Tigers to Battle Gruver In First 1-A Grid Contest

The McLean Tigers will meet the Gruver Greyhounds, newest member of District 1-A, in the first district contest for the local eleven on the Gruver grid-iron Friday night.

FUTURE TIGERS PLAY WHEELER HERE TONIGHT

Future Tigers of McLean High School will be seen in action tonight on Duncan Field when the junior high team and the "B" squad meet similar teams from Wheeler.

McLean Tigers Take Easy 40-7 Win Over Wheeler

McLean High School's football team, the Tigers, took an easy 40-7 win over Wheeler in their first 1-A district contest Friday night.

ANNUAL CHEST X-RAY SURVEY ON OCTOBER 16

The annual visit of the chest X-ray machine, operated by representatives of the State Department of Public Health, will be made to McLean Saturday, October 16.

The X-rays are free to all residents 15 years of age or older, Larry Fuller, who has been named as chairman of the project for McLean, said.

The mobile unit will be set up in Pampa for a six-day period, and then moved from there to Lefors, and on to McLean. The machine will be in operation in Pampa October 7, 8, 9, 12, 13, and 14; in Lefors October 15; and in McLean October 16.

Fuller explained that the machine did not come to McLean last year due to the apparent lack of interest on the part of area residents. "We have been told that unless 600 people take advantage of the free service this year, it is likely that the machine will not be allowed to come here in the future," Fuller said.

Doctors advise a yearly X-ray to show up symptoms of cancer, certain heart diseases, tuberculosis, and other conditions in the lung and chest area, officials of the Gray County T. B. and Medical Associations point out.

Serving as crew leader in this area is E. T. Bridwell of Miami. Among enumerators are three local women, Mrs. J. L. Earthman, Mrs. Luther Petty, and Mrs. L. H. Earthman.

This district includes Gray, Roberts, and Wheeler counties, and a total of 12 people are serving as enumerators—five in Gray, one in Roberts, and six in Wheeler.

KELLERVILLE BIBLE MEETING OPENS SUNDAY

A Bible meeting will be held at the Kellerville Baptist Church beginning Sunday, October 10. Rev. D. L. Hunt, pastor, has announced.

HOW THEY FARED

Rain Falls--Cotton Harvest In McLean Area Is Halted

FARM CENSUS IN LOCAL AREA IS UNDERWAY

The agriculture census for 1954, under the supervision of the Bureau of Census of the Department of Commerce, began officially Monday morning when enumerators started making their calls on rural residents.

The census is taken every five years; this is, however, the first year that the counting has been done in the fall. Bureau officials explained that the change to the fall season was made for the convenience of the farmers and ranchers.

The information gained by the enumerators is held strictly confidential. It is used in a general sense to determine the resources of the nation; during World War II, for example, the information was highly valuable in determining the nation's resources.

Most farmers and ranchers have been sent copies of the questionnaire prior to the arrival of the enumerator. However, if it has not been filled in when the enumerator arrives, he or she will help in getting the needed information, Bridwell explained.

BIRTHDAYS

Oct. 10—J. W. Burrows, Robert McDonald, Mrs. F. E. Stewart, Mrs. Minnie Erwin, Linda Patterson, Mrs. Elizabeth Major.

Oct. 11—Mrs. E. L. Peirce, Mrs. Jesse Coleman.

Oct. 12—Vickie Sue Kunkel, Elaine Baker, Raymond L. Smith.

Oct. 13—Arnold Sharp, Linda Gibson, Louvera Taylor, Mrs. Doris Locke.

Oct. 14—Michal Massay, Tommy Herron, W. M. Rhodes, James Ernest Adams.

Oct. 15—John Mertel, J. M. Stevens, Jess Ledbetter Jr., Wanda Beth Stapp.

Oct. 16—Mrs. Rose Hall.

Mobeetie School Plans Homecoming

Homecoming Day for Mobeetie ex-students has been set for Saturday, October 23. The occasion this year is in honor of the early students of Mobeetie. Those to be honored in a special way will be all the early classes through the year of 1918.

The Mobeetie High School seniors are sponsoring the ex-student dinner which will be served cafeteria style in the high school building beginning at 4:30 o'clock. The program and business meeting will begin at 6:30.

All ex-students, all the past and present teachers of Mobeetie schools, the past and present trustees of the school district, and the trustees on the county board of trustees who live in or were living in Mobeetie district while serving on the board are invited to attend. Reservations for the dinner should be mailed to Mrs. Jim Hathaway at Mobeetie by October 18. The plates are \$1.50 each.

Bids to Be Opened On Five More Miles Of Divided Highway

Bids will be opened at 9 o'clock Tuesday, October 19, in Austin by the Texas Highway Commission on the improvement of five more miles of U. S. Highway 66.

The road concerned is the five miles between Jericho (the intersection of Highway 66 with State Highway 70) and the point where the divided highway ends about six miles west of Alanreed.

The improvement to be done includes the widening of the five mile stretch to a divided highway.

When the work is completed, the divided highway will reach from the Oklahoma line on Highway 66 west of Jericho.

MOISTURE IS GENERAL OVER WIDE SECTION

Cotton harvest in the McLean area was abruptly halted Wednesday as showers, totaling .85 of an inch by 1 o'clock Wednesday afternoon, began falling.

The Amarillo Weather Bureau reported that the showers were general over most of the Panhandle and South Plains, and would continue for another 18 hours in many spots.

In McLean, the rain began falling Tuesday night, coming slowly and intermittently. A few harder showers were intermingled with the misty weather.

Clouds hovered over McLean late Tuesday, but did not bring forth rain until later in the night.

The rainfall brought the week's total to .96 of an inch. Last Thursday night, September 30, a quick shower brought .11 of an inch, the only measurable moisture to fall during the month of September. The year's total as of 1 o'clock Wednesday was 13.53 inches, according to the records of Pete Fulbright, local weather observer.

Harvesting of the 1954 cotton crop in the McLean area has been proceeding at a rapid pace during the past two weeks. B. F. Holland, manager of the McLean Gin, reported that 340 bales of cotton had been ginned locally prior to the rainfall.

The cotton has been grading very good, and farmers have been well pleased with the price the cotton has been bringing. Appreciable rainfall will, however, reduce the grade of the cotton from the small bolls, and consequently cut the price which will be allowed.

A shortage of boll pullers in the area still exists. Since the cotton has been maturing so rapidly, the need for additional labor has risen sharply.

The pony express was established between San Francisco and St. Joseph, Mo., on April 3, 1860.

At the Panama Canal the Pacific Ocean is east of the Atlantic.

The Statue of Liberty was erected in 1886.

