Miss Barbara McCurley Crowned Football Queen

Miss Barbara McCurley, daughter of Mr. and Mrs. C. H. McCurley, was crowned Tiger Football Queen for 1965 Friday night, during pre-game festivities. The new queen was chosen by secret ballot by the Tiger football squad.

Barbara is a senior, is the current president of the M. H. S. Pep Club, serving her third term. She received the honor of Flame Queen her sophomore year, and was an attendant to the Football Courts of

1963 and 1964. She is the young lady who was chosen to wear the Tiger suit every Friday night for the last two years. Barbara is a basketball player, FBLA officer and a member of FHA. She also has the honor of being Miss MHS for 1965-66. Barbara was escorted across the field by Captain George Green, and was crowned by Captain Doyle McCurley. Captain Robert McCabe presented the queen with a bouquet of roses from the Tiger

Football Club, with Captains Clovis Bible, Dwight Hathaway and Green congratulating their queen.

Chosen as attendants to the queen were Sharon Goldston and Teresa Mertel.

Sharon, a senior, is the daughter of Mr. and Mrs. L. T. Goldston of Alanreed. She is presently serving as head cheerleader, is an active FBLA member, FHA member and a member of the Tigerettes basketball team. Sharon was

an attendant to the 1964 queen and an attendant to the 1964 basketball court. Sharon was escorted across the field by Captain Clovis Bible.

Teresa is a junior and is the daughter of Mr. and Mrs. Johnnie F. Mertel. Teresa has been very active in supporting the Tigers this year, as she is a member of the band and a cheerleader. She has been a member of the band three years, is a member of FBLA and FHA, and is currently serving as a member of the annual staff. Teresa was escorted to her position in the formation by Captain Dwight Hathaway.

Cheerleaders Donna Glass, Mollie Gray and Jackie Groves assisted in the coronation.

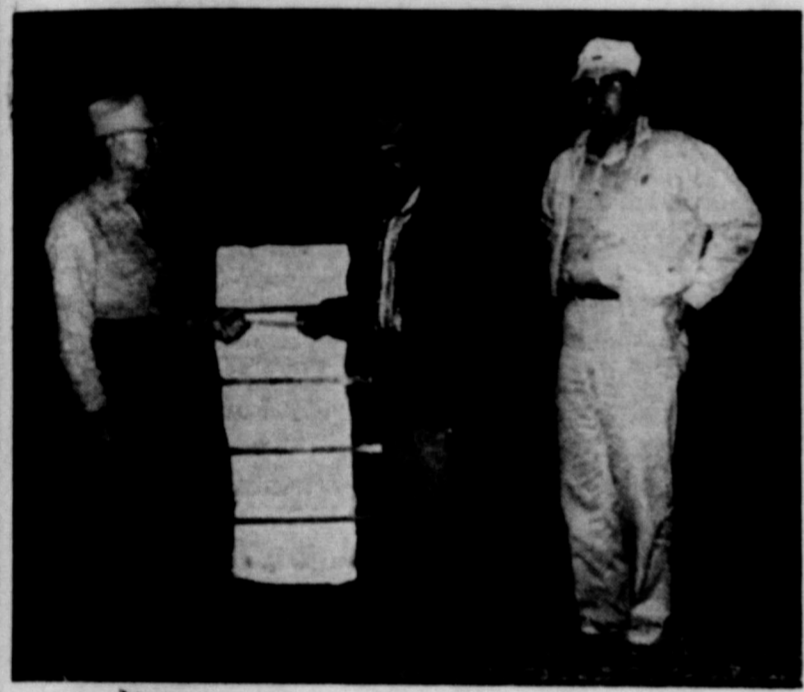

The Tiger Band entertained during the ceremonies with several numbers, "Pomp and Circumstance" and "Roses and Roses."

During half-time entertainment, the Tiger Band twirlers, Margie Pagan, Kay Parr and Gail Fry, performed by twirling with fire.

