## BAND GETS SUPERIOR RATING

Herb Germer's McLean Tiger Band traveled to Canyon Tuesday and competed in the University Interscholastic League Marching contest. Despite bad weather conditions, the band marched a superior rating. This makes the second consecutive year that the band has earned a superior rating.

**Band Officers**  
Band officers for this year are: Raymond Baker, president; Troy Corbin, vice president; Dorothy Beasley, reporter; Gail Fry, treasurer; Teresa Mertel, secretary; Tom Kesterson, sergeant of arms. Twirlers for this year are Jenny Everett, Kay Parr and Gail Fry.

The band would like to remind the citizens that fruit cakes are now on sale. If you would like to purchase a fruit cake, contact one of the band members.

## Nuckols to Head County Spelling Bee

B. R. Nuckols, county superintendent of schools, is the 1967 Spelling Bee director for Gray County. Some time before April 1, the Gray County Bee will be held and the champion will go to Amarillo on April 22 for the annual regional elimination for the National Spelling Bee.

Last year, Gayle Griffin, daughter of Mr. and Mrs. Joe T. Griffin of Pampa was the Gray County champion and placed 15th in the Regional Bee. The champion was an 8th grade student in St. Vincent's Catholic School.

The 1967 Golden Spread Bee will be co-sponsored by West Texas State University and the Amarillo Globe-News. L. J. (Jack) Edmondson, West Texas State University director of public services, will be Bee director for the Golden Spread. Again there will be a unique secondary contest—the Junior Spelling Bee, open only to contestants from the 6th and lower grades. The National Spelling Bee is open to all students, from 1st to 8th grades.

The Gray County junior champion for 1966 was Meredith Dingman, daughter of Mrs. R. W. Dignman. She was a 5th grader in the Travis Elementary School, Pampa.

First place winner in the Golden Spread Bee will go to Washington during the first week in June, 1967, to participate in the National Spelling Bee. The winner will also receive several other attractive prizes, and his (or her) school will have a full year of use of the Britannica film service. A traveling plaque carrying the names of all regional winners since 1949, will hang at the school of the winner.

Gray County has had a regional champion, in 1961 of Pat Ludeman, who won the Regional Bee.

## Memphis to Host Legion Convention

Legionnaires and Auxiliary members from the 18th Congressional District will convene in Memphis on Saturday and Sunday, Nov. 5 and 6, for their annual fall convention of the American Legion, Ken Maddox, commander of the Memphis Post, has announced.

Registration will open at 1:30 p.m. Saturday at the Legion Hall, followed by a rehabilitation meeting at 3:30 conducted by Ellis Neves, Veterans Affairs Commission service officer. There will be a Happy Hour beginning at 5:00 at the DeVill Motel.

A banquet will begin at 7:00 p.m. at the Community Building followed by a joint session of the Legion and Auxiliary.

Registration will resume Sunday morning at 8:30 at the Legion Hall with committees also meeting at that time.

Amanda Dalton, daughter of Mr. and Mrs. F. L. Dalton and a 1966 graduate of McLean High School, is a freshman student at Clarendon College this fall. Miss Dalton is an active member of various campus organizations and was recently elected secretary-treasurer of the college Spanish Club. She is also the secretary of the local chapter of T.S.E.A., a national college organization of future teachers, which is affiliated with T.S.T.A. and N.E.A.

## Fatheree Named District Chairman For Boy Scouts

C. Warren Fatheree was named district chairman of the Santa Fe Boy Scout District, and Bob Regan was nominated for appointment to the position of district commissioner of the Santa Fe Boy Scout District by the Scouters of Gray, Roberts and Carson Counties at a district committee meeting held Oct. 27 in Pampa.

Fatheree and Regan will be installed at the annual district banquet to be held Saturday, Nov. 19, 7:00 p.m., at Jackson's Cafeteria in Coronado Center, Pampa.

A Scout leader for many years in Pampa, Fatheree has served as assistant Scoutmaster and Scoutmaster of Troop 14, advisor of Post 14, and district commissioner for the Santa Fe District. He operates the Fatheree Insurance Agency.

