Dr. Otis Strickland, president of Decatur Baptist College, will speak at the Baptist Brotherhood of the North Fork Association Friday evening, May 20, at 7:45 o'clock. The program will be held at the First Baptist Church in Twitty.

Dr. Strickland, a native of Alvarado, has been president of the college since 1950. He served as pastor of churches at Vernon, Fargo, Crowell, and Cisco prior to accepting the presidency of the college.

Among the 1955 class of seniors of Stamford High School who will graduate Tuesday, May 24, is Carole Ann Deen, daughter of Mr. and Mrs. Dan Deen, former McLean residents. The Deen family left here a few years ago to move to Merkel, and have since moved to Stamford. Their address is 809 E. Reynolds, Stamford.

Bobby Decker, former student in McLean High School, is a member of the high school graduating class of Southwestern Bible College, Oklahoma City. Commencement exercises will be held May 23.

Mary Ann Back of McLean will be among the 191 Abilene Christian College seniors who will receive degrees at commencement exercises May 30. She is the daughter of Mr. and Mrs. Johnnie R. Back and is a 1951 graduate of McLean High School. She majored in education with an English and Bible minor.

Rep. B. F. Sisk will deliver the commencement address at 8 o'clock Monday night, May 30. James O. Baird, president of Central Christian College, will preach the baccalaureate sermon at 7 o'clock Sunday night, May 29, in the Sunday Church of Christ.

Floella Cubine from McLean was recently elected junior senator in the 1956-57 Student Senate at West Texas State College. Bob Hood, sophomore from Borger, was chosen president.

Miss Cubine is a graduate of McLean High School. She is a member of the band, Tau Beta Sigma, band sorority, and the Wesley Foundation. She was a beauty nominee last year and was band sweetheart this year. She is the daughter of Mr. and Mrs. Erey Lewis Cubine.

Homer Abbott was awarded \$17 in merchandise certificates at the regular Appreciation Day activity in McLean last Saturday afternoon.

Saturday, May 14, will be Rainbow Day for the Rainbow girls. They will sponsor a bake sale, selling cakes and pies, at the Beauty Shop. They will also be on the streets selling small tags to those who wish to buy them. The money made on this day will be used to send girls to the grand assembly, which will be held in El Paso this summer.

Emergency Grain Program Extended

The emergency grain feed program has been extended in Gray County until June 30, it was announced this week.

Applications will be received by the A. S. C. office in Pampa from now through June 15, the last day that applications can be taken. However, the applicant will be eligible for a feed supply extending through June 30, taking into consideration the feed on hand, it was explained.

Mr. and Mrs. J. I. Martindale made a business trip to Shamrock Monday.

KIDS PROGRAM FOR SUMMER OPENS JUNE 13

Hap Rogers, McLean High School head coach, has been named as administrator of the summer recreation program, to be sponsored by the Lions Club.

Rogers said this week that activities in the program will begin Monday, June 13, and that

COACH HAP ROGERS to lead summer program

the time schedule, now in the process of being formulated, will be announced prior to that time.

The program is slated to take in all ages of local youth, it has been explained. As now being set up, activities will begin daily at about 3 o'clock in the afternoon, and continue through a softball set-up each night.

Vernon Gibson is chairman of the Lions Club committee which has been working on the project. With Gibson on the committee are Guy Hibler, Laroy Sutton, Odell Mantooh, Johnnie Back, and Freeman Melton. The committee has had several meetings in working out preliminary details.

The program will cover a period of nine weeks, Rogers said. The coach will attend the annual coaching school one week early in August, and activities will be suspended during that one week. Otherwise, it is scheduled to continue uninterrupted for the nine weeks.

Financing the program has been the biggest problem for the Lions Club committee. The City of McLean has agreed to aid considerably with the finances, and the club has about \$200 in its treasury left from the proceeds of the father-son banquet. This money will be added to that the

Pre-Registration For First Graders For 1955-56 Is Held

Pre-registration of next year's first graders was held Wednesday afternoon at the McLean elementary school under the supervision of Principal Claud Zevely, School Nurse Lucille Kohls, and Mrs. Lopez Hauck, first grade teacher.

