Donation advertising schemes are on the increase. A person has to watch corners not to be caught by the glib "advertising" salesmen these days. Because everyone is sold on the idea of legitimate advertising, the schemers can sell most anything under the guise of advertising.

The department of public safety report for last year, just issued, shows that the percentage of drivers in fatal accidents who had been drinking, increased from 20% in taught to respect property THEY'LL GO OVERSEAS 1943 to 21% in 1944. If the rights, if parents are alive increased drinking for this to their responsibility. Par- U. S. with less than six months' root but in the religion of Jesus ive, ingenious, active, enterprising. centage will show another in- sponsibility for most juvenile crease at the next report.

And now a Texas University professor says that charm, PARKING not brains, is the first esgood teacher. This claim is based on a nation-wide survey, showing that 60% of teachers fail in their work because of undesirable personality traits. Maybe the old saying "teachers are born, not made," had some basis in fact.

A fellow with a smooth line. "selling" a small item that represented a personal donation, this week, got mad at those who had nerve enough to tell him no. Trading on another's patriotism in order to make an easy living is no way for a "hero" to act. Many men have the Purple Heart from both wars but not many of them are trading on that fact to pull donations for personal use.

A group of business men voiced Tuesday the need for a committee to pass on outside "advertising" and other schemes to separate the merchant from his money. One business man said he could have saved \$200 the past year if such a committee had been functioning. Time was when the chamber of commerce had a committee of this type, and much money was saved the town. The man with a legitimate proposition is glad to have the committee pass on his deal, but the grafter just blows on; he does not dare place his scheme before several men at one time.

State crime records show 23.32% increase for the first six months of this year as compared with the same period last year. 318 major crimes are being committed daily in Texas. the cessation of hostilities it is feared that crime will increase faster until reconversion is well under way.

Juvenile crime is one of serious aspects of the present situation and needs cooperation of parents before it can be properly Any child can be

NO INDISPENSABLE MAN

We will admit that we are as ignorant as a ram about internal affairs in England and why the people changed horses in the middle of the stream. We do know that the majority of the people in this nation thought that without Roosevelt we were headed for perdition, but Harry Truman seem. to be getting the job done, and more than likely Attlee will de very well unless he and his bunch man can accomplish, and most office seekers do just that.--Kemp