The individual and the race are always moving, and as we drift into new latitudes, new lights open in the heavens more immediately over us.—E. H. Chapin.

66 Group Meets—

MEADOR NEW PRESIDENT

Boyd Meador of McLean was named president of the Texas Unit of the Highway 66 Association at a meeting of members held Tuesday afternoon in McLean. Meador has been serving as vice president for the past year.

The meeting was held in the basement of the McLean Methodist Church following the regular meeting of the local Lions Club. Representatives were present from McLean, Amarillo, Groom, and Shamrock, and were guests of the Lions Club at the noon meal.

Meador succeeds G. L. Harrison of Shamrock as president of the Texas organization.

Other officers chosen were Cecil Culver Jr. of Groom, first vice president; R. B. Hadley of Shamrock, second vice president; Lester Campbell of McLean, secretary-treasurer; and Fiat Ansley and S. M. Clayton of Amarillo, national directors.

Harrison presided at the business session, and reported that Shamrock is the only city on Highway 66 which has paid its 1954 dues to date.

Meador made the report for

McLean Tigers Take Easy 40-7 Win Over Wheeler

McLean High School's football team, the Tigers, took an easy 40-7 win over Wheeler in their first 1-A district contest Friday night.

The Mustangs were mostly freshmen and sophomores. They showed their lack of experience in their play, but should present a formidable opponent next year.

The opponents' lone score came in the last minutes of the game, when the Mustangs made a sustained drive downfield after returning a Tiger fumble on the covering a Tiger fumble on the 49 yard line. Roger Topper finally plunged over from the two yard line to score, and then hit right tackle to make the extra point.

With reserves playing most of the game, the McLean Tigers took an easy victory over the hapless and inexperienced Wheeler Mustangs on Duncan Field Friday night for the third straight one-sided victory for the local eleven.

The final score was McLean 40, Wheeler 7. Coach Irap Rogers, after the final string had run up 21 points, said reserves practically all the

remainder of the game. However, all scoring was done by the regulars, with touchdowns being made in each of the four quarters when the first stringers were sent in for brief periods.

Even the freshman team, the group Assistant Clint Williams has been teaching to use the "T" formation, got into the act. The little Tigers showed up very well, too, and threatened to score on two different occasions but were never able to get the ball across.

The Mustangs, who played only a limited schedule in 1953 due to a suspension from Inter-scholastic League play, were mostly freshmen and sophomores. They showed their lack of experience in their play, but should present a formidable opponent next year.

The opponents' lone score came in the last minutes of the game, when the Mustangs made a sustained drive downfield after returning a Tiger fumble on the covering a Tiger fumble on the 49 yard line. Roger Topper finally plunged over from the two yard line to score, and then hit right tackle to make the extra point.

Penalties were almost "too numerous to mention." The youngsters from McLean, eager to get moving, received 15 of the 17 fines assessed against McLean, most of the penalties for off-side or backfield in motion. Wheeler got its share of penalties, also, receiving 11—making a total of 28 penalties assessed in the game.

McLean's scoring started early in the first period. The Tigers took over on the Mustangs 16, when Bennie Bowerman got off a short punt to James Jolly on Wheeler 24. Jolly returned to the 16. Ricky Mantooth made it 6, and James Smith 3, and then Mantooth circled right end to score. Don Haslam kicked the extra point.

Later in the same period, the Tigers took over on the 50. Three running plays moved the ball to the 32, and Mantooth again went around right end to score. Haslam converted.

Still in the first quarter, the Tigers recovered a Mustang fumble on the 6. On the next play Paul Garvin went around left end

to score, and Haslam again converted. Score 21-0.

Coach Rogers began sending in reserves at this point of the game. Near the end of the second quarter, he sent the regulars in when the Tigers took over on downs on their own 13. From that point, on the first play from scrimmage, James Smith went around left end and raced 87 yards to tally. Haslam again converted, and the half ended 28-0.

Midway in the third period, the Tigers took over on the Mustang 20. On the second play, Smith again went around left end and ran 30 yards to score. Haslam's kick was blocked.

In the fourth period, the regulars went in when the Mustangs returned the punt to the Tiger 34. On the next play, he faked a pass, circled right end and raced 66 yards to score. Haslam's kick was no good.

That was all the scoring for the Tigers, although the lone Mustang score came about 20 seconds before the game ended.

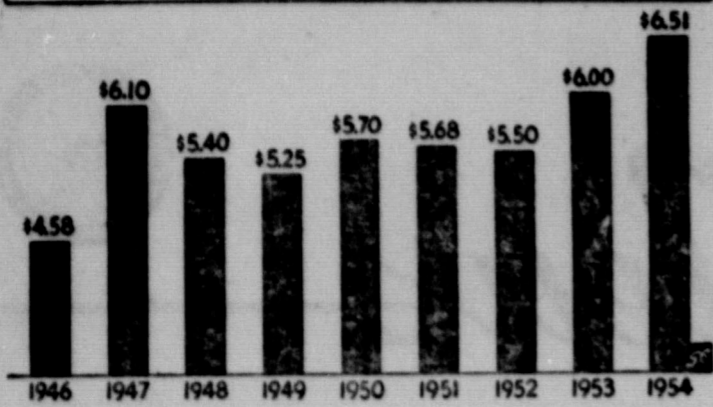

McLean 40, Wheeler 7.

Coach Irap Rogers, after the final string had run up 21 points, said reserves practically all the

McLean 40, Wheeler 7.

**Flour Prices Higher
Despite Wheat Surplus**

Today's surplus wheat stocks, largely government controlled, equal an entire year's crop! Yet American bakers and housewives are paying the highest prices for flour recorded at this time of year since 1920.

This fact is pointed out by E. E. Kelley, Jr., President of the American Bakers Association, commenting on a statement by Congressman Clifford Hope of Kansas that the price of bread has gone up although farmers are getting less for wheat than they were in January 1948.

Pointing out that there is more to the figures than meets the eye, Kelley said:

"That January 1948 price was the highest in 34 years and it lasted less than a month. It also is interesting to note that the carryover of wheat into the new crop in 1948 was less than 200-million bushels. None of it was government controlled."

This year the carryover was near 900-million bushels of which all but 50-million was government controlled. Beginning in 1949, the carryover has climbed steadily and government controlled supply has increased, Kelley said.

"It should be rather obvious that farmers would get more for wheat today if the market were not burdened with the surplus supply encouraged by the support program," Kelley declared.

In reply to the comment on the price of bread, the American Bakers Association's President pointed out that the baking company profits averaged near three cents out of every dollar in 1953. This was after taxes and this rate has prevailed for some time. He stated that reports the first half of this year indicate a decline of one third in percentage of earnings.

