## Voters to Choose New President Tuesday

### Hallowe'en Carnival Tonight

The annual Hallowe'en Carnival, the biggest entertainment feature during the year staged by the classes of the McLean public schools, will be held tonight in the Municipal Building.

Activities will get underway at 7 o'clock.

### Les Taik— THE DAY IS NEAR

By LESTER H. CAMPBELL

Next Tuesday may go down in history as one of the most important days in the life of the United States. It is my most sincere hope that you, all of you who are eligible, will vote, regardless of your choice in the presidential race.

Personally, as you undoubtedly have gathered from reading the editorials in this newspaper, I will cast my vote for the Republican nominees, Eisenhower and Nixon.

I will do this despite the fact that I believe I am a member of the Democratic party. I am not an old-line, faithful, never-wandering type of Democrat. Twice before I have left the realms of the Democratic party in my voting. In 1948, rather than vote for Harry Truman or Thomas Dewey, I entered my solemn and sincere protest by casting my lone ballot for the Dixiecrat nominees, Fielding and Wright. In 1950, I cast my first vote for a man running on the Republican ticket when I voted for Ben Guill instead of our present congressman, Walter Rogers. I do not feel that I lost a vote in either case—my vote counted as much for the losers as someone else's did for the winners. Furthermore, I do not feel that I voted wrong in either case.

I do not want to make any enemies over the way I vote. I believe in the secret ballot, all right, but I don't mind telling anyone how I vote in a national or state election. Due to personalities involved, I do not divulge my choices in county elections, but on the higher levels, I do not mind people knowing my choice.

I believe if a man is for someone for an important office, he should not be ashamed of his candidate.

Eisenhower is my choice for the presidency for several reasons, but one reason stands out above all others. I may be mistaken, but I honestly think that if the trend toward socialism is to be stopped, a change in the policies of the administration is necessary. Should Stevenson be elected as president, he might stop that trend; but, to date he has embraced most of the policies of the present administration, and those policies lean more and more toward centralization of the federal government, less and less rights and powers to the states.

Our forefathers founded this nation as a place for freedom and happiness. Those forefathers had come to this country to avoid the harshness, the unfairness, and, in many cases the cruelty which always comes

### Eisenhower Backers Plan Rally; No Adlai Program Announced

Voters throughout the length and breadth of the United States are expected to go to the polls in record numbers next Tuesday to select their president to serve during the coming four years. Although the ballots in the various states will have several candidates listed, only two, Governor Adlai Stevenson running on the Democratic ticket, and General Dwight D. Eisenhower, Republican, will be able to garner enough votes to capture the needed electoral votes.

### Final Poll Tally Shows Ike Still 3-to-1 Favorite

The final tally of the Panhandle poll, in which 26 newspapers in the Panhandle area were cooperating, shows General Dwight D. Eisenhower still leading by a more than three-to-one majority, a wire report received from the Amarillo Daily News revealed.

The final poll was 1,895 for Eisenhower and 551 for Stevenson. Stevenson was picking up strength all during the past two weeks, when the first poll gave Eisenhower a four-to-one lead.

Of the 26 papers aiding in the poll, only two reported their readers, who took the trouble to turn in their votes, in favor of the Democratic candidate. The Shamrock Texan reported 98 for Adlai against Ike's 83; the Claude News showed 21 for Adlai and 17 for Ike.

In McLean, only a few more votes were cast during the past week, with the final total as of Wednesday morning 30 for Ike, 4 for Adlai. The four Stevenson votes were cast the first week the poll started, and no more of his supporters bothered to show their preference.

Other localities, where the poll was taken by the papers, show the following results (votes for Eisenhower are given first): Lockney, 91-18; Olton, 19-9; Clovis, 25-10; Texhoma, 7-0; Borger, 54-25; Childress, 42-6; Tucumcari, 83-30; Spearman, 12-7; Groom, 16-5; Hereford, 120-22; Memphis, 96-34; Muleshoe, 15-10; Boise City, 126-14; Canadian, 17-11; Dalhart, 163-80; Happy, 18-3; Amarillo, 237-39; Guymon, 157-22; Friona, 67-19; Floydada, 43-16; Perryton, 269-44; Higgins, 17-3; Clayton, 82-11.

To win the election, a candidate must have a majority of the electoral votes, or more than half of the 531 in the electoral college. As set up in the constitution, each state's electoral votes go to the party obtaining the majority of the popular vote in that state.

Citizens for Eisenhower are sponsoring a rally downtown in McLean Saturday afternoon at about 4 o'clock, W. W. Shadid, co-chairman of the group, said this week. The local band will play at 4 o'clock, and at 4:30, a speaker for Eisenhower will be heard from a platform in front of the Harris King building.

