Wood Loses Foot

One of the most ticklish jobs in the Army Air Force, that of constantly handling bombs, loading our mighty bombs, belonged to Pfc. Andy Wood, 21-year-old McLean youth, who arrived last week at a hospital at Temple.

It wasn't a bomb, however, but a mine which knocked Andy out of action. He lost his right foot when he stepped on an enemy mine three miles from La Sa, France, August 27, while he was walking along the Cherbourg-Paris road.

Pfc. Wood, who went into France July 11, is a son of Orville Wood of McLean.

Cotton Price Assured Growers

Full parity price to farmers for their 1944 crop of upland cotton is assured under the new Commodity Credit Corporation purchase program regardless of whether or not it is under a government loan, C. W. Bowers, chairman of the Gray county AAA committee, said.

The CCC will purchase all upland cotton for which a loan rate schedule has been announced, offered to it up to June 30, 1945. The cotton will be purchased at the following prices: (1944 crop middling 15/16 inch, basis gross weight flat cotton at Memphis, Tenn.) October, 21.90c per pound; November, 21.96c; December, 22.00c; January, 22.05c; February, 22.10c; March, 22.15c; April, 22.20c; May, 22.25c; June, 22.25c.

The five-point increase per month has been added to the price as allowance to the farmer for storage and carrying charges.

Other highlights of the program are:

1. Premiums and discounts are the same as those of 1944 loan program, based on middling 15/16 purchase rates, gross weight.

2. Location differentials for warehouse points will be based on freight rates to the Group B mill area of the Carolinas except in eastern Mississippi, eastern Tennessee, Virginia, North Carolina, South Carolina, Georgia, Florida and Alabama, where a zone system will be in effect as under the loan program.

3. Purchasing agents, mostly local banks and warehousemen, will be approved by CCC.

4. Purchasing agents will buy at CCC prices if warehouse receipts and sales agreement are turned over to them within 10 days after issuance. Agent's fee of 50c per bale will be paid by CCC.

5. Purchases will be made only from farmers who produced cotton in 1944.

6. Farmers with cotton in loan may sell it to CCC by repaying their loan.

The CCC is making these purchases to carry out provisions of legislation enacted by Congress directing the president to take "all lawful action" to assure producers parity prices for their cotton.

McLean Voters Want Roosevelt

McLean voters strung along with the rest of the state in giving the Roosevelt-Truman Democratic ticket a large majority over all others in Tuesday's primary.

The vote over the south proved that it is almost impossible for Democrats to desert the party name, and over the nation the Democratic candidates for president and vice president were given decisive if not overwhelming majorities.

Mr. Roosevelt appears to have a solid Democratic congress behind him and should have no trouble in that direction in his war aims and peace views.

The vote in Gray county was about 1,000 less than expected and less enthusiasm was shown election day than had been evident before the election.

'S funny the man who knocks his home town never moves out.

Some people do not seem to know the difference between emotional and spiritual values.

The News is not printing the cooperative Armistice Day page this year. Merchants are asked to underwrite the advertising for the sixth war loan this month, and, too, we doubt the expediency of celebrating such a day with the world at war.

FDR DOESN'T ATTEND CHURCH

Folks keep writing to ask us about President Roosevelt's church-going habits. The Rev. Howard S. Wilkinson, rector of Washington's staid St. Thomas' Episcopal Church, says: "Before the war he came fairly regularly—five or six times out of ten. Now the Secret Service doesn't like for him to attend. I've held services for the President at the White House a number of times."—Pathfinder.

VACATIONISTS

"I suppose," said the city visitor, "there are many peculiar characters in an old village like this?" "A few," admitted the native, "but most of them are here in the summer months."

Mrs. Murphy—No; they say he is likely to live on for years.

for electricity
REDUCED AGAIN!

If the unusual event makes news, here it is: When most of your household costs are going up, one item has gone down. That is the cost of electricity for residence and commercial use. Your electric bills are now being figured at the new rates. Southwestern Public Service Company has consistently reduced electric rates as rapidly as possible, whenever it could do so and still give good service. War has not altered this policy.

Electric service offers your family budget its biggest bargain today. If all prices followed your electric rates, your "high cost of living" would be low.

When the post-war appliances for better living become available, you will be able to make full use of them. Low-cost electricity will make it possible for you to enjoy the benefits that electricity brings to even the most modest home. In the meantime, you can use your present appliances at lower cost than ever.

NEW STUDENTS

McLean high, welcomes six new students the past week and this. Betty Bruner comes from Pampa and is a member of the junior class. Betty Ann Wade transferred from Lefors and is a sophomore. Monday, Betty and Donald Davis returned to our school after being enrolled in Canyon for the beginning of the term. Betty is a senior, Donald a sophomore. J. B. Perryman, a junior, enrolled this week from Dodson; and Jack Euter, a sophomore, came from Arita.

Tigers Ride Mustangs to Victory

The Wheeler Mustangs bowed to the McLean Tigers Friday night in their own home grounds. This is the first Tiger win of the season.

Hughes scored the first touchdown on a right end run. Scaring took the pigskin over for the Tiger's second score, making it 12 to 0 at the end of the first half.

The Mustangs came back in the third period to score 6 points on an end run. The Tigers were unable to score the second half.

Next Friday the McLean squad will meet the Canadian Wildcats on the Wildcats' gridiron.

TEACHER PERSONALITIES

Miss Nieta LaNelle Stephens first made her appearance in Tahoka (south of Lubbock), the 12th day of October. The three R's were given full attention in Tahoka grade and high school where she attended public school. In 1941 she entered West Texas State College where she majored in home economics and three years later received her BS degree.

During all of her school days she took great interest in activities and sports.

