

On The Divide

Practically leaving a customer waiting at the bank window, Mayor Leslie L. Baker rushed out to see the new fire truck Wednesday afternoon when told the machine had arrived. It took some time to quiet his nerves and get back to the regular routine, after finding that the fire truck had arrived all right, but it was only a miniature affair Jerry Pennington had ordered for his young son.

The Mayor didn't leave the bright shiny truck, however, until he had inspected the ladders, rung the bell and examined its various features.

Eldorado football fans suffered a defeat last Friday, it seems, although the team was victorious. It was the first score that had been chalked up against the local lads since the conference tilts began.

Just as Joe Louis will learn, one of these days, they don't make 'em that can't loose. Let's just hope that our boys are on the big end of the score and give the team our moral support

Eldorado 7—Junction 6. Although defeated by a one-point margin, the Junction Eagles won a victory in holding what was supposed to be a tough aggregation of football paylers from Eldorado last Friday afternoon at Junction. The high flying Eagles from the divide were very lucky indeed, to come from behind and win in the latter part of the game. This column has handed a few bouquets around to the players but it seemed that this has been a bad omen. The flowers were placed on the chests of the footballers and during that time some beautiful bluebirds came along and began nesting among the flowers. This combination of bouquets and bluebirds came very near upsetting what we thought to be a strong football team that could at least defeat a team that has scored only one touchdown against all classes of opponents.

The writer did not see this game and can not put a finger on any particular weakness but after watching the practices and several of the games, it is beyond doubt that there was some soldering on the job. Some one was not putting out. Any player not wanting to do his best all the time would do the team, himself and the coach a great favor by not even trying to play. A football team, like a chain, is no stronger than the weakest link. No player can ruin any play. Things have not changed a bit. You can not win games on records or past performances. The word "boo" does not scare the opponents any longer. They have the same ideas about the game and know that you are human and put your pants on one leg at a time. They may think you are tough but know that you can't eat 'em.

Rocksprings will be over on Armistice day gunning harder than the Junction team. They have a chance at the district and it would be a good idea for the Eagles to forget the past games (Continued on inside page)

Hallowe'en Leaves City Windows Clean; Some Damage

Local citizens who might have slept through the annual gaiety of Halloween Tuesday night, could easily have recognized the fact that something had hit the town as local business men, bucket and mop in hand, were busy cleaning the windows of wierd drawings and illegible writing, early Wednesday morning. Some of the spectators remarked that display windows along Main street were cleanest they had been in a year, after the cleaning process had been completed.

Streets were filled with all kinds of decorated and styled spooks as younger boys and girls romped and yelled on this night of nights for fun.

A few Eldoradoans, excessively infested with the spirits of Hallowe'en, varied from the city's usual record of fun without damage to property, and Wednesday morning were looked upon with disgust by those who prefer to enjoy the annual gaiety in a less destructive manner.

For the most part, youths who roamed the town during the early part of the night, disrupted the usual uniformity of things, but were careful not to inflict serious damage to property. But, somewhere in the crowd were a few who were less thoughtful.

As property owners took inventory Wednesday morning, to their surprise, it was found that in one instance axes were apparently used to burst up property, valued at more than \$25, paint on cars was severely damaged and other property destroyed. The record of Hallowe'en pranks in Eldorado had never before been marred by such actions.

The manager believes that the Chevrolet will meet with the approval of the people of Eldorado. Showroom of the Moser company is now open to visitors, he states.

WATERFELLOWS ARE STILL GOOD HERE

A watermelon weighing 20 pounds and as good as they grow was taken from a vine in the backyard of Mr. and Mrs. Wiley Ratliff this week.

"The vine came up and I just let her grow," Mrs. Ratliff stated. Mrs. Frankie Thompson from her ranch near Christoval, visited Mrs. Ratliff Tuesday and the two ate a part of the melon. She said it was one of the best she had eaten. She remarked some time ago that she was afraid it would get too cold before it ripened.