Regan is safety engineer for Celanese and has been a resident of Pampa for 4½ years. A veteran of many years in Scouting, Regan is holder of the coveted Wood Badge beads.

## Texas Voters to Decide Water Issue

Texas voters, for the third time in nearly a decade, are being given an opportunity to take another step forward in solving the state's water problems.

On Nov. 8, they will vote on an amendment to the Texas Constitution—No. 11—which would authorize the issuance of an additional \$200 million in bonds by the Texas Water Development Board, and expand the purposes for which the board may spend its funds.

The proposed amendment has the strong support of Gov. John Connally and water leaders throughout the state. A state-wide organization, formed at the request of Gov. Connally and headed by former Governor Price Daniel, is campaigning for the amendment.

"If this amendment does not pass," Gov. Connally told the committee at a meeting in Austin recently, "it will seriously hamper future water development. I believe it would be almost disastrous."

The Texas Water Conservation Association, composed of leaders in the field of developing and using water resources, said:

"Benefits flowing from adoption of Amendment No. 11 will accrue to the water users of the state, wherever located. Its defeat will be a loss to the water-rich and to the water-poor areas of Texas."

## TUESDAY IS AN IMPORTANT DAY

Tuesday's general election looms as one of the most important voting days ever to occur in a so-called "off year" when the presidential race is not on the ballot.

Political observers, viewing the light turn-out in the spring primaries, are justifiably alarmed about the prospects of a small vote.

Their concern is mirrored by statistics. Since 1936, the average turn-out in a non-presidential election has been a dismal 33.4 per cent of the eligible voters.

This should not be the case this year.

Next Tuesday, the fate of 16 State Constitutional Amendments will be determined by you.

Next Tuesday, a spirited U. S. Senate race will end—a race in which your vote must last six years.

Next Tuesday, all of our State Senators will be selected—due to re-districting.

And next Tuesday, voters will determine their county's strength at the 1968 state political conventions. This fact too often is overlooked. As the election law now stands, our county will have one vote at the state political convention for every 300 votes cast in the governor's race. A heavy turn-out of voters Tuesday will give us a stronger voice two years from now.

Your vote is ours alone; no one else can cast it for you. If you don't use it, it is lost. Your voice in the future conduct of our state and nation is muffled. Take time Tuesday to vote.

And, if you are going to be out of the county Tuesday, remember that Friday, Nov. 4, is the last day you can cast your absentee vote.

## Peace Corps to Test on Nov. 12

McLean area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 9 a.m. on Saturday, Nov. 12, at Room 322, Post Office, Amarillo.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. If test scores indicate a limited language-learning ability, for example, the Peace Corps tries to place the applicant in an English-speaking country.

The placement test requires no preparation and is non-competitive—an applicant can neither pass nor fail.

The application form, not the placement test, is the most important factor in the selection of volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about an hour and a half.

## Bridge Tourney At Shamrock

The Shamrock Chamber of Commerce is going to sponsor a duplicate bridge tournament Nov. 4-6.

The tournament will be held in the National Guard Armory at Shamrock.

All area bridge players are invited to attend.

## Kellerville Church Of Christ In Revival

The Gospel Meeting at Kellerville Church of Christ began last Sunday, Oct. 31, but there will still be time for you to attend one of Sunday, Nov. 6.

The meetings start 7:30 nightly and 10:00 a. m. Sunday morning.

Jack Moore of Miami is leading the singing with Richard Williams of Big Springs preaching. Everyone is invited to attend.

Mr. and Mrs. Frank Reeves have returned from a three-weeks visit to California and Nevada. While there they visited her brothers, and Bill Reeves and family and Pat Reeves.

Jean Carol Bible, daughter of Mr. and Mrs. Jake Bible, McLean, is now attending Amarillo Junior College. Upon completion of one year of college courses, Jean will continue her studies as a student nurse.

Miss Bible is a 1966 graduate of McLean High School.

Yesterday we visited a new ultra modern, big capacity feedlot in the Perryton area. It is an astounding and fabulous setup.

