McLean, Gray County, Texas, Thursday, June 10, 1948.

No. 24.

ay Hospital ds Too High r Bond Issue

Plans submitted to the commissioners court for the proposed county hospital were low for the amount of money available, and, as a result, the county will need an additional \$85,000 to construct the size of hospital desired.

The commissioners have stated it will be necessary to either reduce the size of the hospital or to issue an additional \$85,000 in bonds to reduce the size of the hospital from 100 to 70 beds.

After this announcement, the Pampa News stated that a form appearing on the front page of the paper is in by all voters and returned to the paper. In this way, it is felt that the commissioners will be able to determine whether most of the people are in favor of, or against, voting additional bonds.

When the original bonds, in the amount of \$550,000, were voted by McLean area residents, they opposed the issuance. However, since that time, most residents have been wondering whether they voted right on the issue, since they realize there is a definite need for a good and recently-large hospital within a very short distance.

Should the commissioners call for an election for the additional issue, many local people feel the McLean voters would strongly oppose the issue as it did the first time. One man is that the additional bond issue would make little or no difference in the cost to local residents. Another is that many residents now realize that the opposition against the hospital two years ago has done no harm for residents here as it did good.

ed Cross to lect Officers

The local chapter of the American Red Cross will hold a meeting the night of June 10 at the city hall to elect new officers for the year, according to an announcement by Cleo Meharg, local Red Cross chairman.

The meeting will be open to the public and everyone is invited to attend and take part in the election.

HOME ON LEAVE

Dick Everett, radarman second in the U. S. Navy, arrived Saturday to spend a 60-day leave in the home of his parents, Mr. and Mrs. Peb Everett. He just returned to the United States after spending two years in Guam. He expects to receive a discharge from the navy in April, 1949.

Land Is Acquired For Grid Stadium

The McLean Independent School District has acquired title to a plot of land, approximating four city blocks, to construct a football field and stadium to be used next fall.

The land, in the northwest part of town and within the city limits, is that formerly belonging to A. B. Wood. Title was obtained Monday, according to a report from Logan Cummings, school superintendent.

The plot is as near level as could be obtained at such an advantageous spot. Plans are now to utilize the east half of the plot for the football field, with the west half left for a baseball and softball diamond. The stands in the football field will be placed on the west side of the field.

Moving of the field and stands will become necessary very shortly, since the new routing of Highway 66 through McLean places one-half of the split road through the south end of the present football field.

The school has also acquired a 25x100 foot surplus building from the Pampa Army Air Field. This building will be moved to the site of the stadium, and will be used for shower and locker rooms, for the ticket office, and for the concessions stand.

First work to be done is the grading and sodding of the field itself. This is expected to be started either this week or in the very near future.

BIRTHDAYS

- June 11—Martha Campbell.
- June 13—Marjite Ruth Fowler, Mrs. Floyd Rogers.
- June 14—June Young, Mrs. May Watson.
- June 15—J. A. Brawley, Mrs. C. M. Carpenter, Billie Jean Young.
- June 16—Mrs. Frank P. Wilson, Jesse Max Coleman, Peggy Bragg, Jane Alice Cryer, Alton Howard.
- June 17—J. A. Wheeler, Shirley Ann Gudgel, Eldon Dyer.
- June 18—J. R. Phillips, Mrs. Kenneth Hulsey, Mrs. Laurence Bourland.
- June 19—Mrs. J. S. Morse, Mrs. Bob Black, Mrs. Truitt Johnson, Mrs. R. L. Bonner Jr., Mrs. Durwood Riddle, Hazel Dyer, Mrs. Herman L. Petty, Hobby Appling.

C. E. Harrell Assigned Here As Patrolman

Patrolman C. E. Harrell has been assigned to patrol Highway 66 out of McLean, and will begin his duties here July 1, Captain Polk Ivy, head of the Amarillo district, announced this week when he visited in McLean.

Patrolman Harrell comes here from Amarillo. He and his family will move here in the near future, and will live in the Andrews apartments.

A second patrolman will be stationed here, also effective July 1. The second officer's name is not yet known, Captain Ivy said, but he will come from a class graduating from the training school of the Department of Public Safety July 1.

Keahey Named Head of SCS Supervisors

Officers were elected for the forthcoming year at the regular monthly meeting of the Gray County Soil Conservation District supervisors, Friday afternoon, May 28.

H. H. Keahey was elected chairman of the board of supervisors to replace Foreman Stubbs; Arlie Carpenter, vice chairman, replacing Keahey; and W. B. Jackson, secretary, replacing Edwin Nelson. W. J. Caserta, lake supervisor for the Soil Conservation Service from Amarillo, met with the board by request to discuss the possibility of transferring management of the Lake McClellan project to the board of supervisors. The board decided not to take over management of this project at present. However, they are planning to harvest grass seed on the project this fall if a seed crop is produced.

Miami Downs City Ball Club

The McLean baseball club dropped its second game in the West Texas-Oklahoma league play Sunday when the team was defeated 11-3 by Miami in a game played there.

The loss gave the local nine a league standing of two victories and two losses.

Next Sunday's game will be played on the local diamond when McLean meets Briscoe at 2:30 o'clock.

RAIN!

A thunderstorm early this morning brought .54 of an inch in rain and small hail, to bring the total for the year to 7.85 inches of moisture, according to a report from Pete Fulbright, local weather observer.

The rain started at about 2:30 o'clock this morning, and continued intermittently for several hours. The accompanying lightning and thunder seemed close, although no damage had been reported at 8 o'clock this morning.