Mr. and Mrs. Lefty Haynes and Mrs. Taylor of Fredricksburg visited Mr. and Mrs. R. A. Evans last week end. Mrs. Hayes is a daughter of Mr. and Mrs. Evans.

Box Supper Is Being Planned By Lions Club

An old-time box supper is now being planned by the Eldorado Lions club and a tentative date has been set as Friday, November 10. R. L. Sample is chairman of a committee in charge of arrangements.

This box supper is going to be one of those old-time affairs where a cowboy will spend his entire month's salary bidding against some city slicker in order to eat cake with his favorite girl," Mr. Sample stated this week.

Complete details of the event were not mentioned, but enough information leaked out, to class the approaching affair as "entertainment."

Poultry Show To Be here Saturday

This committee will be present this evening to receive chickens that are brought in. Miss Stewart announced that coops will be provided for exhibits.

To the chant of Nelson Johnson, 42 fat lambs were sold on the auction block last Saturday afternoon and after dust from the correll had cleared away, a total of \$480.00 were counted up to replenish the treasury of the Eldorado Parent-Teacher Association. Lambs sold were donated by ranchmen of the county. The money will be used to purchase playground equipment and a piano, it was announced by Mrs. J. W. Lawhon, president.

The sale was not only profitable but highly entertaining. Spectators who are never able to keep from scratching their heads when present at an auction, bought themselves a sheep before they were aware of the fact. Many who purchased sheep, immediately donated them back to be resold.

Mrs. Lawhon, Mr. Lawhon, El Hill and Jess Koy included the committee that arranged for the auction. It was such a success that it was decided to make the event an annual affair.

Results of the auction follow, with the description of the sheep, contributor, buyer and total: Registered ewe lamb, Ed Ratliff, Eldorado Wool Co., \$20; Registered ewe lamb, John Williams, First National Bank of Eldorado, at \$20; fat lamb, W. THE SUCKER LIST

Methodical dealers and salesmen keep a list of prospective customers upon whom they bring to bear from time to time their most persuasive selling arguments. The plan has been proved of value, as better results are obtained through intensive soliciting of a selected list of prospects than through random efforts.

But it is not only those engaged in legitimate business who thus seek to simplify their salesmanship by concentrating upon those most likely to buy. Promoters of wildcat ventures also select their prospective victims with extreme care, although many of their lists run to large figures.

The National Better Business Bureau declared that one New York promoter has a list of 600,000 names of persons who are known to be easy victims for swindling schemers. Such a com-

pilation of names is known as a "sucker list." Advertising literature holding out the most glowing opportunities for profitable investments is sent regularly to those who have been found gullible enough to bite at such bait. A good sucker list is a veritable gold mine for the unscrupulous promoter.

If one receives frequent letters or circulars offering amazing inducements to purchase oil, mining or other stocks he may be sure that is listed among the "easy marks", whose credulity yields millions of dollars to swindlers every year.

A PREHISTORIC MONSTER

After being buried for ages in the fossil beds of northeastern Utah, the largest skeleton ever discovered on land now stands in the Carnegie Museum at Pittsburgh, a striking example of the monsters which roamed the earth during the Age of Reptiles, many millions of years ago.

This skeleton is that of a Bronosaurus, of the dinosaur order of reptiles, 100 feet long and 20 feet high. In life the animal weighed perhaps 20 tons. Alongside of it an elephant would seem as small relatively as a dog beside a horse. The fossil bed from which it was taken is the most extensive deposit of dinosaurian and other reptilian remains ever discovered. It was found in 1919, and the site is under the protection of the National Park Service. More than 200 tons of bones and other remains of scientific value have been removed for study and exhibition, with very little duplication of specimens.