Presently they have around 18,000 head of cattle on feed. The feedlot is built on a site that has excellent drainage. Three to four ridges and corresponding drainage ditches allow a natural ideal layout for pens and alleys. We were highly impressed with the highly systematized manner in which the feed lot is being managed. Electronic scales mounted on trucks, meters feed out to each pen. Based on the period of time in the feedlot, each pen of cattle is given prescribed ration. After cattle have graduated from a bulk starting ration, they move to a more concentrated one. The finishing ration is determined by an electric computer and is labeled a last cost ration.

To give you some idea of the tremendous growth of cattle feeding on the High Plains, take a look at these figures . . . since 1955, number of feedlots holding 1,000 head or more increased from 63 to 245. Number of cattle on feed each January 1 quadrupled from 132,000 in 1955 to 526,000 in 1966.

Why the big increase in cattle feeding in the Panhandle of Texas? There are many advantages over the other areas: (1) the semi-arid climate is much better than in other areas, (2) proximity to an available supply of cheap grains, protein supplements and feeder cattle supply and last but not least, a good supply of capital.

It takes a lot of money to feed cattle. We talked to one individual that had over two and a seventh million dollars borrowed on cattle on feed. This particular fellow didn't think he was even running much risk. He had executed a hedge on the Beef Cattle Futures Market. It is a rather complicated thing to explain but it will work. We believe this relatively new tool will be used more in the future. We also believe it will serve to stabilize the cattle market in the future. It definitely will not accurately predict the future price. It will serve as a depressant on the placement of cattle on feed at all times. At other times it will serve as a stimulant.

## Local Brotherhood To Meet Monday

There will be a meeting of the Brotherhood of the First Baptist Church of McLean on Nov. 7 at 7:30, at the church. All members and visitors are invited to attend.

# Tigers Drop Owls 22-8

McLean pushed its district mark to 3-0 and is tied for Wheeler for first place as the result of last week's game with Silverton.

At the end of the first quarter the McLean Tigers were ahead, with the score being 8-0, which was made on a 70 yard run.

Although both teams played a good game, neither team chalked up any points during the second quarter.

During the third quarter the Tigers were able to make another touchdown with a drive of 80 yards. They failed to make the conversion, which set the score at the end of the third period 14-0.

The Tigers made another touchdown during the fourth period, pushing 40 yards. For a while it looked as if the Silverton Owls would not score during the game but during the last minutes of the game, they were able to go over the goal line, making the final score 22-8.

The band king and queen for 1966-67 were crowned during a pre-game coronation service. Kay Parr and Troy Corbin received the honor, with Ronnie McLroy, Doug Ellison, Dorothy Beasley and Teresa Mertel being the runners-up.

## 2-A FOOTBALL TITLE ON LINE

District 2-A football titles will be decided Friday night as McLean travels to Wheeler. Wheeler, 2-0 in District 2-A, will play host to McLean, 3-0, at 7:30 p.m.

Wheeler will try to bounce back from their second loss of the season, a 12-6 defeat at the hands of the No 2 ranked Class A team in the state, White Deer, while the McLean Tigers will take a four-game winning streak into the Friday night contest.

This is an important game for this season, and it is hoped that a good showing of Tiger boosters will be on hand at Wheeler Friday, starting time being 7:30 p.m.

## Cotton Producers To Meet in Memphis

On Nov. 4 at the Cotton Cladding Office in Memphis at 2:00 p.m. the annual meeting of the Rolling Plains Cotton Producers, Inc., will be held for the purpose of electing new directors and the carrying on of other business.

Miss Roberta L. Suttle, niece of Mr. and Mrs. Jay Thompson, recently joined the WACS and is now taking her training at Ft. McClellan, Ala. Roberta is a 1966 graduate of the McLean High School.

It was asked that we print her new address in the paper as you can get very homesick away from home and she would like to hear from any of her friends. Her new address is Pvt. Roberta L. Suttle WAM419065, Co. C2 WAC TNG BN, U.S. WAC Center, Ft. McClellan, Alabama 36205.

## Rev. H. F. Dunn Moves To Quannah

McLean lost one of their pastors this week, Rev. H. F. Dunn, pastor of the Methodist Church. He was transferred to the Methodist Church in Quannah.

