The annual Harvest Queen contest at McLean High School, which climaxed with the Halloween Carnival October 30, got underway this week. The contest will determine the winner, whose votes are one cent each. Each class in high school has selected a candidate, and the classes have started their money-making schemes. Candidates for the high honor are as follows: senior class, Gloria Willis; junior, Gloria Stephens; sophomore, Patsy Lowery; freshman, Treva McConaghie; and eighth grade, Dorothy Willis. The grade school classes may stage a contest this year, said C. M. Herrington, principal. The classes had a contest last year for a school princess, but plans do not include such a contest this year. The contest raised through the contest will be used in expanding the school library collection. Last year's Harvest Queen was LaWanda Shaddid, the carnival climaxed the mad race last year attracted a capacity crowd in the grade school gym. This year's carnival will again be in the gym.

## Tigers Top Panhandle Teams Both Offense and Defense

The McLean Tigers, by virtue of their straight victories and 217 points scored in their 12 games, are the top defensive and offensive teams in the Panhandle, according to a round-up of scores in the football season by Amarillo sports writer. McLean in the total score of points scored is the leader with 217, and nearest to it is the 13 allowed by Post Antelopes.

The top ten scoring teams, with the amount scored, are as follows: McLean, 217; Shamrock, 14; Phillips, 11; Perryton, 19; Crosbyton, 12; Sundown, 11; Lefors, 29; Levelland, 27; Lefors, 29; Canyon, 38; and Post, 38.

The top ten defensive teams, with the amount allowed, are in 3-A: Phillips, Perryton, and Canyon in 1-A; Shamrock, Lefors, and Spur in 2-A; Levelland and Muleshoe in 4-A North; and Post in 4-A South.

What Godsoe has to say about the Tigers: "Although McLean Tigers, cleverly coached by Al Duncan, didn't see the last week, they lead the Panhandle and South Plains both offensively and defensively on the field. The Tigers have stacked up 217 points. Other Class A competitors which have banged the scoreboard are Spur, Shamrock, Sundown, Post, Phillips, and Crosbyton.

The defensive leadership actually belongs to Shamrock, which has played six games, one more than McLean. The Irish and the Irish have surrendered two touchdowns.

## City Declines Action On Moving of Gym

The City of McLean has declined to take action on the moving of the surplus gymnasium, bought recently by members of the McLean Independent School Board from the Pampa Army Air Field to McLean, it was announced following a meeting of the City Council last week-end. The school board had sought aid from the city in moving the structure from Pampa and setting it up for use here. In making the decision, after considerable discussion and investigation, the council stated through Mayor Boyd Meador that no action would be taken since it is believed that an entirely new building can be constructed at about the same price, or only slightly more. The council plans to investigate thoroughly the possibility of constructing a new building to house the city officers and a gymnasium which could also be used as a municipal auditorium, in the very near future, Mayor Meador said. The building would be constructed as soon as possible, it was explained. The surplus building at Pampa, formerly used as a recreation building at the army air field there, is 88 by 124 feet, and was bought by the school board for \$1,300 last spring. The board had asked the city council to aid in moving the structure to McLean. (Continued on back page)

## Tigers Advanced To Third Place In Godsoe Ratings

The McLean Tigers were advanced to third-place ranking among the first 15 teams of the Panhandle and South Plains in the ratings given them this week by Frank A. Godsoe Jr., Amarillo News writer. The Tigers were fourth last week, and advanced above the Perryton Rangers in Godsoe's weekly feature. Here are the top 16 (two teams tied for second): 1. Phillips Blackhawks; 2. Levelland Lobos and Shamrock Irish (tie); 3. McLean Tigers; 4. Perryton Rangers; 5. Post Antelopes; 6. Lockney Longhorns; 7. Sundown Roughnecks; 8. Littlefield Wildcats; 9. Lefors Pirates; 10. Spur Bulldogs; 11. Tulla Hornets; 12. Sudan Hornets; 13. Crosbyton Chiefs; 14. Muleshoe Yellowjackets; 15. Floydada Whirlwinds. In writing of McLean, Godsoe said: "McLean, highest scoring team in the Panhandle and South Plains and a club that has surrendered only two touchdowns, didn't play, but rates a whisker vote for the third spot over Perryton because of that ultra-ultra offense."

