

PLAIN TALK

By BILL PERKINS

"October has over twenty weeks this year!"

We are not going to put out twenty papers though, because there will be only four Thursdays. This sounds confusing, and it is. What we are trying to say is, this is National Newspaper Week, next week will be National Fire Prevention Week, etc., and many of the "weeks" overlap.

We have a week for potatoes, apples, better babies, and even one for better pickles, although we don't all realize it. There is some kind of week going on all during the year and some of our weeks even have two or three different things being observed simultaneously.

But this week is different. After all, it is National Newspaper Week, and since we are in the newspaper business, that makes this week the most important.

We get so busy gathering the news and advertising, setting it into type and printing the papers that we often overlook the fundamentals of this occupation. So, in observance of National Newspaper Week, I'll let some of the masters speak for me.

First—"And ye shall know the truth and the truth shall make you free."—John 8:23.

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances."—Bill of Rights, Article I.

"I disapprove of what you say, but I will defend to the death your right to say it."—Voltaire.

"And were it left to me to decide whether we should have a government without newspapers or newspapers without government, I should not hesitate a moment to prefer the latter."—Thomas Jefferson.

And last, but not least, I'll have to include what Horace Greeley said about the subject—"Journalism may kill you but it will keep you alive while you're at it."

Before anyone gets the wrong idea, "Freedom of the Press" does not mean you don't have to pay your subscription.

Mrs. Wayne W. Rives, who gets her McLean News out in Idaho Falls, Idaho, has always had a fondness for cats and kittens, as most of the folks back here in McLean will recall, and thereby hangs a tale.

Mrs. Rives, the former Mabel Back, lives with her family out in Idaho and still has, or had, a weakness for the lightfooted felines.

It seems that in Idaho Falls one day last week the Riveses were looking out their window at the dismal rain falling when she spotted a cold, wet kitten shivering on a limb of a tree in the front yard. Cat lover that she is, she coaxed her husband into trying to get the kitten down so they could bring it into the house and warm it and give it a good meal. He pulled the yard swing up near the tree and started to retrieve the kitten but the cat started to sputter and fight and would have none of it. It didn't take Mr. Rives long to discover that he was fooling with a live bob cat and not the house cat variety.

A call to the police department wasn't immediately helpful as they thought the people were off their rocker and they sent two policemen and a detective out to investigate the situation.

They got the facts all right after seeing the bob cat themselves and sped back downtown and got a cage to lure the cat into.

Oh yes, the cat has a home now—the Idaho Falls zoo.

Some more McLeans passed here last week end. Fred B. McLean stopped in at David Dwight's service station and asked some questions about our town. He pronounced our town McLean just like we do, and on top of that he lives at 3347 Alameda Ave., South San Gabriel, Calif.

The Tigers played their best game of the season against Lefors last Friday night and we couldn't be any prouder of them if they had won. They earned every inch they gained and they did their best to make their coaches and town proud of them. We are proud of them. As the

Salk Polio Vaccine Now Available Commercially In McLean for First Time

Salk polio vaccine is now available in McLean on a commercial basis for the first time. Dr. Joe Suderman announced this week. The vaccine at the local clinic was manufactured by the Eli Lilly company.

Local persons taking the shots will be taken in age groups on the basis of susceptibility to paralytic poliomyelitis, since the vaccine is still available only in limited quantities at the present time.

All children nine years of age and under, and all pregnant women make up the first group that will be inoculated against the dreaded disease. Grade school students who already have had the first two free polio shots can get their third shot commercially here at this time.

Dr. Suderman stated that he believed he had enough vaccine to take care of the local demand

but that he would abide by the above schedule that was set up in order to assure inoculation to those who are in the greatest danger of having the disease.

The schedule for giving the shots which has proven most effective is for three shots. The second shot is to be given one week after the first and the third shot will be given five weeks after the first. A booster shot will be given before the polio season next spring.

Dr. Suderman said that fresh vaccine would be used for the booster shot next spring. Those who are in the danger age groups are asked to take advantage of the vaccine as soon as possible.

Cost of each inoculation is \$2 for the vaccine and a \$2 charge for each shot will be made by the clinic. Total cost of the three shots would be \$12. Dr. Suderman stated.