Monday night high winds came to the area, and a light shower brought .91 of an inch in moisture. The winds were extremely hard, but not strong enough to do damage to any local homes. Some row crops were slightly damaged by the wind, it was reported.

Robert Peary discovered the North Pole in 1909.

Lions to Sponsor Showing of Movie, Academy Winner

The McLean Lions Club will sponsor the showing of the movie, "Gentleman's Agreement," Tuesday and Wednesday nights, June 22 and 23 at the Avalon Theatre, President Cleo Meharg announced this week. Net proceeds will go to the Lions activity fund.

Arrangements were made with Bill Howard, manager of the two McLean theaters, last weekend for the club to sponsor the show.

The picture won several academy awards for performances and direction in 1947, and is one of the outstanding pictures making the rounds this year.

Prizes will also be awarded at the show each of the two nights. Admission tickets of 50 cents each will go on sale in the next few days.

Officers were elected for the forthcoming year at the regular monthly meeting of the Gray County Soil Conservation District supervisors, Friday afternoon, May 28.

H. H. Keahey was elected chairman of the board of supervisors to replace Foreman Stubbs; Arlie Carpenter, vice chairman, replacing Keahey; and W. B. Jackson, secretary, replacing Edwin Nelson. W. J. Caserta, lake supervisor for the Soil Conservation Service from Amarillo, met with the board by request to discuss the possibility of transferring management of the Lake McClellan project to the board of supervisors. The board decided not to take over management of this project at present. However, they are planning to harvest grass seed on the project this fall if a seed crop is produced.

William W. Miller Employed Here as New Bandmaster

William W. Miller of Borger was employed as bandmaster of McLean High School for the coming year at a meeting of the board of trustees of the McLean Independent School District Monday night.

Summer band classes will be conducted, the new director announced when here this week. An organizational meeting will be held next Tuesday morning at 9 o'clock, and all students interested are urged to attend the meeting, to be held in the band room at the high school.

Two classes, one for beginners, and one for advanced students, will be conducted, Miller said. In addition, there will be instruction in marching, in preparation for appearances this fall.

Miller is a graduate of West Texas State College with the spring class, and Borger is his home town. He is unmarried.

The newly-employed band director was recommended by Jerry Newman, WTSC band director, who formerly was head of the musical department in McLean.

First Load of Wheat of '48 Crop Brought to McLean by Stewart

PICTURED is the home of Mr. and Mrs. J. A. Brawley Sunday afternoon when a fire of undetermined origin started in the attic and did an estimated \$4,000 damage. No one was hurt in the fire. Spencer Sitter, a neighbor, saw smoke coming from the house, and ran to the Brawley home to tell them their house was on fire.

Fire Damages Brawley Home; Estimated About \$4,000 Loss

Fire of an undetermined origin, which started in the attic damaged the home and household furnishings of Mr. and Mrs. J. A. Brawley in the northeast part of town Sunday afternoon to an extent of approximately \$4,000.

The fire was the worst for McLean since the burning of the Modern Service Station late in 1947. The loss was only partially covered by insurance, Fire Chief Boyd Meador stated.

How the fire started is still a mystery. Mr. and Mrs. Brawley and other members of the family were in the living room of the home, when a neighbor, Spencer Sitter, ran in at about 1:30 o'clock in the afternoon to tell them their house was on fire.

Lefors Man Nearly Drowns At McClellan

Fred Corbitt of Lefors, 21 years of age, was pulled from Lake McClellan in a near-drowning condition about 5 o'clock Sunday afternoon, after he had apparently lost his balance and had fallen into the water. He was in the water about three minutes, according to reports here.

Dr. Roy Webb of Pampa and a lake lifeguard applied artificial respiration until a Clegg Funeral Home emergency ambulance arrived and rushed him to the Worley hospital in Pampa.

The Pampa Fire Department's portable iron lung was taken to the lake, but was not used there. Corbitt was put under an oxygen tent at the hospital, but he suffered a relapse at about 7 o'clock, and the firemen's lung was put into use. He was kept in the iron lung for an hour and a half.

Corbitt's physician said the artificial respiration applied at the lake was primarily responsible for saving his life, but that the iron lung was certainly instrumental for keeping him alive. Corbitt was expected to be released from the hospital early this week.

New Routing of 66 to Miss Alanreed Is Verdict of Court

Highway 66 will be relocated Crenshaw for an instructed verdict and will not pass through Alanreed as a result of an instructed verdict given by District Judge Lewis Goodrich in district court in Pampa Thursday of last week.

Attorney for the plaintiffs, Walter Rogers, indicated he would appeal the case, however.

The suit, styled W. J. Ball et al vs. the State Highway Commission, was before a jury, but Judge Goodrich instructed the jury to give the verdict.

Ball and other residents of Alanreed sought an injunction which would prevent the highway group from re-locating Highway 66 to a point 920 feet north of the present location. The road would still pass through Alanreed, but would not go through the town proper.

The court sustained a motion by Chief Defense Counsel Charles

Jones Again Buying Grain Of Local Area

The first load of wheat from the 1948 crop to be bought in McLean was purchased Monday by S. R. Jones, McLean Gin manager, representing the Paul Allison company of Fort Worth.

The wheat was brought in by Sid Stewart from his place about three miles northeast of McLean. The grain tested 63 pounds, and 14 per cent moisture content, and Stewart was paid \$2 per bushel. Stewart stated that the yield from the plot of ground would be about nine bushels per acre.

Much of the wheat in the general area surrounding McLean, is beginning to mature, and will be harvested within the next three or four weeks.

How high the yield will be in the area is not known, but most observers agree that more wheat will be harvested here than was expected a few weeks ago during the extremely dry weather.