In February of 1941, Rev. Campbell conducted a Training Union study course at the local church and preached to the congregation, at which time the church considered extending him a call as pastor. Mrs. Campbell will be remembered as Miss Lucile Beaty, who formerly taught in the McLean schools. Rev. ## Youths Caught In Local Thefts

Two teen-age youths, caught early Wednesday morning in Shamrock, admitted to stealing a car at Lefors and then breaking into two business establishments in McLean Tuesday night, Deputy Sheriff Charley Nicholson said Wednesday afternoon. The two youths, one of them already under suspended sentence for forgery in Carson County, were picked up in Shamrock by Constable John Cox. They took a Plymouth sedan in Lefors, belonging to Jim Thurmond, and then came on to McLean. Here the two broke into the Patterson Magnolia Station, where they made away with a number of pennies, and the Crockett-Downs Motor company, from which they took slightly more than \$10. Deputy Nicholson said they admitted to both thefts, and to the stealing of the car. The two youths are brothers from Pampa. The elder, aged 18, is Bill Lucas, Nicholson stated. The younger brother is 13. Both were taken to Pampa by Deputy Sheriff Rufe Jordan. Frederick Bartholdi, a Frenchman, designed the Statue of Liberty.

## Church of Christ Started in Drug Store Conversation

HERE'S THE WAY the new Church of Christ building looks at the present time. The church organization started 44 years ago with a drug store conversation, and has grown to such an extent that the new building will soon be placed in use. The new building will be all masonry construction with seven classrooms, a heater basement, and a seating capacity of 400.

An organization which started with a conversation in a drug store 44 years ago has grown into a full-fledged church in McLean, and now the members are looking forward to moving into a new building within a few weeks. That drug store conversation was between J. W. Burrows and Mr. Simmons. They discovered during their talk that they were both members of the Church of Christ, and decided to do something about a place to worship in McLean. A first they met in one another's homes. Later they began to meet together for worship in the school house. L. R. Jeffries, a preacher who was farming near Quail, was the first to preach here in a full-fledged service. Two years later, in 1906, a frame building was constructed on the old church site, and the organization boasted of 20 or 30 members. That frame building remained as the church building until about 1925. Misfortune came about that time. The members had just bought new carved, redwood pews, and had not even used them when a costly fire destroyed both the building and the pews. But by that time, the congregation had grown to approximately one hundred members, and construction was started on a block building. With a thousand dollars of insurance money realized from the old building, and with most of the labor donated, a building 32 by 50 feet was completed with very little indebtedness. The block building was added to and repaired during the years, but finally became inadequate and was sold in March of 1948. It is now being used as an apartment house, owned by T. H. Andrews. A new site was then purchased, and the construction of the present building was begun June 20, 1948. The present membership of the organization is approximately 175 members. John R. Fulmer, (Continued on back page)

## Game to Start At 8; Reserved Tickets on Sale

The McLean Tigers will face their second District 2-A team Friday night, when they travel to Wellington to meet the up-and-coming Skyrockets of Powell Field. The game is scheduled to start at 8 o'clock. Reserved seat tickets for the game will be placed on sale at the office of George Colebank, school business manager, in the City Hall at 1 o'clock today. A total of 294 seats in the reserved side stand are being reserved for sale here to McLean fans. Colebank stated that the seats will be sold to fans on a "first come, first served" basis. The reserved seats will run from about the 30-yard line to the opposite 30, E. L. Pritchett, Wellington superintendent, explained. Two buses have been chartered to carry fans to the game, and tickets for the buses are on sale at Powers Drug. Seating capacity of the two buses is 60 persons, Roger Powers said. Tickets for the buses are \$1.41 per person, and are also being sold on a "first come, first served" basis.

