Tigers Rope Bronchos In Thriller Friday

The McLean Tigers had a happy Halloween Friday night as they defeated the Clarendon Bronchos by a score of 28-22. In a dramatic Texas Tech style finish, the Tigers came from behind to make the winning score with less than 49 seconds left in the game.

A good sized crowd watched the exciting game at Duncan Field.

The first quarter was started with a Broncho score with 5:53 minutes left to play. The extra point try was good and the score stood at 8-0, Clarendon. The undefeated Tigers came roaring back with Robert McCabe and Steve Fuller sparking the attack, scored in a few plays. The conversion made the score 8-8.

The second quarter saw another score by Clarendon and some outstanding action by the Tigers. This quarter was no indication of what was to come.

From the beginning of the third quarter, the Tigers seemed to be playing even stronger than before. Freshman Signal Caller Joel McCarty unlimbered his arm on sev-

eral long, beautiful passes which netted valuable yardage. The Tiger line, led by Raymond Baker, Lonnie Easley and Bryan Parker, held the Bronchos to a minimum of ground gain, while Ends Doyle McCurley, Drew Fuller and Clovis Bible snatched McCarty's passes for another score. Steve Fuller went over from one yard to make the six points. The extra point was good and the score was 22-16 in favor of Clarendon at the end of the quarter.

In the fourth quarter things seemed a little dark for the Tigers, but with less than two minutes left to play, Steve Fuller grabbed a Broncho fumble on the Clarendon 36. Two long passes from McCarty brought the ball to the two and McCarty crashed across to make it a tie ball game.

Faced with a fourth down and about nine yards to go for a first down, the Bronchos chose to run, and the Tigers held them to take the ball on the 32. With 22 seconds left to win, McCarty flipped a long pass to Clovis Bible in the end

zone. Bible caught it and the Tigers had a lead which the Bronchos couldn't beat. The final score was 28-22.

This week the Tigers traveled to Wellington for the next to the last conference game in District 2-A this year. Last week, White Deer routed the Skyrockets 40-0. Previously unbeaten Wellington had given up only six points in conference play this year.

The game Friday starts at 7:30 p.m. at Wellington.

Wellington Dinner Friday

The Wellington sophomore class will sponsor a pot luck dinner Friday, Nov. 5. The prices are \$1.25 for adults and 75c for children under 12.

The dinner will take place at the school cafeteria, and all food served will be home-cooked. The cafeteria is one block west and two north of the football field. Serving time will be from 5 to 7 p.m.

McLean residents have been extended a special invitation to come by for a good dinner before the McLean-Wellington football game.

STATE CAPITAL Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

Texas law enforcement officers are urging Gov. John Connally to call a special session of the Legislature to repeal the controversial new Code of Criminal Procedure before it becomes effective Jan. 1.

Texas Police Association has petitions circulating among lawmen in 60 police departments, calling on Connally to do something about the code.

Many lawmen fear forthcoming changes in the statutes will hinder them in combatting crime in Texas. They feel new procedures tend to molly-coddle criminals.

Meanwhile, Atty. Gen. Waggoner Carr is continuing a series of seminars over the state to explain provisions of the new code. A conference at the University of Texas on Nov. 11-13 will explore it in depth.

State Bar Association, which assumed leadership in putting across the changes after years of study, received praise for its efforts from Civil Liberties Union.

Commented Austin Police Chief

Bob Miles, past president of Texas Police Association:

"To be perfectly frank, the more we read of the new code . . . the less encouraged we feel."

POLLUTION STUDIES—Strong moves to abate present pollution of Texas streams and to prevent further contamination are now being made by state agencies.

Texas Railroad Commission continued its series of moves to pinpoint oilfield water pollution and outlaw it. Latest was an order giving oil and gas operators in Lipscomb County until May 1 to quit using surface pits for disposal of salt water.

"This activity has as its background the new federal law, giving the states until June 30, 1967, to adopt and make plans to enforce purity standards on all their streams. Otherwise, the federal government will set up its own anti-pollution measures."