Young Tigers and B Team to Play Wheeler Tonight

McLean grade school Tigers and the Tiger B team will meet the Wheeler Mustangs grade school and B teams in two games to be played here tonight. Coach Hap Rogers has announced.

The grade school game is scheduled to begin at 6 o'clock and the B teams will play immediately following this game.

Barbecue Honors J. H. Flesher At Thompson Park

The employees of the Bell Oil and Gas Company gave a barbecue dinner in Thompson Park, Pampa, Saturday evening, October 1, honoring J. H. Flesher, who was retiring after completing 26 years of service as district superintendent of the company.

Ben Fallon, toastmaster, introduced the guests and speakers and presented flowers and other gifts from the employees. J. P. Dyer, secretary of the company, from Tulsa, Okla., paid tribute to Flesher's long and faithful service and his contribution to the oil industry. He presented him, on behalf of the company, a bond and a silver tray engraved with his name and record. R. L. McDonald gave a reminiscence of some of the mirthful events and the close association of the employees through the years. Responses were made by Flesher and his daughter, Mrs. Kenneth Meyers.

After the dinner, a large white cake decorated with a bell and bearing Flesher's name and years of service was served to the following guests: Messrs. and Mesdames C. R. Griffith, H. H. Wade, C. E. Corts, J. B. Lowe, Clyde Dwight Jr., Kenneth Meyers, and T. G. Barbee; Barbara Dwight, Craig Meyers, Mesdames E. E. Gething, R. B. Reckard, B. L. Webb, D. E. McGahey, G. W. Humphreys; Misses Sandra Hedgecock and Marie Slaughter of Shamrock; HARRY Martin of Burk Burnett, Harry Jackson, Joe Dyer and Homer Scott of Tulsa, Robert Warren and Loyde Waters of Pampa.

Employees attending were Messrs. and Mesdames Flesher, James Barker, Joe Bidwell, Sam Cobb, Ben Fallon, O. A. Huffines, F. E. Matheny, G. L. Stuffle, C. Peabody, Wheeler Carter, Paul George, Thomas Bailey, and R. L. McDonald; Mrs. June Griffith, Clyde Dwight Sr., Glenn Jolly, and Jack Humphreys; and the following children: Janice and Jimmy Barker, Terry Don Bidwell, Kathy and Debby Huffines, Donna and Eddie Matheny, Mary Ann and James Carter, and Rocky Bailey.

Personals

Irene George, who has been staying here with relatives and attending school, plans to leave the latter part of the week for her home in Walla Walla, Wash.

Tuesday night visitors in the Noah Smith home were Mrs. D. A. Horton and sons, Tommy and Jimmy, Mr. and Mrs. Manuel Hernandez and daughter, all of Shreveport, La., and Mr. and Mrs. Bobby Horton of Amarillo.

TIGERS TO MEET STINNETT

Coach Hap Rogers' McLean Tigers take to the road again tomorrow night to meet the team that is currently on top in District 1-A, Stinnett.

Stinnett, who has not lost a game this season, has won three games and tied one.

Stinnett's most recent victory was 46 to 0 over Clarendon last Saturday night.

This game promises to be an exciting one as it is surely the strongest team the Tigers have to face this season.

Game time at Stinnett will be 7:30. All future games this season will be at 7:30, it has been announced.

Twirlers Featured By Tiger Band At Friday Game

The McLean Tiger band featured two twirlers in the pregame performance last Friday night. Cieta Sue Hensley and Rolena Chase presented a spectacular special fire baton act while the band played "High School Cadets."

During the half time the Lefors band marched first. The Tiger band formed the treble clef signature, a symbol in music, facing the visitors while playing "Tiger Rag." They formed a horseshoe and played "On Wisconsin" for the home fans. A moving "T" was formed while marching off the field.

The fifth grade students took music aptitude tests on Monday, October 3, to discover talent for beginning band students. The fifth grade is recognized as being the best for beginning formal music education as the child is musically mature at the age of ten. All beginning students must have an instrument this week.

Isaak Walton wrote "Angling may be said to be so like the mathematics that it can never be fully learnt."