A delegation from Pampa, headed by Attorney Curtis Douglass, will be present. Either Douglass or a representative from the Democrats for Eisenhower group of Austin, will make the principal address. Mayor Ed Lander will welcome the visitors, and Lester Campbell will introduce the speaker. Others from Pampa planning to attend the rally are Jones Sit, Mrs. O'Hara, DeLea Vicars, and L. P. Fort.

The Citizens for Eisenhower committee will also furnish transportation to the polls for anyone who calls the King Motor company, Phone 72, on Tuesday, November 4. Shadid explained that those taking advantage of the transportation are under no obligation whatsoever to vote for Eisenhower, emphasizing that it is merely a service to some who will be unable to get to the polls otherwise.

In Texas, normally a pushover for the Democratic party, a hard fight is being staged by Republicans and Democrats for Eisenhower to take the 24 Texas electoral votes away from the usually-solid Democratic South. Other southern states which also

### Local Eleven Plays Panthers Here on Friday

The McLean Tigers will face what is expected to be their toughest opponent of the season Friday night, when the Panhandle Panthers, a once-beaten, powerful eleven, invade Duncan Field in McLean for a District I-A contest.

The Panthers went undefeated until last Friday night when they were upset by a marauding band of White Deer Bucks by a 25 to 20 score. The visitors will be attempting to stay in district running when they hit the Tigers Friday night. A loss to McLean will practically eliminate the Panthers from a possible district championship, but a victory will keep them in the running.

To date, McLean has one conference victory, no losses; Panhandle, one loss; White Deer, one loss and one victory; Canadian, two victories; Lefors, one victory and one loss; and Clarendon, two losses.

The Panhandle eleven has several of last year's team members back in action again this year, particularly in the backfield. Local fans who journeyed to Panhandle last year, when the Panthers swamped McLean by about 50 points, will remember the names of Dale Roselius (a good passer), Gary Cummings, and Marshall Sherwood.

Actually, the game will be a toss-up. The record of Panhandle for the season, five victories to one loss, is much better than McLean's, two, two, two season. But the improvement of the local eleven for the past three weeks will about even the before-game guessing.

The Tigers will be in a little better shape than last week, if no injuries are suffered in practice this week. The McLean lads were not worked too hard after the first quarter of the Groom game, and, for the first time this year, Coach Don Leach was able to use just about everybody who was suited out.

Fans are reminded once again that the game will start at 7:30 o'clock, as will all other games for the remainder of the season.

### Trick or Treats— That's Program For Friday Night

Get out the candy, the cookies, and all the other "treats," for Friday night you can expect visitors at your house, wherever you may live.

That's the night for the ghosts, the goblins, etc., etc., to roam at will. And roam they undoubtedly will.

Hallowe'en will also probably bring forth some of the larger and older pranksters, so it might be a good idea to tie down securely anything you may have in your alley which you want in your alley when the evening's pranks are over.

Hallowe'en only comes once a year, and, brother, it's probably a good thing it comes only once a year.

Scoring: McLean 32 (Wayne Smith 18, Eddie Reeves 6, Rodney Gunn 8), Groom 0.

The McLean Tigers rolled to an easy 32-0 victory over the Tigers of Groom Friday night in a non-conference game played on Duncan Field. It was the second victory of the year for the Tigers, who have now lost two, tied two, and won two.

The outcome was never in doubt after the Tigers took control of the ball early in the first period when Kenneth Wilson intercepted a pass tossed by R. Kotara. Following that pass interception, the McLean eleven, led by the running of Wayne Smith and Eddie Reeves, moved 78 yards in 13 plays to tally, and again in the third.

Coach Don Leach used just about everybody who was suited out, giving many of the younger players a chance for action for the first time. Groom's only threat came late in the game while the second stringers were play-

ing, but Leach halted the drive by sending in the first squad again.

The game also gave the local eleven an opportunity to try out some T-formation plays. Only once or twice before had they attempted the T, but quite a number of plays were run from the formation Friday night.

The scoring plays were as follows: Shortly after McLean had kicked off to Groom to open the game, Wilson intercepted Kotara's pass on the McLean 22. Running plays by Reeves, Smith, and Ricky Mantooth, and one pass completed to Mantooth, moved the ball to the 4. From there Smith hit left guard and went over. Rodney Gunn's kick was no good, and the score was 6-0.

Late in the same period, a Groom punt by E. Koetting was blocked and the Tigers took over on the Groom 10. A penalty and a fumble proved costly, and McLean lost the ball on downs on the 21 just as the quarter ended.