In addition to increased distribution costs, Kelley said that the rate of pay for bakery workers has increased as much as 150 per cent, while living costs have increased only 54 per cent.

"We are told that planting of wheat is shifting to varieties with a high yield per acre without regard to baking quality," Kelley said. "Millers claim they have trouble finding the quality of grain they need, as a result."

"If this is true, blame for encouraging such a practice must be laid at the door of those who promulgate farm prices and support programs without stipulating variety or quality."

Predicting that next year's wheat carryover will be greater than this year's Kelley said that as long as conditions described exist, "the farmer may get less but it does not follow the miller can pay less."

SOCIETY

**Will Lister Given
Birthday Dinner
In Bidwell Home**

A birthday dinner honoring Will Lister of Amarillo was given in the home of Lea, Ruby, and Guy Bidwell Sunday, October 3.

Those attending were Mr. and Mrs. Joe Bidwell and son Terry Don, Mr. and Mrs. Melvin McCabe and son Robert, Mr. and Mrs. Bob Bidwell and Mrs. Ona Lee Bidwell of Pampa, Mrs. Lucy Criswell of Amarillo, the honoree, and the host and hostesses.

Mrs. Ray Gossett and daughter called during the afternoon.

**Junior Music Club
Meeting Is Held
In Boyett Studio**

The Junior Music Club met Friday afternoon, October 1, in Mrs. Willie Boyett's studio.

Officers were elected as follows: president, Peggy Sharp; vice president, Bobbie Jean Turner; secretary, Don Cash; and reporter, Mrs. Bill Cash.

The following members were present, and each played a piano solo: Marilyn Williams, Martina Giesler, Sharon Sitter, Linda Gull, Christa Carol Rodgers, Karen Day, Mary Ann Carter, Carla Crisp, Jean Hess, Betty Ruth Dilbeck, Margie Railback, Douglas Crockett, Jobey Claborn, Judy Glass, Ronay Howard, Peggy Sharp, Bobbie Jean Turner, and Don Cash.

The program closed with Bobbie Jean Turner, Ruth Palkan, Karen Day, and Douglas Crockett playing without looking at the keyboard.

Delicious refreshments were served by Mrs. Boyett to the members and guests.

**Pioneer Study Club
Annual Barbecue
At Coleman Home**

The Pioneer Study Club annual barbecue was held at the ranch home of Mr. and Mrs. J. D. Coleman Saturday night, October 2. Everyone enjoyed the outdoor meal, followed by games of 42 and films shown by Mrs. Coleman.

Members present with their families were Mesdames Jim Back, W. E. Bogan, Vernon Gibson, Guy Hester, Forrest Hupp, Clyde Magee, Freeman Melton, Jimmy Payne, Hay Rogers, B. L. Webb, Elmo Whaley, Clinton Williams, June Woods, Jesse Coleman, Harold McColum, and the host and hostess.

Mrs. Alfred Reynolds and children of Pampa spent the week-end with Mr. and Mrs. Bill Simpson.

Miss Dora Watt spent a few days of this week visiting with relatives in Kansas.

Mr. and Mrs. Roy Sherrard of Alameda visited with Mr. and Mrs. O. L. Tibbets Sunday.

Mr. and Mrs. W. C. Simpson and son visited with Mr. and Mrs. D. L. Allen in Pampa Sunday.

The Return of the Fruit Bowl

The honey, family fruit bowl is staging a come-back. Wise mothers are taking a tip from their forebears. Seeking to keep their family trim and healthy, many are turning more to the bowl of fresh fruit for between-meal snacking. Small fry seem to be hungrier most of the time. Fruit gives a feeling of satisfaction, is nutritionally good for them and won't fill them up so that they lose interest in regular meals.

Rich in essential vitamins and minerals, with a natural sweetness, low in calories, fresh fruit is a wise nutritional answer to a family's appetite. Select a variety of fresh fruits for your fruit bowl. Fruits are generally in season, then the seasonal fruits as they come into their prime. A bonus gift from the fruit bowl is its ever-ready supply of ideas for quick and easy desserts. A compote of fresh fruit, sliced and flavored with a perfect ending for a hearty meal. With the handy fruit bowl, no need to rush to the grocer when unexpected company appears. Almost any combination of fruits may be used for this cosmopolitan dessert, but here is a suggestion:

FRESH FALL COMPOTE

- FRUITS**
 2 fresh pears, peeled and quartered
 2 oranges (seeded), with membranes removed
 2 bananas, sliced
- SYRUP**
 3 tablespoons lime juice
 1/2 cup sugar

Make a syrup by bringing all ingredients to a boil. Add all fruit except bananas. Simmer gently until apples and pears are just tender. Drain, reserving syrup. Bring syrup to a boil again and cook until slightly thickened. Pour over fruit and chill until cold. Just before serving, stir in the bananas. Serves 6.

Personal

Mr. and Mrs. Coy Shelly and son of Amarillo visited with Mr. and Mrs. Cleve Hancock Sunday.

A 2c Charles Seales from Amarillo Air Force Base visited in the home of his aunt, Mrs. Dusty Rhodes, Sunday.

Mrs. Molly Pittman of Fort Worth is visiting with her daughter, Mrs. E. L. Price, this week.

WILD DEATHS CUT SHARPLY

Deaths of today's school age children—5 through 19—dying have been cut by two-thirds in the past 15 years, a Health Department statistical summary shows. Excluding accidents, the "writing" rithmetic set has times as much chance of to collect high school diplomas than had the class of '38. Health Officer Henry A. attributes healthier school children to improved environment at home and school, immunization and vaccination programs, improved drug therapy, education of the lay public on the importance of disease prevention.

and garbage disposal, and improving housing conditions," Dr. Hollie said.

Malaria caused the death of 39 school children in 1938, and typhoid killed 144. Neither disease claimed a single life last year.

Significantly, it was in 1938 that the State Department of Health began operating on its present scale.

The figures concerning accidental deaths aren't as bright as these on disease-produced fatalities. Accidents accounted for 22.3 per cent of all school-age deaths in 1938, compared with 46.7 per cent in 1953.

Accident prevention programs probably represent the most urgent field for student health education, Dr. Hollie believes.

Of every 594 school-age children in 1938 died of disease, in 1953 the ratio had been cut to 178.5. Students of Texas' one and a quarter million scholastics breathe easier knowing that diphtheria death rates have reduced to one-tenth of the rate, influenza and pneumonia to one-sixth, scarlet fever one-third, and malaria and typhoid fever to a flat zero. Ten years ago, the summary shows, school child deaths from all causes reached 3,389, compared with 1698 deaths last year. And enrollment in public schools last year was greater than 70,000 than enrollment in 1938.

