Box Supper At Station A, Friday Night

The School at Station A, under the supervision of Mrs. Clarence Love, is doing nicely and meeting the approval of the patrons.

Last Friday night at the school house a Box Supper was held for the benefit of the school and \$53.70 was taken in. George Caraway was the auctioneer and by his wit and humor he kept the bidding lively and the boxes sold well. The proceeds will be used to buy equipment for the school. The community school and church is the backbone of civilization.

MRS. J. W. LAWSON ENTERTAINS

Mrs. J. W. Lawson entertained the Eldorado Bridge Club, Thursday November 5 at her ranch home near Eldorado.

Several games of contract bridge were played and delicious refreshments served to the following: Mesdames H. T. Finley, Van McCormick, Lewis Bal- lew, L. T. Barber, James Hoover, Joe Williams, Luke Thompson, Tom Hen- derson, W. D. Gregory, J. C. Crosby, M. H. Crabb and Ben Hext.

Mrs. H. T. Finley was high for the afternoon games.

DISTRICT CHRISTIAN ENDEAVOR CONFERENCE

A group of young people represent- ing the Christian Endeavor Society of Eldorado went to San Angelo Sunday afternoon to a district conference.

Reports from the various Endeavors were made and Eldorado was proud to say she had a good, live Christian En- deavor with 20 or more in attendance every Sunday.

An enjoyable program was rendered by the San Angelo group. A very ef- fective pagent "The Kingdom High- ways" was given.

The most interesting part of the program was a talk by Miss Cornelia Eugle of Louisville, Ky., a field work- er in the young people's work. She stressed the importance of young peo- ple finding themselves and their life's work.

Miss Eugle was accompanied by Lucile Oglesby, Anna Florence Page, Dahlia Faye Johnson, Elizabeth Brad- ley, Dena Meyer and Mrs. W. B. Gray.

Every one invited to each of the ser- vices. Attendance gaining all the time.

Come and worship with us.

Mrs. A. B. White has had The Suc- cess sent to her daughter, Mrs. George Joseph, at San Antonio, and to her son, Herbert White at Yuma, Arizona, for which she has our thanks.

G. C. Crosby was in from the ranch Saturday on business.

Friday Night Program Well Received

The play and program given by the Choral Club and others at the school auditorium Friday night was well re- ceived and well received. It shows that the Schleicher County children have a wonderful talent when developed. The house was full and those putting on the program were well pleased with the receipts.

The proceeds will go to the school clubs and athletic and library, in fact the money was well spent, and help to keep up the school with its wholesome entertainment. Here's hoping we get another.

Fat Calves Being Shipped

Luke Robinson and Sam E. Jones shipped 4 cars of fat calves Wednes- day to Ft. Worth.

Pat Martin has a lot in the stock pens to go out Friday (today).

We understand these calves are bringing around \$4.75 per hundred and are weighing around 460 pounds.

Abe Mayer of San Angelo this week is receiving the last of 10,422 lambs purchased in four west Texas coun- ties for a total of approximately \$20,- 602. The sheep are being placed on the 21,000-acre ranch 25 miles southeast of San Angelo which Mr. Mayer bought during the summer from the estate of H. C. Campbell of Novata, Okla.

Mr. Mayer obtained 4,500 mixed lambs from J. E. Henderson, Jr., of Schleicher County and 1,500 from E. P. Sweatt of Pecos County at 3 cents per pound, the sheep averaging 65 pounds. The Henderson lambs were delivered at Barnhart and the Sweatt sheep at Baldrige, both flocks being shipped to the ranch south of Van- court.

Twelve hundred and fifty mixed lambs were purchased from E. P. Green of Lipan Flat, who since has died, and 1,947 head from Dick De- Long of San Angelo, who also ranches south of San Angelo. These sheep were bought by the head and averaged around \$2 each. Mr. Mayer purchased 1,225 ewe lambs averaging 63 pounds from George Middleton of San Angelo at 3 y-4 cents per pound. Mr. Middle- ton had bought the sheep from Paul Hallcomb and Pat Lee of Ozona. Ship- ment was made from Barnhart to Byrne.

