowers should have a momentary-contact switch or a dead-man-control for disengaging the propelling drive when unattended.

Other general safe opera-

tion points for walk-behind mowers:

- Shut off mower before clearing machine of debris (disconnect electric).
- Mow in daylight hours, unless there is good artificial light.
- Shut off mower (disconnect power on an electric) before moving from one level to another.
- Be certain of footing and balance, especially on an incline, and don't work on a damp or slippery surface. Wear sturdy shoes, steel-toed if possible.
- Check regularly for dangerous and worn parts.
- Don't leave mower unattended while running.
- Don't allow children or pets in mowing area.
- Keep hands and feet away from moving parts and cutting area.
- Never make wheel height adjustments with motor running.
- Keep protective guards in place and working order.
- A self-propelled reel mowers should not operate in reverse.
- Lawn should be cleared of all objects prior to each mowing, to avoid flying object injuries.

**YOUR CAR: SET FOR SUMMER?**

Owners of '75 or older cars who have managed to squeak through the past year without giving much, if any, attention to the engine's cooling system, should not chance it for another season, warns the Automotive Cooling System Institute. According to ACSE engineers, the vital system should have a careful examination seasonally or at least once a year after a car has passed its second birthday. This is especially critical on more recent models with emission control equipment where greater under-hood heat causes rubber parts to deteriorate more quickly.

Doing a complete check on the system is essential. Although car owners generally think of a flush and new anti-freeze as the main element of preparing the cooling system for spring, the Institute recommends special attention to two other areas: (1) condition of hoses, belts, pressure cap and thermostat; and (2) possible sources of leaks or seepage.

Whether you are a do-it-yourselfer or a get-it-done, be sure the following checks are made:

**HOSES...** They may still look good but be ready for the scrap heap. Tug on them from several directions. (But don't try it when the engine is hot; a weak hose might suddenly give you a scalding bath.) A healthy hose, properly clamped, should not break or let loose. It should not be cracked nor "spongy" but firm and pliable. Are the clamps still doing their job or will they allow loss of anti-freeze?

**BELTS...** Take a close look for glazing of the surfaces that contact the pulleys. Examine for cracks or frayed condition, too. Is the tension correct? A belt should not deflect more than one-half inch when depressed halfway between the pulleys.

**PRESSURE CAP...** This, along with the thermostat, keeps the system at the proper pressure and temperature. An engine that runs too hot or too cool runs inefficiently and may wear at a more rapid rate.

**ANTI-FREEZE COOLANT...** After the original anti-freeze has been drained, the system should be flushed yearly and a 50/50 solution of anti-freeze coolant replaced.

The best way to be sure your cooling system will provide another trouble-free season is to have your service dealer or mechanic check for leaks and condition of components. This inexpensive (often free) check will help spot leaks and show whether all cooling system parts are up to par.

(For a free copy of a booklet on how to care for your car's cooling system write to: "Booklet," Automotive Cooling System Institute, 222 Cedar Lane, Teaneck NJ 07666.)

Wallpaper was invented in the 16th century when someone discovered that the paper lining used for books would look good on walls.

Honeysuckle was once used by some people to cure their obsession with the past.

A common herring lays about 25,000 eggs at a time.

**Folklife Festival Set Aug. 4-7  
 In Downtown San Antonio**

San Antonio, Tex.— The state's largest and liveliest social studies workshop—the annual Texas Folklife Festival—will run August 4-7 in San Antonio. During the four day celebration, representatives of 30 ethnic, cultural, religious, and national groups will be on hand to share their history with visitors to the sixth annual Festival.

Festival participants from over the state gather at The Institute of Texan Cultures on HemisFair Plaza to demonstrate crafts, food, costumes, music, and dances of the state's settlers. The Festival is an outgrowth of a continuing educational program at the University of Texas at San Antonio's Institute which is aimed at discovering and preserving the traditions and customs of our forefathers. Ethnic groups at the Festival demonstrate and teach ancient crafts such as Japanese brush letter writing, German sausage stuffing, Korean kite making, Wendish noodle making and Russian egg painting.

The pioneer area emphasizes the crafts and skills developed by Texans confronted with the harsh realities of frontier life. Visitors can learn such skills as making adobe bricks, horsehair ropes, sunbonnets, candles, lye soap, pottery, saddles, thatching roofs, and repairing plows. The more energetic can lend a hand at the barn raising, enter the spike driving contest, or challenge champion arm wrestlers.

When you get hungry you have a multinational choice of foods. There are Chinese egg rolls, Lebanese cabbage rolls, fresh baked bread, yam pie, coon oil cookies, barbecue, tacos, blintzes, sausage, and the newly proclaimed state dish, chili.

When you wear yourself out from working and eating, you can sit back and enjoy the continuous entertainment on one of seven stages. Lebanese belly dancers share the stage with bluegrass bands and flamenco dancers. Folk singers, oompah bands and bagpipers vie for the audience's attention.