Everyone that has known him and his family are sorry to see him leave, but we hope he will be happy in his new church.

McLean wants to extend their welcome to Rev. Elton Wyatt of Petersburg who replace Rev. Dunn as minister of the McLean Methodist Church.

## Alanreed Baptists Revival Starts Nov. 6

The Alanreed Baptist Church will start their fall revival this Sunday, Nov. 6 and run through the 13.

Joe Jones, evangelist will be doing the preaching and Gene Curtis will be leading the singing.

Everyone is invited to attend these meetings at 10:00 a.m. Monday thru Friday and 7:30 nightly.

**Bird on Telephone Line—Don't Shoot!**

Southwestern Bell Telephone Co. is urging hunters not to shoot at birds sitting on telephone wires and cables, according to George Newberry, local manager.

"If you fire at birds on telephone lines," he noted, "you may knock out vital local and long distance telephone service for an entire area. Many important calls may be missed while the service is out."

The manager said that each year thousands of telephone conversations and other communications are interrupted because hunters are careless when shooting near telephone wires. It is costly in both time and money to repair damages done by negligent hunters, he said.

Mr. and Mrs. A. M. Dean of Stinnett and Mr. Dean's mother Mrs. Cida Dean visited Sunday afternoon in the Howard T. Miller home.

**TEXAS IS ON THE MOVE!**

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

**IMPROVED EDUCATION** — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

**WATER RESOURCES DEVELOPMENT** — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

**CONCERN FOR THE AGED AND NEEDY** — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

**OUTDOOR RECREATION** — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

**INDUSTRIAL EXPANSION** — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion. Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

**INCREASED TOURISM** — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

**MENTAL HEALTH AND MENTAL RETARDATION** — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

**BETTER HIGHWAY TRANSPORTATION** — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

**COMBAT AIR AND WATER POLLUTION** — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

**NEW CULTURAL GROWTH** — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

**BUSINESSLIKE ADMINISTRATION** — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

**HEALTHY, GROWING ECONOMY** — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

Texans will vote on 16 proposed amendments to the State Constitution on Nov. 8.

Major interest has been attracted to two amendments:

**No. 7** would repeal the poll tax (already nullified by federal court decision) and substitute annual voter registration.

**No. 11** would double the Texas Water Development Fund from \$200,000,000 to \$400,000,000 and broaden its uses to include water filtration, treatment and transportation facilities.

Gov. John Connally has given three of Texas' leading universities a hurry-up research assignment—a detailed analysis of food costs in the state and of the causes of recent price increases.

Connally set Dec. 1 as target date for reports by the University

of Texas, Texas A & M University and Texas Tech College. He gave the assignment to the heads of the three schools and left it up to them how to conduct the study.

"I share the concern of Texans with the dangers of inflation," Connally said in announcing the study. "And I am particularly disturbed about mounting food prices and their effects on the homemakers of our state."

Connally said "While rash judgments and emotionally based opinions as to blame are inevitable, they contribute little toward determining cause, or a sensible course of action for improvement of the situation."

Detailing his request, the governor asked for a determination of what part of the consumer's food dollar goes to the producer or grower, to the retailer, and how much goes for such things as transportation, advertising, sales incentives, added services and whatever other costs are involved.

He asked for that determination both on long and short-term bases, expressed both in absolute dollars and in percentages.

He also suggested that the food cost study be related to other consumer costs.

**GAS TRANSMISSION**—Texas' big gas pipeline operators disagree with their smaller colleagues over whether the state should assume regulation of the pipelines so the Federal Power Commission will not.

Major interstate gas transmission companies contend that they are doing well under the present regulations of the USA Standards Institute under sponsorship of the American Society of Mechanical Engineers. But the companies which transmit gas on a part-time basis want state regulation.

Both sides are to file written statements with the Texas Railroad Commission by Nov. 25. Commission then will consider all arguments and reach a decision.

