Fortunately we have plenty of time on this correction, but we'll get ahead and make it now. The wedding of Miss Barbara Barrett, daughter of Mr. and Mrs. H. E. Barrett of McLean, and Robert L. Williams of Phillips will be held in the Church of Christ in McLean, not Borger, as was stated in last week's News. The vows will be read December 19.

Books of season tickets to the football games of the McLean Tigers may still be obtained at the News office. The books include seven tickets, one for each home game, and sell for \$7 per book. This price includes both general admission and reserved seat privileges. Sales on the tickets have been slow so far, despite the fact that the first home game will be with Stinnett on September 12.

The Presbyterian ladies will sponsor a bake sale in McLean Saturday, September 13. Location for the sale, and the time it will begin, will be announced next week.

A few derby hats are now available at the McLean News office. The derbies, of the soft felt type, are brown and gray in color, and are imprinted in the inside band with the wording, "The McLean Derby." The hats are \$6 each, and are being handled at the News office for the McLean Junior Chamber of Commerce, sponsor of the derby project. More derbies are being ordered, and when they arrive, they will be sold at several places here in town.

Work on the hard-surfacing of the double-lane Highway 66 was held up a few days last week due to a shortage of materials. However, the work was resumed Monday morning, and is proceeding at the regular pace. One lane of the highway has already received its concrete coating from the beginning point, .6 of a mile west of Alareed to a point about two or three miles this side of Alareed. Boxcars loaded with gravel, cement, and other supplies are gradually building up a stockpile of materials both here and at the siding at Alareed.

Clarence Jones of Shamrock and Miss Pat Patterson of McLean were named as the winning couple in the waltz contest held during the Labor Day dance in the American Legion Hall. The contest was a feature of the well-attended dance sponsored by the McLean Junior Chamber of Commerce.

Tigers to Scrimmage Claude Here Saturday

The McLean Tigers will scrimmage against the Claude Mustangs on Duncan Field Saturday night, Coach Don Leach said Wednesday morning. The scrimmage session is scheduled to start at 7 o'clock, and local fans are invited to be on hand and watch this year's team against outside competition.

A total of 31 boys turned out for the initial workouts this week, and a few more are expected on the practice field within a few days, Coach Leach and his assistant, Wayne Hill, said.

This week, prior to the opening of school next Monday morning, workouts are being held twice daily—at 9 o'clock in the morning and at 6 each evening. Once-a-day workouts will begin next week, and will be held each afternoon at the close of school hours.

In contrast with last year, when only three seniors were on the squad, seven members of next spring's graduating class will be on the roster. Another senior or two may come out later.

But similar to last year, the local coaches are lacking speedsters in the backfield. Leach and Hill have 11 men working for the backfield spots, several of

Marshall Plan Has Done Much Good in Germany, Miss Kalka Say

Generally speaking, the people of occupied Germany—those in the American zone at least—like the Marshall plan of aid from the U. S., and the aid thus given has done a great deal in educating the people of Germany to our way of life.

That was the opinion expressed by Miss Beatrice Kalka, daughter of Mr. and Mrs. L. A. Kalka, who live south of McLean. Miss Kalka, who spent last year teaching school in Germany, appeared before members of the McLean Lions Club Tuesday noon.

There has been some misuse of Marshall plan funds, Miss Kalka added, but much good has also been accomplished with the money spent by the U. S. government.

Miss Kalka taught the past school year in Wiesbaden, near Frankfurt, Germany. She was a homemaker teacher in the

School Buys New Building, Sells Old One

The new elementary school building of the McLean Independent School District has been accepted—with a few reservations—by the local school board, and the old building has been sold.

The board accepted the building from B. F. Horn, contractor of Abilene, last Saturday, in the presence of the building architect. Some minor features are yet to be completed, and the school board paid the contractor for the building, retaining \$2,000 until the minor features have been completed. The structure was bid in by Horn for \$143,500, and includes 14 classrooms, principal's office, teachers' lounge, and cafeteria.