Hotel Guest: These flowers are for your telephone girl.
 Hotel Manager: Thanks. That's a lovely compliment for our service.
 Hotel Guest: Compliment nothing. I thought they were all dead.

If you want to cure your wife of nervousness, just tell her it's caused by advanced age.

Editorial

THIS DAM BUSINESS

FOR THE PAST FEW WEEKS, we have been publishing a series of questions and answers concerning the proposed dam across Salt Fork of Red River, which would be constructed about 20 miles south of McLean.

At the present time, McLean is not in need of an additional water supply, the wells being sufficient to meet the needs. But the time may come when this need will arise.

As you know, a much larger dam will likely be built across the Canadian River, to serve a number of communities. In connection with this dam, engineers recently made a report on the need of water in the Panhandle.

We quote a portion of this report for your study and consideration: "The Southern High Plains are in the 'semi-arid' region, and are elevated above the lands lying to the east and to the west, so that the only water reaching them directly is that which falls on the surface of that ground.

"The U. S. Geological Survey, in cooperation with the Texas Board of Water Engineers, reports that the average level of ground water in the High Plains south of the Canadian River—some 10,000 square miles—dropped 10.4 feet during the years 1938 through 1952, and an additional 4.9 feet in 1953. It was further reported that the loss in ground water storage from 1938-1952 was substantially equal to the quantity pumped from wells. For the year 1953, it was estimated that 4,200,000 acre-feet of ground water storage was lost, while the quantity pumped from wells was 4,300,000 acre-feet. This quantity is approximately four times that required to supply the City of New York with water which is drawn from surface supplies.

"When our people first moved into this part of the country, they found a land that was in balance so far as water was concerned. It was well adapted for the breeding of cattle, and that great industry of the southwest, in large part, originated here.

"As economic conditions changed, the ground was plowed for crops, and to make up for the deficiency of rainfall more and more water has been pumped from wells for the purpose of irrigation—there being no sources of surface supply practically available.

"It is clear that a drastic change in agricultural practices must be put into effect if the whole area is not to be allowed to degenerate into desert in the next half century, and likewise that the cities must abandon their dependence upon ground water if they are to survive."

This engineers' report was made for the benefit of those interested in the Canadian River dam. It could well apply to those who should be interested in the Salt Fork dam.

Vermont was once an independent republic, declared independent in 1777 under the name of New Connecticut.

Andrew Jackson had lived with his wife for two years when they found that her divorce from her first husband was not valid.

The McLean News

LES TALK By LESTER

One day last week, James Amos Page, the young son of Mr. and Mrs. Amos Page, was at our house. I was talking with him in our back yard, and he told me, "Santa Claus is up on the house. Let's get a ladder and go see him." And I talked my way out of it by saying Santa was probably in the chimney and we couldn't see him anyway.

So I told Daughter Chris about what James Amos said. And since that time she's been wanting to write Santa Claus to tell him what she wants for Christmas.

As a result of all this, she cornered Martha, and together they wrote Chris' letter to Santa. Consequently, The News has this received its first letter to Santa, which will be published along with letters from other children of the area in our annual Christmas edition in December.

Chris' letter is nothing outstanding, but here it is:

McLean, Texas
Dear Santa,

This year for Christmas, please bring me a Babe-Dee doll and a Tiny Tears Baby, and Doll-E-Nurser. My card table is ruined so please, I'd like a new one and some dishes. Thank you, Santa.

Chris Campbell
P. S.—And lots of things to eat.

We will be glad to have your children's letters to Santa any time between now and December 15; we'll hold them and run them in the Christmas edition.

Somebody figured out the folo lowing as the "Ten Most Repeated Sentences":

"It's time to go to bed."
"Clean that mud off your feet."
"Because . . . because of . . . because they—well, just because it's that way."

"But big people all wear clothes and you have to, too."

"That costs a lot of money and it's four days until payday."

"It's a . . . well, it works—I don't know what it is."

"Daddy's drinking up all his milk—see."

"I don't care how many pet snakes he has—you can't have any."

"Well, I can't find it—look in his toy box."
"Boy, does this bed feel good tonight."

The Tigers did all right again Friday night against the Mustangs of Wheeler. This week-end comes the first District 1-A contest for the McLean eleven. Gruver will be our opponent. It's a long way up there, but, if nothing happens, I plan to be on hand. We should be able to beat the Greyhounds, but anything can happen in a football game. If at all possible, you be there, too—the boys will likely need your support.

Every McLean fan was proud of the second and third strings' work against Wheeler. I'm glad the smaller boys got an opportunity to play a little. We'll lose about ten first stringers from this year's team, and we will need those replacements.

This is National Newspaper Week. In the eight years I've been in McLean, I've done little to encourage our readers to help us observe the week. Some day I hope to be able to get out a special newspaper week edition—perhaps have an open house at The News office, etc. But every year I keep putting it off until next year.

Newspapers, whether they're large or small, whether they're in a big city or a small community like ours, are important to the everyday life of every citizen. It's hard to put your finger on the good a newspaper can do for a town. But let one be without a newspaper to take up its battles, to chronicle the news, to promote business through advertising, and you soon find a dead community.

We're always talking about freedom of the press. Perhaps readers become bored with such talk. But freedom of the press is very important, too. It has the ring of a high-sounding phrase, but it is more than just a phrase.

Suppose, for example, a small group of people in this community had their hold on the publisher of the paper; regardless of who he might be. Suppose that group of people wanted to campaign against some good things, instead of against bad things. Over a period of time, the minds of the people could be welded until evil was recognized as the good, and

good as the evil.
You say it can't be done? It was done, and most effectively, by Hitler in Germany—an entire nation, not just a small community. It took Hitler a long time to convince his followers

THE STATE OF TEXAS:

To all unknown owners and claimants of any interest in the lands hereinafter described, claiming or to claim the same under, through or by virtue of the Last Will and Testament of F. W. Pressang (also known as Frank W. Pressang), deceased, admitted to probate in the County Court of Gray County, Texas, Cause No. 981, on December 29, 1943, and recorded in Volume 10, pages 426-429, Probate Minute Records of Gray County, Texas, Defendants in the hereinafter styled and numbered cause:

You and each of you are hereby commanded to appear before the 31st Judicial District Court of Gray County, Texas, to be held at the courthouse of said county in the City of Pampa, Gray County, Texas, at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance hereof, that is to say, at or before 10 o'clock a. m. of Monday, the 1st day of November, 1954, and answer the petition and to appear by filing written answer to the petition of Neva Pressang Cooley Delp and husband, Lloyd E. Delp, et al., plaintiffs, in Cause No. 11-121, styled Neva Pressang Cooley Delp and husband, Lloyd E. Delp, et al. vs. Phillips Petroleum Company, et al. in which the following persons are plaintiffs:

Neva Pressang Cooley Delp joined by her husband, Lloyd E. Delp; Thelma Ruth Pressang Prouse joined by her husband, Ervin J. Prouse; Fern J. Pressang (also known as F. J. Pressang) joined by his wife, Juliette Rose Pressang; and Elsie F. Pressang Cook, joined by her husband, Albert H. Cook; and the following persons are defendants:

Phillips Petroleum Company, a corporation, J. K. McKenzie,

(most of the German population) that they were a superior race. He did a lot of his work through the press, for he controlled every word that went into every newspaper (unless it was an underground publication).