Our homemaking teacher and basketball coach, who is a very pretty brunette, would like to have been a dietitian. Although she likes homemaking she doesn't care too much for teaching it. (She's tops as a home ec teacher).

She favors tailored clothes, baked ice cream and mornings egg-shells, French food, Greer Garson and sports of all kinds. Her ambition is to own a pet skunk.

The basketball girls are looking forward to a happy, successful season with her as their coach. Miss Stephens, may you some

day realize your dream to be a diction, and may you and the basketball girls indeed have a successful season.

SOCIAL SCIENCES

Breath taking speeches have been given in Texas history on how the outcome of the election that we are holding in school will be. Election posters are exhibited all over the building and there is much interest being created in the election.

The representatives of each party were asked to give their opinion on the candidates. There were good and bad opinions. Monday wound up the campaigning of each party.

Students were allowed to hold Democratic and Republican conventions Friday noon, and Mr. Gallup would predict a Democratic landslide if the students were counted who attended each party meeting.

A school election was held Tuesday, permitting all students to vote for their favorite candidate.

SENIOR PERSONALITIES

The seniors this week are turning the spotlight on Johnny Cubine and Donald Dowell, two of the outstanding members of the class and the football team.

Johnny, who was born May 28, 1928, at Amarillo, has been a prominent member of this class since first entering school. He has been a member of the Tiger squad for three years and is one of the main men in this year's line. Johnny's hobby is girls, but

he also enjoys hunting. After graduation he plans to prepare for the engineering profession.

Donald, who entered M. H. S. his freshman year, was born February 2, 1927, at Topeka, Kansas. Donald has been a popular member of his class since his entrance and has been very active in all school activities. His hobbies are football, in which he has played center for three years, and collecting model horses. Donald, being a very ambitious student, plans to become a surgeon.

HALLOWEEN PARTY

The Halloween party Tuesday night was an all-out success. Some 150 members of the student body and faculty were present. Those attending were entertained with various games and gypsy fortune tellers. Chosen as the most deceptive costumed was Bill Reeves, dressed as a fashion lady from Vogue. Those wearing the most original costumes were Jan Black as a witch and Sammy Haynes as Sam in Lil' Abner; and the tackiest costume was worn by Eddie Mac Stewart.

FASHIONS

This week the fashions are made up of freshmen, juniors and sophomores.

For our freshman we have Jeanette Simpson all decked out in a printed jersey skirt and brown jersey blouse. To complete the outfit she wears red anklets and brown oxfords.

The sophomore girl to make the fashion highlight is none other

than Dorothy Clark. Dorothy wears a two-piece dress. The skirt is brown and white checked and the blouse is brown with three-quarter length sleeves and pockets trimmed in plaid like the skirt. Brown oxfords and white anklets complete this costume.

Wanda Pugh took the junior spotlight last Monday in her navy blue and white checked dress. The dress is trimmed with ruffles and blue buttons. Again we find the forever popular bare legs and green sandals.

ARMISTICE ASSEMBLY

The boys and girls choral classes will be the entertainers at the Armistice program Friday. They will be under the direction of Mr. Child.

Mr. Grady will give a short Armistice Day talk and a stamp drive program will be presented to the student body.

TIGER ROARS

Dorothy Anne Goodson and Bill Ferguson were seen together Halloween night. I bet they painted the town red.

Patsy Alexander and Tuffy Sargent have made up this week. Someone must have done some tall talking.

Rae Allen and Johnny Chilton were having fun in the show Wednesday night.

Who's that cute girl George Savage has been talking about lately? You could ask Cecil Higdon.

Talk about robbing the cradle,

Meiba Hamner is an expert. How about Billy Joe Ford? Mud Slings Dean Grigg, has been seen crawling on his knees before LaVoy Farris.

Debutante Bill Reeves was the highlight of the party Tuesday night in his red and white formal.

At the Wellington ball game handsome Pvt. Joe Reeves was seen with Jimmie Bradley and Ed Turner with Nettie Wetsel.

If I could buy Patsy Alexander and Carol Smith for what they are worth and sell them for what they think they're worth, I'd be running around in a limousine.

All the boys threw a swoon at Moonbeam McSwine Gunn at the Halloween spree.

"Newspapers are schoolmasters of the common people—a greater treasure to them than uncounted millions of gold."—Henry Ward Beecher.

You can't wipe this out with your tears.

BUT BONDS WILL HELP YOUR BOYS DO IT!

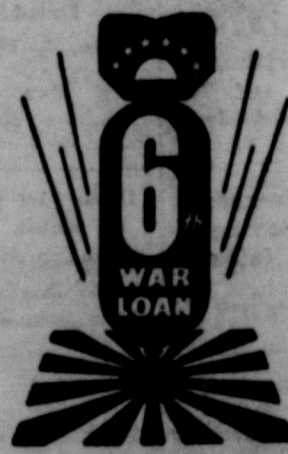

Your fighting men are paying back the Japs for Pearl Harbor, that "deed that will live in infamy." But it's a long way yet to Tokyo—where the final installment will be collected.

We, at home, can't fight shoulder to shoulder with our boys. Yet we can help today by getting behind the 6th War Loan Drive with every dollar we can scrape together. This is every American's war. Buy an extra \$100 bond—and don't wait till you're asked. For we've a tough job ahead.

Your bonds prove that you

haven't forgotten Pearl Harbor, Bataan and the thousands of other crimes against humanity by the Jap hordes. Your bond is an installment on what it's going to cost us to crush the Japs in the long sea lanes of the Pacific—it's going to take more superfortresses at \$600,000 each, more P-47 Thunderbolts at \$50,000 each—more of every type of materiel.

And remember, when you buy bonds you are saving for your future and the future of your country. Don't put it off—buy that extra bond today.

BUY AT LEAST AN EXTRA \$100 WAR BOND TODAY!