The old building has been sold to R. G. Florey on his high bid of \$2,000. Three other bids were received by the board. They were from C. M. Bailey of Stephenville, \$1,000 (he is the man who is wrecking two old school buildings at Groom); Ralph Jones of Borger, \$1,750; and A. T. Wilson of McLean, \$1,800. The bids were all sealed bids, and were advertised for several weeks ago.

Under the deal with Florey, he bought all of the old building, plus the land it is located on and sufficient land surrounding it to allow him to tear it down. The remainder of the land has not yet been sold.

Florey told Charles Cousins, school business manager, that he plans to wreck the building and use the salvageable material in constructing houses.

More Old Pictures Needed to Publish In 'Golden' Edition

More pictures of local scenes of about 50 years ago are needed.

A few of the old pictures have been brought to The News office, but J. M. Payne, correspondent for the Pampa Daily News, is in need of many more.

From the group of pictures, he plans to choose the better ones, make copies of them, and have them published as features in the 50th anniversary edition of the Pampa paper. Some of the pictures will also be published in The McLean News.

Owners of the old pictures are asked to bring them to the News office.

Ceiling Is Set On Cottonseed Feed Products

Action by the Office of Price Stabilization in setting new dollars-and-cents ceilings on cottonseed products in Texas and Oklahoma will generally result in lower selling prices, F. C. Tomlinson, OPS regional foods chief, has announced.

Tomlinson said the new regulation (CPR 167, effective August 25) rolls back and fixes processors' ceilings in this area which are from \$2 to \$5 per ton less than previous prevailing prices for all cottonseed feed products, including cottonseed cake, flakes, meal, sized cake, pellets, cutes, hulls, hull bran, and cottonseed feed.

The OPS action in setting lower ceilings was taken to place all processors on the same basis in their producing areas, Tomlinson declared. The regulation now permits only one mark-up at each marketing level for the products, and should eliminate speculative practices of pyramiding mark-ups which have resulted in increasing prices to feeders.

New ceilings, f. o. b. the mills in the states of Texas, Oklahoma, New Mexico, and Arizona, are \$82 per ton for bulk cottonseed meal, \$83 for bulk sized cake, \$84.25 for pellets and cubes, and \$25 per ton for bulk cottonseed hulls.

Subject to the addition of any actual transportation charges, the following prices, Tomlinson said, are what feeders can expect to pay for cottonseed feed products under the new regulation: cottonseed meal, \$88.60 to \$96.25 per ton; cottonseed pellets and cubes, \$90.85 to \$98.50 per ton; cottonseed cake and sized cake, \$89.60 to \$97.25 per ton; and cottonseed hulls \$30.50 to \$38.25 per ton.

Tomlinson explained that the actual selling prices permitted by OPS are dependent on whether feed purchases are made at the mills or from retailers, and the type of sacking involved.

"Yankee" comes from the Dutch word "yanku," meaning to snarl.

Patrons Invited To Assembly Monday Morn

Formal opening of the new elementary school building of the McLean Independent School District will be held Sunday afternoon from 2 to 5 o'clock, Superintendent Paul L. Kennedy said this week.

The opening will be in the form of open house, and light refreshments will be served. The entire public is invited to come by and inspect the newest educational facilities of the McLean district, Kennedy stated.

The building was accepted by the board from B. F. Horn, Abilene contractor, last Saturday. A few minor details are yet to be completed, but some of the necessary materials for their completion were not immediately available.

All first-grade students must have a birth certificate when they enroll next Monday, the superintendent stressed. In addition, they must also have either a smallpox vaccination scar, or a certificate from a doctor showing that they have been vaccinated.