So it could be done here as easily as anywhere else. That's the reason for Newspaper Week . . . to remind you that newspapers mean much to your life, your health and your pursuit of happiness.

Receiver, Arlene Ruth Cooley Henry and husband, Dale Henry; Daryl Henry; Dana Henry; Ruth Prouse; Dale Prouse; Darlene Prouse; and all unknown owners and claimants of any interest in the lands hereinafter described, claiming or to claim the same under, through or by virtue of the Last Will and Testament of F. W. Pressang, deceased, admitted to probate in the County Court of Gray County, Texas, Cause No. 981, on December 29, 1943, and recorded in Volume 10, pages 426-429, Probate Minute Records of Gray County, Texas; which petition was filed in said Court on the 27th day of August, 1954, and the nature of which suit is as follows:

The Plaintiffs bring this proceeding for the purpose of having the District Court of Gray County, Texas, determine their rights and interests in and to the following described land in Gray County, Texas, to-wit:

All of Section No. Eighty eight (88), in Block M-2 H&GN RR Co. Surveys in Gray County, Texas.

All of Section No. Eighty seven (87), in Block M-2 H&GN RR Co. Surveys in Gray County, Texas.

The Southwest quarter (SW/4) of Section No. Seventy seven (77), in Block M-2 H&GN RR Co. Surveys in Gray County, Texas.

All of Section No. one hundred ten (110), in Block M-2 BS & F Surveys, in Gray County, Texas.

All of Section No. Seventy one (71), in Block No. A-6 H&GN RR Co. Surveys in Gray County, Texas;

under and by virtue of the Last Will and Testament and the codicils thereto of F. W. Pressang. And Plaintiffs contend that each of the devisees in said will are entitled to receive all the proceeds from their respect-

ive tracts of land including not limited to all of the oil and other mineral royalties produced and saved from the respective tracts of land, and plaintiffs also pray for termination by the District of Gray County, Texas, of the oil and mineral interests including but not limited to, oil, gas and mineral rights under the terms of said will and the codicils thereto and for and further relief to which they may show themselves entitled. This action is brought by the defendants named herein only as individuals in their individual capacity, but as representatives of all of the contingent remaindermen of said future interest holders or unborn, of said will and codicils thereto, of F. W. Pressang, deceased.

The nature of the proceeding fully shown by plaintiff's final petition on file in this and a true copy of the same being furnished to any defendant by J. E. Thompson, one of attorneys for the plaintiffs, O. Box 221, Pampa, Texas, immediately upon request.

The officer executing process shall promptly make due return as the law directs. If this citation is served within 90 days after its issuance, it shall be returned unexecuted.

Witness Helen Sprinkle, of the 31st Judicial District Court of Gray County, Texas, given under my hand and seal of said Court at Pampa, Texas, this 13th day of September, 1954.

Cooking Electrically MAKES SPECIAL RECIPES EASY FOR THE ROBERTS FAMILY 3428 Julian Blvd., Amarillo, Texas

Says Mr. J. C. Roberts, "It's no trick at all to prepare my special Jambalaya in the well cooker of our electric range. I never worry about the results; they're always good. The family really goes for my Jambalaya, too."

MR. ROBERTS' RECIPE FOR JAMBALAYA

- 2 strips bacon, chopped
- 2 small onions, finely chopped
- 3 chicken bouillon cubes
- 2 cups water
- 3 tablespoons chopped green pepper
- 1 teaspoon salt
- 1 cup uncooked rice, washed
- 1 No. 2 can tomatoes
- 2 tablespoons chopped parsley
- 1 cup cooked shrimp

MRS. ROBERTS' RECIPE FOR SEVEN MINUTE ICING

- 1 1/2 cups sugar
- 3 egg whites
- 1/2 cup water
- 1/2 teaspoon cream of tartar
- 1 teaspoon vanilla
- 1/2 teaspoon salt

Combine all ingredients in two-quart sauce pan. Mix well. Place pan on small surface unit of electric range. Turn on medium heat. Beat ingredients with electric mixer for seven minutes or until ridges are made in the icing.

Says Mrs. J. C. Roberts, "I like electric cooking because it's so cool. All the heat goes into the food to be cooked. I think electric cooking is faster and there's no doubt about its cleanliness. That makes it easier to cook for a normal, healthful family."

Take a tip from the Roberts family and enjoy your kitchen. You can, you know, if you cook the modern way, the electric way. Electric cooking is the only way to cook and stay happy as thousands of folks in this great Southwest, in which we live, have found out. Join this happy kitchen group. Banish unsightly wall smear. Be sure of perfect results every time you cook, bake or broil. Do these things with a modern range—the up-to-date electric range. There's a style, size and model to fit right in with your kitchen scheme of things.

Now is the time to see your Reddy Kilowatt Electric Appliance Dealer—you'll know his store because he displays this sign.

Information— ABOUT PROPOSED DAM

(Editor's Note: This is the fourth in a series of articles containing questions and answers on the proposed dam across Salt Fork of Red River.)

—Does the Authority have any immediate prospects for sale of material water?

—Yes, the Authority has an immediate prospective customer for about one million gallons per day, year-round, with possible increases in succeeding ten-year periods. There are also some other industries in the area which should be good for a purchase of substantial amounts of water.

—What has been the history of water sales by similar projects which have heretofore been constructed?

—Such projects usually follow the pattern that nearing the completion of the project, or as soon as it is assured that the project is financed, construction contracts are let, there come unexpected demands for water. It seems likely that such will be the case in this instance; especially after this lake of 100,000 acre feet of water is actually visible.

—What will be the size of the pipe line to be used in transporting the water to the various cities?

—The engineers plan to provide a pipe line of sufficient size that will be capable of delivering twice as much water as the present maximum summertime use in each city.

—Will there be enough income from water sales from the beginning of operations to pay the debt service on the bonds to be issued?

—There will not be sufficient income from water sales at the beginning of operations to pay the debt service on the bonds and reserves necessary to be established.