Earlier Mr. Mayer moved 1,000 cat- tle from his ranch on the Middle Concho west of San Angelo and receipt of the 10,422 sheep completes the stocking of his new ranch on the Kickapoo.—San Angelo Times.

D. C. Roberts, 39, of Dallas, but who formerly lived in San Angelo, was found dead Thursday last week in the Ogden pasture near Ft. McKavett. His car had been parked in the lane since last Sunday. A search was be- gun Thursday and the body was found over the fence in the Ogden pasture. Sheriff O. E. Conner and Judge C. C. Doty was called to the place for an inquest, and it was decided he died from natural causes.

He has several relatives in San An- gelo. His wife and son Charlie were in Houston and Mr. Roberts was on his way to San Angelo from Houston, when death came. His remains were carried to San Angelo for burial.

Hunting Season Opens Next Monday

Hunting season for deer and turkey opens next Monday, November 16 and quite a few will be out in the open hunting early Monday morning.

HE biting cold of a zero day, coupled with finding merchandise stocks badly de- pleted, filled many last min- ute shoppers with good res- olutions to do their Christ- mas shopping early next year.

Marion English was one of these caught in the jam. It was now late in the afternoon, the next day would be Christmas, and there still was Uncle George, Cousin Essie and Old Mrs. Brighton unchecked on her list. What in the world could she get for them? Helplessly she wandered up and down the aisles. Why hadn't she heeded all the warnings to shop early? Well, they just would have to be satisfied with anything she could pick up now.

Yearningly, she looked up toward the balcony of the big store, where several persons were occupying comfortable chairs. And then an idea flashed through her brain.

Ten minutes later, she was walking through the crowded aisles again, but the worried look had left her face. In the short time she had taken to rest and think she had tried to put herself in the place of three persons for whom she was seeking gifts, and now, in- stead of just taking anything she had a very definite idea of what to get for the amount she had to spend. She re- membered that Uncle George had a pet weakness for fancy socks, that Cousin Essie liked nothing better than new fiction, and she felt sure that Mrs. Brighton would welcome a pair of bright-colored bedroom slippers.

By 5:30 her selections were all made. This was the way to do Christ- mas shopping, she thought, not the haphazard way she had been doing it for years. She remembered now, with a pang, the rather inappropriate gifts she had chosen sometimes. Never again, she vowed, would she wait until the last minute to make selections. From now on, she would heed the many warnings to shop early, and so bring an added share of happiness to herself and others.

ST. NICHOLAS DAY

ST. NICHOLAS day is Decem- ber 6. It is a children's fes- tival in Holland, Belgium and parts of Germany, and serves as a preliminary to Christmas. It is on the night of the 5th that St. Nicholas comes with gifts. Christmas day is observed as a holy day rather than as a holiday.

Hoover's Thanksgiving Proclamation

WASHINGTON, Nov. 3.—President Hoover today proclaimed Thursday, November 26, a day of national thanks giving for the advantages enjoyed des- pite a "measure of passing adversity." The presidential proclamation said, in part: "We approach the season when, according to custom dating from the fathers in the new world, a day is set apart to give thanks, even amid hardships, to Almighty God for our temporal and spiritual blessings. It has become a hallowed tradition for the chief magistrate to proclaim an- nually a national day of Thanksgiving. "Our country has cause for grati- tude to the Almighty. We have been widely blessed with abundant harvests. We have been spared from pestilence and calamities. Our institutions have served the people, knowledge has mul- tiplied and our lives are enriched with its application. Education has advanc- ed, the health of our people has in- creased. We have dwelt in peace with all men. The measure of passing ad- versity which has come upon us should deepen the spiritual life of the people, quicken their sympathies and spirit of sacrifice for others, and strengthen their courage."

Gen. Mah Chan-shan Declares War On Japan

If you have been keeping up with press dispatches and Radio broadcast this week, you have learned that Gen. Mah Chan-shan, of Manchui of China has declared war on the Japa- nese government.

