

On The DIVIDE

So successful were they at slugging the apple on the diamond in the ball park Monday afternoon, to stack up a staggering score against kids from the grammar school, members of the Lions Club have decided to organize a permanent team for the duration of the spring season. They now have their eyes on Sonora and other towns for competition.

The game was interesting and attracted a large crowd. On Tuesday following the game, most of the senior players had difficulty getting out of bed and down to work. It seemed that their joints were slightly stiff and muscles—soft from long inactivity—objected painfully to this sudden change in routine.

One youth was heard to remark, "Well, the Lions would have made another score if that old bald-headed guy hadn't dropped his false teeth while sprinting to third base."

"Ripley doesn't have a thing on local talent," says Hank Bowman and Bob Whitley. It seems that one Fred Arthur Watson of the Shell Pipe Line Corporation accompanied by L. T. Wilson, local rancher, returned home from a three-day fishing trip on the Devils river with a very nice catch of fish. "There's real news in this story," says Hank. "Mr. Watson being a talented fisherman, brought home his first fish in thirty years of hard fishing experience." To substantiate his story he exhibited six handsome members of the finny tribe ranging in weight from 14 to 28 pounds.

"Of course, we believe Mr. Watson caught the biggest because he was supposed to," Hank and Bob remarked, "but past experience tells us that L. T. Wilson has never failed to bring 'em in—How 'bout it Fred?"

"Anyway they had the fish because we saw them. believe it or not," both Hank and Bob declared.

Records show the registration as follows: Passenger car tags, 600; trailer license, 61; commercial tags, 140; Farm trucks, 155.

An increase of 309 tags were sold this year compared with those sold in 1938. According to information received, only 647 tags were sold last year.

Lions Club Win Soft Ball Games

Members of the Eldorado Lions club were recovering this week from a victorious game of softball over grammar school students Monday afternoon. Accepting a challenge of the students, the business and professional men subdued their dignity long enough to recapture a few tricks of earlier days on the diamond.

It might be said that the Lions, although victorious from the point of scores, were nevertheless having some difficulty limbering up stiff joints Tuesday and Wednesday.

After winning the game with the juniors by a score of 5 to 7, Lions were challenged again by the high school students who were also outscored 23 to 11.

A large crowd attended the games and a collection of \$2.45 was realized which will be used to replenish the Boy Scout General fund.

Tax Election Will Be Held Saturday

An election to decide on a 15c special tax for the county road and bridge fund will be held Saturday, April 8. The election was ordered by the Commissioners' court at the March meeting.

"The election will be held to replenish the road and bridge fund which at present is sufficient to pay outstanding warrants," County Judge C. L. Meador pointed out.

The election will be held at the usual places, except in the Vermont community where the balloting will take place at the residence of Ed Finnigan. The school house, formerly used to hold elections, was severely damaged last year by high waters and is at present fenced off from traffic.

Five New Houses Being Built Here

Others who are building are Walter Powell, Frank Bradley, E. E. Menes and Earl Parker's home in the Keeney Addition.

WEST TEXAS RANCH TALK

BY SUNSHINE MATTHEWS

In summing up the sheepman's situation, the vice-president of a Kansas City bank says: Sheep are increasing in numbers, the census being 53, 762,000 head or an increase of 2 percent for the United States, and the total is three million head above the 1927-36 average. As of Jan. 1, there were 5 percent less lambs on full feed than in 1938 and the movement to feed lots had been late. Texas and California conditions are against heavy spring runs of fat yearlings or lambs. The consumption of mutton in 1938 was about an average, showing good demand. Wool is in a stronger position than in March, 1938. Mill consumption was heavier in November and December than any months since March, 1937. Stocks on hand Dec. 31st, were smaller than a year earlier. Imports totalled thirty-one million pounds in 1938 as against one hundred fifty million in 1937. There should be unsatisfied demand as consumption of wool in the United States was in 1938 13 percent smaller

CHILDREN TO ENJOY EGG HUNT SUN.