—Since there will not be enough net income from the sale of water at the beginning of operations to establish reserves and meet debt service requirements, how will this deficit be provided?

—By a supplemental tax levy to be made by the Authority in each member city of the Authority.

—Will this tax be levied by each city?

—No tax will be levied by any city, so it will not be charged to the taxing power of any city.

—Does the Authority itself have the power to levy a tax for the discharge of indebtedness and if so, how much can the Authority levy?

—The law gives the Authority the power to levy whatever amount of tax might be needed as determined by the Board of Directors. This power is established, in order, to be prepared to meet any future disaster requirement either temporary or permanent, to protect the interests of the property-owners within the boundaries of the Authority. In this instance, it is anticipated that a tax of approximately 30c on the one hundred dollar valuation will be required to obtain the approval of the Attorney General and give marketability to the bonds.

—How long will this tax have to be levied?

—This tax levy will be required until income from water sales has become sufficient to meet average annual debt service requirements on the bonded indebtedness.

—Can a tax be levied without a vote of the taxpayers in the boundaries of the Authority?

—No tax can be levied without a vote of the majority of the property-owning taxpayers; this taxing power authority will be based upon when the bond election is held.

Building Home? Be Sure Sewerage Can Be Installed

Lot owners or prospective purchasers who plan to build homes should make certain that adequate sewerage facilities can be installed, declared Dr. Henry A. Billie, state health officer. Many buyers are not aware of the fact that public sewerage facilities are not available or would have to be installed at high cost to the owners.

Even if public sewerage facilities are available, there are many cases where a sewer from a private home cannot be connected to such lines. Where public facilities are not available, or not accessible, owners are required to dispose of sewage by private methods.

V. M. Ehlers, chief of the Bureau of Sanitary Engineering, suggests that those thinking of buying a lot contact their local health department to make certain both sewage and water can be provided on the particular lot. This would avoid a great many difficulties on the part of the buyer who fails to consider the matter until the lot has been purchased or the home built.

The size of the lot or its location frequently has little bearing on whether adequate systems can be built. In some cases where private systems are the only means of disposing of sewage, the soil is of a non-absorbent nature and eventually the waste materials will come to the surface or even to the house and create a public health menace.

The Texas State Department of Health has regulations regarding private water and sewerage facilities. In conforming to these regulations the public will be protected from water-borne diseases caused by improper facilities.

**TIME
TO
ACT!**

Make a thorough check of your home. Inspect and clean your heating system, correct faulty wiring, clean out rubbish such as old newspapers and oily rags, and remove gasoline or other volatile liquids from the house. Follow these and other simple fire prevention rules regularly. The "ounce of precaution" proverb is never more true when it comes to the need of better fire prevention.

BOYD MEADOR
General Insurance

Three Types of Loans— FOR TEXAS FARMERS

Texas farmers can obtain three types of operating loans from the Farmers Home Administration, Walter T. McKay, Texas state director, said this week. The credit is available immediately and can be used to finance current farm and living expenses as well as the production of next year's crops.

The three kinds of operating loans are emergency loans, special livestock loans, and regular production and subsistence loans. The production and subsistence loans are made only to operators of family-type farms. The emergency and livestock loans are made to operators of family-type farms and other farmers and ranchers as well. All of the loans are made only to farmers who are unable to obtain the credit from other sources.

The regular production and subsistence loans help small farmers to improve their farming operations. These loans may be made to buy farm and home

equipment, feed, seed, lime and fertilizer, and to pay other farm operating and family living expenses.

There is a statutory limit of \$7,000 on each production and subsistence loan and the total outstanding debt for these loans cannot exceed \$10,000. Repayments are based on the income to be received each year after reasonable expenses are met. In no case may the loan run for more than seven years.

When the main purpose of the production and subsistence loan is to improve the farmer's operations, a limited amount of funds may be included to refinance debts secured by liens on livestock and farm equipment.

Special livestock loans are made to producers and feeders of cattle, sheep, and goats, except commercial feed lot operators. These loans are made to meet usual expenses necessary to successful livestock operations, such

as the purchase or production of feed, and replacing, hiring, or repairing farm machinery and equipment. Livestock loans are not made to expand operations or to pay existing debts, except incidental current bills.

Livestock loans are made for periods up to three years. Any balances remaining on these loans after the three years are serviced for collection based on the repayment ability of the borrower. Other creditors are not asked to subordinate their liens, but are expected to stand by and to agree that a reasonable part of the applicant's normal income from livestock can be used in repaying the loan.

Emergency loans are made to farmers and ranchers who because of losses suffered from the drought or local economic conditions need credit to continue their operations.

These loans may be used for the purchase of feed, seed, fertilizer, machinery repair, replacement of equipment, and for other essential farm and home operating expenses. Emergency loans may not be made to pay existing debts. Ordinarily emergency

loans to meet current operating and living expenses are expected to be repaid out of the year's income. Repayments on advances for other purposes are scheduled in accordance with the borrower's ability to repay.

It is not the policy of the Farmers Home Administration to foreclose on borrowers because of their inability to make payments when the payments are due, except where there appears to be absolutely no chance of the borrower's future success or where a borrower has violated the terms of his loan agreement.

There is no limit set by law on the amount that a farmer or rancher can borrow under the special livestock and emergency loan programs. The amount that can be borrowed under these programs is determined by the farmer's needs and his ability to repay. No loan is made unless it appears that an applicant has reasonable prospects for success.

For each loan made, the government obtains the best security available, including a first lien on all crops to be produced with the loan and on all livestock and farm machinery purchased with the loan.

While special livestock and emergency loans cannot be used

to refinance existing debts the loans can include funds to pay interests on existing chattel and real estate debts and to pay creditors for the annual depreciation on chattels serving as security for their loans. In addition, local businessmen who are creditors benefit from loan funds used to purchase local supplies and services.

The county committees of the Farmers Home Administration pass on the eligibility of all applicants.

All applications for Farmers Home Administration loans are made at the agency's local county office.

The men of action are, after all, only the unconscious instruments of the men of thought.—Heine.

40 Years Ago— IT HAPPENED HERE

Taken from the Files of
The McLean News, 1914

Sunday School Class Entertained

Mrs. Isabel Petty entertained her Sunday School class of girls at her home east of town recently. A sumptuous dinner was served at the noon hour. In the middle of the afternoon all enjoyed a watermelon feast, and just before departing for the night services, a nice lunch was served.

Various games and sports were indulged in, among them having some pictures taken.

Those present were Clara Turner, Mary Everett, Irene Drake, Roma Crawford, Gladys Ballenger, and Euna Phillips. Mrs. Petty presented each one with a badge of their class colors, gold and white.