**COURTS SPEAK**—State Supreme Court rejected the City of San Antonio's appeal for supplemental water supply from Canyon Dam reservoir on the Guadalupe River. Decision backed a 1958 award by the predecessor to the Texas Water Rights Commission (and affirmed lower court decisions) providing 50,000-acre-feet of water a year to Guadalupe River Authority for municipal use.

City of New Braunfels, Seguin, Gonzales, Cuero and Victoria, along with Calhoun and Refugio Counties, joined GBRA in fighting the San Antonio application during the prolonged historic water fight.

High court reversed the lower courts and ordered a re-trial of the Lubbock land condemnation case where the jury awarded \$48,000 to owners without holding a hearing.

Texas Court of Criminal Appeals set Nov. 9 for hearing on whether it should uphold rather than reverse the death penalty for Jack Ruby in the slaying of presidential assassin Lee Harvey Oswald. On Oct. 5 the court held that Ruby should get a new trial.

**ROAD REVENUE HIGH**—Texas Highway Department has been informed that Texas is expected to reap \$466,000,000 in state highway user tax revenues this year.

This would make Texas third among the 50 states in road revenue. California is expected to

take in \$941,000,000 in 1966. New York's income will hit \$497,000,000. Road-user taxes include state fuel and vehicle registration taxes, but not toll fees or parking-meter money.

**AIR POLLUTION CONTROL**—Texas's new Air Control Board came up with a tentative plan for regulating air pollution starting in 1967.

Plan includes air quality surveys and continuing studies particularly in urban areas, assistance in developing local programs, procedure for investigating complaints and plans for public education on pollution hazards.

Board is thinking about a graduated set of standards for industrial emissions from cotton gins, petrochemical plants, dry cleaning establishments and any other that could possibly aid pollutants to the air.

Although the plan is directed toward pollution from smoke and particulate matter, board members indicated it would be made to apply to other air pollution sources after six to eight months compliance notice.

**TEACHERS SEEK RAISE**—Legislative committee of the Texas State Teachers Association has proposed a new plan calling for \$61 to \$100 per month raises in teacher pay minimums.

Proposal would cost \$85,000,000 the first year with the state paying \$68,000,000 and local school districts \$17,000,000.

TSTA committee also recommended increased benefits to retired teachers, minor retirement system change, clear legal status for voluntary teacher-school board consultation agreements, sick-leave benefits, and a continuing contract and professional employment practices law to strengthen job security.

TSTA spokesmen said proposals are needed to combat teacher shortage.

**OIL ALLOWABLE UP**—Texas Railroad Commission hiked the statewide oil production allowable for November to 34.5 per cent of potential. It was the second monthly boost in a row and the highest level since June.

Factor permits production of 3,179,115 barrels a day, compared with 3,154,384 for October. Figure for November last year was 2,884,856 at 28.4 per cent. In taking the action commission noted strong demands for gasoline and kerosene and declining crude oil stocks.

**COURT SPEAKS**—Dallas County district attorney asked the Court of Criminal Appeals to reconsider its ruling that Jack Ruby, convicted slayer of presidential assassin Lee Harvey Oswald, must get a new trial.

Supreme Court declined to reconsider its opinion that the City of Dallas could order a movie to be advertised as not suitable for youngsters.

Reversing the lower courts, the Supreme Court ordered a new trial of a Burnet County couple's suit concerning the method of computing interest on a loan from Fredericksburg loan association.

In a Seguin case, the high court agreed that a school district can reassess invalid values it places on property.

**INDUSTRIAL \$\$\$**—Texas is one of four states still without some type of statewide industrial financing.

Texas Industrial Commission is pushing hard for the Legislature to submit a Constitutional amendment to allow municipalities to issue revenue bonds to build facilities and lure industry. Bonds would be retired by rent from the industry.

Commission decided to recommend the program largely because of the current tight money market.

**HIGHWAY RECORDS SET**—October contract lettings will set two highway department records. Bids totaling some \$50,000,000 will be the largest in the department's history. And the \$12,000,000 Dallas Interstate Highway 635 project will be the largest single project, moneywise, let by the department.

**SHORT SNORTS**  
Governor Connally announced approval of \$112,607 Head Start project grant for Del Valley Independent School District, Travis County, and -147,209 for South Park Independent School District, Jefferson County.