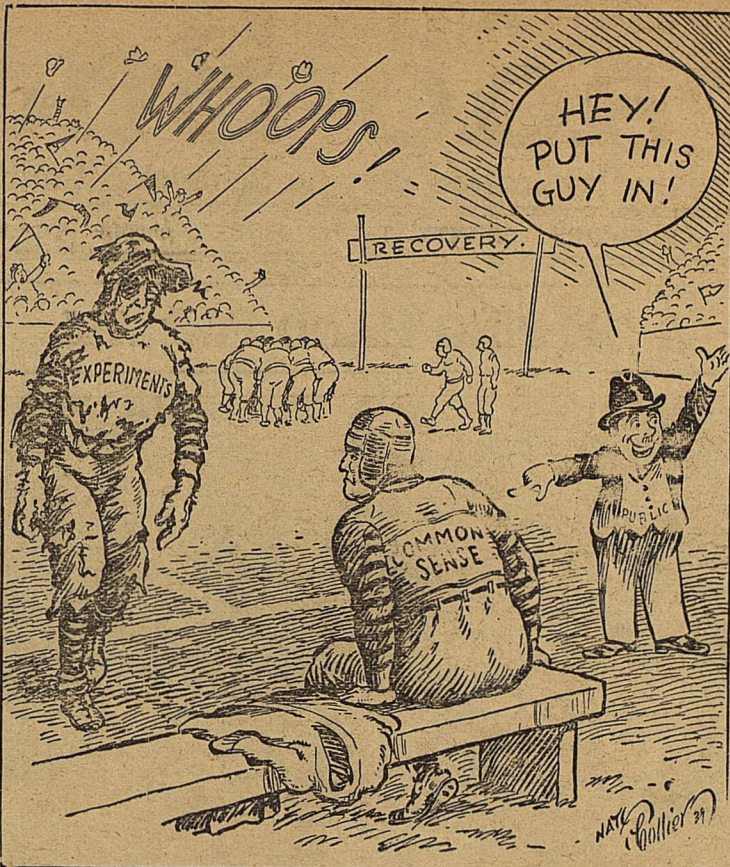

According to a statement by the Park Service, it is the belief of scientists that these prehistoric animals were originally imbedded in a sand bar in some ancient river. This sand turned to sandstone and was covered by thousands of feet of other strata of rocks, the whole later having been forced into an upright position by a great volcanic upheaval, which left the fossil bed exposed on a mountain top.

Through the patient labors of scientist who are continually exploring through such records preserved in the rocks, as well as among the ruins of ancient civilization, salient facts in the world's history which were totally unknown a few years ago are being brought to light.

Under a contract made nearly 200 years ago, one red rose was recently paid to a descendant of William Penn as rental for a piece of property now occupied by the Red Rose Inn, near West Grove, Pa. The symbolic rental, paid annually, was received this year by Philip Penn-Gaskell Hall, a ninth-generation descendent of Pennsylvania's founder.

YEAH! MAN!

Nobody's Business

By Julian C. Capers

AUSTIN—The Supreme Court of Texas will have an opportunity to pass upon the ruling of Attorney General Gerald Mann, declaring the state tax remission bill, giving away one half the State's advalorem tax revenue to the counties for a five year period, unconstitutional. Dallas County officials, counting upon the State money in making a budget for 1940, and with overdraft of over \$800,000 in the general fund of the county, have arranged with Dallas lawyers to bring a friendly test suit, seeking to enjoin the county from creating any indebtedness based upon this item in their budget. They will endeavor to get county officials of other counties to join them as intervenors in the suit. The play is to obtain an injunction in district court, take a quick appeal to the Fifth Court of Civil Appeals in Dallas, ask the latter court to certify the questions, and go direct to the Supreme Court, getting a decision soon after the first of the year. Best legal opinion is that Mann's ruling will be upheld by the highest court.

Flowers Appointed

M. O. Llowers, of Lokhart, who has had some 18 years professional experience in politics, as county judge of Caldwell County, and as a regent of the Teachers' Colleges, is the new Secretary of State, named by Gov. O'Daniel to succeed judge Tom Beachamp, who moved up to the Court of Criminal Appeals last week.