INSURANCE RATE CUT—State Board of Insurance approved an average decrease of 2.9 per cent in Texas workmen's compensation

rates, effective Dec. 1.

Annual savings on premiums are estimated at \$4,500,000 a year.

There are about 600 categories of compensation coverage. Some will be increased, some decreased sharply, but the overall average cut will be 2.9 per cent.

MARRIED MEN FACE DRAFT—State draft boards in December will be authorized to draft any childless married man, regardless of when he was married, to fill Texas' largest draft call in 12 years—1,714 men.

New policy pertains to men 19 through 25 years old, according to Col. Morris S. Schwartz, state selective service director.

ATTORNEY GENERAL SPEAKS—Licensed beauty operators cannot legally work in barber shops, shampooing, tinting or styling hair of male patrons, says Attorney General Carr. Barbers and beauty operators, he cautioned, have separate state licensing laws and regulatory boards.

In other opinions, Carr concluded that the Dallas District College District has no authority to tax intangible assets or rolling stock of railroads; and that a "pour and shake" flour is prohibited from sale because it does not meet standard measure and is not designed for "special or limited use."

Mrs. A. D. Nichols and children, Bruce and Deann, and Mrs. Lenora Fitzsimmons and daughter, Cheryl, of Albuquerque, N. M., visited this past week with Mrs. Nichols' parents, Mr. and Mrs. H. H. Sanders.

INDIANAPOLIS—Holly Hogub is like your little girl. She laughs and talks and sometimes sheds a tear. She loves her dolls and her doggy . . . just like your little girl does. There is something that your little girl can do and Holly can't. She can walk. Holly is a victim of Spina Biffidia which means that she was born with an open spine. Fortunately, for her, she had the outstanding services of the Crossroads Rehabilitation Center here to turn to for help. Physical Therapists have taught her to sit and to stand. Now she is learning to walk. Because of the patient care and treatment she is receiving at Crossroads, Holly will soon be able to run and play with other children . . . just like your little girl does.

Mr. and Mrs. Kenneth Hambright and Mr. and Mrs. Joe D. Smith attended a Morrow-Thomas Hardware luncheon held at the Coronado Inn in Amarillo Sunday.

Mr. and Mrs. Don Trew and family of Perryton visited over the weekend with their parents, Mr. and Mrs. Wheeler Carter and Mr. and Mrs. J. T. Trew.

Mr. and Mrs. Woody Wilkerson and Donna Sue Graham visited in Amarillo over the weekend with Mrs. Wilkerson's parents, Mr. and Mrs. W. T. Eldridge.

"I want a dog of which I can be proud," said Mrs. VanSnoot. "Does that one have a good pedigree?"

"Lady," declared the kennel owner, "if he could talk, he wouldn't speak to either of us."

There are no "snooty" people around our service station. We cater to every customer—whether he drives a second-hand jalopy or a Cadillac. Try us today for all your service station needs—at the sign of the Chevron.

Miss Betty Dilbeck, Jimmy Earl Adams Exchange Vows

The First Baptist Church in McLean was the scene of the Saturday, Oct. 16, wedding of Miss Betty Dilbeck and Jimmy Earl Adams, with Rev. Dan Beltz, pastor, officiating for the double-ring ceremony.

The new Mrs. Adams is the granddaughter of Oscar Tibbets and the daughter of Mr. and Mrs. L. F. Giesler of McLean. Adams is the son of Mr. and Mrs. R. E. Adams of Gatesville.

Miss Martina Giesler, sister of the bride, furnished the traditional

wedding music on the organ, and accompanied Mrs. Morris Brown, soloist.

Miss Daylie Anderson, student at North Texas State University, was maid of honor.

Airman Bob Hinkle of Altus Air Force Base served as best man. Ray Dilbeck, brother of the bride, and Bill Kingston were ushers.