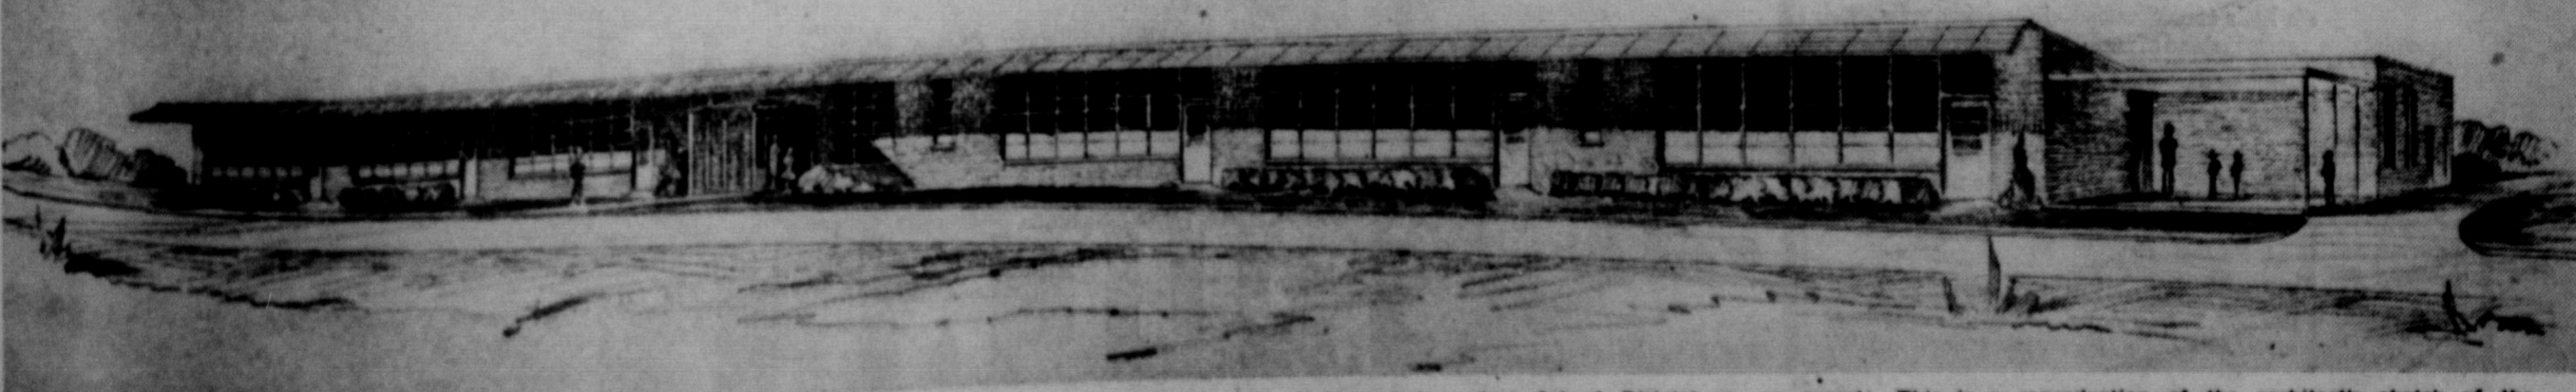

Another public meeting will be held Monday morning at 9 o'clock in the Municipal Building. At that time, the public is invited to attend the open assembly meeting, and hear the outline of the work which is to be done.

Kennedy said that this meeting is the first of its kind to be held here in several years, and he urged all school patrons to be on hand. The high school band will be present, and will play a concert. If the new band uniforms have been returned by that time—they were returned to Oklahoma City for necessary alterations—the band members will be wearing them.

School buses will start their routes Monday morning. The routes will be changed somewhat from those of last year, Kennedy said, and he requested that the children be on the lookout for the buses next week. The routes are still subject to change if necessary. The buses on all routes will drive only down the main road, unless the student seeking transportation lives three-fourths of a mile, or more, from the main road. Kennedy emphasized that this will be the policy on all routes, and he requested the students to be waiting at the main roads.

Nearly all high school students have already registered. Elementary school students will enroll Monday following the assembly program. Most of the new school books are already here, and Kennedy said that the remainder should arrive early next week.

Buttons were first put on men's coat sleeves by Frederick the Great to keep his soldiers from wiping their noses on their sleeves.