Children have their own special area at the festival where they can learn how to make toys out of scrap wood, cloth, and corn husks. They can sing-along with Marsha Jones as she relates the history of southern folk music in song and story or take a ride on Jethro Holmes' oxen Tom and Jerry.

The festival is a kaleidoscope of color, song, and dance. Each booth is an event in itself. Storytellers abound. Bill Brett comes to the Festival to demonstrate horsehair rope making, but if you stop to talk, he can also tell you about boar hunting.

Those with a competitive spirit can enter contests to see who is the best at milking, chicken flying, horseshoes, watermelon seed spitting, pudding eating, Italian or Belgian bowling, arm wrestling, or tug of war. For children, there is the first official Berm Sliding contest. The grassy berm, or hill, surrounding the Institute has long been a favorite of the youngsters and this year they will be trying for prizes when they slide down the berm on pieces of cardboard.

Tickets for the Festival are \$3 for adults and \$1 for children under 12. The festival begins at 5:00 p.m. on August 4-5, and at noon on August 6-7. Gates close at 11:00 p.m. each night. There is no parking at the site, but free shuttle buses will run from downtown parking lots and local shopping centers. Free parking can be arranged for charter buses. For more information, write: Institute of Texan Cultures, P.O. Box 1226, San Antonio, Texas 78294.

**CAR CARE**

Tips To Add Safety  
 And Save You Money

**TUNE-UP AND SAVE**

Tuning up your car can save you more than the cost of the tune-up, and will make your car start easily and operate smoothly. Studies show that well-tuned cars get about 10 percent more mileage than neglected cars. For example, a car that runs 18,000 miles per year at 12 miles per gallon consumes 1,500 gallons of gasoline. At 60 cents per gallon, that's \$900 for gasoline. An eight percent mileage improvement will save you \$72, more than enough to pay for a major tune-up, which runs about \$50.

What does a tune-up include? According to the Ignition Manufacturers Institute, the kind of tune-up most cars need include replacing the spark plugs, points, condenser and PCV valve, setting the timing, adjusting the carburetor, replacing the air filter, testing and replacing, as necessary, such parts as ignition wires and cables, and adjusting or replacing emission control devices.

Tune-ups and preventative maintenance are required even for cars equipped with electronic ignition systems. Today's cars may be designed to keep that "like-new feeling" longer than they did a few years ago, but they won't stay new without regular inspection and maintenance. Service intervals have merely been extended by auto manufacturers, not eliminated.

Every new vehicle owner's manual contains a chart of suggested service operations and intervals. Some motorists mark the anticipated time or mileage on a calendar to be certain a necessary maintenance job is not overlooked. It's risky to rely completely on the manufacturer's service recommendations and ignore the car's actual performance. In general, however, a program of regular preventative maintenance in accordance with manufacturer's recommendations not only protects your investment but results in trouble-free and economical driving.

**STRAWBERRIES STAR IN CONSERVE**

The red, red strawberries are ripe, and abundant again—the signal for you to find new ways to enjoy them in the form of new delicacies as well as to make your fond favorites!

Made with powdered fruit pectin, fully ripe strawberries, a medium orange and finely chopped walnuts, Strawberry Orange Honey Conserve uses one cup of honey to three cups of sugar. The flavor is subtle, and the taste sublime.

**STRAWBERRY ORANGE HONEY CONSERVE**

- 2 cups prepared fruit (about 1-1/2 pt. fully ripe strawberries and 1 medium orange)
- 1/4 cup finely chopped walnuts
- 1 cup honey
- 3 cups (1-1/4 lb.) sugar
- 3/4 cup water
- 1 box (1-3/4 oz.) Sure-Jell fruit pectin

First prepare the containers. Use only containers 1 pint or less in size that have tight-fitting lids. Wash, scald and drain containers and lids; or use automatic dishwasher with really hot (150° or higher) rinse water.

Then prepare the fruit. Stem and thoroughly crush, one layer at a time, about 1-1/2 pints strawberries. Measure 1-1/2 cups into large bowl or pan. Section orange, discarding peel, seeds and heavy part of membrane. Dice orange sections. Measure 1/2 cup and add to strawberries with nuts.

Then make the conserve. Thoroughly mix honey and sugar into fruit; let stand 10 minutes. Mix water and fruit pectin in small saucepan. Bring to a boil and boil 1 minute, stirring constantly. Stir into fruit. Continue stirring about 3 minutes. (A few sugar crystals will remain.) Ladle quickly into containers. Cover at once with tight lids. Let stand at room temperature until set (may take up to 24 hours); then store in freezer. If conserve will be used within 2 or 3 weeks it may be stored in the refrigerator. Makes about 6 cups or 6 (8 fl. oz.) containers.

The sharp, sour taste of vinegar comes from the acetic acid which makes up four to eight percent of the vinegar by volume.

