## LOOKIN' BACK

by Vera Featherston Back

our motto, "A quitter wins and a winner never" is a small nucleus of the McLean Historical Society has worked diligently for months to accomplish our goal establishment of a area museum.

one knows what he can do "he tries" is an apt phrase used by some one, and "He is a dreamer; he who works is a drudge; but he who plans and works his plans is a conqueror" has certainly been proved.

remembering with Josh Billings that even a postage stamp can be a success through its use to stick to one thing till there, we have stuck with the museum project until it is going to materialize.

the beginning, thinking in terms there is strength, John Agnes appointed almost a year to the Alanreed-McLean Museum, but most of these have been one or two, even though actually were interested in establishment of such an institution, they found other things to do on meeting night.

ere were, however, at least a dozen who put the museum on their program. They met, met, revealed their plans, discussed ways and means, exchanged ideas, and now are about to make our plans come true.

every undertaking there is some one who does just a little more. Most of us have talents and sometimes that "under a bushel." One of our committee has many talents and has put all of them to work for the museum. It is through the generosity and foresight of Alice Short Smith that we will for two years, at least, have a building in which to house many articles of intrinsic historical value and interest.

the building between Parsons and McLean Hardware, which it has been renovated, will be the home of the Alanreed-McLean Area Museum which is having its grand opening the weekend of the McLean High School Homecoming, September 13-14. At present we have a number of interesting items stored in the Bob Massey building, and this storage while we were waiting out details for a building we do appreciate Bob's generosity.

the museum is a certain one so many are rallying to our aid. Otis Colgate, last occupant of this building, is leaving his building which is already under way to install the second unit which insures your being able to view the displays in cool comfort. Chuck Cooke is acting as an advisor in the renovation and an able one he is, and Edward Williams has made us several keys so workmen may enter and go with out waiting all day to secure access into the building.

Down through the months so many have made monetary contributions to the museum fund, some large, some small, but it all adds up and this will be greatly needed in renovation and in buying or building display cases.

## LETTERS TO THE EDITOR

Dear Editor,  
At least once or twice in a man's life time, he feels compelled to say what he knows to be the truth.

Most of us taxpayers, here in this community have worked mighty hard and long for what little comfort and respectability we have managed to scratch out of the ground for ourselves.

It seems a shame to turn it over to someone with poor business judgement to squander.

After twelve years of maybe not too good a service in public office, I have learned one thing well. It is, that governmental employees have been allowed to make policies and set rules when elected officials do not care to do so themselves.

This has been allowed for so long from the local level, all the way to Washington, that it could very well be the main cause for the domestic turmoil that we find in this country today.

The first thing that a board or body of representatives should consider when it sets about the task of hiring help, is, whether it wishes to have for its self a boss, or hire for its self a hired hand.

A lot of us yokels have not attended any university, but have been going to college around here long enough to know when we are being had.

As to the competents of our local editor, I am not sure. However, if he is a feather in his cap when he refuses to print a report that is believed by many people, with good judgement, to be, if not a bald face lie, then at least a half truth.

It is the community in which a paper is published that makes the paper. It is doubtful that the editor of the New York Times could find much to print around here at times.

One, only has to walk down the main street of McLean, and look at the empty store buildings to plainly see what the tax paying ability of this community really is.

An aroused citizen,  
James Cliett

**NOTICE**  
TO THE TAXPAYERS OF McLEAN INDEPENDENT SCHOOL DISTRICT.

I was told the reason for the increase in land, oil and property taxes, was to off set the depletion of oil and gas values, that have been occurring during the last few years.

This increase is necessary to take care of present operation expenses, and has nothing to do with present proposed bond election.

**LETTERS TO THE EDITOR**

Dear Editor,

An idea hit me and I would like to pass it on to you. We all would like to have a good school system with good facilities for our children—also without adding a burden to the tax payers. We have an Alanreed and McLean Historical Society. Why can't we have an Alanreed and McLean School system? If McLean needs a new high school. Why couldn't we unite with Alanreed and if necessary use their building for high school and McLean for grade school? We could still have our band, football, track and gym, here by arranging the high school students to use them the first and last periods of the day and these students would travel only once to school.

I've been told that we would have to consolidate with Pampa sooner or later. If McLean and Alanreed schools unite we would become a stronger unit and chances would reduce somewhat for consolidation. If the government says we must go to Pampa, we will go, regardless of a Platinum or box car school. The

number of pupils will have more influence with the government than the conditions of the schools.

Frankly I would rather for my children to travel eight miles, on a double lane highway now, than 35 miles, on a single lane highway later on.

Another possibility is Lefors and McLean. A school could be constructed at mid-point between these two towns (eleven miles). This would be better than Pampa. I feel we need to be working on a system to enlarge our student body. So lets go to work on Alanreed before Clarendon or Groom gets them. But I heard Alanreed and you know, as well as I do what rumors are, they can be (true or false). Alanreed won't come to McLean under the present administration. Whether this is true or not I don't know. I wish every individual would find out the truth. I've heard lies and I've heard lies. I've gotten to a point where I don't know who to believe or what, our town is sick.

The people in McLean has been divided into two groups. The first group is; a society of their own. The second group has been labeled as the; crumbs and trouble makers. And who is caught in the middle, our kids, yours and mine. Is this fair to our kids to have two groups that can't agree without having words and