The Manchurian country is very fertile and about the size of Texas, has most any kind of weather, rich in minerals and adapted to agricultural development, and for the past several years, has had an influx of population from Japan and Russia, and each of these countries have their eye on Man- churia, China, China with no Army and Navy is almost helpless in war, and it will take her three years to get ready to combat her enemy. Japan is the more progressive type of the three nations involved and sees if she is to win she must act while the rest of the world is holding conferences. China has about 20 to 1 in population over Japan, therefore ought to with- stand a long drawn out war and come out victorious in the end.

While the world was celebrating Nov. 11, the closing event of the Great World War, the world was standing by and witnessing the opening of another conflict between two yellow races, Japan and China.

Celebrate today the closing of one war, and making ready tomorrow the opening of another conflict. It looks as if Japan has determined to bring on the conflict and in spite of the world's pleading she makes war on her defenseless neighbors. Yet some people preach being prepared for war invites war, yet if China had a commanding fleet and a trained army, Japan would not be so anxious to take her lands and people. Crime must be suppressed regardless of cost and the city, county, state and nation that is prepared to handle the situation is the fortunate one. When crime gets the upper hand of any citizenship, that people is doomed.

BORGER MOVES FOR MUNICIPAL GAS PLANT

BORGER, Texas, Nov. 8—The City Commissioners of this city last week accepted on first reading a bid by Joseph A. Greenspon & Sons of St. Louis for \$125,000 for a natural gas system to supply 1,100 customers. On first reading also this company was given a twenty-year franchise for electric power at an 8c maximum residential rate. A contract to serve the city with natural gas has been signed with the Huber Petroleum Company. The decision to establish a municipally owned gas and electric power plant was reached as a result of a disagreement between the city and the utility companies over rates.—Dallas News.

MODERN SCIENCE

By Carl Stevens
 Howard Faulk, one of our noted scientists has discovered that the sun is moving northward. He thinks that by next summer the sun will be directly over the North Pole. If so the ice in Canada and around the North Pole will melt and run down in the United States and freeze again, because there would be such a little heat from the sun down here. If it does everything in the United States will be covered with ice and snow.

Professor Faulk is advising everyone to move much closer to the North Pole where it will be warmer.

THE LONGEST AND GREATEST BELT IN THE WORLD

By W. C. Parks

A certain man of our country has invented the longest and largest belt in the world. It will be run around the world by 4 powerful motors. It will have a number of rooms, which can be rented by the passengers and also storage rooms that can be used for transportation. The belt has signs on it and stops every time a certain place gets to New York. If one wishes to go to France he must get on the part that is signed France. He will pass through Paris, London, New York, Los Angeles and many other large cities on the line. The money taken in from the rented rooms will be used to run the belt. This belt is being planned and designed by Luther Parker, the great scientist of Bailey Ranch.

HARD TIMES

Five cents for cotton
 Twenty cents for corn
 The lowest I've seen
 Since I've been born.

Twenty cents for oats
 Thirty cents for wheat
 It's ten cents for bread
 And fifteen cents for meat.

Thirty cents for ginning
 That doesn't sound so fine
 If it doesn't come down
 I won't gin mine.

Why not more cotton
 Some of them say
 But I don't think so
 I'll tell you by the way.

It's a dollar for taxes
 Twenty dollars for rent
 I'll soon be broke
 I'm already bent.

Shore hard times
 I'll solemnly declare
 It's "what'll we have for dinner
 And what am I gonin' to ware?"

Shore hard times
 Makes me kinda sore
 If they don't loosen up
 We're gonna' have war.

Holes in my pockets
 Patches on my pants
 I feel like a soldier
 Just returned from France.

Now this is my motto,
 "Skin 'em if you can"
 Just so you get the money
 For money makes the man.

Two of Texas' leading citizens did a bit of talking Friday.

men in East Texas, no one will deny. But to say that East Texans, as a whole, would resort to any such disgraceful exhibition of unrestrained passion as the general pictures, is a gratuitous insult and as ridiculous as the general's other statement to the effect that "the military forces did not arrive one day too soon to prevent the general, that if East Texas wells were again opened wide, enraged citizens would destroy the oil properties. Pipe lines and oil storage tanks will be blown up so that there will be no place to put the oil."