Water has the rare property of being lighter as a solid than as a liquid. If ice were not lighter than water, a lake would freeze from the bottom up and kill marine life.

**In Those Days**

Compiled From Success Files

**ONE YEAR AGO**  
Aug. 5, 1976—Billy Williams was named to the school board to fill out the unexpired term of Dan Griffin, who resigned.

Funeral services were held for J. L. Neill, 79, and E. G. (Sandy) Donaldson, 59.

B. C. Coates, Jr., was planning to move here as Church of Christ minister and the parsonage on North Lee was being re-done for his arrival.

**FIVE YEARS AGO**  
Aug. 3, 1972—Attending state coaching school in Houston from here were Ronnie Stephens, head coach; and Mike Quimby, Wesley Verner and Jim Hardy.

Elton McGinnis, president of the local Lions Club, reported that the local organization was now in the 2A-1 Eye Bank.

Calvin Henderson closed the youth center located across from the court house.

Mrs. Corinne Robinson returned from a trip to visit relatives in Oregon, and in Canada.

Dr. Johnny W. Fields returned to veterinary medical practice in Sonora after practicing in Minnesota for two years.

Miss Maxie Lynn Wright became the bride of Beep Cain, and Connie Sue Speck became the bride of Edwin William Brumfield, Jr.

**12 YEARS AGO**  
Aug. 5, 1965—Jim Willoughby, pioneer ranchman of this county, died at the age of 80.

Mr. and Mrs. Gene Edmiston were to be honored on their Golden Wedding Anniversary.

Army Pvt. Don Pike, who sustained wounds in Vietnam, was being transferred to El Paso for further medical treatments.

L.D. Mund was being installed Commander of the American Legion post. Elton McGinnis was Adjutant.

Albert Ward and Jimmy Harris of Sonora presented a program at a Lions Club meeting.

Eddie Pace announced summer band practice would start August 9th.

A reception was held honoring the Ben Hex on their Golden Wedding Anniversary.

Ora Davis Jr. and family returned to Detroit, Mich., after visiting relatives here.

**20 YEARS AGO**  
Aug. 1, 1957—The school trustees issued a contract to Balfanz Construction Co. of Abilene for erecting the new high school gymnasium here.

J. T. Jackson Sr. died at age 89. Funeral services were held in Menard.

Other deaths reported: J. W. (Buck) Davis in a Houston hospital; and Mrs. Ethel Walker, 70, mother of Earl Parker, in a train-car collision near Christoval.

Ratliff Funeral Home observed their 10th anniversary in their present location.

"Speedy Franks" Douglas visited old friends here.

**PUREBRED Siamese kittens** for sale. —853-2383.

**CARD OF THANKS**

I would like to say a big Thank You to all my friends for the flowers, cards, calls, prayers, and any other act of kindness shown to me and my family during my stay at St. John's Hospital and since my return home. A special thanks also to Dr. Brame, the nurses, and the ambulance drivers.

I will always remember your thoughtfulness and kindness. God Bless each of you.

Mrs. W. G. Powell, Sr. 1\*

**MISS HOLSEY BECOMES BRIDE OF MR. ALLEY**

**MRS. ANTHONY DEBRELL ALLEY**  
the former Priscilla Ann Holsey

**Miss Holsey Becomes Bride Of Mr. Alley**

Wedding vows were said Saturday, July 30 in Greenlawn Church of Christ for Miss Priscilla Ann Holsey and Anthony Debrell Alley. Brother Bill Swetmen officiated.

The parents of the bride are Mr. and Mrs. Bill Holsey of Eldorado, and parents of the bridegroom are Mr. and Mrs. L. D. Alley of Rome, Ohio.

Serving as maid of honor for her sister was Miss Cynthia Holsey of Eldorado. Bridesmaids were Miss Claudia Holland of Lakewood, Colorado, Elsa Chapa of George West, and Linda Swetmen of Lubbock.

Jennifer Swetmen was flower girl. Serving as best man was Larry Bishop of Kingsville Naval Station, Corpus Christi.

Groomsmen were Steve Shultz of Cincinnati, Ohio, Bill Heinen and Capt. Bill Beyers both of Lubbock.

James Beyers served as ring bearer. Ushers were Zack Holsey of Houston, and Larry Holsey of Lewisville, both brothers of the bride.

Candlelighters were Meloney Swetmen and Lisa Overby.

Serving in the houseparty were Mrs. Don Holsey of Kingsland, Mrs. Larry Holsey of Lewisville, Mrs. Brian Holsey of Eldorado, Miss Rene Buchanan of Friendswood, Mrs. Jerry Jones of Eldorado, Mrs. Richard Kent of Eldorado, and registering guests was Mrs. Jo Rogers of Lubbock.

The bride is a 1973 graduate of Eldorado High and a 1977 graduate of Lubbock Christian College.