Given in marriage by her grandfather, the bride chose a gown fashioned with a fitted bodice of lace, and full skirt of bridal satin which draped to form a chapel train. Her veil of illusion was held by a tiara of pearls.

Immediately following the wedding, a reception was held in the church parlor.

The couple is at home at 212 Bonnett Street, Austin, where the groom is stationed in the Air Force.

Shamrock To Host Bridge Tournament

The time has come for Shamrock to again roll out the green carpet of welcome for contestants in the fourth annual Irish sectional bridge tournament.

Sponsored by the Shamrock Chamber of Commerce, the tournament will be held in the National Guard Armory on Friday, Saturday and Sunday, Nov. 5-7.

There has been a notable attendance increase at each succeeding tournament, and this year's event should easily pass the 200-table mark, a goal which has been set by Mrs. I. C. Mundy, committee chairman in charge of arrangements.

"Most of last year's champions are expected to be back to defend their titles, and it is my opinion that there are several qualified players in the Shamrock and surrounding area who are capable of giving these people good, stiff competition."

"So we are asking you now to please plan to play in the Irish sectional bridge tournament," Mrs. Mundy said.

Social Security Announces Schedule

The following schedule has been announced for social security representative to area cities:

NEWS OF CONSERVATION

By VAN MILLS

Two diversion terraces were staked for Monroe Seitz Sr. on his farm east of Laketon. These diversions will help to protect cropland and prevent further gully erosion on ranchland. Monroe plans to seed some undesirable cropland back to grass. Seitz is carrying out a completed conservation plan on this farm.

George Dillman reported that his terraces worked real well during the recent heavy rains. George is doing a good conservation job on his farm. A farm pond was staked for George Ingram on a place he operates northeast of Pampa.

Seeding of undesirable cropland back to grass can be very profitable. At the Woodward Experiment Station on a 6-year average native rangeland, well managed produced 40 pounds of beef per acre. Cropland seeded back to native grasses produced 87 pounds of beef per acre. Seeded native grasses out-produced native range and by 47 pounds of beef per acre. 80 per cent cost-share assistance is available for establishing cropland to grass. Up to 80 per cent cost-share assistance is also available for establishing desirable grasses on abandoned cropland and rangeland in poor condition.

Fertilizing is a very important part of a conservation cropping system under irrigation. 120 bushels of grain sorghum removes 100 pounds of nitrogen, 50 pounds of phosphate and 30 pounds of potash. Three tons of sorghum straw contains 65 pounds of nitrogen, 20 pounds of phosphate and 95 pounds of potash. 50 bushels of wheat removes 50 pounds of nitrogen, 35 pounds of phosphate and 25 pounds of potash. Three tons of wheat straw contains 40 pounds of nitrogen, 15 pounds of phosphate and 70 pounds of potash.

The residence of the President of the United States was first called the White House in 1811, but not until Theodore Roosevelt put the name on stationery in 1902 was it made official.

NEW ATTENDANCE MARK SET AT SIX FLAGS OVER TEXAS

Six Flags Over Texas, nationally acclaimed historical theme amusement park located in Arlington midway between Dallas and Fort Worth, recorded 1,625,743 admissions through Sunday, October 10, topping the 1964 season attendance record of 1,622,566 visitors.

Another month and one-half remains on the Six Flags 1965 season with the Park operating on Saturdays and Sundays only until closing on November 28.

In announcing the new attendance record, Six Flags' founder Angus G. Wynne, Jr., president of Great Southwest Corporation, owner/operators of the popular tourist attraction, said "the success of Six Flags which has now shattered the previous season's attendance mark for the fourth consecutive year is a never ending source of gratification. It also is a challenging thing and one which we delight in accepting, for in order to maintain and increase Six Flags' popularity, we must put our best brains and talents to work each season for new ideas, rides, shows and attractions."

Six Flags, which opened in 1961, has now been visited by more than 6,500,000 people from every state in the Nation, and countless foreign countries.

