(More or Less)

If you missed that game between the 8th graders of Clarendon and McLean a couple of weeks ago, you can see the local 8th grade team in action again tonight when they meet a similar team from Wellington. The game will start at about 7 or 7:30 o'clock, and promises to be filled with action. So go on out to Tiger Field and see the future tigers in action.

Seen on the street Tuesday: Everett, squiring around a gracie dog. He had the animal on a leash, just as if he (Pet) was a high-faluting city dude whom his wife had made take the dog out for a walking. My, what these retired barbers will do.

We've had our hand called, not just once but several times, on the spreading adder story which appeared in last week's paper. We said, you may recall, that the spreading adder is a poisonous snake, and all our life we have understood this to be the case. But Mrs. C. W. Hogan, and later O. Kunkel (as well as others) called our hand on this matter. It seems that the spreading adder, according to the encyclopedia, is not poisonous. It is a species similar to the viper, which sometimes is poisonous and sometimes not—for example, the viper snake in Great Britain is poisonous, but not in many other places. Actually, we didn't know the spreading adder was not poisonous. We were quoting Postmaster Johnnie Back. Guess that'll teach us not to quote postmasters—that is, not to often, anyway.

We apologize, we apologize. A geographical error, which appeared in last week's issue of The News placed the price paid by the McLean Gin for the first bale of cotton slightly too high. We had in the paper that the cotton was bought by S. R. Jones, manager of the gin, for 50 cents per pound. Actually, the price paid was 40 cents per pound. What we hope is that no one wants us to pay that extra ten cents per pound. Don't believe we could stand it, could we, Clifford?

A. L. Hibler, who underwent a serious operation more than ten days ago, was reported to be some improved this week. He is in the Highland General Hospital in Pampa. Guy Hibler, his son, stated that it is possible that Mr. Hibler may have to undergo further surgery, but that his condition was much improved.

It was mentioned just recently in this column that John Kelly had had to report for a physical exam for possible service in the armed forces. Well, the armored infantry, of which he is a reserve, found John Kelly okay physically, so he has to report to Fort Hood on October 20. He was with the U. S. Marine Corps for several years during World War II, and after the war, he joined the armored reserve in the army. Back to active duty he goes now.

Polio Claims Ex-Resident

Mrs. Bob A. Wilson of Lubbock, former resident of McLean and a cousin of Mrs. Boyd Reeves and Johnnie Biggers of McLean, died of polio in West Texas Hospital in Lubbock last Saturday. It has been learned here.

Mrs. Wilson, 28 years of age, was the former Billie Jean Biggers of McLean. She was born in McLean August 21, 1922. She was the daughter of the late W. D. (Billie) Biggers and Mrs. Biggers (the former Winnie Floyd), who were members of pioneer families in the McLean area.

Mrs. Wilson was stricken with polio Sunday and immediately placed in an iron lung. On Monday, she became the mother of a son, who survives. Death came the following Saturday, October 7. Also surviving were her husband, another son, her mother, and a brother, Brac Biggers of Plainview.

Mr. and Mrs. Boyd Reeves attended the funeral services, held Sunday afternoon at the First Baptist Church in Lubbock.

C. C. Cash, 43, Killed in Auto Crash on '66'

Charlie Clifford Cash, 43 years of age, was killed instantly Tuesday night at about 7:15 o'clock when the car in which he was riding collided with a truck about 15 miles east of Amarillo on Highway 66.

His companion, Jose Domingue, 30, of Carlsbad, N. M., suffered only minor injuries. Domingue was a hitchhiker whom Cash had picked up. Several Latin-Americans in the truck were injured. Cash was driving a 1938 model coach. His face was badly crushed in the accident.

Funeral services will be held this afternoon at 2:30 o'clock at the Church of Christ. Burial will be in Hillcrest Cemetery.

Cash was born near McLean, in Wheeler County, 43 years ago, and was known to most residents of the area as "Little Boy" Cash. He had lived in or near McLean practically all of his life, and was engaged in farming and ranching.

Survivors include two children, Charlie Marie and Robert, of Clarendon; five sisters, Mrs. Leroy Freeman of Dalhart, Mrs. J. R. Phillips and Mrs. Maude Carpenter of McLean; Mrs. Dollie Harrell and Mrs. Jessie Nixon of Ballinger; and three brothers, C. J. Cash of McLean, Clyde Cash of Anderson, Calif., and Walter Cash of Lefors.

Several of 15 Latin-Americans, all from San Antonio, who were riding in the ton and a half truck which carried a farm bed, were injured when the truck overturned following the collision.

Most seriously injured was Mary Paez, 2 years of age, who suffered severe head injuries. She was taken to St. Anthony's Hospital in Amarillo. Others injured included Mrs. Saveria Paez, 36, and her sons, Gavino, 13, and Arturo, 12. They were released from the hospital after treatment.

Driving the truck was Calarina Amaya, 42 years of age.

According to a story in the Amarillo News, investigating Highway patrolmen said Cash, driving east, pulled over into the left, or north lane of the highway, forcing a westbound car, preceding the truck, off the road. The westbound vehicle was accompanying the truck, and occupants of both vehicles were en route to Plainview for harvest work.

When the truck driver saw what was happening, it was reported, he started to pull off the north side of the highway, in an effort to avoid the collision. However, the car struck the left front corner of the truck bed, causing it to turn on its side, on the north edge of the highway, headed west. The car was demolished and the truck badly damaged.

REV. RAY STEPHENS of Spearman, former pastor of the First Baptist Church in McLean, who will conduct a revival at the Kellerville Baptist Church October 15 through Wednesday, October 25. Services will be held each week-day morning at 10 o'clock, and each evening at 7:30 o'clock. Rev. H. Price Bishop, pastor of the Kellerville church, said, Mrs. Brent Chapman will serve as song leader during the revival. A large number of McLean residents plan to attend the services to hear Rev. Stephens, who was a very popular minister of the McLean church.