Are These Efficient Servants Working In Your Home?

THERE are literally hundreds of efficient *Electrical Servants* which inexpensively will assume the hard and distasteful work in your home. They cost so little, and operate at such slight expense, it is truly "penny wise and pound foolish" to struggle along without them.

Electric Vacuum Cleaners, Ranges, Washers, Refrigerators, Toasters, Waffle Irons and a multitude of other appliances will assume your housecleaning, cooking and laundering worries; electric heating pads, curling irons, teakettles and sewing machines will fill important needs in every home.

When these efficient and dependable *Electrical Servants*, operating for but a few pennies a day, will eliminate the drudgery from your home, shouldn't you profit by their use at once?

Convenient Terms can be arranged on the purchase of one or more of these essential appliances. Call in at the Merchandise Showroom today.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

FISH IN DEEP WATER

Gusta V. Graves
Fish: Say, where do I go from here?
Senior: I'll bite, where do you go?
Fish: Huh, he ain't very accomodating.
Soph: Say, what cha standin here for? Why don't you go to your class?
It's the first room on your right down the hall there.
Fish: Oh, thank you so much. (But we see the Freshmen ducking out of that first room on the right down the hall amid a shower of books, paper wads, etc.) Well, I suspect I didn't announce myself properly. I'll knock this time. (But when the door is opened we see the fish turn and run for dear life. A second offense to an upperclassman by a Fish is indeed dangerous for the latter. The Fish almost collides with a Junior as he runs down the hall.)
Junior: Say, what's the big idea. I wonder why you're allowed to run loose this way, any way?
Fish: Oh, sir, I don't know but if you'll only tell me where to go I wouldn't bother nobody.
Junior: Well, go down the hall the way you came from and the second door on the left will lead you to —
Fish: Yeh, I know. It's already lead me to a lot. I know them Seniors in there. I just got chucked out twice.
Junior: Here comes somebody. I've gotta beat it.
Fish: Well, now of all the dumb— Say, ma'am, could you show me where a freshman belongs at this time?
Teacher: I surely can. But first I guess you'd better go to your class. I'll show you the way.
Fish: (To himself) Now I wonder what she meant by saying she could show me where I belonged but first I'd better go to class. Guess she thinks I'm awfully dumb.
(To be continued)
Note: Watch this space next week. HI-Life to see the further adventures of our Fish.

FIRE DRILLS ARE PRACTICED AT ELDORADO PUBLIC SCHOOLS

Billie Black Baugh
It has been arranged for two fire drills to be given during each month in order that each student knows how to get out of the building in case of fire. These fire drills are very necessary. It has been arranged for children in various rooms to have different doors in which to escape. The pupils do not run, but they walk quickly and quietly in line to the different doors through which each class is supposed to go. The signal for fire is the small bell up stairs ringing hard and fast for about thirty seconds. When the pupils get outside they march straight out for about fifty yards and remain in line until the signal is given to return. The time required for every one to get out of the building is about fifty seconds from the time the fire signal is first given, under normal circumstances. However, during some of the drills, at least one door will be closed so that all will know just exactly how to escape in case it should happen that way. It will require about ninety seconds to clear the building under such conditions.

WHO'S THE FOOL?
Lucile Oglesby
The science class, under the direction of Mr. Dave Williamson, rendered a very interesting program about science in general, Wednesday Nov. 4. W. B. Gibson gave an introduction about fools. Albert McGinry and R. L. Samples, father and son showed the advantages of inventions. You would hardly believe that great English and American scientists really appeared on the stage! Such ones as Christopher Columbus, Gallilio, Morse, Fulton, Wright Brothers, Lindbergh, Edison, and Thomas Jefferson were there in person to tell how people laughed at them and called them fools when a new idea overtook them. Each one explained how his invention or idea was thought impossible. Albert gave also, some traditions, such as people consulting a physician before bathing in a private bath tub and how at one time a tax of \$30 was levied on bath tubs. All of these things seem ridiculous but a person who laugh at new ideas is a fool! A person who has new ideas is not a fool!