Early in the second period, Koetting punted to Mantooth, who handed off to Smith. Smith re-taking a six-point lead which was never threatened.

The McLean Tigers scored three more times in the second quarter, and again in the third.

Coach Don Leach used just about everybody who was suited out, giving many of the younger players a chance for action for the first time. Groom's only threat came late in the game while the second stringers were play-

## Featherston Family Reunion Is Held Near Comanche

Forty-eight relatives of C. H. and W. B. Featherston of Wichita Falls, representing 23 different families from 15 communities, were their guests over the week-end at their F-Bar Ranch near Comanche, Okla.

This reunion was attended by all of the living brothers and sisters of C. H. Featherston and a number of cousins. The big ranch house was completely covered with beds and pallets when sleeping time came about 1:30 o'clock Sunday morning. Chuck was served cafeteria style three times per day.

Relatives came from Wichita Falls, Abilene, Amarillo, Petersburg, Lubbock, Meadow, McLean, Nowice, Walnut Springs, Fort Worth, Aspermont, Benjamin, Iraan, and Swenson in Texas, and Elk City, Okla. Attending from McLean were Mr. and Mrs. Jim Back.

This Featherston family reunion used to be an annual event until the older brothers, father, and uncles of C. H. Featherston either passed away or have become too feeble to endure the "hardships" of such an outing.

Now it is held every two or three years as the spirit moves someone to make the suggestion. In the group there were doctors, lawyers, teachers, and other business and professional men; however, the largest per cent represented farmers and ranchmen.

There was no formal poll taken on the presidential election, but a rough estimate indicated about 75 per cent for Stevenson. The answer usually came, "I am a Democrat." Eisenhower supporters were all from the younger set.

**Birthday Party**  
In response to previous invitations, a party of friends gathered at the home of Mrs. A. R. Gull on last Monday afternoon to enjoy with her the celebration of her 61st birthday anniversary. The afternoon was most pleasant, spent in conversation, and a part of the time was devoted to stacking carpet rags.

At the proper time delicious refreshments were served. Mrs. Gull was the recipient of many costly and useful gifts.

**Miss Floyd Marries**  
Word was received here this week of the marriage of Miss Floyd to Mr. Arney Piersall, which occurred last Sunday at high noon at Sedan, N. M., where Miss Floyd was spending the winter. The wedding took place at a local church, and the bride was attended by Miss Olive Henry of this city, who has also been spending some time in Sedan.

The bride is the daughter of Mr. and Mrs. L. O. Floyd of this city and is a young lady of many pleasing attainments. The many friends of the family join in an expression of hearty congratulations and best wishes for the future happiness of both young people. They will make their home in Sedan.

**Bank Gin Location**  
Sam Orr of Elk City, Okla., representing the Continental Gin company, was in the city the latter part of the week with a gentleman whom he had induced to look over the field here with a view to putting in an up-to-date gin plant for the handling of the 1913 crop.

These gentlemen met with a number of citizens and business men at the Odd Fellows Hall Thursday evening for the purpose of discussing the situation. The matter of a bonus was taken up and a committee composed of Earl S. Hurst, R. H. Collier, and A. A. Callahan made a thorough canvass of the town Friday, but we are informed that they failed to secure the required thousand dollars necessary to land the enterprise. Negotiations are still pending. However, some means may yet be decided upon for securing a gin.

**All Panhandle Fair**  
We are pleased to note that the Amarillo Chamber of Commerce is taking active steps looking to an all-Panhandle fair in the city next fall. The proposition was considered last spring, but for some cause it was allowed to drag along until it was too late to be accomplished this year. The present activity, however, promises success and it is hoped that the fair will be a reality.

Gray County may be depended on to do its share toward making it a representative exhibition of the resources of the great Panhandle, and we believe other counties will show a like interest. Let us have the Amarillo Fair.

Mr. and Mrs. W. C. Shull were in Wheeler Sunday to attend the funeral of Mrs. Paralee Witt.

## Donley County— SOIL NEWS

Both candidates for the presidency of the United States believe in soil conservation and they also believe in soil conservation districts.

Quotations from both men on this subject are given below:

Gov. Adlai E. Stevenson said on October 4, 1952: "We Democrats are also proud of your soil conservation districts. Nothing is more important to our continued national strength than the preservation of our basic resource—the land. These districts are expanding our democratic institutions, too—keeping alive the old American tradition that the way to solve a community problem is to get together with neighbors. We have almost 2,500 soil conservation districts in the country now, covering more than four-fifths of our farms. What I like best about this program is that you assume the main responsibility for seeing that the job gets done instead of asking the government to do it for you."