HERE'S THAT PICTURE again of the new elementary school building in McLean, of which the patrons of the McLean Independent School District are so proud. This is a reproduction of the architect's sketch of the building, and it looks so much like the new building itself that we didn't attempt to take a real picture. The building will be put to its intended use next Monday, when school classes start for the fall semester. The structure was designed by the architect firm of Noffgier and Lawrence of Oklahoma City, and built by B. F. Horn, contractor of Abilene, at a cost of \$143,500. It is modern in every respect, and the entire school board hopes that everyone interested in the McLean schools will take a look at the new building Sunday afternoon.

Mrs. DENNIS O'KEEFE likes to keep the family food budget in line as well as the substitutes a meatless meal now and then—making sure, of course, that it has eye as well as palate appeal. One of the family favorites is a Rice Ring with Stuffed Eggs, an easy-to-prepare main dish that's a meal in itself. With accent on economy, the recipe calls for nutritious Blue Bonnet Margarine.

RICE RING WITH STUFFED EGGS
 1 cup cooked rice
 1 cup cooked carrots, finely diced
 1/2 cup green beans, finely diced
 1/2 cup French Dressing
 Blend all ingredients together lightly with a fork. Arrange mixture in lightly oiled 9-inch ring mold. Store in refrigerator.

STUFFED EGGS
 4 hard cooked eggs
 1/2 cup Blue Bonnet Margarine
 1/2 teaspoon salt
 1/2 teaspoon cayenne pepper
 1 cup grated tuna fish
 3 tablespoons cream
 2 teaspoons grated onion
 Shell eggs and cut in half lengthwise. Remove yolks and mix with cream margarine and blend with yolks. Add salt, cayenne pepper, tuna fish, cream and grated onion. Blend well. Pile yolk mixture in egg white halves. Unmold chilled rice ring on large serving plate. Arrange stuffed eggs around rice. Garnish center of ring with watercress. Serves 6.

Mr. Spears came here about five or six months ago and has been engaged at the Bon Ton Cafe, since having purchased that institution. Baptists Hold Annual Meet

The Wheeler County Baptist Association was in session in this city from Thursday night of last week until Sunday night, holding their services at the tabernacle where they had regular preaching morning and evening, the rest of the time being spent in discussing different phases of work of the churches in the two counties, Gray and Wheeler, served by the association.

There were in the neighborhood of 25 visiting delegates and ministers from the various churches and they were guests in the various homes in the city while here.

The following officers were elected for the ensuing 12 months: moderator, Ed Stearnes of Kellon; secretary, Miss Pearl Easley of Shamrock; missionary, R. C. Farmer of Wheeler. The next meeting of the association will be held in Shamrock one year hence.

community chairmen will make, and have responsibility for approval of conservation practices carried out on Donley County farms.

Mr. Springer, the chairman, owns and operates a farm at Hedley. On this farm he produces cotton and feed crops. He has been cooperating in the agricultural conservation program since he has lived in Donley County, some 12 years. This year he is carrying out the following soil and water conservation practices: deep plowing, planting legumes, and rye cover crop.

The vice chairman's farm is located at Lelia Lake where he produces cotton and grain. He also is carrying out soil and water conservation practices on his farm.

Mr. Dale lives north from Clarendon on the Jericho road. He, too, raises cotton and grain sorghums with some wheat. He has been a PMA cooperator from the time the program started.

1953 ACP Sign-up Schedule

During October and November, farmers of Donley County will have an opportunity to sign up to cooperate in the 1953 agricultural conservation program, Ross Springer, chairman of the county PMA committee, has announced.

This year the "Farm-by-Farm—First-Things-First" procedure which was tried out in at least one county in each state this year is being made available to all farms in all counties for the 1953 program. The purpose is to center conservation efforts on the most needed practices on each individual farm.

Chairman Springer explains that just as farms differ, so do conservation problems differ. In the farm-by-farm effort, the local PMA committeemen will visit each farm in the county to help the farmer determine the conservation needs on the farm. Farm plans prepared for the farm by the Soil Conservation Service or other agricultural agencies will be considered in setting up the conservation program for the farm for 1953.