Parents of the coming first grade students were sent letters of invitation to be on hand with their children at the meeting. The children were allowed to visit the school and become acquainted with the building and with teachers and administrators.

Health applications and other printed materials were given to parents.

BAND OF F. F. A. PLACES FIRST IN AREA MEET

The McLean F. F. A. band placed first in the Area 1 talent contest held at the convention in Amarillo Saturday.

The contest was held on the "Cotton John" television program, the first of its type to be held in this section of the country. The program featured the highlights of the convention, the sweetheart contest, and talent contest.

The band, composed of Alton Carpenter, Owen Rhea, Carl L. Henley, Charles Williams, Kenneth Gossett, and Ronnie Smith, will enter the state talent contest during the state convention in Houston the latter part of July.

McLean's voting delegate at the convention was the F. F. A. president, Gerald Tate.

The dairy cattle and the livestock judging teams will leave Thursday afternoon to take part in the state F. F. A. judging contest at Texas A. and M. College.

These teams won the honor of entering the state contest by placing in the upper ten per cent at the recent judging contest at Texas Tech. The livestock team placed 4th while the dairy team placed 7th.

Members of the livestock team are Gerald Tate, Butch Turpen, and Joe Dwyer. Members of the dairy cattle team are Bob Stubblefield, Carl L. Henley, and Fred Smith.

Mrs. Lona Jones has returned from a visit with relatives in California.

SECOND SALK SHOT AGAIN POSTPONED

The vaccine for the second round of the Salk polio shots is not available to Gray County and will not be for another week or more, Dr. Joe Gates, county health officer, said early this week in Pampa.

The second round was originally scheduled for Wednesday of last week, but was delayed due to non-arrival of the vaccine.

Dr. Gates has received a telegram from L. B. Walter, acting state health officer, to the effect that the vaccine will not be available this week.

Walter said the U. S. Public Health Service officials have told him the service's position was:

"1. For the present, all vaccinations should continue to be postponed;

"2. A detailed reappraisal of each lot of vaccine already prepared or in the final stages of production is being undertaken immediately by the Laboratory of Biologic Control with suitable consultants;

"3. As this reappraisal proceeds, vaccine will be cleared for use on a lot-by-lot basis."

Considerable turmoil concerning the vaccine has arisen since the first round of shots was given to more than four million first and second grade students in the U. S. About 40 children who were given shots—most of them with vaccine from one pharmaceutical house—were stricken with polio. As yet, doctors have not definitely determined whether the children had already contracted the disease, or whether the disease was caused directly by injection of the vaccine; most doctors who have expressed an opinion do not believe that the vaccine caused the children to be stricken.

In McLean, 99 first and second graders from the local schools and from Alancoed were given their first shots Wednesday, April 20, with the second scheduled for Wednesday, May 4. However, the second round was postponed due to non-shipment of the vaccine. The developer of the vaccine, Dr. Jonas Salk, has stated that the first two shots may be given from two to four weeks apart; the third shot, a booster shot, is to be administered seven months later.

U. S. health officials are making a thorough study of the vaccine before encouraging the continuance of the program. Checks are being made on all vaccine produced.

More Welcome Rain Comes To Thirsty Panhandle Area

NEXT WEEK IS CLEANING-UP TIME IN CITY

Local residents were reminded this week that next week, May 16 through May 21, is official Clean-Up Week in McLean, and all people are being urged to cooperate.

The week has been proclaimed by Mayor E. J. Lander.

The McLean trash trucks will make extra runs throughout the city all during the week. All trash, with the exception of heavy pieces of concrete, will be picked up, the mayor said. Tree limbs, etc., will also be picked up if they are placed near the regular trash container locations.

"City officials are asking that all residents cooperate to the fullest extent in aiding in getting our city ready for the hot summer months. During these summer months, flies and other insects breed rapidly on filth, and consequently spread diseases of various kinds," Mayor Lander said.