Two Contests In High School Get Underway

You can tell it's the fall of the year, because it's queen contest time in the McLean High School.

Two contests are already underway—one to choose the Harvest Queen, to be crowned at the annual Halloween Carnival, and the other to find out who's the beauty of the school (in the opinion of the judges, that is).

In the Harvest Queen contest, votes decide the winner, and each class in high school attempts to get the most votes for its candidate. Votes are one cent each, incidentally, and most of the money turned in goes to the high school library fund.

The queen candidates are as follows: Waneta Hupp, representing the senior class; Faye Glenn, junior class; Betty Joy Patterson, sophomore; and Phynelpha Harlan, freshman.

The other contest, started last year by the Press Club as a means of getting financial support for the school annual, will be held some time in November. There's a total of 28 girls in this affair, with each girl being sponsored by a McLean business man (the sponsor pays \$10 for this privilege).

The car was demolished and the truck badly damaged. (Continued on back page)

Tigers to Play At Wellington Friday Night

The McLean Tigers will hit the road again this Friday night, meeting the off-and-on Skyrockets in Wellington in a District 2-A "grid game that counts."

It will be the second district game for each of the two teams, and both have won one conference tilt and lost none. And the team downed by each of the two was a common foe, Clarendon. The Tigers edged out a 13-6 victory over the Clarendon Broncos two weeks ago, and last week-end Wellington blasted the comeback hopes of the Broncos with a 31-13 trouncing.

The Rockets, under the coaching of Maxey McKnight, have not started off in a booming way this season. They opened against Perryton, winning 19 to 0; lost to Dumas 12-2; lost to Mangum, Okla., 21-13; lost to Dalhart 29-13; and then bounced back to whip Clarendon 31-13.

The Tigers thus far have a slightly better record, winning from Hereford 12-0, losing to Phillips 28-6; losing to Canyon 7-6; downing Clarendon 13-6; and whipping Perryton 26-6.

The teams have had two common foes, Clarendon and Perryton. While Wellington was able to defeat the Broncos by three touchdowns, McLean was able to turn the trick by only one counter. Against the other common foe, McLean won 26-6, or 20 points, while Wellington won 19-0. The comparative scores would indicate that the two teams will be fairly evenly matched.

Despite the fact that McLean has had a total of 47 points scored by opponents, the line of the Tigers has shown up fairly well, and has been steadily improving as more experience was gained. Wellington's team has allowed its opponents to make a total of 75 points.

The offensive attack of McLean is built around the powerful running of veteran L. M. Watson, aided by the tricky running of Don Tindall. In the past two games, the Tigers have opened up with an aerial attack, and in both the Clarendon and Perryton games, this passing has paid off well. In the Canyon game, the Tigers tossed quite a number of passes, with Watson doing all the passing, but in that tilt most of the tosses were short ones.

Reports indicate that the Rockets rely fairly well on passes, too, so the game could easily develop into a passing duel.

In other games involving District 2-A teams, Lefors will play at Shamrock; Wheeler will visit Memphis; and Clarendon will travel to Canyon.

"Novel" comes from an Italian word meaning tale.

New Officers of Legion Post Are Installed

New officers of the Andrew H. Floyd post of the American Legion, to serve during the 1950-51 year, were installed at a meeting of Legionnaires by Rhea Smith of Amarillo, 18th district commander, Monday night.

Installed were George W. Terry, commander; J. C. Claborn, first vice commander; R. B. Shedrick, second vice commander; E. J. Windom Jr., sergeant-at-arms; Hickman Brown, chaplain; Hershel McCarty, historian; O. L. Barr, service officer; Howard Horne, adjutant; and Jasper Graham, finance officer. All were present to take the oath of office with the exception of McCarty and Barr.

In making the installation, Smith pointed out the duties of the various officers, and gave the charge of the office of commander to Terry. Bill Beard, adjutant of the 18th district, gave Horne the charge of office as adjutant of the local post.

Smith also announced that the semi-annual convention of the 18th district will be held in Shamrock November 11 and 12, and urged as many Legionnaires as possible to attend the meeting. Among notables to appear on the program will be Bill McGraw, former state commander.

Accompanying Smith and Beard to McLean were Mrs. Smith, president of the American Legion Auxiliary in Amarillo, and Mrs. L. A. Pitt of Amarillo, president of the 18th district auxiliaries.

Mrs. Pitt spoke briefly before the Legion members, and urged that the post work toward reorganization of an active auxiliary in McLean. Mrs. Smith told of some of the work of the auxiliary in Amarillo, pointing out particularly the work of the Amarillo auxiliary in the Veterans' Hospital of Amarillo.

CONGRESSMAN BEN GUILL.

Another War To Be Costly, Guill Declares

Another four-year war, under the present prices which prevail in the United States, would cost this nation approximately six hundred billion dollars, Congressman Ben Guill of Pampa told members of the McLean Lions Club in an address before them Tuesday noon at the regular meeting of the club.

Guill, introduced by County Agent Ralph Thomas, who has known the congressman for many years, stated that "we can win a war against aggression and still lose our personal freedom," explaining that the entire nation would be greatly regimented at the end of another war.

"We would have to win the war," Guill emphasized, and even in doing so, the people would be regimented to a greater extent than at any time in history. He explained that the past war cost the U. S. 356 billions of dollars, and that of this amount 217 billions was added to the national debt—the national debt is now 270 billions. Doubled and tripled prices would make another war now cost about 600 billions, and not more than 45 per cent of it could be paid by taxes during the war. In such an event, the national debt would rise to nearly 600 billion, and regimentation by the government would be the only solution to ever dissolve such a debt.