THREE 14-year-old boys were injured several weeks ago in this 1957 Ford, when the car failed to negotiate a curve in the south part of town. The driver of the car, Scott F. Texas Farm Bureau To Meet In Dallas

Policies to guide the Texas Farm Bureau next year will be decided upon at the organization's 32nd annual meeting in Dallas Nov. 14-17 at the Adolphus Hotel. Delegates will also adopt recommendations for policies of the American Farm Bureau Federation.

Some 2,000 persons, including over 800 voting delegates representing 201 organized county Farm Bureaus, are expected to attend, according to C. H. DeVaney, Waco, president of the 92,552-member organization. Registration will begin Sunday, Nov. 14, at 2 p.m. in the Adolphus. The convention will be adjourned at the close of the business session Nov. 17.

Guest speakers on the morning of Nov. 16 include U. S. Senator John Tower, Texas Attorney Gen. Waggoner Carr, and George Doup, Indianapolis, president of the Indiana Farm Bureau, second largest state Farm Bureau in the nation. President DeVaney will deliver his annual address Monday morning, Nov. 15, and Edwin Sanderson, Paris, secretary-treasurer, also will make his report to the members that morning.

Cotton Harvesting Increases Slightly

The weather this past week was ideal for maturing the late cotton and it also permitted harvesting to increase in some counties in the Eastern Panhandle. As a result, sample receipts picked up from about 350 to 1,000 a day, according to USDA Consumer and Marketing Service, Memphis.

During the week ending Friday, Oct. 29, 4,000 samples were classed for a seasonal total of 7,000. This compared with 9,100 samples as of the same date last year, stated K. E. Voelkel, in charge of the Memphis classing office.

As harvesting increased, the quality of cotton was considerably lower than reported last week.

PROGRAM PLANNING

On Monday night this week, we had a beef cattle and field crops committee to meet in Pampa. Purpose of the meeting was to select several result demonstrations for the coming year.

Two McLean residents, John Haynes and Wilson Boyd, worked with our beef cattle committee and this committee decided to have demonstrations on grade, pregnancy testing, caking steers on grass, use of certain systemic insecticides, worming both native and imported cattle, grub control, vitamin "A" and use of sorghum sudan hybrids.

Demonstrations were planned in several phases of field crops. Variety and fertility test are planned for wheat. On milo, demonstrations are planned on varieties, fertility, row spacing, pre-emergent sprays and fence row weed control. On cotton, demonstrations are planned for early season insect control, fertility and seed treatment.

Some of these demonstrations will be run on ranches in the McLean vicinity and at the Triangle Ranch, Feed and Cattle Company, McLean. Other tests will be run at Moody Farms Feed Lot north of Lefors. We believe more ranchers and farmers should look into the possibility of utilizing our two feed lots. They ship milo and cattle both to California feed lots. This ups the price of milo by at least 50 cents per hundredweight over local prices. No doubt it costs considerable more to transport live cattle this far.

We believe the Panhandle of Texas affords the best opportunity to congregate with other areas in the feeding of livestock. We hope to have several demonstrations where results are reported from our feed lots.

Leslie Darsey recently started what he hopes will be a year round cattle feeding operation. He has cattle on self feeder and the Triangle Ranch Feed and Cattle Co. makes on the ranch deliveries. Watch this trend spread.

Herman Mayes Attends Modern Woodmen Session

Herman D. Mayes, Pampa, Modern Woodmen of America district representative for the McLean area, has returned from Dallas, where he participated in a regional sales conference of the legal reserve life insurance society Nov. 2 and 3.

Mayes was selected to represent McLean at the conference by his agency manager, Daniel Sexton of Amarillo. In Dallas, Mayes joined approximately 65 other leading agents from southwestern territories in discussions of life insurance as property, considerations for Social Security in the computation of life insurance needs and of Modern Woodmen's unique fraternal benefit system.

Five key personnel from Modern Woodmen's home office in Rock Island, Ill., instructed the Pampa man in the technical aspects of underwriting, programming, and the value of continued study in all phases of the life insurance profession.