Playing their best game of the season so far, the McLean Tigers held the Lefors Pirates to a seven point lead in their annual clash at Duncan Field last Friday night. Lefors, who had been picked by area sportswriters to win the District 1-A title, picked up their first conference win.

The Pirates, who did all of their scoring in the first half, had to fight dearly to maintain that lead when the Tigers came back strong in the second half. Time and again you could hear leather crack as the Tigers held them back and the Pirates couldn't figure what was happening and did little but fumble the ball.

Ronnie Rice carried the ball for a 39 yard stint over left guard for the first score in the ball game. The try for conversion was no good. Late in the first quarter the Pirates collected a two point safety when Tracy Cooper was smothered behind the goal line as he attempted to punt.

Johnny Rowe, Pirate halfback, scored the other run, going seven yards over left tackle for the Pirates' final tally. Again the attempted conversion was no good.

The Tigers came to life with a 32 yard pass from Crockett to Cooper who made a beautiful catch and racked up the Tigers' first score. David Woods brought in the extra point for the Tigers.

The Tigers threatened continuously throughout the second half but were unable to find a dirt.

The Friday night clash was by far the roughest that local sports fans have witnessed this season and was marked by penalties throughout the game. The Tigers showed more hustle and stamina than had previously been seen to date this season. Fans throughout the crowd marveled at the fine spirit and hustle displayed by the Tigers and more respect for the team and coaches than ever was evident after last Friday night's thrilling tussle.

Private Eye Comes Up With

NEW IDEA THIS WEEK

This week, your Private Eye will take a slightly different turn. We want to present to the people of McLean an idea that was expressed recently in relation to the clinic that will be erected in our town soon.

It has been said that the people living outside the city limits should be given an opportunity to have a part in the landscaping and beautification of the grounds and other things that are not included in the public money that has been made available for the building and furnishings.

Everyone knows that the building will be leased to the City of McLean for local administration, selection of a physician, etc. So, it was with this in mind, this person suggested that if some organization would take the lead, the folks that do not live in McLean, but look to McLean as their hometown and as their focal point, would arrange

A Pampa man was killed and three persons from McLean were injured, one seriously, in a head-on crash east of Pampa on the McLean highway about 12:30 p. m. Monday. Killed in the crash was Lynn Dale Crider, 32, of Pampa.

The three persons from McLean injured in the crash were C. D. Hanes, 34, apparently the most severely injured. He suffered several fractured ribs, chest injuries, and lacerations. Mrs. Ella Ann Hanes, 22, is being treated for bruises and shock. Mrs. Annie Mae Herndon, Mrs. Hanes' mother, had multiple lacerations about her face and legs. The crash occurred about 7.5 miles east of Pampa on Highway 273. Hanes, driving a 1950 Pontiac, and Crider in a 1955 Buick collided near the center of the highway. Hanes was traveling toward Pampa and Crider was driving toward Lefors.

R. C. Parker, highway patrolman of McLean, investigated the accident. The crash occurred on a slight grade and curve. Crider had been manager of the Mud Control Laboratories in Pampa for the past two years. His body was taken to Cleveland, Okla., for burial.

Lions Club Sees Film on Atoms At Tuesday Meeting

The McLean Lions Club held its first October meeting at noon Tuesday in the fellowship hall of the McLean Methodist Church. Low attendance at the meeting was attributed to the fact that many Lions must have stayed home to witness the final game of the world series which overlapped the meeting time.

Sheriff Rufe Jordan of Pampa led the club in the pledge to the flag. Lion Ralph Thomas of Pampa was also a guest of the club. Lion cub of the month, Bob Boyd, was also present and was introduced to the club by Freeman Melton Jr. Lion Sweetheart Donna Magee was at the piano while Leslie Talbert, McLean band director, led the group in two songs, Battle Hymn of the Republic and America.

Lion Larry Fuller was in charge of the program and presented a color film on atoms and how they can be used for peaceful purposes.

4-H Club Elects New Officers

The 4-H Girls Club of McLean met September 29 at the McLean grade school to elect officers.

Those elected were: president, Peggy Sharp; vice president, Ruth Parker; secretary, Penny Rogers; reporter, Marsha Andrews; and council delegate, Nancy Jean Hess.