Several hundred children of Schleicher county will enjoy the annual Easter Egg hunt, sponsored by the Lions Club of Eldorado for the past five years, to be held here Sunday afternoon at 1:30 o'clock.

The hunt will be divided into four groups according to ages. All children under the age of 14 years are invited to participate.

A committee is at work arranging the purchase of eggs, and boxes have been placed in each grocery store and all interested in the success of the hunt are urged to donate eggs for the hunt.

At 1:30 white children will gather at the Scout building just as last year and a division will be made and each directed to hunting grounds.

Following the hunt for white children, Mexican children will be entertained with a separate hunt and immediately following theirs, the colored children will have a hunt.

15 to 20 prizes will be given to children finding prize eggs. Much enthusiasm is being shown in the hunt which has shown an increase of children participating every year, and in all probability the number will be greater this year.

Easter Snap Drops Mercury Here Wednesday

A cold wave, branded by old timers as "our Easter snap", struck West Texas late Wednesday afternoon dropping the temperature from a height of approximately 85 degrees Wednesday to 43 Thursday morning.

Rain and hail was reported in various sections of the county, but according to reports no damage was done to crops and livestock by the latter. A light hail shower preceded a rain in the Rudd community, it was reported.

The norther was swept down by a high wind which caused considerable dust in sections, hampering travel for a brief period and causing another obstacle in the spring cleaning program for local housewives.

City Accepts Water System

The Eldorado municipal water system was officially accepted at a called meeting of the city council Wednesday night, according to Mayor A. T. Wright.

The system had not been officially approved by the city awaiting final tests on the water pumping system. The official acceptance came after arrangements had been made to substitute a 20 h. p. motor for the 15 h. p. unit previously installed at the pump station, the Mayor stated.

Local Scouts Win Honors At Camporee

Eldorado scouts returned home with an excellent record from their first trip to the Ranch district Camporee held at Ozona last Friday evening and Saturday.

525 points won them second place out of a possible 600 points. A perfect record was made in tent arrangement, bed make-up, neatness, conduct, fire building and cooking. A record which received considerable praise from the Scout Executives in charge of the camp.

Fourteen scouts with L. T. Barber and M. C. Laird in charge, and W. N. Ramsey attended the camp which is the first of its kind ever attended by Eldorado scouts, and competed against more experienced and much larger boys in other troupes. The troupe will receive an A plaque the 26th of this month presented by the troupe by Mr. Ireland, Scout Executive of the Ranch District in the Concho Valley Council. A score of 500 to 600 was required to be eligible for class A.

About 125 Boy Scouts from Eldorado, Sonora, Menard, Rocksprings, Junction and Ozona attended the camporee.

Local scouts are planning and working to attend the Scout circus at San Angelo on the night of April 29.

The Scouts appreciate the help of the men who accompanied them and the following who furnished transportation; H. B. Rees, B. O. Bridgeman, L. T. Barber, and Chas. Dennis.

Lions Club To Organize Ball Club

A permanent Lions club softball team, destined to challenge Sonora and other teams during the spring season, was planned Wednesday at the regular weekly luncheon of the local club.

Approximately \$7.00 was donated by members to purchase equipment. Jerry Pennington was previously named captain of the team and he announced that workouts would be conducted several times weekly in order to get players in condition before meeting other strong teams of the area.

Last week a team composed of Lions club members played an interesting and entertaining game of ball against school students.

Easter Programs At Local Churches

Planned for the appropriate commemoration of a sacred fact of history—the resurrection of Christ—Eldorado churches have arranged various programs of Easter services to be carried out next Sunday at the respective chapels.

Brought together by a common faith and a common expectation—that a Christ who rose from the dead nineteen hundred years ago will be there in spirit with them, members of the various denominations will assemble on next Sunday.