BARBARA McCurley, center, daughter of Mr. and Mrs. C. H. McCurley, was crowned football queen Friday night before the McLean-Canadian game. Attendants were Sharon Gold-

ston, left, daughter of Mr. and Mrs. L. T. Goldston, and Teresa Mertel, right, daughter of Mr. and Mrs. Johnnie Mertel.

McLEAN TIGERS DROP FINAL TO CANADIAN

The McLean Tigers were defeated by the Canadian Wildcats last Friday night at Duncan Stadium by a score of 19-8. This was the last game of the season, with an average crowd on hand for the game.

After the opening kickoff, the Tigers, led by Robet McCabe, Steve Fuller and Joel McCarty, moved the ball to the Wildcat 7-yard line. The Wildcats held, however, and took the ball over on downs. A Wildcat back almost broke loose for a touchdown after several plays, but was downed by Tiger Robert McCabe before he could reach paydirt. The rest of the quarter was mainly a defensive battle between the two teams, with neither scoring.

The second quarter was almost a repeat of the first, with both teams working hard, but neither managed to get within scoring range.

Excitement broke loose in the fourth quarter, with the Tigers getting the ball down to the Canadian 1-yard line. Joel McCarty, quarterback, plunged across to score the six points. Steve Fuller ran the extra points, making the score 8-0 in favor of the Tigers. After the kickoff, the Wildcats came back with a series of passes which resulted in a touchdown for them. The try for extra points failed, leaving the score 8-6.

After the kickoff, the Tigers were unable to get necessary yardage, and the 'Cats again took over on downs. A long run and a penalty brought the ball to the McLean 5-yard line. Canadian scored from this point in the next play, with the score standing at 12-8.

The Tigers tried a comeback by trying to pass to paydirt, but were unable to connect. Canadian again took over and scored again in the final minutes of the game, with the quarterback running 35 yards for a touchdown. A last minute Tiger rally was stopped by the running out of the clock.

The Tiger team ended the season with a record of seven losses and three wins. The team has shown a marked improvement from the first of the season, as inexperience was their handicap. The Tigers will lose five boys this year to graduation, but will have a number of returning lettermen back for the 1966 season.

20 Rural Accidents Reported in Gray Co.

The Texas Highway Patrol investigated 20 accidents on rural highways in Gray County during the month of October, according to Sgt. J. W. Wilson, Highway Patrol supervisor of this area.

These wrecks accounted for one death, 20 persons injured and an estimated property damage of \$14,057.

The rural traffic accident summary for this county from January through October of 1965 shows a total of 163 crashes. As a result of these crashes, there were five persons killed and 128 persons injured. The estimated property damage amounted to \$109,262.

November and December are noted as dangerous months in traffic, and especially for pedestrians. During the last two months of 1964 in Texas there were 80 pedestrians killed and 726 injured in collisions with motor vehicles. There are many reasons for this: longer hours of darkness, bad weather, pedestrians not visible to drivers, holidays and lack of driver's and pedestrian's concentration.

The sergeant stated: "To aid both the pedestrian and drivers, always wear something light colored when walking after dark. If possible, carry some kind of light, walk on the left side of the road facing traffic day or night so that you can see approaching traffic. If you have a dark colored raincoat or overcoat, place a strip of reflectorized material across the back and front when walking on the highway or street."

McLean Veterans Go Over Quota

Thirty-two local veterans join VFW as a protest against draft-card burners. McLean's quota was set for 28.

Draft-card burners and "retreat to peace" demonstrators demanding withdrawal of United States forces in Viet-Nam were accused of breaking faith with the nearly 1,000,000 Americans who have died in the service of their country.

The charge was leveled by William J. Driver, administrator of Veterans Affairs, and chairman of the President's Veterans Day National Committee, as the nation observed Veterans Day on Nov. 11.