Last year Jones, also representing the Allison company at that time, shipped 30 cars of wheat and 11 cars of maize from McLean, the first time in history that wheat had been shipped from here.

There is some speculation as to whether that much wheat will be shipped from here this year. Last year's crop was more productive per acre, due to the spring rains, but this year there is more land planted to wheat.

Most cotton farmers have completed their planting, with much of the planting being done after the rains of 10 days ago. Some of the earlier cotton is now up and showing well since the rains.

High winds for a short time Monday evening damaged some of the row crops to some extent, although it was reported that the damage was not too great.

Bible School to Begin on Monday

Registration for the vacation Bible school of the First Baptist Church will begin Friday afternoon at 4 o'clock. Rev. Ray Stephens, pastor, announced this week.

Classes in the school will begin Monday, June 14 and continue for two weeks.

Samuel Bhujbal, Native Christian of India, Visits in Jones Home, Speaks Before Lions

A dark-skinned Hindu Christian, one of the leaders of Christianity in India, was a visitor this week in the home of Mr. and Mrs. S. R. Jones of McLean.

He is Rev. Samuel Bhujbal, son of a native couple in India who were supported for 10 years by Rev. and Mrs. Jones prior to the organization of the General Assembly of the Nazarene. At the home of Mr. and Mrs. Jones were supporting Rev. Bhujbal's family, the Nazarene missionaries in foreign countries were financed entirely by individuals.

The visitor, accompanied by an American missionary, Rev. P. L. Marathi, who has spent the past 25 years in India, spoke before the members of the McLean Lions Club Tuesday noon. They were listening briefly with Mr. and Mrs. Jones before going to St. Louis

C. A. CASH, son of Mr. and Mrs. C. J. Cash of McLean, has been promoted to the position of assistant to vice president in charge of operations of the Shamrock Oil and Gas Corporation, it has been learned here. Formerly chief engineer at Shamrock's McKee plants near Dumas, he will be moved to headquarters of the company in Amarillo to work with Harry Wheelon, vice president in charge of operations.

Insurance Commissioners Warn Public of Trash, Grass Fires

Trash and grass fires are on the increase, warns Marvin Hall, state fire insurance commissioner.

"With hot, dry weather upon us, even more losses from fire will be suffered in Texas unless precautions are taken with these types of fire," he stated.

He stressed that both fires are extremely dangerous in warm weather as they spread twice as fast and have more to feed on.

After urging Texans to strictly follow city ordinances where no type of burning is permitted and a system of city garbage pick-up is used, he said that in other communities trash and rubbish should be burned in a covered metal or wire container or in an incinerator.

"Even then, someone should stand and watch the fire until it has safely burned itself out," he suggested.

His Gossip...

Help yourself. Soft water, good Maytag washers, plenty of room, and well ventilated.

Blue and White Laundry
E. C. Bragg, Owner

"A garden hose should be kept nearby in case the fire gets out to surrounding grass or weeds."

He emphasized the importance of calling the fire department first, the minute a fire gets out of control, and then fighting it while waiting for expert help.

Damage amounting to well over \$12000 was done in 37 grass and trash fires in March. In February there were 13 such fires and the loss figure was a little over \$3000.

"Also increasing is the number of home and garage fires caused by exposure to grass or trash fires," Hall noted.

Flying brands falling on roofs has been the main cause of exposure fires, he said, in again stating the necessity for trash being burned in a covered container and someone standing by until the fire has died out. He urged that inflammable roofs be kept in good repair.

"Live cigarettes and matches being tossed into weeds or grass is the primary cause of the grass fires," said the commissioner. "Vacant lots and alleys should be cleared of weeds and high grass to eliminate this hazard to surrounding homes."

King George V of England, Kaiser Wilhelm II of Germany, and Czar Nicholas II of Russia were all first cousins.

English street cars are known as trams.

Good decorating often is developed by a knowing hand making an asset out of difficult architecture. The trick is in "playing up" instead of "playing down" the difficulty. For instance, this unusually situated fireplace could easily be awkward instead of gracefully the center of attention. The seven small Chinese gods blend beautifully with the willow and reed design that is artfully hand-carved on the fireplace. The large painting over the mantle adds height to the fireplace and gives the illusion of lowering the high windows at each side. Again, to focus on the center of interest, the chairs face one another framing the fireplace setting. Lastly the color scheme of the room adds to the atmosphere. The fireplace is cream colored, so the walls were painted a harmonizing blue. The window shades match the wall color exactly to give a continuing appearance and the effect of greater expanse. The large floral pattern of the draperies and pillows carries the only design in the room. It incorporates both the cream and blue colors with a touch of red bringing out the deeper tones in the painting and figurines. Each detail is important in making this setting a composite unit.

'New Look' Gives Shoplifters Greater Opportunity to Work

Shoplifters love the "new look" because of the greater opportunities the new fashions for women give them to conceal stolen articles.

Every retail store in any community is a fair target for shoplifters whose depredations cost United States merchants approximately \$80,000,000 a year, according to an article in the April issue of American Druggist magazine.

How the "new look" aids women shoplifters is described in the article which tells of a shoplifters' device employed years ago when women wore their skirts long.

"This device is a strong elastic band that fits tightly above the knee and has a few hooks attached," the article states in part. "With this device the shoplifter merely bends down as if to tie a shoe string, and in a flash the stolen item is quickly attached to one of the dangling hooks."

Many other forms of shoplifting are described in the article which calls attention to the diversified types who indulge in this form of thievery.

"Shoplifting is one form of crime that isn't monopolized by the criminal element," the article declares. "Doctors, lawyers, executives, ministers, school teachers, the wealthy, and even members of royalty have been caught red-

handed in the act of shoplifting, so it goes without saying that you have to keep your eyes open at all times to avoid being victimized.