The famous "Robber Barons" were James Fiske, John D. Rockefeller, Cornelius Vanderbilt, and J. Pierpont Morgan.

Fire Prevention Week To Be Observed Oct. 9-15

The McLean Lions Club will give three cash prizes for the three best Fire Prevention Posters made by grade school pupils this year. Each room in grade school will enter the poster contest.

Fire Prevention Week 1955 will be observed October 9-15. Its purpose is to direct public attention to the 11,000 lives and \$870,984,000 in property destroyed by fire in 1954, and to the safety measures which can help reduce these tragic figures in future years.

Fire Chief Boyd Meador has announced that winners in the poster contest, plus students in the first grade, will be given a free ride on one of the city's fire trucks. This feature during Fire Prevention Week in the past has always proved to be the highlight of the week with the younger set, Meador said.

Fire Chief Meador added that statistics of the National Board of Fire Underwriters show an estimated 845,116 fires in U. S. communities of 2500 or more in 1954. This is 8 per cent less than the 1953 total of 918,304 fires, and 15 per cent below 1952's 983,733. The statistics also show, however, that residential fires, which constitute 72 per cent of all building fires and 34 per cent of fires of all types, decreased only 4 per cent in the same two years. This is the weakest spot in the picture and also the most crucial from a standpoint of home and family.

For this reason, Chief Meador urges each citizen of this community to observe Fire Prevention Week by thoroughly checking his home for fire hazards and correcting any unsafe conditions he may find there.

MONTA JEAN KENNEDY

Order of Rainbow Has Installation Of Officers Thursday

The McLean Assembly No. 154, Order of Rainbow for Girls, had a public installation of officers at the Masonic Hall Thursday night, September 27.

Monta Jean Kennedy, daughter of Mr. and Mrs. Paul Kennedy, was installed as worthy advisor. For her theme she chose "Friendship," and her colors are pink, green and gold.

Hall decorations carried out the colors and theme. The pedestal was covered with green, with "Love and Kindness" in gold lettering. Below was a lighted rainbow with "Friendship" in gold letters above the rainbow.

On the center of the platform was a basket of pink asters and yellow mums.

After the officers were installed, the new worthy advisor made a short talk on friendship, presented her parents in the east and gave them flowers. She then read a poem and Barbara Carter sang "Tell Me Why," accompanied by Mrs. Johnie Rodgers. Mr. and Mrs. Kennedy then presented Monta Jean a small ivory gavel to use during her term of office. Patricia Wiggins was presented a past worthy advisor's pin.

Mrs. Ruth Magee, mother advisor, presented awards to the girls. Floella Cubine received the "Grand Cross of Colors Award," the highest honor which can be bestowed upon a Rainbow girl.

Installing officers were: Floella Cubine, installing officer; June Stubbiefield, installing marshal; Barbara Carter, installing recorder; Donna Magee, installing chaplain (all of whom are past worthy advisors of the McLean Assembly); and Mrs. Johnie Rodgers, installing musician.

Other officers installed are: associate advisor, Mauree Miller; charity, Helen Bruner; hope,

DeAnn Clayton; faith, Betty Dickinson; chaplain, Carolyn Pool, drill leader, Donna Meacham; love, Kay Stubbs; religion, Phyllis Hancock; immortality, Betty King; patriotism, Lona Maye Herron; service, Janiece Magee; confidential observer, Suzanne Hibler; outer observer, Alma Pool; musician, Othelia Eustace; choir, Peggy Sharp, Nancy Meacham and Judy Glass.

After the benediction, the officers had a retiring drill.

Immediately following, a reception was held in Friendship Hall. Mauree Miller and Patricia Wiggins served at the refreshment tables which carried out the colors with a lace cover over green, gold colored punch, pink cookies, and green napkins.

Helen Bruner registered 21 guests and 26 members.

Shades of Tom Sawyer!

Hack Willis had just stopped the tractor so he could cool off at the pump, when a young insurance salesman came up the drive.