The groom is a graduate of Rome Ohio and the University of Cincinnati, and is presently stationed at Reese Air Force Base, Lubbock.

After a short wedding trip the couple will live at Lubbock a few weeks before moving to Shaw Air Force Base, Sumter, South Carolina.

**Wolff Tells Tax Group Of Efforts To Stop Flow Of People To Sun Belt**

Nelson Wolff told a meeting of the Tax Relief Committee that the states on the South, Southwest and West must stand together against legislation intended to stop the flow of population to the Sun Belt.

Wolff told the group that a coalition of 204 House members from northern states is trying to pass legislation that will "even out the cost of doing business among the regions."

"The coalition," Wolff said, "is wanting to redistribute over 60 billion dollars in federal grants to local governments on the basis of cost of living and local tax efforts. In other words, if a region has a higher cost of living and higher taxes, it will get more federal dollars."

"Although we in Texas have worked to keep our local taxes down, have prevented a personal income tax, and have balanced our local budgets, we would be penalized under the coalition's legislative policy."

Wolff pointed out several other proposed laws that would be particularly harmful to Sun Belt states. These include federal assumption of all local welfare costs, an automatic indexing formula for the minimum wage, federal regulation of interstate and intrastate gas, and the power of the President to allocate oil and gas.

**Miss Pamela Love Marries Mr. Miller**

Miss Pamela Gene Love of Monterey, Calif., daughter of Mr. and Mrs. Kenneth E. Love, was married to Capt. Geoffrey Daniel Miller of Ft. Ord, Calif., son of Mrs. Geraldine Evans Miller of Gallipolis, Ohio, in a ceremony Saturday in First Presbyterian Church here in Eldorado.

The Rev. Lyman Mobley, pastor, and the Rev. Keith Wyatt of Eldorado Methodist Church, officiated.

Miss Margaret Moehl of Baumholder, Germany, served as maid of honor and Mrs. Martha Love Ellis of Menard, sister of the bride, was matron of honor. Bridesmaids were Mrs. Scott McAngus and Mrs. Glenn Lloyd of Midland. Flower girl was Miss Wendy Rene Ellis of Menard.

Brother of the bridegroom, Justin James Miller, of Gallipolis was best man. Groomsmen were Capt. Steve Hollingsworth of Ft. Ord, Capt. David Peterson of Savannah, Ga., and Lt. Sol Greear of Ft. Sill, Okla.

A garden reception was held at the home of Mr. and Mrs. H. W. Scott, uncle and aunt of the bride. A rehearsal dinner was given by the bridegroom's mother.

The bride is a graduate of Rankin High School and Angelo State University where she earned a B. S. degree in elementary education. She is a bookkeeper for a Seaside, Calif. car dealership. A graduate of Gallia Academy in Gallipolis, the bridegroom graduated from Ohio State University in Columbus with a B. S. in education and from University of Southern California in Los Angeles with an M. A. in education. He is stationed at Ft. Ord with the U. S. Army.

The couple will live in Monterey after a wedding trip to Acapulco.

**Birthday Party**

Damon and Nancy Wagoner gave a surprise birthday party Aug. 2 from 3:00 to 4:30 p.m. for Damon's mother, Ella Mae Wagoner, 69, at the Wagoner home. Cake, punch, and coffee were served.

Those attending included: Jewel Bishop, daughter, Junction; Donnie Renee Thorp, granddaughter, of Sonora; Brandon Thorp, great-grandson, Sonora; and Sam and Ethel Carrell; Sally Christian, Virginia Griffin, Bessie Doyle, Winnie Griffin, Ella Parent, Sybil Blair, Jewel Hodges, Moody Hext, Blanche West, Blanche Barr, and Ruby Farris.

**Chili Is Now Official State Dish Of Texas**

At last, clandestine chili cooks around Texas can walk proudly into the light of day.

Chili is no longer a dish cooked by a few firebreathing, fun-loving weirdos. It has been placed in its well-deserved place of honor by the recent State Legislature which proclaimed it the official state dish.

The first Legal test of chili's new legitimacy will take place at the 8th Annual Republic of Texas Chilympiad September 15-18.

**VISITS FROM COLLEGE STATION**

Dr. H. W. Van Cleave, Professor of Entomology at Texas A&M, visited Mr. and Mrs. Harry Mercer last week. Dr. Van Cleave works with Pecan problems and was en route to Las Cruces, New Mexico, for a seminar with pecan growers.

Van Cleave is married to the former Beth Shilling, Mrs. Mercer's niece.

**ICE CREAM SUPPER HELD**

The Eastern Star ice cream supper honoring the Masons was held Monday night on the Court House lawn with 65 or 70 people attending. Speeches were given by Elton McGinnis and Jack Elder, and the evening was concluded with the group touring the County Museum.

Letters are being sent out to residents of Schleicher County in regard to the County History Book to be published in the future.