A department store detective in Cincinnati recently nabbed 39 shoplifters in one day. If this doesn't prove anything else, it should prove that shoplifters are very busy people. No wonder they steal merchandise valued at \$80,000,000 each year."

Irma Ruth Fulbright, who has been attending Abilene Christian College in Abilene, returned Thursday of last week to spend the summer months with her parents, Mr. and Mrs. Pete Fulbright.

Mrs. Molita Rice made a business trip to Pampa Tuesday.

Viscountess Astor, formerly Nancy Langhorne of Virginia, became England's first woman member of Parliament.

In 1925 Johnny Weissmuller held the world's record in every swimming event from 100 yards to 500 meters.

People of Indiana are called Hoosiers.

A lot of women would look more spick if they had less span.

Getting up early in the morning is merely a question of mind over mattress.

Man: How do you feel this morning?
Voice on Phone: Fine.
Man: Sorry, wrong number.

We've got your number when it comes to service, for we sincerely do our best to please you in every way. We invite you to trade with us and find out for yourself.

TEC to Help College Grads

The Texas Employment Commission in Pampa is conducting an intensive drive to bring together June and August college graduates and prospective employers in this area. L. P. Fort, manager of the TEC office, reported this week.

Employers who wish to hire college graduates were urged to contact the employment office at 206 N. Russell and not wait until a TEC representative calls on them.

Graduating classes this year will contain a higher percentage of potential business and industrial leaders than any other classes in history. More than 10,000 of the June and August college and university graduates will be veterans who have been attending school under the G. I. Bill of Rights.

Co-sponsor of the jobs-for-veterans program is the Veterans Employment Service. Veterans employment representatives are in every office of the TEC.

First phase of the two-pronged drive is to find graduates employment even before they leave school. Secondly, the remainder who have not been placed are being urged to register with the employment office. At the TEC office the services of the graduates will be continuously offered to selected employers until jobs are secured.

Fort said TEC employer contact representatives since mid-May have been taking specific job orders for individuals having the education and training employers need. Then the employment office and school officials have been cooperating to find graduates in the June or August classes who meet employer requirements.

Employer and student are brought together before the end of the term if possible. First efforts are to find the student meeting the employer's requirements in our area. Failing that, the position will be discussed with students in other Texas colleges in this area.

Students who have not obtained employment by the time they graduate should register with the nearest TEC employment office, Fort advised.

NEWS FROM KELLEAVILLE

Miss June Drum, who is attending nursing school at Lub-

bock, spent last week with her parents, Mr. and Mrs. Clarence Drum.

Mr. and Mrs. Dee Johnson and Doyle Gene have moved to Le-fors.

Mrs. Edwin O. Owen and Gail spent last week with their parents and grandparents at DeLeon.

Mr. and Mrs. Buddie Gray and children are spending their vacation at Clovis, N. M., with Mrs. Gray's parents.

Marjle West is home for the summer. She has been attending Texas University, and will resume her studies in the fall.

Ernest West was home over the week-end from Texas University. Mrs. Byron Holley and Ronnie spent last week in Panhandle visiting Mrs. Holley's mother, Mrs. Rachel Vance.

Mr. and Mrs. Kenneth Bruton and Lee of Amarillo spent Sunday with Mr. and Mrs. J. M. Bruton.

Officers Installed For Local Chapter Of Rainbow Girls

Maurine Harlan, daughter of Mr. and Mrs. Frank Harlan, left Monday for Amarillo to enroll in Draughn's Business College. She plans to take an 18-month course in the school.

Little Miss Sandra Kay Graham is reported ill with the measles.

The McLean Rainbow girls held installation services Friday evening, June 4, in the Masonic Hall, with the following installing officers being presented behind the bow for introduction: Mrs. Daphine Morris, installing officer; Mrs. Clara Hupp, chaplain; Mrs. Hedrick, marshal; Mrs. Willie Boyett, musician; and Mrs. Earl Stubblefield, recorder.

The following Rainbow girls were installed: LaWanda Shadid, worthy advisor; Sue Davis, associate worthy advisor; charity, Margaret D'Spain; hope, Darlene Shadid; faith, Waneta Hupp; chaplain, Barbara Barrett; drill leader, Mary Ruth Holloway; love, Sue Young; religion, Lynna Mantooth; nature, Patricia Ferguson; immortality, Evelyn June West; fidelity, Charlotte Wilson; patriotism, Norma Chapman; service, Audrey Young; confidential observer, Marie Grogan; outer observer, Jane Williams; musician, Jane Graham; and choir director, Margaret Biggers.

Mildred Holloway was presented a past worthy advisor's pin from the assembly by Bobbie Jean Hedrick.

During the evening a rose ceremony was given in honor of the

Eastern Star Has Public Installation Of New Officers

The McLean chapter No. 239 of the Order of the Eastern Star held an open meeting Monday night, May 31, to install officers. The meeting was called to order and Mrs. Mary Emma Woods, junior matron, welcomed the guests. The marshal escorted Mrs. Vera Powers, past worthy matron, installing officer; Mrs. Daphine Morris, past matron, installing marshal; Mrs. Tressie Mantooth, installing secretary; Mrs. Alice Stubbs, installing chaplain; and Mrs. Willie Boyett, past matron, installing organist, to their stations. The Bible was presented at the altar by Miss Waneta Hupp.