Guill quoted many staggering figures. He said that he did not want to sound like a bureaucrat in doing so, that he could not even imagine the magnitude of a billion dollars, but that the American people should be aware of it. (Continued on back page)

McLean Tigers Defeat Perryton Rangers by 26-6 Score

In Brief:

Pen. Recd.	13 for 25. 6 for 35
Oppon. Fumb. Recd.	1 1
Punts	4 4
Punt Aver.	32 24

Scoring: McLean 26 (Watson 14, Tindall 12), Perryton 6 (Carter).

A hapless band of Rangers from Perryton fell before the McLean Tigers 26-6 last Friday night on Tiger Field, but many fans agreed that the game yielded the poorest showing of the season for the local eleven.

The Tigers worked fairly hard in the initial quarter, but after that, leading seemed to be the order of the evening. The victory tosses. Tindall was the running star of the game, with his treks around right and left ends on the ground right and left ends on the play hand-off from Watson. The play has worked well in every game, for it is excellent in deception, particularly in view of the fact

that nearly all tacklers are pointing for Watson.

The Tigers were given a jolt in penalties, getting a total of nine penalties for backfield-in-motion, two for off-sides, one for a personal foul, and one for clipping.

The Tiger line held fairly well, holding the Rangers at one point for four downs inside the 5-yard marker. The Perryton lads were unable to gain much through the line, but part of that can be attributed to poor quarterbacking.

The scoring plays were as follows: In the opening quarter, the Tigers started a drive from their own 28-yard line. A series of running plays, with Watson and Tindall carrying, moved the ball downfield on four successive first downs to the Perryton 9. From that point, Watson handed off to Tindall on the deceptive play, and Tindall circled right end and went over to score. Watson's kick was no good, and the score was 6-0.

Early in the second quarter, the Rangers were held for three downs. On the fourth, Ray Vaughn attempted to punt out of

danger, but fumbled a bad pass from center, and was caught on the Perryton 19. Watson then passed to Dan Cooper to the 8-yard line for a first down. On the next play, Watson cut through right tackle, pulled loose from several tacklers and went over to score. His kick was blocked, and the score was 12-0. Before this touchdown, the Tigers had been held for downs inside the Perryton 5.

There was no scoring in the third period. Late in that quarter, however, the Tigers started a march downfield from the Perryton 46. Watson picked up six running, and then passed to J. N. Smith to the 30. Later Watson tossed to Smith again, who caught it on the 20, broke loose and ran the ball on down to the 7-yard line. Watson picked up one, and Tindall made four and the third quarter ended. On the first play in the final period, Watson made one more yard, and then plunged through left tackle for the score. His kick was good, and McLean led 19-0.

In the fourth period, the Rangers started on their own 47, and

marched downfield, but were held for downs inside the 5-yard marker and lost the ball on downs on the one.

Later Watson punted out-of-bounds on the Perryton 38. From there, Vaughn made 12 yards running, and then McLean drew 15 yards for clipping. Alfred Carter, on the next play, broke through right tackle and raced 25 yards, practically untouched, to score. Vaughn got a bad pass from center, and attempted to run the ball across but failed, and the score was 19-6.

Watson took the kick-off, and returned to the 33. One pass fell incomplete, and then he tossed to J. N. Smith to the Perryton 40. On the next play, McLean was given an advance of 15 more yards when Watson was roughed. From there, Watson tossed a beauty to Tindall on the four, who stepped across to score. Watson's kick was good, and the score was 26-6.

On the kick-off following, Carroll Hall booted a short one to the Perryton 13, and Wayne Smith fell on the ball. There was time for only one pass, which fell incomplete.

Unit to Be Open From 9:30 to 6 At Dysart Firm

Saturday's the date, and everyone is invited and urged to submit themselves to the free chest X-ray which will be given to all persons 15 years of age or older, Boyd Meador, vice chairman in charge of the visit of the X-ray unit to McLean, stated.

The unit, property of the State Department of Health, will be set up Friday, and will be in operation Saturday from 9:30 o'clock in the morning until 6 o'clock Saturday night.

Absolutely no charge for the X-rays is made. The mass surveys are being made by the state department, in an effort to find possible cases of tuberculosis before they develop into serious stages. The X-rays are not made for charity cases only, but for the entire public.

The unit will be located here in the showroom of the Dysart Motor company, Meador stated, and will be in McLean only the one day.

General chairman of the visit of the unit to Gray County is Dr. Joe Donaldson of Pampa. Vice chairman of the county is Frank Wilson, while Meador heads the work here and R. C. Wilson heads the work in Lefors. The unit is in Lefors today.

Mrs. Spencer Sitter is chairman of the clerical work in McLean; Mrs. Paris Hess, nestess committee chairman, Vernon Wood, loading and unloading; Rev. Buel T. Wells, ministerial alliance; Paul Kennedy, transportation; Mrs. Jim Back, telephone committee; Mrs. Jesse Coleman, house-to-house committee; and Lester Dysart and Amos Page, public address system committee.

Taking of the X-rays requires only two minutes per person. Those being X-rayed register first. Then each registration card is given a number to correspond with the film number, and all films and cards are sent to Austin for study. Later the person taking the X-ray is notified as to whether they show signs of T. B. Their physician is also notified if the reaction is positive.

The visit of the unit to Gray County is being jointly sponsored by the county tuberculosis and medical associations.

Guill to Speak To Legionnaires

Congressman Ben Guill of Pampa will be the honored guest of the Andrew H. Floyd post of the American Legion post in McLean at the next regular meeting of the post Monday night, October 23, Commander George W. Terry has announced.