Quoting the letter, in part: The Schleicher County Historical Society is compiling and publishing a history book of Schleicher County. The book will consist of history on communities, churches, organizations, education, businesses, museum information and family histories. This book will be unique in that it will be written by all the people in the county who send in their family history thus giving emphasis to the importance of the family life in our history and insights into our heritage and county.

If you are presently living in, or have previously lived in Schleicher County, we NEED and WANT your family biography, even if you don't feel a part of the past, you are definitely a part of the future. The history of Schleicher County will only be complete to the extent we all participate, both pioneers and families who have just recently moved here.

There will be NO FEE for having your history published in this book. The histories and pictures should be sent in as soon as possible but no later than September 15, 1977. Also those wishing to place advance orders for the book should do so.

Send family history material to Mrs. Margaret Frost  
P. O. Box 473  
Eldorado, Texas 76936

The historical book will be available on a pre-sale basis only. The price of the limited edition book is \$24.95 and your check should be made out to the Schleicher County Historical Society. Send check for this to Mrs. Ben L. Isaacs, Jr.  
Drawer J  
Eldorado, Texas 76936

**COMMISSIONERS MET MONDAY**

The County Commissioners Court had a special meeting Monday on providing water service to the cemetery.

**Consumer Food News**

College Station, Tex.—Vegetables offer numerous buys to Texas consumers as they appear at grocery markets in fresh and canned forms, according to Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

This week's most economical buys are:

**Fresh Vegetables**— Items in best supply at the most economical prices are corn, cabbage, carrots, cucumbers and head lettuce—along with yellow and zucchini squash, green onions and radishes.

**Fresh Fruits**— Plum supplies are in their peak season with prices reaching a low point. Cantaloupe and watermelons are in good supply; prices are moderate. Grape supplies are increasing.

**Grocery Market Aisles**— Budget prices appear on a variety of canned vegetables, and economy prices are showing up on canned luncheon meat and vienna sausage. Rice is an excellent bargain.

**Beef**— Best values likely will be chuck roasts and steaks, round steaks and roasts, ground beef and liver.

**Pork**— Good values are picnics, hams, shoulder roasts and steaks.

**Poultry**— Frozen turkey has attractive prices. In egg buying, Grade A, large size eggs usually offer the best combination of quality and economy for the money.

**Consumer Watchwords:** In comparing egg sizes and prices, there is a general economy rule of thumb: buy the larger size if the difference in price is less than seven cents per dozen.

## Highlights and Sidelights From The STATE CAPITOL

by Lyndell Williams  
Texas Press Association

Austin, Tex.—Nine mayors from Texas coastal towns made a trip to Washington to try and revive Seadock, the proposed \$700 million Texas offshore terminal facility.

But major oil companies, part of the consortium which planned the facility 26 miles off Freeport to unload foreign oil, said there is little hope.

The companies claimed the federal government attached too stringent terms to licensing and made their sizable investment unsound. Gulf, Mobil and Exxon, which had pledged 52% of Seadock's financing, pulled out.

Advocates of the superport believe it can save \$1 a barrel on imported oil costs, permitting transportation of the oil in supertankers which are too large for most existing ports.

Meanwhile, Gov. Dolph Briscoe has signed into law legislation that would permit the state to finance an offshore terminal if Seadock folds as expected.

The bill provides for issue of revenue bonds through a deepwater port authority to build the facility. Revenue would come from users of the terminal, and the state's credit would not be obligated.

The legislation also insures that federal licensing requirements must

impose no financial liability (such as for oil spills) on the state.

### Tax Expanding

Revenue from 10 state occupation taxes has grown 133% in the last five years, to a total of nearly \$1 billion in 1976.

Bullock said oil and gas production taxes led the big increase, leaping from \$305.2 million in 1972 to \$793.7 million last year.

Oil and gas production taxes account for 80% of all occupation tax revenue in Texas. Gas production taxes jumped 219% and oil taxes 125% during the five year period.

Comptroller Bullock's report for July showed May state revenues totaled \$803.8 million, bringing total receipts for the first 9 months of fiscal 1977 to \$5.2 billion, a 12% increase.

Sales tax collections, at \$391.9 million, were 15% ahead of 1976 levels.

State spending during May totaled \$587.8 million. Total expenditures for fiscal 1977 are \$5.06 billion, a 3% increase. A cash balance of \$1.5 billion was on hand at the end of May.

### The Hoopers To Sing At First Baptist Church

The Hoopers, a Gospel singing group from Sacramento, California, will be in concert at First Baptist Church, Eldorado, Tex., on Friday, August 12, 1977.

The Hoopers Quartet is a nationally known group and has worked on numerous television and radio programs across America. They have worked in fairs, schools, and in over a thousand churches over the United States.

The concert will begin at 7:30 p.m. The public is invited.