Hack was tired of plowing, and needed insurance on his new barn. But he also needed to get that winter rye in fast. The salesman, an eager kid, noticed hesitation. "I come from a farm," he said. "Why don't you look at these booklets—get all the dope—and I'll take that plow a couple of rounds for you."

Young fellow laid off a pretty straight furrow, too. It was almost dark before Hack—sitting

in the shade—was able to decide just what kind of policy to get.

From where I sit, to be a good salesman—or a good citizen—it always helps to "put yourself in the other man's place." He may have a different sort of job with different problems . . . he may prefer to close a deal over, say, a friendly glass of beer while you might prefer something else. But both of you can co-operate if you make it a "policy" to try.

REDDY'S Farm Report

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT SOUTHWESTERN PUBLIC SERVICE COMPANY

Inexpensive lamp kit, put together at home, looks good and gives plenty of proper light for reading, sewing, studying and other close tasks.

Getting the correct lighting for reading, sewing or studying is easy with an attractive lamp kit which you can assemble at home and to suit your decorative tastes.

Many 4-H's have found fun in the project, and only recently Mrs. Harriet Brummett, County Home Demonstration Agent in Floyd County, Texas, assembled one of the kits in less than one afternoon. "My husband thinks it is the best reading lamp in the house," says the proud Mrs. Brummett, who adds, "the amazing part about this quality lamp is the low cost. The kit and the approved R-40 bulb cost only about \$4.00."

Your Home Demonstration Club, 4-H Club or other groups can set up a craft lamp-making project with the help of your County Extension Agent. It's not only fun, but the kits come in a variety of colors permitting the homemaker to choose lamps which harmonize with the motif of the home. The Floyd County Home Demonstration Clubs are already planning similar craft lamp projects for this winter.

Important is the fact that although the lamp is extremely attractive, it still entails the design

of good lighting. Good lamp lighting requirements call for a shade that is open at the top for upward reflection of light, sloping sides which direct a soft but adequate flow of light downward on the subject matter being seen. The shade may be opaque and lined in white for maximum light output, or translucent and light in color.

For proper "seeability" a lamp is actually only as good as the bulb used. In this lamp recommended usage calls for a 150 watt, 150 R/W white indirect, bulb. This inside white bulb acts as its own diffusing reflector thus eliminating the use of a glass bowl for that purpose.

Again, the lamp is tall enough to cover a wide working area, and its base is large enough to prevent tipping.

Every home needs several good reading lamps, and here is your opportunity to have as many good reading lamps as you need at a cost you can well afford. With the school season in full swing, good lamps are an investment in good eyesight. Lamps can be replaced as styles change, but eyes are non-replaceable and should be given the proper light to see by.

Editorial

IT'S OUR WEEK

What makes a newspaper the basic and primary reading habit of the people?

Well, lots of things do, but let's suggest just a few.

The reliable coverage of news—all of the news, not just the bare headline facts by the newspaper—is indispensable to the community. Think how your own newspapers have kept you informed in time of peace and in time of war—how they've exposed corruption and crime to help make your city a better place in which to live—how by giving you the news, they've led the way to better law enforcement, increased fire protection, fought for better schools and parks or playgrounds. Think of the thousands of lines of space they gave to the Chamber of Commerce to help the city progress, or of the space they gave to the Tuberculosis Seal Sale, the Polio Drive, the Red Cross, the Community Chest, and other worthy causes which could not exist without this help.

It keeps the individual informed of what goes on all over the world and—more important—right down the street in his own home town.

Let's go into a typical American home—and there are few without a newspaper—and see what happens to the newspaper.

The child's birth was no doubt announced in the newspaper. Mother looked over the advertisements to shop for the baby's clothing and food. As he grew older, the comics were read to him and later he took an interest in the sports page and learned all about scoring and knew the batting averages of the outstanding major leaguers. He shopped the classified ads for his first jalopy. He followed the amusement pages to see where he was going to take his girl that night. He also found that reading his newspaper helped with his school work, for in a typical Connecticut high school, 97% of the students say they read the newspapers and 85% testified that newspapers help them with their studies.

The woman of the family looks at the society page for news of women she knows; of parties given and who was there; she learns about fashions and beauty hints; what's new in dresses and hats and how much they cost. The food advertisements tell her where to buy the best for the least and give her hints on new ways of preparing tempting dishes for the family.