Widows Can Claim Social Security At 60

Widows may now qualify at age 60, instead of age 62, for monthly social security benefits based on the earnings of the deceased husband, according to Hal Geldon, district manager of the Amarillo Social Security office.

The amount of the benefit is reduced if the widow is under 62 when the benefit starts, and the reduction continues after age 62. On the average, however, the widow who begins her benefits before 62 receives about the same total amount over the years, but in smaller payments made over a longer period of time, Geldon explained.

Widow's benefits are based on a percentage of the retirement benefit that her deceased husband would have received at 65. The benefit is 82 1/2 per cent at age 62, 71 1/2 per cent at age 60.

The widow must make her own decision as to whether or not she wants to begin her benefits before age 62. Geldon added, however that social security representatives will be glad to give detailed information so the claimant may make an informed decision.

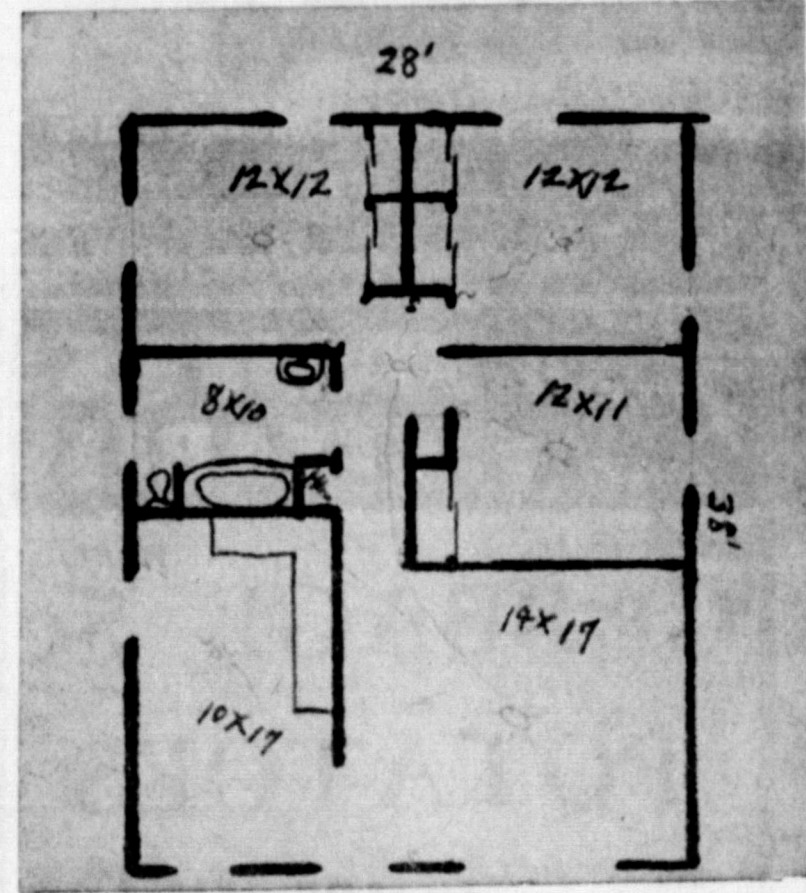

The social security office in Amarillo is located at 1006 Adams.

Veterans Earnings Show Increase

The average monthly income—after taxes—of a veteran who obtained a GI home loan has increased from \$473 in 1966 to \$519 in 1964, a recent Veterans Administration survey reveals. Jack Coker, manager of the VA regional office in Waco, said the veteran home buyer's average housing expenses, including loan payments, taxes, utilities, etc., has increased during the same period from \$107 to \$151. The average purchase price of a home bought under the GI program has increased from \$8,679 in 1960 to slightly more than \$16,000 during 1964, according to the VA official. One of the main reasons for this jump is veterans are buying bigger and better homes. Slightly more than 71 per cent of the homes purchased with GI loan in 1964 were bought with no down payment, Coker said. The average loan term was 28 years and two months.