### SAVE LEFT OVER COFFEE

Pour leftover coffee over ice and top with whipped cream or ice cream—to refresh and to save that coffee, suggests Marilyn Haggard, foods and nutrition specialist, the Texas Agricultural Extension Service, The Texas A&M University System.

### County Extension Agent's Column

#### Save Home Energy With Plants

Summer air conditioning costs can be significantly reduced while adding attractive touches to your landscape, says a landscape horticulturist for the Texas Agricultural Extension Service.

Broadleaf trees, evergreens and vines can save energy as well as add beauty to your landscape, it is pointed out by Dr. William C. Welch.

"For cooling purposes, protect the south and west sides of your home with shade trees or trellised vines. These natural barriers intercept the sun's rays and redirect the heat which can decrease the temperature within your home up to 8 degrees."

Plant energy-saving trees 20 to 35 feet from the outside wall of a home, suggests Welch. Since deciduous trees shed their leaves in the late fall and winter, they also allow the sun to warm the home during the winter months.

Vines can serve as an effective summer cooling device. Clinging vines are appropriate for masonry walls while such vines as morning glories, wisteria, Carolina jessamine and muscadine grapes are attractive heat reducers for wooden walls.

For the chilling winter days, evergreen plantings along the windy northern and western sides of a home supply an effective windbreak. These windbarriers can slash fuel costs from 10 to 40%.

\*\*\*

#### Time To Plant Fall Gardens

In the heat of the summer when most spring gardens have wilted from hot, dry weather, the thoughts of homeowners should turn to fall gardening.

Fall vegetable gardens really produce the best tasting vegetables, contends Sam Cotner, horticulturist with the Texas Agricultural Extension Service. Growing conditions are usually better in the fall when the weather begins to cool, and the quality of vegetables is better as they mature in a cooler climate than in the hot late spring and early summer. Disease and insect problems are also less in cooler weather.

All these advantages of fall gardening in no way imply that the practice is fool-proof.

There are definite problems or hurdles, but with the right preparations, these can be overcome, says Cotner. Usually a big problem is getting a good stand of vegetables if the seed are directly planted in the garden plot. The key is in getting the seedbed prepared properly so that the seed will germinate quickly.

Cotner recommends working the soil well and then shaping it into raised beds. Raised beds are important in providing drainage from fall rains that are often heavy. Make about a one-inch furrow in the seedbed and then water the furrow to moisten soil to a depth of two to three inches. This makes the soil ready for planting. One other step that can be a big help in improving germination is to soak the seed overnight before planting.

After planting, cover the seed with a light layer of compost, potting soil or vermiculite, suggests the horticulturist. Any of these materials will provide a much better environment for the seed than regular garden soil. As seedlings appear, you may want to protect them from the sun on the west side with boards, cardboard or a draped cloth. When seedlings are one to two inches high, thin excess plants to allow those remaining to reach full production.

As far as which vegetables to plant, most vegetables generally planted in the spring also do well in the fall, notes Cotner. Then there are those that do especially well in the fall—lettuce, collard greens, broccoli, cauliflower, cabbage, carrots and brussels sprouts.

#### August—Immunization Month

Immunization for the whole family is the goal of August—Immunization Month—as public and volunteer groups promote that campaign across Texas, says Carla Shearer, health education specialist, Texas Agricultural Extension Service, The Texas A&M University System.

The danger is that immunizations are often delayed or forgotten. Childhood diseases don't seem so threatening now. However, it is only by immunizing that we pre-

vent epidemics, she says.

Here is what immunity is about: The body's immune mechanism—once activated—is a defense system of antibodies that fight infection.

When the body first meets a certain type of infection, it may be slow to respond in developing antibodies. But at the second meeting, the body has learned and is able to respond to the invasion more efficiently.

Immunization, then, is artificial activation of this defense mechanism.

Once the body has produced the antibodies, it is ready for an invasion of the real thing, the specialist explains.

Check with the doctor, she suggests. Bring family immunization records up to date and keep them that way.

#### Oil News . . .

##### Gas Strike In County

A gas strike was recorded recently in this county.

Gas Development Corp, Midland, completed a Canyon gas discovery its No. 1 Williams-Stats, 314 mile southwest of Mallard Petroleum Inc. No. 1 Williams Canyon gas producer in the Eldorado (Canyon gas and Wolfcamp oil) field of Schleicher County and two miles southwest of Eldorado, for a calculated, absolute open flow of 2,460,000 cubic feet of gas daily, with gas-liquid ratio of 42,070-1. Gravity of the liquid was 65 degrees.

Production was through perforations at 6,395-483 feet, which had been acidized with 3,000 gallons and fractured with 40,000 gallons and 49,000 pounds of sand.

The following tops were picked on ground elevation of 2,441 feet: Canyon B, 6,370 feet; Canyon C, 6,471 feet; and Canyon D, 6,500 feet.

Drilled to 6,560 feet, where 4 1/2-inch casing was set, it is plugged back to 6,510 feet.