Residents are particularly urged to clean up their alleys, since alleys are generally the locations for most of the filth. In past years, the city has been spraying periodically during the summer to kill insects. However, it was pointed out, much of the high cost of this spraying could be eliminated if residents would keep their alleys cleaner, and especially if residents would use covered containers for wet-soiled and garbage cans for wet garbage.

GEORGE HUFF DIES IN CLAUDE

George Washington Huff, a former resident of McLean, died Tuesday afternoon at 3 o'clock in a nursing home in Claude. He was 74 years of age.

Funeral services are to be held this afternoon at Paducah. The body was taken to Paducah Wednesday afternoon by the Claborn Funeral Home of McLean.

Huff was born May 10, 1881, at Austin, and formerly lived in McLean and Wellington. He was a retired cafe operator, and had been in the home at Claude for the past five months.

Survivors include two sons, Leonard Huff of Borger and Richard Elmo Huff of Lovington, N. M.; two daughters, Mrs. Nolan Geary and Mrs. Floy Garrett, both of Lovington; one brother, Frankie Huff of Olney; and two sisters, Mrs. J. Kelsey McClure and Mrs. Edgar Berten, both of Oklahoma City.

R. F. Sanders was released from Highland General Hospital in Pampa Wednesday of last week. His condition is reported as critical.

W. C. SHULL claimed by death

FINAL RITES FOR W. C. SHULL ARE HELD HERE

W. C. Shull, owner and operator of Shull's Builders Supply in McLean, died at his home here Monday night at about 11:30 o'clock. He was 57 years of age.

Funeral services were held at the McLean Methodist Church Wednesday morning at 10 o'clock, with Rev. Marvin Fisher, pastor, officiating, assisted by Rev. L. R. Green, pastor of the Assembly of God Church. Interment was in Hillcrest Cemetery under the direction of the Claborn Funeral Home.

Pallbearers were Leo Bow, Howace Brooks, Buel Watt, and Cliff Day of McLean; W. T. Henry of Socorro, N. M., and D. L. Wood of Amarillo.

Shull had been in ill health for several years, and had been critically ill for the past few weeks. He suffered serious injuries in an automobile accident in 1945, and had had trouble with those injuries since that time.

He was born September 23, 1897, at Zwole, La. On February 28, 1937, he was married to Ida Bell Mashburn, who survives him. The couple moved to McLean in 1940 from Midland.

Legion Rodeo—

ATTENDANCE IS SMALL

Attendance at the annual American Legion rodeo last Friday, Saturday, and Sunday was small, despite the fact that the weather was highly suitable at three of the four performances.

The rodeo, staged for the sixth straight year by the Legion (with the help of the McLean Roping Club this year), drew less than 1,000 paid admissions at all four shows. The sand blew Saturday

MONTH OF MAY ALREADY GIVES OVER 3 INCHES

Ranchers and farmers—especially row crop farmers—were jubilant this week following general showers throughout the Panhandle and most of the South Plains.

An additional 1.32 inches of moisture had fallen in McLean Sunday, Monday, Tuesday, and Wednesday, according to the official gauge of Pete Fulbright, local weather observer. The amount brought the total for May to 3.26 inches, Fulbright said.

The last reading on the gauge was taken at 1 o'clock Wednesday afternoon, and a very light rain, then falling, stopped shortly after. However, the clouds were still present, and the Amarillo Weather Bureau was forecasting more scattered showers for Wednesday night.

This week's rain fell slowly and lightly, and there was no run-off in the fields. Most farmers had already chiseled their land, and the moisture was believed to be soaking deeply.

The second series of showers for May started Sunday night, when .37 of an inch came. Monday brought another .23 of an inch; and Tuesday night and Wednesday morning yielded still another .72 of an inch.

Heavier rainfall was reported in the McLean area to the south and southeast, where up to four inches was reported for this week. Shamrock received about two inches in a downpour Sunday night.

The rainfall was general throughout the entire Panhandle, an area being classed by some of the eastern writers as a dust bowl. However, the drought seemed to be ended as the showers came, timed just right for row crop farmers.