Driver pointed out that more than 30,000,000 Americans have donned uniforms to insure the survival of freedom and liberty in the course of nine wars during the nation's history, and that approximately 1,000,000 of these patriots met death in service. "If those who now refuse to serve, and those who preach peace at any price were to prevail," he declared, "it would make a shameful mockery of the sacrifices and deeds of valor contributed by all our veterans, living and dead."

"We did not choose to be the guardians at the gate, but there is no one else."

"Nor would surrender in Viet-Nam bring peace, because we learned from Hitler at Munich that success only feeds the appetite of aggression."

Light Rain, Heavy Fog Delays Harvest

The light rains on Monday and Thursday last week, and the almost daily heavy fog further delayed cotton harvesting this week, according to the USDA's Consumer and Marketing Service, Memphis.

The Memphis classing office processed only about 3,000 samples during the week ending Nov. 12, stated K. E. Voelkel, in charge of the classing office. This brought the season's total to 16,000, about the same as last year. The slowness of harvesting is reflected in comparing this year's total with previous seasons. In 1963, 48,000 samples had been classed; in 1962, 65,000; and in 1961, 103,000 samples.

Rural Carriers To Conduct Survey

Rural mail carriers from the McLean Post Office will leave some livestock survey cards along their routes beginning Nov. 20.

Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms. Postmaster Frank Simpson explained. Rural carriers distribute the cards at random in boxes along their routes.

"This means not every box will get a card," Simpson said. "For this reason, it's important for everyone who gets a card to return it filled out so that USDA can get a true sample of the state's livestock holdings."

Jim Hathaway, Route 1, is assisting with the survey. Facts and figures secured in this survey are the basis for Texas and national pig crop report and inventories of livestock and poultry on farms as of the first of the year. Stockmen and many others use this information in making business decisions. Survey results will be widely distributed through Texas Crop and Livestock Reporting Service releases, newspapers, farm magazines, radio and television.

Teenage Marriages Continue to Increase

The number of teenage marriages continues to rise in Texas, says Mrs. Patsy R. Yates, Texas A and M University extension specialist in family life education. A recent study conducted by the West Texas Study Council in high schools across the state indicates that only four of the 238 schools studied require married students to take a course in home and family education.

Sixty-one of these schools had available an elective course in home and family life which either boys or girls might take, Mrs. Yates says.

Some counties in the state report as many divorces granted as marriages performed, the study showed.

"More courses in the art of living are definitely needed," Mrs. Yates emphasizes.

Mrs. Yates, who was on the program at the annual American Home Economics Association convention earlier this year, reports that the national organization has compiled selected papers from the

annual meeting which relates to educating the teenager in human relations and management of resources.

The booklet includes "What We Know About Today's Teenagers" by Dr. Melvin Heller, associate professor of psychiatry at Temple University, and 17 other papers that relate home economics subject matter to the education of adolescents. People who work with teenagers will find this information helpful in developing programs, says Mrs. Yates.

A BUNDLE OF JOY ARRIVES

Excitement fills the air as these needy Filipinos gather around to see the latest bundle of joy. It is not the proverbial bundle of joy—but it brings life in another way—in the form of life-giving supplies such as food, clothing and medicine. Here, clothing is being distributed by a social worker from Catholic Relief Services, overseas aid agency of American bishops, which operates relief and welfare programs for the needy, regardless of race, creed or color, in more than 70 countries. You, too, can bring joy to those in need by donating your serviceable used clothing, shoes and bed linen to the annual Thanksgiving Clothing Campaign. Bring or send a bundle to the nearest Catholic church during November.

FISHING LINES

By DICK WOLFF

With the approach of the fall hunting season, some of us tend to retire our fishing tackle for the winter. This is a mistake, I found out one day many years ago.

My partner and I were duck hunting on a Minnesota lake, waiting for a flight of bluebills supposedly hurrying south ahead of a Canadian cold front. We were a day early. The front was still in Canada — so were the ducks.