"Soil conservation is well begun but far from finished. For one thing, you must pay more attention to flood control around the headwaters of small streams—on your farms, in your fields, where the floods begin. That is where water can be retained at small cost, and put to good use."

Gen. Dwight D. Eisenhower said on September 18, 1952: "I'm a zealous believer in conservation, both as a national policy and as a personal creed. I have seen first hand in many parts of the world what soil and fertility losses can do to civilization. I have crossed great deserts that once were fertile granaries—now laid waste because man wasn't intelligent enough or didn't care enough, to preserve his soil."

"To build a strong, secure United States we must save our soil—and improve our soil. We aren't now doing the job fast enough or well enough. . . . I strongly favor farmer-managed soil conservation districts, with the soil conservation service and other public agencies giving such help as farmers request."

### CARD OF THANKS

We wish to take this means of expressing our thanks to Rev. C. W. Parmenter, the mothers, and all others for the banquet given recently for the children of the Methodist church. We also wish to thank C. E. Cooke for the entertainment he furnished.

## WHEN YOU VOTE

**N**OBODY WANTS TO BE TOLD how to vote, for voting is one privilege which millions of other people do not have. When Tuesday rolls around, we hope that all of you will vote, and we pass along to you a little message to think over before you do cast your ballot.

That message is simply this:

Let's put away all the ten-dollar words and call a spade a spade. Socialism—in plain English—is nothing more nor less than political management of the lives—the total lives—of people.

Somewhere back in history, around 1776, it seems we polished up some muskets, rammed 'em with gun powder, and stopped the first attempt to manage our lives. And again in 1917, and again in 1941.

What manner of people are we who will fight at the drop of a hat to prevent control from the outside—and submit blindly to conquest of our lives from within?

Step by step—inch by inch—the starry-eyed dreamers and planners in our midst go on and on—plotting and planning more control of our business machine, without which this nation would swiftly lose its power and greatness.

More and more, restriction follows restriction. More and more, political management of our lives—our total lives—makes a farce of democracy, the last genuine democracy on earth.

That, Mr. and Mrs. U. S. Citizen, by whatever name you choose to call it, is socialism in the making.

That is the same bag of political tricks that has finally made the courageous, fighting people of England victims of a busted economy. Victims, finally, of political management of business.

Under political management last year in England, civil aviation lost a hundred million dollars, coal lost a hundred and eight million dollars, railroads lost an estimated hundred million dollars.

And who pays the bill? The people, of course, in taxes that kill all initiative, all desire even to work for more than the bare necessities of life.

A 40-dollar a week worker in England works 12 weeks out of the year to pay his taxes.

Austerity, they call it. The other word for it is starvation.

And what is the prospect of relief? None—as long as business remains under control of politicians who know nothing of business operation and management.

This is socialism in England—in action. This is political management in action. Management that has driven prices up and the standard of living down, turned profits into losses, lowered production, reduced the quality of goods and services. Management that will finally run the total lives of people at a loss—a loss of pride, of dignity, of freedom, of all that we hold sacred.

In England, it may be too late. For once a nation gives up its freedom, submits to those who seek power for power's sake, there is small chance of escape.

In this country, where your freedom is at stake, it is later than you think, and the decision is yours. Before you decide that you will allow U. S. business, your business, to be politically managed—your life, your total life, stripped of the freedoms you have known, it will profit you well to watch out for this thing called socialism, because, brother, YOU DON'T KNOW THE HALF OF IT.

Mr. and Mrs. Joe Green of the home of his parents, Mr. and Pampa were Sunday visitors in Mrs. W. E. Green.

## LES TALK

By LESTER

(Continued from page 1)

(history will bear me out there) when the land goes government crazy, when the people lose more and more of their say-so in how the government is conducted, when the people become the servants of the government rather than the government the servant of the people.

Those great leaders who staged the American Revolution and who wrote the greatest government document ever prepared, the American Constitution, felt that a person's happiness is dependent on a person's freedoms.

During the past 22 years, beginning with the formation of the Reconstruction Finance Corporation, and continuing right on through the AAA, the NRA, the WPA, and all the rest of the alphabetical agencies set up, our government has gradually slipped out of the hands of the people.