Alsop In Warpath

Rep. Lonnie Alsop, blind veteran House member from Panola County, this week "demanded" the resignation of Adam R. Johnson, director of the public welfare department. Alsop, House sponsor of the bill creating the Welfare Board, objects to Johnson's retaining efficient members of the Pension administration, declaring it was the "intent of the Legislature" to "Clean out" the pension employes under the new setup. He also complained Johnson has not carried out the intent of the liberalization of the pension act, by adding some 40,000 eligibles to the rolls. Johnson declared Alsop sought a job as personnel director of the Welfare Board, but didn't get the job. He pointed out, as has previously been related in this column, that reinvestigation of the 120,000 now on the pension rolls must be carried out promptly, or the State will lose federal pension aid, and that the addition of 40,000 pensioners now would cut average pension checks from \$8.25 to \$3 or 4\$.

Need New Law

This incident, and another this

week, focussed attention of some officials on the need for a new law which would prevent members of the Legislature from being given jobs with State departments, during the period for which they are elected to the Legislature. The Constitution prohibits a Legislator being appointed to State office and under the rulings of Attorney General Mann, no such appointments have been made, although the constitutional provision has frequently been ignored by Gov. Allred and others in the past. But there is nothing in the law or the constitution to prevent a Legislator showing great zeal in behalf of some department through a session, and then, when the session is over, resigning from the Legislature to accept a fat-paying job from the department he sponsored.

Rep. W. N. Corry, of Tarrant County, ran into trouble when Attorney General Mann held that once a Legislator resigns, he has done so "for keeps" and can't take it back. Corry quit to take a job as assistant director of the Old Age Assistance Commission on July 5. A couple of months later, the pension setup was taken over by the new Welfare Board, and Corry was fired by the new director. Then Corry sought to withdraw his resignation, and resume his seat in the House, but Mann held this was illegal.

Rail Race Looms

Hottest competition in next year's election, outside the Governor's race, is expected to be for the post of Railroad Commissioner, now held by Lon Smith. Smith will have as opponents, according to reports here, at least three strong candidates, including Roy Hoffheinz, county judge of Harris County; Bill McCraw, ex-attorney general; and P. Pierce Brooks, of Dallas, who gave Lt. Gov. Coke Stevenson a real scare in the runoff last year for Lieutenant Gov.

The Juniors met their first defeat in three games Tuesday afternoon at Ozona. The main bunch did not get to play as the weight was in the 110 pound class and about four or five of the regulars were a bit overweight. It was a good game all the way. The main trouble was in shoeing off the little Jack Rabbit halfback, W. F. Edmiston. He had been playing barefooted and cutting many capers, but shod, he could not get going and was very disappointed in himself. We have been unable to find any rule to the effect that a boy has to play in shoes, but this was a rule at least Tuesday and the Eaglets had to play accordingly. The Ozona team was a well balanced team many way and played well together. Ahe Eldorado boys, according to the weight chart had to juggle their men around having boys playing positions they were not used to and quite a few plays went screwy from this reason. Coach Reynolds is doing some good work with the boys and most of the time their

Photographer Visits Humble Football Broadcast to Show How It's Done

Pictures taken in the Humble Oil & Refining Company broadcasting booth at the T. C. U.-Texas A. & M. football game show how football games are put on the air. Top left is Engineer Harvey Wheeler at the dials of an amplifier (spare equipment at his left); here he picks up the announcer's voice, band music, cheers, etc., and blends them for feeding into

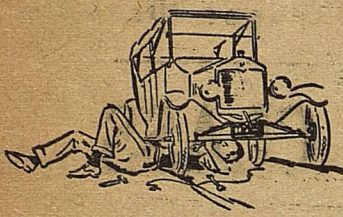

telephone lines which carry the broadcast to different radio stations.