Guill, a veteran of World War II, will make a non-political talk, and will give the veterans a report from Washington. He will also answer questions which the veterans may wish to ask concerning legislation affecting veterans.

The public is invited to attend the meeting and hear the talk by the congressman, Howard Horne, adjutant of the post, said this week.

Round-Up to Be Saturday Night

Ralph Newton's Western Round-Up, featuring western-type music, will be sponsored by the Andrew H. Floyd post of the American Legion at the new Municipal Building in McLean Saturday night. The program will begin at 8 o'clock.

The show will enable local residents to get a look at the new building since the bleacher seats have been installed. Admission will be 85 cents for adults and 40 cents for children.

"SMALL BUSINESS"

By C. WILSON HARDER

It is possible that soon Congress will plug a leak that has existed in the anti-trust laws for 35 years. That would be the passage of H.R. 2734 to amend the Clayton Act passed in 1914.

Briefly the Clayton Act forbids corporations to buy out the stock of competitors for the purpose of eliminating competition. But for years the purpose of the act has been defeated, as corporations have been able to legally buy up the assets of competitors.

For years Congressmen have fought to plug this leak.

In addition, every President since Wilson has tried to plug this leak.

Now the situation has become desperately critical. In 1947, the Federal Trade Commission found mergers reached a new high.

This trend was speeded up by the huge profits in recent years of the big corporations. At the end of 1945 the 62 largest corporations held \$84 billion of net working capital—sufficient to purchase the assets of 90% of all the manufacturing companies in the nation.

Congress has found in practically every line of business, from dairy products to farm machinery, monopolies composed of as few as four companies are doing as much as 93% of the business.

In every case, it was found this was accomplished by purchase of the assets of the independent competitors: often after a dis-

astrous price war launched by the eventual purchaser forced the independent business to the wall.

As it stands now, the House has passed the amendment to the Clayton Act which would stop this abuse. The Senate Judiciary Committee has also recommended passage.

Organized independent business is aggressively working for passage in the Senate. The battle is bitter, but Sen. Herbert O'Connor (Md.), who is chairman of the Judiciary Committee, reports that never in 25 years has the reform measure been closer to passage.

Washington now expects, barring unforeseen intervention by new hostile forces, an early end to Korean fighting.

But it also expected that the drive to increase taxes; place further controls on business will continue, unless, of course, the November elections result in many major upsets.

Western manufacturers who attended a small business clinic in Northern California for specific information on defense contracts written in their seats as an official devoted a large part of his time to eulogizing Louis Johnson.

But they also derived a hearty laugh. The speaker was called to the phone; red-facedly reappeared to announce the removal of the Secretary of Defense.

Gale Bizzell is visiting Mr. and Mrs. Milt Williams in Elk City, Okla.

Mrs. Jay M. Hendricks of Logan, Okla., visited friends and relatives here over the week-end.

WHAT'S COOKIN'

In Gray County H. D. Work

By Mary Anne Duke,
County Home Demonstration Agent

Welcome Joy Williams

Along with 200 4-H Club girls in Gray County, we welcome Miss Joy Williams of Shamrock as assistant home demonstration agent in Gray County. Joy will be working with 4-H Club girls all over the county. We know this program will be greatly strengthened under the leadership of such a capable and lovely personality.

Many will remember that Joy was in this county as assistant agent in training the three summer months of 1949. Since that time she has graduated from Texas Technological College with a bachelor's degree in home economics.

With the splendid cooperation of the parents, the adult leaders, and the girls, Joy Williams can make make history in girls' 4-H Club work in Gray County.

Texas Truck Driving Champs

Champion truck drivers of Texas for 1950 are pictured with their employer and the trophies they won in the annual Texas Motor Transportation Association, Inc. rodeo in Dallas. Frank M. Pannell (left), of Dallas, drove a Dodge 1 1/2-ton F-152 with van to win the straight truck event, while X. Z. Ballard (right), of Houston, drove a Dodge 4-ton YA-130 tractor with trailer to win the tractor-semi-trailer event. Both men won the same events last year in the 1949 Texas rodeo. Their proud employer, Henry English (center), head of Pannell Motor Freight Lines, of Dallas, served this year as president of the American Trucking Association.

HELP WILL BE NEEDED

THERE'S A GROUP of men in our town who seldom get much recognition for their services, all of which are voluntary services, but who are called upon at all hours of the day and night.

We refer, of course, to the members of the McLean Volunteer Fire Department.

Members of the fire department work without pay. The city does give each of them who answers a call a small fee—we're told that it's \$1 for a call or \$3 if the fire is of sufficient size to warrant unreeling the hose. But this small fee will not even take care of the cleaning bill the firemen will probably face following the fire, much less the replacing of clothing which is likely to be ruined. So we would say that these men furnish their services free of charge.

Fighting fires without pay and for the good of the community and the area is not the only function of the fire department. Only recently, the firemen sponsored the purchase of a new resuscitator for the use of the public. Any of the firemen is capable of operating the apparatus, and it will, one of these days, be responsible for the saving of a life or lives. It will pay for itself many times over if only one life is saved.

Buying the resuscitator was one project of the fire department.

Now the firemen have another, much larger project in mind. This project is simply this: The fire boys want to buy a new truck to be used in fire fighting.

We are told that the fire boys have saved enough money from their dues and from other sources to buy a large tank (about 500 gallon size) and a pump. But they lack the money to buy the truck on which to mount the tank and pump. It is expected that between \$2,000 and \$2,500 will be required to buy such a truck as is needed. Grass fire time is approaching rapidly, and this truck would aid greatly in fighting grass fires out of the city limits.

So the fire department will need your help, and it's going to take a number of large contributions to raise the necessary money. Farmers and ranchers with grassland in the area should be particularly concerned, for this truck would be used to save their grass should it catch fire. And it is hoped that these men will be able to make sizeable contributions to the truck fund.