It is true, beyond a doubt, that the government furnishes us with many, many, many more services now than it did 20 years ago. We have guarantees on many commodities, we have government-guaranteed loans on our homes, we have a measure of social security. Yes, we have lots of these things, things which we didn't have 20 years ago. But with the guarantee on our commodities, we allow the government to tell us what to plant and what not to plant; with the government-guaranteed loans on our homes, we sign our lives away, and limit any changes in our homes to what the government regulations allow; with the social security set up as it is, not nearly everyone is eligible to receive its benefits, and for every dollar we pay in, over half is spent to keep the employees necessary to run it.

During the past 20 years, the government has gone into private business time and time again. Public works, it is called in most cases. Public works, bought at a high price with your money. Public works, which aren't being conducted on a business-like basis and which consequently cost you more money to keep them going. Insurance, yes, insurance. I have some of that insurance myself. Got it during the war, when the government allowed servicemen to carry the cheap insurance, and which was probably a good thing. But the government didn't get out of the insurance business; instead it stayed in. Making money on that insurance? The government simply can't be. I pay a total of \$90 per year for \$10,000 life insurance. At the end of the year, I get what is called a "dividend" back, and for the past two years that dividend has been \$60 annually—the \$10,000 coverage costs me only \$30 per year. You see, the workers on the government insurance force are paid by other government income, and the government insurance division can easily show a profit—thus the dividend. It's your money I get refunded each year; not a real "dividend."

The essential feature of socialism is government control of economic activities. The government of the United States, under the present regime, is already in more than 100 types of business.

Should the Democratic party be allowed to stay in power, it is doubtful that Stevenson, unless he changes his stated policies, would do much about halting this socialistic trend. On the other hand, Eisenhower has publicly stated, time and time again, that he will do all in his power to stop the trend. Whether he can do it or not is a debatable question, but at least HE WILL TRY.

Too many people are saying they never had it so good. That, too, is a debatable theory; it all depends on whether money in the pocket temporarily is more important than our essential freedoms. Each time the government dips down and does something to increase business, or keep business on an even keel, we sacrifice another small part of the freedoms our forefathers lived, fought, and died for.

It seems to me that, regardless of who the next president is, an economic depression is due to hit before that president gets out of office. Whatever party is in power when the depression hits will suffer greatly in strength and prestige. Whoever may be president will suffer similar loss.

However, I firmly believe that of the two men between whom we have a choice, General Dwight D. Eisenhower, with the principals for which he now stands, can do more to save those freedoms for our children and our children's children.

I like the freedoms which we

now enjoy. I liked even better the broader freedoms we enjoyed before the socialistic trend began to get out of hand with the Roosevelt administration.

That is why I like Ike over Adlai, and why I will cast my vote next Tuesday for General Dwight D. Eisenhower.

## DICK RUSSELL BACKS ADLAI

RUSSELL IS THE GEORGIA SENATOR FOR WHOM GOVERNOR SHIVERS AND TEXAS DELEGATION VOTED UNANIMOUSLY ON ALL BALLOTS AT DEMOCRATIC CONVENTION IN CHICAGO

Senator Dick Russell of Georgia, the man the Texas Delegation headed by Gov. Allan Shivers supported on all ballots at the national Democratic convention in Chicago, predicted last week that Adlai Stevenson and John J. Sparkman will be elected by one of the largest majorities given a national ticket in recent years.

Senator Russell, who is chairman of the senate armed services committee and of the senate subcommittee on agriculture, said: "General Eisenhower's evident confusion in his efforts to grapple with vital political issues has clearly demonstrated to the American people the grave danger of placing our government in the hands of a military man. . . . No military career, however great, can be a substitute for familiarity with the operation of a government which traditionally and by law is dependent on civilian control. . . ."

"As one who has admired General Eisenhower as a military leader, I have been bewildered by the endless contradictions of his political pronouncements. It would require a book to catalog them."

"Shortly after stating that he did not understand the term 'Farm Parity,' he assured the American farmer of 100% parity for all the products of his soil. As one who has devoted a large part of his legislative service to overcoming Republican opposition to fair farm legislation I have vainly awaited an endorsement of this last farm statement from General Eisenhower's Republican congressional supporters. I have failed to see where one of them has disclaimed his record of opposition to the soil conservation program and to the laws which enabled these farmers to have some idea when they plant their crops what they will receive from their harvest."

"The American voters are thinking for themselves in 1952. Neither the bedlam of this campaign nor the military glamor of the Republican candidate will confuse them. They will go to the polls in the greatest number in our history on November 4 to maintain in power the party of the people. . . ."

"Governor Stevenson has the potentialities which can make him one of the greatest presidents who has ever served our country. With the support and prayers of the American people and the aid of the Almighty he devoutly wishes, he will see this nation safely through the dangers of today's world."