THE TOMB OF COLUMBUS

The recent visit of American dignitaries to the Dominican Republic, in connection with the proposed erection of an immense memorial and lighthouse to the glory of Christopher Columbus, has revived the old argument over the tomb of the great navigator.

Dominicans showed their visitors the supposed cogen and remains of Columbus, which were photographed, it is said, for the first time. These are to rest in the base of the five million dollar memorial, to which various nations of the New World will contribute.

According to most authorities,

Columbus died at Valladolid, Spain, in 1506; his body being deposited in a monastery at Seville, but in 1542 removed to the cathedral of San Domingo. In 1795, when San Domingo was ceded to France, the body was transferred to the cathedral of Havana, and finally, after Spain's loss of Cuba in 1898, it was taken back to Seville, where it now reposes.

But the Dominicans deny that the discoverer's body was ever removed from their island, and assert that 1877, or 82 years after the supposed removal to Havana, a lead cogen bearing an inscription saying it contained the bones of Columbus was discovered near the altar of the San Domingo cathedral. They believe the Spaniards took the wrong coffin to Havana.

In any event, the remains now in the Dominican Republic will be given the place of honor in the new memorial. Perhaps it does not matter if the Dominicans are mistaken. What Columbus did in life is more important than the dentification of his bones.

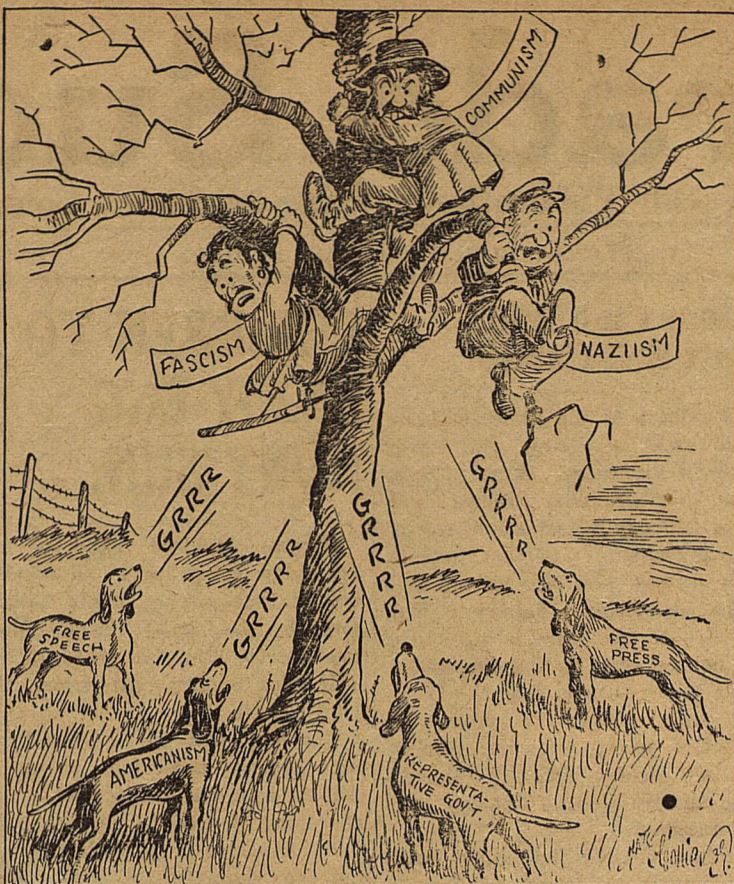

A 9-month-old fox terrier pup belonging to Mrs. Herman Klein of South Bend, Ind., disappeared in 1928. A few days ago an old dog came to her back door and scratched to be let in. Comparison of the dog's markings with snapshots of the puppy disclosed that it was her same Fido, returned after 11 years.