Within a short time, you will be hearing from some of the members of the fire department—through this paper and in person. Donations will be solicited. It's for a good cause, and is being sponsored by the fire boys entirely from an unselfish viewpoint. When you are asked for a contribution, kick in all you can.

At the end of every examination paper in a certain school, students were required to sign a statement that they had neither given nor received any help during the test. One boy lingered after the others and when he was asked what the trouble was, replied that he did not know whether he could sign or not. He said that he had prayed for help in the examination and did not know whether he had received it or not.

The teacher looked over his paper. Turning to him, she said gently, "I think you can sign."

LES

TALK

BY LESTER

Even with the nice victory over Perryton last Friday night, I was not too well pleased with the showing of the McLean Tigers. There was too much loafing. Ferryton, unfortunately this year, hasn't much of a team—at least it wasn't much last Friday night. Our line held them well, but our quarterback attempting to do all the running when he wasn't their best runner.

In other words, I am of the opinion that if our boys play anything this Friday night like they did against Perryton, Wellington will beat us as badly as they beat Clarendon—or worse. If we play hard and well, we will win—that is the basis for my prediction:

McLean 13, Wellington 7.
Shamrock 21, Lefors 6.
Memphis 30, Wheeler 7.
Canyon 14, Clarendon 0.

Sammy Haynes' predictions:
McLean 13, Wellington 6.
Shamrock 19, Lefors 13.
Canyon 20, Clarendon 6.
Memphis 34, Wheeler 6.

Last weeks predictions and actual scores:

My prediction: McLean 19, Perryton 0; Sammy's McLean 20, Perryton 0. Actual score, McLean 26, Perryton 6.

My prediction: Memphis 14, Shamrock 13; Sammy's: Memphis 20, Shamrock 19. Actual score, Memphis 14, Shamrock 18.

My prediction: Clarendon 19, Wellington 13; Sammy's Clarendon 13, Wellington 13. Actual score, Clarendon 13, Wellington 31.

My prediction: Lefors 12, Dumas 7; Sammy's: Lefors 20, Dumas 6. Actual score: Lefors 21, Dumas 20.

My record: 2 misses, 2 hits, and for the season, 13 hits, 7 misses. Sammy's record: 2 misses, 2 hits, and for the season, 10 hits, 4 misses.

If you have been a reader of this paper for even a brief period of time, you probably know well by now that I am strictly against any further socialistic trend in our government.

Among other things, I am definitely against socialized medicine in any form, whether it be Harry's compulsory health insurance or any other type. Harry, our president you know, is for compulsory health insurance for all people. We will grant that compulsory health insurance is not strictly socialized medicine, but it is a great step toward socialized medicine, and it wouldn't take long for that final step to be made once we start.

Personally, I like the idea of our capitalistic form of government. Unfortunately, the propaganda agents of Europe, particularly those in Russia, have been very effective in causing many people to look down on the word

capitalist.

The propagandists to which I refer have painted a capitalist as a mean ogre who clamps down on everybody and everything, and takes all the money. But that isn't a true picture of a capitalist.

Big corporations are the result of capitalistic forms of government. Many of you think big corporations are bad things. But did you ever stop to think who owns the big corporations? The owners are the so-called "small people" like you and me, who own stock in the corporations, who depend on the returns from this stock for a part of our income. The corporations are merely managed by individuals on salaries, and quite often some of the higher-ups do not own a penny's worth of stock.

I like the idea of giving every man or woman a chance to make his or her mark in the world. I like the idea of individualism. I like the idea of competition, for it gives us the incentive to do our work better and to work harder, longer, and more sincerely.

In our present system of government, every business man has that competition, even though he may own the only store of its kind in a town. Transportation facilities are so advanced that competition is no longer just across the street, but the main competition lies between towns.

Being in business in America is more than skillful buying and selling too. It's the exercise of a fundamental right—freedom to venture, freedom to plan, freedom to succeed by serving best.

In this issue of The News, you will find a large advertisement sponsored by the American Medical Association, in cooperation with doctors throughout the nation. This same ad is running in every paper in the United States this week; and by every paper, we mean every weekly and daily paper in the nation. The ad, as you will notice (and we do want you to read it thoroughly) points out some of the things I have said and some I haven't, and urges everyone to use the voluntary health insurance plans, rather than Harry's compulsory plan.

Several other business men in McLean are running tie-in ads, with similar thoughts, and I urge that you read them all.

After all, we are running this government through our representatives and senators in Washington, but unfortunately we do not always take the proper interest. Unfortunately, too, we often listen to the wrong propaganda, for those who oppose our way of life can paint a beautiful picture under socialism or communism. But the picture is like many oil paintings—it looks good from a distance, but up close it's just a big mass of oil daubing.

Yes, we want you to read these ads, and we hope you have read this. Harry's weak-livered compulsory health insurance is NOT the answer. All freedoms stand

or fall together. That's why we take our stand today, with the doctors of America, for the voluntary system. At home and abroad, it's worth defending.

1910 Election Warm--But Fortunately Nobody Hurt

100 Years Ago—
IT HAPPENED HERE

From the Files of The McLean News, November, 1910

Election Tuesday Was a Warm One
Booms of Bullets Most Terrific in History of County—Some Close Calls for Victors

It is over. The fires that had smoldered in the bosoms for the past year burst up about Saturday morning and the conflagration crackled and roared until a late hour Tuesday night, when all suddenly died away and only the gentle splash of the briny waves as they tossed the frail barka struggling up stream was heard to break the monotony of the oppressive silence. A few citizens went home with a glow of victory burning warm in their bosoms, while a great many others home feeling as did the maharajah that "all men are liars."