Center panel looks down on announcers at work. Kern Tips is second from bottom, flanked on his left by Virgil (Brahma) Jones, A. & M. spotter, and on his right by Arthur Moseley, who identifies T. C. U.

players. Beyond Moseley sits Harfield Weedon, color announcer, who also keeps statistics on the game.

Equipment in front of Tips and spotters is known as a grid-graph. Names on spotters' instruments duplicate names on larger instrument before Tips; spotters press buttons to identify players and lights beside names on Tips' instrument are flashed on. Identification is thus prompt and accurate.

Bottom picture shows parabolic microphone used on field, here operated by Engineer Fred DeBartalan. The large disc collects band music and cheers and feeds them into the microphone shown in the center. The head-phones connect DeBartalan with the broadcasting booth. On the afternoon these pictures were made, the Humble Company broadcast four football games; similar equipment and broadcast crews were used at all of them.

plays have been carried out to almost perfection.

The Eldorado fans have a worried look on their faces since last week. They have not been able to figure the 7-6 score out. They think the team is slipping. It looks like it might be just this but we believe that the boys are capable of doing much better and believe they will be tougher from here on out. We hope so, with our fingers crossed.

Looking over the Rocksprings boys last Monday against Menard, we saw a fairly rugged bunch. You could almost see them looking out ahead, pointing to November 11. They defeated Menard 7-0 but this does not mean they are not strong. Menard was much stronger than earlier in the season.

Figure This Out:

Taking scores for comparison on football games, we will give you one here and let you figure the outcome of the Armistice game with Rocksprings. Earlier in the season Rocksprings defeated Mason 14-7. Sonora defeated Rocksprings 13-0. Mason defeated Sonora 20-0. Mason defeated Junction 27-0. Eldorado defeated Mason 13-0. Defeated Junction 7-6, and Sonora 19-0. Sonora defeated Junction 14-0. Please figure the point advantage in this game on the 11th.

The Southwest conference really gets under way this week in their annual cut throat affair. TCU tangles with Baylor at Waco. The Frogs are due to start clicking. They have only won one game so far but we can't see them increasing their winning space next Saturday. A&M journeys to Arkansas and should powerhouse her way over another victim of the Southwest conference. The game of the week will be at Dallas, when the Texas University Longhorns invade the haunts of the Methodist Mustangs. Led by one of the fastest and at times almost goofiest running backs the conference has

tried to stop, Jack Crain will be in the hair of Coach Matty Bell from start to finish. As long as he is in the game two touchdowns is a very small margin. We predict him to do lots of running but think that the Mustangs will do more scoring in this red hot affair. Rice will journey to New York to face the Fordham Rams. They will have nice journey and see plenty of sights even on the football field. We hope the Owls can take 'em but would have to take the New Yorkers for our guess.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending October 28, 1939, were 23, 73 as compared with 25,192 for the same week in 1938. Received from connections were 6,619 as compared with 6,969 for the same in 1938. The total cars moved were 30,292, as compared with 32,161 for the same week in 1938. The Santa Fe handled a total of 31,188 cars during the preceding week of this year.

ODDS and ENDS

That lovely antique bedroom furniture Mrs. A. J. Roach has been all atwitter over has arrived. It is really something to twitter over, we must say.

Talk about diligence, "Tinsy" Spurgers, that wee brown eyed daughter of Mr. and Mrs. R. C. Spurgers, collected almost 15,000 Dr. Pepper caps in a contest put on by the company. She won a dandy new bicycle as second prize and can already ride it without touching the handlebars.

Myrta Bob and Emlie Ann, those two charming little daughters of Mr. and Mrs. S. D. Harper, were wearing their hair in pig tails again this week, and in place of bows on the ends, they wore clips with their names carved in wood.

Vest-buttons were flying everywhere this week for Lawrence Steen's chest was greatly expanded, and rightly so over the young and handsome heartbreaker who will call him daddy now and he goes by the monicker of David Everett.