The following officers were installed: Mrs. Clara Hupp, worthy matron; E. D. Morris, worthy matron; Mrs. Mary Eustace, associate matron; Mrs. Carrie Kirby, secretary; Mrs. Vera Thomas, treasurer; Mrs. Georgia McDonald, conductress; Mrs. Ollie Ruth Hedrick, associate conductress; Mrs. Juanita Griffith, chaplain; Mrs. Iris Barron, marshal; Mrs. Johnnie Rodgers, organist; Mrs. Mary Webb, Adah; Mrs. Ruby Blackwell, Martha; Mrs. Grace Harlan, Electa; Mrs. Faye Wiggins, warder; and Jake Flesher, sentinel.

The Masonic hall was beautifully decorated with cut flowers. Silver columns in the east with vases of pink roses carried out the chosen colors of the worthy matron.

After the installation ceremony was completed, the worthy matron made a very inspiring talk on "Love One Another," her motto for the year, after which Mrs. Vera Thomas sang a beautiful solo, "Love That Will Not Let Me Go," which was dedicated to

new worthy advisor, Sue Davis sang "Moonlight and Roses," accompanied by Mrs. Travis Stokes, while Mary Holloway gathered a basket of roses from the color stations and presented it to the worthy advisor. To conclude the program, a solo, "My Rainbow," was sung by Mrs. Dorothy Owen, a past worthy advisor, and the benediction was given by Rev. Karl Ernst.

the worthy matron and worthy patron. The worthy patron expressed his thanks for the honor bestowed on him.

The program closed with a very impressive candle-light ceremony.

Mr. and Mrs. W. E. Bogan visited Sunday in Borger in the home of their son, Creed Bogan and family.

Mr. and Mrs. Lester Campbell spent the week-end in Memphis in the home of Mrs. Campbell's parents, Mr. and Mrs. E. P. Thompson and family.

Mr. and Mrs. C. W. Bogan and

son Charlie returned to McLean Monday after spending the week-end in Borger with Creed Bogan and family.

James E. Cooke returned last week from Lubbock, where he has been a student in Texas Tech, to spend the summer months with his mother, Mrs. Vita Cooke. He accepted a summer job with the Southwestern Public Service company, and began working there soon after returning to McLean.

Bobby Decker of Mountainair, N. M., came Sunday for a visit with his grandmother, Mrs. Laura Byerly.

Mrs. Emory Crockett and sons are visiting this week with her sister, Mrs. Truman Spain, at the Spain Ranch near Woodson.

NOTICE TO PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the editor personally at the office at 210 Main St., McLean, Texas. The McLean News does not knowingly accept false or fraudulent advertising of an objectionable nature. Each advertisement in its columns is printed with full confidence in the presentation made. Readers will confer a favor if they will promptly report any failure on the part of the advertiser to make good any misrepresentation in our advertisements.

ONE REASON WHY

REMEMBER last year when memorial services were held to honor those who gave their lives in wars in which the U. S. has participated? Remember? Only 64 attended.

Remember a couple of weeks ago when memorial services were again held? Less than 100 attended.

Remember about a month ago when the outstanding Mexican ambassador of goodwill spoke here? Less than 100 attended.

Remember about two months ago when Lewis Nurdyke made a trip to McLean one night from Amarillo to discuss the proposed recreation program? Approximately 50 attended.

These are mere examples of the lack of cooperation most people in McLean give to worthwhile projects. Most people had rather not attend such meetings, although they usually turn out to be interesting, educational, and enlightening.

These examples are one reason why. One reason why McLean has such a hard time progressing.

Some people say they don't want McLean to grow any larger. Those who say that are generally the people who have made their "pot" and don't care for the up-and-coming generations. Those people are no longer of value to McLean, or to their fellow citizens. McLean would be better off without them. They are the main source of trouble when cooperation is needed.

Yes, just one reason why. Apply some thought to these few words. You'll begin to see what is meant.

Mr. and Mrs. John Scott and Mrs. Lucille Parker and daughter Rose Mary were Wellington visitors Sunday in the home of Mr. Scott's brother, W. M. Scott and family.

Mr. and Mrs. F. L. Jones made a trip Sunday to Clarendon to visit with Mrs. Jones' mother, Mrs. J. R. Ayers, and with a sister, Miss Emma Ayers.

Mrs. Anna Glass returned Sunday night from Chickasha, Okla., where she has been visiting in the home of her sister, Mrs. W. G. Methvin.

GREYHOUND

LES TALK BY LESTER

We are the recipients of a nice batch of dewberries. The berries were brought in by Mrs. S. J. Dyer, and we certainly do thank you, Mrs. Dyer. You'll never know how much they were appreciated. And, incidentally, they were delicious, too.

Speaking of food, I have enjoyed the corn on the cob which is now appearing regularly in the local grocery stores. Years ago, when I used to visit my great uncle and aunt, Mr. and Mrs. W. W. Carter of Dodson, they lived on a farm. And they raised corn on the cob. I could devour my share of it, but my sister, who now lives at Turkey, is about the world's champion corn on the cob eater. I have seen her eat six or eight ears of corn at one meal and never think much about it. Except to still want more corn. Strangely enough, despite the corn-eating ability of my sister, we were always welcome at the home of Uncle Willie and Aunt Hattie.

Uncle Willie and Aunt Hattie are now getting pretty old, and just recently moved their home in from their farm to town in Dodson. With no reservations, I would say that no two people in the world are better than those two. They have always been, as long as I can remember, devout Christians, and have always carried out the custom of returning thanks before each meal. That's something which isn't done too much any more by families anywhere. Uncle Willie and Aunt Hattie never did have a lot in the way of worldly goods, but they reared a fine family of children. They have had many hard times, both financially and physically, but their hearts are always happy and joyful and full of the good things of life.