A very few unpleasantnesses arose during the last days of the election, but judged from an impartial standpoint the whole election was conducted in a fair and honest, as well as peaceable manner. To those who are defeated the blow will probably be a severe one, but as we have had occasion to remark before, the western spirit—the energetic spirit—the dynamo that has furnished the motive power for a race of empire builders—will once more carry them safely over the flood tide of adversity and deposit them squarely on the highlands of cheerful satisfaction.

Of course there may seem little satisfaction in defeat to the ordinary mind, but the man who can look a doughnut square in the face three times a day and never see the hole can undoubtedly console himself that the grapes were sour.

To those who have been fortunate enough to win we offer our hearty congratulations. You have fought a good fight and the people have trusted you with the care of their business. It remains with you to prove to them that the trusts have been well placed. We believe you will do it.

Those who will serve with us in the different offices of the county and district during the coming two years are as follows: County judge—R. E. Williams. County clerk—C. L. Upham. County treasurer—Henry Thut. County surveyor—Dr. Coppedge. County attorney—S. E. Boyett. County assessor—J. B. Paschal. Sheriff—J. S. Denson. Commissioner—A. B. Gardenhire. Justice of the peace—E. D. Foster. Constable—Jack Hindman.

So far we have not received positive returns over the entire district as to the race for district judge, but the indications are that Greener will win. He carried this county by a good majority. Reese being elected district attorney, having no opponent.

HAVE A BETTER KITCHEN

Canning time brings its own problems for the homemaker, not the least of which is the messy job of getting rid of fruit parings and other wastes. They litter the kitchen and are sticky, soggy, and hard to handle.

The time-honored method of ridding the kitchen of these wastes is to wrap them heavily to be stored in a garbage can.

How much easier it would be to flush them down the sink. That's just what is done by housewives who have automatic food waste disposers. They prepare fruits and vegetables for the canner right at the sink. Parings and waste go directly into the disposer openings, are ground into tiny particles and are swirled away into the sewer system (or septic tank) in a flood of cold water.

"I've always liked my disposer, but I never realized just how useful it could be until I started to do my canning," said one housewife. "It not only saves me time but it keeps my kitchen cleaner and gets all the mess out of the way right away!"

All sorts of kitchen wastes are handled by the disposer, except paper, string, tin cans and other trash. It is not recommended for corn husks and cobs, however, because their heavy fibers may clog the machine.

There are several types of disposers on the market. One popular model features a continuous feed, so that waste material can be fed into the unit steadily instead of having to fill a hopper and placing the lid before the grinding operation can begin.

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: Mabel Bartlett and the unknown heirs and legal representatives of Mabel Bartlett; Stuckey Construction Company, a dissolved corporation, and the unknown directors and stockholders of the Stuckey Construction Company; J. F. Bailey, and the unknown heirs and legal representatives of J. F. Bailey. GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 20th day of November, A. D., 1950, at or before 10 o'clock a. m., before the Honorable 31st District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 5th day of October, 1950.

The file number of said suit being No. 9851.

The names of the parties in said suit are: Joe Daniels as Plaintiff, and Mabel Bartlett and the unknown heirs and legal representatives of Mabel Bartlett; the Stuckey Construction Company, and the unknown directors and stockholders of the Stuckey Construction Company; and J. F. Bailey and the unknown heirs and

legal representatives of J. F. Bailey, as Defendants.

The nature of said suit being substantially as follows, to wit: a suit in trespass to try title to lot number 16 of block number 3 of the Cuyler Addition to the City of Pampa, Texas, the plaintiff alleging title by deed, and by special plea of limitation, sworn to in the petition, claiming under the ten years statute of limitation, and setting up title shown by abstract, filed with the papers, which abstract will be introduced into evidence and relied upon as proof, as well as other proof. Plaintiff asks judgment for title and possession and for costs. There is endorsed upon the petition that the suit is to try the title as well as for damages and that title by limitation has been pleaded and will be relied upon.

Issued this 5th day of October, 1950.

Given under my hand and seal of said Court, at office in Pampa, Texas, this 5th day of October, A. D., 1950.

DEE PATTERSON Clerk, 31st District Court, Gray County, Texas.

Here is our Prescription 

FOR A HEALTHY COMMUNITY

Filling prescriptions is an important part of our business. But today, for a change, we are taking the liberty of writing one—after long and careful thought. Here it is:

PURCHASE Voluntary Health Insurance.
PRESERVE the American medical system.
PROTECT freedom all along the line.
FREE AMERICA HAS NO PLACE FOR SOCIALIZED MEDICINE!

Brown's Drug Store

Who Runs America?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

izations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

Fund Lack Slows Economy Group, Governor Reports

By ALLAN SHIVERS
Governor of Texas

(Editor's Note: This is the last in a series of five articles on the Texas Economy Commission.)

Just as the housewife engages in "spring housecleaning," state government needs to clean house now and then.

If unneeded or overlapping services have accumulated, they must be eliminated. Only by doing so can we make sure that necessary state services will be provided efficiently and economically.

The Texas Economy Commission is undertaking to provide financial support for the necessary research upon which to base a sound, progressive reorganization program.

HUNDREDS of Texas citizens have accepted appointment to this commission, which is purely a people's project. It has no connection with state government, except that appointments to the commission were made by the Governor.

We hope for and expect the Texas Economy Commission to grow into a real grass-roots movement for good government. Everyone is for economy in general. Most of us like to talk about it—but taking action is a different matter.

I hope that the Texas Economy Commission will soon get beyond the talking stage.

When will this commission have something to report? That question is not easy to answer.

When the commission was originally started last March, I had hoped that it would be able to start its work promptly and have at least a preliminary report ready by January, 1951, when the 52nd Legislature will meet.