AUSTIN—The special interest lobby's highly-touted 'program' to freeze a \$40,000,000 sales tax constitutional amendment into the Constitution of Texas went down to overwhelming defeat in the House of Representatives this weekend, after failing to muster even a majority vote, much less the two-thirds necessary to submit it to the people. The Petsch amendment thus is dead beyond recall, unless a two-thirds majority of the House can be recruited to revive it, and that seems highly unlikely. In the Senate, another sales tax amendment met rough going, and the consensus of observers here was that there will be no sales tax written into the Constitution by this session. Thoughtful men in both houses were looking toward a plan to raise some pension money by means of an omnibus tax bill, but in both houses there was such a wide divergence of opinion that a deadlock with no tax hike at all was still regarded as a strong probability.

O'Daniel Threatens

Gov. Lee O'Daniel in his Sunday morning broadcast, largely offset the plea for harmony voiced by Lt. Gov. Coke Stevenson in the Senate Friday, when the Governor, abandoning the singing of "That Old-Fashioned Love In My Heart" sent out into the peaceful atmosphere of a gorgeous Palm Sunday morning a truculent, fighting talk that bristled with the threat that unless the citizens got behind the lobby-supported scheme of a Constitutional sales tax sponsored by the Governor, they 'will be sorry that they didn't.' O'Daniel, whipped and sore, left off the hill-billy music and the sticky songs, and 'poured it on' opponents of his tax scheme. Then he became Lawyer O'Daniel, and quoted a section of the pension act passed by the 45th Legislature, placing a ceiling of \$30 a month from State and Federal sources for pensioners, and tried to prove this law was the same as his '\$30 total income for everybody' plan. His speech was regarded by listeners as unlikely to compose the divergent opinions in either house, and its immediate reaction was unfavorable in both Houses.

Meanwhile, the sales tax is so unpopular in both branches, that many observers here do not believe that even a bare majority could be mustered to pass it as a simple statute. Although the Weinert constitutional amendment was still pending in the Senate, it has been so butchered by amendments that even its author asked the Senate to kill it, and disclaimed further responsibility for it.

Oil Row Threatened

Of intense interest to all oil-producing areas in Texas this week was a strong indication that disruption of the industry might grow out of an apparent alliance between Lon Smith, commission chairman, and Jerry Sadler, new commissioner. The pair 'got together' and issued a proration order abolishing Saturday shut-downs for April and dastically hiking allowables in the Panhandle, North Texas, and East Texas fields, and slashing production by thousands of barrels in West Texas, Southwest Texas and the Gulf coast area. Total allowable was kept well within the Bureau of Mines estimate. Austin was full of talk, in the wake of the order, of a possible court attack upon the order.

Ernest O. Thompson, the Commissioner whose expert knowledge of the oil business as well as whose legal knowledge, has been the guiding force on the Commission for the past three years, with the result that the industry has been brought out of a chaotic condition and kept on a profitable, even keel, was not consulted by his colleagues in writing the order. No oil order written by Thompson has been successfully attacked in court in years, and he enjoys the confidence of every lawful element of the industry. If Sadler and Smith have decided to 'take over' regulation of the industry, many oil men feel that a reversal of policy which may disrupt allbusiness in Texas, and bring on another seige of turmoil and court battles, may be in the making. Smith, facing re-election in 1940, has bitterly opposed Thompson, who with the support of Terrell, defeated last August by Sadler, held the balance of power in directing the Commission's proration policies.

Names And News

Another effort to obtain an investigation of the Prison system by a committee on which 'business men' will be represented, as well as the Legislature, was started in the House this week, after veto of an investigation by a legislative committee by Gov. O'Daniel, and the veto was upheld in the House. Rep. J. Ed Winfree, of Houston, who passionately contends the prison system is in need of a 'cleanup,' argues that a fair investigation cannot be obtained unless outsiders are on the probing body. . . . Argument over the social security tax raising program has built a log-jam, behind which is banked a flood of legislation, including much that is meritorious. Awaiting action are bills providing for control of venereal diseases, renewal of drivers' licenses, permitting the Public