The Tigers will go into the game as favorites, due to their five straight victories, but no Tiger fan is thoroughly convinced that the Rockets will provide an easy time for the local eleven. Thus far Wellington has won only two games, while dropping three, but their opposition has been highly-rated teams in most games. The Rockets started off their season with a 13-6 loss to the Perryton Rangers, rated as one of the top teams of the Panhandle. The following week, the Phillips Blackhawks ran over the Rockets to the tune of 32 to 0. Following that the Wellington eleven bounced back to knock off Paducah 39 to 13, and the next week lost a close 21-19 decision to Dalhart. Last week-end, the Rockets showed power in downing the Clarendon Broncs 19-0, and if comparative scores mean anything, the teams would be about even. The Tigers' five victories have been over Groom 24-0, Hereford 19-6, Panhandle 10-0, Clarendon 19-0, and Canadian 46-6. McLean was idle last week-end, due to the cancellation of the Pampa B game. Fortunately, the Tigers have suffered no serious injuries thus far in the season, and barring practice injuries this week they will be in top shape for the Wellington game.

Coach Al Duncan scouted the Rockets in their game with Clarendon last week-end, and he feels that the Tigers will encounter much trouble with the Wellington eleven. The Wellington squad does not include any experienced players, but the team is composed of boys who have had experience on junior high and B squads. In other District 2-A games, Lefors will play at Shamrock in one of the head-liner games, and Diamond Hill High School of Fort Worth will play at Memphis. The Fort Worth lads are rated as tops in their district. Clarendon has an open date.

**Naomi Hancock, Chaplain in Vows Here**

The First Baptist Church was the scene Sunday, October 10, for the marriage of Naomi Hancock, daughter of W. L. Hancock of McLean, and Howard Chapman, son of Mr. and Mrs. H. N. Chapman of Morton.

The impressive single-ring service was read at 3 o'clock by Rev. Ray Stephens, pastor. While guests assembled, Miss Bonnie played nuptial selections accompanied Mrs. Bob Thomas who sang "I Love You Truly" and "She's a Modest Organ." The traditional wedding marches were used for the professional and recessional. The altar was banked with bouquets of white chrysanthemums and ferns, backed by candelabra and lighted tapers.

Attending the bride as maid-of-honor was her sister, Faith Hancock, wearing a blue gabardine dress with white carnations. **DID YOU KNOW—**

THE FIRST OIL WELL WAS DRILLED TO FIND A PRODUCT TO SUPPLEMENT WHALE OIL. TODAY MORE THAN 1200 IMPORTANT PRODUCTS ARE DERIVED DIRECTLY FROM CRUDE OIL.

THE UNITED STATES WOULD BE PRACTICALLY AT A STANDSTILL TODAY WITHOUT OIL. OIL POWERS NEARLY EVERY FORM OF TRANSPORTATION—AUTOS, BUSES, TRUCKS, DIESEL TRAINS, SHIPS, PLANES—AND LUBRICATES EVERYTHING THAT MOVES.

CONTINUING RESEARCH AND THE USE OF SCIENTIFIC OIL PRODUCTION METHODS HAVE LARGELY ELIMINATED WASTE AND HAVE STEADILY BOOSTED THE PROPORTION OF UNDERGROUND RESERVES BROUGHT TO THE SURFACE AND MADE INTO USEFUL PRODUCTS.

DESPITE RECORD PRODUCTION TODAY, INDUSTRY EXPLORATION AND DEVELOPMENTS HAVE INCREASED THE KNOWN UNDERGROUND OIL RESERVES TO A NEW HIGH—MORE THAN A TRILLION GALLONS.

THESE WERE FEW OIL BURNING SHIPS IN THE U.S. BEFORE WORLD WAR I. TODAY 99 PERCENT OF AMERICAN MERCHANT FLEET AND ALL WARSHIPS USE OIL FOR FUEL.

### 100 THINGS

THE FOLLOWING are questions and answers from a booklet, "100 Things You Should Know About Communism," published by the House Committee on Un-American Activities. This series is being reprinted here to acquaint local people with the way in which Communism works.