# PRICE IS RIGHT FOR U.S. CONGRESS

## BOB PRICE... the family man

Bob Price is a man whose interests are centered around his family. It's his desire to help create a better America for his children that led Bob Price into seeking the office of Representative to Congress. Bob and his wife Marty, along with their children, Janice, Carl and Grant, are a family we can be proud to send to Washington.

## BOB PRICE... wants to stop inflation

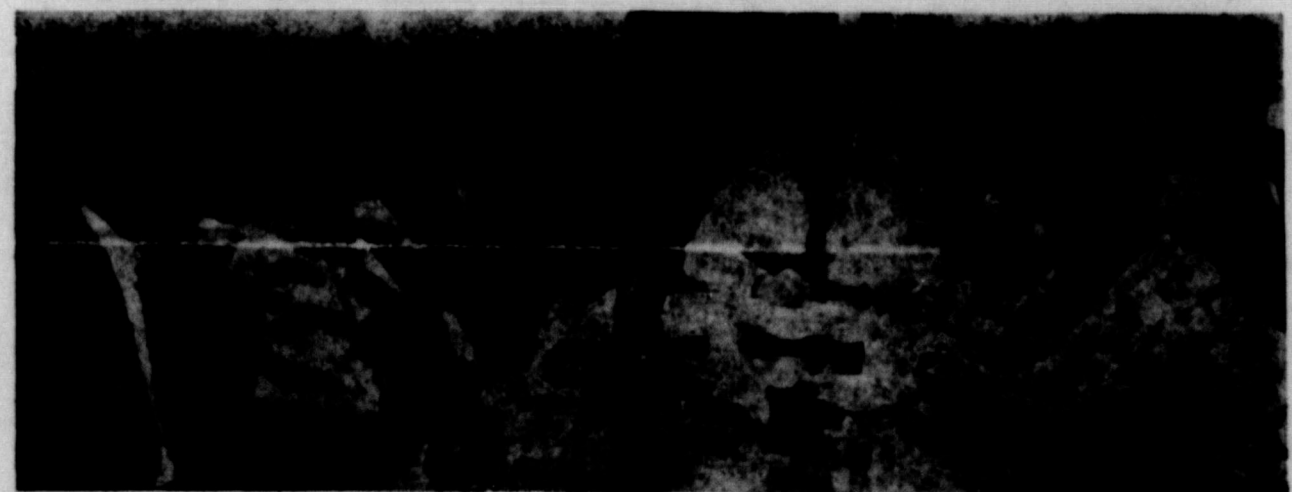

Food, clothing and house payments must be paid out of take home pay after taxes. Inflation makes this more and more difficult for every family in the Panhandle. As a man operating his own business, Bob Price knows the effect of inflation on earnings.

## BOB PRICE a man known for his vital interest in water

Bob Price's family started ranching in the Panhandle in 1907. Following in his father's footsteps as a businessman and rancher, Bob Price knows that we must use greater water conservation to raise food and to attract new industry to the Panhandle. City and County alike are concerned with this problem. Bob Price has the knowledge and experience to plan ahead for our future water needs.

## BOB PRICE... knows about war... he's been there

As a jet pilot, Bob Price experienced first hand the effects of war on the young men of today. This knowledge acts as a guideline to decision in regards to foreign policy. Experience is a valuable teacher.

## BOB PRICE... keeps in touch

Over the past 2 years, Bob Price has talked to citizens of every county in this district. He has learned the problems facing us today and has the experience to work toward their solutions. Bob Price owes no debt to any single group and can give all of you representation in our nation's capital.

## VOTE FOR BOB PRICE FOR U.S. HOUSE OF REPRESENTATIVES

\*Yes, you can vote for BOB PRICE regardless of your choice of other candidates. A split vote ticket is a legal ballot and will be counted.

# PRICE IS RIGHT FOR U.S. CONGRESS

## TUESDAY IS THE DAY!

I hope that by now you have decided to vote for me for your Representative in Austin. I also hope that you are helping me with your friends.