Recent surveys show that 95% of those women who read a newspaper—and that's practically all, read the advertisements, and whether it's a car or a hat that hits her eye, something usually happens.

Chances are the man of the family went to his first job through a classified ad. News and facts from the newspaper help him form his opinions and he finds mental relaxation in the comics and crossword puzzles. Business news helps him keep abreast of the times and the sports he devours. And he likes to see his own name in the newspaper, news of his marriage, his latest promotion, or his election as president or officer of some club or lodge. Then, too, he follows the latest advertisements of his firm.

Newspapers satisfy the hunger for facts, fresh and complete while they are news. We all know that the closer anything comes to home, the more real it is. Thousands can become homeless through some disaster in some distant area, but right or wrong, it bothers us a lot more if our rent is going up.

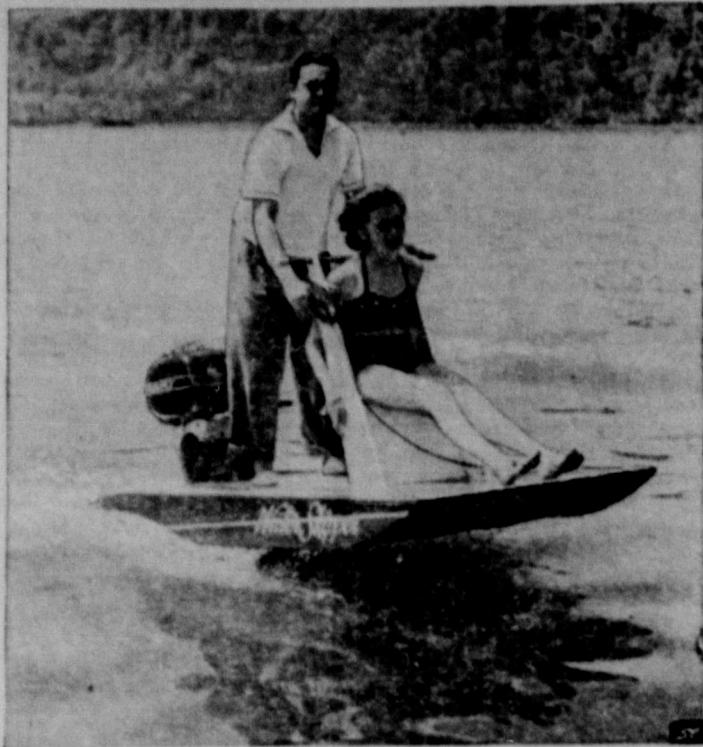

America's free press belongs to the people and not to the newspapers. Over the years we have witnessed the encroachment upon the press in various countries, and we have been convinced that we must be ever alert here at home protecting that freedom. This is far from being a partisan question. Generally speaking, the members of America's leading political parties sense the dangers ahead and have resented signs of encroachment.

One of the first things a dictator does when he gets into power is to abolish the free press. He knows that he cannot enslave a well informed people and a free press will keep the people well informed and his job will not last long.

Most newspaper allow their readers to express their opinions through a "Letters to the Editor" or similar column.

The newspaper is more than a dispenser of world and local news. It avails itself of the boundless opportunities to do good. Its success depends upon the confidence it readers place in the newspaper and the respect they have for those who conduct the publication.

Look Ma... No Hands

That's right... you don't need hands to steer this craft. You merely shift your weight in the direction you want to go and the boat follows along. There's no steering wheel, just a safety-type throttle for controlling speed. This modern counterpart of the bicycle built for two skims the waves at a snappy 25 m.p.h. when using a Mercury Mark 7 outboard. Water skimming requires less skill than aquaplaning or skiing, and is gaining tremendous popularity with youthful speed-^o-led skippers.

Jas. Burrows Is Advanced

We are pleased to learn that Jas. Burrows, who has been section foreman at this station for several years, was recently promoted to the position of assistant road master with a material increase in salary. Mr. Burrows has been engaged in the railroad work for many years and his distinct recognition of his loyalty and strict attention to business is a pleasure to his many friends.

