This is exceptionally good dressing yield, and of more than ordinary significance is the fact that they went to the United Dressed Beef Co., which BANK EMPLOYEE is reputeed to be a firm handling only the highest quality of meat to supply a very particular trade in New York.

Mr. Jones and many other ranchman of Schleicher County have reputations for producing as good as the best in hereford cattle, and feed lot results such as the above instance unquestionably confirms that.

MRS. LUKE THOMPSON

Mrs. Luke Thompson entertained the Eldorado Bridge Club at her ranch home, Thursday August 6. Four tables of club members and guests were pres ent. Contract Bridge was played and a delicious frozen salad course was served. Prizes for the games were Mrs. J. W. Lawhon, club; Mrs. A. P. Bailey, guest and Mrs. Tom Henderson. cut.

Think as did the balky horse and move out into the realms of plenty. The Eldorado Merchants for the past year have been setting a low price record and giving the buying public the best prices quoted any where in West Texas. Therefore the people of this county are in the best financial condition at this time of year than ever before. Their crop has been made on about half of previous years. The only question to solve now is what will they get for their crop and how can they market same. Some lady writing to the Dallas News suggests that the people in mak- ing and giving Christmas Gifts, use otton gifts. Cotton goods are gener- ally the irst gift we receive and the ast garment is a cotton shroud. That ady doesn't know these Schleicher county farmers, they won't wear cot- ton socks.	<section-header><section-header><text></text></section-header></section-header>						

Greasing—Washing and Oiling Is necessary • for the Life of a Car.

Automatic Electric Cookery Makes Cooking a Pleasure

DURING these hot summer months when even out-of-doors it seems insufferably hot . . . you'll appreciate the coolness of a modern Electric Range.

With Electric Cookery, your heat is under absolute control. No surplus is allowed to suffuse the kitchen . . . there are no fumes, no soot, no smoke to make your kitchen unbearably hot and sultry.

Completely automatic . . . all you do is to prepare your meals at any convenient time, place them in oven, set the Automatic Time and Temperature Controls and

let the Electric Maid tend the cooking. Then, you're free to spend your kitchen hours in more enjoyable and worth-while pursuits.

Allow a salesman to explain and demonstrate the many advantages of the new Hotpoint Electric Range. Convenient Terms can be arranged for you.

Automatic Heat Control

> Do you know that your increased use of Electric Service is billed on a surprisingly low rate sched-ule . . . and adds only a small amount to your total bill?

"The Store That Keeps Prices Down In Eldorado. In The Success Building— Phone No. 77 O. F. PRIEST, — Mgr. MOVE FOR INCREASE IN USES OF COTTON LAUDED BY GOVERNOR

AUSTIN, Tex., August 10. Organiation formed in Teras and other outhern states to endourage, and timulate the wider use of cotton are on the right track to render a very lefinite and tangible good to the cot on industry," in the opinion of Govrnor Ross S. Sterling.

The governor urged not only finanial support but cooperation in the purposes of the organization-the use f cotton. His statement follows:

"To my mind a very significant note was struck from time to time during the series of conferences between our people and delegates from other states regarding the cotton situation held here recently.. It was this: Use more cotton at home

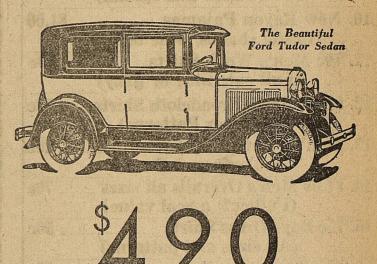

"On its face this idea may not appear to have any great bearing on what is genrally admitted to be a grave condition of affairs, but in reality its adoption and application in purely legitimate fields, where the use of cotton represents sound business sense, means the saving of millions of dollars annually to the Southern States. In my opinion, we should use more cotton, not merely this year as a means of helping us out of an emergency, but next year and every year "I think it is becoming clearer to everyone, and certainly to those who have given the matter study, that in the very nature of things we are going to have to look more and more to our domestic market for the sale of our cotton. Every factor baving a bearing on the situation points to this as an inevitable conclusion.

"Among other uses mentioned in the confeience was cotton bagging for our cotton. The federal government has estinated that 200,000 bales of low grade cotton could be used in wrapping a normal crop. While this is of itself no small item, the mere removal of this quantity from the market al most loses significance in its ultimate effect which the experts tell us would be to increase the value of the balance of the crop by from \$1.25 to \$2.50 per bale, depending on the price at any given time.

This means millions of dollars and it represents only one phase of the field that is now open to us. They tell me that catton baggs for feed, fertilizer, sugar and various food products would sonsume even more sot ton than would be required in produring cotton bagging.

"I hope housewives everywhere in city home or on farms, will realize the importance of this idea. They have always responded to the needs of every emergency, and I believe their

THE GREATEST VALUE EVER BUILT INTO A FORD (AR

(F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.)

W HEN you buy a Ford car today, you buy what is unquestionably the greatest value in the history of the Ford Motor Company. Never before has so much beauty, comfort, safety and performance been offered at such a low price.

The low price of the Ford is something to think about because it means an immediate saving of many dollars - always an important consideration. But far more significant than price alone is what you get for that price. When high quality is combined with low price, you may justly take pride in having found a most satisfactory purchase.

See the Ford - ride in it - learn something about

SINCERITY

Sincerity is the foundation stone of true friendliness. It is also human trait that is hard to counterfeit, as the sincere friendly impulse comes from the soul of a man and not from the calculating mind. Think kindly and friendly thoughts. If you have a heart and a soul, why be ashamed of them? Bring them into the shop, your office, and your daily life. Strengthen your faith in men, think kindly of them, believe that they are your friends, and in the long run they will be.—Raymond Congreve.