72. Has it (the Communist Party) always been called by its present name?

No. Here are the recorded, official changes:

1919—Communist Party of America, and the Communist Labor Party of America.

1921—The above parties merged into the United Communist Party of America.

1922—The Communist Party of America and the Workers Party of America.

1925—The above merged into one organization known as Workers (Communist) Party of America.

1928—Communist Party of the United States.

1944—Communist Political Association.

1945 to present—Communist Party of the United States of America.

73. Why has it changed its name so often?

To serve Moscow and evade the law of the United States.

74. Why isn't the Communist Party a political party just like Democratic and Republican parties?

Because it takes its orders from Moscow.

75. Are the Communists agents of a foreign power?

Yes. For full details write the Committee on Un-American Activities, Room 226, House Office Building, Washington 25, D. C., for House Report No. 209, entitled The Communist Party of the United States as an Agent of a Foreign Power.

76. Where can a Communist be found in everyday American life?

Look for him in your school, your labor union, your church, or your civic club. Communists themselves say that they can be found "on almost any conceivable battlefield for the human mind."

77. What states have barred the Communist Party from the ballot?

Alabama, Arkansas, Illinois, Kansas, Ohio, Oklahoma, Oregon, Tennessee, and Wisconsin.

## LES TALK

BY LESTER

Claude Mounce, who was valedictorian of the senior class of 1948 and who also worked here after school and on Saturdays last school year, is now attending the University of Texas at Austin. He apparently is doing all right, and is also keeping busy. He has a job in one of the libraries there to help pay part of his expenses. In addition, he is sports editor of the Baptist Student Union paper, and exchange editor of Spun Yarn, the Naval ROTC paper. Claude plans to major in journalism, since he liked that type of work when he was employed here. He is a smart fellow, and will make out all right in whatever line he chooses to follow.

H. Longan brought in a couple of green peppers the other day which he had raised in his garden. They were very pretty, and very tasty, too.

Last week football fans had the opportunity of seeing two games here, although not many fans took advantage of the opportunity. Tuesday night, the 6th and 7th graders played an intersquad game, and it was most enjoyable. Then Thursday night the 7th and 8th graders played a similar game from Claude. Our team beat Claude 31-7. I don't know many of the smaller boys, but I was able to pick out Don Crockett, Freddie Brister, Rodney Gunn, James Smith (who was the outstanding star in the Tuesday night game, and a few others. Not many over a hundred attended either game. You should have been there—if you are a football fan.

Friday night, since we had an open date here, I went over to Memphis to see the Shamrock-Memphis game. Shamrock won 19-0, but they wouldn't have if the Memphis players had done a little more tackling, and a little less missing of tackles. They say the good team always gets the breaks, and Shamrock sure got them. The Irish recovered one fumble by Memphis close to the Memphis goal line, and then ran it over for their first touchdown. In the last half, another Irish touchdown came when a Shamrock lad intercepted a pass and ran about 60 yards practically untouched. If our team continues to play like they have been playing, and if we receive no serious injuries, we will beat that Shamrock bunch. I have seen them play twice now, against

Phillips and Memphis, and personally I don't think they are as hot as they are cooked up to be.

There is still much, much interest in the Helms-Hickman well north of town. I am still hoping that it will develop into a nice field. We could use one around here. If it appears a field will develop, we should band together and attempt to promote some sort of oil industries near McLean. We could use them, too. If you have any bright ideas along these lines, pass them around—don't keep them to yourself.

Lester Dysart attended the "Ladies Be Seated" program in Amarillo last Thursday night with his wife. She wanted to be on the program, and he didn't. She wasn't and he was. His number was called, so he went forward. He was in a contest whereby a lady stood behind him, and fed him a banana and a glass of milk. Lester's side of three men and three women beat the other side. He has a new Ronson lighter to prove that his side won. Which only goes to prove that Lester is a good banana eater.

For the benefit of the women readers of this column, if any, I clipped the following from Peg o' Pampa's column in Sunday's Pampa News. Women are urged to read it, and men may do so if they can take it.