R. A. Burrows, who has been in charge of the section at Rockledge, will be transferred here, and while the position is no more lucrative, it will be more pleasant in many ways.

Pleased With School

I. D. Shaw of Alanreed was in the city Monday with his five children to place them in the local school, having transferred from the Alanreed district. Mr. Shaw expressed himself as favorably impressed with the personnel of our teaching staff and the prospects for a successful school year.

Warning

On account of the reckless disregard for the ordinance regulating speeding within prescribed limits in the city of McLean, it will be necessary to adopt stren-

uous methods to stop this practice, and the public is hereby warned that such violations must be stopped. Anyone caught driving recklessly through the streets will be prosecuted accordingly.

Woodman Circle Picnic

On Wednesday, September 15, a jolly picnic was enjoyed by the members of the Woodman Circle. They assembled early in the day on the beautiful lawn at the W. B. Upham home west of town. A sumptuous basket dinner was spread under the locust trees at the noon hour. Later a bounteous watermelon and cantaloupe feast was enjoyed. Music and singing were mingled with friendly discourse, and hearty good cheer prevailed the atmosphere. The festivities were ended by a delicious ice cream course, and everybody left with the wish that another such day might soon be spent.

The members of the circle present were Mesdames Whitley, Dougherty, Skidmore, Kübler, Bentley, Russell, Wilson, Henry, Noel, Easterwood, Piersall, Kolb, Foster, Upham, Smith, and Bird. Specially invited guests were Messrs. Blaylock, Upham, and Rice; and Mesdames Sugg, Rice, and Floyd.

Employees who are not asked for this information should volunteer it when they go to work for a new employer, Sanderson said.

As a final reminder, Sanderson urges employers who receive correspondence from the Social Security Accounting Division concerning missing or incorrect social security numbers to answer the correspondence promptly. A prompt reply to such correspondence, he says, will save the expense of follow-up correspondence and personal contacts by his

A man who discovered the joys of fishing rather late in life became even more insistent when recounting his triumphs to skeptical acquaintances. When they kept scoffing, he became enraged, bought a pair of scales, installed them in his den, and insisted that friends watch while he weighed the fish. One evening a friend burst in excitedly and asked permission to borrow the scales. He was back in 10 minutes, his face flushed with pride and excitement.

"Congratulate me," he shouted, jumping up and down. "I'm the father of a 48-pound baby."

Cookies For Waist-Line Watchers

There's no need to deny yourself an occasional dip into the cookie jar when it's filled with Orange-Nut Drops, a crisp, sweet cookie developed especially for dieters. This confection, although filled with nuts, hits a low 34 on calorie meter. Secret of the cookie's low-calorie success is that it's sweetened entirely with Sucaryl, the newly improved non-calorie sweetener which can be used in cooking and baking without becoming bitter or losing its sweetness.

Along with the cookies, you can also help yourself to a tall, ice-licking glass of lemonade or iced tea. Sweeten it just the way you like it, with Sucaryl, and you'll have scarcely a calorie to fret about. In iced drinks use Sucaryl solution, or crush and dissolve the tablets separately. For all of your sweetening, one Sucaryl tablet or 1/8 teaspoon of solution is equal to about 1 teaspoon of sugar.

Orange-Nut Drops

1/2 cup butter or margarine	1-2/3 cups sifted flour
2 teaspoons Sucaryl solution, or 16 Sucaryl tablets*	1/4 teaspoon salt
1 egg	1 teaspoon baking powder
2 tablespoons orange juice	1/2 teaspoon soda
1 tablespoon coarsely grated orange rind	1/2 cup skins milk, soured with 1 tablespoon vinegar
1/2 teaspoon vanilla	1/2 cup chopped English walnuts

Cream butter in small mixer bowl on high speed until well softened. Add Sucaryl solution, egg, orange juice, orange rind, and vanilla. Sift dry ingredients together and add alternately with the soured milk. Blend in nuts. Drop by teaspoonsfuls onto a greased cookie sheet. Cut through batter with edge of spoon to flatten each cookie slightly. Bake in a moderate oven (375°F.) 18 to 20 minutes, or until nicely browned on top. Store cooled cookies in a container with a loose cover.