In most places, the rain came too late to do the wheat crop much good. Many wheat farmers in the northern Panhandle had already given up on their wheat and plowed it under to make way for some type of summer crop. Practically no wheat was planted in the McLean area this year.

The first spring rains which came ten days ago had a life-giving effect on the grasslands.

PEB EVERETT, who lives on his farm one mile east of McLean, is shown at left above being congratulated by W. B. JACKSON, Gray County Soil Conservation District chairman, as Jim Strawn, work unit conservationist, looks on. Everett was one of those honored Thursday night of last week at Pampa in the annual "Save the Soil and Save Texas" awards dinner. He had been chosen as the best comeback farmer in Region 1, an area comprising 51 Panhandle and South Plains counties. Pampa was host to the regional affair for the first time in the ten years the awards have been given. A barbecue dinner was served by the S. C. D. and the Pampa chamber of commerce.

'Save Soil' Awards Given at Pampa

A cash award of \$100 was presented to Peb Everett, McLean farmer and barber, as his reward for having been chosen as the best comeback farmer in Region 1, when the regional "Save the Soil and Save Texas" dinner was held in Pampa last Thursday night.

Everett was one of several people honored at the affair. Region 1 is composed of 51 Panhandle and South Plains counties. The state-wide program is sponsored by the Fort Worth Press and 22 other large firms of Texas.

Another presentation to a Gray Countyman was that of a plaque to Quentin Williams, Pampa real estate man. Williams was named as the best non-farmer conservationist of the region.

Others receiving awards in-

cluded Mrs. R. H. Matthews of Medicine Mound, as outstanding homemaker of the region; L. B. Shelby, representing the Pleasant Valley Soil Conservation District, outstanding district; W. H. Meeks, representing the Dawson County S. C. D., most outstanding district; Wood B. Coleman of Dozier, outstanding conservation farmer (Coleman was only recently awarded the state G. I. farmer award in the state contests); Amos Harris of Kingsmill, Gray County's outstanding conservation farmer; and several high school students who were judged as essay winners.

The barbecue for the dinner was prepared under the supervision of W. J. (Bill) Graham, and served by members of the C. of C. agriculture committee;

the event was sponsored jointly by the chamber and the Gray County S. C. D.

Main speaker for the affair was Paul Walser of Temple, deputy state director of the Soil Conservation Service. He pointed out that fewer men are tilling the soil, yet providing more for the general public; he also emphasized that this "minority" is more dependent than ever before on the understanding of the people. "We cannot exist without soil and water and planned conservation," Walser said.

Walser was introduced by Tarleton Jenkins, conservation editor of the Fort Worth Press, original sponsor of the state-wide program. Walter Humphreys, editor of the Press, had planned to be present but was unable to attend.

Last Cruise for a Captured Sub

In one of the most heroic naval engagements of World War II, officers and men of Rear Admiral Dan Gallery's Task Force 22.1 boarded and captured Nazi submarine U-505. Fast action saved sub as it was about to sink. (Inset) Towed to Chicago from Portsmouth, N. H. Navy yards, sub was placed in floating drydock and beached at 57th Street and the Outer Drive in Chicago. Sub was rolled off to tracks on this temporary pier. Tracks extended from pier end to Outer Drive.

When breakers threatened to wash away cribbing supporting beached sub, International TD-24 crawler tractor was brought in, bladed sand into nine-foot-high protective dike.

Jacked up four and one-half feet above beach pier, sub was then rolled across Outer Drive to permanent exhibition site at the east wing of Chicago's Museum of Science and Industry. Actual capture of sub took less than 20 minutes. Moving it to final berth, a distance of 647 feet, took 40 days. Cotton Wedding Anniversary

Mr. and Mrs. Luther Petty celebrated their first wedding anniversary on Monday, May 10, by giving a "newly-weds" social at their home 4½ miles southeast of town. Mrs. Petty will be remembered by her friends as Miss Isabel Francis.