Some people feel that they are not "successes in life unless they make and accumulate a pile of money during their days on earth. Not so with Uncle Willie and Aunt Hattie. They have lived a full life, a happy life, and will be rewarded some day for their efforts to concentrate on being happy and making others happy.

There are many people in the

world like that couple. Of that I am sure. But it has been my extreme pleasure to know and love these two.

I don't know exactly why I started writing of Uncle Willie and Aunt Hattie. Perhaps it is because it is well for us to be reminded of the lives of really good people once in a while. Perhaps these words will remind you of someone similar whom you know. Perhaps reminders such as that will make all of us better people, better neighbors, better citizens.

It is good to know that the city will mark the streets. It is also good to know that the council is not going to spend hundreds of dollars on the project, but instead plans to mark the curbs with names and numbers. This can be done at a small expense.

No doubt many people who do not have curbs will want to know why their streets aren't marked. But the curb marking will at least enable strangers—also many who are not strangers—to find the names of the streets, and, as a result, find the house for which they are looking.

The next step will be to get house numbers on all homes. This will have to be done at the expense of the home owners or renters. If you don't know the number which should go on your house, I suggest you call on Boyd Meador, the mayor. His insurance company furnishes him with a map of the city—or maybe he has to buy it—and the map will indicate the proper number of your house.

The next step will be to get the telephone company to put something besides the name and telephone number in the directories. The new directories should be out next fall. When you go to the phone office to pay your telephone bill, suggest that the next directory contain addresses as well as names and numbers. It will be trouble for the company to compile this information, but the company will do it if you insist.

Mr. and Mrs. M. E. Jones of Sunray and Miss Sue Jones of McLean visited Sunday with their sister, Mrs. Elmer Johns of Plainview.

Mr. and Mrs. Arthur Jones spent the week-end in Panhandle with Rev. and Mrs. Raymond Jones and family.

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: J. R. Ragsdale, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 12th day of July, A. D. 1948, at or before 10 o'clock a. m., before the Honorable 31st District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 29th day of May, 1948. The file number of said suit being No. 9080.

The names of the parties in said suit are: Jackie Waits Ragsdale as plaintiff, and J. R. Ragsdale as defendant.

The nature of said suit being substantially as follows, to wit:

The plaintiff and defendant were married on December 24, 1947, and were separated on May 22, 1948, the plaintiff has been an actual, continuous and bona fide resident and inhabitant for the State of Texas for the last twelve months and of Gray County for the last six months; that the residence of the defendant is unknown to the plaintiff; that the defendant has beat plaintiff with his fists and has threatened to kill her, which conduct is alleged to constitute excesses, cruel and inhuman treatment and outrages of such a nature as renders their further living together insupportable. Plaintiff prays for divorce and for costs.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 29th day of May, A. D. 1948.

Given under my hand and seal of said Court, at office in Pampa, Gray County, Texas, this the 29th day of May, A. D. 1948.

DEE PATTERSON, Clerk, Dist. Court, Gray County, Texas. By LOUISE STUART, Deputy. (SEAL) 23-4c

Make Sure the Light is Right

Growing eyes are delicate eyes. Electricity is cheap in the area we serve so make sure that the LIGHT IS RIGHT... whenever your children use their eyes—at work or play.

Coming in from under the bright summer sun, children can easily strain their eyes under improper lighting. If you're not sure the light is right in your home, call your nearest Public Service office for a free lighting survey.

Whatever you do, try to make sure at all times, for both your children and yourself, that the LIGHT IS RIGHT.

We have nothing to sell but good electric service. You'll find a wide choice of electric bulbs available at many stores. Make sure you always have spares on hand at home.

The smooth, flowing lines of the 1949 Ford passenger cars are accentuated by the simplicity of the air-scoop grille. Fresh air for the pressurized ventilation system also enters through the grille.

New '49 Fords Show Radical Styling, Engineering Changes

The 1949 Ford, which reveals a radical departure from traditional Ford styling and engineering, was made public today by the Ford Motor Company.

"New standards of beauty, comfort, economy and performance in the 1949 Ford passenger cars advance them far ahead of others in the low-priced field," J. R. Davis, vice-president and director of sales and advertising, said. "Styling of the new Ford definitely establishes it as the car of the year."

To develop and produce the 1949 Ford passenger cars, Ford Motor Company has expended more than \$37,400,000 in tools, dies, jigs and fixtures.

Styling: The modern design has been molded along functional lines, resulting in a long, low, sweeping silhouette. The grille is distinctive, the hood massive but shorter and the body so wide the rear fenders have been eliminated. There are clean, unbroken lines from front to rear.

Comfort: Comfort has been one of the primary objectives in the new Ford. There is more room in the "lounge car" interiors than in many cars with much larger over-all dimensions. Front seat widths have been increased six inches and the rear seat nearly eight inches. The body has been moved five inches forward with the seat cradled between the axles for a much smoother ride.

A new type of suspension system—"hydra-coil" springs—replaces the traditional transverse springs and the front axle. This system is centered around airplane type shock absorbers mounted within low frequency coil springs. In the rear, extra long longitudinal springs are complemented by airplane type shock absorbers.

The drive shaft tunnel has been decreased by adoption of the Hotchkiss drive and the hypoid rear axle. These engineering changes also minimized the transmission of road noises into the

Women's clothes have "that new look"—but my clothes get "that old look," just as soon as I put 'em on.

A suit looks good on the dummy in the window but not on me. On me, the suit doesn't hang right; it just hangs.

And my knees are knobby, so at once the suit bags at the knees.

Or take a hat—Other men can buy light gray, or even white, hats and they stay spick-and-span for months. But, regardless of what I pay, my hat gets spotted right away and one side of the brim flops. And ties—mine wrinkle after the third wearing, except when they wrinkle after the second wearing.