THE FRESHMAN CLASS
Aletha Faught
The freshmen are still struggling upward. The class as a whole is getting along rather nicely. In English we have been making book reports while in History each Monday we have some very interesting current events. These reports help the pupils in getting up and speaking freely and the current events give one some idea of what is

going on in the world.

Some seniors are poets, but the world doesn't know it. The following were written by students of the senior class:
THE LITTLE WHITE SCHOOL HOUSE
Clyda Pruitt
The little white house stands on the hill,
So lonely, deserted, and still.
It stands on a hill so barren and cold,
The dear little school house, as in days of old.
Oh, what has become of the small children so gay,
That once played so merrily on cold winter days?
Hushed are their voices and still are their feet.
It seems as if the whole world is asleep.
Oh, little school house of my days gone by,
I shall never more see you, goodbye, goodbye.
MOSQUITOES
Pauline Kent
Eldorado is beset
With mosquitoes you bet!
There ain't no use sayin',
Cause they are right here stayin'.
You can't even sleep at night
Cause they surely do get a bite.
HALLOWE'EN
Bernice Bricker
Down shines the mellow sunlight,
Marking with her golden sheen,
Pumpkins ripe for Hallowe'en;
Striving she to have them right,
Hard and round and ripe and yellow
Every big and little fellow
For the games and stunts and fun.
Not a pumpkin would she shun,
For each must have its share to do
As it takes more than a few
To be the joy of every child.
Be he big or tough or mild.
For 'tis the nights of all the year
When ghosts and goblins do appear,
And we ramble all the night
By a Jack-O-Lantern's light.
Pumpkins are the spirits gay
Of jovous Hallowe'en Day!

TIMES DO NOT CHANGE IN THREE WEEKS
Gusta V. Graves
Well, I see things have not changed in my study hall during my three weeks absence.
About five minutes ago, I heard a familiar sound, I looked up and sure enough it was as I had thought. I did not get alarmed because it was just Grace having her morning discourse

with Fay across the study hall. I think Mr. Smith should allow the one or the other to move, because they can not carry on a discourse so far apart with Miss Bradshaw interfering to ask why all the disturbance. There would be no disturbance if they were sitting nearer each other.
As my eye travels on down I see Bernice Bricker studying, as usual. Just as if she could not get by on reputation. If I had her "rep" I never would study.
As I look across the study hall my eye rests upon an interesting scene. Clyde Mills is smiling from ear to ear. Now if he can find anything amusing in the text books I want him to show me too. Perhaps his amusement is not caused by the text-book. Well we shall often wonder.
I notice Carl Kerr has a text-book open, but I happen to know he is studying, at least about nothing in the book. He is just day-dreaming, but we'll excuse him this time because knowing Carl as I do, I know he studies most of the time.
Clyda Pruitt is busy trying to learn history. Well she has my sympathy, because I'm smart too and I haven't seen muh light yet.
Francis Mills is having a tough time keeping Clyde satisfied. She can't study very much because he keeps wanting to borrow all her property.
Jack Ratliff is unusually quiet this morning. He and Carl had only one skirmish this morning. Well, Miss Bradshaw is to blame for that; I think she put Jack to work, and Carl had to quarrel with himself or not at all.
Jim West has a note-book turned around where Miss Bradshaw can't see what he's reading. Well Jim I've done the same many a time but you can't fool a teacher. She knows you're not reading about school work.
Well of all things! Alf Bruton is actually studying. Oh, well I can explain that. There's no one sitting near him except Bill Sproul, and Bill is so industrious that he studies constantly regardless of what goes on about him.
Poor Miss Bradshaw. She's having quite a time trying to grade papers with Jack forever asking her some question, which he could answer for himself if he could only get his brain to work.
I see Edward Cox is silently drifting away from his studying. I think he has something worrying him. It surely can not be a girl.
Nell Campbell is trying to fool Miss Bradshaw. I think Miss Bradshaw knows by now that Nell only studies when she is being watched very closely.
As for myself I tried to study (not much though) before Grace and Fay

started out having their conversation. After that I gave up and decided to let the outsiders know just how we spend our time in study hall. Perhaps I shouldn't have done this.
Oh, I almost overlooked Isabelle Isaacs. She has maneuvered around until she got herself right up in the middle of Grace's and Fay's chat. Gee, I feel sorry for you, Isabelle, and I would advise you to let what they say go in at one ear and out the other.