To assure the most effective use of assistance provided under ACP, a field-by-field check will be made to determine the conservation needs and to select the most urgently needed practices. Practices selected will be submitted to the county PMA committee for approval. Before the committeeman visits the farms in his district, he will have thoroughly reviewed the conservation practices which will be most effective in meeting conservation needs. Representatives of the Soil Conservation Service, Ex-

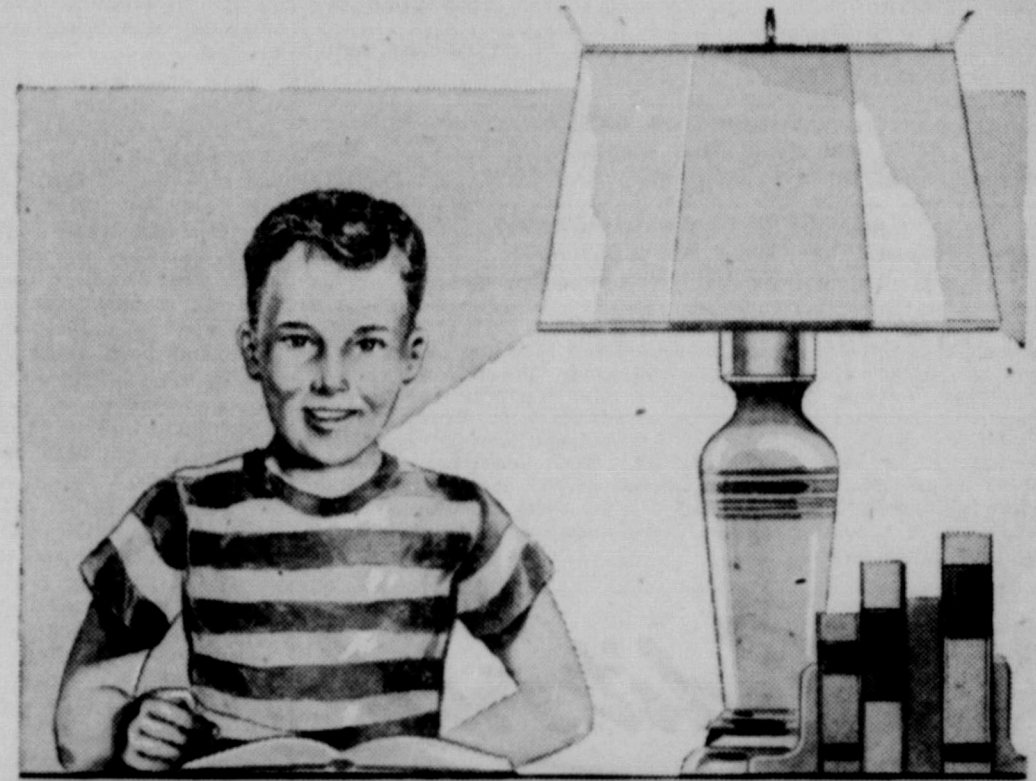

ension Service, Forest Service, and other agricultural agencies will cooperate in this review.

Chairman Springer explains that every farmer in Donley County is eligible to participate in the 1953 ACP. Assistance provided under the program covers only about half of the out-of-pocket cost of the approved conservation practices.

Miss Kalka—

(Continued from page 1)

not associate a great deal with the German children. One of the schools may have some type of social gathering, such as a dance, and invite the others to attend. They are most friendly with one another, yet their associations end at that point. In other words, the Germans do not "date" the Americans; Miss Kalka hastened to say, however, that the G. I. was different, and enjoyed very much the company of the fraulien.

Miss Kalka is one of about 300 American teachers working in occupied Germany. Each teacher is interviewed before being accepted, and she taught there for the first time this past year. She will teach again this year, in the same school, and plans to be there by next Monday, when school opens. She will go by plane to Germany.

Her brief talk before the Lions Club members brought many questions. She told of the many sight-seeing trips she was able to make during the past year. Each week-end, she was able to visit some place. She had 12 days off at Thanksgiving, 15 at Christmas, and 10 at Easter. During the Thanksgiving holidays, she visited Vienna, Austria; Christmas she spent at Paris, France, "Gay Paree," as she called it; Easter was spent in Italy where she—along with 400,000 other people—had the privilege of hearing the pope deliver his annual Easter message.