THERE HAVE BEEN inevitable delays, however, in the organization process. As might be expected, most of our problems are financial in nature. No state funds are available for this program, which will require a minimum of \$75,000 for proper development.

Capable personnel must be acquired for the research staff, and persons of the desired qualifications are not easy to find.

They are already gainfully employed elsewhere; they are not eager to accept assignments with this new organization until the money is in the bank.

Thus the actual research program of the TEC has had to wait on completion of the drive for a \$75,000 operating fund. About 20 per cent of the commission's first-year budget has been deposited. Efforts are being pushed to raise the balance.

Meanwhile, county organizations have been perfected in about 50 counties. Fund-raising is in progress in other counties as well. The money will be subscribed, I am confident.

THUS THE TIMETABLE of the Texas Economy Commission has had to be revised. It is unlikely that a report can be made that will be helpful to the Governor and the Legislature during the forthcoming session.

This delay is to be regretted, but it will not be fatal.

The field in which the Texas Economy Commission will operate is broad and complicated. A careful study and report somewhat delayed would be eminently preferable to a hasty and incomplete one.

I am convinced that the Texas Economy Commission is in position to do a great deal for economy and efficiency in state government—and that it will do so.

Health Department Has New Service For Atom Hazards

A new service has been established within the Bureau of Sanitary Engineering at the State Department of Health to handle the thousands of radiation hazards an atomic bomb burst would bring. State Health Officer George W. Cox has disclosed.

It will perform six vital functions, all dealing with finding and decontaminating dangerous radioactive areas, Dr. Cox said. He listed those functions as:

1. Pre-disaster training program. Men and women will have to be trained in the use and interpretation of radioactivity detection instruments. Of course, the training program will have to be started immediately, so they will be ready to handle their jobs if and when an atomic bomb is dropped anywhere in Texas.

2. Detection device distribution. Those men and women will naturally need instruments to detect radioactivity and to protect themselves. Getting such items as geiger counters, ionization chambers, pocket chambers, and film badges—all radioactivity detection instruments—will be the job.

3. Monitoring crews, rescue workers, doctors, and nurses will have to have protective clothing such as hoods, gloves, respirators,

and coveralls, before they can safely go into contaminated areas. Clothing for this work must be secured.

4. Field monitoring. Teams of radiation experts will locate areas of residual radioactivity. Geiger counters and other detection devices can seek out the odorless, tasteless, and colorless radioactive particles that can burn and destroy human tissue and cause changes in body cell structure. Experts will check buildings, streams, medical supplies, food, and so forth, that might have been contaminated. Danger zones will be marked so that people can keep out of them.

5. Decontamination. "Radioactivity will be destroyed by scrubbing, sandblasting, burying, and isolating the objects or areas found to be contaminated with the trick gamma rays, and alpha and beta particles. Monitoring squads and rescue workers will have to be cleansed when they come in from the field.

6. Exposure histories. The radioactivity to which emergency workers have been exposed will have to be recorded. This can be told from readings on film badges and pocket chambers. If "maximum allowable lifetime dose" of radioactivity, they will have to be kept from getting any more or it could be fatal to them, Dr. Cox said.

Wek-end guests in the Homer Abbott home were Mr. and Mrs. H. E. Passmore and Richard of Oklahoma City, and Mr. and Mrs. John Bayless of Borger.

Sid Stewart made a business trip to Amarillo Saturday.

Ruel Smith was a business visitor in Denver, Colo., last week.

NEWS FROM KELLERVILLE

Mrs. R. M. Holley left Thursday for Cleveland, Ohio, where she will visit her daughter, Mrs. W. D. Champion.

Mr. and Mrs. Jack Boyd made a trip to Oklahoma City Saturday, for a final check-up for Mr. Boyd at McBride's Clinic.

Mrs. Leona Edney, mother of Mrs. Jake Jones, underwent a major operation at St. Anthony's Hospital in Amarillo last week. She is reported doing nicely.

Mr. and Mrs. Buddy Gray are the parents of a daughter, named Molly Darlene, born October 7. She weighed 8 pounds, 7 ounces.

Mr. and Mrs. Russell Williams and children of Minnesota are visiting in the Archie Farren home.

Mr. and Mrs. Walter Marshall were called to Randolph, Ill., on account of the death of Mr. Marshall's sister. We extend our sympathy to the family.

The Phillips company presented a safety meeting Tuesday night at the school auditorium. A very interesting demonstration on combating was given by Mr. Brown of the Bureau of Mines. They also showed a picture of Florida. Refreshments of coffee and doughnuts were served in the gym.

Mr. and Mrs. W. E. Evans of Sicily Island, La., are visiting in the Howard Miller home.

Mr. and Mrs. Tom Hefner and children are visiting in Graham for a few days.

Deal of the Week:
Customer: Do you have Gold Seal Congoleum?
Me: Yes, Ma'am, what did you have in mind—bath, kitchen, living room, or bedroom?
She: Well, both, I guess.
Me: What size?
She: Oh, I forgot to measure.
Me: About a 9x12?
She: Oh, no!
Me: Bigger, or smaller?
She: Oh, a little, I guess, the long way.

I'll bet we do have the largest selection of hard surfaced floor covering in the Panhandle. I'd like to make a motion that everybody who is planning on a new linoleum to get it before it gets too cold, if possible. It handles much easier and lays a lot better,

Talent Show Draws Crowd

A capacity crowd turned out Tuesday night at the McLean High School auditorium to enjoy a talent show, which included both school students and out-of-school contestants, sponsored by members of the sophomore class.

The contests were divided into four groups; grades one through four, grades five through eight, high school, and out-of-school. Serving as master of ceremonies was Gale Plummer, president of the sophomore class.