The children departed expressing their appreciation for having such a jolly time with their teacher.

From Over the Panhandle

Mrs. George Reid received 17 prizes on her canned fruits and vegetables at the Hale County fair held at Plainview last week.

In making excavations for fossils for Yale University on Rock Creek, near Silverton, Prof. Troxell unearthed three fine specimens of the three-toed horse, which horse has been extinct for more than 200,000 years. Prof. Troxell says Rock Creek is a regular bone yard for extinct animals.

Dr. Blackmore of Plainview celebrated his 88th birthday anniversary October 2. He is as jolly and spry as a young man and does not wear glasses.

Oldham County's fine apples captured the first blue ribbon at the Panhandle State Fair last week.

John Higgins, whose farm is near Hereford, baled 256 tons of millet off 175 acres, after giving a few loads to his neighbors. This crop brought him \$2,560, or about \$14.65 per acre.

The greatest feature of the livestock exhibit at Amarillo last week was the herd of Aberdeen Angus cattle exhibited by Judge E. H. Small of Shamrock. They carried off one grand championship premium, four champion premiums, and 17 first premiums.

172 cars of livestock and pro-

duce were shipped from the Glazier station during September.

Deaf Smith County carried off first prize and Hall County second at the Panhandle State Fair at Amarillo.

A big overalls factory has been moved to Wichita Falls and buildings are being constructed for its accommodation.

The mess hall and two other frame buildings of the Lowry-Phillips School in Amarillo burned Monday morning, entailing a loss of \$5,000, with \$2,000 in-

Mr. and Mrs. Carl Jahnke and children of Louisiana, and Mr. and Mrs. Junior Burrows and children of Childress are visiting with their parents and grandparents, Mr. and Mrs. Dolph Burrows, this week.

Mrs. Earl Stubblefield spent a few days last week visiting in the home of her daughter, Mrs. Don Light, in Rails.

Mr. and Mrs. H. N. Chapman of St. Louis, Mo., spent a few days last week visiting in the home of her brother, Cleve Hancock and family.

Mr. and Mrs. J. L. Hess attended the 50th anniversary celebration of the Groom Methodist Church Sunday.

Mrs. J. B. Pettit visited with relatives in Clarendon Sunday.

Ruel Smith made a business trip to Denver, Colo., Tuesday.

Mr. and Mrs. Bill Dighton, of Midland spent the week with their parents, Mr. and Mrs. John Scott.

TO JOHN ANDERS, of the McLean Fire Department, the members of the grade of the McLean school are very thankful for the helpful information you gave in demonstrating the use of the fire extinguishers in our schools. We believe that such information will help all of us to prevent fires.

The Fourth Grade

New figure-making creation!

Life Romance BY FORMFIT

EXPECT thrillingly lovelier contours the instant you try on the new Life Romance Bra. 14,000,000 V-8 FORDS

FORD, THE WORLD'S LARGEST V-8 BUILDER,
HAS PRODUCED MORE V-8'S THAN ALL OTHER
MANUFACTURERS COMBINED!

It's America's largest selling V-8!

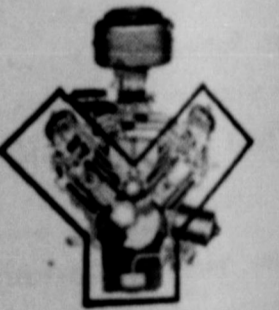

Ford introduced the V-8 engine to the low-price field . . . and is still the only car in its field to offer the smoothness and responsiveness of V-8 power. Add to this Ford's long, low silhouette, its clean, modern styling and its colorful, smartly-trimmed interiors, and it's easy to see why Ford is America's most popular V-8 car.

There's no engine so modern!

Ford's Y-block V-8 has an extra-deep block that extends below the crankshaft for more rigid support, longer engine life. New short-stroke design, turbo-wedge combustion chambers, free-turning overhead valves and exclusive Automatic Power Pilot make Ford's modern Y-block V-8 the smoothest, most responsive engine in Ford's field!

There's no V-8 priced so low!

Only Ford offers a V-8 in the low-price field! And no car near its price gives you Ball-Joint Suspension . . . for smooth riding and easier handling. Only Ford in its field, gives you Full-Circle Visibility . . . the most windshield area . . . the most rear window area . . . the most total glass area! It's no wonder Ford is America's best buy!

WOW!

It's not just a V-8
...it's a Y-block V-8

NO WONDER MORE PEOPLE
ARE BUYING FORDS THAN
EVER BEFORE!

WORTH MORE WHEN YOU BUY IT . . .
WORTH MORE WHEN YOU SELL IT!

Analysis of used car prices shows that Ford retains a greater proportion of its original cost when it comes time to sell than any other car in its field. This is further proof of the greater value you get from Ford.

Miss Mary Brown And Sam Donald To Wed October 10

Mr. and Mrs. R. L. Brown announce the engagement and approaching marriage of their daughter, Mary, to Sam Donald, son of Mr. and Mrs. Robert Donald of Wheeling, W. Va.

The wedding will take place Sunday, October 10, in the home of the bride's parents in McLean.

Mr. and Mrs. Fred Smith Jr. and children returned to Globe, Ariz., Monday after spending a week's vacation visiting with relatives in McLean, Leila, and Kelton.

Meeting of WSCS Held in Parlor of Methodist Church

The W. S. C. S. of the McLean Methodist Church met in the parlor of the church Tuesday.

The meeting opened with a song, "Jesus Saves"; prayer and a poem were given by Mrs. W. E. Bogan. Mrs. J. L. Hess had charge of the program, assisted by Mesdames Andrews, Carpenter, Bogan, and Kirby.

Mrs. Madge Page conducted a short business session. Sixteen members were present.

Mrs. W. E. Kennedy is visiting with Mr. and Mrs. G. W. Keller and family and Mr. and Mrs. Steve Kennedy and family in Los Angeles, Calif.

Smith Family Has Reunion in Home Of Vaughn Smith

The Smith family reunion was held Sunday, October 3, in the home of Mr. and Mrs. Vaughn Smith.

Those attending were Mr. and Mrs. Fred Smith Jr. and children, Linda, Deilah, Harold, and Susan Kay, of Globe, Ariz.; Mr. and Mrs. Ernest Morris and children, Barbara and Roy, of Frederick, Okla.; Sgt. Melvin Gunkel of Fort Sill, Okla.; Mrs. Fred Smith and son Lonnie Merl, Mr. and Mrs. Ford Smith, Mr. and Mrs. Ewing Smith and children, Freddie, Judy, and Sharon Kaye, and Mr. and Mrs. Vaughn Smith and children, Ricky, Cheryl, and Marsha, of McLean.