HOW WE ARE TALKING SPANISH
Bernice Bricker
Los Conquistadores encontraran en el 3de Noviembre en sesiar regular. Tuvimos el acta y el pasa de lista. Replicanos con el motto. Tuvimos algunos cancanes y "The Spanish Language" por el senior Luther Kent, "Old and New Castile" Por la seniorita Pauline Kent y un diayolo por los senioras A. J. y Clifford. La seniorita Lillie Belle no estuvo presente. Tuvimos un reporie criticial por la seniorita Meyer y entonces jugamos un juego de baseball. Se cierra la sesion.

WHO WILL BE THE HERO?
The CAR Dramatic Club met Tuesday at the regular hour. The Eldorado High School has been represented in the District Meet of the Interscholastic League the past several years in debate, declamation, and several other literary events, but we have not been represented in the one-act play contest yet. We will be represented this year and you can tell them we are getting busy now.
The CAR Dramatic Club and Public Speaking Class will work with the around where Miss Bradshaw can't see what he's reading. Well Jim I've done the same many a time but you can't fool a teacher. She knows you're not reading about school work.
Well of all things! Alf Bruton is actually studying. Oh, well I can explain that. There's no one sitting near him except Bill Sproul, and Bill is so industrious that he studies constantly regardless of what goes on about him.

Nell Campbell is trying to fool Miss Bradshaw. I think Miss Bradshaw knows by now that Nell only studies when she is being watched very closely.
As for myself I tried to study (not much though) before Grace and Fay

esting every time we meet. The last two or three meetings we have played outside. One of the most interesting games we have learned to play is dodge ball. Some of the other games that we have learned or are learning to play are hand polo, kick ball, and indoor baseball. These games are all interesting and give us plenty of exercise.

"QUACK, QUACK" AND MUSIC AND LOVE OF ALL LANDS" ATTRACTS LARGE CROWD FRIDAY NIGHT
Gusta V. Graves
In the play we found Jack Ratliff and Bill Sproul as Dr. Paine and Dr. Slycem practicing quackery. They charged immense sums of money just for giving advice. They have queer patients such as Miss Hatie Katchoo—the lovesick sneezer (Lola Davis), Mrs. Gabs (Dahlia Fae Johnson), Mrs. Gabs has quite a time keeping her little boy and girl (Pauline Kent and Bernice Bricker) satisfied. They wanted too many nickles to be ideal children. With Dr. Paine and Dr. Slycem is Henry, the boob assistant. Henry immediately falls in love with the office girl, Aimee (Pauline Rape.) Bridget, the Irish Janitress is very well suited to the person who played the part (Grace Ratliff). When her boss Dr. Paine tells her she is fired she just takes her broom after him and shows him she is not fired. Mrs. Buzzer lives up to her name (Anna F. Page) be continually buzzing with Mrs. Gabs. They are patients who have throat trouble. Edward Cox plays the part of Al Falfa, the country hick who has a corn. Fay Keeney as Mrs. O'Leary hears the advice of Dr. Paine concerning her run about husband. She beats the Doctor by saying she won't take his advice and she walks out on him Jim West and Hollys Alexander tried to fool the audience with black faces as (Wumf G. W. Jackson Wumkus and Pete.)
I must not forget to mention Eldorado's most noted orchestra. This orchestra is composed of the students of Eldorado Public School. It played "Eldorado Will Shine Tonight," "When You Were the Blossom of Buttercup Lane," and "Old Folks at Home." Every one enjoyed these pieces. We are terribly proud of our orchestra and we are going to be prouder before the year is gone.
The Choral Club then took charge of the program and rendered a splendid entertainment. "Three Men Went a Hunting" was given by the girls and boys choral club. The girls then gave the following program: "Little Gypsy Girl," "The Arabian Yogi Man," "Courtship on the Rio Grande," "Chin ese Lullaby," "The Pirate of Love," "Singing a Vagabond Song," "An Old Fashioned Garden," "Love's Old Sweet Song," "When You Wore a Tulip," "Croon, Croon Underneath de Moon," "I'm and Unemployed Sweetheart," "Capture of a Man," "School Days," and "Schoolday Sweethearts." All the above were songs, and the girls were dressed appropriately suited to each song. We did not know we had such wonderful gypsies, Arabians, Spaniard Chinese, Pirates, Vagabonds, and old fashioned girls in our school, and moderns, too.
We think we have a wonderful dramatic club and choral club both for boys and girls. We hope to be this well entertained again soon.
Between \$90 and \$95 was taken in from this entertainment. There were only about \$5 expenses, so the school activities will receive the larger part of the proceeds.
Millie Pointer was in the city Monday from the Don McCormick ranch.
Mr. and Mrs. T. J. Bailey, of Abilene, spent Sunday in Eldorado visiting Mr. and Mrs. A. J. Roach and family and Mr. and Mrs. A. K. Bailey and friends.
Barnie Currie says he thinks the wool market has at last hit the bottom and will probably come back before the spring wool is put on the market.
J. H. Jarvis was in the city Tuesday and made The Success office an appreciated visit, and renewed his Success and San Angelo Morning Times for another year.
General Wolters and Governor Sterling, in these instances, unnecessarily, ad, we hope, unwittingly maligned their state and their people. They used no tact, and evidenced little regard for their facts. And that is bad precedent for leading citizens to establish.