Safety Department to lift the truck load limit in emergencies, to move perishable crops, such as Valley citrus, and numerous others. . . . Death in Dallas last week of Former Chief Justice Nelson Phillips of the State Supreme Court, removed one of the State's most brilliant legal minds from the current picture. . . . Jim Goodman, House member from Midland, has organized a strong bloc of House opposition to the so-called County Judges Bond Bill, which would force gasoline taxpayers of the State to take over nearly \$200,000,000 worth of 'dead horse' county lateral road bonds, in order to obtain some small relief for ad valorem property tax payers. The bill is sponsored in the Senate by Sen. Will Pace, of Tyler. Smith county, under its terms, would receive \$433,350 of ad valorem tax relief, and gasoline tax payers of that county would have to put nearly three times that sum into the pot to retire the bonds of other counties. . . . Quick conformation of Jim West, Houston oil magnate, as Chairman of the State Highway Commission, was expected this week by the Senate. West was praised as an able and successful businessman by most of the group of East Texas Senators, whose opposition blocked appointment of Carr P. Collins of Dallas, and J. C. Hunter of Abilene, to the Highway post. Lobby gossip that West was a contributor to Alf Landon's presidential campaign (because of anti-new deal sentiment), and that the bathroom fixtures in his Houston home 'cost over \$20,000' appar-

"Common Cold" A Problem Of Every Home

"A cold, even though common, is not a trivial matter and must not be neglected," according to a report given by the Woman's National Institute on "The Common Cold."

The report stated that "Everyone should be particularly watchful regarding colds because of the epidemic of influenza spreading throughout the country. Every woman should recognize that it is necessary and desirable that every effort be made to increase the body resistance of all those under her care and if a cold persists and a temperature is noted a physician should be called."

The "Common Cold" is our most wide-spread disease, the cause of more disability and a greater number of absences from school and business than any other illness, and in many cases the forerunner of more dangerous secondary diseases.

To avoid colds eat simple foods, drink plenty of water, exercise regularly, get plenty of rest and sleep, and avoid wet feet, unaccustomed exposures, over eating and over-fatigue. If a cold is developed, take due care and avoid exposure to wetness, cold and drafts, and rest as much as possible, preferably in bed.

METHODIST CHURCH

"He is not here, but is risen"—Luce 24:5.

The Sabbath came and went over the grave of its Lord, and silence reigned in Joseph's garden, broken only by the mailed sentinels, who laughed and chatted by the sealed sepulchre.

Death and the grave are our foes. The brave darkly gapes at our feet every step of life's journey. But Christ our federal representative is our conjurer. Jesus met death in death's own territory. He went with the Pale Monarch to the silent darkness of the tomb, but it was to kindle the star of the resurrection in its murky vaults, to cement the past to the future and pledge Omnipotence for a reunion. He plucked the sting from death, took his keys, broke his crown, chained the monster to His chariot wheels, and mounted aloft to heaven a Conqueror. The keys of the grave are in higher hands—"He is not here, but is risen."

Thanks to all who have given service in the Pre-Easter meeting. God has blessed and saved souls in the meeting, for which we are indeed thankful.

Drive Safely. Save a life.

Headache, Bad Breath Tell of More to Come

Just as Paul Revere's famous ride warned of the Redcoats' coming, so Nature's messengers—headaches, biliousness, bad breath—often warn of faulty elimination.

Neglecting these signs may cause a host of constipation's discomforts: sour stomach, belching; no appetite or energy; mental dullness.

It's so easy to wake up your lazy insides. Just take spicy, all vegetable BLACK-DRAUGHT. Its unusual help comes from its principal ingredient—an intestinal tonic-laxative which imparts tone to lazy bowel muscles.

Millions of packages used testify to BLACK-DRAUGHT'S merit. Try it

Members of the First Baptist Brotherhood discussed 'The Layman and His Pastor' when they met at the church Monday night.