And even as little a thing in the direction of neatness as a shoe shine—within 10 minutes after I get one, somebody steps on my foot in an elevator.

There ain't no justice.

The law says that an alien, convicted of two crimes, shall be deported. But a decision of the United States Supreme Court says you can't convict him of two crimes in a row; no, it can't be that simple; you must convict him of one and then he must go out and commit another and then be convicted of that before he can be deported.

Why doesn't Congress change the law so that if an alien is convicted of one crime, he shall be deported?

Another thing: we have aliens in this country who are Communists, which means they favor overthrowing our form of government, but we can't get rid of them because the country they came from won't take them back. Why doesn't Congress change the law so that we will admit people only from those countries who are willing to take them back—and when a country refuses to take one of these undesirables back, we admit no more visitors from that country?

Henry George, the economist, once cynically remarked that if the multiplication table stood between some men and a profit, you'd find "authorities" who would attack the correctness of the statement that two times two is four.

Dorothea Back arrived home this week from Abilene Christian College in Abilene to spend the summer months in the home of her parents, Mr. and Mrs. Johnnie Back.

Mr. and Mrs. H. E. Barrett and daughter left Sunday to spend several days vacationing in Missouri.

Mr. and Mrs. Jack Mercer and daughter Norma Joyce left Sunday for a vacation to various places in Colorado.

to be stored for any length of time, place in containers where it cannot be reached by weevils and store in small amounts, so that it may receive oxygen.

Summer Brings Diarrhea Cases

Dr. George W. Cox, state health officer, has issued a warning to parents that this is the season for an increase in dysentery, diarrhea, and "summer complaint."

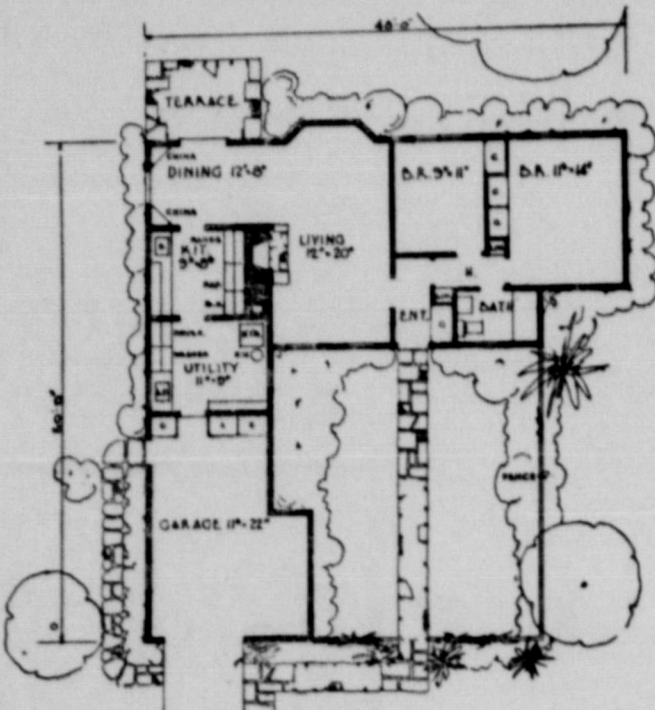

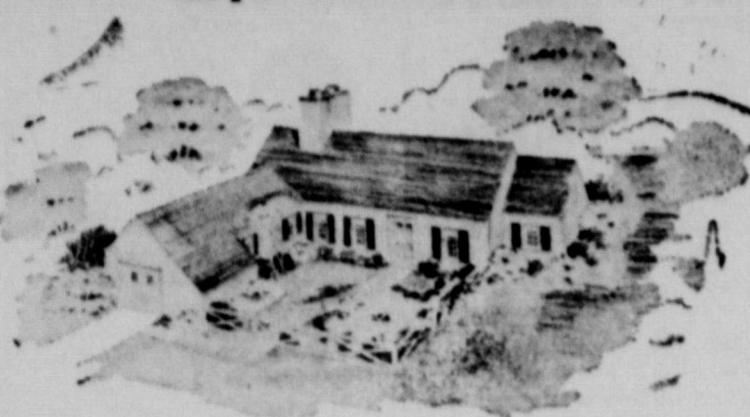

"The chief cause of these intestinal diseases are contaminated milk, water or food, allowing the child to get overheated or exhausted, excessive sugar in the baby's formula, and improper amount of food," Dr. Cox said. "All foods should be fresh and clean, and left-overs should be properly refrigerated to prevent spoilage."

Dr. Cox urged extreme care in the preparation of a feeding formula for infants. He said it should be prescribed by a physician and that cleanliness and refrigeration were absolute essentials. Babies should be fed at regular intervals and on a definite schedule, since their stomach and bowels can be easily upset if fed irregularly or when they are fretful or restless.

The state health officer declared that dysentery is transmitted by flies and said every home should be well-screened and free of flies.

If dysentery or diarrhea develop, consult your physician at once," Dr. Cox advised.

Cape Cod Cottage

This small Cape Cod cottage has eye appeal. The L-shaped plan seems to create a rambling design and the fence enclosed entrance court with beautiful flowers and planting offers a pleasant invitation to step inside. With the garage so near the street, the winter problem of shoveling snow is almost negligible. Note the large storage area and cabinets provided in the garage. The large living room has an attractive bay window and corner cabinets in the dining-L are a pleasant touch. The house comprises 1043 square feet, excluding garage.