"ESSAY ON MAN—Man is what a woman marries. Men have two feet, two hands, and sometimes wives, but never more than one arts known to civilization. It requires science, sculpture, and common sense, faith, hope, and charity—mostly charity. It is a psychological marvel that a soft fluffy, tender, violet-scented sweet thing like a woman should enjoy kissing a big, awkward, stubby-chinned, tobacco and bay-rum scented thing like a man.

"If you flatter a man, it frightens him to death. If you don't you bore him to death. If you permit him to make love to you, he gets tired of you in the end. If you don't, he gets tired of you in the beginning. If you wear gay colors, rouge, and a startling

hat, he hesitates to take you out, collar button or one idea at a time. Like Turkish cigarettes, men are all made of the same material, the only difference is that some are better disguised than others. Generally speaking, they may be divided into three classes—husbands, bachelors, and widowers.

"An eligible bachelor is a man of obstinacy surrounded with suspicion. He has three varieties: prize, surprise, and consolation prize.

"Making a husband out of a man is one of the highest plastic. If you wear a brown toque and a tailor-made suit, he takes you out and stares all evening at a woman in gay colors, rouge, and a startling hat.

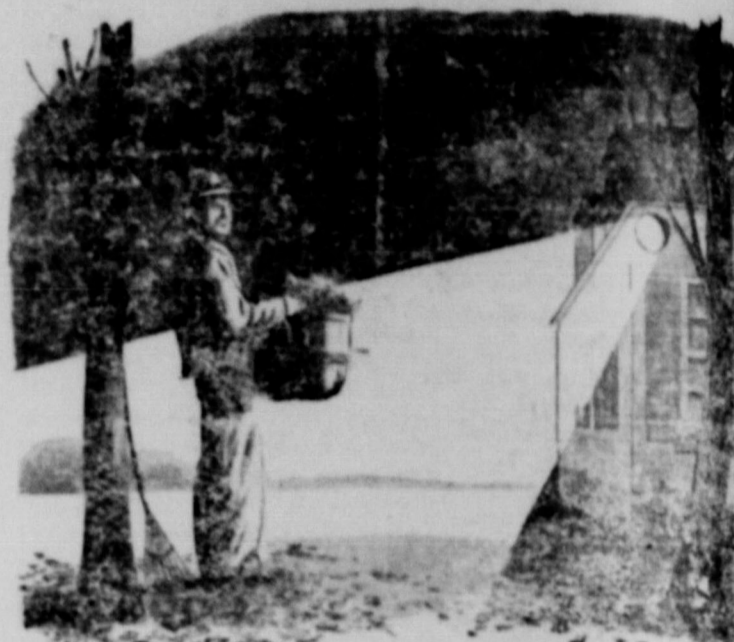

"If you are the clinging vine type, he doubts whether you have a brain. If you are the modern type, an advanced and independent woman, he doubts whether you have a heart. If you are silly, he longs for a bright mate; and if you are brilliant, he longs for a playmate. If you are popular with other men, he is jealous, and if you are not, he hesitates to marry a wallflower.

"If you please him, he seldom

mentions it, but if you displease him, he never fails to tell you about it—especially if you his wife."

### CONFIDENCE IS TURRIBLE ESSENTIAL

Man's a funny creature. He would go stark crazy if he didn't have somebody he could have confidence in. He's got to have confidence in his religion, an' in his family, an' in his friends 'fore he can be happy. An' he's got to have confidence in his government an' in the feller he does business with, or the things that we call government an' business would just fall plum apart. It's all based on confidence. That's the trouble in the furzen countries today. Ain't nuthin ner no'budy that a feller can put no confidence in.

I just been thinkin' 'bout them Elk Cottonoil Boys. I been doin' business with 'em fer forty-four year, an' I know from experience that you can depend with confidence on that outfit. They're our Paymaster Friends. They play a awful important part in this territory in the cotton g'n an' oil mill business. Fact is, they're the backbone of it all. They're the ones that makes the good prices an' the good ginnin' an' the good service available.