Miss Kalka stated that she had not had the opportunity of meeting as many German people as she had hoped to. She has only one German family she can class as close friends; and it is her hope that she will be able to meet more of the Germans, to learn more of their customs, etc., than she did the past year.

The schools in which she teaches are governed by the occupation army, and salaries are paid by the federal government through the army. All types of subjects are taught in the American schools, and they resemble as closely as possible the schools in the states. However, she explained that basketball was about the only competitive sport played there; the German schools, on the other hand, participate in soccer as well as basketball.

Dear Mr. Campbell:

Well, how is dear old McLean? Fine, I am sure. We are all fine and enjoying this wonderful climate.

We hear you have been having quite a hot season there this year. It has been wonderful here. Would you believe it, if I told you we are wearing light coats in the "evenings" now? We have about two or three hours in the afternoon when the temperature gets around 83 degrees.

We have certainly missed all our dear friends in McLean, but have found some wonderful ones here. Fortunately, we moved next door to a family from Hedley,

who is acquainted with a number of McLean people.

I suppose you have been reading and hearing the news about the earthquakes here. I am sending you some papers of news and pictures about it, that I think will be of interest. We were in Portland, Oreg., when the bad one came in July. The one we had at Bakersfield Friday was not felt here, but we had a good shake about 3 a. m. Saturday. We have slept through most of them.

We will be glad to have any of our friends visit us at any time they are out this way. Again we say we miss all of you. Always a Texan, The Eugene Woodrome Family.

Annual Prison Rodeo to Be Held In Huntsville Again in October

When Rodeo Manager Albert Moore blows the whistle that signals the opening event, the Mad Scramble, Sunday, October 5, the 21st annual prison rodeo will be under way at Huntsville. The two hours of rodeo action that follow promise to be the fastest, wildest, most thrill-packed 120 minutes of whirlwind action any rodeo fan could desire.

The wildest horses and meanest Brahma bulls are being rounded up in the river bottom pastures throughout the Texas prison system and are being shipped to Huntsville for the big show.

Inmates, who apply for a chance to ride in the rodeo, are being selected for a try-out rodeo to be held one Sunday this month. Moore says only the best riders and performers on that day will be selected for the appearance in the arena when the show begins.

Top-flight specialty performers of "outside" rodeo circuits have been contacted and booked for appearance between convict riding events. Special guest performances for each Sunday's presentation, such as the University of Texas Longhorn band which is scheduled to appear on opening day, have been invited to attend and execute their specialties.

No effort is being spared to make this year's annual rodeo the biggest and best, fastest and wildest ever to be presented in Prison Stadium in Huntsville.

Reserved seat ticket sales have begun and requests for reservations are coming in on every mail, according to L. W. Wright, in charge of ticket sales this year. When ordering reserved seats by mail or wire, patrons are requested to specify plainly the number of seats and the dates for which they are desired. Check or money order must accompany all requests for reservations. All reserved seats are \$2.40 each, tax included. Mail orders should be addressed to L. W. Wright, Prison Rodeo Ticket Office, Huntsville, Texas.

Eliminate Flies by Keeping Filth Out

The control of the fly menace comes at the top of the list of necessary public health measures which should be applied by every city, community, and individual in the state, declared Dr. George W. Cox, state health officer.

The most effective measure for fly control is to prevent their breeding. Flies breed in filth and about eight days are required to complete a life cycle. During her lifetime of several months, one fly lays from 600 to 1,000 eggs.

To eliminate flies, the breeding places must be destroyed. Manure piles, garbage, and other organic filth furnish the requirements of warmth, moisture, and food necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drink are prepared and served.

Likewise, they should be kept from access to privy vaults where they pick up the infections which they later spread to humans by contact with the food and drink, and by unwashed hands and utensils.

See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor will not molest your family. See that your grocer keeps meats, vegetables, and fruit screened from flies.

The use of DDT and other sprays for the control of all varieties of adult flies and fly larvae have come into wide usage. However, their use should be after all trash and breeding places have been eliminated. Otherwise, spraying will give only temporary relief and a false sense of security.