Hugh D. Craig of Lubbock visited in Eldorado with reatives this week.

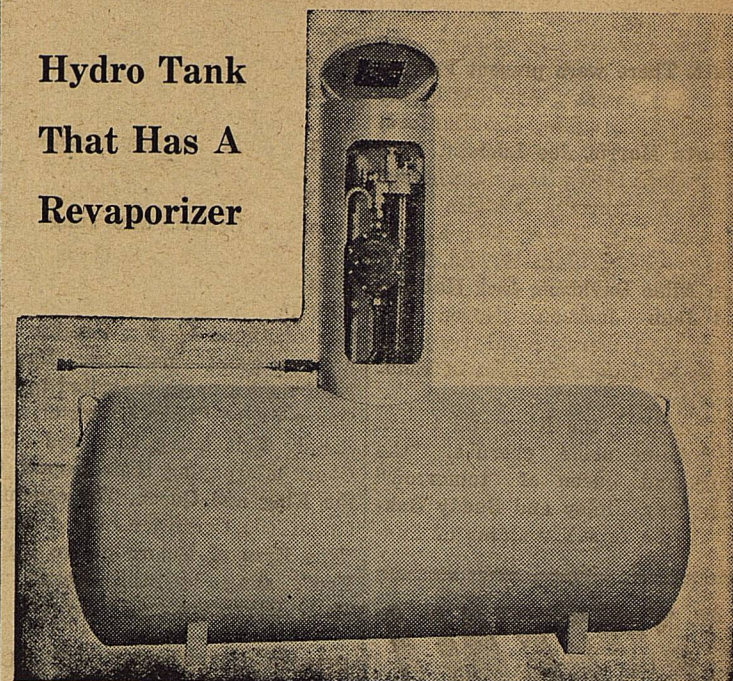

Jim Tom Roach returned home Tuesday from figure 3 ranch near Menard where he has been working a few weeks.

Protect Your Home with Electric Light

A 25-watt bulb burns 8 hours

for **1¢** and gives

2,144 Times More Light than a Penny Box of Matches*

WHY TAKE CHANCES with matches when Electric Service is *cheaper and safer*? Remember that it is dangerous to strike matches to light dark places such as closets, stairways, or basements where it might cause explosions by igniting trapped gases. A small bulb gives better light—costs less.

Remember that "The Electric Way Is the Safest Way to Live." It also is the most economical way and the most comfortable way. You can safely depend on Electric Service for Light, Cooking, Refrigeration and the many odd jobs around the home. The average daily cost is LESS than the tax on two packages of Cigarettes!

The full horror of Fire resulting from matches frequently is related in the daily press. In the interest of safety, use Electric Service to dispense with unnecessary fire hazards.

West Texas Utilities Company

The Electrical Way Is the Most Centsible Way to Live

*A penny box of matches averages about 43 to the box. Each match burns approximately 22 seconds—a total of 15 minutes. Each gives one foot-candle of light—a total of 15.

In comparison to a match, a 25-watt light bulb gives 67 foot-candles of light—and burns a total of 8 hours for only 1 cent. On this basis, the 25-watt bulb gives 2,144 times more light for a penny than a penny box of matches.

Light Costs Little!

...and it makes JOBS for this company's 1,000 employees in West Texas, whose annual payroll is \$1,300,000. Your Electric Servant also pays an annual tax bill of nearly a half million dollars.

Elouise Watson Crowned Queen At School Affair

Her Royal Highness, the queen was presented and crowned with all pomp and splendor before her King, Court, and Citizens of Eldorado, Saturday night, October the 28.

Acting as Master of Ceremonies, Wallace Cozzens introduced the Court. There were present Princes and Princesses Bob Williams Pauline McLaughlin, Jim Danford, Alberta Marris, Joe Luckett, Pauline Jones, Dukes and Duchesses Willie Bridgeman, Beatrice Wright, Gardner McCormick, Kathleen Crosby, Willard Newlin, Tommie Aline Davidson, Jack Halbert, and Joan Jackson. Never has there been more regal royalty presented before the eyes of Eldoradians.