Location is 660 feet from the south and west lines of 81-A-HE&WT.

The No. 1 Williams was finished Sept. 12, 1966, for a calculated, absolute open flow of 12,750,000 cubic feet of gas daily, with gas-liquid ratio 41,000-1, through perforations at 6,399-427 feet.

\*\*\*

##### Wildcat Slated In County

A wildcat has been scheduled here in Schleicher county.

Delta Drilling Co., Odessa, will drill a 6,500-foot wildcat in Schleicher County, 11 miles east of Eldorado, 2 3/4 miles northeast of the Page (Strawn oil and gas) field, 5/8 mile east of a 6,623-foot failure and one mile northwest of a 6,342-foot failure. It is the No. 1 Wheeler.

Location is 660 feet from the north and west lines of 21-L-GH&SA.

The 6,623-foot failure, Humble Oil & Refining Co., No. 1 Koy, abandoned July 10, 1963, topped the Palo Pinto at 4,555 feet; the Strawn, 5,760 feet; and Ellenburger at 6,215 feet, on derrick floor elevation of 2,281 feet.

The 6,342-foot failure, Great Western Drilling Co. No. 1 Napier, abandoned in June 1976, recovered salt water on a test of the Harkey sand at 4,525-629 feet and in the Strawn reef at 5,836-6,013 feet.

##### S. S. Not Endorsing Supplemental Insurance

Consumer protection—who needs it? You may if you are approached by a "social security representative" selling a private brand of health insurance that supplements Medicare. Think about that statement. Would an employee of the Social Security Administration be authorized to sell you private health insurance? The answer is a definite no, it is strictly prohibited. Nevertheless, this type of salesman periodically shows up in communities all over the country. He has a sales pitch that leaves you believing that he either works with or for the Social Security Administration or that his insurance is "approved by Medicare." This does not always mean that the extra health insurance is bad, but the techniques used to get a foot in the door are highly questionable.

Your social security office makes the following suggestions. If someone calls at your home purporting to be working with or for the Social Security Administration (for any reason) ask them for their federal identification card. Also, you may telephone your local social security office. A bonafide social security employee will have no objection to your doing this and might even suggest it since we do make numerous public contacts. Remember that as a matter of policy the Social Security Administration does not endorse any health insurance programs that supplement Medicare.

### HOME LAUNDRY

Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.

Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.

Too much detergent can clog machine and drains... always measure, don't guess!

Follow the manufacturer's recommendations for your type equipment.

Mixing brands of detergents can cause graying of clothes.

Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can help preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!

Pick up your FREE copy of "ENERGY CONSERVATION" Booklet from

Home Environment Division of General Motors.

# Mr. Businessman:

HERE ARE SOME QUESTIONS TO ASK THE PRINTING PEDDLER AND OFFICE SUPPLY SALESMAN . . .

When The Person Selling Printing Solicits Your Business, Here Are Some Questions He Should Be Willing To Answer TO YOUR SATISFACTION:

1. Is he a taxpayer in your community or county?
2. Can he fill your needs on short notice?
3. Does he donate space in the local newspaper to local and county projects and enterprises?
4. Does he pay wages to employees who live in and do business in your area?
5. Does he grant favors that you would ask of your local newspaper?
6. Does he donate newspaper space to promote you and your neighbor's business?
7. Does he support and work for issues that bring improvement to the area?
8. Does he support your civic organizations, schools and churches with free publicity?

We sincerely believe that these questions should be considered when you purchase printing. We stand ready to serve your Job Printing Needs: Call 853-2600

### Physical Exams Set For Football Boys

Physical exams for boys who will be coming out for football this fall are set for Thursday, August 4th at 5:00 p.m. in the Band Hall. The foregoing physical exams are for high school boys. The boys coming out for Jr. High football teams will have their physical exams a week later, on Thursday, August 11th, at 5:00 in the Band Hall. Workouts will start on Monday, Aug. 8th. Coaches Mike Williamson, Larry Mitchel, Ken Thomas and Jimmy Marshall attended the state coaching school this week in Dallas.

### NEWS OF SAFETY

**Readying Your Mower**  
It's smart to think ahead when it comes to readying lawn mowers for the spring season. That's the recommendation of experts at the Outdoor Power Equipment Institute, who offer these tested tips on preparing lawn mowers for work.

**IMPORTANT READING—** Be sure to reread the owner's manual before you use the mower.

1. If you haven't had your lawn mower serviced in the fall, take it to an authorized service dealer for inspection.
2. With the engine off, clean the spark plug and, if necessary, replace it.
3. Make sure the carburetor air filter is clean.
4. Fill the fuel tank with gas and change the crankcase oil.
5. Make sure to reread the owner's manual before attempting to use the machine. Be certain you remember how to operate all the controls. Review all safety precautions. Follow these rules and your lawn mower will be ready to spring into use.