The Indian summer sun blazed overhead. We shed our canvas coats, and ate our lunch while mallards slid into the decoys on cupped wings. We fired almost simultaneously and the bird splashed down, feebly twitched — then lay still.

My lab, Dolly, wasn't with us that day, so I was playing retriever. I started to pull up my waders to go after the duck when my partner interrupted, "Hold on a second, I want to try something."

With that he reached into the game pocket of his hunting jacket and pulled out a compact, three piece Garcia spinning rod and a Mitchell reel. From another pocket he took out a floating bass plug.

My friend flipped the plug toward the floating dead bird. The lure missed by a couple of feet.

Hurrying the plug back for another try, my friend looked back with an apologetic expression. At that moment, I saw a V-wake heading straight for the plug and a second later an arm-long pike grabbed the plug and cartwheeled over a decoy. The line tangled with the decoy cord and the fish was off.

The duck hunting was forgotten for the next few hours, as we covered the shoreline of the small bay and picked up four nice pike and one husky smallmouth.

MEDICATIONS CONTRIBUTE TO ACCIDENTS

The Texas Highway Safety Association today reminded drivers that many drugs, such as those which relieve nasal congestion and combat allergies, can contribute to traffic accidents.

"Many modern lifesaving and health-restoring drugs can affect reaction time or sensory functions," J. O. Musick, TSA general manager, said. "Drivers should use caution when taking such drugs."

He emphasized that all persons do not experience side-effects from drugs but those who do should not drive. He further warned that side-effects do not always show up immediately.

Many drugs induce sleep and cause inattentiveness several hours after their consumption, Musick explained.

He cited six major types of drugs which impair driving ability. These are:

1. Antihistamines—Certain brands have unpredictable side-effects on different individuals. They can cause sudden drowsiness, or a dizzy spell that makes a person unfit for driving.

2. Pain relievers and sedatives—These can affect reaction time and sensory functions. Some give such a strong feeling of well-being that a driver may forget driving is a demanding business. Others may make a driver sleepy, dim vision, or interfere with his concentration and reflexes.

3. Tranquilizers—Great care must be exercised to avoid some surprising effects. Some people become giddy, others experience sudden episodes of drowsiness, faintness or disorientation.

4. Nerve stimulants—Often these are recommended for the tired traveling person. The best rule is never take more than one. While,

TAX SAM SEZ:

If you have a maid come to help with the cleaning one day a week you probably owe social security tax. The law requires you to get an employer's number and file a tax return if you pay an employee more than \$50 during a quarter. The Internal Revenue Service will send you a free copy of Circular H. This publication tells you how to get a number and pay any tax you owe.

Lion Boss Hickman Brown called on Lion Jimmy Payne, who was in charge of the program for the day. Payne presented four high school students who gave a musical program. Those on the program were Gayle Mullanax who played "Yellow Rose of Texas"; Betty Dickinson playing "Learning the Blues"; Billy Rodgers who rendered a boogie woogie number.

The sophomore class at McLean High School elected officers last week. They are: President, S. A. Cousins Jr.; vice president, Elgin Shell; secretary, Clara Anderson; treasurer, John B. Rice; yell leaders, Elton Johnston and Beatrice Cash; pianist, Floye Landers; reporter, Mildred Landers; sergeant at arms, Glen Wolfe; chairman of social committee, Frances Noel.

A pep meeting was held Tuesday. As the yell leaders were not present, the following were appointed to carry on: LeRoy Landers, Lena Sparks, Miss Blair and Mr. Ratterree. Everyone seemed to be full of pep and showed the Tigers they are behind them, whether they win or not.

Up to Nov. 1 there had been ginned in Gray County 2,033 bales of cotton, as against 369 this time last year.