Preceding the King and Queen were those noble cherubs, "the King and Queen of tomorrow" Ebba Ann Finley and Buddy Baker. To the familiar strains of Sun-

rise Senerade the Royal couple slowly walked down the aisle to their throne. The Queen looked exquisite in a simple gown of white taffeta. She carried a bouquet of gold carnations. The King was also handsomely dressed in a dark green suit with a white carnation in his lapel. After reaching the throne the noble cherubs presented the King the crown and staff. The King, among a loud roar of applause, then placed the crown upon her head and the staff in her hand.

A program was arranged by Miss Howell for Their Majesties and their court. Those who had the honor to be on this program were the Sextet, who sang "Allah's Holiday", accompanied by Miss Shultz. A musical, rather strange and mysterious in melody, was arranged by Mr. Geeslin and a few Band members. Rachel Ford read a poem dedicated to the Queen called "Love Laughter, and Song". This being the end the Court left paying their respect to the King and Queen. The conclusion of the Coronation was a song, "The Eyes of Eldorado Are Upon You", sung by the Court to Their Highnesses.

FIRST METHODIST CHURCH

Rev. Marvin Williams, Pastor Christian Character, Mal. 3:17. "They shall be mine when I make up my jewels."

Jewels are not easily broken, do not wear, do not fade. The religion of true Christianity is not a fancy or fashion, but a principle, a habit, and a power. Tried by sorrow, sickness, temptation, persecution, it yields not.

They are His jewels, because they were rescued from a condition of impurity by God's own dear Son on the Cross. They shall be His unitedly. "Make up." All trials are over and they are forever safe in Heaven.

Subject Sunday morning, "Adaptability."

All leagues will meet at 6:45. We shall worship with the Presbyterian people Sunday night.

Mr. and Mrs. Charles Powell of Ozona visited here last week end with her parents, Mr. and Mrs. W. C. Parks, Miss Betty Miller of Washington D. C. Who has been visiting here with her mother accompanied Mr. and Mrs. Powell home and spent a few days the first of the week. Miss Miller is an aunt of Mrs. Powell.

Census Districts For 1940 Check Being Set Up

Representative Chas. L. South stated this week that there would be two census districts for the 21st congressional district. He stated that the Bureau of the Census had designated Kerrville as headquarters for census district No. 27, comprising the counties of Kerr, Val Verde, Edwards, Kinney, Real, Uvalde, Bandera, Kendall, Gillespie, Kimble, Sutton, Schleicher, Menard, Mason, and Llano. G. Rankin Starkey of Kerrville, has been recommended as District Supervisor.

H. H. Jackson will be District Supervisor for the 21st census district, with Coleman as headquarters, which district will include the counties of Coleman, Sterling Coke, Runnels, Brown, Mills, Lampasas, San Saba, McCulloch, Concho, Tom Green and Irion.

"It is contemplated," Mr. South said, "that the District Supervisors will be appointed about November 15th, and that the district offices will be opened about January 2nd or 3rd." There will be approximately 240 enumerators in the two districts, who will receive 4c per name, 10c to 35c for each business concern, and 20c to 50c for each farm, amounting, it is estimated, to approximately \$70 to \$75 for each enumerator for some two or three weeks' work. "The District Supervisors will appoint the enumerators for the various counties in their respective districts," he added.

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will invite you to dances and parties. BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls along who are full of pep. So in case you need a good general system tonic, remember for 3 generations one woman has told another how to go "smiling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders. You'll find Pinkham's Compound WELL WORTH TRYING!

ONE HELP TO GOOD MANAGEMENT...

a Kitchen Telephone

Other women often envy the woman who always "gets her work done" quickly and easily. Such a woman usually has the latest in household helps—including a kitchen telephone. A telephone for your kitchen