Yep, they're shore a asset, an' it's a mighty good thing fer us and fer this community that we can depend with confidence on Elk Cottonoil Co.

 4 tbs. fortified margarine  
 4 tbs. shortening  
 1/2 cup onions

 Council members called an election several weeks ago to vote bonds, the money from which was to be used in moving the surplus building. However, the election was called off when it was discovered that the bonded indebtedness of the city was such that the bonds could not be approved by the state's attorney general.

## COLOR SYMPHONIES

Come the gay whirl of autumn leaves and there begins another whirl equally exciting. This one is the spin of parties which often starts with a Halloween ball and gains momentum till the dizzy peak is reached at Christmas.

Because there is certain to be at least one macgyrate during this festival of fun, it's wise to plan now what costume you would wear, also what is necessary to make it. Then there will be plenty of time to turn it out in fine style.

In the case of the witch shown here, we just used the best parts of a couple of worn bed sheets and cut out a "Mother Hubbard."

Then with a section in an all-purpose dye bath, the material was almost by magic turned into jet black. Next came the simple stitching. An old set of white collars and cuffs put the finishing touches to the robe. The hat was made from cardboard painted black with jet-ol shoe polish.

Should you care to represent the Emerald Isle and go as an Irish colleen, here is an easy to make

costume. Cut shamrocks from any old white fabric you may have tucked away in a scrap box and dye them a brilliant green. All that's left to do is to tack them on a plain white frock and you'll be the prettiest girl in the County.

Have you thought about going to the party as a song? For example, supposing you'd like to go as the song "You" it's easy, simply stitch "U's" in various colors on a favorite solid colored evening dress.

Many other songs are just as easy to represent if you check over the popular hit tunes.

Sometimes men aren't as enthusiastic over macgyrates as women and in case you have to plan a last-minute costume for some reluctant male, here are a couple of suggestions. A big bead sewed to a plain card which reads "The first man" is a clever way to portray George Eliot's famous character and book. Or how simpler could you play the "Trial of the Lonesome Pine" than by tying a cord to a match stick and letting it trail behind?

### Five Handicapped People Get Jobs

Five handicapped people were placed on jobs in Gray County during "Hire the Handicapped Week," according to L. P. Fort, local manager of the Texas Employment Commission.

There are still three people on the active list who are unemployed; one of these has a job pending, and the other lives 34 miles away.

The effort to place handicapped people does not end with the expiration of the official week, said Fort. The Texas Employment Commission is always alert to place people who are unable to compete in the labor market due to physical reasons.

### S. S. Reports Due October 31

Wages and employment under the taxing provisions of the Social Security Act are identical with those covered by the benefit-paying sections of the act, according to a statement received from L. P. Herndon, collector of internal revenue, Amarillo, and J. R. Sanderson, manager of the Social Security Administration in Amarillo.

The regular quarterly social security tax returns and wage reports for the calendar quarter ending September 30 are due in the office of the Collector of Internal Revenue, Dallas, by the end of October. For the sake of economy in the government, and to simplify reporting of employers, the two agencies use the same reports to secure needed information.

Both officials strongly recommend to employers that the name and account number of each new worker be copied from his social security card when he starts to work. "To do so will enable an employer to file correctly compiled reports," they said. "As a result, time and expense will be saved the government, and inconvenience and possible penalties can be avoided by the employer. In addition, all workers will be sure to receive full wage credits towards the retirement and family insurance which they earn."

The statement by Herndon and Sanderson concluded that "a great majority of employers have done an excellent job of reporting. The few who have not done so are now expected to comply fully with the requirements."

Mrs. W. M. Rogers of Stockdale visited last week-end in McLean with her mother, Mrs. N. J. Miller, and two brothers, George and Bud Miller.

Mrs. B. S. McKinney of Mineral Wells has returned to her home after visiting with her nieces, Mrs. W. E. Kennedy and Mrs. Lucille Gaines and family. She also visited relatives in Alanreed, Pampa, Childress, and Quail.