### Krueger Pledges Visits To All Towns In Texas

U. S. Congressman Bob Krueger of Texas, who announced July 4 that he will run for the United States Senate in 1978, has pledged to attempt to visit "every town in Texas" during his campaign.

"For too long, persons seeking statewide office have concentrated their efforts in only the major metropolitan areas and have forgotten the people in the smaller cities and towns that make up so much of Texas.

"As one who grew up in a small town (New Braunfels) and as one who has always been close to the land, I think it extremely important that persons in public office make every effort to not only visit rural America, but to understand that often it is in the nation's smaller cities where our values were set, where our heritage remains strongest."

Krueger, himself part of a ranching family, stressed the importance of agriculture during his July 4 announcement speech:

"I pledge to work to strengthen one of the most powerful forces in our economy—agriculture—by enlarging opportunities for agricultural export."

Krueger, as member of the U. S. House of Representatives, has co-sponsored legislation calling for additional agricultural exports.

Krueger said he will also work to attract light industry in rural Texas, "the kind of industry that will provide additional jobs but will not pollute the air, jam thoroughfares and result in housing shortages, but the calibre of industry that will make life better for people who lives in areas outside of metropolitan centers."

"We also must recognize that agriculture, though not the massive employer it once was, remains a major industry for Texas and we must keep it that way with programs for farmers and ranchers to give them the incentive to want to continue as farmers and ranchers but to also provide their sons and daughters the incentive to want to follow in the footsteps of their parents."

# TOWER TALKS

by U.S. Senator for Texas  
**JOHN TOWER**

## Offshore Energy Development

WASHINGTON—Senate action on legislation to amend leasing procedures on the Outer Continental Shelf has dealt a severe setback to this Nation's efforts to become energy self-sufficient.

If signed into law by the President, the legislation could well be a death blow.

At issue in the recent Senate vote were amendments to the Outer Continental Shelf Lands Act of 1953, the law which established the leasing structure for the development of oil and gas in federal offshore regions. This law provides the basic framework and authority to lease and develop federal offshore fields, and the record of exploration and production under the Act is impressive.

Not only was the 1953 law a flexible document, with adaptations to reflect changes in technology and the times, but it permitted adequate environmental safeguards and allowed states to become equal partners in decisions affecting their coastlines and economies.

In short, the 1953 law worked well because it was both simple and comprehensive, balancing legitimate state interests with the national need to develop publicly owned resources.

The Senate action removed most of that flexibility, replacing it with rigid new federal regulations that promise only to complicate leasing procedures and to create countless opportunities for obstructionist lawsuits. Red tape inevitably will result and precious time will be lost in bringing in new wells that already require as much as eight years lead time.

At a time when every effort should be made to increase production of our own resources, further regulation of the industry only assures our continued dependence on foreign energy sources.

More alarming, however, than the increased regulation of the oil industry, is the degree to which the Federal government with this legislation has deepened its involvement in the energy business.

One amendment the Senate adopted directs the President to conduct a continuing investigation to determine the availability of all oil and gas produced or located in the United States. Clearly, the Federal government would have vast and unprecedented powers to make assessments of energy availability anywhere in the country—on Federal lands, state-owned lands, and private lands, both on-shore and offshore.

Under this provision, the government could, if it deemed such action necessary, enter upon privately owned property, and then drill exploratory wells to determine the existence and extent of oil and gas reserves.

This and other amendments to the 1953 law raise not only the specter but the near reality of a Federal government agency which could conduct all oil and gas exploration and production in the United States.

An enormous Federal program of this nature would provide little new information on national energy reserves, despite its sponsors' claims, but would bring us much closer to the time when the Federal government will attempt to take over all private energy development in this country. The cost of such a Federal endeavor to the American taxpayer would be untold billions.

In few instances has Congress demonstrated more clearly its misunderstanding of this country's energy dilemma. Government's long history of intervention into the energy business has been a principal contributor to our growing dependence on foreign sources. We cannot expect to lessen that dependence with measures making a bad situation worse.

# THE AMATEUR HOBBO

Answer to crisis: *Run away from home!*

Run away from love to a world where hate often prevails. Run away from understanding to a city that seldom understands. Run from tomorrow's hopes into a desolate and hopeless today.

Sure, Son, there's something wrong at home—something more spiritual than physical would be our guess!

To live as a family we need *foundation*—something firm and sure—to be confident of when nothing is going our way. To live as a family we need *meaning* in our relationships; meaning that cannot be eclipsed by the emotions of the moment.

When church bells ring on Sunday morning, they are calling families to worship! Faith is the foundation of love, and understanding and hope. The teachings of Christ give deeper meaning to all relationships.

Can't guarantee you won't get a lickin' for running away. Can't guarantee you won't feel like running away again sometime.

But can guarantee this: When there's the religious foundation and meaning we're talking about, any crisis can be seen in clearer perspective... and solved more sensibly.