Dwelling shown above is a photograph of a scale model of a "cut-out" home which can be obtained from House Beautiful Magazine for \$2.00. The model is easily assembled, and gives the prospective home builder an actual model of the home he plans to build, complete with "cut-out" furniture.

By studying the scale model, the prospective builder is enabled to determine what changes he deems necessary before the house is actually built, thereby saving needless expense.

Blueprints and specifications of the dwelling shown above can be obtained for \$5 per set by writing House Beautiful Magazine, 372 Madison Avenue, New York City 22, New York.

Highway—

(Continued from page 1)

ding said, cuts out two sharp curves that are more than three degree curves, the maximum approved by the state highway department. The approach to A anreed of the relocated highway swerves to the north about one mile east of the town, Redding said on the stand.

Redding, called to the stand by Attorney Rogers, plaintiff counsel, was asked by Crenshaw if the relocated road went through the town or around it. "Through it," he replied. The plaintiff countered that the part of Alanreed the road went through consisted mostly of undeveloped lots, to which Redding agreed. He denied on cross examination that he was influenced by any parties but had planned the road from a point of safety and good engineering to reduce driving hazards and eliminate as many curves as possible and that he also took the topography of the territory into consideration when he made his first survey for the road.

M. W. Standish, owner of the Standish Cabins, declared on the stand that he and others in the community had been promised a meeting with engineers and county commissioners on a compromise for relocating the road, but the meeting was never held.

The day-long trial came to a dramatic close when W. J. Ball of Alanreed, druggist and property owner, pleaded with the court on its instructed verdict to let the case go into the hands of the jury and not to turn a cold shoulder on the people of Alanreed and their ultimate losses that would be incurred through the relocation.

The county commissioners court was brought into the case to prevent them from issuing bonds for purchase of rights-of-way for the relocation of the highway. County Attorney Bruce Parker attended the trial on the part of the defense to represent the county.

Miss Evelyn Burrows of Amarillo spent the week-end here with her parents Mr. and Mrs. Dolph Burrows.

Don and Dick Cooke of Plainview returned to their home Sunday after visiting in the homes of their grandparents, Mr. and Mrs. D. C. Carpenter, and Mr. and Mrs. C. E. Cooke.

Mr. and Mrs. Joe Graham and son visited Mrs. Graham's brothers, Roland and M. J. Gibson and families, over the week-end in Littlefield.

Daily Habits Are Important To Your Health

"Although we may not be sick, we may be far from being well. There is a great and vital difference between high and bouyant health and the health of the average person, or of one who is only well enough to be out of bed," Dr. Geo. W. Cox, state health officer, said.

"Unless we have the essentials of health in our daily habits of living, we are as sure to pay the penalty of impaired health, sickness and early death as we are of cause and effect in other situations, Dr. Cox continued. "We should ask ourselves, 'How long do I expect to live?' 'How long can I retain my efficiency, both in work and play?' Do I want to become incapacitated soon after middle life?"

The alternative, according to Dr. Cox's statement, is to adjust one's program of living to insure the fundamentals of health and thus, barring accidents, keep young and retain active efficiency to an age of 70 to 80, or more.

The essentials of health are simple: sufficient fresh air and sunlight, good food and food habits, regular exercise and adequate rest. Yet, in checking the health of thousands of individuals who considered their health good, it has been rare indeed to find a single person who did not habitually disregard one or more of these essentials. Therefore, no matter how good or poor our health, we should check our daily program of living for health habits that are essentially faulty but of which we may be unaware.

Mrs. Thomas Perkins of Clarendon was a business visitor here Monday.

Mr. and Mrs. E. C. Bragg and daughters, and Mr. and Mrs. R. D. Patterson spent the week-end in Amarillo and at Lake McClellan.

Mrs. Heydon Hensley of Memphis visited last week with her mother, Mrs. Mattie Graham.

Personals

Mr. and Mrs. Joe Gibson visited relatives over the week-end in Littlefield and attended a wedding of one of Mrs. Gibson's cousins.

Mrs. Peb Everett and son Dick visited Monday in Amarillo in the home of Mr. Everett's mother, Mrs. Mollie Everett.

Mr. and Mrs. M. G. Mullanax and son Gayle returned this week from a week's fishing trip to Possum Kingdom.

Gordon Wilson of Hereford visited Sunday with his parents, Mr. and Mrs. W. T. Wilson.

A meter is 39.37 inches.

GET BIG ONE!

George Graham and Ruel Smith returned Sunday from a four-day fishing trip to Elephant Butte Dam, near Hot Springs, N. M., and brought back the proof of their fishing prowess. The two men caught one 30-pound catfish on their trot line, as well as a large number of smaller fish.

Only one side of the moon is ever seen on earth because the moon rotates upon its own axis in the same time it revolves around the earth.

The part of the eye which maintains the coloring is the iris.

A foot pound is the amount of energy required to raise one pound one foot.

NOTICE

I will be on my vacation next week, and Bert Starkey of Wellington, well-known barber of many years experience, will work while I am away. Thanks for continuing your patronage of our shop.

VOTE

for
BRUCE L. PARKER
 for
COUNTY JUDGE

He will stay on the job. He will devote all of his time to this office just as he has done the County Attorney's Office. Vote for a lawyer for your County Judge.

— Your Vote and Influence Appreciated —

There Was a Woman!
 And She Was Wise—
 She Found It Paid to Advertise!

She read The News every week, ads and all.

Recently she spied an ad calling attention to our classified department. She dug up discarded furniture and other used articles, and advertised them in our want ad and for sale columns, and, do you know, she realized enough on this sale to make a nice down payment on one of those new refrigerators.

You try it! The rate is 2c per word for first insertion, 1c thereafter, minimum 35c.