Interesting points were brought out of how laymen can help the pastor and how pastors can help laymen. T. D. Riddle, committee chairman, had charge of the discussion and Hollis McCormick, president, presided over the meeting. W. N. Ramsey had charge of refreshments served after the program.

The next regular Bible study will be given at the church April 17.

Program On Nature Given Country Woman's Club

Members of the Country Woman's club held their regular meeting in the home of Mrs. Marion Wade Wednesday afternoon.

The program, 'How to See and Hear Beauty in Nature,' was given by Mrs. Richard Cheatham to classify all created things into three groups nature, man, and art. As nature controls everything man enjoys the world through his five senses, touch, taste, smell, sight and hearing. The blue skies and floating white clouds, the tents of green shrubs growing are a few things nature holds for man to enjoy. There are so many rhythmic patterns from the songs of birds, the falling of leaves, and sea shells that the painter, poet, and musician enjoy what God has created, were things brought out in her interesting talk.

Refreshments of cake and lemonade were served to six members.

Mrs. Reynolds Hostess To Club

**ONE THING
And
THEN ANOTHER**
By Fred Gipson

SAN ANGELO—It was late evening. The day's work was done. It was time to go home. But he didn't want to go home. He was lonely here on the street. At home, a hotel room, with only its four walls, bed, desk and chair for companionship—well, that would be unbearable.

Returned to stroll down the sidewalk. And there she was! A little queen of a woman, all loaded down with bundles, coming to meet him!

He liked her sure, resolute tread of her trim little feet. Every stitch of her clothing, in no way lavish, showed taste. The spring and grace of movement of her well rounded body showed breeding and youth and vitality. A foolish little hat could in no way detract from the beauty of her dark hair that shone, even in the half-light of late evening. Her lips were full, friendly, inviting. Her eyes—

She raised her eyes to his as she walked past. And for a fleeting moment he was sure they were radiant, radiant as if with joy at the sight of him. He was also sure that there was a slight intake of her breath, like one does when he's first set eyes on what he's long searched for. There was a perceptible pause in her stride.

Looking into her eyes, he wanted to say: 'Hello, Lady!

Always afterwards, he liked to think that she would have wanted to say in return: 'Hello, Man!

But a strange man doesn't say 'Hello, Lady! to a strange woman of her sort in the late evening on a city street corner. Nor could he approve of her sort giving answer to such a greeting under such circumstances. Such things are just not done in conventionalized society.

He dropped his eyes as he walked past. She dropped her eyes and continued on her way.

At the street corner he turned to glance back at her. She had paused at a corner to glance back in his direction.

Then, as if guilty of some major crime, she turned and darted around the corner and was gone. She was a lady.

He walked on back home, a hotel room, with only its four walls,

bed, desk, and chair for companionship.

As a boy, he dreamed always of that day when he would become a man, self-sufficient and able to travel in the far countries, see the strange peoples, their strange manners and ways of living, see the beauties of nature in every part of the globe and the curious creatures with which nature had inhabited it.

But his father was a big business man and kept urging that his son carry on the business after him.

So when he became a man, rather than hurt his father's feelings, he took over the business. And he worked day after day, week after week, year after year. And the business prospered. But always, back in his mind was the promise to what he'd treat himself to some day.

The father died. It was a relief to the son, though, of course, he never would have admitted it, even to himself. For he loved his father like any son loves his father.

He started making arrangements to close out the business and start on his travels. But a storm of protest arose from the stockholders of the company and from his business associates. Who else could handle the company and from his business associates. Who else could handle the business successfully? Was he so callous as to leave them in a lurch, right when business was at its worst? It would be ruination for every one of them, starvation, maybe, for the company employees!

So he stayed to help out his friends and dependants. And the years came on, while he dreamed of his travels.

Then, suddenly, he was old, and the stockholders felt that new blood at the head of the business would strengthen it.

He sighed with relief. At last he could travel.