Invitations were sent out before hand to 60 people, including only the immediate family and young married couples. The house was decorated with flowers of various kinds, which made a very pleasing appearance. After a short time for conversation, the hostess kept the guests all busy by various games and contests. A short intermission was given, while all partook of roasted peanuts, after which they were invited to the dining room where grape juice and three kinds of cake were served.

The guests departed at a late hour expressing themselves as having had a "jolly time" and wishing the host and hostess many more wedding anniversaries.

A number of nice and useful presents were received.

Band Instruments Arriving

The boys have been receiving their band instruments in install-

ments this week and will soon be regularly organized and ready for practice. From the number and quality of the talent composing the personnel of the band, we may reasonably hope to have one of the best organizations of its character in this section of the state.

The business men and citizens generally have subscribed liberally to funds to help employ a teacher, whose services had already been arranged for.

A Neighborhood Gathering

On Saturday evening of last week a crowd of neighbors and friends gathered at the hospitable home of Mr. and Mrs. C. E. Francis. After conversing one with another a short time, various games and music were indulged. Music was furnished by Messrs. Turner on the violin and Jaye on the guitar, while Mrs. Pearl Stokes Paxton and Myrtle and Claude Stokes took turns at the organ. Mrs. Petty entertained the little folks with outdoor games while the young folks were being entertained in the house with parlor games by Grace and Roger Francis.

Mrs. Francis served roasted peanuts, lemonade, and three kinds of cakes in the dining room to 46 guests, among whom were

but his work was received with hearty approval and all who heard him are loud in their praise of his program, especially with reference to his dramatic portrayal of "The Other Wise Man," a beautiful story by Van Dyke. While Mr. Hilburn has only recently taken up this class of work, he has already been recognized as an artist whose star is rapidly in the ascendency and we expect to see him take his rightful place among the fore-

most ranks of the profession. He left Tuesday morning for Central Texas, where he is billed for a continuous itinerary lasting over a period of several weeks.

Wayne Woods spent the week-end visiting at Texas A. and M. College.

Nail Down THE TOP SOIL!

You can do it with the modern soil conservation practices which have been developed to help control the damaging effects of raging waters and destructive winds. Irrigation, too, plays its part in soil conservation. Winter irrigation, for example, lets the ground store up water for summer use without excess loss by evaporation. In addition, more weeds are dormant in winter and so do not have a chance to multiply. Get the facts from your soil conservation office or any Public Service manager. Winter irrigation pays!

IS YOUR CAR IN SAFE DRIVING CONDITION?

TRAFFIC ACCIDENTS are a disgrace to this country. Last year they claimed 36,300 lives.

And the great scandal is that in most cases they are unnecessary. More care, more alertness, more respect for the rights of others, would eliminate the greatest number of accidents. Particularly inexcusable are the accidents which grow out of inadequate vehicle maintenance.

Just how many accidents fall into this category can never be statistically established because in many fatal accidents the car, or cars, involved are so badly smashed that pre-existing repair needs cannot be determined. But in spite of this fact, accident reports show that a significant number of vehicles involved in fatal accidents have one or more unsafe conditions.

Very often such conditions can be present in an apparently normal car. Last year, in a voluntary, nation-wide vehicle safety check program in which more than one million vehicles were inspected, one out of four vehicles checked was in need of maintenance attention to one or more parts affecting safe operation. In many cases, the automobile owner did not suspect this need.

Obviously, then, the only way a driver can be sure his vehicle is in safe operating condition is to check and double check.

It's a very simple matter to check for surface danger points. The driver himself can do this. Excessive tire wear, loss of brake efficiency, lights that are not working properly, and other obvious danger spots can be easily detected.

But no driver should be satisfied with these surface checks. He should have his car checked regularly by a qualified mechanic. On these checks, the following points should be carefully checked: Headlights, rear and stop lights, brakes, tires, steering mechanism, windshield wipers, muffler and exhaust system, window glass, horn, and rear-view mirror.

"Check your car, check accidents!" is a pretty short sentence, but it contains the only solution to one important segment of the traffic accident problem.