Miro Pakan of McLean suffered several broken toes, a broken leg and cuts and bruises about the face Saturday night in a truck-auto crash just east of the city limits of Erick, Okla., on Highway 66. Two persons were killed in the crash. Pakan was driving a cattle truck that crashed head-on with an automobile. The driver of the car and one passenger were killed and a third passenger is in critical condition in a Sayre hospital.

J. C. Claborn, local justice of the peace, has resigned that position, effective this week, it has been announced. Lack of time to devote to the duties of the office was the reason for the resignation. Claborn who is secretary of the McLean Lions Club and who operates a funeral home in McLean, was recognized as a "Tip Top Texan" in Monday's Pampa Daily News.

C. S. Rice was sworn in Tuesday morning to fill the unexpired term of Claborn. He was appointed by the commissioners court.

Fall Armyworms On Increase

Reports coming to the extension entomologists from widespread areas of Texas indicate that fall armyworms are on the increase. Presently, most activity is in the eastern half of the state.

The entomologists advise farmers and homeowners to be on the alert for the damaging insects. Young larvae often go unnoticed until they become rather large and have already skeletonized the leaves of the plants under attack. They feed on native and improved grasses, corn, alfalfa, grain sorghums, cowpeas and lawn grass.

Mr. and Mrs. Doyal Billingsley and Mr. and Mrs. Charlie Vineyard and family visited Saturday with their grandfather, R. F. Cheatham, who is in Highland General Hospital in Pampa. The Billingsleys also visited with Mr. and Mrs. Charles Jones while in Pampa.

The Northfork post office will be discontinued after Nov. 14, according to orders from the Post Office Department at Washington, D. C.

Northfork is the oldest post office in Gray County, being established on what is now the S. A. Cobb ranch, where it has been every since. Northfork has never been a town and for a time daily mail was delivered there from Mobeetie, but of late years mail has been carried from McLean three times a week.

Eighty feet of new sheds for the benefit of pupils who drive to school are being erected at the McLean school this week. We are told that the school board is furnishing the material and the patrons are erecting the sheds, donating their work to the school district.

J. S. Howard is president of the board, taking the place of C. E. Anderson, who resigned last week as trustee. Mr. Anderson's place as trustee will probably be filled at the next meeting of the board.

E. M. Rice, city secretary, leaves this week for Matador, where he has accepted a position as cashier of the First National Bank of that city. Rice held a similar position with the American National Bank here for nearly eight years.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

It is possible in time Secretary Willard Wirtz's bureau will be changed from Department of Labor to Office of Unemployment Promotion.

His position on farm labor is already taking effect. The need for farm labor is being eliminated. At the confluence of California's Sacramento and San Joaquin rivers are located the rich peat lands where the majority of the nation's asparagus is grown. In fact, much of it is shipped to world markets.

There are two outlets. One is the harvesting and sale of fresh asparagus, while the bulk is canned. Because it cannot be subjected to processes involved in canning, fresh asparagus has to be cut differently.

Formerly this work, as well as cutting the "grass" for canneries was done by hand by local labor supplemented by foreign workers largely due to the fact that the supply of domestic labor willing to do this hard, hot work is limited.

In addition, when ready, asparagus has to be cut promptly or the fields go to ruin. This year, due to denial of labor by Secretary Wirtz, asparagus fields were plowed up.

American ingenuity is quite a marvelous matter. This year the asparagus growers started working with a machine that harvests the crop and it is expected by next year

it will be harvested by this newly developed cutter. However, this will remove to a great degree the annual treat of fresh asparagus on the American table, because the mass production mechanical method must be geared to harvesting all "grass" for the canneries. Thus, practically no labor will be required. Thus, two birds have been killed by one stone. No jobs, and little fresh asparagus.

Work has also been speeded up on the development of a mechanical tomato picker. This is dependent upon the experiment station of the University of California completing development of a new tomato variety which produces fruit of a uniform size and maturity. Three years ago the first of these varieties were picked and it is hoped next year all tomatoes will be machine picked.