## WHEN YOU VOTE

**NOBODY WANTS TO BE TOLD** how to vote, for voting is one privilege which millions of other people do not have. When Tuesday rolls around, we hope that all of you will vote, and we pass along to you a little message to think over before you do cast your ballot.

That message is simply this:  
Let's put away all the ten-dollar words and call a spade a spade. Socialism—in plain English—is nothing more nor less than political management of the lives—the total lives—of people.

Somewhere back in history, around 1776, it seems we polished up some muskets, rammed 'em with gun powder, and stopped the first attempt to manage our lives. And again in 1917, and again in 1941.

What manner of people are we who will fight at the drop of a hat to prevent control from the outside—and submit blindly to conquest of our lives from within?

Step by step—in inch by inch—the starchy-eyed dreamers and planners in our midst go on and on—plotting and planning more control of our business machine, without which this nation would swiftly lose its power and greatness.

More and more, restriction follows restriction. More and more, political management of our lives—our total lives—makes a farce of democracy, the last genuine democracy on earth.

That, Mr. and Mrs. U. S. Citizen, by whatever name you choose to call it, is socialism in the making.

That is the same bag of political tricks that has finally made the courageous, fighting people of England victims of a busted economy. Victims, finally, of political management of business.

Under political management last year in England, civil aviation lost a hundred million dollars, coal lost a hundred and eight million dollars, railroads lost an estimated hundred million dollars.

And who pays the bill? The people, of course, in taxes that kill all initiative, all desire even to work for more than the bare necessities of life.

A 40-dollar a week worker in England works 12 weeks out of the year to pay his taxes.

Austerity, they call it. The other word for it is starvation.

And what is the prospect of relief? None—as long as business remains under control of politicians who know nothing of business operation and management.

This is socialism in England—in action. This is political management in action. Management that has driven prices up and the standard of living down, turned profits into losses, lowered production, reduced the quality of goods and services. Management that will finally run the total lives of people at a loss—a loss of pride, of dignity, of freedom, of all that we hold sacred.

In England, it may be too late. For once a nation gives up its freedom, submits to those who seek power for power's sake, there is small chance of escape.

In this country, where your freedom is at stake, it is later than you think, and the decision is yours. Before you decide that you will allow U. S. business, your business, to be politically managed—your life, your total life, stripped of the freedoms you have known, it will profit you well to watch out for this thing called socialism, because, brother, YOU DON'T KNOW THE HALF OF IT.

Mr. and Mrs. Joe Green of the home of his parents, Mr. and Pampa were Sunday visitors in Mrs. W. E. Green.

## LES TALK

By LESTER

(Continued from page 1)

(history will bear me out there) when the land goes government crazy, when the people lose more and more of their say-so in how the government is conducted, when the people become the servants of the government rather than the government the servant of the people.

Those great leaders who staged the American Revolution and who wrote the greatest government document ever prepared, the American Constitution, felt that a person's happiness is dependent on a person's freedoms.

During the past 22 years, beginning with the formation of the Reconstruction Finance Corporation, and continuing right on through the AAA, the NRA, the WPA, and all the rest of the alphabetical agencies set up, our government has gradually slipped out of the hands of the people.

It is true, beyond a doubt, that the government furnishes us with many, many more services now than it did 20 years ago. We have guarantees on many commodities, we have government-guaranteed loans on our homes, we have a measure of social security. Yes, we have lots of these things, things which we didn't have 20 years ago. But with the guarantee on our commodities, we allow the government to tell us what to plant and what not to plant; with the government-guaranteed loans on our homes, we sign our lives away, and limit any changes in our homes to what the government regulations allow; with the social security set up as it is, not nearly everyone is eligible to receive its benefits, and for every dollar we pay in, over half is spent to keep the employees necessary to run it.

During the past 20 years, the government has gone into private business time and time again. Public works, it is called in most cases. Public works, bought at a high price with your money. Public works, which aren't being conducted on a business-like basis and which consequently cost you more money to keep them going. Insurance, yes, insurance. I have some of that insurance myself. Got it during the war, when the government allowed servicemen to carry the cheap insurance, and which was probably a good thing. But the government didn't get out of the insurance business; instead it stayed in. Making money on that insurance? The government simply can't be. I pay a total of \$90 per year for \$10,000 life insurance. At the end of the year, I get what is called a "dividend" back, and for the past two years that dividend has been \$60 annually—the \$10,000 coverage costs me only \$30 per year. You see, the workers on the government insurance force are paid by other government income, and the government insurance division can easily show a profit—thus the dividend. It's your money I get refunded each year; not a real "dividend."