100,000th TELEPHONE: The One Hundred Thousand Telephone Sale Campaign, carried on by The Southwestern States Telephone Co., reached its goal on April 21, 1955, when the 100,000th telephone was installed in Church Point, Louisiana, in the residence of Mr. and Mrs. Leo Comeaux. Shown making her first telephone call is Mrs. Comeaux, while J. M. Nelson, Division Manager, The Southwestern States Telephone Co., looks on with approval. Little Diane Comeaux watches as Dave C. "Smitty" Smith, Senior Exchange Repairman, makes the final connections. The Comeaux family was given the privilege of placing a long distance call to any point they wish, at the expense of the company.

LES TALK By LESTER

I guess the car in which the Wichita Falls man was killed is the worst-wrecked automobile I have ever seen. I thought I had seen the ultimate when I looked over the vehicle in which the Elk City auto dealer and his wife were killed last year. The Elk City car had been hit in the side and bent into a V-shape. The Wichita Falls car was hit head-on and was a slightly different kind of a wreck. The wreck last week shortened the length of the auto by at least one-third.

The man killed, John H. Mackey, apparently never had a chance. It seems that the trailer on the truck broke loose at exactly the right split second to ram head-on into Mr. Mackey's car. It is doubtful that Mr. Mackey had time to recognize what was to hit him before death came.

Tragedy is tragedy, regardless of where it hits, regardless of how it strikes. Tragedy on our highways has become commonplace. We all hold the same opinion, more or less, that it won't happen to us—it will always be the other fellow. Frequently this type of thinking will cause an accident; of course, it didn't cause Mr. Mackey's, but such laxity of thinking will make us careless drivers.

Automobiles, and the resultant highways we have, are wonderful to have. We have come to the point where all of us feel that we could not do without them.

But they can be deadly; and such a death as that of the Wichita Falls man will make us stop and think. Our trouble, apparently, is that we do not give such accidents enough thought.

Congratulations to Wayne Woods and to Lester Sitter for the honors which they have won as valedictorians of the high school seniors and the elementary school graduates, respectively. And also congratulations to all

the other members of both classes for reaching another goal in life.

It is very unfortunate that the Salk vaccine has been under so much public pressure since the first round of shots was given to the first and second graders.

Notice that the U. S. surgeon general halted shipment of unapproved vaccine last week-end; he stated that the vaccine was not under suspicion, but was being double-checked for safety purposes. However, even such a statement will not remove the doubt from the minds of many people.

Personally, I have great faith in our doctors of today. But if my child were one of those who came down with polio after that first shot, there is little doubt in my mind that I would be most skeptical of the vaccine.

Dr. Salk, and the other research men involved in developing the vaccine, have already pointed out that it will be from 60 to 90 per cent effective—not 100 per cent. This does not mean that the 40 to 10 per cent left unprotected after taking the vaccine will have polio—only a

very, very few of them will be likely to ever contract the disease. But it leaves them susceptible to the disease just as if they had never taken the shots.

Let us hope and pray that the vaccine will eventually be improved until it is 100 per cent effective. Practically all vaccines started out just as has the Salk vaccine—not 100 per cent effective. Most of them, such as the smallpox vaccine, have been improved to the point where the protection is perfect. Some day, the polio vaccine will be so improved.

The little kittens at our house are doing fine these days.

The little puppies at Buddy Sutton's house—both of them—are also doing fine.

Daughter Chris offered to trade Bonnie Sutton a kitten for a puppy. But no trade. We didn't want the puppy, and Bonnie didn't want the cat.

During the past year, I have had the opportunity to become acquainted with quite a few residents of Shamrock whom I had never known before.

It seems that one of the crying needs of Shamrock is better school facilities. The people whom I have met marvel at our fine school buildings, etc. They are quite envious.

But Shamrock seems to be in the same position we were in a few years back. They have so much bonded indebtedness they are unable to vote sufficient bonds for new buildings.

One of these days the school-minded people over there will find a way. It isn't likely to be too many days either. I hope they do. Good school facilities are a vital factor in a good school system.

The McLean district is fortunate to have these facilities, and we are also fortunate to have the excellent quality of teachers we have.