But his physician would not permit it. 'Your health' he said, 'it won't stand it. You must take it easy for awhile.'

He took it easy for awhile, the trips he would take when his health would permit. He studied tourist folders. He studied maps. He read of the places he would visit. He planned where he would go first and what he would do there. He laid out his whole trip, one that would require years to make.

Then one day he died.

Man, with all the conventions and responsibilities with which he burdens himself, is undoubtedly the most foolish creature that ever left his footprints in the sands of time.

And the most wretched.

Gus Johnson, an insurance agent of Baldwin, Park, Calif., argued with Dave Phillips in an effort to sell him a policy. 'An accident may happen any minute,' declared Johnson. Immediately Phillips fell to the ground, wounded by a bullet which ricocheted when a neighbor shot at a gopher.

Matthew Ury of New York sold a quantity of electric batteries to the city, which appeared all right to an inspector until it was noticed that an attempt had been made to obliterate the legend 'Made in Germany.' Judge J. C. Knox fined Ury \$1,500.

Asserting that his name was often embarrassing to him, Frank O. Goos of Omaha petitioned the district court to allow him to change it to Goss. Oddly enough, his attorney was Margaret Goos, who made no complaint of being embarrassed by the name.

Mrs. Sara Cornett of Dallas, Texas, who won a pipe smoking contest at the Texas Centennial at the age of 110, died suddenly a few days ago, as friends were preparing to give her a party in honor of her 112th birthday.

J. T. Ratliff and John McWhorter spent last week end on Mrs. Frankie Thompson's ranch near Christoval.

RANCH TALK

One of the next things in line for the 4-H and FFA boys of West Texas, Pete Gulley of the firm of Gulley & Sons, Angora breeders of Uvalde, believes, is a breeding stock show and sale to be held during the selling season. Mr. Gulley feels that such a sale would encourage the young feeders to choose breeding stock as their club projects. His idea is that the youngsters show the stock at the spring shows and then hold them in good condition for a sale when the season is right for breeding stock.

Jess Koy of Eldorado tried a new method of putting up meat last year and has recently tried a part of the meat. The meat was cured and then left immersed in a container of cottonseed oil. He said the flavor was perfect.

While most of West Texas is worrying over a short lamb crop, Mr. Koy marked up a 90 percent total. He says there has been some loss in his section through milk colic.

Burts Johnson of Brady bought two loads of short aged yearlings the last of the week from Ben Meckel of Sonora.

Martin de Moya, the South American who has been touring the livestock country of the state, purchased a car of registered heifers and bulls at the Grook Hereford Ranch at Brady. Jamie Brook recently sold two lots of stock to two Louisiana stockmen, one of 13 bulls and another of 10 bulls and several registered cows.

Production of wool in Coleman County is around two and a quarter million pounds, Theo Griffis, vice-president and cashier of the Coleman County National Bank, said. Approximately 10 percent of the new clip has been sold, he said, most of it going to Eisenmann, Inc. Griffis operates warehouse at Coleman. All of the county clip of mohair, about 20,000 pounds, was purchased by the Stallings warehouse at Lometa, Griffis said.

Ben Cusenbary of Sonora sold a small string of short age yearlings at 8 and 9 cents a pound to D. D. McMillan and Sons of Mason. The calves weighted 500 pounds and were delivered the last of the week.

B. Ligon has resigned his place with the Predatory Animal Control Board and will return to Ft. Stockton to operate his ranch. He has been succeeded by James E. Poore, who has been with the board since 1930. Ligon, who has worked with the predatory animal unit for around 15 years, owns a ranch at Stockton adjoining that of his brother, Lloyd. The two ranches were operated for years under the name Ligon Brothers, but the interests have been divided for some time.

Sam Gray, vice-president of the First Coleman National Bank at Coleman, estimates that there were between 10,000 and 15,000 head of sheep in the county ten years ago as compared with the 200,000 to 275,000 head there at present.