The essential feature of socialism is government control of economic activities. The government of the United States, under the present regime, is already in more than 100 types of business.

Should the Democratic party be allowed to stay in power, it is doubtful that Stevenson, unless he changes his stated policies, would do much about halting this socialist trend. On the other hand, Eisenhower has publicly stated, time and time again, that he will do all in his power to stop the trend. Whether he can do it or not is a debatable question, but at least HE WILL TRY.

Too many people are saying they never had it so good. That, too, is a debatable theory; it all depends on whether money in the pocket temporarily is more important than our essential freedoms. Each time the government dips down and does something to increase business, or keep business on an even keel, we sacrifice another small part of the freedoms our forefathers lived, fought, and died for.

It seems to me that, regardless of who the next president is, an economic depression is due to hit before that president gets out of office. Whatever party is in power when the depression hits will suffer greatly in strength and prestige. Whoever may be president will suffer similar loss.

However, I firmly believe that of the two men between whom we have a choice, General Dwight D. Eisenhower, with the principals for which he now stands, can do more to save those freedoms for our children and our children's children.

I like the freedoms which we

now enjoy. I liked even better the broader freedoms we enjoyed before the socialist trend began to get out of hand with the Roosevelt administration.

That is why I like Ike over Adlai, and why I will cast my vote next Tuesday for General Dwight D. Eisenhower.

## DICK RUSSELL BACKS ADLAI

RUSSELL IS THE GEORGIA SENATOR FOR WHOM GOVERNOR SHIVERS AND TEXAS DELEGATION VOTED UNANIMOUSLY ON ALL BALLOTS AT DEMOCRATIC CONVENTION IN CHICAGO

Senator Dick Russell of Georgia, the man the Texas Delegation headed by Gov. Allan Shivers supported on all ballots at the national Democratic convention in Chicago, predicted last week that Adlai Stevenson and John J. Sparkman will be elected by one of the largest majorities given a national ticket in recent years.

Senator Russell, who is chairman of the senate armed services committee and of the senate subcommittee on agriculture, said: "General Eisenhower's evident confusion in his efforts to grapple with vital political issues has clearly demonstrated to the American people the grave danger of placing our government in the hands of a military man. . . . No military career, however great, can be a substitute for familiarity with the operation of a government which traditionally and by law is dependent on civilian control. . . ."

"As one who has admired General Eisenhower as a military leader, I have been bewildered by the endless contradictions of his political pronouncements. It would require a book to catalog them.

"Shortly after stating that he did not understand the term 'Farm Parity,' he assured the American farmer of 100% parity for all the products of his toil. As one who has devoted a large part of his legislative service to overcoming Republican opposition to fair farm legislation I have vainly awaited an endorsement of this last farm statement from General Eisenhower's Republican congressional supporters. I have failed to see where one of them has disclaimed his record of opposition to the soil conservation program and to the laws which enabled these farmers to have some idea when they plant their crops what they will receive from their harvest.

"The American voters are thinking for themselves in 1952. Neither the bedlam of this campaign nor the military glamor of the Republican candidate will confuse them. They will go to the polls in the greatest number in our history on November 4 to maintain in power the party of the people. . . ."

"Governor Stevenson has the potentialities which can make him one of the greatest presidents who has ever served our country. With the support and prayers of the American people and the aid of the Almighty he devoutly worships, he will see this nation safely through the dangers of today's world."

 the right side of the line and went 60 yards to score. Gunn's kick failed, and the score was 19-0.  
 Still in the second quarter, a punt from Koetting was returned to the McLean 47. Four plays later, after a penalty had moved the ball back to the McLean 34, Smith hit, left guard and raced the distance to score. Gunn converted to make the score 26-0.  
 Groom kicked off to McLean at the opening of the second half. Two running plays by Reeves moved the ball from the McLean 42 to the Groom 11. Gunn and Reeves tried twice, getting it to the one-yard stripe. From there Gunn hit right guard to score. He failed to convert and the score was 32-0.  
 That was all the scoring for the evening. In the final period, the Groom eleven moved downfield to the 10 against the McLean subs, but the first string was sent in to halt the drive.

 stand a fair chance to go Republican for the first time in years (for some the first time in history) include Louisiana, Florida, Virginia, and South Carolina.  
 Names of the electoral candidates will not be carried on the ballot this year as in the past. Instead, Stevenson and his running mate, John Sparkman, will be listed on the Democratic list; Eisenhower and his running mate, Richard Nixon, on the Republican list; etc.  
 Activity has been running high in McLean—at least on the side of the Eisenhower supporters. Stevenson supporters have done little for their candidate, except to engage in friendly arguments with Ike boosters. The Ike headquarters set up in the Harris King building last week has distributed a great deal of literature, pins, stickers, etc., and will continue to be in operation until election day.