Winner of the youngest division was Christa Carol Rodgers. Other contestants were Jerry Stubbiefield, Harold Knight Jr., and Pat Shadid.

A tie was the result of the contest for students from grades five through eight, and each was awarded a prize. The contestants were Marlene and Arlene Gudgel, Billy Rodgers, and Betty Dickinson.

A boys' quartet took top honors in the high school division. The quartet consisted of J. N. Smith, Jack Bentley, Alvin Blackshear, and Vic Shelton. Others in this division were Barbara Beck, June Stubbiefield, and Barbara Barrett.

Bill Day took first place with his singing ability in the out-of-school group. Other contestants were Earl and Chris Frost, Sue Simmons, and Conrad Cunningham.

NEWS FROM LIBERTY

Mrs. A. Reneau was in Amarillo from Wednesday until Saturday to be with her father, Oscar Phillips, who underwent surgery. He is resting well in Northwest Texas Hospital.

The Liberty Home Demonstration Club had an all-day meeting Tuesday with Mrs. A. Reneau. At the business meeting in the afternoon, new officers were elected as follows: Mrs. James Foster, president; Mrs. B. L. Stokes, vice president; Mrs. A. Reneau, secretary-treasurer; Mrs. O. O. Tate, reporter; and Mrs. Roy McCracken, council delegate.

The next meeting will be an all-day meeting with Mrs. Foster. Members are to bring a covered dish. Plans are to make pictures in copper.

Present were Meadames H. H. Sanders, Reneau, Tate, Foster, McCracken, and Miller.

Several Members Of Local F. H. A. Go to State Fair

A gala—and educational—time was had by all when several members of the McLean chapter of the Future Homemakers of America attended the State Fair in Dallas last week-end.

The group left here in private automobiles last Saturday, and returned Sunday. They visited many of the exhibits at the fair, and Saturday night attended the "Ice Cycles of 1951." The group spent the night at the Tower Hotel Courts.

Making the trip were Mr. and Mrs. Tommy Hulsey, Mrs. Odell Mantooth, Mr. and Mrs. Eric C. C. Glass and son Dale, and the following F. H. A. girls: Ann Cooper, Bethie Mantooth, Dortha Chase, Colene Crockett, LaVerne Williams, Texetta McCurley, Iva Mae Adams, Floella Cubine, Sue Glasz, and Pat Shelton.

ican people must wake up to the high cost of the complex government which is now being operated in this nation.

The Communists, Guill emphasized, want the U. S. to spend more and more and more. They believe that this nation can be taken over without a battle if we continue to spend more and more, and say another depression will plunge this country into Communism. "We shall fail unless we see every dollar we spend is spent wisely," Guill said.

But to say economize and to practice economy are two different things, the congressman said. Everyone wants to practice economy, he pointed out, but no one wants the practice to affect him or his area. That is what makes it difficult for congress to begin any economy moves.

One man can't do it all, Guill

Day Dreaming with Bill Day

THERE MUST BE no mistaking the originality of this column. Some have accused it of being written by Wes Izard or Old Tack. Far be it.

In the first place all Old Tack writes about is bird dogs and the weather. Speaking of weather, my dog Pookel (pronounced Foo-Kel) made a meddening rush at some low-bred dog of rather high stature, and as he came within closer range, decided his eyes had underestimated the size. So he veered off to the left under the wheel of a slowly moving vehicle. I'm taking him to a dog doctor tomorrow and I fear there will have to be an operation which will likely change his whole outlook on life. The old saying that "it shouldn't happen to a dog," may.

I knew it would happen—as soon as old Lewis McDonald from Kellerville read about those plastic living room suites last week, he came in and bargained for the beige one. They have three youngsters that can be allowed, to walk on this upholstery, spill oatmeal, orange juice, sticky candy, or anything else kids spill, and any of it can be washed off with a damp cloth. Of course, if you don't have any children to do any of these things, it may prove an enjoyable pastime for you older folks to indulge in a few of those pranks.

This is also the psychological angle on buying plastic-covered divans. Once the little angel runs back and forth over the divan

several times, does a number of flip-flops, spills a quart of Ma's Toni wave fluid, dries out a wet bathing suit on the back of it, and still doesn't get his head slapped off, he begins to sense there is something fishy about the whole deal and never goes near the thing anymore.

Deal of the Week:
Customer: Do you have Gold Seal Congoleum?
Me: Yes, Ma'am, what did you have in mind—bath, kitchen, living room, or bedroom?
She: Well, both, I guess.
Me: What size?
She: Oh, I forgot to measure.
Me: About a 9x12?
She: Oh, no!
Me: Bigger, or smaller?
She: Oh, a little, I guess, the long way.

I'll bet we do have the largest selection of hard surfaced floor covering in the Panhandle. I'd like to make a motion that everybody who is planning on a new linoleum to get it before it gets too cold, if possible. It handles much easier and lays a lot better,

One woman from Alanreed said she laid linoleum in the sign of the moon and had never had a buckled linoleum yet—but I'm not particular about selling it in the moon; the sign is always right if you want linoleum.

Me: I'm gonna sell this bath heater for just \$3.95.
Conscience: You're nuts! Anything with a burner in it is worth more'n that!
Me: Nope, just \$3.95.
Conscience: But it's white porcelain!
Me: I won't budge—\$3.95.
Conscience: Besides, it has a hose fitting and it will heat any average bathroom in a jiffy. Don't be a stoop oak—\$5.95—it's worth it!
Me: Sorry, Conscience, you've out-pointed me, but the price remains . . . \$3.95.
And there you have it, folks, a blow-by-blow description of the fall of a two-dollar profit. It was a hard fight, Ma, but I won. White porcelain bath heater (with burner) and hose fitting, only \$3.95.