Rev. J. A. Scroggins will be pastor of the McLean Methodist Church for the ensuing year. Rev. J. G. Thomas goes to Brownfield with a much larger salary. Rev. Thomas has been in McLean only one year, but he has accomplished much work, the church having erected a new building under his pastorate, and he and Mrs. Thomas have many friends here who regret to see them leave, but are glad to know that they go to a better field.

**Congress Approves
Screwworm Funds**

Funds spent on the screwworm eradication program by the federal government no longer will have to be fully matched with non-federal money, thanks to action taken by Congress during the closing days of the session.

The cost of treating screwworm outbreaks that occur in areas of the United States where the insects have already been eradicated must continue to be matched by state and private sources. However, the expense of maintaining a barrier zone along the U.S.-Mexico border to guard against reinfestation of fertile fields will be borne by the federal government.

Congress voted \$2.8 million for maintenance of the barrier. It also appropriated \$20,000 for an intensive survey of screwworm problems in Mexico and \$1 million to cover eradication activities in Arizona and California—the only states where screwworms have not been eradicated. Of the latter amount, \$600,000 will have to be matched by the two states.

Since inception of the eradication campaign in February, 1962, half of the costs have been paid by the federal government, the other half by the livestock industry and state governments in Texas, New Mexico, Oklahoma, Arkansas and Louisiana. The livestock industry, through the Southwest Animal Health Research Foundation, has raised nearly \$4 million on a voluntary basis.

Dolph Briscoe of Uvalde, foundation president, praised the action of Congress, stating that it "assured protection of all states from reinfestation by screwworms which have caused up to \$100 million damage annually."

Briscoe stressed to livestock producers that they still have an important obligation to the eradication program, and urged them to continue to support the campaign by treating animal wounds and reporting infestations.

Mrs. C. H. Butrum of Lefors visited Saturday with Mrs. Louis James.

BEEF CATTLE PERFORMANCE

A report from James Carpenter Jr., assistant animal husbandman for Texas farms, shows an average daily gain on 100 bulls to be 3.63 pounds the past 28 days. We are speaking of the Pan-Tech bull feeding test that is sponsored annually. One bull owned by Laurin Pain, Booker, gained an astonishing 5.5 pounds daily.

A sale follows this feeding gain test on March 24, 1966.

COTTON VOTE

The 1966 cotton program offers you some important new choices. However, the first question you are to decide is the same one that producers have been voting on every year. It is: Do you favor marketing quotas for next year's crop?

The day to vote on this question is Tuesday, Nov. 23. If quotas are approved by at least two-thirds of those voting, quotas and the new cotton program will be in effect. We encourage every cotton farmer to cast their ballot on this issue.

CATTLE FEEDERS

We have had so many calls for an extension service publication MP-494, "Livestock Marketing Handbook," that we had to re-order. Our stock is now in order. Give us a call if you need a pocketbook sized handbook. This publication has a series of charts in it that shows the equivalent value of an animal on foot as compared with the value of a dressed carcass based on percentage dress.

This publication was worth close to \$400.

One producer is making the determination of selling on dressed carcass basis rather than on foot on a pen of cattle, fed out through a local commercial feed lot.

One thing you can be dead certain about in the cattle business today is the fact that you are in for some rapid changes. When a fellow makes a statement like this today, you can depend on one thing. He is in a rut. "I wouldn't ever feed anything except choice native steers." He might be right today but wrong tomorrow.

This was pointed out real well in the last issue of the USDA livestock and meat situation report.

They compared the cattle feeding year 1963-64 to an exact situation in the 1964-65 year. A chart shows five different classes of cattle bought at specified periods in the fall and sold at specified dates in the spring.

Good heavy steers bought in fall of 1963 and sold in the spring of '64 sold at a \$28 loss to the feeders. This class of cattle lost more than any other fed during this period.

In the fall of 1964 this same type of cattle was purchased and fed during winter and marketed in the spring of 1965. This time this same type of cattle made a net gain of \$77 per head and gave the highest net return.

The moral to this story is obvious. Be willing to change when the situation dictates.