 the Church of Christ, to Mr. and Mrs. Wib Fowler, and will rent a small house until their new home is completed.  
 Mrs. L. E. Cunningham wrote The News this week that she is now making her home in Amarillo, at 1629 N. Highland, with her grandchildren, Mr. and Mrs. Creel Hopper. Mrs. Cunningham had made her home in McLean for more than 50 years, moving here in February, 1901.  
 Christmas mail for members of the armed forces overseas should be mailed between October 15 and November 15. Postmaster Johnnie R. Back said this week.  
 Air mail parcels intended for overseas personnel mailed after November 25 cannot be assured airtight overseas. The Post Office Department will provide air transportation to ports of embarkation at New York, San Francisco, Seattle, and New Orleans, it was explained.  
 Mr. and Mrs. Bill Baker and daughter Patty, age 7, of Cleburne were en route to California to make their home, and stopped here for a cup of coffee. They liked McLean so well they decided to stay here, so they bought Elsie's Cafe five miles east of town. **Higher Prices Of Mixed Feeds Are Explained**  
 For the benefit of many cattle feeders who do not understand the high price of mixed feed, L. H. Earthman, former manager of the Paymaster Gin which was moved from here recently, has found the following explanation in another paper which explains the situation:  
 When a manufacturer buys cottonseed and crushes or extracts them in his plant, he gets two products—the oil and the meal. The oil is used in the manufacture of many products; the meal is rich in protein and is a good stock feed.  
 Washington authorities have established ceiling prices on both the meal and the oil. Because the present supply of oil exceeds the demand, no one has to pay the ceiling price for it. But there is a strong demand for the meal, and the processors could get more than the ceiling price for it if that were not a violation of the law.  
 The processor has found a way out of the dilemma—one caused by the fact that he would lose money by selling meal at the ceiling price and oil at the market price. He can add a small amount of some less expensive product, such as ground corn or molasses. Then he has a mixed feed, on which the ceiling is higher (in some cases no ceiling), despite the fact that the mixture would actually be lower.  
 Of course, the reasoning doesn't make sense. But by adding a cheaper material to the more expensive cottonseed meal, the processor gets a product on which the Washington authorities say he can charge more than he can for the straight meal. Cattle feeders had rather buy the meal straight, but they find themselves having to be willing to pay the higher price for the mixture than do without feed, particularly in drouth-stricken areas.  
**Tommie Cothran Rites in Oklahoma**  
 Funeral services were held Wednesday afternoon in the Oklahoma, Okla., high school

**Duck Hunting Opens Friday**  
 If Papa gets out the shotgun early Friday and starts pouring it up, don't get excited. For duck hunting season in Texas will start Friday noon, continue through December 25.  
 However, Papa probably will find too many ducks in the Panhandle this season, for the little water left for the ducks to run and play upon—and to be from.  
 Limits are five ducks per day and not more than ten in one session. Shooting hours will be from half an hour before sunrise to one hour before sunset, except on the opening day when shooting hours will be from sunrise until one hour before sunset.  
 Hunters 16 years old or older must have Texas hunting licenses when hunting outside their county of their residence. Non-residents must have hunting licenses when hunting in Texas.  
 The law also requires that peeping shotguns be plugged and held no more than three feet in the magazine and chamber.  
**Cub Scouts Name New Den Leaders**  
 Den 1 of the Cub Scouts met Tuesday afternoon at the home of the den mother, Mrs. J. Claborn.

 Attending were the above officers, the assistant den mother, Mrs. E. J. Windom Jr., and visitor, Eddie Jay Windom.

**WHAT TO DO:**

- At the top of the Democratic Party column, strike out the names of Adlai E. Stevenson and John J. Sparkman.
- Leave the rest of the Democratic Party column as it is.
- At the top of the Republican Party column, leave the names of Dwight D. Eisenhower and Richard M. Nixon.
- Strike out the rest of the Republican Party column.
- Strike out all other columns on the ballot.

**DEMOS FOR IKE BALLOT**—A resolution of the State Democratic Convention recommended that "every Democrat in Texas vote and work for" the election of Eisenhower and Nixon. The sample ballot is reproduced above shows the easiest way a Texas Democrat can vote for Eisenhower. Another method is the write-in plan recently approved by Attorney General Price Daniel. Voters may scratch Stevenson and Sparkman and write in Eisenhower and Nixon under the Democratic column, crossing out the Republican and other slates.