*If Sucaryl tablets are used, dissolve in the orange juice. Makes 36 crisp cookies. Each contains 34 CALORIES; 0.7 grams protein; 2.3 grams fat; 2.5 grams carbohydrate. If made with sugar, each would contain 49 CALORIES.

Here's Proof That Advertising Does What You Want

When romantic 54-year-old Newcomb Chapel in New Orleans was about to be demolished, a classified ad was placed in the New Orleans newspaper to locate women who had been wed there so they might visit it once more. Thirty-five former brides responded to the ad.

A Bridgewater, Conn., woman got results beyond her fondest dreams when she placed a classified ad seeking a used wedding dress for her cousin in Poland. The owner of a bridal shop in Bridgeport saw the ad and gave her a new satin gown trimmed with seed pearls.

Famed and beloved story-teller Hans Christian Andersen, born April 2, 1805, first saw Copenhagen as a stage-struck youth of 14. Failing to gain a theatrical role, the penniless lad took a job as cabinet-maker apprentice which he saw in the want ads.

A Texan put a newly purchased automobile in a private lot in Providence, R. I., while on business, then couldn't remember the location of the lot. A classified ad in the Providence newspaper quickly re-united him with his misplaced automobile.

To promote an African jungle movie, the manager of the State Theatre in Minneapolis wanted a man to live like a child of nature in the woods three days. A classified ad gave him a choice of several "Nature Boys."

Mr. and Mrs. Frank Kennedy and family of Quail visited Sunday in the home of Mrs. W. E. Kennedy.

Mrs. Myrtle Dilli of Amarillo visited here Sunday with Miss Cleo Pope.

Mr. and Mrs. Ralph Bayless and Mr. and Mrs. John Bayless and son of Borger visited in the Homer Abbott home Thursday night. Mrs. John Bayless and son remained until Sunday.

Unable to contribute to a Red Cross drive for blood because of anemia, a Lincoln, Neb., woman placed a classified ad in the Lincoln Star and Journal offering \$5 for substitutes. More than a dozen donors responded.

To secure photographs needed to complete the autobiography of famed jazz trumpeter Louis "Satchmo" Armstrong, Prentice-Hall, New York publishers, placed classified ads in the New Orleans Times-Picayune and States and soon received many old photographs.

Its facilities taxed by a heavy influx of polio cases in the summer of 1952, a children's hospital, placed classified ads in the Minneapolis Star and Tribune seeking extra cribs and received donations of 53.

The San Jacinto Monument in Houston is the world's tallest stone monument—570 feet, 4 inches.

The Hawaiian Islands formerly were called the Sandwich Islands.

New Farm Machinery In Spotlight at Fair

Acres of farm machinery and implement exhibits at the 1955 State Fair of Texas, Oct. 7-23, indicate to what extent Texas farms are being mechanized.

The exhibits prove that the implement makers are even finding new ways all the time to improve on the design of such a basic implement as a plow. At the other end of the scale are complicated machines such as mechanical cotton ginner and monstrous earth-moving equipment.

New power steering and other refinements bring the tractor, the No. 1 farm machine, right up to date, making it as pleasant and easy to operate as driving the family car.

HERE'S HEALTH! By Lewis

GRAPES... THE GLAMOUR FRUIT

GRAPES ARE SO ANCIENT, A FRUIT THAT THEIR ORIGIN IS LOST IN ANTIQUITY THERE IS EVIDENCE THAT THEY WERE CULTIVATED DURING THE BRONZE AGE (ABOUT 4,000 B.C.)

GRAPES ARE POPULAR FOR THE FRUIT BOWL BECAUSE OF THEIR FRAGRANCE, FLAVOR, COLORING AND GRACEFUL SHAPES

GRAPES ARE AT THEIR BEST WHEN EATEN OUT OF HAND BUT THEY ARE DELICIOUS IN JELLIES, IN FRESH GRAPE JUICE AND IN DESSERTS

WHEN LIEF THE LUCKY SIGHTED THESE SHORES IN THE 11TH CENTURY HE CALLED THIS COUNTRY "VINELAND" BECAUSE OF THE GRAPES GROWING HERE IN SUCH PROFUSION