Mrs. Longino Is Leader for Lesson Of Wesleyan Guild

The regular meeting of the Wesleyan Service Guild met in the parlor of the McLean Methodist Church September 28.

An inspiring lesson was given by Mrs. H. A. Longino on the parables of the kingdom.

After a short business session conducted by Ann Gibson, president, the hostesses, Loree Brown and Tressie Mantooth, served refreshments to Mesdames Page, Day, Hindman, Black, Hamilton, Rodgers, Nash, Andrews, Kritzier, Parker, Bunch, Hauck, Zevely, Brown, Hibler, Tindall, Magee, Cousins, Fisher, Middleton, Melton, Beasley, Bryant, and Longino, and a visitor, Kate Everett.

Miss Martha Day, Thomas W. Willis United in Marriage

Miss Martha Day, daughter of Mr. and Mrs. A. L. Day of McLean, and Thomas Wayne Willis, son of Mr. and Mrs. Clyde Willis, also of McLean, were united in marriage Saturday, October 2, at Clovis, N. M.

For her wedding, the bride chose a blue suit with beige accessories and a red rose corsage.

The couple was accompanied to Clovis by the groom's parents, Mr. and Mrs. Clyde Willis, and Mr. and Mrs. A. L. Conatser of Borger.

Billy Jack Bailey of Pampa visited with his parents, Mr. and Mrs. Bill Bailey, Thursday.

Church Officials Entertain Chicken Dinner

Approximately 75 officials, and husbands and wives, of the Methodist Church were entertained at a chicken dinner Friday night in the Fellowship hall of the church, with the Rev. Marvin Fisher, and Rev. Fisher, as host and hostess.

The hall was appropriately decorated in the fall season. Place cards featured fall leaves protruding from the top. Names on the place cards were "scrambled" versions of those attending.

Rev. H. A. Longino, former pastor of the church, gave the invocation, and the meal was served buffet style. During the dinner a contest was held, in which those using incorrect English were assessed one bean for each error. Winners of the contest were Mrs. W. M. Rhodes, the women, and Johnny Jones, for the men.

Following the meal, Rev. Fisher introduced Rev. Longino. Rev. Longino gave a humorous report on the difference in being an active pastor and a retired pastor. Mrs. Longino then gave a skit of a typical Sunday morning at the home of a Methodist preacher.

Concluding the program was a solo by Mrs. J. H. Kritzier, accompanied at the piano by Mrs. Longino.

After the program, Faris Hess, chairman, presided at a business session of the official board of the church. Rev. Longino dismissed the group.

Mrs. W. F. Houston and Mrs. D. F. Currie and daughter of Paint Rock spent last week with their daughter and sister, Mrs. Guy Hibler and family.

Cleta Sue Heasley, Rolena Chase, Gloria Hunt, and Band Director Joe Coleman attended a twirling school in Canyon Saturday.

Mr. and Mrs. Cleo Heasley were in Pampa Monday on business.

YOUR NEW SOCIAL SECURITY
 Beginning January, 1955, the new law makes it possible for all beneficiaries on the social security rolls to earn up to \$1,200 a year without losing benefits for any months. The earnings test for both the employed and the self-employed recipients of old age and survivors insurance benefits is the same.

After 1954, both employed and self-employed men and women who are receiving their social security payments may make as much as \$100 in three months without losing benefits for that year. (Under the old law a semi-retired worker who took a seasonal job which paid him \$400 in three months would have lost benefits for those three months.)

Other officers chosen are Joyce Nicholas, vice president; Dixie Hampton, secretary; Tracy Cooper, treasurer; and Molly Miller, reporter. Faculty sponsors are Jimmy Payne, high school principal, and Mrs. June Story.

Gossip—
 (Continued from page 1) held on the second Tuesday of each month.

Paul Kennedy of McLean has been named as a member of the seven-man board of directors for the Perry LeFors Field, county-owned airport near Pampa. Kennedy will replace S. A. Cousins, whose term expired recently. Kennedy was named by the Gray County commissioners court. Frank Culberson of Pampa was also named to the board, to succeed E. J. Dunigan Jr. of Pampa.

Louis Bleriot first flew the English Channel in 1909.

Family Reunion Is Held in Honor Of Mrs. Ellen Clay

A family reunion was held Sunday, October 3, in the home of Mrs. Madge Page in McLean honoring Mrs. Ellen (C. H.) Clay of Wheeler on her 82nd birthday anniversary.

A bountiful dinner was served from a long table in the center of the living room. The centerpiece was an arrangement of beautiful fall garden flowers and fern on a huge silver stand.

Mrs. Adda Voight offered thanks, while all were gathered around the table. Many pictures were taken of the honoree and the five generations that were present for the dinner.

Mrs. Clay was presented with a TV appliance needed in getting different stations with clarity. The gift was from the five generations present.

Mrs. Clay was very happy over the occasion. She is so active and alert, and with her keen sense of humor, she was the life of the party.

Both of Mrs. Clay's daughters, all of her grandchildren, many great-grandchildren, and one of the great-great-grandchildren attended the celebration. Those attending were Mrs. H. H. Waiser, Mr. and Mrs. Buster Waiser and Clay and Joyce, Mr. and Mrs. Lloyd Anglin, Mrs. Faye Patterson, Mrs. Gladys Oglesby and son Donald, Mr. and Mrs. Cecil Denison and son Robert, and Mrs. Adda Voight, a guest, all of Wheeler.

Mr. and Mrs. Charles Ellis and daughter of Canadian; Mrs. D. L. Briley and daughter Sue, and

Mr. and Mrs. Dan Phillips of Amarillo; Mr. and Mrs. Amos Page and Janice, James, and Jill, of McLean; Mr. and Mrs. Jimmy Nardo and Jim and Eileen, of Reading, Pa.; Mr. and Mrs. Robert McCain and Bobby, Danny, and Janice, Mr. and Mrs. Ray Laycock, Mr. and Mrs. Joe Page and Iris Lee, and Mr. and Mrs. Marvin Cooper and Earl Page and Marvin Lee, of Pampa; Mrs. C. H. Patterson and Joyce, and Mrs. Tommie Henderson of Borger; Mr. and Mrs. T. J. Patterson and Roger and Barbara Kay, of Phillips; Mrs. Peggy Pevey and son W. L., of Breckenridge; and the hostess and honoree.

Mrs. Clay was born October 14, 1872, near Denton. She and the late Mr. Clay first moved to near Wheeler in 1904.

Colorado has the highest average altitude above sea level of any state.

I find the great thing in this world is not so much where we stand, as in what direction we are moving.—Oliver Wendell Holmes.