Organizations of the Southwest Rodeo Association will be completed at a meeting of 20 or more rodeo association at Colorado on April 9.

The second annual Llano rodeo will be held during the month of June, according to Clinton Mard-in of Willow City, director and manager, with definite dates to be set later. Llano's first rodeo last summer official opened the new lighted stadium at the high school.

One of the latest of the several new wool warehouses opening this year is the Santa Anna Wool Association, Inc., at Santa Anna, a grower-owned-and controlled unit, according to Dewey L. Pieratt, cashier of the Santa Anna National and secretary-treasurer of

the new firm. Of the 96 stockholders is the association, 90 percent are sheepmen, Mr. Pieratt said.

The new association will not buy wool, but will serve as a warehouse only. Wool will be sold through a sales committee, composed of Tom Stewardson, J. R. Pierce, W. T. Stewardson, and J. W. Barnes.

J. W. Vance has been named president of the firm, Tom Stewardson is vice-president, and Pieratt is secretary-treasurer. The site of the old glass plant was purchased by the group and a new warehouse is being constructed. The house is expected to be ready for business by shearing season.

A uniformly light lamb crop is being reported from various sections of the ranch country, with the following estimates having been made; Coleman 50-55 percent, Winters and Ballinger, 50-55; Del Rio, 55; Uvalde, 65, Brady 60; Sonora, 60-2, and Ozona, 63

Among the numerous famous European refugees now in the United States is Dr. Heinrich Breuning, former chancellor in 1932. He has been appointed a professor of government in the graduate school of Yale University.

John T. Scopes, who came into national prominence in 1925 as the defendant in the famous 'monkey trial' at Dayton, Tenn., in which he was charged with the unlawful teaching of the theory of evolution, now lives in Houston, Texas, where he is a geologist with a big gas company.

"Feeding the Poultry" was the program for the afternoon given by Mrs. Dickens. A sweet course was served following a ten minute recreational period.

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will invite you to dances and parties. BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls along who are full of pep. So in case you need a good general system tonic, remember for 3 generations one woman has told another how to go "smiling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders. You'll find Pinkham's Compound WELL WORTH TRYING!

Headachy, Breath Bad? Make This Check-Up

The Police Siren means "Look-out!" And so do Nature's signals—headaches, biliousness, bad breath, which are often symptoms of constipation. Don't neglect your sluggish bowels, for a host of constipation's other discomforts may result: such as, sour stomach, loss of appetite or energy, mental dullness.

Help your lazy bowels with spicy, all vegetable BLACK-DRAUGHT. Acts gently, promptly, thoroughly by simple directions.

BLACK-DRAUGHT'S principal ingredient is an "intestinal tonic laxative." It helps impart tone to lazy bowel muscles. Next time try this time-tested product!

Mrs. Rutha Boyer is feeling some better after falling and spraining her back last week. Mrs. Boyer has been confined to her bed the last week.

Mrs. D. E. DeLong, Mrs. C. L. Meador, Mrs. Lawrence Steen and Mary Jess Koy went to Austin last week end to attend the annual round up at the university.

Mrs. Claude Alexander is visiting her parents, Mr. and Mrs. John Clark of Blanco.

Mrs. Harold Wells of Kerrville is visiting her Mother, Mrs. Archer and sister Mrs. Gordie Aleander.

HELP STOMACH DIGEST FOOD
Without Laxatives—and You'll Eat Everything from Soup to Nuts

The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or chew poorly—your stomach often pours out too much fluid. Your food doesn't digest and you have gas, heartburn, nausea, pain or sour stomach. You feel sour, sick and upset all over. Doctors say never take a laxative for stomach pain. It is dangerous and foolish. It takes those little black tablets called Bell-ans for indigestion to make the excess stomach fluids harmless, relieve distress in no time and put you back on your feet. Relief is so quick it is amazing and one 25c package proves it. Ask for Bell-ans for Indigestion.