Mr. and Mrs. Jesse Ledbetter spent the week-end at O'Donnell visiting with relatives.

Mrs. Jesse Roberts is vacationing in California.

Boys Ranch Gets—NEW SCHOOL BUILDING

Construction on a new modern, ranch-style school building has begun at America's first Boys' Ranch near Amarillo, in place of the old frame, two-story building which has long been inadequate for the growing needs of the ranch. At the present time classes are being held in five different places at the ranch.

The new school will include classrooms and vocational school for the 500 boys that the ranch hopes to be able to take care of within the next few years. The old building was a remodeled army barracks moved in from Dalhart several years ago.

The boys will do the majority of the construction on the new school under the supervision of a competent director. Two hundred sixty-five tons of Colorado red stone have already been brought to the ranch from Longmont, Colo. It is being brought to the ranch by the Denver-Amarillo Express without charge.

The building will be of the same stone and style as the housing unit completed by the boys two and one-half years ago.

The Peace Officers of America have formed an organization for the purpose of helping the ranch to build the new school and it will be called the Peace Officers of America School. The citizens of Plainview and Tulia are building two classrooms to be known as the Plainview and Tulia rooms.

an da group of businessmen in Houston have formed a Shirt Tail Club in order to build another classroom. Their idea came from the Boys' Ranch slogan, "Furnishing Boys a Shirt Tail to Hang Onto."

It is necessary that Boys' Ranch have its own school because it is not a public school and the majority of the boys have been out of school one to three years when the ranch takes them. The teachers live right at the ranch and work with the boys to give them extra time and help.

The total cost for the building will be \$200,000 fully equipped, and although all funds have not been raised, the ranch will build as far as possible and it is hoped that it can be completed by the fall term of next year.

More Fine-Car Features than any other car priced so low!

CAN YOU SEE, STEER, STOP SAFELY? CHECK YOUR CAR—CHECK ACCIDENTS.

POWER—Pontiac's husky 200-horsepower Strato-Streak V-8 with four-barrel carburetor, optional at low extra cost, delivers more power than any car within hundreds of dollars of its price. And road records show this power is teamed with the greatest economy in Pontiac history.

STYLE—No car at any price is so beautifully distinctive. Pontiac's future-fashioned Twin-Streak styling and Vogue Two-Toning set it apart from all other cars—point the way to tomorrow.

SIZE—Pontiac is a big car where it counts—with a long, road-hugging 122" or 124" wheelbase. On any road, at any speed, you enjoy the feeling of genuine fine-car size.

COMFORT—Pontiac's extra size means big-car comfort—room to stretch out and relax. Wide-stance rear springs and Shock-Proof chassis float you along in luxury style.

If you were to guess Pontiac's price on the basis of its style, performance and size, you'd surely guess hundreds of dollars higher than its actual cost. Pontiac measures up with the finest on any point of comparison—except price.

It's a simple matter of fact that you can buy a big, powerful Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes!

After a close inspection of Pontiac's luxury and quality and a few miles commanding its mighty 200-horsepower Strato-Streak V-8, buyers from both ends of the price scale are switching to Pontiac in record-breaking numbers. Come in soon for the clinching facts and figures. You'll make the very pleasant discovery that if you can afford any new car, you can afford a big, powerful Pontiac—and step directly into the fine-car class!

What a frame!

Underneath Ford's long, low Thunderbird-inspired lines lies one of the strongest reasons why the swing is to FORD: Ford's rugged, 5-cross-member-frame!

We're proud of Ford's Thunderbird-inspired styling... its Trigger-Torque pep... its smooth Angle-Poised Ride. But, in many ways, we're proudest of the way a Ford is built. Ford's husky K-bar frame has five cross members—more than any other car in its

field. Ford bodies are welded to eliminate rust-inviting seams. Ford finishes are baked on to keep their showroom complexion. Ford engines are deep-block, low-friction engines... built to stay smooth, quiet, and savingful. Ford's Angle-Poised Ride makes rough roads easy on the car, too!