Mrs. R. T. Crain left Friday for San Antonio where she will spend a few days and return by way of San Saba and visit with home folks before returning to Eldorado.

BORN — Saturday, November 7, 1931, to Mr. and Mrs. R. D. Holt, at the San Angelo Hospital, a baby girl, named Nancy Lou.

Mr. and Mrs. Silas Burk were in the city Friday to see the school program.

Mr. and Mrs. Dave Thornburg and children, of Santa Fe, New Mexico, were visiting relatives and friends in Eldorado last week, while here were guest of Grandmother Martin and her children.

Rev. and Mrs. F. G. Clark were here in Eldorado this week guest of Mr. and Mrs. Joe Williams and Mr. and Mrs. Nig Calcoat.

Bro. Clark will preach at the Methodist Church next Sunday night.

PRODUCE EGGS
at LOW COST!

— and make good profits regardless of egg prices

WHEN egg prices are low, that is no time to cut down on feed; what you need is BETTER feed, to produce more eggs and larger profits.

RED CHAIN EGG NUGGETS produce plenty of low-cost eggs. The superior quality ingredients are compressed into NUGGET form - - and every NUGGET is a balanced ration. This new and efficient feed insures more laying hens, more eggs per pound of feed, reduced labor (feed once-a-day), no feed wasted or lost.

"THIS AND THAT"

By Jimmy

At the moment we are intensely interested in finding a cure for the worst depression we have ever experienced. In all probability our problem would be less perplexing if we would have given more thought to the cause and prevention of previous depressions. But that's neither here nor there; the thing is, we are entering the third year of chaos and "kayoes" and all that sort of stuff, and something must be done about it.

People must be put to work and fed before another winter passes. Republican prosperity may be a good thing, but it's too much to ask a Democrat to go through another four years of it without a little meat on his ribs, at least. And, the way things are looking now, the Republicans are trying to get things in shape for 1932. It may be they are just lucky that way, but the fact that they win so consistently leads one to believe they have an inside track on the science of politics.

Far be it from this writer to say that Hoover has been playing politics at the expense of the hungry and impoverished workers. Far be it from this writer to say that the return to normal times, just before the presidential election, is due to Republican connivance, trickery or what have you. But farther be it from this writer to deny it if someone else says it's so.

Most fair-minded people who have any acquaintance whatever with the law-abiding residents of East Texas will resent such a mis-statement of fact, especially when it comes from one of the state's foremost citizens.

Diek Bearce was in from the ranch Friday buying supplies.