Several folks are a little confused about splitting a ticket. It's all very simple. Regardless of how you have voted in the primary or who else you want to vote for in this election, all you have to do is draw a line through my opponent's name and leave mine.

Friday is the last day you can vote absentee. I have enjoyed this campaign very much and want to thank all of you who have been helping me.

## NEWS OF CONSERVATION

By VAN C. MILLS

Frank Daugherty and Ruben Bagerman have completed underground irrigation pipelines.

Herb Graham has completed a field leveling job on his irrigated farm east of Pampa.

H. L. Henderson has completed a diversion and terraces on his farm east of Pampa.

### RANGE ROTATION PAYING DIVIDENDS

The following report was put out by the Texas Experimental Ranch at Throckmorton. This report has some very interesting information concerning stocking rates and different grazing systems under actual ranching conditions.

Their five-year average of weaning weights of calves is as follows:

Heavy continuous stocking, 484

lbs; moderate continuous stocking, 499 lbs; 2-pasture rotation deferred, 506 lbs; 4-pasture rotation deferred, 522 lbs. The desirable grasses were increasing in the 2 and 4 pasture rotation deferred pastures and decreasing under the heavy continuous stocking rate.

The ultimate objective in range conservation and good range management is the highest possible yield of quality range forage. Range condition, range trend, range management and treatment practices at the economics of ranching business are all anchored to range yields. The more desirable grasses we have the higher our grass yields will be. Most livestock are produced and sold on the pound basis. We know there is a very close relationship between pounds of grass and pounds of livestock produced on a given pasture.

## CROP Aids Haiti In Rehabilitation

A CROP shipment including 120,000 pounds of corn, 60,000 pounds of wheat and 10,000 pounds of non-fat dry milk will be on its way this week to Port-au-Prince, Haiti, to meet emergency needs created by Hurricane Inez in Haiti, according to Norman A. Sundwold, field representative for Church World Service in Texas.

An on-the-spot survey in Haiti by Wilson Radway, special projects director of Church World Service and former CROP national field representative, reports 50-80% loss or damage to housing in the Jacmel area of southern Haiti. "There is virtually no food available in the area," says adway. "We have already provided 45 tons of food, from supplies warehoused in Haiti. While some fruit is now available from 'salvage' in 10 days there will be serious hunger and starvation." Radway reports 4,000 cases of kwashiorkor, a protein-deficiency disease, in the devastated area.

A CROP air-lift last week to the same area consisted of 70,000 pounds of vegetable seeds and 500 pounds of sorghum seed. An additional 1,000 pounds of bean seed has been shipped by sea. The seed is essential for immediate fall planting. CROP has also purchased 1,000 sheets of sheet metal, lumber and nails for essential building construction.

CROP is the Community Appeal of Church World Service and seeks contributions of cash and commodities for emergency and rehabilitation projects in the overseas programs of the churches.

## Mrs. Back Receives Letter From Teacher

Mrs. Vera Back, teacher in McLean Junior High School, recently received a letter from a high school teacher in Jal, N. M. Since Mrs. Back has taught so many of the McLean residents, it might be of interest to some of our readers.

The letter is as follows:  
 Dear Mrs. Back:  
 I teach English here in Jal, N. M. High School and I have some of your former pupils in class. This is unusual, I'm sure, but I'm writing to compliment you on the fine job you are evidently doing. These few (the former students of yours) really do know their grammar—they are such a contrast to the other students in the class! I've wondered several times this year how you do it or what methods you use. Anyway, congratulations.

Sincerely,  
 Mollie Buffington

Dee Miller has made an outstanding record as a District Attorney, and will make you an excellent Congressman. We, the following attorneys, heartily encourage his election.

A political advertisement paid for by Miller for Congress Committee, Gene Huff, Chairman

A team for a better Texas for you!

Governor John Connally and Attorney General Waggoner Carr have worked together for 4 years to give Texas and YOU a better state and better opportunities.

As a United States Senator in Washington, Waggoner Carr will co-operate with Governor Connally to work for better education, more jobs, benefits for our elderly, and better prices for our farmers, ranchers and dairymen. He will do what is right for Texas!
