**AN ELECTRIC** WATER HEATER. **OF COURSE!** 

Electric water heaters can be concealed anywhere . . . in the garage, in a closet, under cabinet tops. And, that's because they do not need flues or chimneys . . . just the water connection and electricity. If your present water heater is getting along in years . . . not putting out like a youngster, then it's time to replace with a sparkling new electric. And, if service should ever be needed, just call Reddy Kilowatt ... he'll fix whatever's wrong quick as a magician pulling a rabbit out of a hat

the late Dr. George Dolak, Pro- Spring-Barbara Hambright. fessor at Concordia Seminary, in | The hostesses Judy and Bar-Springfield, Ill. We had tea with bara served lovely refreshments, Anna last week and found her carrying out the St. Patrick's a very interesting woman. Any- Day theme, to the following: thing she undertakes we feel, Laura Goodman, Lucy Goldston, will be done well. So come on Lulu Crisp, Nola Crisp, Ada out and hear the sage of a Simmons and Iona Glass. wonderful family and their neighbors who made up this enterprising community. The time has been changed from 2:30 until 3:00 for the convenience of our guests, most of whom will attend the Lutheran Church in Shamrock and will need that extra half hour to eat lunch and come on to McLean.

After visiting with Grandma Papan and Anna, at the old homestead, we went to the Paul Macina home where we were welcomed by Mr. and Mrs. Macina and their son, Paul Jr. Mrs. Macina was the former Bessie Pakan and is an expert with the needle and sewing machine, as shown by the attractive handwork, especially the just-finished bedspread, as tailored as one having come from an exclusive home-furnishing shop.

As we were leaving, we met Paul Jr's wife, the former Kay Purkey, and their young son, Paul III, With Kay was Dan Macina's wife, the former Mickey Linkey, and their two children, Judy and Bobbie. If these young people are fair samples of the third and fourth generations, the future of the community is secure.

We waved at the elder son of Sam Pakan, Dusan, as he was stringing an electric fence around his pasture south of his attractive home. Incidentally Mrs. Du-

san Pakan was a friend of my daughter, Mable, when they were both students in West Texas State in the early 40's, so I'll look forward with special interest to seeing her Sunday.

Bessie Macina, Irene and I visited the school building and read with interest the inscription on the historical marker, commemorating the Pakan School built on this sight in 1907. This newer building came later and a number of McLeans young teachers received valuable experience either here or in the original building as teachers. Perhaps the only one still living in Mc-Lean now is Winifred (Howard) Rice who taught there with Clara Anderson.

In the school building is the loom which the ladies club on the community has promised our museum. It is a large piece of equipment and will be available as soon as we have a building with doors wide enough to receive it. Mary (Hess) Dwyer will be the first to learn to operate this loom. Thank you, Mary. We hope it will not be long until you are at work under the direction of Bessie (Pakan) Mertel.

Come on out Sunday at 3:00 p.m. to the school cafeteria and give the people of Pakan a welcome hand and a listening ear. You'll be better and wiser for hearing their program and meeting our neighbors to the east.
